

Report of the Leukosis Committee of the AAAP

This committee has been particularly active the past two years, sponsoring a Workshop in 1970 and a Symposium in 1971. Most of our effort this year has been devoted to helping prepare last years Symposium papers for publication in Avian Disease.

We all know the Leukosis Committee "never rests" and we always welcome your suggestions for appropriate activities next year.

D.P. Anderson, Chairman
B.W. Calnek
H.G. Purchase
J.L. Spencer
