### TRAITORS IN REPUBLICAN PARTY.

No matter what may have been the Republican principal in the past or even now, it is a fact now that there are many leaders of the party who do not regard or attempt to live up to its traditional teaching, as was shown recently in the United States senate, when the committee on commerce would not recommend the appointment of Dr. Crum whom the president appointed to be district revenue collector at the port in South Carolina; yet the republicans had a majority on the committee.

There was nothing against Dr. Crum, except his color, and the southern white men threatened to kill him is appointed. Jones of Nevada and Perkins of California were the republican traitors, they could offer no reason for joining with the democrats to assist in turning down the president's appointment, but we earnestly hope that the Senate as a whole will vote to confirm him, as the republicans have a good majority. It is an imposition, a shame, a snare to have traitors in our party. Those men are republicans only for public policy or for selfish motives and because it is the leading party, and not for its principals. There are many others just like those traitors who have been elected to office by colored voters. They are in all classes, from the little politician to the big politician. If Fremont, Lincoln Seward, Garfield and Grant could see the actions of some so called republican leaders they would hide their heads in shame. If not a true republican, be honest, be fair and reasonable and give all an equal opportunity.

### FEBRUARY AS A BIRTH

It seems a peculiar coincidence that the month of February has been noted for the birth of more distinguished men and women than any other one month. Those honored American citizens have done more to construct and build a government than any other individual have. Chief among those is George Washington, who was born on the 22 of February, 1731. The great work he done and the impression is well known to all who read. The next is Abraham Lincoln, born February 12, 1817; his great and peculiar work as an emancipator and a saviour of his country can never be fully estimated. Then Frederick Douglass, born February 17, 1817, a slave bought his freedom, was forced to leave his country, later returned and with his power and earnest eloquence assisted in breaking the chains of slavery from his race. Then Mrs. Susan B. Anthony Feb. 17.

### NEXT FRIDAY IS COUNTY PRIMARY DAY.

On next Friday, March 6, is republican primary election day; every republican voter should attend and express his preference as to the candidate he wish to be elected. Often to little importance is put upon the primaries and you do not go, then when certain men receive the nomination you say he ought not to be nominated. Now let us all go out and help nominate good men. There is good material for each place, so do not forget to vote.

If more of the people of this city would figure with us before they plunge into a contract for some cheap goods at a high price, because of having been sold many times before they reach this city, they would have enough left to buy some other nice furniture or pay for many lessons for their children, so that they might have some use of their instrument.

We have many slightly used instruments, some of which have been taken in exchange for our Kimball pianos, that we are offering at extremely low prices. A number of square pianos at \$25 to \$40, new and second hand organs, \$5 to \$100. Organ rooms on second and third floors. Over fifty organs in stock, from which you may select.

## DON'T BE FOOLED

Advertisements having appeared in various publications wherein Sears, Roebuck & Co., offer Wheeler & Wilson sewing machines, we wish to warn the public that they are not our authorized agents and that we do not sell our machines to them nor any other catalogue house or department store.

Their advertisements are not for the purpose of promoting the sale of our machines. They are using our reputation as makers of the highest grade machines only, in order to get the names of possible buyers and persuade them to purchase one of their cheap STENCILED MACHINES, the manufacturers of which they are, evidently, ashamed to make public.

If you want a genuine Wheeler & Wilson machine, do not waste your time writing to anyone who is unable to furnish it. The genuine Wheeler & Wilson machine, made by us and backed by our warranty, is for sale by our authorized dealers only. When you buy a Wheeler & Wilson, you get a machine that is a machine, backed by a reputation of 50 years' unparalleled success.

SALEM, IND., Feb. 5, 1908.—"I received the trial package of Doan's Kidney Pills and I must confess they did me wonderful good. It seems strange to say that I had tried several kinds of kidney medicines without doing me any good. I had backache, pain in my bladder and scalding urine, and the sample package sent me stopped it all in a few days, and with the package I am now using from our drug store I expect to be cured permanently. It is wonderful, but sure and certain the medicine does its work. I was in constant misery until I commenced the use of Doan's Kidney Pills."—CHAS. R. COOK, P. O. Box 90, Salem, Washington Co., Ill.

**PROSPERITY IN CANADA.**

The Farmer in Western Canada Achieves Wonderful Success.

One of the first things that the man who wishes to change his residence

endeavors to find out is where he can go and succeed. It need be a matter of little doubt or indecision now. During the past four or five years the development of Western Canada has been so rapid, and the conditions of life there so widely known, that upwards of 100,000 Americans have taken up their homes there, and the experience of these people is that they are thoroughly satisfied with their choice of home.

The methods of farming there are similar to those adopted in the United States, but the operations are simpler, the yield of grain greater and the profits more satisfactory. Ranching is carried on with lots of success. Mixed farming is always profitable, while the results in grain raising are as good as an splendid soil, excellent climate and lots of sunlight can give.

The fields of—, but nothing is as satisfactory as the experience of the farmer himself, and extracts are selected from one.

A good, intelligent farmer named Meers, John Meers to be exact, left Cavalier county, North Dakota, two years ago and followed the thousands who had already gone to Canada. He had twenty-five years' experience in Minnesota, in buying grain, including flax, but in all his experience he never saw a district so well suited to the growth of flax as Western Canada.

The financial results of Mr. Meers' operations in a single season are as follows: Wheat, 3,000 bushels, 1 hard, at 57¢, \$1,755; 2,680 bushels 1 North, at 54¢, \$1,450; Oats, 1,750 bushels, at 35¢, \$612.50; Speltz, 154 bushels, at 75¢, \$115.50; Flax, 324 bushels, at \$2.628. Total, \$4,598.20, a return of more than \$4,500 from a little over 250 acres, an average of \$18 per acre, is surely testimony sufficiently strong to satisfy the most incredulous as to the money to be made out of the soil of the Canadian West. It is to facts like these—arguments expressible and demonstrable in dollars and cents—that the steady northward movement of American farmers is due.

Mr. Meers is settled near Arcola, Assa.

A number of Americans who have chosen Western Canada as a home had the idea that a man enjoyed less freedom in Canada, but they soon found their mistake, and say the laws of Canada are the most liberal in the world, and such as prevent the litigation which breeds so much bad feeling between people in the United States and costs them so dear in lawyers' fees.

The government has established agencies at St. Paul, Minn.; Omaha, Neb.; Kansas City, Mo.; Chicago, Ill.; Indianapolis, Ind.; Milwaukee, Wis.; Wausau, Wis.; Detroit, Sault Ste. Marie and Marquette, Mich.; Toledo, Ohio; Watertown, S. Dakota; Grand Forks, N. Dakota, and Great Falls, Mont., and the suggestion is made that by addressing any of these, who are authorized agents of the government, it will be to the advantage of the reader, who will be given the fullest and most authentic information regarding the results of mixed farming, dairying, ranching and grain-raising, and also supply information as to freight and passenger rates, etc.

# HAPPENINGS IN HAWK EYEDOM

What Has Been Going on During the Past Week.

## F. DAIRD IS FOUND GUILTY

Convicted at Knoxville of the Robbery of F. Sullivan on New Year's Eve—Refused to go on the Stand and No Evidence for Defense Was Given.

Knoxville, Feb. 26.—Frank Daird, charged with robbing F. Sullivan of \$2,000 on New Year's eve, went to his doom yesterday, dumb and unmoved. The trial finished without his testimony and the jury was out but a short time, returning to court to announce a verdict of "guilty as charged."

The defense did not put on any testimony, depending for its showing, apparently, on the cross-examination of witnesses. The fact that Daird did not go on the stand was sufficient to create almost as much of a sensation as he was expected to create if he had gone on.

His silence is regarded as quite remarkable and convinces the people of the absolute truth of the story told by the Sullivans of the robbery. This was developed on the trial of Daird to be about as given in the newspapers heretofore—two men committing the robbery within the house while the third held the team in the rear of the house of the three, the wounding of Daird and his capture, and the disappearance of the other two.

Daird will be sentenced Saturday morning. There is no reason to doubt that he will receive the limit, despite the disfigurement which he suffered as a result of the gun shot wound inflicted by Sullivan.

## SERVANT GIRLS FORM TRUST.

Housekeepers Talk of Organizing for Protection.

Cedar Falls, Feb. 27.—The housekeepers of this city are greatly agitated over the servant girl question. They claim they are being made the victims of a trust which strikes home, and that unless the housekeepers can organize for their protection the time is not far distant when the servant girls and not the mistresses of the house will rule. When a girl is employed for general housework there are certain questions which are asked the employer. The girls have certain privileges which must be granted, or no contract is entered into. The rules of governing the kitchen work are laid down by the organization among the kitchen girls and the housekeepers are compelled to comply to the regulations.

The society of girls for housework make it obligatory for the employers to knuckle to the demands and they are obeying the mandates of the kitchen maids' union to the letter. When a girl comes to town who is not a member of the organization she is called upon by some member, or members of the union who lay down the rules for her to follow, and in case she refuses to comply she is ostracized by the union and finds entrance to her class of society extremely difficult. Wages paid are up to the standard and above those paid in cities, and afterwards and evenings, in the majority of cases, are taken. Only the importation of servant girls from other localities will relieve the situation unless the housewives enter into a combine and agree to do their own work.

## JUDGE CENSURES PARKER JURY.

They Could Not Agree on Verdict in the Wine Room Case.

Des Moines, Feb. 26.—In discharging the jury which disagreed as to whether Ben Parker, Charlie Gritton and Gerald Embury had conducted a nuisance in the saloon at East Second and Walnut streets, Judge Given was forced to censure the jury, an unusual occurrence in the Polk county district courts.

The instructions to the jury were plain and a verdict was expected within an hour at least. But the jury was out for almost seven hours and then reported that it could not agree. The court instructed the jury as follows:

"If you find from the evidence that in this county and within the period last named (from August 7th, 1902, to January 23, 1905), the defendants or either of them were concerned, engaged or employed in keeping the place in question for the keeping for sale or selling intoxicating liquors therein, you will find the defendant or defendants so engaged, concerned or employed guilty as charged."

The evidence was that the place was a saloon, operated under the malt law, where beer, ale, whisky, wines and other liquors were sold. After seven hours deliberation, however, the jury could not report a verdict and was discharged with the court's censure.

## BROKE PAROLE; BACK TO JAIL.

Clinton County Man Convicted of Murder is Desperate Man.

Des Moines, Feb. 25.—Frank Davis has been brought back from Norwich, Conn., to serve out in the Anamosa penitentiary the remainder of a seven-year sentence for murder in Clinton county in 1891. Davis had been paroled by the governor and had left the state soon after. Complaint was made in Norwich, Conn., that he was leading a bad life, living in fact with his daughter as his wife, and she had one child. He had been arrested and tried for brutally assaulting his daughter. The belief in Connecticut was that he was a desperate man and the governor of Iowa was asked to return him to the penitentiary, which has now been done. He will remain at Anamosa about seven years.

## Gift to Mrs. Rump.

Washington, Feb. 24.—The general deficiency bill discussed in the house yesterday carried an item of \$5,000 direct gift to the widow of the late Captain Rump.

## Mrs. Krebs Found Innocent.

Centerville, Feb. 23.—A jury acquitted Mrs. Krebs, charged with the murder of her husband. The woman claimed that she shot in self-defense during a quarrel over her threat for a divorce on the ground that Krebs had twice assaulted her daughter.

## Bail for Hunter.

Mt. Airy, Feb. 21.—Judge Parrish this evening fixed Matt Hunter's bail bond at \$10,000. Hunter is to answer in a new trial to the killing of Homer Holland. His attorney says there will be no doubt but the bond can be secured.

## GREATEST OF ALL STATES.

Iowa's Lead in Live Stock Wealth is Shown by Statistics.

Des Moines, Feb. 25.—Iowa not only leads the nation and the world as a corn raising state, but is now in the front rank as the greatest live stock state in the country. According to the statistician of the United States department of agriculture, the principal farm animals of Iowa are worth \$277,410,484, or \$65,000,000 more than those of any other state, New York ranking second.

In the number of its horses Iowa leads in value and is second to Texas in number. Iowa has 1,044,570 horses, valued at \$69 each, or worth a total of \$72,760,061. Texas has 1,291,453 horses, but these are worth only \$35.70 each, or less than half the value of Iowa horses. Kentucky and Missouri, fourth and fifth in horses, are worth for years as the great horse states of the nation, are way down in the column both in number and value of horses and in individual value, the horses of Iowa leading all other states in average valuations.

In dairying Iowa now stands second only to New York. The state has 1,320,912 milk cows, worth an average each of \$30.03, or a total of \$141,769,087. New York's milk cows number 1,576,503 and are valued at \$55,619,000. Of cattle other than milk cows, Texas has the most, the total being 8,007,910, valued at \$13.70 each and worth a total of \$109,693,754. But in the value of other cattle Iowa leads.

There are 3,574,012 cattle other than milk cows in the state, worth an average of \$23.10, or a total of \$82,544,655. In the combined value of all classes of cattle Iowa leads all the other states.

As a mule producer the state does not stand high. It is seventeenth with only 45,914 mules, worth \$3,400,365.

Sheep raising is also a comparatively small industry. The state has only 898,040 sheep, valued at \$3.58 each, a total of \$3,211,571. Montana leads in the number and value of sheep.

But in the production of hogs the state is far and away to the front. Iowa has 7,438,655 hogs of an average value of \$8.97 and a total value of \$66,724,735, while Illinois is second with only 2,747,000, valued at only \$35,338,878. Iowa has twice as many hogs as any other state in the union and their value is proportionately large.

The total given for the value of farm animals does not include poultry or animals other than those designated.

## FIRETRAPS TO BE FIXED.

Des Moines Fire Chief After Hotels and Theaters.

Des Moines, Feb. 24.—The hotel and theaters at the Clifton house, Cedar Rapids, last week, has awakened the authorities in Des Moines, as also elsewhere, to the necessities of equipping all buildings more than two stories high, with fire escapes. Formerly the proprietor of local hotels and theater buildings were required to erect fire escapes only by ordinance, but the last legislature enacted it into statutory law. The law became effective last July, when the owners of these buildings were notified by the fire department to comply with it as soon as practical. They were at first disposed to treat the admonition with indifference, but Chief Burnett has steadily impressed it upon them until lately they have begun to display more than passing interest in complying with the statute. The chief and his assistant, Mr. Taylor, are making daily inspection of buildings in the city, and forcing upon the attention of owners the law and perhaps averting serious calamity.

## STRONG CASE AGAINST WALKER.

Witness Says She Saw Him Strike Finkelstein.

Des Moines, Feb. 27.—The state springs its promised sensation in the Walker murder case today when it put Ada Hazelwood upon the stand and the woman testified to seeing Walker and a smaller man whom she could not identify hiding in the alley on East Walnut street, between Sixth and Seventh streets, where Isaac Finkelstein was killed, to passing Finkelstein within a few feet of the mouth of the alley, to hearing a heavy blow and hearing Finkelstein gasp "Oh," and then turning around in time to see Finkelstein fall to the ground, stricken down by the death blow. The witness stated that the hour star witness of the state. The defense consumed almost an hour in a severe cross-examination of the woman and in an attempt to impeach her testimony. Ada told a straightforward story, however, and did not alter it in any main point despite the severe cross-examination of Mr. Mulvaney for the defense.

## ANOTHER VICTIM IS LOCATED.

Dead Body at Cedar Rapids is Believed to Be Bruce, New York.

Cedar Rapids, Feb. 24.—The unidentified body at the morgue, a victim of the Clifton hotel fire, is now believed to be that of M. E. Bruce, New York city. It had previously been identified as G. E. Holmes.

A. P. Johnson, another guest, is also unaccounted for. Johnson is supposed to have come from an Illinois town, presumably Morris.

Fire at the Pullman hotel yesterday did slight damage. It aroused the authorities to the importance of immediately enforcing the fire escape law, and the proprietors were ordered to at once place a metal roof on the building.

## ROGERS GOT FOUR YEARS.

Man Who Shot William Work is Sent to Penitentiary.

Manchester, Feb. 27.—Judge F. C. Platt sentenced Richard Rogers to four years, and Oliver Leibe to eight years in the Anamosa penitentiary. Rogers is a blacksmith, who, on January 2 of this year, shot Wm. Work of this city in the arm, while in the presence of liquor, and after having indulged in a pugilistic encounter in which he was the aggressor. Leibe was found guilty of the charge of rape in the district court last week. Both prisoners were taken to Anamosa by Sheriff Fishel.

## Iowa Falls in Guard.

Des Moines, Feb. 24.—Adjutant General Byers returned yesterday from Iowa Falls, where he looked over the ground with reference to mustering in company of the guard at Iowa Falls to take the place of the Forty-ninth regiment formerly occupied by Marshalltown. He was very much pleased with the situation at Iowa Falls and there is no doubt that town will get in to the national guard with a strong company well reported locally. The company has already been gathered and will be mustered in in time to participate in the encampments this year.

## Constipation Undermine Your Health.

Mull's Grape Tonic Cures Constipation.

When the sewer of a city becomes stopped up, the refuse backs into the streets where it decays and rots, spreading disease-creating germs throughout the entire city. An epidemic of sickness follows. It is the same way when the bowels fail to work. The undigested food backs into the system and there it rots and decays. From this festering mass the blood saps up all the disease germs, and at every heart beat carries them to every tissue, just as the water works of a city forces impure water into every house. The only way to cure a condition like this is to cure the constipation. Pills and the ordinary cathartics will do no good.

**MULL'S GRAPE TONIC** is a crushed fruit tonic-laxative which permanently cures the affliction. The tonic properties contained in the grape go into every affected tissue and creates strength and health. It will quickly restore lost flesh and make rich, red blood. As a laxative its action is immediate and positive, gentle and natural. Mull's Grape Tonic is guaranteed or money back.

J. G. Glass of Cresco Almost Lost His Life.

Cresco, Feb. 24.—J. G. Glass of the T. E. Glass Grocery Co., while attempting to stop a runaway team hitched to one of the Standard Oil Co.'s large tank wagons, was thrown under the wheels and seriously injured. The ground was icy where he fell, and he was thrown in such a position that one ankle was caught by a front wheel, and his head caught by a rear wheel of the wagon, and he was pushed along the ground by the wheels for about twenty feet. The brakes were set hard, and the rear wheels were sliding and he was being run over and crushed. His scalp was so badly torn that the surgeons found it necessary to take twenty stitches in dressing it. He lost consciousness about three hours after the accident, and remained so during the remainder of the day, and serious internal injuries are feared.

**MUST RENEW BONDS YEARLY.**  
Important Ruling as to Saloonkeepers Made by Judge Given.

Des Moines, Feb. 26.—A point developed in the trial of the state against B. F. Parker and was passed on by Judge Given that will be of interest to those engaged in the liquor business in the state.

The testimony showed that Parker had procured the bond filed with his consent from an indemnity company, and that the year for which he had paid the tax expired in September last. The bond was not renewed until January. The state maintained there had not been compliance with the mulct law, inasmuch as there had been no bond for the period between September and January. The defense claimed, and the first bench in the hands of the local agent of one of the bond companies and depended upon him to make renewals, and that it was the oversight of the agent that resulted in the filing of the bond. But the principal contention was that in as long as the first bond was in force there was no occasion for a renewal, that the law had been complied with.

Judge Given instructed the jury that the law contemplates the filing of a new bond the first day of each year and the payment of the mulct tax upon the first day of each quarter. He said that failure to do this does away with the protection afforded by the law, and that the sales of liquors become violations of the old Clark law. It was ascertained yesterday that a great many saloonkeepers in Des Moines fail to renew their bonds from year to year, figuring that a bond continues until revoked by those signing it. It was also stated that it has been the common practice in the state to do this.

**COUNCIL TO ENFORCE ORDER.**  
Announces That Assessors Must Return True Valuation.

Des Moines, Feb. 26.—The executive council has authorized its secretary to communicate with the various county auditors of the state with a view to securing the names of the various assessors in their districts and heads of the local boards or equalization. The council proposes to see that the assessors return their valuations on all real estate coming under their inspection and the despatch of these letters is the first step in a campaign that has been planned for that purpose.

When the council issued its orders to assessors last year a special point was made of the fact that the code declares that assessors must assess land at its market value. It has been learned from various sources that there is a disposition on the part of the assessors to disregard this instruction and to return valuations that are from 20 to 30 per cent below the actual value and actually sold for. It is to frustrate these attempts that the council is now taking action. Circular letters which are soon to be issued to the assessors will call attention to the fact that the code provides that assessors who "knowingly fail to neglect to return full valuations can be made liable to the extent of \$500 in a civil action.

The ground was icy where he fell, and he was thrown in such a position that one ankle was caught by a front wheel, and his head caught by a rear wheel of the wagon, and he was pushed along the ground by the wheels for about twenty feet. The brakes were set hard, and the rear wheels were sliding and he was being run over and crushed. His scalp was so badly torn that the surgeons found it necessary to take twenty stitches in dressing it. He lost consciousness about three hours after the accident, and remained so during the remainder of the day, and serious internal injuries are feared.

**WILL TAKE PRODUCE TO CITY.**  
Interurban Preparing to Supply City With Produce.

Des Moines, Feb. 24.—The Interurban Electric Railway company is having constructed at the shops in this city three or four cars which will be devoted exclusively to the shipment of butter, eggs, milk, vegetables, etc., from farms and gardens along the line of the interurban from Newton to Des Moines. The cars are designed to accommodate express business and the other to carry milk and vegetables in refrigerator compartments. When the service is put on, a car will leave Colfax at 5 o'clock in the morning, and another at 7 o'clock, for Des Moines, bringing in milk, vegetables and butter for the early market. The company will erect platforms at convenient points along the line for the use of milkmen and others who may have occasion to use them.

**WEALTHY FARMER ACQUITTED.**  
Ira Newman Was Charged With Horse Stealing.

Clarinda, Feb. 26.—The jury in the Ira Newman horse stealing case returned a verdict of not guilty. The case was excited marked interest all over the county from the fact that Mr. Newman has for the past fifteen years been one of Shenandoah's most honored citizens. He is a pillar in the Baptist church, superintendent of the Baptist Sunday school and his wealth is estimated all the way from \$40,000 to \$60,000. Public sentiment was strongly in favor of the acquittal, as the evidence introduced was purely circumstantial.

Stout City, Feb. 24.—The agreement entered into by the saloon men and the saloon league and Mayor Caldwell, by which the anti-saloon league withdrew from the fight against the saloons and by which the saloons were to be permitted to remain open an extra hour during the week and two hours on Saturday, is to be severely tested. Four saloons have already broken their agreement. Mayor Caldwell will ask that their licenses be revoked and will use every effort in his power to close them up. Sends the Following Grand Testimonial to the Merits of Cuticura Remedies in the Treatment of Humours of the Blood, Skin and Scalp.

"I wish to give my testimony to the efficiency of the Cuticura Remedies in what seems to me to be some of the most remarkable cases. I had a number of skin tumours—small ones—on my arms which had never given me serious trouble; but about two years ago one came on my throat. At first it was only about as large as a pinhead, but, as it was in a position where my collar, if not just right, would irritate it, it soon became very sensitive and began to grow rapidly. Last spring it was as large, if not larger, than a bean. A little unusual irritation of my collar started it to swelling, and in a day or two it was as large as half an orange. I was very much alarmed, and was at a loss to determine whether it was a carbuncle or a malignant tumour.

"I have great faith in the Cuticura Remedies, and I believe they might be as efficacious in similar cases with other people, and thus save much suffering, and perhaps life. I have derived so much benefit from the use of them myself that I am constantly advising others to use them. Recently I recommended them to an office boy for his father, who was disabled with salt rheum. The man's feet were swollen to an enormous size, and he had not worked for six weeks. Two bottles of Cuticura Resolvent and two boxes of Cuticura Ointment worked a perfect cure. You never saw a more grateful man in your life. I am very much interested in another case where I have recommended Cuticura just now. My housemaid's mother has a goitre which had reached a very dangerous point. The doctors told her that nothing could be done; that she could live only two or three weeks, and that she would die of strangulation. She was confined to her bed, and was unable to speak, when her daughter, at my suggestion, tried the effect of the Cuticura Ointment and Cuticura Resolvent. Strange to say, she was very shortly relieved of the most distressing symptoms. The swelling seemed to be exteriorized, and she is now able to be around her house, and can talk as well as ever.

It seems to me that I have pretty good grounds for believing that Cuticura Remedies will prove successful in the most distressing forms of blood and skin humours, and if you wish to use my testimonial as herein indicated, I am willing that you should do so, with the further privilege of revealing my name and address to such persons as may wish to substantiate the above statements by personal letter to me."
