IOWA MINES WILL BE SHUT DOWN

Des Moines, March 30.—The last hope for the prevention of a suspension in the Iowa coal fields of indefinite duration disappeared yesterday afternoon, when dispatches were received from Indianapolis stating that the joint conference of miners and operators for the competitive district had adjourned without date and without reaching an agreement. No basis for settlement was reached in any of the states participating in the conference, and the adjournment amounts to a refusal of the ultimatum delivered by the miners for a restoration of the 5.5 per cent reduction of two years ago.

Without an agreement as to a basis for settlement in Illinois a settlement in Iowa is out of the question, and a suspension will be declared at the Iowa joint conference today.

Over 14,000 members of the United Mine Workers of America will take their tools out of the Iowa mines Saturday night upon the expiration of the present scale. Mines producing annually over 8,000,000 tons of screened coal and half as much more of the inferior grades will be closed down. Property interests valued at over \$30,000,000 will become unproductive. Many steam plants that have failed to store coal will be brought face to face with a shut down. In all 326 mines will be closed.

Indianapolis, Ind., March 30.—The joint meetings of the bituminous coal operators and miners of the central competitive district, composed of western Pennsylvania, Ohio, Indiana, and Illinois and of the southern district composed of Missouri, Kansas, Texas, Arkansas, Oklahoma, and Indian territory, reached a final disagreement yesterday on the wage scale to go into effect at the expiration of the present scale on April 1, and the conference adjourned sine die, while the joint scale committee of the southwestern district decided to report a disagreement to the joint conference at the district today. It is expected that this conference will at once adjourn sine die without agreement.

The action of the two conferences will directly cause the suspension from work after Saturday of 178,000 miners unless something unforeseen, like submission of the differences to arbitration, should intervene and indirectly will affect 206,500 more miners not included in the southwestern district, in the anthracite field who were last night ordered to suspend work Monday.

BEEF TRUST CASES TRIAL IN THE FALL

Judge Humphrey Fixes Date To Hear Corporation Plea

REACH MUTUAL AGREEMENT

Attorney General Moody Concur in the Time.—Request of Government for New Trial on Immunity Pleas Denied.

Chicago, March 30.—Judge Humphrey yesterday set the trial of the packing corporations, which were denied immunity at the hearing ended last week, for the second Monday in September.

Early in the day a conference was held between Judge Humphrey, District Attorney Morrison and Attorney Miller, representing the packers, regarding the date of the trial of the corporations. The district attorney asked that the trial be immediately set, as was a similar motion made by Mr. Miller relative to the corporations. The court then set the date for the trial.

CHARGES VIOLATION OF THE ELKINS LAW

Philadelphia, March 28.—The first rebate case to come to trial in this country in which the defendants are charged with giving and accepting rebates in violation of the Elkins law began yesterday in the U. S. Court here before Judge Holland. The indictments to be presented to the jury are those against the Great Northern Railway Company, which company is charged with offering rebates to R. D. Wood & Co., of this city; C. E. Campbell, its local agent; L. W. Lake, New York agent for the Mutual Transit Company; Walter Stuart, George and Richard Wood, members of the firm of R. D. Wood & Co., and Paul J. Diver, local agent for the Mutual Transit Company, who is charged with offering a rebate to the National Essence Coffee Co.

TWO MEET DEATH.

Horse Plunges Into Stream With New Hartford Boys.

Waterloo, March 27.—Earl and Cecil Larson, aged 18 and 20, were drowned in a swimming pool Sunday night. The horse which they were driving ran away, throwing them into the swollen stream. Their bodies were recovered early yesterday.

MEASURE TO PROBE INSURANCE PASSED

Des Moines, March 30.—By a vote of 71 to 1, the house yesterday morning passed the Warren insurance bill. Mr. Kendall called the bill up and moved its adoption. The bill provides for the appointment of a legislative commission to examine the subject of all insurance and the practice of the insurance companies doing business in this state and revise the insurance laws and provide a uniform standard policy for life and fire insurance and report their findings and recommendations to the next general assembly.

The commission that is created by the bill is to consist of five members, three from the house to be named by the speaker of the house, and two from the senate, to be named by the lieutenant governor.

For the purpose of securing information the commission shall at all times have access to the office and records of the auditor of state, who is required to give the commission his assistance and counsel. The commission is instructed to review the present insurance laws of the state and report to the next general assembly.

BASE TREACHERY IS SHOWN BY NATIVES

Lianila, March 26.—According to advices received today the recent fight at Magtaon, Samar, between the constabulary and Pulajanes was the result of base treachery on the part of the natives. As a result of the fight thirty Pulajanes were killed and sixteen of the constabulary killed and wounded.

A dispatch from Captain Jones of the constabulary at Magtaon says that on March 23 Governor Curry, Judge Lobbing and Superintendent of Schools Hoover arrived there and camped over night near the Pulajanes. The presence of the officials was made known to the rebellious natives and their leader announced that he would surrender his force the next day. As a result of this promise Americans returned to the town accompanied by Colonel Aguilar, another Pulajane chief.

The next day, Saturday morning, four chiefs of the Pulajanes with over 100 men and fourteen guns appeared at Magtaon and lined up in front of the constabulary barracks. Between the barracks and the Pulajanes stood the group of American officials.

One of the chiefs expressed a wish that his party be photographed by the act of surrendering, and Superintendent Hoover in compliance with the request was adjusting his camera when the Pulajane leader blew a whistle and gave an order to advance. The entire party of natives thereupon rushed upon the American officials who escaped to the Magtaon river and swam to the opposite bank. When the treachery of the natives was apparent the constabulary immediately opened fire and a fierce fight ensued, in which the constabulary gained a decisive victory.

The American officials were later found with the exception of Governor Curry. He was last seen being chased by Pulajanes, and is now believed to be hiding in the dense brush in that locality.

Three hundred of the constabulary are now on the trail of the fugitive natives and searching for Governor Curry.

HOUSE KILLS THE SINGLE BOARD PLAN

Des Moines, March 30.—When it began to look as if the greater part of another day would be spent by the house in debate upon the state educational board of regents bill, the previous question was ordered and the bill was killed in the house yesterday. In order to clinch the matter, a motion to reconsider was made and voted down.

Several members of the house who expected to vote upon the question were not in their seats, believing that no vote would be taken until late in the afternoon or some time today, but it is doubtful if the result would have been greatly changed had the entire membership been present.

The vote, by which the bill was lost, stood 40 to 62 at the end of the roll call. Then Teter, Wright and Jacobson changed their vote to no to be able to move its reconsideration and Decker changed his vote to aye.

Temple moved to reconsider and the house refused to reconsider by a vote of 40 to 51.

ALASKAN TOWN WIPED OUT.

Los Angeles, Cal., March 27.—A cablegram dated Juneau, Alaska, March 26, from United States District Attorney James L. Boyce to the Los Angeles Times says that the town of Wrangell, Alaska, has been almost totally destroyed by fire and appeals to the Times and to The Associated Press for aid for the sufferers. The dispatch states that every store in the town was burned and that the total loss is \$100,000. The customs house was saved.

DR. PALMER IS SENT TO JAIL.

Davenport, March 29.—Dr. D. D. Palmer, founder of the chiropractic school of medical practice and the chiropractic college at Davenport, was sentenced yesterday to 106 days in jail for practicing medicine without a license. Dr. Palmer made a long speech to the court charging the prosecution to the medical profession and elected to serve the jail sentence rather than pay a fine of \$350, although quite wealthy.

Draw Lots For Majority.

Ida Grove, March 29.—The board which canvassed the vote for mayor here decided to draw lots at 229, 230 and 231. The candidates drew lots and Robert Lipton won, but W. J. Anderson, his brother-in-law and rival, will carry the count by the judges and carry it to the courts. No jealousy exists, as reported in some daily papers. Both men and their families are the best of friends. It is a matter of both wanting to be mayor and neither wanting to give in.

DR. PALMER IS SENT TO JAIL.

Davenport, March 29.—Dr. D. D. Palmer, founder of the chiropractic school of medical practice and the chiropractic college at Davenport, was sentenced yesterday to 106 days in jail for practicing medicine without a license. Dr. Palmer made a long speech to the court charging the prosecution to the medical profession and elected to serve the jail sentence rather than pay a fine of \$350, although quite wealthy.

STORIETTES.

When Mr. Mansfield was playing "Arms and the Man," some one brought up in his presence the name of the author, George Bernard Shaw. "Ah, yes," said Mr. Mansfield, "some men have the most glorious luck! There's Shaw, now; he is not only a successful playwright, a musical critic, a Socialist, a member of the Fabian Society, and possessed of red hair, but—he is also an Irishman."

A lady went into a bookseller's shop and asked for Browning. "I haven't got it, madam," answered the bookseller; "I make a rule never to stock any books I can't understand, and I can't make head or tail of Mr. Browning. Can you?" The customer asked for another book, without comment upon the salesman's mental limitations. "Have you read, then?" "Yes, madam," this skeptical person assured her: "I've prayed, and that don't help me."

A Southern senator says that one of the best and briefest of speeches that he ever heard in the Upper House of Congress was one of four words delivered by Senator Proctor, of Vermont. This speech, it appears, was a retort to a sarcastic fling by a colleague from Massachusetts. He had said: "No man in Vermont is allowed to vote unless he has made two thousand dollars trading with Massachusetts people." Whereupon Proctor arose deliberately and observed: "And we all vote."

When Dr. John Dewey, now head of the Department of Psychology at Columbia, was professor at Chicago, he had a good deal to say about the training of children. He particularly urged that they should call their parents by their first names. About this time he went home one day to find water trickling through the ceiling of his study, and, on investigation, found his son converting the bathroom into a natorium. Mildly expressing his surprise, he was greeted with: "Don't stand there shooting off your mouth, John; get a mop and get busy before the old woman comes home."

A Frenchman who was staying at a hotel in Edinburgh asked at the cashier's desk for his bill, and was astonished to find it so large. He felt that he had been plundered, but he paid the bill and asked to see the proprietor. The landlord came down in response to the call, beaming with smiles. The Frenchman rushed up to him, exclaiming: "Ah, let me embrace you. Let me kiss you!" "But why do you want to embrace me, sir? I don't understand." "Ah, sir, but look at this bill." "Your bill? Yes, but what of it?" "Vot of it? Why, it means zat I s'ill neavral, neavral see you again, sir!"

Record for a Day Is Broken at Ellis Island.

New York, March 30.—Over 11,000 emigrants arrived in the harbor of New York yesterday on board seven steamships from European ports. This number is the record for a single day which has been made thus during the annual spring rush of emigration. Ellis Island, where these emigrants are examined and either rejected or admitted to the United States, can care for less than half of yesterday's arrivals, its limits being 5,000 daily. Those who cannot be landed to-day will be kept in the harbor on their steamers until later in the week. These emigrants include the following nationalities: English, Irish, Germans, Swedes, Hungarians, Italians, Portuguese and Russians.

MIDDLE LIFE

A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for it. Two Relate their Experiences.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason. Every woman who neglects the care of her health at this time invites disease and pain. When her system is in a deranged condition, or she is predisposed to any organ, the tendency is at this period likely to become active—and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitations of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—

"I had been suffering with displacement of the organs for years and was passing through the change of life. My abdomen was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous. Lydia E. Pinkham's Vegetable Compound Succeeded Where Others Fail.

Another Woman's Case.

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the female organs. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared.

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for other women at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.
