## GREAT LEADER PLEADS

### BOOKER WASHINGTON URGES RACE TO BE PATIENT.

### SO WILL VICTORY BE WON.

### WANTS RACE TO BEAR REPUTATION OF LAW ABIDING PEOPLE.

### MUST AVOID HASTY ACTION.

New York, Oct. 11.—The annual session of the National Afro-American council, which has been in progress here, was brought to a close tonight with services in Zion church. Booker T. Washington made the principal address. He looked for his subject "The Requirements of Citizenship." The church was crowded, a large number of those in attendance being from the southern states. Mr. Washington said in part: "In the season of disturbance and excitement, if others yield to the temptation of losing control of their judgment and give way to passion and prejudice, let us, as a race, teach the world that we have learned the great lesson of calmness, of self-control; that we are determined to be governed by reason rather than by feeling. Our victories in the past have come to us through our ability to be calm and patient meantime enduring a great wrong. Meanwhile I am most anxious to know that in this I speak the sentiment of every energetic member of our race, that our race everywhere bear the reputation of a law abiding and law respecting people. If others would break the law and trample it under foot, let us keep and respect it and teach our children to follow our example. In this connection I repeat what I have uttered on a recent occasion, every iota of influence that we possess should be secured to get rid of the criminal and looting element of our people and to make decent, law abiding citizens. Caution To Northern Negroes. To the members of my race who reside in the northern states let me utter the caution that in your enthusiastic desire to be of service to your brethren in the south you do not make their path more thorny and difficult by rash and intemperate utterances. Before giving advice to the negro in the south, the negro in the north should be very sure that what he advises is that which he himself would be willing to take into the heart of the south and put into practice. Be careful not to assist in lighting a fire which you will have no ability to put out. Some may think that the problems with which we are grappling will be better solved by inducing millions of our people to leave the south for residence in the north, but I warn you that instead of this being a solution it will but add to the complications of the problem. While condemning the giving of prominence to the work of the white race, we should not fail to give due credit to those of the white race who stood manfully and courageously on the side of law and order during the recent trying ordeals through which this section of our country has been passing. During the racial disturbances the country very seldom hears of the brave and heroic acts of a certain element of southern white people whose deeds are seldom heralded through the press. A Suicidal Policy. The indiscriminate condemnation of all white people on the part of any member of our race is a suicidal and dangerous policy. We must learn to discriminate. We have strong friends both in the south and in the north, and we should emphasize and magnify the efforts of our friends more than that of those who wish us evil. I have said we must differentiate between people at the south. We can not afford to class all as our enemies, for there are many who are our friends. The country must also learn to differentiate between black people. It is a mistake to place all in the same class when referring to morality or general conduct. There is a vicious class that disgraces us, there is also a worthy class which has always received commendation. Further we must frankly face the fact that the great body of our people are to dwell in the south, and any policy that does not seek to harmonize the two races and cement them is unwise and dangerous. Creation, construction in the material, civic, educational, moral and religious world, is what makes races great. Any child can cry and fret, but it requires a full grown man to create, to construct. Let me implore you to teach the members of our race everywhere that they must become, in an increasing degree, creators of their own careers."

### BISHOP ARNETT DEAD.

The telegraphic Associated Press conveys the sad news of the death of Right Reverend Benjamin Arnett, who died last Sunday night at his old home at Wilberforce, Ohio. Rev. Arnett has been sick for a long time, but the last few weeks he was a great sufferer and has been sinking several days, yet the end was near was known by his close friends; yet even realizing that when death actually comes we are grieved. With this great prelate, race giant and defender of right and truth, a gone our race loses a real leader and Ohio a great man. He was a very strong power in the middle west for the uplifting of humanity, and his death will be mourned by thousands of people. While we cannot again see this man, but may we not take his good advice, his brave, many words and emulate his character whenever it may be good.

## COLORED VOTERS READ.

Below we give some recent utterances by some of the leaders of the democratic party which alone is enough to drive every colored voter in Iowa and elsewhere from even thinking of voting to aid or support the party whose leaders are so prejudiced as to steal the rights of a fellow beings and then make speeches that they are glad to be able to keep the negro down. If ever there was a time that all our people should come together on one proposition it is to vote against every democrat who endorses those ideas in those interviews. Read and remember that party on election day: Lagrange, Ga., Oct. 10.—Governor-elect Hoke Smith, speaking on the race question at the Georgia homecoming exercises here today, said the idle negro is a menace to his race and that means should be devised to keep him from idleness. He said the fourteenth amendment to the Constitution binds the most intelligent mode of handling of the subject. Among other things he said: "Our national government has always legislated for the Indians, placing around them restrictions entirely different from those applied to white men. But for the fourteenth amendment to the Constitution we should follow the same plan in Georgia with reference to the negroes. The white man must accept full responsibility and control of the situation. This is the white man's country and it is the white man's burden. The negro should be encouraged to help. Kindly but firmly the large majority of the negroes must be supervised and directed by the white man."

### Tillman Urges Remedy.

Little Rock, Oct. 10.—Senator Tillman of South Carolina, discussing the race question in an address here today, said he believed the passport system, as now in vogue in Europe, would abolish ravishings. "I know," said the senator, "the fourteenth and fifteenth amendments would have to be done away with. When a man leaves home he would have to present his papers. In addition he would have to give a good and sufficient reason for his being absent from home and where he was going and why. It would result in putting the loafers on the chain gang where they would be made to work."

### Says Crisis is Here.

Among other things the senator said the crisis was now here "when the white man must rule the southland regardless of all the Yankees between Cape Cod and hell. Here I will say a thing which is necessary, but which I regret to say I believe it was and is the purpose of the politicians in the north to so amalgamate the two races in the south as to make us all part negro. The southern women are standing guard at the door of the temple of race purity and the men are aiding in the amalgamation. A white man who will not stand with us should be made to live forever with the wretches with whom he delights to associate."

For flexibility, smooth finish, stiffness and durability, Defiance Starch has no equal—10c for 16 oz.

Origin of England's National Debt. England's national debt originated in the reign of William III., whose first loan was obtained in 1694.

To Launder White Silk Handkerchiefs. Do not put white silk handkerchiefs in the ordinary wash, as they are easily soiled at home. Make a strong lather of Ivory Soap and water, but do not rub the soap between the handkerchiefs or use cold water. Rinse and iron while damp with a moderately hot iron.

Remarkable Double Wedding. A remarkable double wedding has been celebrated in a Viennese church. A manufacturer named Muller married a widow, while at the same time his son married the widow's daughter. Thus the father becomes the father-in-law of his own son, and the mother also the mother-in-law of her daughter.

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Anecdote of Robert R. Hitt. The late Robert R. Hitt had a knowledge of stenography which was of great value to him in debate. He has been known to rise with his hand full of shorthand notes of a speech just delivered to which he was about to reply and was to the man who accused Mr. Hitt of misquoting him. He was the patron saint of the stenographers of the house. Not long ago political influence was about to displace from the line of promotion a young expert writer of shorthand from Michigan whose work Mr. Hitt had occasion to admire. Mr. Hitt went to Speaker Cannon. "This will never do, Joe," said the shorthand authority of the house. "We can't do without this man. The house must have him." "All right, Hitt," replied Speaker Cannon. "If anybody knows the sort of stenographers this house ought to have you are the man." That settled it and the Michigan stenographer held his place.
