## NEGRO EDITORS.

Took Manly Stand for Right and Justice—Urge Colonization of Negroes.

When in the course of human events it becomes necessary for the representatives of a people or a nation to declare the fundamental principles which are to bring them into closer relations with their fellowmen and citizens of different races, in order that they may cooperate to the best interest of each and to promote their own posterity a just and equal enjoyment of the rights and privileges guaranteed by the Constitution of their government, the Western Negro Press Association adopts the following Resolutions as an address to the People.

In recent years we have noted the growing sentiment of Northern and Eastern journals against our people, as evidenced by the wide publicity given writings of Southerners, and the flooding of the North with notoriously violent agitators, who are constantly fanning the flame of prejudice against the race. For the protection of our homes and the perpetuation of the suffrage guaranteed by the Constitution and preservation of the dignity of the nation, we therefore deem it the imperative duty of the voters of our race to associate and support only men who will always stand out for the defense of manhood rights of all races and denounce in no uncertain tones the offensive ignorance that is defiling our Hall of Congress.

### Negro Home-seekers to the West.

In view of the fact that Southern agencies sustained by the taxes of all the people are securing foreign emigrants for the purpose of displacing the Negro labor in the South, we therefore urge our people in the south to anticipate this movement to displace them, we urge them to come West and settle upon the millions of acres of free homestead land and cheap farms offered by friendly corporations seeking their entry. Here they will have larger opportunities in securing wealth, education and all that goes to make a happy and contented nation of people.

We view with grave concern and alarm for the future of our country upon the steady encroachment and widespread acceptance of the impracticable ideas of Southern agitators which tend to provoke racial strife, encourage unjust laws, and debauch the Puritan ideals of Right, Reason and Justice, which are imbedded in the fundamental structure of our national commonwealth. Such teachings tend to pervert the objects and ends of Christianity, cause hatred and hypocrisy in public schools on the part of teachers and students, and bring about a community of unpleasantness in every phase of daily life.

Practical Education Needed.

While there are many great needs for the Race we represent, yet the prime need is education in its broad and comprehensive sense both of the hand, head and heart, and the distribution of the fundamental principles of common industrial and higher education to all classes. We commend the noble and philanthropic spirit of Mrs. Anna Jeans, of Philadelphia, Pa., who recently donated \$1,000,000 for the education of the colored youths of the South.

Business Enterprise.

Accumulated wealth is one of the great social forces. The crying need of our people is greater commercial activities. We pledge our support to aid and assist Negroes in all lines of business. The great commercial development of our people during the past few years has been remarkable and phenomenal. As a race we need more business. The white man employs no Negro clerks, it becomes our duty to create and maintain business enterprises that there may be increased opportunities for our boys and girls.

Peonage.

We unhesitatingly commend the vigorous action of the national administration in dealing with the terrible condition of peonage existing in Southern states and its effort to eradicate the same.

The Brownville Affair.

We have the utmost confidence in the administration in dealing with the misdeeds of the Brownville affair; and since a Senatorial investigation has found our colored soldiers to be innocent of all charges, we urge the reinstatement of the discharged battalion.

We are not unmindful of the invaluable service rendered to our people and the country by Senator Joseph Benson Forsaker in his noble and courageous defense of the army and the Negro soldier, and we take this opportunity of expressing our appreciation of the same.

Military and Naval.

In view of the possible conflicts of this government and noble services rendered by the Negro soldier in all the wars of this nation, we call the attention of the president of this great nation to the injustice done our people by the officers of the government, especially the cabinet, for which the president is responsible. The continued rejection of young colored men at West Point Military School and the Annapolis Naval Academy on frivolous excuses, thereby preventing them from becoming officers in the army and navy, is not only wrong, but is un-American. In view of this fact, Congressmen will not recommend our boys to these institutions for the reason that justice is denied them. We ask for representatives in the artillery and marine corps.

Suffrage.

Since it is the spirit of this government to accord each citizen the right of suffrage and since this right is being continuously abridged in some section of the country, we ask the present administration to fulfill its

pledge as to these matters as shown in the platform of 1904.

Oklahoma Statehood.

Congress has given to the Territory of Oklahoma and Indian Territory the right to form a state, and a Constitution has been framed and is subject to ratification by the people and the approval of the president. The constitution as submitted contains many clauses offensive to the races and calculated to produce strife, we appeal to the president that he place his approval on said constitution. One of the most offensive clauses is that which enables a white man to marry an Indian and rob her of her land.

We recommend that a copy of this address be given Senator Charles Curtis to be transmitted through him to His Excellency, President Roosevelt, and that the president and secretary of the Western Negro Press Association be requested to forward a copy of the same to Senator Forsaker.

Nick Chiles, John L. Thompson, J. B. Bass, J. H. Childers, R. E. L. Bailey.

One new subscriber to the Bystander this week and we hope others will fall in line soon.

## HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and shall always speak a good word for this remedy.—Sam H. Gwin, Concord, Ga. For sale by all druggists.

# IS GREAT SUCCESS

DUO TO HARD WORK OF THE AMERICAN DELEGATION.

DISARMAMENT IMPRACTICAL

Congressman Bartholdt Is Home and Declares Work of Conference Is Not Well Understood.

Washington, D. C., Aug. 30.—The first extensive and reliable disclosure as to what The Hague conference has been doing was made here today by Dr. Richard Bartholdt, St. Louis, representative in congress from there, who has been at The Hague as American representative of the Interparliamentary union. Dr. Bartholdt denies vigorously that The Hague conference is a failure and says no news has got out about it but that it is moving along the right lines, due to hard work of the American delegates and the cordial co-operation of the German delegates with them. He says this co-operation has aroused comment and that the kaiser has ordered that close relations with this country be cultivated. He says disarmament was hopelessly impractical from the first, but when that was disposed of, the conference settled down to practical work for arbitration.

The conference will accomplish three things: First, it will provide for periodical meetings of The Hague conference probably every five years, without call; second, The Hague court will be made permanent with seventeen permanent judges, receiving salaries from all nations combined, thus being impartial and independent; third, an arbitration treaty specifying questions in which arbitration shall be obligatory. This will include the collection of debts. Every practical friend of peace will be satisfied when the conference ends its work, according to Dr. Bartholdt. He discussed the Japanese question, saying that Europe would stand with the United States to fight so that they would pull European chestnuts out of the fire.

MODEL TENANT INHERITS.

"Little Gove-maker of Polk Street" Receives Home from Owner.

Chicago, Ill., Aug. 29.—Mrs. Anna E. Carroll, the world's model tenant, received as a reward for faithful service the house in which she has paid rent for twenty-seven years. A three story brick building at 962 West Polk street was bequeathed to her in the will of its owner, Henry L. Barney, who died two weeks ago.

"Mr. Barney had spoken of it for years as my house," she said, "and he had left it almost entirely in my charge, but I never knew that he intended doing this." His eyes shined with pride as she indicated the quaint, old-fashioned but substantial building of which she was the owner. "He had been a bed-ridden invalid in the Marion Sims Hospital for eight years," she continued, "and I had gone to see him every week, collected and paid the rents promptly and attended to the repairs and painting, but that had all been because I was applying the golden rule that ought to govern us all. Now it is mine, rents and all—the exultation in her voice died away as she said suddenly "even the taxes. But I have all the experience of a landlord now, and maybe I can pay them out of the rents."

MOB POSTAL MANAGER.

Visit Is Completed by Nailing Sign "Scab" Over Entrance.

Chicago, Ill., Aug. 30.—John Laux, manager of the Postal Telegraph office at Waukegan was forced to flee from his office when attacked by a mob of sympathizers with the striking telegraph operators. Laux, who was best friend of his mother, refused to quit work when the strike was called. A committee of strikers from Chicago went to Waukegan and urged Laux to join them, but he refused. Yesterday the strikers and their friends took an excursion steamer ride to the excursionist. To starting at Waukegan and returning the day a score of the excursionists called at the office and became so boisterous because Laux preferred to remain loyal to his employers, that he became frightened and fled.

The intruders then ransacked the office, overturning desks, table and degrading the books and other stationery. The mob then completed their visit by nailing a big sign labeled "Scab" over the door of the telegraph office.

Fate Hits High Army Men.

Chicago, Aug. 30.—"It would seem as if this office had been marked by fate." These words of Brig. Gen. William H. Carter, commanding the department of the lakes, were recalled by the attaches of his office when word came from Champaign, Ill., announcing the death of General Carter's son, L. Carter, who was electrocuted in the dairy room of the University of Illinois. This death makes General Carter the fourth army officer in the department of the lakes who has lost a son this summer and everyone of the four deaths which have darkened the homes of these warriors in a time of peace had been violent and sudden.

Butter Rates Are Enjoined.

Chicago, Aug. 3.—Judge Kohlsaat in United States court issued temporary injunctions against fourteen western railroads and five express companies restraining them from establishing on September 1 a new rate on shipments of milk and butter. The complainants are fourteen creameries of the middle west, who allege that the railroad companies and express companies have combined to fix an excessive rate which will drive the creameries out of business. A protest has already been filed with the interstate commerce commission, but the complainants allege they cannot be heard in less than a year. October 3 is the date set for hearing.

Bids At Last Advertised.

Washington, D. C., Aug. 30.—After prolonged delay, advertisements for bids on the new postoffice at Des Moines were at last sent out yesterday. They will be opened October 21. Delay is ascribed to the fact that the office of the supervising architect has been rushed. Some doubt is felt whether a bid will be obtained that can be accepted owing to the fact that bids that are coming in on public buildings now are in some cases above the appropriations. This is due to unsettled conditions in the building world.

# PERMANENT PEACE ASSURED

CENTRAL AMERICAN CONFERENCE WILL BE ARRANGED.

Presidents Roosevelt and Diaz Send Simultaneous Notes to Heads of Five Republics.

Washington.—President Roosevelt and President Diaz simultaneously have telegraphed notifications to the heads of the five republics of Central America offering the good offices of the United States and Mexico in bringing about a conference of the republics for a discussion of plans to maintain peace.

The announcement that this action had been taken was made Wednesday by Acting Secretary Adee, of the state department. It was stated also that the notes would not be made public here until they had been received by the Central American states, and probably not until replies had been received. The exact time of sending the notes was not made known, but it is possible that replies from some of the countries already have reached Washington.

Mr. Adee late Wednesday received Minister Godoy, charge d'affaires of the Mexican embassy, and they conferred at length concerning the steps taken looking to the settlement of Central American disputes and ending the almost incessant warfare between the republics. Neither would admit that the Central American republics had been invited to hold the conference at Washington, but Senator Corea, the Nicaraguan minister, is authority for the statement that such an invitation soon will be extended. In fact, he telegraphed President Zelaya to that effect.

In diplomatic circles here it is said that none of the Central American republics can afford to decline to accept the proffers of mediation made by the United States and Mexico, and that this means that permanent peace practically is assured.

# DOUBLE KILLING IN HOTEL.

Indiana Man Shoots Woman and Himself in Chicago.

Chicago.—Miss Linda Ethel Blaine, 25 years old, was shot and killed in the Saratoga hotel Monday afternoon by Charles E. Andrews, 40 years old, formerly a restaurant keeper in Elkhart, Ind., with whom she had lived as wife for two months. After he had made sure the woman was dead, Andrews shot himself in the head. He died in the ambulance on the way to St. Luke's hospital.

Miss Blaine came from California last Sunday night with Andrews. From letters found in the trunks it is thought she was a resident of Florida, Ind. The letters told plainly the story of the man's infatuation for the woman. All the facts in the case go to show that he killed her in a moment of desperation that came to him as he realized that he could not keep her in the style they had grown accustomed to and that he was in danger of losing her. Andrews deserted his wife and son seven years ago and eloped with a waitress in his restaurant. Later he deserted the waitress when he met Miss Blaine.

The murder was a brutal one. Miss Blaine, who was good-looking, was shot as she sat at a writing desk writing a letter to Andrews' son, Charles E. Andrews, Jr., of Elkhart. It is supposed that Andrews started to dictate the letter. It broke off suddenly, as if some dispute had arisen over the wording.

# FOUR DIE IN AUTO CRASH.

Motor Car Struck by Trolley Near Canandaigua, N. Y.

Rochester, N. Y.—Dr. George Waldron, a physician of Rochester; Mrs. Catherine Farnsworth, of Rochester; and Mrs. William Scandling and Mrs. Jane Hobbs, both of Hopewell, were instantly killed Wednesday afternoon in a collision between an automobile in which they were driving and a Rochester & Eastern trolley car, near Canandaigua.

Dr. Waldron went to Hopewell in the morning with his daughter to visit at the home of William Scandling, and had taken the three women, all of whom were more than 65 years of age, for an automobile ride. They were on their way to the Freshour crossing to meet another friend of the Scandling family. Witnesses of the accident say that as the machine approached the trolley tracks it was seen by the motorman. According to them, the motorman made a signal and Dr. Waldron slowed up. Then, apparently thinking that he could cross before the car reached him, he started on again. It is thought that the automobile did not respond readily to the levers. "It was caught on the tracks and the occupants thrown with great force. The bodies were frightfully crushed."

# NEBRASKA MOB LYNCHES A MAN.

Hangs Laborer Who Killed Farmer and Wife Last Spring.

Omaha, Neb.—Loris Higgins, who murdered W. L. Coppel, a farmer, and his wife, near Rosalie, Neb. May 12, was lynched at Bancroft Monday. Sheriff Young of Thurston county came to Omaha Sunday night to get his prisoner, who had been in the Douglas county jail here since his capture, and took him to Bancroft on a train, which arrived there about eight o'clock in the morning. Twenty men took Higgins from the sheriff, hauled him off in a dray and hung him to a tree.

When the sheriff left for Omaha Sunday he was accosted by citizens at Bancroft, who asked him what he would do if they should attempt to lynch Higgins.

"Shoot the first man who tries it," he said.

"Well, we just wanted to know. Chances are you will have some shooting to do."

Higgins' crime was a wanton one. He had worked on the Coppel farm and had some trivial dispute with Mr. Coppel. Anger over this is the only suggestion of a reason for the murder of the farmer and his wife. He killed both in the barnyard with a gun. He was a young man, and after his arrest became radically religious participating in every service held at the jail.

# QUAKE ROCKS MARTINIQUE.

Another Mount Pelee Disaster Feared in the Island.

Fort de France, Island of Martinique.—Terror reigns throughout this island because of a severe earthquake which was felt here at 10:50 o'clock Tuesday night. The inhabitants, with the details of the eruption of Mount Pelee in 1902 fresh in their memory, are in a state of panic, although no damage has yet been reported.

The similarity of conditions preceding the frightful disaster of five years ago has caused an exodus of citizens. In that catastrophe the finale was preceded by just such seismic phenomena as are now prevalent.

Huge inky black clouds are rolling over Fort de France in great masses in which there are peculiar lightning flashes.

Impudence of Hol Polloi.

A noted English artist was standing at the edge of the road, waiting for his horse, and he was dressed in his usual peculiar style—mustard-colored riding suit, vivid waistcoat and bright red tie. A man, who had evidently been revealing, happened to lurch round the corner of the street. He stared at the famous artist for a minute in silence, then he touched his cap and asked in a tone of deep commiseration, "Beg pardon, gov'nor, was you in mourning for anybody?"

# METHOD IN HIS SOLICITUDE.

Willie's Deep Interest in Playmate's Health Explained.

This story is well in keeping with the spirit of the age, says the New York Tribune. A Bronx man tells it about his little boy. The neighbor's young hopeful was very ill, and Willie and the other youngsters in the block had been asked not to make any noise in the streets. The neighbor's bell rang one day and she opened it to find Willie standing bashfully on her front steps.

"How is he to-day?" he inquired in a shy whisper.

"He's better, thank you, dear, and what a thoughtful child you are to come and ask."

Willie stood a moment on one foot and then burst forth again, "I'm awful sorry Jimmy's sick."

The mother was profoundly touched. She could find no further words to say, but simply kissed him. Made still bolder by the caress, Willie began to back down the steps, repeating at intervals his sorrow for his playmate's illness. At the bottom step he halted and looked up. "If Jimmy should die," he asked, "kin I have his drum?"

# FOR SELFISH ENDS.

The Efforts Being Made by the American Medical Association.

The Political activity of the American Medical Association has become so pronounced as to cause comment in political circles especially as the avowed purpose of the Doctors of the "Regular" or Allopathic school, of which the Association is chiefly composed, is to secure the passage of such laws as will not only prevent the sale of so-called "patent" medicines, but will restrict the practice of medicine and healing to the "schools" now recognized. This in many states would prevent the growing practice of Osteopathy, and in nearly every state would prevent the healers of the Christian Science and mental science belief from practicing those sciences in which the faith of so many intelligent people is so firmly rooted.

The American Medical Association has a "Committee on Legislation," and the committee has correspondents in practically every township—some 16,000 correspondents in all. This committee at the last session of the American Medical Association held in June of this year expressed a hope that a larger number of physicians than heretofore will offer themselves as candidates for Congress at the first opportunity. In its annual report this committee said: "To meet the growing demands of the movement, however, particularly if the work of active participation in State legislation is undertaken, a larger clerical force must be employed."

This is almost the first time in the history of the United States that any organized class has frankly avowed the purpose of capturing legislatures and dominating legislation in their own selfish interests.

The American Medical Association has about 65,000 members of whom 27,000 are "fully constituted members" and the rest are members because of their affiliation with state or local societies. The Association owns real estate in Chicago valued at \$111,781.91 and its total assets are \$291,567.89. Its liabilities, at the time of the annual report which was made at the June meeting, amounted to only \$21,906. The excess of assets over liabilities is increasing at the rate of about \$30,000 a year, and the purpose of the organization is to dominate the field of medicine, and by crushing all competitors by securing the passage of prohibitive legislation, compel all of the people of the United States to pay a doctor's fee every time the most simple remedy is needed.

Patron Saint of Lawyers.

This story is told at the expense of Francis H. T. Maxwell, a well-known lawyer. The members of the Taunton, Mass., Bar association thought they would have a patron saint, but after much wrangling they could not hit upon any particular saint.

Finally a committee, of which Mr. Maxwell was a member, was appointed to make a selection. They made a trip to New York, and there visited a gallery where most of the saints were carved in marble. It was decided to leave the selection to Mr. Maxwell, and after making the rounds he placed his hand on one in a group of two. "This one will do," he said. He had his hand on the devil, whom St. Michael was driving before him.

An Inherited Tendency.

A Cleveland society woman gave a party to nine friends of her young son, aged six. To add to the pleasure of the occasion she had the ices frozen in the form of a hen and ten chickens. Each child was allowed to select his chicken as it was served. Finally she came to the son of a prominent politician.

"Which chicken will you have, Bertie?" she asked.

"If you please, Mrs. H., I think I'll take the mamma hen," was the polite reply.—Lippincott's.

# HAS A ROYAL GUEST

PRESIDENT GIVES LUNCHEON FOR PRINCE OF SWEDEN.

OYSTER BAY IS EN FETE

Sight-Seeing Trip in Automobiles Through New York Follows Dinner at the Hotel Astor.

New York.—A luncheon with President Roosevelt, an informal dinner at the Hotel Astor and a view of Broadway under its white lights, were the events of the first day's visit to New York of Prince Wilhelm of Sweden. Incidental to almost all of these events was a hearty greeting from hundreds of Swedes, who gathered everywhere to welcome to their adopted country the great-grandson of Marshal Bernadotte, one of Napoleon's famous generals.

Fresh from a round of entertainments at Newport and several Massachusetts cities, Prince Wilhelm reached New York by rail early Wednesday, accompanied by the Swedish minister to the United States, Herman Lagercrantz, and Capt. Klercher, the prince's aide. At the Grand Central station the party was met by Acting Swedish Consul Magnus Clarholm, who extended the formal welcome of the Swedish residents of New York.

Oyster Bay En Fete.

At the Hotel Astor the prince was taken in charge by Huntington Wilson, third assistant secretary of state, who had been detailed by the president to escort the royal visitor to Oyster Bay.

A large portion of the population of Oyster Bay was at the station when the prince arrived, and the little Long

island village was gay with flags, prominent among them being the colors of Sweden. The party was driven immediately to Sagamore Hill, where the president was awaiting them. The luncheon served was an elaborate one. Besides Prince Wilhelm, the guests were Capt. Lindberg, of the Swedish cruiser Fylgia, on which the prince cruised to America; Secretary of the Treasury Cortelyou; John B. Jackson, minister to Persia; Lieut. R. C. Bulmer, U. S. N., commander of the Mayflower, the president's yacht, and Mrs. Bulmer; and Maj. Gen. J. Franklin Bell, chief of the staff of the United States Army. The luncheon was entirely informal, and the president and the prince chatted on current topics until they settled down to a discussion of the training of naval officers, a subject in which both are particularly interested.

The party reached the Hotel Astor shortly after five o'clock and Prince Wilhelm retired immediately to his room for the purpose of gaining a little rest, which the exertions of the past few days made necessary.

At seven o'clock Prince Wilhelm gave an informal dinner in the Orange dining-room of the hotel at which he entertained the Swedish minister and Mme. Lagercrantz, Huntington Wilson and John B. Jackson, minister to Persia, who will act as the prince's escort during his visit; Capt. Lindberg, of the Fylgia; Capt. Klercher, A. Eken-gren, secretary of the Swedish legation at Washington, and Acting Consul Clarholm.

Following the dinner the members of the party left the hotel in three large automobiles as the guests of Mr. and Mrs. John Astergren for a sight-seeing trip around this city.
