

THE TIME TEST.

That is What Proves True Merit.

Doan's Kidney Pills bring the quick relief from backache and kidney troubles. Is that relief lasting? Let Mrs. James M. Long, of 118 N. Augusta St., Staunton, Va., tell you. On January 31st, 1903, Mrs. Long wrote: "Doan's Kidney Pills have cured me" (of pain in the back, urinary troubles, bearing down sensations, etc.). On June 20th, 1907, four and one-half years later, she said: "I haven't had kidney trouble since. I repeat my testimony."

One by the Colonel. Some one had been telling the colonel about weather so warm that eggs could be fried on the sidewalk. "Call that hot weather!" scoffed the colonel. "Why, that's nothing, sah." "Think not, colonel!" "No, sah. Why, Ah have seen it so hot down south, sah, that the popcorn popped right on the stalk."

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

No Liquids. "These political meetings are false," grumbled the tall tramp in the green shirt. "Why so, pard?" asked his chum. "Cause last night I went to a meetin' billed as an 'overflow meetin' and there wasn't nothin' overflowin'—not even root beer."

Is Pe-ru-na Useful for Catarrh?

Should a list of the ingredients of Pe-ru-na be submitted to any medical expert, of whatever school or nationality, he would be obliged to admit without reserve that the medicinal herbs composing Pe-ru-na are of two kinds. First, standard and well-tried catarrh remedies. Second, well-known and generally acknowledged tonic remedies. That in one or the other of these uses they have stood the test of many years' experience by physicians of different schools. There can be no dispute about this, whatever. Pe-ru-na is composed of some of the most efficacious and universally used herbal remedies for catarrhal diseases, and for such conditions of the human system as require a tonic. Each one of the principal ingredients of Pe-ru-na has a reputation of its own in the cure of some phase of catarrh or as a tonic medicine.

The fact is, chronic catarrh is a disease which is very prevalent. Many thousand people know they have chronic catarrh. They have visited doctors over and over again, and been told that their case is one of chronic catarrh. It may be of the nose, throat, lungs, stomach or some other internal organ. There is no doubt as to the nature of the disease. The only trouble is the remedy. This doctor has tried to cure them. That doctor has tried to prescribe for them.

No other household remedy so universally advertised carries upon the label the principal active constituents, showing that Pe-ru-na invites the full inspection of the critics.

Peerless Dried Beef

Unlike the ordinary dried beef—that sold in bulk—Libby's Peerless Dried Beef comes in a sealed glass jar in which it is packed the moment it is sliced into those delicious thin wafers.

None of the rich natural flavor or goodness escapes or dries out. It reaches you fresh and with all the nutriment retained.

Libby's Peerless Dried Beef is only one of a Great number of high-grade, ready to serve, pure food products that are prepared in Libby's Great White Kitchen.

Just try a package of any of these, such as Ox Tongue, Vienna Sausage, Pickles, Olives, etc., and see how delightfully different they are from others you have eaten.

Fabrics from Waste Plants. Scientists in many lands have been giving an increasing amount of attention to the problem of producing from the plant-world, substitutes for the fibers and fabrics now generally in use. To find a new cotton-plant or a new flax straw or a fiber which shall take the place of wool or silk, or to put among commercial possibilities a new material from which to manufacture fine paper, are among the aims. Four inventors have recently reached what they claim to be success, each in his own particular search and descriptions of their products showing widely varying results are being attained, are printed in the Technical World Magazine. From Ramie, a nettle which came originally from China, but which grows well in various countries, is made a fibre which rivals cotton for usefulness and has some of the beauties of silk. From the huge cactus leaves of our American deserts, a kind of fabric called cactus-leather is manufactured, which while not a substitute for cowhide, is useful for many of the purposes for which genuine leather is used. Pine needles are also being made to furnish a fiber which has qualities of usefulness in cloth-making, even clothing being successfully manufactured from it. And finally the Guayule shrub has been found to contain rubber to an extent which makes it commercially worth farming.

The region of Luderitz bay, where the great diamond find is reported, is in the extreme southwest of Africa, in a section known as Damaraland, or Hereroland. It has a coast line of 460 miles. On the north is Guinea, and the British possessions surround it on the south and east. The country some years ago came into the possession of the Germans. In the mountain region it is fertile, and in spots wheat can be raised. Copper and iron are said to be abundant, but the country has been prospected but little as regards the mineral wealth. Since the Germans have been in possession some attempts have been made to work the country. Windhoek is the principal town in the northern section. The diamond find is many miles from the town, and near the coast, in a section of country not known heretofore to be rich in diamonds. It is hundreds of miles from Kimberley and the other diamond-producing centers of the British South African possessions. The country is sparsely populated excepting with savages.

Washington has a new local law which guards rigidly the employment of boys and girls. An age limit is provided, and careful provision is made for investigation as to the physical condition of those permitted to work. Examinations just completed at the national capital go to show that out of 1,700 children subjected to the legal tests the physicians rejected 75 boys and only two girls. This is held to be conclusive evidence that the girls are healthier than boys. No doubt the freer physical life which girls lead and the opportunities for exercise in the open air which they now enjoy, in striking contrast to past experience, have had much to do with improving their constitutions. But why do not the boys live up to the same privileges?

One does not hear it said so often as formerly that there are no longer such opportunities for young men as were open to their grandfathers. Leslie M. Shaw, formerly secretary of the treasury, in speaking of his return to active commercial life the other day, exclaimed: "Oh, the opportunities that there are in this country for the young man of push and enterprise! They are almost limitless. To me the field of business is as alluring as any romance ever written. There are always new chapters opening, new characters developing, new plots thickening." This is the kind of talk that has taken the place of the old wall over the good times that have passed.

Contracts for furnishing single and double teams to the city of Boston were recently awarded to a woman. Her bids, tendered in open competition with men, were by far the lowest submitted, and she demonstrated her ability to fulfill the obligations. The award was popular, for the uniformity of the figures submitted by the men gave color to the charge that an agreement had been made among them to maintain a certain price. The woman made her own figures independently, and won.

To Mrs. Ida B. Richardson of New Orleans has been awarded the Pizarro loving cup by a committee of the Progressive union as the citizen who is thought to have done most for the public service and welfare during the last year.

Some of the leading shoe dealers in Chicago predict that many women in that city will wear sandals this summer. Some of the dealers have already laid in big supplies to meet the demand which they expect.

WILL PROBE KILLING. Injunction Prevents Burial of Murdered Des Moines Man. Des Moines.—That the mystery surrounding the death of Morris H. Stein will be probed to the very depths was made certain when, just a few minutes before the funeral was to have taken place, Undertaker L. F. Shank was served with an injunction from the district court restraining him from delivering or burying the body. The injunction was issued by Judge Hugh Brennan on application of the father, Jacob Stein, who believes his son has been murdered, and claims the woman is not his son's legal wife. Members of the Des Moines detective force have been employed on the case and it is possible one will be dispatched to Loudenville, Ohio, to gather data. The hearing on the injunction will be heard later.

General and Mrs. Baker were married in Winterset, Iowa, August 19, 1858, and have been prominent in Iowa for over fifty years. They have been eight children and nineteen grandchildren born in that time and but one death in all those years, a little grandson. General Baker has been prominent in Iowa for over fifty years, having been practicing law more than that length of time. He was twice elected attorney general of Iowa, and once of Missouri; he practiced law in Winterset, Leon, Ottumwa and Centerville, Mo., and in Tacoma, Wash. He was a law partner for several years with the Hon. T. P. Shonts, here in Centerville several years ago. He was the first dean of the faculty of the Drake University law school and was attorney for the M. I. & N. railroad and the Great Western, during the period of construction of these roads. He is past grand master of the Iowa Odd Fellows and has been chancellor of the local K. of P. lodge.

Clinton's Boast May Be Ended Through Law Enforcement. Clinton.—Clinton, the "widest open town in the Mississippi Valley," as it is called, may not be so wide open in the future. Talking freight and rumors and murdering heard about the city, to the effect that there will be things doing if the saloonkeepers do not obey the law more strictly, the keepers of saloons held a meeting and decided to "come under" that law by closing their places of business at 10 o'clock at night, and keeping them closed on Sunday. An enthusiastic meeting of all of the young people's societies of the Clinton churches was held recently, when a temperance society of larger proportions than has ever been existent in Clinton, was formed. The object is to create a wide spread sentiment on which to work in an impending crusade against the liquor traffic in Clinton.

Auto Club to Undertake Work When Road is Ready. Council Bluffs.—Messrs. J. E. Hollenbeck, John Davis and S. E. Elliot, the committee appointed by the newly organized automobile club to investigate the matter of oiling a section of road along upper Pierce street and McPherson avenue, say that the work will be started as soon as possible. The committee was accompanied on a trip of inspection by Col. W. F. Baker, who has agreed to put the road into condition for oiling. Col. Baker said recently that he would superintend the work. The citizens Gas and Electric company have agreed to furnish enough oil to cover a mile of road if the club will put it on. It is estimated that the cost of the oil will be about \$300. With the application of this amount it is thought there will be a stratum fully six inches deep of oiled surface.

Youthful Pair Lose Babe. Fort Dodge.—Living on a farm six miles from here the youthful Mr. and Mrs. Fred Swanson mourn the loss of a two-weeks-old baby. The mother is 12 years of age, while the father is but 18, and they enjoy the distinction of being the most youthful married couple in this part of the state. Their marriage took place when the bride was 11 and the groom 17, the parents of both consenting. They went to housekeeping on the farm of the groom's father and have earned the highest esteem of the countryside neighbors by their industry and thrift.

Creston Chautauqua Paid. Creston.—The Chautauqua management announced that after all bills against the association are paid for the season of 1908, and that will include about \$150 for permanent improvements, besides the new auditorium, that there will be a cash balance in the treasury of \$200. By special agreement, stockholders are not entitled to any of the cash balance, but it is all to be used for park improvements.

River Traffic is Great. Burlington.—The Diamond Joe Packet line, running steamers from St. Louis to St. Paul and intermediate points reports a phenomenal passenger business for this season. Usually there is a shortage on passengers during the hot weather, but at this time the through and short line packets are crowded to their capacity. It is considered a good omen of improved business conditions throughout the Mississippi valley.

MARRIED FIFTY YEARS. Two Hundred Guests Pay Respects to Aged Couple. Centerville.—Fifty years of wedded life were completed for ex-Attorney General A. J. Baker and his wife on the evening of the 19th. The event was fittingly celebrated at a reception tendered to the people of Centerville at Maywood, the Baker home which was attended by fully 200 guests. Eight children and nineteen grandchildren, with the exception of two, were present of the immediate family. The celebration was the biggest social event Centerville has enjoyed for many days. There were gifts given the happy couple.

CAPT. HAINS KILLS WILLIAM ANNIS AT YACHT CLUB. Brother of Army Officer Keeps Back Crowd Which Witnesses Tragedy at New York.

New York.—Capt. Peter Conover Hains, Jr., of the United States army, Saturday fired six bullets from his revolver into William E. Annis of New York, owner and publisher of Burr McIntosh's Monthly and other magazines. Annis died in the Flushing hospital a few hours later. Capt. Hains was accompanied by his brother, Thornton Alexander Jenkins Hains, a magazine writer, who had accused Annis of paying improper attention to the captain's wife.

A crowd of early dressed women, including Mrs. Annis, was at the yacht club. Annis was on the water in his racing sloop. Mrs. Annis noted the coming of the Hains brothers and, although they talked of real estate, discussed the value of property in the neighborhood, she divined that they sought her husband. As Annis approached the dock in his half rat he waved his hands and shouting to him not to land. He gave no heed.

As Annis and a fellow club member were landing Capt. Hains opened fire from a magazine pistol. The crowd at the clubhouse rushed onto the float to attempt a rescue, but Thornton Hains drew his revolver and threatened to shoot the first man who interfered.

"This is an affair between these two," he said, calmly. Capt. Hains and his brother, neither of whom appeared in any way disturbed, awaited the arrival of the police on the club float and then surrendered themselves.

FOUR CHICAGOANS DROWN. Launch is Capsized in Dells of the Wisconsin River. Kilbourn, Wis.—By the capsizing of a pleasure launch on the Wisconsin river Thursday afternoon four Chicago people were drowned, as follows: Miss Mabel Ward, Mrs. W. G. Heath and E. G. Pfeiffer and his son Ralph.

The launch containing nine persons, among them Mrs. Pfeiffer and daughter, was returning from a trip through the Dells. When near the dock the boat got into the waves of a passing steamer and capsized, throwing all the occupants into the water.

Enterprise, Kan.—William Q. Hinz, 21 years of age, of Milwaukee, Wis., was drowned here Thursday evening while bathing in the Smoky Hill river. He was an insurance man.

OKLAHOMA EDITOR ARRESTED. O. K. Benedict Accused of Criminal Libel by Gov. Haskell.

Guthrie, Okla.—Arrested in Oklahoma City on a charge of criminal libel preferred by Gov. Charles N. Haskell, Omer K. Benedict, editor of the Times, arrived here Monday night in the custody of Sheriff Mahoney of Logan county. He was admitted to bond in \$500 and returned to Oklahoma City immediately. He declined to say anything whatever in the matter.

Gov. Haskell issued a statement entering a general denial of the charges of connivance with the Standard Oil company alleged to have been contained in an editorial in the Times of Friday, August 14.

Blamed for Fatal Collision. Piqua, O.—Coroner Costello in his report as to the collision on the Western Ohio Traction road, in which four people were killed and 35 others injured, places the responsibility for the accident on J. C. McKinney, the dispatcher at Wapakonata, O.

Man Dies of Broken Heart. Pittsburg, Pa.—Because police authorities refused him permission to attend his father's funeral, Robert Shankey, 35 years old, died in a cell in jail Monday of a broken heart.

Receiver for Big Mining Company. Scranton, Pa.—The Pennsylvania Coal & Coke Company, one of the biggest bituminous fields of western Pennsylvania, went into the hands of a receiver Saturday. Judge Edwards appointed Thomas H. Watkins as receiver on the application of the Scranton Trust Company, the trustee for the consolidated bondholders, which alleges the company, through its lease, the Pennsylvania, Beech Creek & Eastern Coal Company, was unable to meet its rental obligations.

FIRE IN SUMMER RESORT.

Kaatskill House and Cottages on Lake George Destroyed. Glen Falls, N. Y.—Fire Monday destroyed the Kaatskill house in the Kaatskill Bay district of Lake George and three cottages. Many women were in the fire brigade and some of them received minor cuts and burns. Several men also were slightly injured. The loss will approximate \$100,000. A cottage owned by Mrs. N. F. Nelson was the point of origin of the fire. A roaring fire in an open fireplace overheat the flue, which ignited the woodwork beneath the roof. Beside the Nelson cottage, those of John Allen of Brooklyn and James Wing were destroyed. The hotel was owned by A. P. Scoville and was entertaining about 125 guests.

The guests at the Nelson cottage saved few of their effects, but those of the other cottages and the hotel were able to drag their trunks to the lake front.

WHITES AND NEGROES BATTLE. One Man Killed and Several Wounded at Adamson, Okla. McAlester, Okla.—In a general fight between a number of white men and negroes at Adamson, a mining town near here, late Saturday night, Harry Mineos, white, was killed, a number of negroes wounded, and Deputy Sheriff Wilcox was badly beaten. According to a report from Adamson, a serious race clash is thought probable. A sheriff's posse has been sent to the scene.

J. C. Donhee, who was deputized by his father, a justice of the peace, to assist Wilcox in quelling the disturbance, has been taken into custody by the sheriff. Baton Rouge, La.—Bloodhounds have been sent from here to Burton, La., where a posse is in pursuit of a negro who attempted to assault a 12-year-old white girl. If captured the negro will probably be lynched.

FEUD ENDS IN TRAGEDY. Italian Kills Enemy, Wounds Latter's Father and Commits Suicide. West Chester, Pa.—Benjamin De Gildo of Philadelphia shot and killed Benjamin de Felix and fatally wounded Pasquale de Felix, father of the murdered man, here Sunday, and then escaped capture at the hands of an infuriated mob, committed suicide by shooting himself.

The sensational shooting is said to be the outgrowth of a feud that had existed between the Italians for a long time. The bad feeling was recently increased by the arrest of de Felix, the murdered man, on a charge of keeping a speakeasy and being identified with a counterfeiting plot.

Disaster on Resort Steamer. Traverse City, Mich.—Mrs. Isabelle Bonte of this city was killed and a score of passengers were injured Monday by the explosion of the boiler of the passenger steamer Leelanau bound from Leland to Pouch on Carj lake. Many of the victims were blown into the water and others were scalded.

Closed Bank is Reopened. Oil City, Pa.—The Farmers' National bank at Emlenton, closed last April by the comptroller of the currency, was reopened Monday. It was compelled to suspend through the failure of the bank at Clintonville.

Eva Booth Overcome by Heat. Warsaw, Ind.—Overcome by the intense heat, after addressing an audience of 4,000 persons at the Winona Lake Bible conference, Miss Eva Booth, commander of the Salvation Army of the United States, fainted just after leaving the auditorium.

Indiana Miners Continue Work. Evansville, Ind.—The southern Indiana coal miners continued at work Monday and it is the general opinion of the operators that there will not be a general strike.

Cupid Triumphs at Last. Sacramento, Cal.—When the Overland Limited came to a standstill in the Sacramento depot at five o'clock Friday evening, a pretty girl alighted. She was at once greeted by a young man, Prof. F. P. Fitzgerald of Stanford university. The girl was Edith Ludwig, who was recently kidnapped in Chicago by her mother to prevent her marriage. The professor at once walked to the county clerk's office and took out a marriage license. The wedding ceremonies were performed by Rev. Richard Rodda.

In the fourteenth century the armor of soldiers was so heavy that a fallen knight was unable to raise himself from the earth unassisted. At the railroad station of a provincial town in England an impatient traveler was waiting for the much overdue train on the branch line. Once more he approached the sleepy-looking porter and inquired for the twentieth time: "Hain't that train coming soon?" At that moment a dog came trotting along the track, and a glad smile illuminated the official's face. "Ah, yes sir," replied the porter, "it'll be getting here now. Here comes the engineer's dog."

Flowers are now artificially performed by subjecting them to a bath of carbolic acid charged with the necessary essential oil. Running leisurely, a hare has a stride of about four feet, but when urged on by fear its leaps extend to ten and twelve feet.

An unappreciated poet in Paris determined to make a dramatic picture as he closed his career. By means of a rope he hung himself in the arms of a statue of Venus, and died as he rapturously kissed the statue's marble form.

Every square mile of the sea is estimated to contain 120,000,000 fish.

MAGNETIC BRAKE FOR TRAINS.

New Device, It is Claimed, Can Be Applied by Hand. A magnetic track-brake recently developed by the British Thomson-Houston Company is interesting because it may be applied by hand and is intended for service and emergency stops. Says the Tramway and Railway World (London), as abstracted in the Electrical Review (New York): "The brake consists of two steel shoes, each formed of a number of poles placed so that they alternately become north and south poles when the current is passed through a single exciting coil. Excited in this way, the shoes are drawn down upon the rail midway between the wheels of the car with a force of several tons. Exciting current is furnished by the motors, running as generators, thus rendering the brake independent of the trolley circuit. Between the two shoes is connected a channel iron and a system of brake-levers and chains attached to brake spindles at each end of the car to enable the shoes to be pressed down upon the track by hand in the usual manner of track-brakes. It is intended to use the brake in this way for controlling the speed of the car on down grades, and for slowing up under usual conditions. When thus used the car can be stopped either by increasing the pressure due to the hand-lever, or by exciting the electromagnets. The thrust occasioned by the retarding action of the brake is taken by a tongue-shaped steel bracket, which is bolted to the truck and engages with jaws on the sides of the magnet. The wearing shoes of the brake are attached to the poles of the magnet, and the bolts may be renewed when necessary. The exciting coils are entirely inclosed in a water-tight case."

Some men are born bald, some achieve it, and others acquire it after marriage.

Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs as which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

BABY CRIED AND SCRATCHED
All the Time—Covered with Tortureing Eczema—Doctor Said Sores Would Last for Years—Perfect Cure by Cuticura.

"My baby niece was suffering from that terrible torture, eczema. It was all over her body but the worst was on her face and hands. She cried and scratched all the time and could not sleep night or day from the scratching. I had her under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of aid. But I used Cuticura Soap and Cuticura Ointment and she was cured in three months. Alice L. Dowell, 4769 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

"Ladies First."
In this age of leveling up and leveling down, and of attempting to place women on the same plane as men in everything, chivalry is nearly a dead letter. Many wish it were altogether so, regarding it as a bar to the full emancipation of women. There can be no traffic here with such wrong-headed and wrong hearted notions. In the healthy atmosphere of sport such notions wither and fade like exotics in an alien soil. "Ladies first!" is an abiding principle with all who are sportsmen.—Frye's Magazine.

What a Poultry Man Says About 20 Mule Team Borax.
As I am in the poultry business, I had ten white chicks to wash and prepare for sale. I used "20-Mule Team" Soap for washing the birds, and I can say from years of experience washing white birds, never before have I found a soap or Borax that cleaned my birds so fine and easy. I had a great deal of comment on my birds being so white. J. A. Dinwiddie, New Market, Tenn. All dealers—1/2, 1 and 5 lb. cartons Sample and booklet; 5c. Pacific Coast Borax Co., Chicago.

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Maudie E. Fergie, of Leesburg, Va., writes to Mrs. Pinkham:
"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong and well as ever, and thank you for the good you have done me."

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

ALL UTICA CELEBRATES
Parade Precedes the Ceremony and Sports and Band Concert Follow—Secretary Root Among the Speakers.

Utica, N. Y.—Representative James S. Sherman to-day was formally notified of his nomination for the vice-presidency at the Chicago convention last June, and the final ceremonies of officially placing the Republican national ticket before the people was completed.

James S. Sherman.

The notification was made the occasion of a general holiday and the residents of the city, irrespective of party, took part in the tribute to a fellow townman. The city, especially on Genesee street from the downtown section to the Sherman residence, was handsomely decorated.

The day began with a vice-presidential salute of 19 guns, fired at seven a. m. Then followed a parade of the city police and fire departments and at 11 o'clock the members of the notification committee were escorted to the Sherman residence.

Secretary Root was one of the distinguished guests at the notification ceremonies and made a brief address. In addition to the addresses of Senator Julius C. Burrows, chairman of the notification committee, and of Mr. Sherman, there were remarks by President M. W. Stryker of Hamilton college, from which the vice-presidential candidate was graduated; by Mayor Thomas Wheeler and by Charles S. Symonds, chairman of the local reception committee.

The later afternoon was given over to field sports, races, baseball, etc., at Utica park, and in the evening there were band concerts downtown and an electrical illumination of the principal streets.

FLEET LEAVES NEW ZEALAND.
American Battleships Sail from Auckland for Sydney.
Auckland, N. Z.—The American Atlantic fleet departed for Sydney at 8:15 o'clock Saturday morning. The weather was fine and large crowds were ashore and aloft to bid farewell to the Americans. Excursion craft loaded to the rails dotted the harbor.
As anchors were hoisted and the flagship pointed her nose toward the mouth of the harbor, pandemonium reigned. The shore batteries belched forth parting salutes which were answered by the American ships, and the whistles and sirens on the excursion flotilla resounded across the harbor and were reached by the distant hills. The American ships were kept busy dipping their flags in answer to the salutations of the New Zealanders.
Sir Joseph Ward, the premier, and a large number of officials were aboard a government steamer, and as each battleship passed Sir Joseph led the rousing cheers for the Americans. The battleship Kentucky, which was the last in the line, responded lustily with cheers for New Zealand and the hands on both vessels played the British and American national anthems and "Auld Lany Syne."
Auckland—The American battle ship fleet, which started for Sydney on Saturday morning, passed Cape Maris Van Diemen, the northwest extremity of North Island, at 4:45 Sunday morning. Light winds prevailed.

FAMOUS EVANGELIST DEAD

IRA D. SANKEY PASSES AWAY AT BROOKLYN.

Suffered from Diseases Brought On by Overwork—Wrote Many Books of Gospel Hymns.

New York.—Ira D. Sankey, known as an evangelist throughout the Christian world, died Thursday night at his home in Brooklyn, but the news of his passing did not become generally known until Friday. Mr. Sankey was 68 years old.

For the last five years he had been blind and had suffered from a complication of diseases brought on by overwork. But almost to the very last he worked at hymn writing. His tours throughout this country and Europe with Dwight L. Moody, the evangelist, brought him into wide prominence. Sankey, it might be said, wrote the gospel hymns of the world. In China, Egypt, India, Japan, in almost every language known to man, Sankey's hymns are sung. He received a large income from his publications and leaves a considerable estate. Among Mr. Sankey's most familiar compositions are "The Ninety and Nine," and "When the Mists Have Rolled Away." His songs are said to have had a circulation of more than 50,000,000 copies.

He was a rapid composer and wrote book after book of gospel hymns. During the last five or six years of his life he was interested in preparing and publishing the story of the gospel hymns. At the same time he saved his wonderful voice for posterity by singing into phonographs. The records were sent all over the world. Sankey first met Moody at a Y. M. C. A. convention in Indianapolis. Moody was so charmed with the young man's voice that he urged him to accompany him on his evangelistic tours. Sankey explained that he was married and could not give up his position. "You must come," said Moody; "I can't get along without you." Sankey consulted his wife and they came in their lot with Mr. Moody. They visited Great Britain from 1873 to 1876, and again in 1883, and made many tours throughout the United States.

SHOOTS BRIDE AND SELF.
Louis Ryan of Bridgeport, Ill., Attempts a Double Murder.
Clay City, Ill.—"Something will happen on August 13."
The foregoing statement is the substance of a note written by Louis A. Ryan, 35 years old, of Bridgeport, Ill., who Thursday night wounded his bride as she struggled to escape from a room, the door of which he had locked, and then turned his revolver on himself and inflicted a probably fatal wound in the head. The note was found in Ryan's pocket, following the shooting. The attempted murder and suicide occurred in a hotel at Noble, Ill., seven miles west of here.

Mrs. Ryan was shot twice in the left arm and once in the breast, but it is believed she will recover. Ryan shot himself in the left temple, the bullet emerging behind the right ear. His condition is critical.
Before their marriage the couple lived in Delphos, O. She was Miss Minta Schaeffer. Several days ago Mrs. Ryan came to Noble to visit an aunt and was later joined by her husband. No cause for the shooting is known.

MAN AND WIFE MURDERED.
Bloody Tragedy in Columbus, O., Mystifies the Police.
Columbus, O.—Arthur Neidlander, aged 34, and his wife, aged 19, were found dead Sunday, the former in a room above his grocery store near the western corporation line, and the woman in the street adjoining the store. The man's body lay in blood. He had been shot through the left breast and there were two knife wounds in the heart. The woman had been shot in the side, the bullet passing through both lungs. The police have made an arrest, that of John Newkirk, aged 30, a painter who lives with his mother not far from the Neidlander grocery. He is said to have threatened to kill the couple because they dog bit his mother recently. The crime, however, mystifies the police.

BIG BENEFIT FOR CY YOUNG.
Great Crowd, Loving Cups, Traveling Bag and Flowers Presented.
Boston.—Nearly 20,000 persons from all over the New England states, attended Thursday's benefit game for Denton Tecumseh (Cy) Young of Paoli, O., the Boston American league baseball team's veteran pitcher, at the American league grounds. Three silver loving cups, a traveling bag and two big floral pieces were presented to Young.
The main attraction, besides "Cy" himself, was a game between Boston and a team of star players picked from the other American league clubs. The all-stars won by a score of 3 to 2.

Struck and Killed by Motor Car.
San Jose, Cal.—Isaac Upham, a retired wholesale merchant of San Francisco, while riding a bicycle, Monday, was struck and killed by an automobile driven by S. B. Hunkins, president of the Garden City bank.
R. B. Oglesbee, Laporte, Dead.
Laporte, Ind.—Rollo B. Oglesbee of Laporte, head of the Indiana banking department and well known over the state as newspaper man, politician and historical writer, died Monday of heart disease, aged 48 years.
World's Record for Whaling.
Victoria, B. C.—The world's record for a week's catch by any coast whaling station was broken last week by the Kyquot station, to which 26 whales were taken by the steam whaler St. Lawrence. The best catch known heretofore was 22, a record also made by the St. Lawrence.
Turkish War Minister Dead.
Constantinople.—The new cabinet suffered a great loss Sunday in the sudden death of the war minister, Redjet Pasha, from heart disease.

ARE UNDER ARREST

WIFE AND MOTHER-IN-LAW OF MORRIS STEIN.

EXTRADITION WILL BE ASKED
Mrs. Stein is Calm when Arrest is Made, but Mrs. Bayard Weeps.

Ashland, O., Aug. 21.—At an early hour this morning Prosecuting Attorney George F. Frey issued a statement to the effect that Mrs. Morris B. P. Stein and her mother, Mrs. Sarah Bayard, both of Des Moines, have been charged in the affidavits with complicity in the murder of Morris Stein and Miss Hester Porter.
While the coroner's inquest is not completed, it has advanced to such a stage that extradition warrants to the governor of Iowa will be applied for shortly.

The examining physician declares he finds no trace of the two bullets which were supposed to have killed Miss Porter.
A rounded instrument, he declares, may have produced the wounds from which the woman died.
The path of the supposed bullets could not be traced.
Des Moines, Aug. 21.—Early yesterday morning a telegram was received at the local detectives' headquarters from the officials at Loudonville, directing them to detain Mrs. Stein and Mrs. Bayard until further notice. Before acting, however, Chief Johnston demanded the warrant, or a statement to the effect that a warrant had been issued.

A reply was received to the telegram late yesterday afternoon as follows:
"Copy of warrant mailed you to-night."
The telegram was signed Coroner Ash.
Upon the receipt of this message Chief Johnston set the detectives Andrew Brackett of the local force, and William McGrath of the Chicago detective bureau to the Stein home, 1715 Clark street, instructing them to take the two women into custody.

In the absence of the warrant issued yesterday from the county attorney's office at Loudonville, Detective Brackett had armed himself with two telegrams, one directing the local officers to hold the women and the other stating that a warrant had been issued and was now on the way to Des Moines. These were shown to Mrs. Stein, who examined them minutely.
Then returning the messages to Detective Brackett and turning to her mother, Mrs. Stein said:
"We might as well go, mamma. You had better get ready."

REPUBLICANS ASK FOR MONEY.
Assistant Treasurer of the National Committee Makes Appeal.
Chicago, Aug. 21.—An appeal to the rank and file of the republican party for aid in financing the national campaign was sent throughout the western states by Fred W. Upham, assistant treasurer of the national committee.
Mr. Upham in his appeal says:
Both the New York and Chicago headquarters of the republican national committee have been opened and the work of the campaign is well advanced. The election of Mr. Taft and Mr. Sherman is essential to the welfare of this country and perfect organization is necessary to elect them. To secure a perfect organization the national committee must be liberally supplied with funds.
Congress recently enacted a statute making it unlawful to solicit money for political purposes from corporations. All the funds therefore for the campaign must be supplied by individuals. You are requested to bring this matter to the attention of your business associates and ask each to send a check. Please be as liberal as possible, as it will take a large amount of money to pay the expenses of organization, the postage, printing, speaking bureaus and various details that are absolutely necessary to success.

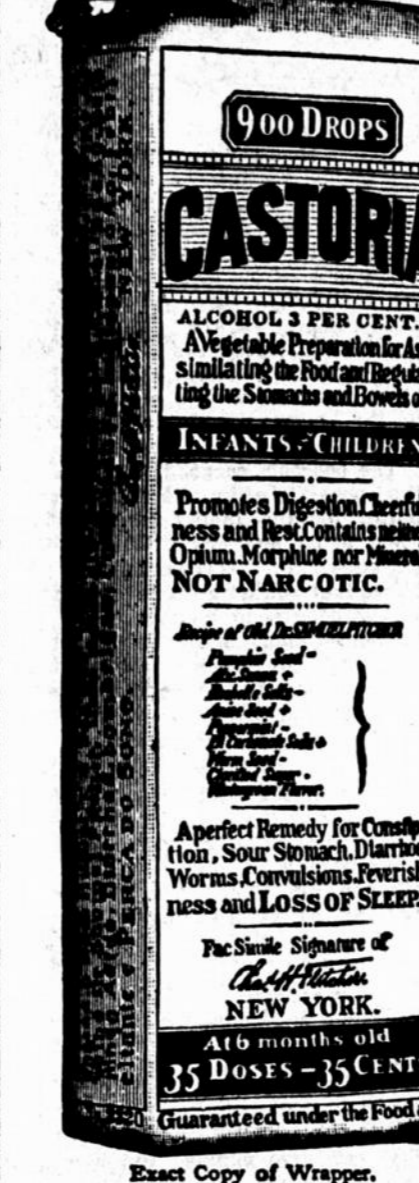

BIGAMY CHARGE DROPPED?
W. M. Carley May Be Tried for Desertion Only.
New York, Aug. 21.—District Attorney Jerome's representative who has charge of the Carley case here is authority for the statement that all charges save that of desertion will be dropped when William M. Carley's case comes to trial.
Carley again yesterday denied that he and Miss Solomon were ever married. The district attorney's office, however, is determined to press the case and an effort is being made in Iowa to ascertain whether or not the marriage was ever solemnized there. Upon the information received from Iowa will depend largely whether the bigamy charges against Carley will be pushed.

Council Bluffs, Ia., Aug. 21.—William M. Carley and Gussie Solomon were married in Council Bluffs. But instead of Gussie the name she gave was Augusta. The marriage license records show that the couple came here and were married Jan. 1, 1907. They both gave their age as 30 and their residence as Des Moines. E. B. Gardner, justice of the peace, performed the marriage ceremony.

Road Agrees With Operators.
Washington, D. C., Aug. 21.—The terms of the agreement between the Chicago, Rock Island & Pacific Railroad company and its telegraphers in regard to the controversy over an interpretation of the nine-hour act, was made public recently. The agreement provides that for day and night forces, where two telegraphers are employed, nine hours of total service in a twelve-hour spread shall constitute a day's work, and that in no case shall the nine hours be separated into more than two periods. Where three operators are employed nine hours of total service in an eleven-hour period shall constitute a day's work, but in no case shall the nine hours be separated into more than two periods.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.
Dr. F. Gerald Blattner, of Buffalo, N. Y., says: "Your Castoria is good for children and I frequently prescribe it, always obtaining the desired results."
Dr. Gustave A. Eisenbrauer, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."
Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."
Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."
Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."
Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."
Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."
Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."
Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

SELF DELUSION
Many People Deceived by Coffee.
We like to defend our indulgences and habits even though we may be convinced of their actual harmfulness.
A man can convince himself that whisky is good for him on a cold morning, or beer on a hot summer day—when he wants the whisky or beer. It's the same with coffee. Thousands of people suffer headaches and nervousness year after year but try to persuade themselves the cause is not coffee—because they like coffee.
"While yet a child I commenced using coffee and continued it," writes a Wis. man, "until I was a regular coffee fiend. I drank it every morning and in consequence had a blinding headache nearly every afternoon."
"My folks thought it was coffee that ailed me, but I liked it and would not admit it was the cause of my trouble, so I stuck to coffee and the headaches stuck to me."
"Finally, the folks stopped buying coffee and brought home some Postum. They made it right (directions on pkg.) and told me to see what difference it would make with my head, and during the first week on Postum my old affliction did not bother me once. From that day to this we have used nothing but Postum in place of coffee—headaches are a thing of the past and the whole family is in fine health."
"Postum looks good, smells good, tastes good, is good, and does good to the whole body." "There's a Reason."

EXAMPLES OF MEDIEVAL ART.

Fine Stained Glass Windows Recently Received at New York. The two German windows of stained glass among the recent acquisitions belong in period to the early sixteenth century, at the time when medievalism passes over into renaissance. The color is lighter and paler than that of the preceding century and is secondary in importance to the design. In the examples at the museum are certain tints of yellow that began to be used in the middle of the fifteenth century, as taste changed in favor of lighter rooms. The subjects of the windows are St. John and St. Maximine against a background of tapestry and architecture treated so as to appear on the same plane as the figures. The author of the note on the windows in the Museum Bulletin says that the drawing is undoubtedly the work of a painter—and a very good one—of the Ober-Rhein school, and that as St. Maximine was bishop of Trier, the supposition that the glass is from that source is probably correct. Very fine examples of the same period are those in the nave of Cologne cathedral—New York Times.

APPLES ONLY ON APPLE TREES

Small Girl a Humorist, Though Probably Unconscious. A Washington man, while visiting a friend's place in Virginia, became much interested in his experiments in fruit culture.

One day the visitor was making the rounds of the place, being in charge of the friend's young daughter of ten, who acted as guide.

"This tree seems to be loaded with apples," observed the Washingtonian, indicating a particularly fine specimen.

"Yes, sir," assented the little girl; "father says this is a good year for apples."

"I am glad to hear that," said the visitor. "Are all your trees as full of apples as this one?"

"No, sir," explained the girl, "only the apple trees."—Harper's Weekly.

HAVE SURPLUS OF FURNITURE.

Most people have far too much furniture in their houses, and certainly the majority indulge in too much (edible) fabric. Too many curtains, too many antimacassars, too many mats and cushions, says a writer in Good Health.

The bedroom carpet is a snare, and the sooner it makes its final exit the better for the family health. That great artist and critic, William Morris, once said: "Have nothing in your house that you do not know to be useful or believe to be beautiful."

What is the best thing in life? I queried recently. I have raised the same question aforesaid, and found the majority of responses leaned to "human affection." Surely there is nothing that comes to us by the grace of God so helpful as this "friend," who may be a husband, a wife, a sister or a brother, who knows the best of us and the worst of us, and who can love us still, ready to stand by us till the morning when our craft has grounded in the shallows or is helplessly stationary in the maelstrom vortex.

CINCHED HIS STATEMENT.

They were cross-examined in a Chicago court recently, a bookmaker who had been caught in the toils for playing some other game than his own. The third sub-assistant district attorney was intent upon a conviction, however, and was doing his best, none too successfully, to shake the testimony of the defendant.

How Coal Grows.

It takes a prodigious amount of vegetable matter to form a layer of coal, it being estimated that the present growth of the world would make a layer less than one-eighth of an inch in thickness, and that it would take a million years of vegetable growth to form a coalbed ten feet in thickness.

In the Same Boat.

An old couple in Glasgow were in a very depressed state owing to dull trade. "Thinking their son in America would help them, they wrote stating their trouble, and that if he did not help them they would have to go to the poorhouse."

Bolled Down.

"Tired of hearing my 'sugary words,' are you, Pulaantilla Corkins?" howled the indignant Orlando. "Perhaps you will be kind enough to tell me, Miss Corkins, what a sugary word is? What is it made of?"

Without another word of any description Orlando Spoonamore grabbed his hat and groped his way out into the darksome night. The blow had crushed him.

By order of a New York court a mother gave her seventeen-year-old girl who had attempted suicide a spanking with a hair brush. The fall from the sublime to the ridiculous might be more spectacular, but never more complete.

DIARRHOEA CURED.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Philippi, W. Va. "He saw Chamberlain's Colic Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by all druggists.

THE ORIGINAL HAIR GROWER

We Grew Our Hair, Now Let Us Grow Yours with PORO TRADE MARK REGISTERED

When we first began our wonderful work of growing all kinds, all qualities, all lengths, and all conditions of hair, even to the growing of hair on bald places of the head, many persons scorned the idea that such a thing was possible; but we have grown the hair for hundreds; rapidly achieving success. The proof of the value of our work is that we are being imitated, and largely by persons whose own hair we have actually grown and the further fact that they have very frequently mentioned us when trying to sell their goods (saying that theirs is the same or "just as good") or referred to PORO. We advise you to use only PORO Hair Grower, (the oldest and best of its kind.) See that the name PORO is on every box, not genuine without it. Prepared only by Mrs. A. M. POPE.

Beware of imitations.

Cartridges as Small Change.

Cartridges are taken as change all over Abyssinia, at a rate usually of ten to the dollar. The cap must be undamaged, the case in no way misformed and the paper round the bullet must be in a state of perfect preservation.

Devices of Defense.

What could be more perfect defense than the device of the moon-ben? She sinks herself in the water beneath an overhanging root or bank, leaving only her bill in sight. And that looks like a fallen leaf. You may stand within six feet of her and she will not move, so sure is she that her ruse will succeed.—London Evening Standard

Maps for Aeronauts.

A European idea is made, especially prepared for aeronauts, giving the position of the principal objects such as the bends of the rivers, factories, railway junctions, etc., which can be easily distinguished from the car of a balloon. Similarly, all the great centers of light will be indicated on the maps for use in night traveling.

Chamberlain's Cough Remedy

During the past 85 years no remedy has proven more prompt or more effectual in its cure of Coughs, Colds and Croup than Chamberlain's Cough Remedy. In many homes it is relied upon as implicitly as the family physician. It contains no opium or other narcotic, and may be given as confidently to a baby as to an adult. Price 25c; large size 50c

Straighten Your Hair

Dear Sirs—I have used only one bottle of your pomade and now I would not be without it for I makes my hair soft and straight and easy to comb and also gives a new growth. Mrs. W. F. Walker, Sta. 1—Harrison, Tenn.

Ford's Hair Pomade

Formerly known as Ozonized Ox Marrow. Fifty years of success has proved its merit. It uses makes the hair straight, glossy, soft and pliable, so you can comb it and arrange it in any style you wish consistent with its length. Removes and prevents dandruff, invigorates the scalp, stops the hair from falling out or breaking off and gives it new life and vigor. Absolutely harmless—used with splendid results even on the youngest children. Delicately perfumed. Its use is a pleasure, as ladies of refinement everywhere declare. Ford's Hair Pomade has imitators. Don't buy anything else alleged to be "just as good." If you want the best results, buy the best. Ford's—it will pay you. Look for this name

on every package. Charles Ford Ltd

If your druggist will not supply you with the genuine Ford's, write to the Boston, Mass. office for regular size or 25 cents for small size. We will forward bottle prepaid to any point in U. S. by return mail on receipt of price. Address: The Ozonized Ox Marrow Co., 115 East Kennebec St., Chicago, Ill. PATENT MADE IN U. S. BY THE ABOVE FIRM. Agents Wanted Everywhere.
