### TENTH CAVALRY RECEPTION.

The return last week of the famous 10th Cavalry from a three year stay in the Phillipine Islands in New York and the great generous reception given by the New York citizens regardless of color. The enthusiastic cheering by the large crowd that lined the streets of our nation's metropolis was without bounds, this showed that the Negro race yet had thousands of friends and that the loyalty and heroic bravery of black American soldiers is honored at home, so do not be discouraged the Negro is coming amid difficulties and disadvantages and will prove to the intelligent that we are worthy to be called the truest, bravest and most law abiding of the American citizens.

### NEW ALDRICH-PAYNE TARIFF BILL.

The new Tariff bill has finally passed after the Congress has been laboring and working hard for more than three months, and now it does not suit all the people nor all sections of America. The East did not get all they had hoped for nor did the middle get what they are honestly entitled, and the South claims she has not been treated right with her products, and the North was complaining of unfair schedules, thus none are exactly satisfied, the bill like all other important bills is simply a compromise. In fact we think it is a breach of good faith with our Republican platform, nor is it in harmony with the public speeches that President Taft made during the campaign. We all wanted a revision of the Tariff downward on many schedules. We in the West hope for but little relief from the new Bill.

## New Honor For Miss Johnson.

Story of the Rise of an Orphan Girl From Obscurity to Prominence as a Religious and Literary Worker, Governess and Assistant in Public Library.

By N. B. DODSON.

Miss Violet A. Johnson, who was recently appointed assistant in the Cutler Public Library at Summit, N. J., is a native of Wilmington, N. C., in which city she received her early education. Being left motherless when quite young, she was thrown upon her own resources at a time when the care and protection of parents are most needed. But, being possessed of strong will power and high aspirations, she made her way up through difficulties and many vicissitudes until she grew to womanhood. About the first position which Miss Johnson held requiring both tact and education was that of assistant teacher in one of the mission schools of the Woman's Missionary Society of Chicago, which was directed by Miss M. E. Doffins of Pittsburg, Pa. She remained in the employ of the society for eight years. Her work gave general satisfaction, and her salary, which at the beginning was only \$10 per month, was increased from time to time as the work

MISS VIOLET A. JOHNSON.

grew and became more responsible. When the society held its annual session in Boston a few years ago Miss M. G. Burdett, the president, appointed Miss Johnson on the program to speak, she being the only Afro-American woman to address thousands which gathered in Tremont temple on that occasion. Miss Johnson also worked a portion of the eight years of her employ with the society in Brooklyn, N. Y. While there she joined the Concord Baptist Church of Christ and was subsequently appointed as a teacher in the Sunday school, and as such she was one of the most faithful and efficient. She was one of the founders of the Young Woman's Culture club of Brooklyn, which for a number of years met regularly for the study and discussion of prominent American and English authors. While in Brooklyn Miss Johnson accepted the position of governess and house-keeper in the family of Mrs. J. H. Eggers at Summit, N. J., which she has held for a number of years. When Miss Johnson went to Summit there was no church for our people in that aristocratic little town. Seeing the need of a place of worship for the many persons of our race residing there, she made it possible for the starting of a little Baptist mission, which, guided by her fostering care and most the time personal support, has grown into a regular Baptist church, recognized by and a member of the New England Baptist missionary convention. Having a genial disposition, willing and obliging, Miss Johnson has won for herself a host of friends who lavish upon her their love and confidence. She is both worthy and deserving of the new honor which has come to her at the hands of her Caucasian friends at Summit, who feel that she has merited the position.

When B. T. Washington dies. The only statue in New York city of a colored man is a figure of St. Benedict the Moor over the entrance of St. Benedict's church in Fifty-third street. Strictly it is not a statue, but a figure. A prominent Negro of New York said when his attention was called to this: "The question of erecting a statue to one of our race would have been settled long ago if Booker Washington had not come up when he did. There was a movement on foot to erect one to Frederick Douglass, but when Booker Washington began doing so much for the race it was thought best to defer the statue, for when Washington dies, and may that time be far off, he will have a memorial worthy of his work, and it will be put where everybody in this great city can see it."

Friday during the session of the John Brown Assembly, the feature of the afternoon was a ball game between the Black Wonders of this city and the Black Giants of Fairfield. The Fairfield boys played very good ball, but it could be easily seen that their opponents were far superior in their way on the diamond, therefore causing a rather one-sided game; the score being 7 to 14 in favor of the Black Wonders. The Fairfield team is managed by Mr. B. F. Carter and captained by Mr. Bennings. The Mt. Pleasant team is managed by Mr. Steven Brown and captained by Mr. Harry Burnough. ## ELEVATOR BURNED

Big Grain House at Cambridge  
Entirely Destroyed.

### FIRE OF MYSTERIOUS ORIGIN

Building a Mass of Flames When Fire  
Was Discovered—Third Story  
Had Just Been Added to  
the Structure.

Cambridge, Ia., Aug. 6.—Fire of mysterious origin destroyed the Ingles & Co. grain elevator. The property loss is fully \$15,000 about half covered by insurance.

The Ingles & Co. elevator was a large frame structure, designed to hold about 15,000 bushels of grain. Work on putting a third story on the building had been finished within the last few days.

When the fire was discovered the whole structure was a mass of flames. A hundred or more citizens were quickly on the ground but it was plain that the elevator was doomed and little attempt was made to fight the flames.

The building itself was quickly destroyed. It is likely that the grain will continue burning for days. The loss on the building and machinery will be about \$10,000 and on the grain, chiefly wheat, rye and corn, about \$5,000. There was no fire in the building and the officers of the company are at a loss to understand how the fire originated.

### 700 CIVIL WAR MUSICIANS

E. J. Freeman, of Audubon, Heads  
Iowa Delegation to National

Audubon, Ia., Aug. 6.—Quite a notable train pulled out from the Rock Island depot in Audubon, being no other than one carrying E. J. Freeman of Audubon and a part of his 700 members of the National Association of Civil War Musicians enroute to the national encampment of the Grand Army of the Republic at Salt Lake City. He was accompanied by a large number of citizens who are not members of the G. A. R., but go along for an outing and to see the famous Mormon city. When Mr. Freeman was elected president of the Civil War Musicians little did he dream that it would spread from the city of Audubon to the borders of the county, then the borders of the state, till now it is scattered into many states of the Union. But such is the fact. Mr. Freeman and his grey haired fifers and drummers, 700 strong, have been assigned the position of leaders of the grand parade out at Salt Lake City next week.

# TWELVE HURT IN WRECK

Overland Limited on the Milwaukee  
Road Ditched at Cambridge,  
Caused by Break in the  
South Track Rail.

VIEW OF WRECK AT CAMBRIDGE.

Des Moines, Aug. 5.—Twelve people were injured and the passengers of the entire train of the Overland Limited of the Chicago, Milwaukee & St. Paul railway miraculously escaped death in a wreck just east of the crossing at Cambridge early Saturday morning. The accident was caused by a break in a foot long in the south rail of the track. The engine did not leave the rails, but the six coaches were thrown into the ditch and the mail and combined express cars were splintered into kindling wood.

News of the disaster was at once sent to Cambridge, Des Moines and Council Bluffs. Special relief trains were hurried to the scene. John D. Lawrence, the mail clerk, was found cruelly mangled under the wreckage and was hurried to Des Moines and taken to the Methodist hospital. He recovered consciousness and at once dispatched a message to his wife at Marion, Ia., assuring her that he would recover. The physicians are not so sanguine as Lawrence is in a grave condition.

The railroad officials believe that the wreck was caused by a freight engine breaking the rail although it is possible that it was caused by the passenger engine passing over it. The

drivewheels were over the gap where the engine stopped, but the small trailers were off.

List of the injured.  
The list of the seriously injured is as follows:  
John D. Lawrence, Madrid, mail clerk; aged 46; married. Right elbow and left shoulder fractured and injured internally.  
Frank L. Elston-waller, Cedar Rapids, mail clerk; aged 65. Cut on back of head, left shoulder bruised.  
E. A. Matkovic, Blysdale, Penn., laborer; aged 42. Cut on head.  
Arthur Dodge, Toledo, O.; aged 23. Cut on forehead, ankle sprained.  
Ralph Santanob, Chicago, laborer.

One in Des Moines.

THE HOME WILL COST \$30,000

C. Larson, of Racine, Father of Late  
Mrs. V. Lyngby, Gives \$15,000  
in Memory of Daughter.

Des Moines, Aug. 5.—In memory of his daughter, Mrs. V. Lyngby, wife of the former Danish vice-consul in Iowa, L. Larson of Racine, Wis., has given the Danish society of Iowa and Des Moines \$15,000 with which to build an endowed home in Des Moines for aged Danish people. Mrs. Lyngby died at Council Bluffs last December. The home will cost \$30,000, the remaining \$15,000 to be raised by subscription. Four lots have been purchased at the corner of East Ninth and Morton avenue as a site for the new home.

The canvass for funds has been deferred because of the fact that the Danish people are raising money now for an orphanage at Tilsa, Minn. As soon as the funds have been raised for this building the canvass for the funds for a home for the aged will begin, and it is hoped to have the home ready for occupancy some time next year. It is also planned to build a new church adjoining the home for the aged.

"Oh, mamma, now I know what it is that bites you when you drink soda water."

### SEEK BLACK HAND KIDNAPERS

DISAPPEARANCE OF ST. LOUIS  
CHILDREN LAID TO BAND.

Trunks Traced to Chicago Found to  
Contain Only Lot of Old  
Clothing.

St. Louis.—Three trunks shipped by members of the "Black Hand," who kidnaped two children in this city, have been found in Chicago. Until they were opened it was feared they contained the bodies of the children. However the discovery of clothing and other articles in the trunks is regarded as an important clue.

The discovery that the three trunks had been shipped from St. Louis to Chicago by men suspected of the kidnaping of Grace and Tommaso Viviano confirmed the local police in the belief that the disappearance of the children and the demand of \$25,000 ransom for them, was the result of a carefully worked "Black Hand" plot, which did not, however, contemplate harm to the children.

The local police officials had no idea that the trunks found in Chicago contained the bodies of the children. For this reason Chief Creevy telegraphed to the Chicago authorities to use their own judgment in opening the boxes.

The message was in answer to a communication from Chicago to the effect that bodies were believed to be in the trunks.

The St. Louis police theory of the trunks is that they contained the property of Samuel Turrisi, who is believed to have lured the Viviano children from their home, and other members of the blackmailing gang. The trunks were taken from the house of Joseph Pagano here Monday afternoon and it is known that Pagano and Turrisi were friends and that a man answering the latter's description left Pagano's house an hour before the children disappeared Monday.

**WOULD SHAKE OFF EAST.**  
Time Has Come for West to Cut

of Minnesota.

Seattle, Wash.—"It is time that the west throw off the shackles of the east. I would preach no sectional divisions and no sectional strifes, but Minnesota and Washington and the states between them, with those to the south of us, should arise in their might and claim for themselves that fair share of influence in the halls of congress and in the administration of national affairs to which they are entitled by every law of common sense, as well as of political economy."

This was the declaration of Gov. John Johnson in his address at the Minnesota day celebration at the Seattle exposition.

"We, as an integral part of the American people should cast our influence and our votes not only to advance the material interests of our own particular section, but we should be broad enough and big enough to labor for the common good of our common country," said the governor.

### FOUNTAIN PEN SAVES LIFE.

Deflects Bullet Fired by Woman at  
Gotham Lawyer in Waldorf-  
Astoria Hotel.

New York.—If you expect to be shot, carry a fountain pen in your vest pocket. It may save your life.

William D. Craig, a lawyer, was thus protected when Mrs. Mary A. Castle, a decidedly good-looking woman, tried to kill him in the crowded Waldorf-Astoria hotel and instead of a mortal wound he bears only a scratch, because the fountain pen deflected the bullet.

Craig, who is a member of the Rocky Mountain club, which has a suite of rooms in the hotel, was on his way to the club rooms to dress for dinner. Mrs. Castle, who had been waiting for him, tried to detain him, but Craig shook off the woman and went to the elevator. Mrs. Castle kept pace with him and as he was about to step into the elevator, she shot at him when the muzzle of the revolver was within an inch of his coat.

"He is the cause of my trouble. He has thrown me over," was her explanation.

Mexico City.—Details which are beginning to arrive from the state of Guerrero show that the recent series of earthquakes in the valley of Mexico and along the Pacific coast were the worst experienced in many years.

It is now certain that the towns of Acapulco and Chilpancingo have been practically destroyed.

What the earthquake of Friday failed to do was accomplished by the stronger one of Saturday, which either leveled or rendered uninhabitable every building in the two places.

In addition to the ruin caused by the earthquake, Acapulco now faces a famine. All of the markets were destroyed and the country people are afraid to bring more produce into the town. The people are camping in the public squares.

A dispatch from Acapulco says 73 distinct shocks have been felt there since the first shake Friday.

## TARIFF MEASURE MAKES CUT IN MANY SCHEDULES

### Fight for Lower Duties on Wood Pulp and Print Paper Is Won

#### SLIGHT INCREASE IN RATES ON HOISERY.

#### Metal Schedules Are Lower—Duty on Rough Lumber Changed from \$2 to \$1.25 per Thousand Feet—Sugar and Tobacco Schedules Remain Substantially as Under the Dingley Bill—Little Change in Wool Duties.

Washington.—Tariff rates under the new measure, on the most important articles of consumption, have been decided on as follows:

In the lumber schedule the only increased were those on shingles from 20 cents to 50 cents per 1,000, and on briar wood and laurel wood for the use of pipe makers from the free list to 15 per cent. ad valorem. The rate on sawed lumber, was decreased from \$2 per 1,000 to \$1.25 per 1,000. There was also a diminution on timber from one cent per cubic foot to one-half cent, and on sawed boards of white wood and kindred woods from \$1 per 1,000 to 50 cents per 1,000. The reduction in the differential rates in favor of dressed lumber averaged about one-third of the Dingley rate. Paving posts, railroad ties and telephone poles are reduced from 20 to 10 per cent. ad valorem; clapboards from \$1.50 per 1,000 to \$1.25; laths from 25 cents to 20 cents per 1,000, while fence posts and kindred wood were taken from the dutiable list and placed on the free list.

The only change in the sugar schedule consisted of a reduction of five-hundredths of a cent in the differential on refined sugar.

In agricultural products broom corn was taken from the free list and made dutiable at three dollars per ton. Hops are increased from 12 to 16 cents per pound. There are also increases on lemons, figs, almonds, pineapples and chichory root. The reductions in the agricultural schedule covered bacon and hams from five to four cents per pound, lard from two to one and one-half cents, fresh meats from two to one and one-half cents, and starch from one and one-half to one cent per pound. Tallow, wool grease, dextrin, peas, sugar beets, cabbages and salt were also lowered.

The wine and liquor schedule was increased throughout to 15 per cent. over the Dingley rates.

The cotton schedule was reconstructed and readjusted to bring the duties up to those collected during the first four years of the operation of the Dingley law and to the rate then collected under that law. Since that time the rates have been lowered, in some cases from 60 to 6 per cent. by court decisions. These new rates are equivalent to an addition, on the whole, of three per cent. ad valorem increase over that collected under the present law for last year.

#### Cotton Hosiery.

Cotton hosiery, valued at not more than \$1 per dozen is increased from 50 to 70 cents per dozen pairs; more than \$1 and less than \$1.50 per dozen pairs, from 60 cents to 85 cents per dozen pairs; more than \$1.50 and not more than \$2, from 70 cents to 90 cents per dozen pairs.

The remaining rates on stockings are the same as under the present law.

Hemp is increased from \$20 to \$22.50 per ton and hackle hemp from \$40 to \$45 per ton. The cheaper laces remain as in the present law, but there is an increase from 60 to 70 per cent. on some of the higher priced laces. In this schedule single coarse yarns are reduced from seven cents to six cents per pound and gill nettings from 25 to 20 per cent. ad valorem.

There was a general reduction in carpets and mats.

A reduction from 20 cents to 15 cents is made in hydraulic hose. Oil cloth, including huleum, was reduced about one-third.

There was practically no change in the wool schedule from the rates of the Dingley law, but there was a readjustment between tops and yarns and a small decrease on cloths with a cotton warp.

Mechanically ground wood pulp was exempted from duty and placed on the free list with a provision for a countervailing duty against Canada. The lower grade of printing paper was reduced from \$6 to \$3.75 per ton and the higher grade from \$8 to \$3.75. There is an increase on surface coated paper and lithographing prints, including postcards and cigar labels.

#### The "Hyde of Land."

According to an ancient law in England, "a hyde of land" included what could reasonably be cultivated with one plow. This applied for scores of years, but at the dissolution of the religious orders in the reign of Henry VIII, the "hyde" or cultivated land of the abbots of Westminster, all reverted to the possession of the crown. That marked the gradual decline of that means of measuring land, and before many years the term fell into disuse, never to be revived.

#### European Ostrich Farm.

The only ostrich farm in Europe is at Nice. It is said to be profitable. Incubators have to be used to hatch the eggs, the sun in the Riviera not being hot enough to do this work, as it does in Africa.

#### Emotional Maine Audience.

A physician in Portland, Me., estimated 2,948 teaspoonfuls of tears, or two gallons in all, were shed in one night by the audience that heard Savage's "Mme. Butterfly" in that city recently.

#### Field for Patent Medicines.

Brazil is offering an alluring field to the American makers of patent medicines, as against the standard proprietary medicines there exists no prejudice on the part of Brazilian doctors or their patients.

#### British Women Inventors.

About 600 patents are granted each year to British women upon inventions ranging from articles distinctly feminine in nature to motors, railroad cars, flying machines and wireless telegraphy.

#### Crime Increases in London.

The proportion of felonies relating to property to the population in the police area of London has risen steadily of recent years. In 1907 it was 2,689 in each 1,000 of the population, a higher figure than in any year since 1895.

#### Cheap Russian Journal.

The Farthing Gazette, probably the cheapest daily newspaper in existence, has been started in Moscow, and has already a considerable circulation.

Foreign-built yachts are subject to an excise tax of seven dollars per gross ton, which is to be collected annually on the first day of September.

In lieu of the excise tax the owner of a foreign built yacht or pleasure boat may pay a duty of 35 per cent. ad valorem on his yacht. This will entitle him to American registry. The excise tax provision was adopted because of the fact that some question has been raised about the ability of the government to enforce collection of import duties.

#### Corporation Tax.

Every corporation, joint stock company or association organized for profit, and every insurance company is required to pay annually an excise tax of one per cent. upon its entire net income over and above \$5,000. This feature was put into the bill to raise additional revenues to apply on the treasury deficit. The section was prepared by Attorney General Wickham, assisted by other able lawyers in the administrative circle, and great care was taken to guard against double taxation. It provides a form of publicity which will enable the government to exercise supervision over corporations. The form of returns which must be made by corporations, and other features of the corporation tax law were made public in detail during its consideration in the senate. It is estimated that from \$20,000,000 to \$30,000,000 a year will be collected under this form of federal taxation.

The secretary of the treasury is authorized to issue Panama canal bonds to the amount of \$20,569,000, which sum, together with that already expended, equals the estimated cost of the Panama canal. It is not intended that the bonds shall be issued except as needed to provide money to carry on the work of canal construction. The bonds are to be payable 50 years from the date of issue, and will bear interest at a rate not exceeding three per cent. When the bonds are sold the secretary of the treasury will restore to the working balance the \$50,000,000 paid originally for the canal property and the canal zone.

The re-enactment of the provision authorizing the issuance of treasury certificates for money borrowed to meet public expenditures, increases the amount of the authorization from \$100,000,000 to \$200,000,000. A large number of other provisions that are in force under the existing tariff law are included in the conference bill, with a few changes in phraseology in several cases.

The drawback provision of the Dingley bill is incorporated in the conference bill in lieu of the drawback of the house bill which intended to permit the substitution of domestic material in the manufacture of articles for export to the same quantity that the imported material, upon which the drawback was obtainable, was used in the manufacture of similar articles for domestic consumption. An additional provision was adopted entitling users of domestic alcohol in the manufacture of perfume and cosmetics to secure a drawback of internal revenue tax to the amount of alcohol used in an exported article.

#### Senate Ideas Accepted.

Practically all the administrative features of the bill which were adopted in the senate were accepted by the conferees. They include a new maximum and minimum feature, a corporation tax law instead of the inheritance tax adopted by the house, authorization for a bond issue to raise money to build the Panama canal, as well as numerous other features.

The maximum and minimum provision prescribes duties in accordance with the rates named in the dutiable list until March 31, 1910, when 25 per cent. ad valorem is to be added automatically as the maximum duty. The president is authorized to apply the minimum rates, however, to imports from a country which gives its best rates to the products of the United States and is made the judge as to whether a foreign country accords to the United States treatment which is reciprocal and equivalent. When he finds that this condition exists he is to issue a proclamation putting in effect the minimum rates and until the time of the proclamation the maximum rates will apply.

The president is empowered to employ such persons as may be required to secure information to assist the president in the discharge of the duties imposed upon him and information which will be useful to the officers of the government in the administration of the customs laws. The reciprocity treaty with Cuba is not affected by the maximum and minimum provision.

The president is empowered also to abrogate those reciprocity treaties which can be terminated by diplomatic action. It is made his duty to give 10 days' notice after the bill becomes a law of his intention to bring those treaties to an end. All other treaties which contain no stipulation in regard to their termination by diplomatic action shall be abrogated by a notice of six months from the president to those countries, the notice dating from April 30, 1909, on which date Secretary Knox notified foreign governments that the United States would soon ask them to enter into new tariff relations.

#### Turkey Building Good Roads.

The 20,000,000 people of the Turkish empire are still practically without motor cars. The government is now about to spend several million dollars on good roads and between Damascus and Bagdad a motor car service is likely to be established soon.

#### Little Tobacco Used in Italy.

The per capita consumption of tobacco is lower in Italy than in any other European country, being a trifle over a pound.

#### Senator Aldrich's Stats.

Rhode Island received its name from what was supposed to be a resemblance in contour to the Island of Rhodes in the Mediterranean.

#### Canada's Maple Sugar, "Crop."

Three pounds of maple sugar to a tree, is considered a good yield. This year's yield in Canada was below the average.

#### Power in Speech.

Speech is power; speech is to persuade, to convert, to compel.—Emerson.

### HONORS WERE WITH FARMER

(Fall Carrier Must Have Realized That He Picked Out Wrong Man to Have Fun With.)

The new mail carrier on the rural free delivery route glanced at the name on the letter box by the roadside, stopped his horse, and spoke to the roughly attired farmer who was resting his sun-browned arms on the gate and looking at him.

"I see," he said, "your name is Holmes."

"Yes."

"Beverly G.?"

"Yes, I'm the man that lives here."

"Any relation of Sherlock Holmes?" gravely asked the carrier.

"No, sir," answered the farmer, "but I'm detective enough to know that you're not a very good judge of human nature. You took me for an ignorant duds on 'em. Sherlock Holmes would look at a man's face and eyes before I size him up as a—Some mail for me? Thanks."—Youth's Companion.

### ITCHED FOR TWELVE YEARS.

Eczema Made Hands and Feet Swell, Peel and Get Raw—Arms Affected, Too—Gave Up All Hope of Cure.

Quickly Cured by Cuticura.

"I suffered from eczema on my hands, arms and feet for about twelve years, my hands and feet would swell, sweat and itch, then would become callous and get very dry, then peel off and get raw. I tried most every kind of salve and ointment without success. I tried several doctors, but at last gave up thinking there was a cure for eczema. A friend of mine insisted on my trying the Cuticura Remedies, but I did not give them a trial until I got so bad that I had to do something. I secured a set and by the time they were used I could see a vast improvement and my hands and feet were healed up in no time. I have had no trouble since." Charles T. Bauer, Volant, Pa., Mar. 11, 1908. Potter Drug & Chem. Corp., Sole Props., Boston.

### HIS PLEASURE A LATE ONE.

Probably Mr. Hogan Did Not Realize Just What Might Be Made of His Expression.

Casey was dead, and to do honor to him the members of the Thirteenth district Tammany organization attended the funeral in a body, says the New York Press. Slowly and sadly they filed past the coffin and took a last look at their departed comrade. At the door each man paused to shake hands with the sorrowing widow and to murmur a few words of condolence. When it came to Mr. Hogan's turn, he delivered a lengthy oration concerning the good qualities of the deceased Mr. Casey.

"Sure, 'tis plain you knew my husband well, sir," said the tearful Mrs. Casey.

"Only by sight, ma'am, only by sight," Mr. Hogan hastened to explain. "I never had the pleasure of meetin' him 'til to-day."

### YOU NEVER KNOW YOUR LUCK.

She—Yes, they are engaged. I know she refused him twice, but the third time he proposed she accepted him.

Her Husband—Served him right.

Half Done.

"Your husband has merely fainted."

"Dear, dear, those men always do things by halves."—Megendorfer Blaetter.

### THE NEW WOMAN

Made Over by Quitting Coffee.

Coffee probably wrecks a greater percentage of Southerners than of Northern people for Southerners use it more freely.

The work it does is distressing enough in some instances; as an illustration, a woman of Richmond, Va., writes:

"I was a coffee drinker for years and for about six years my health was completely shattered. I suffered fearfully with headache and nervousness, also palpitation of the heart and loss of appetite.

"My sight gradually began to fail and finally I lost the sight of one eye altogether. The eye was operated upon and the sight partially restored, then I became totally blind in the other eye.

"My doctor used to urge me to give up coffee, but I was willful and continued to drink it until finally in a case of severe illness the doctor insisted that I must give up the coffee, so I began using Postum, and in a month I felt like a new creature.

"I steadily gained in health and strength. About a month ago I began using Grape-Nuts food and the effect has been wonderful. I really feel like a new woman and have gained about 25 pounds.

"I am quite an elderly lady and before using Postum and Grape-Nuts I could not walk a square without exceeding fatigue, now I walk ten or twelve without feeling it. Formerly in reading I could remember but little but now my memory holds fast what I read.

Several friends who have seen the remarkable effects of Postum and Grape-Nuts on me have urged that I give the facts to the public for the sake of suffering humanity, so, although I dislike publicity, you can publish this letter if you like."

Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

### OH, MY!

He—A woman is peculiar in one way.

She—What's that?

He—She won't tear up a love letter, even after she's forgotten who wrote it.

Physician's Mean Trick.

A doctor was one day stopped in the streets by one of his woman patients whose malady was purely imaginary. The doctor, who was known for his intolerance and nonsympathy with such invalids, after listening somewhat impatiently to the woman's detailed account of all her feelings and symptoms, told her to shut her eyes and put out her tongue. She promptly did so. On opening her eyes in a few seconds the doctor was nowhere to be seen, and the woman awoke to the fact that he had left her standing by herself in a busy thoroughfare with her eyes shut and her tongue hanging out.

Either Way.

Mr. Wilkins had been sitting quietly on a nail keg, perusing a paper which he had found on the counter. The date of it he had not noticed. Finally he looked up with a puzzled expression.

"What's this wireless telegraph signal, this 'C. O. D.' they're talking about?" he asked.

"I guess it's 'C. Q. D.' ain't it?" suggested Holbrook, the grocer. "Any way, it's a signal of distress," he added, moodily.

Good Evidence.

"When she hit him with the golf ball, did it knock him senseless?"

"I guess so. I understand they are soon to marry."—Central Methodist Advocate.

RETURN OF THE TENTH CAVALRY

NOT since the outbreak of the Spanish-American war, May, 1898, has the patriotism of the Afro-American population of New York been stirred to such an extent as was manifested upon the return of the Tenth United States Cavalry from the Philippine Islands.

at the Sixty-ninth regiment armory they stacked arms, rested, enjoyed the excellent music of the New Amsterdam band for awhile and then repaired to the dining room, where they enjoyed their well earned dinner and received the greetings of all who could get in hand shake of them.

The literary program began about 4:35. The address of welcome was delivered by Mr. J. Frank Wheaton. For patriotic expression, eloquence and logic it was a masterpiece. In his speech of welcome to the soldiers on behalf of the city, Acting Mayor McGowan said: "I consider this one of the proudest privileges of my life."

"If the people of Vermont don't treat you as you ought to be treated," said the acting mayor, "you come right back here to New York. You will find us ready to receive you, and we will make your life one grand holiday. You have the respect of our people, not alone those of this city, but of all the country. Any man who wears the uniform of the United States army is entitled to that respect."

"You have performed valiant service to your country, and it can never be forgotten. God bless you all!" Other speakers were the Rev. R. C. Hanson, Dr. W. L. Hunter, George E. Wibeean, J. D. Wetmore, A. B. Cooley, and C. W. Anderson. In the evening the soldiers were entertained at the Harlem River Casino.

The Tenth United States Cavalry was organized in the year 1867 with Brevet Major General B. H. Grierson as colonel. The rendezvous was established at Fort Leavenworth, Kan.

The theater of military operations embraced the vast territory of Kansas, Texas, Indian Territory, New Mexico and Arizona, and from the organization until coming to Montana in May, 1892, there was scarcely a month of idleness. General Grierson was promoted to the grade of brigadier general April 15, 1890, and was succeeded in command of the regiment by Brevet Brigadier General John Kemp Minzer, who still exercises his commission.

When the last troop of the regiment had passed before the reviewing officer the march to the Sixty-ninth regiment armory was in progress, where the members of the "Fighting Tenth" fraternized with the members of the fighting Sixty-ninth of civil war fame.

Seven of the troopers brought back with them Filipino wives, and one trooper was fortunate enough to bring back three children by the Filipino wife. Mrs. King, wife of Private King of Troop H, was the happy mother, and she had the honor of being the only wife of an enlisted man aboard who had a family.

Upon the arrival of the cavalrymen intense colicky pains relieved. "For some years I suffered from intense colicky pains which would come on at times and from which I could find no relief," says I. S. Mason, of Beaver Dam, Ky.

**SOME PEOPLE WE MET.**  
By Edward Staff Correspondent.  
The Glidden auto tourist arrived in Council Bluffs a short time before our train and hundreds of people were there to greet them. The high waters had left a great deal of damage to the "bluff" besides leaving plenty of mud on the streets and it was very dusty.

Mr. C. W. Levitt is running his rooming house. He opened one in Omaha a few months ago and has a good patronage at both houses. Mr. Chas. F. Davis, one of the "Bluffs" old residents, owns several houses and lots and a small farm near the city on which he raises vegetables. He expects to attend the business Men's League which is in Louisville, Ky. next month.

Mr. R. V. Robinson is an employee of the Shaffer Lbr. Co. and has a nice home on Fifth avenue. Mr. T. Britt, an entergetic young man, has been head waiter at the Grand Hotel for more than five years. He is quite and unassuming and keeps in touch with the progress of our race.

Mrs. F. C. Walker, grand secretary of the O. E. S. of the state of Iowa and justice, formerly of Davenport but now a resident of this city, and her husband have recently purchased property. Mrs. Walker is one of the prominent women in the state in the O. E. S. order. She and Mr. Britt had us to put their names on our mailing list.

After about 20 minutes ride on the street car we were in Omaha. The first acquaintance I met was Dr. A. G. Edwards, formerly of this city. He is enjoying a good practice and living in his own home. His wife is edress of the Woman's Aurora, devoted to the interest of Afro-American women everywhere, a monthly publication, the first issue will be published this week. As Mrs. Edwards has an excellent literary education the magazine will no doubt contain some good literature.

Among the former Iowans that are now living in this city are the Messrs. John Hardy, R. I. Davis, Alex. Tillery Jr., David Thomas, H. S. Hazard, the Mesdames Jennie Alexander, C. Coecran, L. P. Robinet. The latter expects to engage in the real estate business this fall. All of them seem to be doing well. The People's Drug Store, which is owned and managed by colored men is doing a good business; they opened the store about three months ago.

Mr. Coleman is manager of the Independent Social Club which has a large membership. Mr. E. S. Clemons is one of our race that is a clerk in the post office and prominent in church and secret societies. Rescue Lodge No. 25, A. F. & A. M. have purchased property and next year expect to begin the erection of a building. What's the matter with the Iowa Masons? Are they making such preparations? Mr. C. Cochran has been shipping clerk at the Carpenter Paper Co. for more than twenty years. He spent several days in this city last summer. His wife and children are spending part of the summer in Clarinda.

We visited Hose Company No. 11 of the city fire department, where we found all colored firemen. They have the double platoon system, hence there are four men on during the day and four at night. Through the kindness of Mr. Lewis Selby, a member of the company, we were taken through the station. The other members were the Messrs. Ed Turner, Chas. Smith, and Frank Johnson. The latter is the captain, also a nephew of Jefferson Logan of this city, and they keep well informed on the progress of the race as published by the Bystander. The editor of the Enterprise, T. P. Mahammit, was a very busy man as the annual meeting of the O. E. S. of that state, Missouri and Kansas was in session.

In Sioux City we found Mr. Wilbur Norris, editor of the Afro-American Advance. W. P. Shields is still employed at Sol Frank's Tailor shop and is a good workman. We were sorry to hear that death had visited Mr. and Mrs. Askew's home. Mr. T. H. Sturges had not returned from his vacation. Mrs. F. W. Roberts has an ice cream parlor and restaurant and has a good patronage. The high water did a great deal of damage in that city and a number of Afro-American homes were impaired. L. C. Cloyd is still running his dyeing and cleaning establishment. Mr. Draper is assisting him. Rev. M. G. Newman of the A. M. E. church is in the midst of a rally. **Ford's Hair Pomade**  
Formerly known as Ozonized Ox Marrow. Fifty years of success has proved its merit. It makes the hair straight, glossy, soft and pliable, so you can comb it and arrange it in any style you wish consistent with the length. Removes and prevents dandruff, invigorates the scalp, stops the hair from falling out or breaking off and gives it new life and vigor. Absolutely harmless—used with untold results even on the youngest children. Delicately perfumed, its use is a pleasure, as ladies of refinement everywhere testify. Ford's Hair Pomade has imitators. Don't buy anything else alleged to be "just as good." If you want the best results, buy the best Pomade—it will pay you. Look for this name on every package.  
If your druggist will not supply you with the genuine send us an express or postal order for regular size bottle for small size bottle and give us your druggist's name and address. We will forward bottles postpaid to you in U. S. A. by return mail on receipt of price. Address:

**THE ORIGINAL HAIR GROWER**  
We Grew Our Hair, Now Let Us Grow Yours with  
**PORO TRADE MARK REGISTERED.**

When we first began our wonderful work of growing all kinds, all qualities, all lengths, and all conditions of hair, even to the growing of hair on bald places of the head, many persons scorned the idea that such a thing was possible; but we have grown the hair for hundreds; rapidly achieving success. The proof of the value of our work is that we are being imitated and largely by persons whose own hair we have actually grown and the further fact that they have very frequently mentioned us when trying to sell their goods (saying that theirs is the same or "just as good") or referred to PORO. We advise you use only PORO Hair Grower, (the oldest and best of its kind.) See that name PORO is on every box, not genuine without it. Prepared only by Mrs. A. M. POPE.

**THE MAGIC SHAMPOO DRIER AND HAIR-STRAIGHTENER.**  
MAILED ANYWHERE IN U. S. \$1.00 POSTAGE PAID BY ORDER.  
**Ladies you need this.**  
EVERY lady can have a beautiful and luxuriant head of hair, if she uses this toilet necessity. After a shampoo or bath, the Magic dries the hair, removing the dandruff, and it will straighten the curled head of hair, giving it a natural, fluffy appearance.  
Remember that the Magic never burns or injures the hair, because the comb is never heated direct. The steel heating bar alone is put into the flame of the heater, as shown below.  
You can get along without it, of course, but without it the disadvantage of your appearance.  
Do not mistake this elegant toilet necessity for some of the cheaply made imitations that are so plentiful. As you will see by the pictures, the Magic is made of aluminum and is easily detached from the steel bar. After the bar is heated (as shown below) the comb goes back in place, the handle is turned and the Magic is ready for use.  
The Magic Heater, is also suitable for heating the curling iron, has cover and can be carried in hand bag.
