

A TRAIN LOAD OF SETTLERS VISITING BURBANK-OCEALA COLONY.

WHERE THOUSANDS ARE FLOCKING

A BRIEF STORY OF COLONY BUILDING THAT HAS ASTOUNDED THIS COUNTRY.

BY CLEMENT YORE.

One of the most tremendous land movements ever seen in America is progressing at the present time towards Burbank-Ocala Colony, in Marion County, Florida. One simply cannot comprehend what it means to see a thousand people purchasing farms in just a few days. One has no idea of a country that one month contains no habitations, and the next thirty days is dotted over with cottages; is throbbing and active with life and movement, and is the center of improvement that equals, if not surpasses, those great days of the far west when whole counties were peopled overnight.

But this movement towards Florida and bricklayer—these are the people who are settling today in Burbank-Ocala colony. Every race, every religion, every trade and every profession has some man or woman who is a settler at Burbank-Ocala, and who from this fact, prove that this land satisfies all people and all classes of people.

There are three new townships in this colony, places where Chas. H. Sieg and his organization have decided to build cities. When one sees what these cities were but a short time ago, and that these people who arrive at Burbank-Ocala Colony, one has an idea of what their appearance will be six months from today. The people are moving upon the fertile fields of Burbank-Ocala Colony in large numbers; they are preparing their fields for the reception of their first crops, they are building their homes, and in the wake of these settlers is traveling the commerce to the various lines of business, that depend upon an agricultural community for their existence.

Marion County, Florida, is the banner county in the state. It is the county which but a few years ago in competition at Tampa, Florida, with every county in the state, took first prize for agricultural and horticultural products.

Marion County has more fine roads than any county in the state. It has local and long distance telephones upon its farms, and one sees here more luxury in an hour's travel by automobile or team than one would believe possible in a farming section. One must remember in traveling over Florida, that these people whose homes we see, and whose fields we marvel at, make their money and build their homes, not by the manhandling toil of working 160 acres of ground like is done in the north, but Florida is the spot where a man rich who owns a ten acre farm.

Without the question of a doubt, the greatest and most delightful portion of Florida, where pleasure and profit are wound and inter-wound, is Marion County, and in the very heart of this great county is located Burbank-Ocala Colony. If you want to read something of this great colony; if you want to know in the language of irrefutable proof and undeniable facts and figures; if you want to see with the eye of a camera what is now being done at Burbank-Ocala, write for "Ten Acres and Freedom," a book issued by Chas. H. Sieg.

Today at these two great colonies, St. Johns Park and Jacksonville Heights, are to be seen many beautiful cottages; hundreds of farms are being worked; settlers are thoroughly satisfied; land values have arisen 100%, and many of those settlers who bought land, and have not even improved it as yet, are actually refusing it for profits more than the amount of money they paid for their homes.

Then Mr. Sieg began his search for his greatest and his best Florida farm community. After careful scrutiny of all Florida lands, he decided that Marion County, north of the County Seat, Ocala, held the greatest promise for his ideals, and he purchased a large tract of land here.

Upon one side of this property lies the Atlantic Coast Line Railroad; on the other, the Seaboard Air Line; and through the heart of it travels the Ocala & Northern Railroad. Upon the eastern border of the colony, which Mr. Sieg has called Burbank-Ocala, the beautiful Ocklawaha river runs, and over the breast of its waters travel passenger and freight steamers from Palatka to Silver Springs.

It is thus seen that transportation, the greatest and most necessary of all adjuncts to a farm, is at hand, and reaches its highest point of development at Burbank-Ocala Colony.

But a short time ago Charles H. Sieg announced through the public press his intention of selling this property, as he had sold his former colonies in 1909. The response to these announcements was so great that it surpassed the ideas of Mr. Sieg. Today the evidence which this man has at his finger ends of the enormous demand for Florida soil, is more astonishing than the reading of a work of fiction.

Settlers living in tents until their homes are built.

Burbank-Ocala Colony is really entitled to all of the tremendous patronage which it is receiving today.

The Walter Was Too Smart.

"I ate my breakfast this morning in a Market street restaurant," said a downtown business man, "and something occurred that particularly appealed to my sense of humor. A man and a woman were seated opposite me, and the waiter placed a large plate of biscuits before the two. 'I prefer bread,' said the woman. In a jiffy the biscuits were whisked away and replaced with the staff of life. I noticed a wistful sort of expression on the man's face as the biscuits disappeared, but he made no remark. 'I guess she's the boss of that ranch,' I thought, and then the woman turned and said: 'I believe the girl thinks we are together.' As the waitress came back to give the couple a check she was just about to punch the amount of two meals on one when she looked up suddenly and asked if they were together. In one breath they said 'No!' Well, you should have seen that girl's face. She blushed furiously and then capped the climax by saying: 'Oh, you sat there so quiet like, not speakin', I thought you were married.'"—Philadelphia Record.

Going to Nature.

Again the star of hope has risen from the horizon of despair that surrounds the fat and forty. The newest apostle of physical culture comes to the metropolis with a gospel of gracefulness which is simplicity itself. When age begins to tell on your ligaments just imagine you are a kangaroo and get down on all fours and hop. When you notice your chin drooping another fold emulate the lizard and stretch your neck. When you attain physical poise, imitate a bear. "I go to nature for everything," explains this latest candidate for the fees of beauty-seeking, weight-reducing women, and the women will keep on going to her and to other apostles of other fads instead of really going to nature and keeping their bodies in good condition by following regularly the use of nature's three prime conditions of health: rest, fresh air, exercise.

No cure can keep in condition idle people who overeat, stay up late at night and live in unventilated apartments.

Sight-Seeing with Reservations.

Out of the Grand Central station the other day came a couple the sight of whom caused citizens who saw them to admit to themselves that there might be, after all, some basis of truth in the "Uncle Josh" jokes of the allegedly funny papers. The old man grasped his carpet bag and bulging green umbrella firmly, and looked up and down the street, his mouth agape.

"There's a heap 'o' sights in New York, I guess, Maria," he said. "I misdoubt if we see them all."

The old lady's mouth set grimly. "Well, Silas," she replied, and her manner was more than significant, "bein' as I'm with you, there's some I expect, that you ain't goin' to see!"—Lippincott's.

Pushing the Goods.

A number of drummers were sitting in a hotel lobby, when one of them began to boast that his firm had the most number of people pushing its line of goods.

There was a little argument and then a drummer who had not had much to say before suddenly rose and said: "I'll bet any man in the house that my firm has the most number of people pushing its line of goods!"

"Done!" exclaimed the boastful one. The money was accordingly put up with a stakeholder, and then the boastful drummer asked: "Now, what is your firm's line of goods?"

"Baby carriages," murmured the quiet man as he took the money and made for the side door.—Exchange.

The Ready Excuse.

"What are you doing with this sand-bag?" demanded the Chicago cop.

"It's part of me equipment, boss," answered the footpad. "Honest, I got an alrhip anchored around de corner."—Louisville Courier-Journal.

Pessimistic.

"What a pessimist Brown is!" "What's the matter now?" "He even bewails the fact that he can't live to collect his life insurance."—Detroit Free Press.

PAROLE LAW IS VOID

ILLINOIS SUPREME COURT KNOCKS OUT STATUTE IN JOYCE CASE.

IT VIOLATES CONSTITUTION

Decision Puts in Force Former Law and Will Not Effect Confined Prisoners—Snell and Warner Will Cases Decided.

Springfield, Ill.—The supreme court Wednesday decided that the act creating the state board of parole and giving the state board of pardons power to parole prisoners was unconstitutional. The case decided was that of Joseph Joyce, who was convicted of grand larceny in the Cook county criminal court at Chicago and was sentenced to an indeterminate term in the penitentiary at Joliet, or until he was paroled by the state board of pardons.

The supreme court reverses the judgment of the criminal court of Cook county, holding that the act creating the state board of parole is unconstitutional because it violates section 16, article 4, of the constitution, which provides that an act making appropriations for the salaries of members of the general assembly and state officers shall not include legislation on any other subject. The act creating the state board of parole made an appropriation for their salaries in violation of the constitution.

According to an official opinion of the supreme court is "practically inconsequential." The court held that the indeterminate and parole law of 1899 is invalid, but at the same time the court automatically brought to life the former law of 1897 and declared it in full force and operation.

The effect of this decision will not be felt by prisoners now in penitentiary. While true they have been sentenced under an invalid act, if they object, they will be remanded back to their trial court by the supreme court with instructions to resentence them under the old law of 1897.

The court's decision does not affect the state board of pardons except as to its salary. It remains intact with practically the same functions it possessed since its organization. The only change is that under the law now in force it has only recommendatory powers in parole matters. The court which tried the prisoner and the governor must first approve the board's recommendation before the prisoner can leave the prison.

The only persons affected by the decision are the prisoners who have been paroled and are now at liberty under the invalid act of 1899. What will become of them, what procedure will be followed, and what their status is the court refused to say.

After three trials in the Dewitt county circuit court and two hearings in the supreme court, Richard Snell wins in the contest to break the will of his father, Col. Thomas Snell, the eccentric millionaire of Clinton.

The supreme court affirmed the judgment of the circuit court of Dewitt county. The lower court had held in favor of Richard Snell, who had been disinherited. The supreme court holds that Col. Snell was influenced against his son when he made his will, which was in favor of his grandniece, Mrs. Mabelle Snell McNamara of Kansas City.

On the first trial the jury disagreed and on the second trial it held that Snell was insane when he made the will. The supreme court reversed this judgment and on the third trial the jury found that Col. Snell was of unsound mind. This opinion is sustained by the supreme court in affirming the judgment of the lower court.

It was held by the lower court that the trust created in the will of John Warner of Clinton in favor of his son, Col. Vespasian Warner, was void because the will provided that the trust continued 15 years after the will was admitted to probate, it being asserted that the will might never be admitted to probate and that the trust therefore would be void, because it might continue indefinitely, by violation of the rules against perpetuation. The supreme court held that the trust was not void, but was valid for the period fixed by the will.

TILLMAN ILL AT CAPITOL

South Carolina Senator is Suddenly Stricken at Washington—Condition Not Serious.

Washington.—Senator Tillman of South Carolina was taken suddenly ill on the steps of the capitol and had to be carried into his room by two capitol employes. Later he was removed to his home.

The attack is said to have been due to a recurrence of the senator's old trouble, hardening of the arteries. His physician said that he did not regard the attack as serious.

200 Lives Are Lost at Sea.

St. Petersburg.—A dispatch from Teheran Tuesday says that two steamships, one a passenger boat and the other a freight carrier from Bushire to a port on the Persian gulf, have been wrecked in a great storm. Two hundred lives were lost.

Earth Shocks in Italy.

Rome.—There was a violent shock of earthquake at Potenza Tuesday. No damage was done, but the people were terrified and rushed out of their houses into the streets.

ROCKY BOY INDIAN LANDS OPEN FOR SETTLEMENT.

Secretary Ballinger has issued instructions to throw open 1,400,000 acres of land in Eastern Montana to white settlers.

This land was withdrawn about two years ago for the purpose of allotting to the Rocky Boy Indians. The tract contains the very choicest lands in Valley County and wherever farming has been carried on, it has produced yields of from 20 to 30 bushels of wheat per acre, 40 to 70 bushels of oats and large crops of hay, alfalfa and vegetables.

There are over 8,000 160-acre homesteads in this tract, which is considerable more than the combined total in the Flathead, Spokane and Coeur d'Alene Reservations, which were opened to settlement last summer.

Who Are the Elect?

Two modern statements of the doctrine of "election," neither of which would quite satisfy John Calvin or Jonathan Edwards, are given in the Congressionalist.

One was Henry Ward Beecher's epigrammatic and convincing phrase: "The elect are whosoever will; the non-elect are whosoever won't."

Good as this is, there is another explanation that is a star of equal magnitude. It was made by a colored divine, who said: "Brethren, it is this way: The Lord, he is always voting for a man; and the devil, he is always voting against him. Then the man himself votes, and that breaks the tie!"

Reflections.

The beautiful house was crowded with people assembled to honor the distinguished guest.

But the explorer soon tired of the attentions, and as he leaned his arm against a pillar, he allowed himself to be transported back to the scene of his triumph.

"Such a waste," he mumbled, audibly, staring into space, "such a waste, such a waste."

Why so many stout ladies left the house in indignation, the hostess was unable to learn.—Sunday Magazine of the Pittsburg Dispatch.

Iron.

Pure iron is only a laboratory preparation. Cast iron, the most generally useful variety, contains about five per cent of impurities, and the curious thing is that it owes its special value to the presence of these. Pure iron can be shaved with a pocket knife; impure iron can be made almost as hard as steel.

Important to Mothers.

Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit.

Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find a priceless boon to prepare the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headache, backache, dragging-down distress or from painful irregularities, gaining or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, catarrhal discharges, prostrations, anorexia or retroversion or other displacements of womb, any organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for women's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle-wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known to the most advanced medical science of all the different schools of practice for the cure of woman's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for his free booklet treating of same or, better still, send 31 one-cent stamps for cloth-bound copy of Dr. Pierce's Common Sense Medical Adviser, new, revised up-to-date Edition, 1008 pages.

You can't afford to accept as a substitute for this remedy of known composition a secret nostrum of unknown composition. Don't do it. It is not only foolish but often dangerous to do so.

More Free Homesteads

Secretary Ballinger has ordered 1,400,000 acres of choice land thrown open to settlers under the homestead laws, on and after March 1, 1910. This land is mostly level or rolling prairie and is covered with a heavy growth of wild grass. The soil is a brown clay loam. This land lies in Valley County, Eastern Montana.

It is known to be very fertile and wherever farming has been carried on, good yields of wheat, oats, rye, barley, flax, alfalfa, hay, potatoes and even corn have been obtained. The land is free under the homestead laws. No registration—no drawing. No long waits and disappointments as is the case with the lottery system. No expense—except the few dollars for filing fee.

The Great Northern Railway is now building a branch line through the very heart of the tract. Low one way and round trip rates during March and April. Send for map folder giving full details.

these parts. Here in Yankton we have a cozy little A. M. E. church with some loyal members, we have just closed our second quarter for this conference year, we have had smooth sailing and a profitable quarter. The people always look forward to the coming of our presiding elder with joy, who is a straight-forward christian gentleman and is esteemed by all who know him. To show how he is appreciated up here, we are glad to say that when it became known that he had met with the misfortune of hav-

ing his suit case stolen from him at the depot in Des Moines, in the sympathy of the people went out to him and the stewards made a turn or two without the blast of a trumpet presented him with \$9. The speech of acceptance by Rev. M. I. Gordon made the people feel that "it is more blessed to give than it is to receive." We never allow our presiding elder to leave without paying his assessment.

The opportunities are good for the industrious men who desire to till the

soil. We often wonder why men will sell away on poor land and give one-half of the crop when they can come here and with new land and give one-third of the crop. The markets are good for all kinds of produce and there is a land craze, and people are

rushing here and procuring land. There are sixteen colored families here and out of that number there are twelve families who own real estate and are tax payers. You may hear from us again.

It places over-developed women on the same basis as their slender sisters. It tapers off the bust, flattens the abdomen, and absolutely reduces the hips from 1 to 5 inches. Not a harness—not a cumbersome affair, no torturing straps, but the most scientific example of corsetry, boned in such a manner as to give the wearer absolute freedom of movement.

I'M WAITING FOR THEE

A charming Love Song, sung with great success by Miss Mary Iohé of the Weber Company

1. Sweet eyes that have laughed in glad-ness; Sweet lips that I've pressed to my own;... Ah!

2. While sit-ting to - night by the win - dow, With the moon shining brightly on high;... And the

come in my des - o - late long-ings, And bid me no more be a - lone..... Come

bright stars which an-gels had planted, Were peep-ing out from the blue sky..... But the

bind up the heart thou hast brok - en. And kiss back the soul that was dead;..... Till e -

tear-drops of sor-row were fall - ing, I was wea - ry of life's trou-bled sea..... When I

ter - ni - ty's gates would re - o - pen, For the spir - it of love that had fled.....

heard a sweet voice as it whis - pered, "Come, dar - ling, I'm wait - ing for thee!"....

CHORUS. pp

In the twi-ght of life when the shad-ows Are fall-ing 'round hill-tops and sea.....

hear that sweet voice as it whis - pers, "Come, dar - ling, I'm wait - ing for thee!"....

I'm Waiting For Thee. a pp-ad p.
