**COWNIE IS BLAMED**

By Board of Control for Outbreak at Mitchellville Reformatory

**REPORT MADE TO GOVERNOR**

The State Board Takes Up in Detail the Hearings and Quotes From Witnesses as They Are Examined.

Des Moines, May 6.—Following are some of the conclusions reached by the members of the present state board of control in its exhaustive report of the conditions at the Mitchellville girls' industrial school. The report covers 181 typewritten pages and gives in detail the testimony of seventeen witnesses, most of whom were the girls at the institution. The report alleges that Mr. Cownie was largely responsible for the lack of discipline and the unrest and that many of the complaints of the girls, were, by their own testimony, untrue. The report was filed with Governor Carroll by the members of the board and is signed by all of them.

The evidence taken and knowledge otherwise acquired force us to the conclusion that the late chairman of the board of control was the chief factor in causing the outbreak.

Miss Garrison objected to the boisterous manner of Mr. Cownie towards the girls and to his habit of putting his hands on and being familiar with them.

Mr. Cownie criticized the food in the presence of the girls. His course was such that at times girls would refuse to obey their officers.

Mr. Cownie told the girls that Miss Garrison was mean and quarrelsome and could not manage the institution. Another cause of the trouble was raising the maximum age limit from 15 to 17 years.

The girls are not allowed to wear corsets. Music has not been prohibited. There is an orchestra of ten pieces. There are pianos in every cottage. Summed up the report is as follows:

"When the present superintendent took charge the discipline was lax and the inmates inclined to disorder. The modes and methods of discipline in force before and after Miss Garrison took charge were the same in general character. Corporal punishment was used by her. Under Miss Garrison, prior to March 15 last it was infrequent and mild. Since that time there have been several outbreaks and the punishment inflicted in one or two of the later ones was more severe than formerly and an unusual number of girls were punished, but we do not find that it was inhumane. It seems to have had the effect of quieting the girls and they are now receiving comparatively little punishment. They have been quiet for several weeks. We have enumerated all the methods of discipline now in vogue and do not think any of them inhumane or subject to just criticism."

**CANADA FORGING AHEAD**

Thomas C. Shotwell, one of the greatest market reporters in America, writes from New York, under date of March 20th, and says:

"The tariff tangle with Canada which President Taft has taken in hand is of importance chiefly because of the multitude of American farmers that are crossing into the Canadian northwest. Most conservative estimates of their number place it at 150,000 for 1910. Some say as many as 250,000 will cross. These are all expert farmers and their places in the United States are being filled by untrained men from Europe and from the cities. Canada is gaining rapidly in agricultural importance and within a few years the United States will have to call on the Dominion for wheat. Production of wheat in the United States is not keeping pace with the population. A tariff war would complicate the problem of getting food. Even now Canadian farmers are getting higher prices for their cattle on the hoof and Canadian housewives are paying less for meat in the butcher shops than farmers and housewives are receiving and paying in the United States. The tariff on cattle and wheat must be removed as between the two countries before long."

**AWFUL BURNING ITCH CURED IN A DAY**

"In the middle of the night of March 30th I woke up with a burning itch in my two hands and I felt as if I could pull them apart. In the morning the itching had gone to my chest and during that day it spread all over my body. I was red and raw from the top of my head to the soles of my feet and I was in continual agony from the itching. I could neither lie down nor sit up. I happened to see about Cuticura Remedies and I thought I would give them a trial. I took a good wash with the Cuticura Soap and Cuticura Ointment and during that day the itching completely left me. **Gentlemen Two.**

Two street cleaning department men were having an altercation as they were driving their cars side by side along upper Broadway the other afternoon. One was red-faced and bulbous-nosed, the typical "rummy." The other was an adder-headed negro. Both looked utterly disreputable. "Get out of my way!" yelled the red-faced man. "Don't cheer know enough to get out der way when you see a gentleman?"

"I'm more of a gem'man than you, you big rum," retorted the negro. "You'll drives a garbage cart, an' I only picks up ashes."—New York Press.

**Napoleon's Resolve.**

"Napoleon entered the clubhouse with a frown a foot deep on his forehead, and a temper not fit for publication.

"Mille tonnerres!" he ejaculated. "If I ever play golf with Baron Munchausen again may I end my days on the island of St. Helena."

"What's the matter with Munch, Bony?" asked Caesar, looking up from his asbestos copy of the Congressional Record.

"You get nothing but bad lies all over the links," retorted the emperor.—Lippincott.

**STATE RESTS IN HYDE TRIAL**

MRS. MARGARET SWOPE TELLS HER STORY TO JURY.

She Contradicts Defense's Declaration Concerning Division of Colonel's Estate.

Kansas City, Mo. — Mrs. Margaret Swope, widow of Logan O. Swope, told her story to the jury in the trial of her son-in-law, Dr. B. C. Hyde, for the murder of Col. Thomas H. Swope, her brother-in-law.

After describing the events between September 12 and December 18, she told with much feeling of receiving from her son, Thomas, the fragments of capsules he had found in the snow where Doctor Hyde had thrown them. Mrs. Swope told how she fastened the pieces to a card and soon afterwards telephoned for J. G. Paxton, her attorney. She washed her son's hand after smelling the fingers. The odor suggested almonds.

Mrs. Swope said that she, Doctor Hyde and Colonel Hunton discussed the residuary estate which Colonel Swope intended to leave to some charity. They talked of how the estate would be divided among the relatives, if the will remained unchanged. This contradicted the defense's declaration that when Colonel Swope died Mrs. Hyde and her husband did not know whether or not they would receive anything.

Mrs. Swope described the seizure of Mose Hunton and his death from asphyxiation. Her voice faltered frequently and she was obliged to cease speaking for a few seconds to regain control of her emotions.

Doctor Hyde and Mrs. Hyde, a few feet away, watched her closely and listened eagerly to every word.

With Mrs. Swope's testimony in the state rested its case.

**BASEBALL AUTO RACERS HURT**

Five Friends of Honus Wagner Are Hurled Over Embankment Near Pittsburgh.

Pittsburg, Pa.—Speeding along the Nobles-ton pike at 40 miles an hour, an automobile owned by Dr. E. G. All the occupants were seriously injured.

The wrecked car was racing "Honus" Wagner's machine as the diamond hero returned from the game.

The injured were taken to Carnegie in automobiles. While running through Rook, Wagner's car ran down and seriously injured the ten-year-old daughter of John Hartnet.

**Was Taking No Chances.**

Once upon a time a fond mother disapproved of her daughter marrying. This was the more awkward because the young lady had picked the young man out. Also he had wealth. And the mother, who was widowed, had not the wherewithal to furnish her daughter with the variety of frocks and things which her youthful heart craved. "I might not object to the man so much," said the mother one evening, "if you would only let me see him. But here is a man whom I have never set eyes on, and yet one whom you insist on taking for a husband. I don't understand such secrecy!" The daughter replied: "If I ever introduced him you'd insist on marrying him yourself."

Obviously, a Denver man who visited the museum at City Park recently tells of a farmer he saw there. The ruralist stepped in front of a portrait which showed a man sitting in a high-backed chair. There was a small white card on the picture reading:

"A portrait of E. H. Smith, by himself."

The farmer read the card and then chuckled to himself. "Regular fools these city fellers are," he said. "Anybody who looks at that picture 'd know Smith's by himself. They ain't no one in the paintin' with him."—Cincinnati Post.

**The Doctor's Data.**

A Howard girl who was uncertain as to her exact age, as her father and mother were not agreed on the year of her birth, decided to go to the physician who "attended the case." He said: "Why, certainly, my dear girl, I'll go and examine my old books." When he came back to report, he said: "I find your father charged with a girl baby born on the 'teenth day of April, 189—, and I also observe he still owes me for you."—Howard (Kan.) Courier.

**From Pain to Pleasure a Quick Transition.**

I suggested Resinol and gave a neighbor one of your sample boxes for a child of a few months whose lower limbs were broken out with a rash resembling Eczema. The sample was applied at once and changed the wall of pain into smiles. Two jars were used with complete recovery in the surprisingly short time of two days. That tired mother's looks and words of gratitude were from the heart. Geo. E. Ames, D. D. S., Boulder, Colo.

**Explaining the Soul.**

The following dialogue took place between two very small boys on their way home from Sunday school:

Willie—Where is my soul? Bobby—It isn't any place; it's just air.

Willie—How can it go to heaven when it's just air? Bobby—Why, your body goes, too. Willie—Bones and all? Bobby—Yes, everything but your clothes.

**Deafness Cannot Be Cured**

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. It is simple, and can be cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free. J. J. CHENEY & CO., Toledo, O. **WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT**

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs and Elixir of Senna. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired.

Only those who buy the genuine Syrup of Figs and Elixir of Senna can hope to get its beneficial effects, and as a guarantee of the excellence of the remedy, the full name of the company—California Fig Syrup Co.—is printed on the front of every package, and without it any preparation offered as Syrup of Figs and Elixir of Senna is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs and Elixir of Senna is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. **The Overland The Simplest Car**

The wonderful sale of the Overland—greater than any other car ever known—is largely due to simplicity. The man who runs his own car wants a trouble-proof car. We are turning out 140 such cars every day, but we never yet have been able to make as many as people wanted.

**Easy to Operate**

The Overlands operate by pedal control. One goes backward or forward, fast or slow, by simply pushing pedals. It is as simple as walking, and the hands are left free to steer.

The Overland has fewer parts than any other automobile. One part is made to take the place of many. It is free from complexities. The operations are all automatic.

A novice could run an Overland from coast to coast the first time he tried. One of these cars has run 7,000 miles without stopping the engine.

**Very Low Prices**

The Overlands are made—as watcher are made—by modern automatic machinery. And we devote a whole factory to one model alone.

Because of these facts, and our enormous output, we give more for the money than anyone else. We have cut the cost 20 per cent in the past year alone.

**THE ORIGINAL HAIR GROWER**  
 We Grew Our Hair! Now Let Us Grow Yours with **PORO TRADE MARK** REGISTERED.  
 When we first began our wonderful work of growing all kinds, all qualities, all lengths, and all conditions of hair, even to the growing of hair on bald places of the head, many persons scorned the idea that such a thing was possible; but we have grown the hair for hundreds; rapidly achieving success. The proof of the value of our work is that we are being imitated and largely by persons whose own hair we have actually grown and the further fact that they have very frequently mentioned us when trying to sell their goods (saying that theirs is the same or "just as good") or referred to PORO. We advise you to use only PORO Hair Grower, (the oldest and best of its kind.) See that the name PORO is on every box, not genuine without it. Prepared only by Mrs. A. M. POPE.
