WASHINGTON NOTES.

Washington was well represented at the district convention which met at Mt. Pleasant last week by Rev. Wm. Williams and A. L. Hall, delegate from the church, Mrs. F. L. Wallace, delegate from the Sunday school, Mrs. G. W. Black, sub-district superintendent, and Miss Lovella Phillips as visitor. All came home, speaking in the highest terms of the treatment accorded them by the people of Mount Pleasant. Also all were of one tongue in saying that was the best convention they had ever attended. But there was one mar on the convention, and that was, that it could not get recognition from any of the city papers. Now, if that had been anything of a criminal nature, too much publicity could not have been given it. And furthermore, this should be a little lesson to those people at Mt. Pleasant and get in closer touch with the public men and public organizations, so as to be able to affiliate and to gain their confidence, even if just enough so as to recognize in a manner the same as convocations and gatherings are of a similar nature among our caucasian brethren.

Rev. Stovall spent Saturday in the city visiting friends. He was on his way home to Davenport from Mt. Pleasant, where he had been in attendance at the district conference.

Percy Garrett has moved here from Michigan, and is working for the Spencer brothers in cement work.

Miss Helen Motts assisted at the organ. The collections for the day amounted to almost \$10.00.

Miss Nora Motts is home from Sigourney for a short visit. Howard Motts is an alumnus of the high school now, having completed the course and graduating with his class with high honors last week.

If the trade can be made profitable by indirect shipment, it ought to be far more so when the opening of the Panama canal cuts down the distance to the antipodes and establishes direct trade. Then the importation of Australian beef and mutton may keep meats within reasonable range.

The practical jokers in Panama who thought it would be very funny to start reports of a coming earthquake in that place, and who are said to have secured at least one person to death by these reports, belong to a class with which, unfortunately, the law cannot deal according to their deserts. Considering the trouble they have caused, there seems no good reason why these practical jokers should not be classed with criminals and a penalty provided for their distorted and dangerous sense of humor.

Abdul Hamid, ex-sultan of Turkey, has \$5,000,000 on deposit in a German bank, which the Turkish government is trying to get. But the bank refuses to honor an order signed by Abdul, alleging that the order was issued under compulsion. The courts sustain the bank, and there the matter stands for the present. It seems to be a case where the ex-sovereign can neither get the money himself nor transfer it to any one else. But the striking fact is the manner in which the money was "soaked away" while collections were good.

900 BANKERS MEET

At Opening Session of Iowa Association Convention

WILL ELECT PAID SECRETARY

State Association Has Membership of 1,400 and Fund of \$10,000—Reynolds Says Better Times Are Coming.

Des Moines, June 17.—Nine hundred bankers were in Des Moines yesterday morning to attend the twenty-fourth annual convention of the Iowa Bankers' association, which opened for a two days' session at the Auditorium. By evening about 1,500 members of the organization had registered.

The convention was called to order by Acting President L. E. Stevens of Des Moines. After the invocation by the Rev. R. B. H. Bell, rector of St. Paul's Episcopal church, the visiting bankers were welcomed to Des Moines by Charles H. Martin, president of the Des Moines Clearing House association. The response was given by George S. Parker, president of the Live Stock National bank of Sioux City.

Permanent headquarters will be established by the association in Des Moines and a secretary will be employed to devote all of his time to the business of the organization.

Three Iowa bankers, F. H. Hall of Sheldon, W. H. Field of Farmington and R. M. Gwynn of Shenandoah, were recommended by the committee for the office of secretary. The salary was fixed at \$2,400.

Better times and an easing up of the money market was predicted by George M. Reynolds, president of the Continental National bank of Chicago, who is attending the convention of the Iowa Bankers' association. He said there is less pressure for money than there was when he was here six months ago, and that retrenchment seems now to be the order of the day.

"The people seem to understand the conditions and the situation no better than they did two months ago. The bankers are preaching conservatism and discouraging extensive industrial extensions and speculation. There need be no alarm, but it is imperative that we, though optimistic, be prepared to head off any stringency."

"Iowa, with its great physical resources and the United States with its untold ability to produce wealth, can easily overcome a condition now confronting the nation. Over speculation, higher living and industrial extensions, with unusual conditions affecting crops, have brought on the unusual demand for money, but I can see no serious trouble in the future."

"With the Iowa farmer plowing and cultivating steadily, the sun making his crops grow and sufficient rain and moisture to aid it, Iowa can overcome most any financial difficulty."

Aroused Sporting Instinct. An Irish policeman who was also something of a sportsman, had been posted on a road near Dublin to catch the scorching motorist. Presently one came along at 20 miles an hour, and the policeman saw it pass without a sign. Next came a larger motor traveling at 40 miles an hour, and the eyes of the guardian of the public brightened. And then one passed at the rate of a mile a minute. "Begorra!" said Pat, slapping his thigh, "that's the best of the lot."

An Embryo Emancipator. A little miss riding on a Brooklyn trolley car the other day tendered the conductor half fare. "How old are you, little girl?" he queried, zinggerly handling her fare. The Rude Visitor. There is a story about the secretary of a golf club who was a man of diminutive stature. It was summer time, and the grass had been allowed to grow rather long. The secretary was playing in front of a visitor who was a very long driver, and kept dropping his ball in the neighborhood of the secretary all the way round. At last the little man could stand it no longer and walked back and remonstrated with the visitor on his conduct, but the only reply he got was, "If you would cut the grass, one might be able to see you."

FREE DR. GUTHRIE

Dr. Hall Forced to Admit He Borrowed Money from Her

WAS ENGAGED TO MARRY HER

Man Who With Bride Escaped Unhurt From Dynamite Explosion Says He Detests Woman Now—Bride as Witness.

Newton, Ia., June 17.—Dr. Alexander Hall hugged Dr. Ida May Guthrie. He admitted it on the stand at the Guthrie trial Wednesday. He admitted further that he was engaged to marry her. He wouldn't admit that he had ever kissed her, but he did say he was trying to forget that he ever had enjoyed that pleasure.

Altogether, the man whom the state is trying to prove Dr. Guthrie tried to blow up along with his bride, formerly Miss Quick, had a rather interesting morning on cross-examination. Hall says he does not love Dr. Guthrie now. He testified that he despised her.

Hall told the jurors that he had lived at the same house with Dr. Guthrie when both were at Nevada, Mo., studying at the Welton institute. He took her to entertainments, lectures and on outings. When school was over they went to St. John, Kan. Hall opened an office and began practice. They both lived at the same house. Dr. Guthrie frequently acted as nurse to Dr. Hall's patients. They talked of marriage and were engaged to be married. He didn't remember ever having kissed her at this time. When they left St. John she went to Carthage, Ill., her old home, and began practice. Hall said he had paid her a visit at Carthage as late as last December. She had her home and office in two rooms and entertained Dr. Hall there, the two having at least one or more meals served in the rooms.

Dr. Hall admitted that he had borrowed money from Dr. Guthrie at various times. There was a bunch of letters and some post cards which Dr. Guthrie had sent Dr. Hall. They were identified and placed on record, but were not read. Mrs. Susie Clark, servant at the jail, who looked after Mrs. Guthrie in the Newton jail, on the stand testified that Dr. Guthrie had said to her that "She loved Dr. Hall."

Mrs. Hall, bride of Dr. Hall, testified on the night of the tragedy she stepped out on the front porch of the house and saw the figure of a woman standing at the side of an out-building a short distance away. She was frightened and ran back into the house. Cross-examination rather confused her on this. She admitted that she had never told the circumstance to the county attorney, to her husband or to her family. She said that from where the woman was standing there was a clear view into the room occupied by her and Dr. Hall. She said the figure she saw slipped out of sight quickly after she detected it.

Dr. Ida Guthrie took the stand in her own behalf after the state had rested its case following the introduction of all its exhibits and evidence and explained her movements in and about Prairie City.

Dr. Guthrie Declared Not Guilty. Dr. Guthrie was acquitted of the charge of dynamiting the Quick home by the jury, and in company with her attorney, left for her home at Carthage, Ill.

Had Blood on His Coat.

Marshalltown.—From Luray, in the southern part of the county, comes a story which had the incident been known sooner, might have resulted in some clue that would have led to the solution of the triple Hardy murder. Frank Wickersham, who lives near Luray, is the bearer of the story, which is to the effect that on Monday morning, June 6, a man, who is presumed to have boarded the train at Melbourne, the nearest station to Vanclave, the scene of the murder, was noticed to have blood on his coat, and that passengers on the train remarked about it. At that time, however, no one knew of the murder which had been committed late the night before. The man was accompanied by a stranger, and the two paid no attention to passengers about them. When Wickersham heard of the murder he immediately thought of the man with the blood on his coat. It is said that the two men did not leave the train here, but went on to some point north.

Saved Old Lady's Hair

"My mother used to have a very bad humor on her head which the doctors called an eczema, and for it I had two different doctors. Her head was very sore and her hair nearly all fell out in spite of what they both did. One day her niece came in and they were speaking of how her hair was falling out and the doctors did it no good. She says, 'Aunt, why don't you try Cuticura Soap and Cuticura Ointment?' Mother did and they helped her. In six months' time the itching, burning and scaling of her head was over and her hair began growing. Today she feels much in debt to Cuticura Soap and Ointment for the fine head of hair she has for an old lady of seventy-four."

Children.

Listen to this opinion from David Starr Jordan: "There is nothing in all the world so important as children, nothing so interesting. If you ever wish to go in for some philanthropy, if you ever wish to be of any real use in the world, do something for children. If you ever yearn to be truly wise, study children. We can dress the sore, bandage the wounded, imprison the criminal, heal the sick and bury the dead, but there is always a chance that we can save a child. If the great army of philanthropists ever exterminate sin and pestilence, ever work out our race's salvation, it will be because a little child has led them."—Nautilus.

Western Canada

Senator Dilliver, of Iowa, says: "The stream of emigrants from the United States to Canada is steadily increasing. To-day it is estimated that there are 100,000 Americans in Western Canada. There is a land hunger in the heart of the American people. This will account for the fact that so many of our farmers are leaving their homes in Iowa and going to Canada. The Government is now offering a bonus of \$100,000,000.00 to the farmer who will settle on the prairie. This is a great opportunity for the farmer who is looking for a better home. Colorado Lands Richer Than Gold Mines

There are bigger profits in eastern Colorado in proportion to the cost of land than almost anywhere else. Colorado's agricultural products are more than double the value of its mines.

Irrigation is unnecessary. By deep plowing and continual shallow cultivation the soil never dries out during the growing season, making big crops and surprising profits on \$5.00 to \$20.00 land.

STOPS BIG BATTLE

JEFFRIES AND JOHNSON CANNOT FIGHT IN STATE OF CALIFORNIA.

GOVERNOR WON'T PERMIT IT

Chief Executive Instructs Attorney General to Take Steps to Prevent Contest—May Go to Nevada—Courts to Decide Legality.

San Francisco.—Attorney General Webb was ordered Wednesday by Governor Gillett to stop the Jeffries-Johnson fight scheduled for July 4.

Mr. Webb said that he would take the necessary steps at once. Governor Gillett in a long-distance telephone conversation said:

"I have instructed Attorney General Webb to stop the Jeffries-Johnson fight and I shall expect him to do so."

When informed of the governor's action Tex Rickard, who with Jack Gleason is promoting the battle, said:

"If Governor Gillett has stated he will not permit us to handle the Jeffries-Johnson fight in this state, that settles it. We will not attempt to 'buck' him. I shall order work stopped on the arena at once and take the fight elsewhere. I prefer Salt Lake, but Reno and Ely, Nev., will also receive consideration."

Jack Gleason, who was present, voiced the expressions of his partner. The sudden move on the part of the governor threw this fight-mad community into a state of panic. The news flew like a prairie fire and inside of an hour the hotel lobbies were filled with excited men and the newspaper offices were besieged by hundreds eager for a confirmation of the rumor. Attorney General Webb furnished the confirmation.

"The governor," said he, "has directed me to take such steps as may be necessary to stop the fight. This matter has nothing to do with city ordinances or city officials because the action we shall take will proceed under the statutes of the state of California. As to the character of the action which we shall take, I will say nothing at this time, save that it will be such as is necessary to accomplish the governor's purpose."

District Attorney Pickert was amazed when informed of the governor's action.

"Governor Gillett has had one long administration," said he, "during which many boxing exhibitions have been promoted in the state and it seems strange that he should single out any one fight as an exception. If one fight is illegal, then all must fall under the ban, and if this fight is stopped all fights within the state must likewise be illegal."

The law of the state of California permits limited round boxing exhibitions. It now remains for the attorney general to prove before the fact that this is to be a prize fight and not a boxing exhibition. The supreme court of the state has never been called upon to define the difference between a boxing exhibition and a prize fight, the one being legal and the other illegal.

Officials of United Wireless Telegraph Company Arested Charged With Misuse of Mails.

New York.—President Wilson and Vice-President Bogan of the United Wireless Telegraph company were taken into custody by United States Marshal Henkel at the company's office on Broadway Wednesday and arraigned before United States Commissioner Shields to answer a charge of misuse of the mails.

Chief Post Office Inspector Mayer charges the officials with a gigantic stock-manipulation plan, declaring that the capital of the company, whose assets were about \$400,000, had been increased by an interchange of securities and that the price of these shares had been raised arbitrarily to such large amounts that the company at this time had an apparent stock-market value of \$1,000,000.

Mr. Mayer states that one of the officers has cleaned up \$5,000,000. He says there are 28,000 stockholders throughout the country who have placed their money with the company on the representation of its officers that it had a surplus of nearly \$7,000,000, when as a matter of fact the company was failing to make its operating expenses.

Mr. Mayer further states that the inside officers of the company were privileged to sell their stock while outsiders were required to accept stock certificates on February 11, 1911.

Inspector O'Brien seized the books and papers of the company as evidence in the case. The complainant named in the charge on which the arrests were made is Michael C. O'Brien of Waterbury, Conn.

Wilson was released on \$25,000 bond and Bogan's bond was \$10,000.

Held for "Gold-Bricking." Philadelphia.—Bills of indictment charging misuse of the mails were returned Tuesday by the United States grand jury here against Emil A. Starkloff and George W. Post, alleged "gold-brick" swindlers.

Laborers on Strike in Riot. Rochester, N. Y.—Several hundred laborers on strike for an increase in wages engaged in a riot Tuesday. Police Otto and Beachell attempted to disperse them when they were severely beaten.

Cuts Nicaragua in Two. New Orleans.—After issuing a proclamation setting up the independence of an east coast republic in Nicaragua, General Estrada, the insurgent leader, has fixed the boundaries of the division, according to the Blue-fields American, received here Monday. The American is Estrada's official paper. The bounds of the proclaimed republic extend the whole length of Nicaragua, and from the Atlantic coast to the eighty-fifth parallel of longitude. This practically divides Nicaragua in half.

AT A CRITICAL PERIOD

Of Peculiar Interest to Women.

Mrs. Mary I. Remington, Elginberry St., Gilroy, Cal., says: "I suffered so severely from pain and soreness over the kidneys that it was a task for me to turn over in bed. My kidneys acted very frequently, but the secretions were retarded and the passages scalded. I was weak and run down. After taking other remedies without benefit, I began using Doan's Kidney Pills and was permanently cured. I was going through the critical period of a woman's life at that time and after using Doan's Kidney Pills there was a miraculous change for the better in my health."

For Proper Care of Tuberculosis. According to the National Association for the Study and Prevention of Tuberculosis, New York state leads in the number of beds for consumptives provided up to May 1, with 5,476 beds; Massachusetts is second with 2,408 beds; Pennsylvania, third, with 2,347 beds; Colorado, fourth, with 1,489 beds; and New Mexico fifth, with 1,104 beds. As yet, not one state in the country has made adequate provision for its consumptives. New York has set itself the task of having 100,000 beds for tuberculosis in 1915, and several cities in other parts of the country have adopted similar programs. The national association says that tuberculosis will not be stamped out until all cases of this disease are cared for either in their homes or in institutions. With this end in view, efforts will be made to increase the number of hospital beds in this country to at least 35,000 by May 1, 1911.

A DOCTOR'S EXPERIENCE Medicine Not Needed in This Case.

It is hard to convince some people that coffee does them an injury! They lay their bad feelings to almost every cause but the true and unsuspected one.

But the doctor knows. His wide experience has proven to him that to some systems, coffee is an insidious poison that undermines the health.

Ask the doctor if coffee is the cause of constipation, stomach and nervous trouble.

"I have been a coffee drinker all my life. I am now 42 years old and when taken sick two years ago with nervous prostration, the doctor said that my nervous system was broken down and that I would have to give up coffee.

"I got so weak and shaky I could not work, and reading your advertisement of Postum, I asked my grocer if he had any of it. He said: 'Yes, and that he used it in his family, and it was all it claimed to be.

"So I quit coffee and commenced to use Postum steadily and found in about two weeks' time I could sleep soundly at night and get up in the morning feeling fresh.

"I began to gain flesh. I weighed only 146 pounds when I commenced on Postum, and now I weigh 167 and feel better than I did at 20 years of age.

"I am working every day and sleep well at night. My two children were great coffee drinkers, but they have not drank any since Postum came into the house, and are far more healthy than they were before."

INCHOT RAPS THE INTERESTS

PUT THEM OUT OF POLITICS, SAYS FORMER FORESTER.

Roosevelt's Friend in St. Paul Speech Assails the Tariff as Graft—Jotta Party Leaders.

St. Paul, Minn.—Gifford Pinchot, speaking before the Roosevelt club here Saturday night, scored congress and the leaders of both political parties and characterized the present government of the United States as a government by and for the special interests.

He demanded the absolute divorce of "the interests" and politics. Here are some of the pointed things Mr. Pinchot said in the course of his speech:

"A representative of the people who wears the collar of the special interests has touched bottom. He can sink no farther."

"The people of the United States demand a new deal and a square deal."

"The motto in every primary—in every election—should be this: 'No watch dogs of the interests need apply.'"

"The alliance between business and politics is the most dangerous thing in our political life. It is the snake we must kill."

"The people of the United States believe that, as a whole, the senate and house no longer represent the voters by whom they were elected, but the special interests by which they are controlled."

"Differences of purpose and belief between political parties today are vastly less than the differences within the parties."

In discussing the tariff Mr. Pinchot declared that congress had directly violated the will of the people and thereby shown its alliance with the "interests."

He declared that conservation had captured the nation and that its progress during the past twelve months had been amazing.

DOLLIVER REPLIES TO FOES States Payne Tariff Bill Was Product of Log Rolling by Combination.

Washington.—Senator Dolliver answered the critics of the insurgents in speech delivered in the senate during the discussion of the provision of the sundry civil appropriation bill providing \$250,000 to enable the president to gather information bearing upon the operation of the new tariff law.

Mr. Dolliver's speech attracted widespread interest and was listened to attentively by senators on both sides of the chamber. It was the reply of the insurgents to the charges of party disloyalty and was a direct challenge to their opponents in the party. The president's name was freely handled and his speeches were referred to without reserve.

Beginning with the declaration that the tariff discussion had been revived because of the tariff law, Mr. Dolliver declared there was no longer any freedom of conscience or of opinion such as had once made the Republican party strong.

Senator Dolliver flatly stated that the Payne-Aldrich bill was the product of log rolling by combinations, where to get what he wanted one member was willing to give all the others what they wanted.

The so-called experts who advised the makers of the last bill, he said, were not honest.

ANGRY CROWDS STONE GIRL Drive Daughter of Governor Haskell From Guthrie Streets, Resenting Transfer of State Capital.

Oklahoma City, Okla.—In a wild automobile drive in the midnight hours Saturday, the seal of the state of Oklahoma was brought from Guthrie to Oklahoma City, following the announcement that Oklahoma City was the state capital fight by a majority of more than fifty thousand votes over Guthrie and Shawnee, Oklahoma City probably will be proclaimed the state capital.

The seal was surreptitiously removed from the secretary of state's office and is now declared to be in the rooms of Governor Haskell at the Lee Hinkins hotel.

Jane Haskell, 17-year-old daughter of Governor Haskell, was hooded and stoned from the streets of Guthrie Saturday night, when she started for Oklahoma City, and was forced to flee to the governor's rooms in the Royal hotel with her escort. She came to Oklahoma City on the first train.

LAND IN CANADA

AN INVESTMENT

WORK IT, AND SECURE 20 PER CENT. ON THE EXPENDITURE.

Farm lands in Canada increased in value this Spring from fifteen to twenty per cent, and as a result of this increase thousands of those who have gone there within the past few years have had that much more value added to their holdings. There is proof here that as a field for investment there is nowhere to be found a more profitable one than in purchasing farm lands in Canada. And, as a field for occupation and working, the farms there is nowhere on the continent where more satisfactory returns are given. The crops are always sure and the prices are always good. With railroads entering and traversing all the settled parts, there are very few districts in which the farmer will be more than from ten to twelve miles from a railway station. Roads are good, and big loads are easily handled. The price of getting grain to the primary market is low on this account, and then in reaching the world's markets the railways have their rates controlled by the Government, and what may be considered a fair deal is certain. Good prices for all kinds of grain is the rule, and if the investor has made good money by the increased value given to his unworked land, it is not difficult to understand that the profit to the man who works his land is just that much more, and there will be no depreciation. The man who holds a free homestead of one hundred and sixty acres of land, which he got for \$10 as an entry fee, has land which at its lowest estimate is worth \$10 an acre—yes, \$15 an acre—the moment he has completed his three years' residence duties. It will continue to increase in value until its earning power gives a reasonable interest on a certain sum. That is, if he takes off the land fifteen to twenty dollars per acre clear profit each year, his land is worth to him, at a fair rate of interest, \$200 an acre. If he only realizes \$10 an acre clear profit, it is worth \$100 per acre. Now, thousands of farmers are duplicating these figures. The price of land in Canada today is much less than its real value. The fact that the fifty thousand Americans who went to Canada a year before last were followed by one hundred thousand last year offers some evidence, and good evidence, too, that there is getting to be a pretty fair knowledge that money is to be made in Canada lands. As an investment money is to be made, but more by living upon the land, secured either by homestead or purchase. The one hundred thousand of last year will be one hundred and fifty thousand this year. These comprise people from every state in the Union, and it is just being realized the asset that awaits the homeseeker in Canada. The large numbers that have gone, though, makes no appreciable difference in the supply of land. There is still left vast quantities of the best of it. But the longer a delay is made in arriving at a decision, the price will advance proportionately, and the more desirable homesteads near the railway lines become more difficult to secure. The Government publishes interesting literature, which may be had on application to any of the agents whose offices are located at different points through the States, and they (the agents) will be pleased to assist in any way possible in the choice of location.

Keller, who made a short and interesting speech, and Dr. Booker T. Washington of Tuskegee Institute, who made what was generally considered to be the best speech he ever made in St. Paul. It certainly was filled with meat for serious thought and ought to inspire all who heard it to renewed and more earnest efforts to help ourselves. A reception was tendered Dr. Washington at the close of the meeting and the immense crowd that overflowed the church to its doors, availed itself of meeting and greeting the renowned sage of Tuskegee.
