EDITOR'S OBSERVATION.

Into the state of Missouri we next go during the month of September. To visit the state during this month one can behold this great state's vast resources. Missouri is a mighty empire within herself. Her resources and industries are so varied that she is self-supporting. She raises corn, oats, wheat, rye, barley. She grows apples, peaches, pears and grapes in large quantity and she raises all the cereals. She mines her own coal, iron, lead, gypsum. She raises her hogs, cattle and sheep. Her poultry raising is immense. In fact, situated as it is in the bed of the richest valley in the world, the Mississippi, she naturally excels all competitors. Yet the full development of her great gifts has not been reached as in her sister states of Illinois, Iowa, Kansas and Nebraska. All Missouri needs is men of energy and will power, with a desire to invest their money to develop the latent resources of this state. Her public education and transportation system is behind her sister states. Our first step was a few minutes in Chariton, Iowa. Here lives about forty Afro-Americans. Mr. T. J. Martin is still here doing nicely. The Widow Richmond still lives here. Geo. Newman drives the delivery wagon. Rev. W. C. Carter is working here. Mrs. Jackson is doing well. Centerville was our next stop. This town has about 250 colored people, but they are not a reading or literary class, nor do they seem to be much interested about getting colored literature. By hard work of four hours we secured as new subscribers Mrs. Lizzie D. Price, Mrs. Annie Oliver, Mrs. F. B. Morton, Rev. J. W. Evans, Mrs. Wm. Noah and Mrs. H. B. Bolden, and we have hope some time ere long that more people will read the Bystander, one of the leading race journals in America. Kirksville, Mo., was our first Missouri stop. Here we found the colored people just about the same as ever. Here we found two churches, the Baptist, pastored by Rev. W. W. McKinney, who has only been here a short time, and Rev. F. Taborn, who is also a new man here, but is a bright, able young man. Mr. and Mrs. L. Coursey are doing well. He is working at the same place. Prof. Vaughn, formerly a teacher in the public schools here for many years, has now retired on a small farm in the suburbs of the city, where he owns a beautiful home. Mr. and Mrs. B. F. Barnes own a nice truck farm in the outskirts of the town. He is doing well. Mr. A. Pollard owns a nice home.

Our next step was in Macon City. This is a pretty little town where more than 1,000 colored people reside. Many are doing well. Most of them are old citizens and own their own homes. The Western college is located here. It has a prosperous year ahead from the present opening this month. Prof. J. H. Garnett, that great educator, says the outlook was never better for a record breaking attendance this school year. Most of the old faculty will be back. Dr. Garnett's only daughter is a student at the Kansas university and will finish next year. This college is under the auspices of the great Baptist association. There are two churches, a Baptist and Methodist, each doing well. Mr. Thos. Adams is a successful man. There are three school teachers, Prof. Perkins and Misses Hattie Davis and Ida D. Jones.

RECEPTION TO REV. TAYLOR.

The members of the A. M. E. church and friends of Rev. Brice U. Taylor tendered a welcome reception last Monday upon his return to the Des Moines charge from the recent Conference held in Galesburg, Ill. Never before in the history of this church was there such a unanimity among all the members of the A. M. E. church and a desire of all to see Rev. Taylor return. The program as printed in our last week's issue was carried out and all acquitted themselves nicely, and one thing was certain, everybody who spoke was in earnest and meant it from the depths of their heart. We most heartily welcome such a refined Christian gentleman back to our city and church. Rev. Taylor has made good and was entitled to such a reception.

POLITICAL STUDY CLUB ORGANIZED.

On Monday evening, October 7, a number of prominent women of the city met at the residence of Mrs. J. B. Rush an d were organized into a political study club, the object of which is to familiarize its members with politics and political issues. Mrs. Rush was elected temporary president; Mrs. V. Simmons, temporary secretary; Mesdames G. Watkins, J. H. Brown and V. Simmons were appointed as a committee on by-laws and constitution. The club will meet next Thursday evening, October 17th, at the residence of Mrs. Rush to form a permanent organization. The program will consist of comparing and discussing the party platforms. All women interested in the study of politics are invited to attend.

WHAT OUR RACE THINKS ABOUT ROOSEVELT.

Below we publish an excerpt from the Keokuk Gate City. The Colored Voter.

To the Editor of the Gate City: Permit me space in your paper to call attention, as a negro and an American citizen, to the article published in your paper of Thursday last, teeming with misstatement and misrepresentation, entitled "Roosevelt and the Colored Voters," signed by T. Hughes.

The deep interest and infinite sympathy which some of the leaders of the republican party evince for the black man just before election would be repugnant and disgusting were it not for the fact that it is so delightfully amusing. Mr. Hughes credits the black folks with having made "the most wonderful gain in citizenship and intellectual attainments." I will add that, that very fact qualifies my race for understanding that Roosevelt in discharging that colored regiment for the Brownsville disgrace, was actuated by motives of justice and honor, and the fact that it was not a slap at our race and color is made self-evident, when we remember that for every black man discharged, from that regiment, another black man took his place.

The statement that Mr. Roosevelt would not permit a negro to sit in the national progressive convention, is so glaringly untrue, that were it not that courtesy forbids, I would be inclined to brand it "A malicious falsehood." Mr. Hughes knows and I know, and the world knows, that New York, Pennsylvania, New Jersey, Rhode Island, West Virginia, and "My Maryland" sent negro delegates to the national progressive convention and they were seated.

We all know that in the sunny south there is a negro problem, and we know further that the republicans of the north during the dark days, of the reconstruction period, inaugurated a system of cranking, who are ignorant and unfortunate people down the throat of the southern white people, until at last, those southern states rose up in all their might, and exercised their constitutional privileges and passed a law requiring an educational and property qualification for the exercise of the ballot, that absolutely and completely disfranchised my people.

Now, Mr. Hughes wants to know what the colored citizens of this city and state think of Mr. Roosevelt, the man who dined Booker T. Washington, in the white house, who for two years defied the United States senate and insisted on the appointment of Mr. Crum (negro) as collector of Port Charleston. I will say, and I voice the opinion of the masses of black folks, that we think him the bravest man, the truest gentleman and the most patriotic citizen that ever occupied the presidential chair. It is our earnest belief that if elected next November, Mr. Roosevelt with the nation behind him, will institute, a system of legislation, establish justice, insure domestic tranquility, provide for the common defense; promote the general welfare, and secure the blessing of liberty to ourselves and our posterity.

And that, Mr. Hughes, is what the black folks think of Mr. Roosevelt.

CLINTON.

Mrs. P. P. Taylor returned last week to Chicago, having spent a week here looking after matters preparatory to making Chicago her future home. The members of Bethel A. M. E. church and friends, are pleased with the action of the annual conference in the appointment of Rev. Geo. W. Slater to Clinton as a good sized congregation greeted him at his initial sermon on Sunday evening, Sept. 29th, which brought forth many favorable comments. Little Gertrude, daughter of Mr. and Mrs. W. A. Richardson has been on the sick list the past two weeks, but is better at this writing. Mrs. Asa Williams of Burton visited in Clinton last week. Mrs. Sarah Slater of Los Angeles, Cal., mother of Rev. G. W. Slater, his aunt, Mrs. Jennie Williams of Des Moines, and brother, Venable Slater, are guests at his home on Harrison St. The members of the Second Baptist church are greatly elated over the good things which they say the Lord is doing for them. The service Sunday night was well attended. One soul was reported as having been converted. At the conclusion of the service next Sunday morning the service of Baptism will be conferred on one of their number. We regret to have to chronicle the death of one of our old and well known citizens, Wm. Dodson who passed away Monday at Mercy hospital where he had been an inmate only since last Friday. His funeral is arranged to take place Wednesday from the Second Baptist church. A few of the friends of Mr. and Mrs. Holland Williams were entertained recently at their home in honor of their 10th wedding anniversary. The event was in the nature of a surprise on Mr. Williams by his wife. A pleasant evening was spent by those present. Rev. G. W. Slater left Sunday afternoon for a lecture tour in the interests of the socialists. He expects to be away about three weeks. The social given on Saturday evening at the church was as usual a success. The musical given by Mrs. Wilbur Toney assisted by local talent at the Second Baptist church Tuesday evening was a success. A large crowd being in attendance. The numbers as rendered were very pleasing. Miss Winifred Falkner has been the guest of the Misses Esther and Mae Culbertson the past few days. A social will be held at Bethel A. M. A Worthy Institution. The Iowa Children's Home Society was organized in 1880 and chartered under the laws of the state in Sept. 1890 and is operated in the interest and for the care of dependent and homeless children: Placing them in carefully selected homes. Statistics tell us that one home out of ten in the United States is childless and one child in ten is homeless. It is the work of the society to bring the two together. The Iowa Children's Home Society is the only one in the state affiliated with the National Children's Home Society. The divinely ordered place for children is in the family home. This society has been placed over 5600 children in homes since its organization. Those coming from every county in the state,

more than a dozen counties have contributed 100 each. District superintendents visit regularly these foster homes and official reports are made and kept on file. The society is under the supervision of the State Board of Control. It receives no state funds but is supported by voluntary contributions. Address all communications to Dr. A. T. Burnell, 2340 E. 9th St. Des Moines, Iowa.

PINEY WOODS FOLKS.

Mr. and Mrs. L. C. Jones of Braxton, Miss., in the City. Mr. Jones is a Graduate of Iowa City—His Wife Was Grace M. Allen of Burlington.

Mr and Mrs. L. C. Jones, of Braxton, Miss., are visiting in the city enjoying a brief vacation, and incidentally winning friends for their school in the Southland. Both are really northern people. Mr. Jones is an Iowa man and a graduate of the Iowa State University. Mrs. Jones is a Burlington girl, formerly Mrs. Grace M. Allen. She at one time conducted a successful school in this city.

In 1909, Mr. Jones went to the Southland and at or rather near Braxton, he organized a school. The beginning was in the open air, under the trees, but he had the right ideas and he persevered, and by and by he won friends and now he is winning success. Last year, Prof. L. G. Weld, formerly of the Burlington high school, later of the Iowa State University and the head of the Great Pullman school, that is to be organized and opened in the near future, paid the Piney Woods Country Life School at Braxton a visit and spoke very highly of the work that is being done there and the work that is being planned there for the future. In the three short years Professor Jones has accomplished wonders. One of the first to come to his assistance was a colored man who had been a slave, and who had in later years worked at Keokuk as a barber and had done well there. He gave the school forty acres of land and \$50 in cash. An old colored woman, who had naught else to give brought two geese. From all sides offerings and aid came and last year the white people of Braxton gave a handsome building to be used as a girls' dormitory. Captain Asa Turner, of Iowa, a son of the famous Congregational pioneer, is one of the firm friends of the institution and the professor and his wife, are winning friends everywhere and promise in a few years to have an institution that will be a credit to Braxton and Mississippi and a source of untold benefit to the colored and the white people of that region. Burlingtonians will find the professor and his wife very interesting people and those who are able to do so will no doubt be delighted to further the plans of these unselfish and devoted workers.

"He has achieved success" who has lived long, laughed often, and loved much; who has gained the trust of pure women, the respect of intelligent men, and the love of little children; who has filled his niche and accomplished his task; who has left the world better than he found it, whether as a rescued soul; who has never lacked appreciation of earth's beauty; who has always looked for the best in others and given the best he had; whose life was an inspiration; whose memory a benediction.—Bessie A. Sleeplessness. A good remedy for sleeplessness is to wet a towel and apply to the back of the neck, pressing it hard up against the base of the brain and fastening over this cloth to prevent too rapid evaporation. The effect will be prompt and pleasant, cooling the brain and inducing a sweet and peaceful slumber. Warm water is better than cold for the purpose. This remedy will prove useful to people suffering from overwork, excitement or anxiety.

The "Poro" preparations used in connection with the treatment are made and sold exclusively by myself, having the exclusive right to that name; and I, alone, know the secret of the composition that bears that name. Our claim has always been that when the hair begins to grow as the result of the use of "PORO," it will continue to do so if only the scalp and hair be kept clean. This sanitary method of treatment is also having the desired effect in helping to prevent the spread of diseases, for it is a fact that hair in an unsanitary condition carries the germs of disease which often prove fatal to innocent persons coming in contact with them. Mrs. Thos. Mitchell, returned home last week. Take the Bystander. Mr. Silas Hopkins lost his residence and all of his belongings by fire last Tuesday morning. No insurance, whatever. Mr. Hopkins is an old man and his loss is quite heavy. Indeed, as the fire took away years of hard work. Mr. Hopkins lives alone and as his house was outside of the city limits there was no way to save it after the fire got under headway.

"He has achieved success who has loved long, laughed often, and loved much; who has gained the trust of pure women, the respect of intelligent men, and the love of little children; who has filled his niche and accomplished his task; who has left the world better than he found it, whether by an improved poppy, a perfect poem, or a rescued soul; who has never lacked appreciation of earth's beauty nor failed to express it; who has always looked for the best in others and given the best he had; whose life was an inspiration; whose memory a benediction."—Beulah A. Stanley.

A good remedy for sleeplessness is to wet a towel and apply to the back of the neck, pressing it hard against the base of the brain and fastening over this cloth to prevent too rapid evaporation. The effect will be prompt and pleasant, cooling the brain and inducing a sweet and peaceful slumber. Warm water is better than cold for the purpose. This remedy will prove useful to people suffering from overwork, excitement or anxiety.

MRS. A. M. POPE-TURNBO PROPRIETOR "Poro" College 3100 Pine St. St. Louis, Mo. THE "PORO" SYSTEM of Scalp and Hair treatment is based on the latest scientific and sanitary methods, effecting a healthy scalp thus promoting a growth of beautiful hair. The "Poro" preparations used in connection with the treatment are made and sold exclusively by myself, having the exclusive right to that name; and I, alone, know the secret of the composition that bears that name. Our claim has always been that when the hair begins to grow as the result of the use of "PORO," it will continue to do so if only the scalp and hair be kept clean. This sanitary method of treatment is also having the desired effect in helping to prevent the spread of diseases, for it is a fact that hair in an unsanitary condition carries the germs of disease which often prove fatal to innocent persons coming in contact with them. For treatment, call on or address: Mrs. Mollie Whitney 726 10th St. Des Moines
