## LUSITANIA

(Written specially for the Bystander)  
We are coming Father Wilson,  
We are answering to your call.  
We are coming from the factories,  
Farms and firesides and all,  
We are rallying to the banner,  
Emblem of world's freedom call  
And our battle cry "Avenge the Lusitania."

Yes, we are going to cross the ocean,  
As Allies to the French,  
Repair the debt of gratitude,  
And help flogging of the stretch  
Of old Prussia and of Germany  
And old Truks despotic sway  
And our victory cry will be, "Avenge  
the Lusitania."

We will storm the Kaiser's stronghold  
We will set his captives free.  
Joined by millions of honest people  
In the land of Germany.  
Yes, they join us in our struggle,  
To dethrone despotic rule,  
And th' y'll help us sing, "Avenge  
the Lusitania."

## EDITOR'S OBSERVATIONS

On leaving Galesburg we made a short trip of a few hours to Kewanee, Ill., where we found a few colored people and most of them are doing nicely and many of them own homes. Mr. and Mrs. E. L. Reynolds were both off on their vacations visiting in Chicago and elsewhere. Mr. A. B. Bell still runs his barber shop, also Mr. Williams runs a good shop. There are two other barber shops operated by colored men but cannot recall their names. There are two churches, Baptist and Methodist. Mr. Robt. Watts is doing nicely as is also Arthur Watts, a young man who lives at the edge of the city. W. M. Chambers, Mrs. Susie Brown, Mrs. Leslie Shield are substantial citizens living at the same place. Mrs. Mae Coleman will read the Bystander in her own home this year.

Our next stop was in the coming metropolis of the world—Chicago. Here dwells more than two million humanity, representing every race and nationality known to the civilized world and on the face of the globe. It is a great hodge-podge of swirling humanity. People hardly know themselves in this great city with its towers and pieces of magnificent architecture. Her crowded streets and her system of electric cars underground, on the surface and elevated bringing the masses to and from all parts of the city.

Here dwells about 75,000 colored people and from this great mass one can see them from the lowest to the highest development. There are colored people here engaged in every known profession and at the highest development along any lines that they choose to take up. The two races seem to get along here, better than in any other large community where both races live together in this country. It is said that along a certain part of South Chicago from 18th street as far down as 50th street and between Michigan and Dearborn that there are thousands of our people living and have successful business enterprises. In this area we have a colored Alderman, two negro members of the legislature and many colored men representing the race in both city, county and state positions and many in the U. S. postal department. Time and space forbid me to give you a list of these men who are successful, but it lends inspiration to one to visit this section of the city and see for themselves the progress that our race is making along all lines.

The many churches of all known denominations seem to be abreast with the times. A. M. E. churches are far in the lead in edifices and attendance. The Baptists are making perhaps more progress along new churches than any other denomination. The Episcopal, Catholic, Presbyterian and Congregational churches all seem to be holding their own. Our friends Revs. Timothy Reeves and Briece U. Taylor, former pastors of the A. M. E. church here are making good in Chicago and their churches like them as well as they were liked in this city. They were returned to their respective churches this year as you will see by the list of appointments in last week's issue of the paper.

The Iowa men that I met who have gone from this state are living here and doing well. Mr. Luther Bled-

soe, who formerly learned his printing trade in the Bystander office lives here and is still working as linotypist on the editorial department of the Chicago Record Herald. He recently married Miss Cecil Harris, formerly of this city. Mr. James Weeks is still working at the same place and doing well. Mr. Wells Fowler has moved his family from Ottumwa, Ia. here. Mrs. S. V. Holly, who formerly lived at Cedar Rapids also lives here. Mr. John Wright, formerly of Buxton, Iowa is operating a large hotel, restaurant, club house and saloon. He has a very large business and is doing well. Another Iowan who is in the saloon business is Hugh Hoskins, erly of Keokuk. He is enjoying a large trade and invites all his friends to call upon him at the "Iowa saloon." Joe Jones, formerly of Des Moines is running a first class tonorial parlor on State street.

I will not give our readers some statistics as reported by Black's Blue Book, which is a directory of the Chicago colored citizens. They have 60 physicians; 5 photographers; 23 dentists; 14 dressmakers; 1 bank; 68 barber shops; 45 billiard and pool halls; 4 blacksmiths; 20 chiropractors; 5 cigar makers; 8 cleaning and pressing; 2 clothiers; 13 decorators; 83 express and storages; 30 grocers; 49 lawyers; 20 real estates; 65 restaurants; 25 saloons; 9 shoemakers and 11 undertakers; 22 Baptist, 1 catholic, 2 Christian, 1 Congregational; 1 Episcopal; 18 Methodist; 2 Presbyterian and 3 of various denominations, 66 policemen, 41 school teachers.

Mr. Crews has been in poor health for some time, death being caused from an abscess on the lungs. Mr. Crews was an amiable young man of our city and very polite and lovely all who knew him, always a smile to every one. Just before his death he found Christ the sweetest thing of all He waited until the changes came Jos. 14th chapter and 14th verse. ## Sour Stomach.

Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

## BACK TO FIGHT THEIR KIN

"Rainbow" Division Contains a Company of Pennsylvania Germans Who Still Speak Mother Tongue.

Easton, Pa., the mountainous little city which guards the eastern entrance to the Lehigh valley, suffered recently the deeply moving shock of pathos and patriotism which must come to the towns and cities of America, one after another, as the flower of their boys in organized array march off to war, says the Pittsburgh Dispatch.

Easton's military organization, affectionately known as the City Guard, is now the One Hundred and Forty-ninth machine-gun company. It left for Mineola, N. Y., to join the "Rainbow" division, the first stage of a swift journey to France and the battle front.

In the ancient city of Speyer, upon the Rhine, is a line of tombs in which repose the old warrior emperors of Germany. The legends say that they arose by night over a century ago, ferried the Rhine, and caused the defeat of Napoleon at Lepsic; and that they will arise again to protect Germany in her greatest crisis. This company of Pennsylvania soldiers, heavily treading through the streets of Easton, presented a far more impressively impending fatality, for these were Pennsylvania German boys. Their names were Ridenour, Lehr, Hitchenbacher, Kocher, Darmstadt, Kiefer, Scherf, Seiple, Volkert, and so on.

Two hundred years ago their forefathers came to America from the Pfalz, of which Speyer was the capital, and these boys, notwithstanding their education in our greatest schools and colleges, and their two hundred years of family history upon American soil, still speak with fluency the ancient dialect of the German Palatinate, locally known as Pennsylvania German.

Fate is sending these boys back to the land of their forefathers to overcome by their living presence the spiritual assistance of the ancient kings of Speyer. It is Ithenish legend against Pennsylvania machine guns. And theirs indeed is soldier blood. Their names reflect many soldiers of distinction from this county in the Revolutionary, Mexican and Civil wars, their fathers having made in their time the same march of the same route as that made by the boys on their way to camp.

## Why Should We Wash?

Why does a boy object to washing his neck and ears? Or object still more seriously to having them washed? I have evolved a scientific and psychological reason which is a complete answer to the question, but I prefer to answer it by making a personal confession based on my own boyhood experience, says Edwin Fuller in the Mother's Magazine. As a small boy, I objected to washing my own ears because I could not see the dirt and because I believed it unnecessary waste of time which might be used more profitably in play; and I strenuously objected to my mother performing the operation because she always hurt me.

There is no period of the boy's life more trying to the parent than the period between eight and twelve, except only the age of early adolescence. The chief characteristic of early boyhood is individualism. He now recognizes himself as an individual entity not correlated to society at large. He feels no obligation to humanity because he does not yet realize that he is an integral part of it. His individualism manifests itself in selfishness and self-centeredness.

## Spirit of Martyrdom.

Here and there may be found persons not recognized as great and yet really great. They are working for great ideas. For their efforts they may be severely punished. Can it be said of them that the rest will follow? Surely it can. They are the pioneers. They blaze the paths for other great persons who reap the reward of what they have done. They are very pathetic, these martyrs. And yet, in a sense, they are not pathetic at all. They have the joy of working for something worth while, even of suffering for it and perhaps going down to seeming defeat. Theirs is the spirit that animates many of the young men at this moment offering their lives to their country. Suddenly, by means of their self-sacrifice, life has become enhanced for them and death itself has taken on a kind of beauty.—New York Evening Telegram.

## She Was Out of It.

Old Zeb Jackson, the champion whitewasher, walked down the main street of the village one morning dressed in his best suit, with a large, brilliant buttonhole bouquet and with cotton gloves on his big hands.

"Hello, Zeb," said the postman, "are you taking a holiday?"

"Dish yere," said the old man with a proud wave of his huge hand, "dish yere am mah goding wedding anniversary, sah. Ah'm celebratin' hit."

"But your wife," said the postman, "is working as usual. I saw her at the wash tub as I passed your home."

"Her?" said Zeb hotly. "She ain't got nuffin' ter do wif hit. She's mah fourth"—Omaha Herald.

**FINISH STUDIES AT CAMP**

Commissions Are Awarded to More Than 600 Men at Fort Des Moines

At the close of the reserve officers' training camp for colored officers Monday, addresses were made by Brig. Gen. C. C. Ballou who commanded the camp for the first three months; Col. J. E. Hunt, at present in command and Emmett J. Scott, special assistant to the secretary of war, who brought the personal and official greetings of Secretary Baker.

In his address to the 624 graduating officers, Dr. Scott said: "We meet today under circumstances of commanding interest and peculiar significance. Never before in the history of the world have men of your birth and traditions had the opportunity of being prepared in the arts of modern warfare in such numbers and of such promise, to go forth as representatives of 10,000,000 of your kind to battle for human freedom and human rights.

"In this supreme hour, when the fate of the republic is at stake, your emphasis, I am sure, will be upon duties and responsibilities; will be upon the sacred privileges of serving one's country in her hour of need. You will remember always that you are on trial. It will be for you to prove that the men of your race, when lead by competent and efficient, fearless men of the same race, are not afraid to do, to dare and to die." Commissions ranging from second lieutenant to captain were distributed to 620 candidates.

With the commissions the successful candidates received their assignments to the various cantonments where Negro troops will be trained. Several were assigned to Camp Dodge. Most of the newly commissioned officers left for their homes last night.

**COLORED MEN ORDERED TO REPORT**

3,800 Coming About October 27, According to Advices Received at Camp

Advices were received at Camp Dodge Monday afternoon that 3,800 Negroes from Alabama would report for duty at the cantonment, October 27.

The men will be the first of 6,600 colored drafted men from that state, who are to be sent here to fill up two Negro regiments and a machine gun battalion.

Negro officers who have been in training at Fort Des Moines will be ordered to report for duty at Camp Dodge, Nov. 1, at which time it is thought the entire 6,600 men will be in camp.

It became definitely known at the cantonment yesterday that the reason for the transfer of white soldiers to southern cantonments is that not enough white men had been drafted in the south.

**SOLDIERS' FAREWELL BANQUET**

One of the most elaborate of the many soldiers' dinners was the one given by Company No. 3 on October 10th to men only. Their beautiful military decorations and unique arrangement made one feel the presence of a cultured banquet board. The menu consisted of eight courses, beginning with fruit cocktail and ending with cafe noir. Sergt. Edward York was chairman of the committee on arrangements, assisted by Candidate Thomas M. Gregory very efficiently. First Sergt. Alonzo Campbell was toastmaster. The visitors were Editor Harvey Ingram of the Daily Register, Editor E. Wright of the Tribune and Editor John L. Thompson of the Bystander. Each made fine speeches, also Col. Ingram. Then singing, waltzing and short toasts by about sixty members of this company.

On Sunday afternoon, October 14, Company No. 6 gave their farewell banquet, which was attended by both ladies and gentlemen. A fine dinner was served at 3 o'clock and the afternoon was enjoyed by all present.

**DISTINGUISHED MEN HERE.**

Mr. Emmett C. Scott, secretary of Tuskegee Institute, who was recently appointed on the war advisory board by Secretary Baker, and Dr. Daniel H. Williams of Chicago, our noted physician, and father, Albert B. Williams, pastor of the Episcopal church, and Dr. H. H. Hutton, the leading physician of Omaha, Neb. The latter two motored over to see the officers' training camp last week.

**COLORED OFFICERS.**

The 17th provisional officers training camp located at Fort Des Moines, Iowa, to which about 1,250 colored candidates were ordered June 15th to enter its training school to compete for commissions as United States officers, which was the first opportunity ever given the colored race to train for such. The school was continued one month longer than was originally planned and terminated on the 15th of October, at which time, out of the 900 who remained during the fourth month, 625 received commissions ranging from second lieutenant to captain, as it was the policy to commission none higher than captain at this time. At present we are unable to give the entire list of the 625 that received their commissions, because it is the policy of the war department not to publish it until it appears in their official record, and if it is not published this week we will do so next week, also th list of the commissioned officers who will be stationed at Camp Dodge. They have all been given two weeks' furlough and most of them have gone to their different homes to visit relatives and friends and to adjust their business so they can enter active work as United States officers.

This was indeed the greatest sight and epoch in the history of the American Negroes as it marks his beginning as a commissioned officer in the United States army and those men who have gone to the different cantonments are some of the best representatives of our race in this country and no doubt he will make good and preserve the honorable record of the Negro soldier in the field of battle wherever they may be assigned.

We can only say that their department while here was exceptionally fine and that they made many friends for themselves and for our race. There were hundreds of both white and colored citizens at the depot Monday evening bidding them farewell as they were leaving and the Bystander can only say that it wishes them success and hopes they will achieve many honors that will engrave their names upon the hearts of the American people, whereby the race will achieve still higher fame as loyal soldiers.

**WOMEN AND WORK**

**World Getting New View of the "Limitations of Sex."**

Even in Japan Feminine Workers Are Invading the Factories, Stores and Offices.

A writer in the New East pictures the coming of Japan's "new woman" in ways that would be impressive were there no Europe and no world war. We have heard before that bound feet are no more in China, that Peking believes in education for girls and that all through the Flowery land the American sewing machine is giving a good account of itself, we are now assured that Japan, politically modernized for well nigh half a century, is deep in the task of completing the emancipation of her women from the patriarchal system, says a writer in the Boston Herald.

Vast numbers of them have found occupations in the factories; other contingents are at work in the offices and in that newest innovation of all, the department store. The age of business has at last dawned for the island empire, and the click of the typewriter is heard in the land. Meanwhile there is a rush of women to the professions. It is the women now who are sought for the stage, and the demand has been found large enough to warrant the formation of dramatic schools attached to the large theaters. A woman doctor used to be an impossibility in Japan. At this year's examination for medical practice in Tokyo 27 out of 39 candidates who passed were women. And the call for women teachers in the schools grows apace.

Compare this peaceful type of evolution with the changes which have come to the western people under the stress of war. In our own land the women, once socially active mainly through their churches and clubs, are now fast closing up into a great cooperative organization which has food conservation for its detail and national defense for its unifying spirit and end.

At a demonstration given the other day by English women in Hertfordshire 1,000 of them gathered to show their proficiency in trimming ditches, hoeing roots, carting, and a dozen other kinds of farm work which they had taken up to liberate the men, and an eyewitness describes the remarkable showing made by these "bands of lithe-limbed maidens, with brown faces under slouch hats, marching in knee breeches and leggings or 'puttees.'" On the battle front American women are helping the allies as drivers of ambulances and motorcars; in both France and England women run buses, conduct trains and function in scores of occupations that have been hitherto reserved for men. What would the war amount to were it not for the army of woman workers in the munition factories? Then think of Russia, which sends out woman warriors to show her men how battles are won.

It should be plain that after this struggle the world will never again be exactly the same for women. We shall have the steady evolution of social and industrial structure such as Japan is now displaying, but we shall also have a new view of the so-called "limitation of sex." Complete recognition of the fact that women are also human beings is assured beyond peradventure.

**Suspected as a Red.**

The fact that Brig. Gen. Clarence R. Edwards, commander of the Northeastern department, has been regarded late as an anarchist was revealed when he told a number of newspaper men that on account of the red flag with the white star which flies from the hood of his motor car, he has been continually hailed by young America along the highways and byways of New England as a "desperate character," the Boston Advertiser states.

In conformity with military regulations, it is required that all brigadier generals fly a red flag with a white star in the center, in the front of their conveyance. Major generals are distinguished by a similar flag with two white stars, lieutenant generals have three stars and generals four. When the president occupies a car, it is the custom to display a red flag with an American eagle and four stars.

**Terrible Catastrophe.**

As Mr. Jones unlaced his boots he remarked casually to his wife: "Have you heard about the catastrophe which happened at the Smiths' house tonight?"

"No. What was it?" asked Mrs. Jones.

Jones paused for an aggravating moment to pull on his slippers before he replied: "Why, Mrs. Smith gave the baby a bottle to play with, and while she was out of the room it fell from the cradle and broke its neck."

"What! The poor little baby?" shrieked his wife.

"No; the bottle!" replied Mr. Jones, with a fiendish chuckle.

**Had Holes in It.**

Little Basil was allowed to sit up to the table with his fond mamma on the occasion of a little luncheon party. His manners were generally very pretty, and mamma was horrified when she caught the child stuffing his food into his mouth with his knife.

"Basil," she cried reprovingly—"Basil, where's your fork? You ought to use your fork!"

"I know, mamma," said Basil plaintively; "but this one leaks awfully."

Quite a surprise was given on Mrs. Alert Collier last Friday when she went to visit one of the neighbors and upon returning home found the house decorated in patriotic colors and a number of guests awaiting her.

**Pussy Cat Indicted.**

American foresters present a very strong argument against our friend, the pussy cat, as being by far the most destructive of animals, wild or tame, of the birds, and every forester considers the birds as the greatest friends of the trees. Without the destruction wrought by the birds on the insect enemies of the trees there would be after a generation no tree left for the insects would multiply fearfully and demolish every growing tree and plant.—Grit.

**Teaching Child to Read.**

A child is best taught to read in the natural method, by means of objects. His words or short sentences containing the same words repeated in different connection, are written on the blackboard, and he quickly learns to recognize these and to read in sight. First words in script, then in type. When he is made to copy the blackboard words at each lesson, he learns to read and write both at the same time.

**Making Play of Work.**

Making play of work is often a good idea when getting children to help. Thus, when seeking the aid of a youngster to pick up the pins from the floor, let him or her use a horseshoe magnet for the purpose. You can get such a magnet for ten cents.

**Everyone Should Drink**

**Glass Of Water To Clean Kidneys**

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with cold water and kidney, which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from your druggist about one dozen 5 grain kidney tablets, take one tablet before each meal and at bedtime with a glass of water for a few days and your kidneys will act fine. This famous remedy is made from perfectly harmless ingredients and acts quickly, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Kidney is inexpensive, cannot injure, make no mistake, insist on kidney, which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking and no doubt you will realize the benefits of your kidney trouble and backache.

**The Candelilla Plant.**

The wax of the candelilla plant is used in making candles, phonograph records, wood and leather polishes, floor wax, certain varnishes, linoleum, rubber compounds and celluloid, and it also enters into use in pharmacy and in the making of electrical insulation. The candelilla plant grows on the poorest quality of soil, and before it was found to have a commercial value for the wax contained it was considered a pest.

Hill and Dr. Lama Hill of the Plymouth church social center. Mrs. S. G. Lewis was elected third vice president and a committee, consisting of Mesdames S. Joe Brown, Gus Watkins and Mrs. Jessye E. Lieutenant Abbott, like Lieutenant Howard, will be located at Camp Dodge to train the conscripts. Only a few of the relatives and friends witnessed this double wedding. We extend to them our best wishes for their success.

OBITUARY.

Matilda Hughes, the deceased, was born near Nashville, Tenn., May 16, 1840, and was the daughter of Mrs. Onnie Burrell. She was the wife of Wilson Hughes, now deceased, with whom she lived a happy marital life of forty years. Her congenial disposition made a host of friends, who regret her eventful departure. She was a member of Union Congregational church and was a loving and devoted mother and wife. She was the mother of eight children, four of whom now survive her and who realize the value of her Christian character. She departed this life Monday, October 15, 1917, leaving to mourn her death two sons, F. B. Hughes of Chicago and H. W. Hughes; two daughters, Mrs. Lucia A. Birney and Mrs. Coalson of this city; four grandchildren, Mrs. Maud Blagburn of Denver, Colo., Mrs. Forestine Neal, Dorothy A. Hughes and Harold S. Hughes of this city, besides innumerable friends and acquaintances, who will miss her sweet presence. The short funeral services were conducted at her home on Center street by Rev. J. D. Jessell, pastor of Union Congregational church. Remains were laid to rest in Woodland cemetery.

COLORED CONSCRIPTS.

Des Moines and Iowa are fortunate in the assembling of thousands of conscripts, preparing them for duty in this great world's war in that they received one of the big canotments, where there will be quartered forty thousand conscripts for the winter.

Under the regular apportionment our central division will receive only 2,000 colored conscripts living in this district, but the war department has ordered the colored conscripts of Alabama Georgia and some other southern places to be sent to Camp Dodge to be trained and numbering in all 8,000. They will begin to arrive here October 27th and they are sending from this camp about that number of white men are leaving Camp Dodge for the south to be trained. There-

Japanese Have No Beds.

The Japanese do not sleep on European beds, but on many thick, soft puffs piled one on top of each other upon the floor. For bed covering they use more of the same kind of puffs. It is said that the Japanese emperor has 20 such puffs. One of those which cover him is made in the shape of a kimono and has a velvet collar. Probably he creeps inside of this, if he feels cold in the night.

Fat.

"I admit that it is much of an effort to keep your spirit from growing fat as to keep your body from growing fat," says Margaret Deland in the Woman's Home Companion. "It means making sacrifices; you will give up potatoes to keep your body light; you will have to give up faultfinding and gossip to keep your heart light. But the effort pays!"

Worrying Always Weakens.

Worrying is always weakness. It is always danger. In a sense, though often excusable and sometimes unavoidable, it is cowardice; and cowards, as Shakespeare tells us, "die many times before their death." We may regard worry as the price paid by humanity for advance in education and in refinement of feeling; but it is a higher price than need be paid.—Exchange.

In Other Days.

Until a New Jersey man tried to corner the potato crop of his neighborhood the mosquito was considered the most undesirable predatory insect produced in that section of the country.—Washington Star.

She Put the Toe in Plomatin. A seven-year-old Columbus girl came home from school and reported that her dressmaker had hit her toe with a hammer. The girl's mother, Mrs. J. H. Chamberlain's Cough Remedy the Most Reliable.

After many years' experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ills., writes, "Chamberlain's Cough Remedy has been used in my mother's home and mine for years and we always found it a quick cure for colds and bronchial troubles. We find it to be the most reliable cough medicine we have used."

To Make Screws Hold.

When screws are driven into a plaster wall they may be made firm enough to hold considerable weight if they be withdrawn, wrapped with cotton string and dipped into plaster of paris until sufficient adheres to fill the hole in the wall and to permit some of it to be forced behind the plaster. This latter forms a plug that holds the screw firm.

Indian Raised Cotton and Tobacco.

The Indian farmer, especially in the Southwest, carried the cultivation of the American variety of cotton to an advanced state. His culture of tobacco, on which was based a profitable industry for the early colonies, had been developed to a high state of efficiency.

Mrs. Samaria Joseph S. Lowe

Then goeth he and take with himself seven other spirits more wicked than himself and they enter in and dwell there, and the last state of that man is worse than the first. Even so shall it be also unto this wicked generation. So instead of looking into righteousness in a way of peace we just go in self and condemn through Christ Jesus. We want people to do the way we say and all the blessing, honor and praise look up to us. We are the Gods. Half of the people who vote saloon out keep dens and dives to snare our young girls and husbands and wives. I don't drink no kind of intoxicating drinks nor any temp brew or near brew. I have not just stopped, but in my entire life I drank one cup of straight beer and praise God that was enough. Same way we do our fallen girls. When they rise we fight them, help them to tell their past lives; friends don't let other friends take your house for a "dump pile." Come to you and sit with demons of heart rending filth and upset your minds. Very often who we put on the old "dump pile" turns out to be the less damaged. Rather go to the pile and look the rubbish over one and one isn't but two after all our counting, but we have some who are educated in fool knowledge who claim it is four as sure as I tell it. I went into a sick lady once. The doctor told her to order a case of ginger ale soda to make her belch often. After I had gone here came a friend. I went to see Mrs. H. and she had beer, drinking it. Well I were not so in love with the devil I could say I know positively it was ginger ale, and glory be to God the sister wasn't so stiff she went back to the sick and corrected her misjudging and prayed God bless the women who through you cause me to

turn to truth and come into this light. We have a part in the Bible that speaks about women preachers. Yes, and that is to who God sees fit to lay it upon. One woman leader of Christ. Christ came down and made it possible for even one in St. John, 20th chapter, 17th verse. After he was crucified, died and arose he arose with a message for the woman. And he saith unto her, Touch me not, for I am not yet ascended to my Father, but go to my brethren and say unto them, I ascend unto my Father and your Father, and to my God and your God. Why can't a woman carry good news now. God gives a reward to all who are faithful if we didn't find so much fault with each other we would be better off. The book after not being printed by the regimental press will cost a great deal more than first expected, so beloved if we gather in two million dollars on sales of cards our book can be printed then. Why? Because there are over 100 vision pictures in this book and to have the photo man to make pictures for cuts and print and bind the book would make it a loss to the work. One illustration cost \$1.50 to get a picture. Why I know? Because I have had one made for the cards. This is to my friends as well as enemies, for I love my race as well as I love and live in peace daily with all mankind. Friends my present health prevents me from going from door to door as I would like with the cards, so won't you send or bring an order. God is waiting; Jesus says come. We are not compelled, no nor we don't have to, but if we will God says welcome. This is all I can say to my race unless your hearts and minds change I am compelled to say one-tenth or hubby money must go hereafter for fuel.

Before closing I must say in regards to Mr. John L. Thompson and Mrs. Emerald Mash these two have did every way to to make prices as low as possible to help this cause, not because I bought a book of Mr. Thompson, nor give him a year's subscription for the Bystander, but because of the Christian spirit and unity within his heart for God and all mankind, and since the 5th these two have at request bought a card and two other ladies, Mrs. B. O. Bannox and Mrs. G. Legon of Lathrop, Mo. On Saturday afternoon when Mrs. Mash and Mr. Thompson bought a card I felt like a prisoner who had got justice from God. Yes, beloved, I felt like the old clock "Unity and Charity" had been hanging in the tomb with an anxious and faithful prisoner who wanted to start the clock and let the light shine in the tomb and be set free to go on her journey, so as they turned over the \$1.00 I imagine the old clock struck on the correct hour and God spoke and said, Samaria these are my angels. I send to set you free from the tomb, beloved, since the old clock has begun to strike are you willing to keep the correct time by uniting and sending for one of these cards. There are 10,000,000 colored people in the U. S and 8,000,000 can sacrifice 50 cents. I am not working for a pull of unity, but for unity of God. I want the race to be in righteousness, what they longed to be for years. I am not after anybody's 50 cents for self. But as I say and feel I cannot afford to continue to

spend one-tenth of my husband's money any longer for ads. in the paper. I am not working to get a large salary, no, no, when God gave me eternal life, health, wisdom, understanding to do his will I am satisfied with his will, beloved, only believe me. I would not take 50c from no person on earth and cover it over and say that it is for Christ. I only ask you all to help this cause that I may not be called a liar and defrauder stealing money from a poor race who have from generation to generation been kept in bondage, struggling to win the battle of victory. Examine the work; yes some say who founded the work, God, and just like he handed Moses the ten commandments, yes that is the way he handed this work. Chap. St. Luke 21, vision and all to Samaria.

So instead of foolishness look way deep into righteousness. Can a man or woman live here on earth and their souls be in hell? Yes. How? When a man just gives his wife money for home use and spends the other for foolishness he spends his life in hell, because after his money is gone he brings all those wicked spirits home with him and his soul is in hell, because his heart's desire is to return to the devil's home so his soul can rest. Likewise it is with the woman. Sanctification takes away foolish lust and gives in exchange happiness, satisfaction, contentment with the one wife, the one husband and gives us knowledge and understanding in which to spend our money in order to be more happier.

Some day beloved I will be laying in the grave, and somebody will remember the old clock. The old tomb in which I stayed three years, eight months, one day. Somebody will write a song, somebody will write a poem, but I shall be with the redeemed. Sometimes we cannot believe or feel a person's sincere love until the Lord sends his holy angels from glory land says, Tell him or her, well done, come up higher.

I were called to preach the gospel and I through Christ expect to in 1918 carry the word. I expect to meet my people and race face to face, so I won't write and won't send but I will come myself. In case of inquiries of change of address inquire Bystander, Mr. John L. Thompson or Mrs. E. Mash. Beloved, as long as there is a seed left of John L. Thompson, praise God and uphold them in charity. Friends, charity means "love," and love worketh no evil; if we help others we help ourselves; if we harm others we harm ourselves. No man can hurt my home without hurting his, and my husband can't hurt other homes without hurting his, because each one is measured by just what he measures. If I am a saint and my husband a gambler, he hurts his wife and the man who gamble with him and help him to gamble hurt both him and home and God is going to measure it right back to the wine bidder. Be men of God, throw back your lives clean, God has provided a living in purity; don't let the enemy cheat you out of your life. Spend its moments in giving time for a higher, nobler, intelligent way and pleasant lives, from one enticement of the devil's we go to other. Why is it our wives are being crushed in so many cases. It is be-

cause of some of our husband's lovers who bribe them with those lovely eyes, and demon ways. Old age does not wear out purity. A house of children doesn't wear out purity, because purity is purity, righteousness is righteousness and these two together are no harm, but to take another man's wife and tell her its no harm causes death. For in Romans, 6th chapter, 23rd verse, says: For the wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord.

If we have no respect for other homes, how can we demand respect for our own. A man's duty is to support his own home and if it takes every penny of his, why should others worry. He is only doing what he should. His love is to admire his own wife, correct his family and it can't interfere with family love. His respects is to live pure and holy virtues in order to know how to walk. What kind of conversation to hold, how to speak and how to know how to speak and likewise the ladies. The young women should beautify their lives in righteousness. Pull your hands out of the devil's hands rather unite with purity. You can not give other women's homes trouble without heaping trouble at your own homes. Quit exposing your health sending your souls to death in shame for some man's sake and deceiving mother. Messengers stop to carry fifty messages that carry the glad news good tiding, that send and answer joy, you don't have to sneak a sweet message, for every one loves a good message.

I told you all this work if to beautify Christ. If I leave Des Moines before long pray for me and somewhere in God's kingdom when life is over meet me there for I am one of those John speaks of in Revelations. He says he saw a number no man could number and he heard a voice say these are they that came up out of great trials and tribulations. I'll be in the number with my robe washed white as snow.

My aim is to do God's will now and forever. When we take an eye of evil and cast it at these cards God only is your judge. Praise God we have another to join the four, Mrs. S. Joe Brown. This writing must go to the Bystander tomorrow in order to be in Saturday's issue.

May my light so shine before men and women that I may be found not wanting but trusting and weighing a just measure through Christ Jesus, because it isn't me, dear friends, who is after foolishness of vanity. Some people want all the money, all the establishments, all the friends, all the people to praise them. What I want is what God wants me to have because charity isn't pulled up nor seeketh its own. I know that without God I can do nothing, and without charity. My work profits nothing, real unity and charity creates a new earth. I may write a whole paper and yet not say half, so with love and peace I close this issue to all mankind.

**Fat Folks May Now Become Slim Quickly**

Be Moderate in Your Diet. Breathe Deeply, and Take Tassco.

Fat persons, particularly those from 10 to 30 pounds above normal weight, will be interested to learn that they may easily reduce their weight without starvation diet or tiresome exercise.

This can best be done by being moderate in your diet, so that you will not over-tax your assimilative organs, by getting plenty of fresh air, by breathing deeply and by taking tassco four times a day.

Tassco may be obtained from any good druggist in 5-grain tablets; take one after each meal and one before retiring at night. They cost little, are absolutely harmless, are pleasant to take and are designed to reduce fatty accumulations in the system wherever accumulated.

A few days' treatment should show a noticeable reduction in weight, the flesh should become firm, the skin smooth and the general health improved, in fact your footsteps should even become lighter, your work seem easier and a lighter and more buoyant feeling take possession of your whole being.

Every person who is 10 to 20 pounds over normal weight should surely give this treatment a trial. You will probably find that it is just what you need.
