Mr. Henry Clay, porter at the Mechanics Savings bank, was responsible for the idea. The following men responded to his call and were present at a meeting held at the Mechanics' Savings bank: Henry Wright, Royal Union Insurance Co.; Adam Dixon, Peoples Savings bank; George McCraven, Des Moines Na-

Colored Mechanic Invents World's best Diving Suit

Boston, Mass., Dec. 26.—Charles H. Jackson, a colored mechanic living at 12 Albion street, is the inventor of a diving armor that is expected to revolutionize deep sea diving. One of the first uses to which the invention will be put is endeavoring to salvage \$30,000,000 of gold bullion which was lost when the British liner, *Laurentic*, was sunk off the Irish coast by the Germans. Two divers have already been killed in an effort to get the treasure. John F. Turner, a white diver from Philadelphia, broke the world's record with Jackson's armor, when he descended 300 feet into the sea fifteen miles east of the Graves Light. He says if he does not get the bullion it will not be the fault of Jackson's suit. With other diving armors, a record of 167 feet had been attained. The new suit can stand a pressure of 150 pounds to the square inch.

The new invention is made of brass and necessitates a derrick in order to get into it and weighs 400 pounds. It cannot only withstand great water pressure, but has various appliances to make it more serviceable than other diving armors. Diver Turner says "it's the most perfect thing of its kind ever invented." Jackson got his idea after being badly injured by a compressed air explosion in the new subway. He sustained two broken ribs and several workmen were killed. The inventor is employed as a mechanic by W. Thomas, president and general manager of the Atlantic Machine Screw company. His employer financed the invention.

LOS ANGELES HAS COLORED ICE CREAM COMPANY

The Chicago Ice Cream company which was recently purchased by a body of Negro business men, and incorporated into a stock company capitalized at \$10,000 will throw open its doors to the general public on next Monday evening, December 15, at its new location 1809 Central avenue. Each and everyone is invited to inspect same and accept the hospitality of the firm in this new movement to place the race in possession of its own manufacturing enterprises. The old site will be given over entirely to strictly manufacturing, and the above address will be its downtown office and store. All orders for ice cream deliveries will be received, either by phone or call, after next Monday at its downtown address. At a later date, a grand official opening will be held at which a meritorious program will be carried out befitting the movement. Join in the crowd on next Monday night.—The Eagle.

MRS. LAURENCE C. JONES ENDS SUCCESSFUL IOWA TOUR

Burlington, Iowa, Dec. 25.—Mrs. Grace Allen Jones, once known as "the Sunday school girl of Iowa," because of her active Sunday school work, and now known as "The Sunshine Lady of the Piney Woods," has just closed a successful campaign in the interest of the Piney Woods school at Clinton, Iowa.

After visiting an aunt in Indianapolis, she will join Prof. Jones in Chicago and return to Piney Woods in time to bring a Christmas message to the boys and girls.

After opening up school in October, Prof. Jones returned north and has been in Illinois calling upon friends of the work.

Piney Woods is enjoying the most prosperous year in its history and its wealthy friends have already started a fifty thousand dollar drive for a main building from which all activities will radiate.

over the world that will bring the attendance over the 100 mark and possibly over 200.

A general call has been issued from the secretary's headquarters at Washington, D. C., to Alpha Phi Alpha men everywhere to make a special effort to attend this convention, particularly because the deliberations involved will be along the lines of reconstruction and will entail decisions of a very momentous nature bearing upon fraternity activities. The Wabash Branch Y. M. C. A., 3763 Wabash avenue has been selected as temporary headquarters for the convention.

The business sessions of the convention will be under the leadership of the following general officers: Daniel D. Fowler, Cleveland, general president; Lucius Lee McGhee, secretary; S. S. Booder, treasurer, and Carl J. Murphy, editor of the *Spjnz*, both Baltimore.

The large open meeting to which the public is invited, will be held on the afternoon of Sunday, Dec. 28 at the Wendell Phillips High school auditorium. The principal speaker will be the Hon. Emmett J. Scott, former special assistant to the secretary of war. His subject will be "The Advent of the Negro Into Big Business." The National Negro Business league will be guests of honor.

JIM CROWED AFTER DEATH. Hearse Refused to Colored Woman in Oklahoma.

The National Association for the Advancement of Colored People, 70 Fifth avenue, New York, today made public the following extracts from a letter showing that discrimination against colored people does not end with death. "Sunday, Nov. 16 I attended a funeral at Vinita, Okla. The undertaker would not hire his hearse to the lady as they do not allow colored people to use the same hearse that white people ride in. The one they have been using for colored people has worn out, therefore she sent to Chetopa, Kan., and hired one."

CONTEST LIMIT EXTENDED.

By special request of several of the contestants and people who contemplate entering the great subscription contest, we are extending it over Christmas to close Easter. From the enthusiastic letters, somebody is going to go shopping in that auto, somebody is going to attend the federation or grand lodge wearing a beautiful diamond ring. And no doubt somebody will get that we all go to on Sunday afternoon those rich furs to "the church room."

"Alma Mater."
The phrase "alma mater," as applied to colleges and universities, is said to have originated in the University of Bonn, Germany. A statue of the Mother of Christ—the alma mater, or beloved mother, stands over the doorway of that famous seat of learning. From it the phrase received its origin.

Challenge Resolutions of South Carolina American Legion

The National Association for the Advancement of Colored People through its chairman, Mary White Ovington, has issued a statement challenging a resolution of the American Legion of South Carolina which stated that the association's activities would tend to cause friction between the races.

The statement, which asserts that colored soldiers from South Carolina outnumbered white and that the percentage of illiteracy among the colored troops was less than among the white, is as follows:

I am at a loss to understand your position regarding the work of a body that lays special stress upon securing due process of law rather than mob violence for Negroes whether they live in the north or the south. Our branches,

for whatever states they may operate, voice the sentiment of the educated, law-abiding Negroes who have so recently helped America to achieve victory in the great war. We note, however, that your resolution condemning our activities is from "the American legion of South Carolina representing the white soldier who fought in the recent great war."

We feel that we are right in considering also the opinion of the colored soldiers of South Carolina, who outnumbered the white, particularly in view of the fact that among the colored there was less illiteracy than among their white comrades at arms.

Very truly yours,
(Signed) Mary White Ovington,
Chairman.

Political Delegates To be Demanded

Washington, D. C., Dec. 19.—Information received here at the nation's capital indicates that colored voters in various northern states will ask for a voting representation, as delegates in the next republican national convention. Colored voters in Maryland, it is said, will ask for one or two, according to reports reaching here, and in Chicago, they, the colored voters, have already decided on supporting Attorney Ed Wright for dis-

trict delegate. Ohio, too, which has never had a voting representation in a republican national convention, is expected to ask for at least one district delegate and one delegate-at-large, according to political dope here. This rumored demand on the part of northern colored voters, who heretofore have had to be satisfied with a voteless alternate, as confounding the plans of white politicians and presidential candidates. If northern colored men are successful in securing an equitable number of delegates to the republican national convention, it is anticipated, with the number of colored delegates sure to be sent from southern states that the next republican national convention will have the largest colored delegate representation ever known.

Former President's Son Agrees to go on Howard Univ. Trustees Board

Washington, D. C., Dec. 26.—Dr. Emmett J. Scott, secretary-treasurer of Howard university, announces that Col. Theodore Roosevelt, son of the former president of the United States, has accepted the suggestion of Dr. J. Sataley Durkee, president of Howard university, that his name be proposed for election as a member of the Howard university board of trustees at the meeting of the board to be held in February.

President Roosevelt, in speaking of Howard university some years ago, said, "it is from this institution that are graduated those who will lead and teach their less fortunate fellows. Upon their leading and teaching much depends for their race and their coun-

try. I have a peculiar interest in Howard university because of having seen the effects of their work close at hand." The former president's son has something of the same "peculiar interest in Howard university," and is planning to co-operate in every way possible with the great reconstruction and re-organization program of the university, which has assumed a new leadership and has attained, as has been aptly said, a new conception of her mission, through aiming practically and deliberately at meeting the national demand in race leadership, and thus fulfilling her proper duty and mission as the national institution for the higher and professional education of colored youth.

ATTORNEY GENERAL MAY SAVE SERGEANT CALDWELL

Montgomery, Ala., Dec. 19.—A. Mitchell Palmer, attorney general of the United States, is expected to take a personal hand in the movement before the United States Supreme court to take Edgar Caldwell, soldier of Camp McClellan, condemned to death for the murder of an Annonis street car motor-man, from the jurisdiction of the war department for court-martial. It became known Saturday that Attorney General Palmer became interested in the case while it was before the Alabama Supreme court and that he led a brief insisting that Caldwell had not been given a fair trial and that the war department only surrendered him with the understanding that he was to be tried fairly by the civil court. Attorney General Palmer's efforts availed nothing. The Supreme court of Alabama affirmed the case and he was sentenced to hang Dec. 5. The granting of the writ of probably cause by Judge W. I. Grubb of Birmingham, carried the case to the United States Supreme court and automatically postponed the execution. The war department has said nothing, but it is believed at the proper time it will make a formal demand for the return of Caldwell to the jurisdiction of the war department. Attorneys for Caldwell contend that the war department can take a soldier from the civil authorities even though it surrender him from the jurisdiction of state.

DUDLEY FIELD MALONE SPEAKS "THE AMERICAN CONGO" TO BE DESCRIBED

A massmeeting to rouse public sentiment to the wrongs suffered by the American Negro will be held on the evening of January 5 in Cooper Union on the occasion of the annual meeting in New York City of the National Association for the Advancement of Colored People, it was announced today at the headquarters, 70 Fifth avenue. Dudley Field Malone, former collector of the Port of New York is to be the chief speaker.

Dr. W. E. Du Bois has announced as his subject "The American Congo," a description of conditions in the south rivaling the horrors of the Belgian Congo.

The other speakers announced for the meeting are John Haynes Holmes and M. H. Gassaway, who was threatened with assassination in Anderson, South Carolina, because of his connection with the local branch of the National Association for the Advancement of Colored People.

The evening massmeeting is to be preceded by a business meeting at 2 p. m. at the Sage foundation building.

Baltimore Segregation Law is turned down

City Ordinances to Restrict Privileges of Colored People Declared Unconstitutional.

(By Frank J. Brown in Pittsburg Courier.)

Baltimore, Md., Dec. 19.—The race people of Baltimore have made such rapid strides in the way of accumulating property—valuable property—that the whites have become afraid that their "sacred" residential section will be invaded, in order to stop the Negroes in their quest for land and to keep them out of the exclusive residential section of the whites, a city segregation law was drawn up, which would have had it not justly been declared unconstitutional, conned our people to the undesirable parts of the city, where the environment for the rearing of children would be anything but pleasant.

Since they failed to segregate the people by law, a neighborhood segregation provision, taking in more than 300 residents of Baltimore's finest residential section, has been framed and the instrument in the nature of an agreement has been filed at the record's office.

The area taken in a large section of the northwest and is one that has been threatened by Negro invasions since the city segregation law was declared void. The agreement with the owner's guarantee against the "sale of the properties in the prescribed district to people of African descent."

The agreement, which will be followed by similar pacts in other localities, is hoped by the whites to be effective, but in order to counteract this, the colored business men of Baltimore have organized themselves into a real estate company whose sole purpose is to purchase residences in this so-called "heaven." If through no other means than disinterested white men who will present themselves as the purchaser for this colored real estate concern, who would, in turn, offer them at the disposal of law-abiding race people.

MORE NEGRO DEPUTY SHERIFFS APPOINTED

St. Louis, Dec. 19.—R. W. Kent of the Kent Auto Delivery company and Henry Burke, were appointed deputy sheriffs by Hon. George P. Weinbrenner, present sheriff of this city. This makes four Negroes that have been appointed by Mr. Weinbrenner, he having appointed two when he entered office three years ago. R. W. Kent and Henry Burke were appointed deputy sheriffs Dec. 1.

NEW FILM OUT SOON.

Chicago, Dec. 19.—Oscar Mischauex's wonderful new picture, "Within Our Gates," which will undoubtedly rival any paramount picture ever produced is now before the Chicago board of censors.

Mr. Mischauex is the producer of "The Homesteader" an unusual picture which developed nationwide popularity. The new picture deals with the present unrest of the races in America, showing things as they exist, and suggests a remedy. A beautiful romance is carried throughout the picture.

DISCHARGE GIRLS

Washington, D. C., Dec. 19.—Woodward and Lathrop, Palais Royal, Hahn, Kann, Garfinkle and Goldberg, all large department stores here have discharged all colored girls taken on to meet the war rush. Reason was given that \$16.50 per week was too high a wage, and white people found themselves unable to employ domestics.

PROGRESS IN NEGRO EDUCATION.

A general increase in the interest in Negro education in the southern states is shown in the encouraging growth in the number of new, modern, and well-equipped school buildings now appearing in southern cities; in the remarkable number of new, sanitary, and well appointed schoolhouses in the country districts that have been built in recent years, especially in Louisiana; in the growing interest in better-trained teachers, as is evidenced by the surprisingly large number of summer schools and teachers' institutes conducted for colored teachers this year; in the tendency here and there to increase teachers' salaries and to lengthen school terms; and in the evident intention, especially illustrated in North Carolina, to provide high schools for Negro youth at public expense, and as has been shown in the exceptional growth of county training schools for Negro youth in the rural districts. These improvements have come, not only through public initiative, but also through the hearty co-operation and financial assistance of the colored patrons in all sections of the south. It is desirable that such helpful efforts be continued till ample provision for the education of all colored children at public expense shall have been made.—Southern Workman.

Howard University Wants Million and Half Dollars, Freedmen's Hospital Treated 9,000 Patients Last Year.

Washington, D. C., Dec. 19.—Howard university will get new buildings costing a million and a half dollars, if congress allows the request of the department of interior for a larger appropriation for the university building program. Medical buildings costing \$370,000 and a university hall with organ costing \$200,000 are the largest items hospital each day was 170, and that on the list. Freedmen's hospital is asking for new buildings costing \$140,000. The report of President J. Stanley Durkee filed with the secretary of the interior shows that 1,360 students attended the university last year, and that 146 graduated. War conditions were responsible for this small enrollment.

The cost of running the university last year was \$219,000 of which amount, \$117,000 was appropriated by congress. The university has a small endowment of \$405,000 and the total value of the institution is \$1,851,000.

Freedmen's Hospital.

The report of Dr. W. A. Warfield, surgeon-in-chief of Freedmen's hospital submitted to the interior department at the same time shows that 4,070 patients were admitted to the hospital last year, and 5,335 were treated in the public dispensaries. Other statistics show that 1,940 surgical operations were performed, that 26,040 prescriptions were compounded, that the average cost of keeping a patient was \$1.86 per day, that the average number of patients in the there were only 350 deaths from all causes.

For maintenance, the hospital received from congress and the District of Columbia last year \$110,000 and from pay patients \$17,878. The nurses' training school had 140 applications for positions and nineteen young women graduated as trained nurses in June, 1919.

Circular Letters Pouring Into Washington From All Sections of the Country.
Washington, Dec. 19.—Protests are pouring in to congress from colored employes on the railroads against the Anderson amendment to the Esch railroad bill. This amendment, which was passed

by the house on Nov. 14 after a day of debate, substitutes a provision in the bill which would have made the property of unions liable for damages caused common carriers by strikes.

The Anderson amendment specifically names the four railway brotherhoods and the international and national unions for representation on the adjustment boards, thus leaving the more than 100,000 colored employes of the railroads without a voice. Representatives of the colored employes claim that this is an unfair discrimination against them and point to the fact that the unions have been hostile to them at all times. They claim they may lose their jobs under the amendment.

Their protest is made in a circular letter, as follows:

"In the interest of a square deal to colored American citizens employed in railway service, I petition you to eliminate the Anderson amendment to the railway bill (H. R. 10453) and to incorporate the original language and provisions of the bill.

"Not to make this change will grant an unfair and unconstitutional monopoly to the four big brotherhoods and the fourteen international and national unions of the American Federation of Labor, as none of these unions receive or accept in full membership natural American citizens of Negro race.

"The contracts and agreements of said unions restrict the right to work in railway service to white men only, and if extensively executed will mean the complete elimination of Negroes from railway service.

"The adjustment boards as created by the Anderson amendment are not absolutely representative of the employes. We petition for the above named substitution in order that they might be really and justly representative."

As porters, trackwalkers, cooks, waiters, etc., thousands of colored men are employed on the railroads. Then there are a few thousands employed as brakemen and firemen in the south.

A big strike of union railroad employes in Georgia in 1906 caused many whites to get places formerly held by Negroes. Those that remained were paid a less wage than the white union employes. During the war a large number of colored men came from the south to take the places vacated by foreigners and other whites. The outcome of the protests is being watched as congress is republican and the administration controls the railroads.

SIXTEEN BYSTANDER—DEC 19 19

Jackson, Miss., Dec. 19.—Evidence of the progress of colored people in Mississippi, especially along educational lines is found in the fact that Mound Bayou, a settlement owned and controlled entirely by colored people, has just voted the issuance of \$100,000 in bonds for the erection of a school. It will be for teacher training, and vocational training purposes. It will be the largest institution of its kind in the south.

According to Bura Hilburn, state supervisor of Colored schools, upward of \$300,000 will be spent for schools before the close of the present year. The State Board of Education is lending every possible aid to this development, and employs a Colored supervisor of schools as well as Mr. Hilburn.

Bel Air, Md., Dec. 19.—Clarence Cothron of Florida, a 20-year-old white youth, was found guilty here today of murdering John T. Weldon, a negro chauffeur, who was driving Cothron and his wife, 18 years old, from Philadelphia to Baltimore last July. Robbery was the motive of the crime. The jury returned a verdict of "murder in the first degree without capital punishment," which carries with it life imprisonment.

Weldon was killed near Charlestown Md., July 7. Mrs. Cothron testifying that her husband shot him to get possession of his jewels.

INTERCHURCH WORLD MOVEMENT.

The Interchurch World Movement has inaugurated an ambitious program, which if carried out in the spirit of real Christianity, should do much for bettering world conditions and bringing about more brotherly relations between diverse elements of the population.

In seeking the active co-operation of the colored people, the way is opened to bring about the social implication of the gospel. Many of the conditions which affect a vast element of the population, can be remedied by those who know several conditions and can emphasize the necessity for following the teachings of Christ.

Child labor, general vice and abuses in business and political life could not have been so prevalent had the church

taken a militant stand against, and not temporized. The discrimination which the colored people of this country suffer may have passed in the main had not the church seemed blind to the teachings of Jesus Christ and been afraid to lift its voice in righteous protest. If the Interchurch World Movement is to bring about Christian democracy and make the teachings of the gospel the guide for all men who profess to be Christian then it is a most welcome aid in helping to solve the many perplexing problems now confronting the nation and the world. The true spirit of Christianity must prevail if peace and contentment are to exist.

A RARE VIRTUE.

Gratitude is a rare virtue. The word "rare" is used in the double sense of "uncommon," not frequent, and also "unusually excellent, valuable to a degree seldom found." Few people are as grateful as they should be. Yet gratitude is one of the finest traits of character we can possess.

Gratitude does not seem to be inherent or instinctive in the race. It is not naturally manifested by little children or barbarians. It is one of the fruits of the highest civilization. Children only learn it through long-continued and vigorous discipline.

Is it not this which gives them their supreme value? What costs little is usually worth while. We prize that which we purchase through sweat and blood.

Be that as it may of virtues in general, beyond controversy it is true of the virtue of gratitude. It is a flower

whose seed must be planted in well-prepared soil in the garden of the soul. It demand constant and pains-taking care in its culture.

First, gratitude means the recognition of benefits received. Some people seem blind to their blessing. Apparently they cannot see that they are the constant recipients of splendid gifts. They must be shown their obligations to God and others.

THE CHRISTMAS PARLEY.
Lan' sakes me, Christmas is here; And my presents ain't no near Of being ready than before, Christmas 'bout ready to step in de door.

I made up my mind months ago, Things wout be this way no more; I'd buy my things up, piece by piece And pack 'em away in that old valise.

But times ain't like they used to be When, we'd have a big Christmas tree; We'd tote our presents jest for fun, To show our neighbor what we'd done.

When you jest sit and try to 'pare The past things with the present rare, It sets your brain in a mighty whirl, And wonder if this is de same ole world.

But chilluns, stop you thinkin for a minute, Then look back on the war, 'en who was in it, Who sit on Christmas in the trenches, An et their mite on frozen benches.

So now den, I'm satisfied you all That they's back home wid you and me; Dog-gone the Christmas presents pop Let's all give a (one, two, three) "hop."

COMMUNITY SERVICE CONVENTION

The community service convention held in Chicago Dec. 8, 9, and 10 was a most wonderful convention. Workers from Boston, New York and as far west as Denver, Col., and as far south as Louisville, Ky., were in attendance. It was indeed a pleasure to see so many of the best of our race representing community service from the different cities of the United States, the majority of the workers being former captains, lieutenants, army Y M. C. A. secretaries and hostess house workers.

The work that is being done is something marvelous, communities all over the United States are getting together, Methodist, Baptist, Congregational and all other religious bodies are coming together for the good of the community. Masons, Odd Fellows, Elks and all other fraternal organizations are joining

hands for the one great cause, community service.

The Christian believer and the non-believer, the rich and poor, the colored and white are all able to meet upon the same broad platform and to work in unison for the betterment of the community.

The reports from the different delegates were most gratifying and plainly showed that public opinion in the United States was fast drifting toward the fatherhood of God and the brotherhood of man.

In the large cities such as Chicago, Philadelphia etc., block organizations are being formed. A block leader is chosen and the residents of the block are formed into a leisure time organization.

In other cities, community theaters, community sings and other programs are being carried out. Always keeping community service and community spirit foremost.

OBITUARY.

Rev. J. W. Bowles passed away Dec. 1 at his home in Waterloo after an illness of nine days. Rev. Bowles was born in Virginia coming here thirty-two years ago and made his home with his sister, Mrs. H. T. Randolph of Hiteman. He was united in marriage April 6, 1909 to Miss Genevieve Bell of Des Moines, who with one small daughter, Helen, survive him.

He also leaves four sisters and two brothers, Mrs. H. T. Randolph of Hiteman, Mr. John Bowles of New York; two nieces, Mrs. Bettie Dowton and Mrs. Webster of Waterloo. The services were conducted by the Rev. S. Bates of the Maple Street Baptist church of Des Moines assisted by the Rev. Knott of Clinton and Rev. Broyles, Minnesota. Rev. Boyd and Rev. Smith of Waterloo, and Mrs. E. A. Brown of Cedar Rapids sang "Jesus Knows." At the time of his death Rev. Bowles was pastor of the Antioch Baptist church of this place and his death came as a shock to most of us. We all greatly regret the passing of our pastor whose five years of hard labor has been so useful in the development of our church. Blessed are the dead who die in the Lord. How fitting to close a long busy and useful life, so permit this church that helped to place his body in his earthly resting place to express to the widow and little daughter our words of sympathy as the history of his good deeds will forever remain with us.

Those who attended the funeral from out of town were: Mrs. H. T. Randolph, Mrs. George Lewis, and Mrs. S. Bowles of Hiteman, Mrs. Jessie Bell Davis, Mrs. Alice Bell Franklin and Rev. S. Bates of Des Moines; Rev. and Mrs. H. I. Handy of Mt. Pleasant, Rev. F. J. Knott of Clinton, Mrs. W. A. Brown of Cedar Rapids and Rev. R. A. Broyles of Minneapolis.

A Remarkable Figure

IT'S the magic figure 8 movement of the 1900 Cataract Electric Washer that makes it the perfect washing machine. The hot sudsy water swirling through the clothes in a figure 8 motion, is forced through them four times as often as in the ordinary washer!

Then there's the swinging reversible wringer—moves from washer to rinse water, then to blue water, and then to clothes basket without shifting the washer one inch!

No parts to rub against the clothes, and cause wear and tear! No heavy cylinders to take out and clean!

A 1900 Cataract Washer means a saving in time, money and clothes—in less than 10 minutes your clothes are clean and spotless—no laundry bills—no rubbing on a wash board with the resulting wear on the clothes. And it costs less than 2c an hour to operate!

Our Special Offer

We will give you an opportunity to try out the 1900 Cataract Washer before you buy it. We will deliver one right to your home. After you have seen what it will do, you may start paying for it on terms to suit your convenience. If you are not satisfied, you may send it back.

Southern Congressman Would Muzzle the Colored Press

MOBS COULD LYNCH
South Carolina Representative Introduces Measure to Stop Agitation for Equal Rights. But Newspapers Could Not Advise Citizens to Protest Themselves.

Washington, Dec. 19.—A bill has been introduced into congress, which if it becomes a law, may be used by whites opposed to the Negro enjoying every right which other classes of Americans have to deny the use of the mails to colored publications advocating a square deal for the race.

The sponsor of the measure is Representative Byrnes, who hails from South Carolina, a state which has disfranchised its Negro citizens. Its avowed purpose is to halt "Red" propaganda and contention on the part of the colored people that disfranchisement laws be abrogated and "Jim Crow" cars be abolished. It would hit at propaganda for radical treatment of the lynching evil.

Congressman Byrnes would make it unlawful for any person "to advocate or advise the overthrow, or to write or knowingly print, publish, barter sell, or distribute any document, book, circular, paper, journal, picture, or other writ-

ten or printed communication, in or by which there is advised the overthrow, by force or violence, or by physical injury to person or party of the government of the United States."

He would also make it unlawful "to advocate the overthrow by force or violence of all government" and also "to advise or advocate a change in the form of government of the United States, or resistance to the authority thereof force or by violence or by physical injury to person or property or by force by violence to prevent hinder delay the execution of any laws of the United States."

Flags, banners or emblems advocating the same would be prohibited at any public or private gathering. The mails would be closed to all things described in the bill.

The dangerous part of the measure would be the granting of the legal right to whites opposed to the Negro to invoke the proposed law whenever colored people protested against prejudicial conditions and demanded amelioration of the same. It would in a measure give federal sanction to the south in its scheme of denying equal rights to the Negro.

Although Mr. White has the distinction of having four positions in the past twelve years. Each change has been for the betterment in general. The position not mentioned above was the Liquid Carbonic company, Pittsburgh, Pa.

Mr. White has proved himself to be a worthy asset to the community. He has held several responsible positions and resigned as shipping clerk for the Portage Rubber company Nov. 30 where he has been employed for the past 18 months to accept a position as stock and shipping clerk for the Mason Tire & Rubber company, Twelfth and Grand avenue. The company expects to send him to Kent, Ohio, about Jan. 1 for 10 days instruction.

SIoux CITY ITEMS. (Special to Bystander.) Born, Wednesday, Nov. 26, to Mr. and Mrs. Andrew Hubbard, 1404 Hamilton street, Sioux City, Iowa, a son. The little babe has been named Lawrence Drew. Mother and babe are doing nicely.

To Club Workers. I extend to all club women of the state greetings:

May the year 1920 be the most pleasant and profitable year in the history of the Iowa Federation.

With only five months until our annual meeting, let us enter the work with awakened interest with a determination to make Iowa one of the best club states in America.

Real club work is strenuous. It requires much energy and enthusiasm. It takes the club woman into all activities of the community of which she is a part.

It requires much time, interest unabated, careful study of outline work planned by heads of departments to glean from them their real value.

Not only meeting your club regularly but bringing into the meeting an enthusiastic spirit, brimming over with timely and helpful suggestions.

Keeping in touch with all advanced ideas and plans for progress, putting plans into practical use whenever possible.

All requiring much reading, as well as social contact.

Let all club women realize that her club can not do the worth while things, can not accomplish the things planned by national and state leaders unless she is not only in her place at each meeting but shouldering her share of the responsibilities. Giving to the club her very best.

"Thrift work" that is being urged put into practical use in every American home. Our annual meeting only a few months ahead, when we are expecting funds available for all indebtedness of the year. Minute money for the incoming club year in the hands of treasurer and a surplus for emergencies, also our N. A. C. P. convening in 1920. All this bespeaks very busy hours for club women. There can be no complaint of "nothing to do."

Minutes are ready for distribution. Copies for Des Moines may be obtained through the club president at the office of the publisher, Mr. R. E. Patton, 782 West Tenth street, saving the expense of the secretary returning them to Des Moines. Arrangements have been made to that effect.

Letter heads will be placed with corresponding secretary, Miss T. Adams, 324 West Tenth street, Davenport, Iowa.

When new officers are elected please send me their addresses.

Allow me at this time to express my appreciation of the many letters that have reached my desk from club presidents, heads of departments, and many club women. Truly they have been an inspiration.

Yours in the work. Martha F. White, Pres. I. F.
