TO OPEN ELECTRIC SHOP

Monday has been set for the opening date of probably the first Negro-owned electric and radio shop in the state, according to John H. Kelley, Jr., sole proprietor of the business.

Washington, D. C., Nov. 7.—Declaring that the election of Herbert Hoover to the presidency ushered in a new era in the progress and advancement of the Negro.

"Whatever we have been able to accomplish in winning votes for Hoover and Curtis in this campaign has been the result of the fine team work and loyal spirit of my associate workers in the campaign.

"Our campaign was pitched on a high plane and we fought our battles in the open without malice and free from mudslinging. There is no cause for rancor or bitterness anywhere.

"The elevation of Herbert Hoover to the Presidency of the United States means a continuation of those policies which have brought opportunity and plenty to us as a group and I firmly believe ushers in a new era of civic growth and opportunity for the Negro.

THE ELECTION

Rev. P. M. Lewis, an A. M. E. minister at Council Bluffs, while making a political speech during the campaign said, "I believe Hoover will be elected, for I still refuse to believe that the majority of the American people are hoodlums." Every time a moral issue has been raised in a political campaign the people have in their final analysis voted right.

The theory that races follow their leaders in these campaigns right or wrong, got a setback Tuesday. Voters, whether Negroes or Jews, Swedes or Germans will be found on the side supporting the issue of most importance to the masses; the action of some of our good friends and contemporaries to the contrary notwithstanding.

While Hoover broke the solid South, it was Smith's liabilities rather than Hoover's assets which did it. Say what you will or may but the democratic nominee's wet stand and religion—however much we regret to state the latter—were the telling blows.

The large majority given Hoover in Iowa over Smith does not mean that the state has abandoned its fight for farm relief, but on the contrary shows that the voters concluded that their chances were better in the hands of Hoover than Smith.

Judge Harrison, running as an independent candidate for congress in Chicago, made Oscar DePriest's margin over his democratic opponent uncomfortably close. Sounds strange for Chicago politics where it is the style to dispose of hostile candidates in other ways than the ballot. The average fellow who runs on an independent ticket is usually crazy or has overestimated his popularity.

Al Smith says, "I am out of politics." He was certainly placed there by an overwhelming vote.

TIME TO COMPLAIN

During the campaign Negroes made some bitter attacks on the republican party. Most of them were true. It is fine that a majority of the level-headed Negro leaders did not allow the democratic campaign chest to drive them from the G. O. P. On the other hand these Negroes stayed with the party, helped make a sweeping victory and are now in a position of advantage to demand that conditions of which we complain be rectified.

It is fortunate that Dr. John R. Hawkins, chairman of the Negro voters' division of the national committee, did not seek the job for the cash, and we don't believe he is looking for a job. His position is ideal to demand a better deal at the hands of the Hoover administration. And right here we must not and will not have miracles performed, but conditions can be made better. It is up to you, Dr. Hawkins, and you will be watched pretty carefully.

Weekly Health Talks

By Dr. Hubert H. London

Pneumonia Prevention

How are we going to keep from catching pneumonia this winter? Not a pleasant thing to anticipate, now is it? Most of us are in such good health all the time that to bring up such an idea is almost an absurdity. Perhaps it is better that we do not consider such a possibility, I do not know. Still there remain the unfortunate few who will contract it whether or not and for these no doubt a few (and as many as can be thought of) preventive measures will not be considered amiss. The general health, which means all of the organs of the body working in harmony, conserved by regular habits of sleeping, eating and hygiene, will be the most important preventive measure. The thought presented in opposite fashion but with the same meaning, is that in any condition of lowered resistance pneumonia is liable to be the outcome. It follows very frequently the infectious diseases in children, such as measles, diphtheria and malnutrition, so the preventive in these cases is the prevention of the disease which pneumonia follows and the measures now in vogue for the prevention of the above named diseases. Kidney diseases and diabetes in grown-ups must receive proper attention as lowered resistance from these causes may allow the germ of pneumonia to take hold. Pneumonia may follow rheumatic fever, typhoid, small pox, tonsillitis, and what it does in epidemics of influenza needs no repetition, I'm sure. The teeth should be put in good condition and the tonsils removed if diseased. Wettings and chills should be avoided and those who have had pneumonia already should be very careful in their hygiene seeing to it that the general health is as good as it can possibly be, avoiding any and every circumstance which could possibly make it otherwise.

NEGRO MORTALITY OUTRAGEOUSLY HIGH SAYS MEDICAL MAGAZINE

New York, Nov. 8. (CNS)—There is a need for medical missionary movement in the United States, declares American Medicine. "The mortality rate of the colored population of the United States, is outrageously high in comparison with that of the white population. In the cities in the registration States, the mortality rate for the whites was 12.2 as compared with 23.5 for the colored. This is a sharp contrast with the figures of the rural parts of the registration States, wherein the mortality rate for the white was 10 and the colored 15.2. The dysgenic factors at present existent in cities for the colored people is further exemplified in the mortality rates in registration cities in the non-registration States, where the white mortality was 13 and the colored 23.4."

ATTENTION, NEGRO BAPTISTS

The 10th Quarterly meeting of the Inspirational Convention, Central District, Iowa and South Dakota Baptist Association held its session with the Mt. Carmel church, Waterloo, Nov. 1-3. In spite of the heavy rain the business of the convention made its way into the history.

Rev. Day, pastor of the Antioch Baptist church, paid the delegates a brief visit and kindly informed the delegates that his church had voted not to affiliate with the convention, but he hoped the convention would succeed. He also informed the delegates that the executive committee had completed its budget, but he did not say he hoped that he would affiliate with the committee. "How amiable are Thy Courts, O Lord" and "He That Would Be Great Among You, Let him be servant of all" are splendid passages over which the members of our convention are urged to meditate. The difference is that it is easy to get non-affiliation, and difficult to get affiliation and the latter is what we want. If Christianity fails under any tests, it simply means that Christianity is too weak to withstand the attacks of present day religions. The advancement of our convention has not been as rapid as it could have been had we been able to get the cooperation of all the churches in our district; however, we realize that simple things grow complex when applied to human minds—diversified in interest, knowledge or union. Our watchword for the ensuing quarter is "Be strong and courageous", and our slogan "On to Manly". We passed our Waterloo without meeting it. So we hope to hear the "little man" with brains and big heart in his educational sermon at Manly. Brother White wishes to speak on behalf of the convention and express deep appreciation to the Rev. M. Patten and his good folks for the manner in which they received our delegation and the high class service rendered during our stay in their city.

KU KLUXERS OUT FOR MEMBERSHIP IN JUNIOR BRANCH

New York, Nov. 8. (C.N.S.)—The Ku Klux Klan is with us again. It has initiated a campaign to secure members for its "junior" branch among Sunday School children.

S. S. Teachers Start Move

An instance of this was furnished by a young boy who said he was approached by his Sunday School teacher in the Baptist Temple, Third Ave. and Schermerhorn Street, Brooklyn, and an application blank and propaganda leaflet were given him. The name of the teacher is withheld because it would help to identify the boy.

The application for membership is entitled "Application for Membership Junior Ku Klux Klan," an oblique containing space for name, address, occupation, Sunday school, parents' names, parents' religious affiliations, and signature. It has above a paragraph reading as follows: "I wish to state, on my honor, that I am a native-born, white protestant, gentle, American boy and I believe in the tenets and principles of the Knights of the Ku Klux Klan, and that if elected to membership I will strive to so live that my life will be an example to Americans everywhere; furthermore that my parents and guardian have consented to this application."

Lindbergh Belongs

The lad reports that he was told that Lindbergh is a member of the Klan and that all boys who signed up would be introduced to Dazzy Vance, star pitcher of the Brooklyn Nationals, who was described as in sympathy with the movement.

The Klan is determined in its fight against the working class, the Negro, Catholic, Jew and foreign-born, to utilize any means by which their aims can be accomplished. This is their latest stunt.

Louisville Adds New Institution

Louisville, Ky., Nov. 9.—Three important enterprises of interracial significance are now nearing consummation in this city. Ground has just been broken for the new Grace Presbyterian church and community house, for the construction of which the people of Louisville recently subscribed \$400,000. The new plant will house the community work that has been carried on so successfully for many years under the direction of Dr. John Little. It will contain auditorium, recreation hall, class rooms, gymnasium and public baths.

Raise \$65,000 for Church

Another important interracial achievement is the successful completion of a campaign for \$65,000 in behalf of the Plymouth Congregational church. Rev. E. H. Harris, pastor, is in the case of the Presbyterian community house, the necessary funds were raised by a committee of white citizens, representing practically every denomination in the city. Plans are under way to break ground for the new building on Thanksgiving. These two missions will minister to two important centers of Negro life in the city, East and West.

Home for Negro Children

A handsome new county home for the care of dependent colored boys and girls will be opened in January. In a letter to the Interracial committee, which has been working for this institution, H. V. Bastin, Superintendent of the Children's Home, says: "We hope to be able to care for fifty girls and a hundred boys with the new plant, which is being built, however, with a view to an ultimate capacity of twice that number."

Unappreciated Guest

Ralph, three years old, was spending the day with his aunt. Thinking a custard would appeal to him, she inquired if he liked them, at which he answered: "Oh, my, yes." However, upon being served, it fell short of his expectations. He ate a little and, passing it to his aunt, said: "You can have it, Aunt Mera. I am so full, and if you want some water to wash it down, here's my glass."

Famous Tournament

The originator of the idea of the tournament of roses to Phandens was the late Prof. Charles Frederick Holder. The first tournament was held January 1, 1890, and it has been held the first of January ever since.

Editor Must Never Err

When a plumber makes a mistake, he charges twice for it. When a lawyer makes a mistake, it is just what he wanted, because he has a chance to try the case all over again. When a carpenter makes a mistake, it's just what he expected. When a doctor makes a mistake, he buries it. When a judge makes a mistake, it becomes the law of the land. When a preacher makes a mistake, nobody knows the difference. But when the editor makes a mistake—good-night!—The Outlook.

On Building

He that alters an old house to tied as a translator to the original, and is confined to the fancy of the first builder. Such a man were wiser to pluck down good old building, to erect, per chance, worse new. But those that raise a new house from the ground are blameworthy if they make it not handsome, seeing to them method and confusion are both at a rate.—Thomas Fuller (1702)

Odd Monkey Specimen

One of the most interesting specimens in the world zoos was the monkey that didn't have a tail, in Australia. He was the most human like of all Old-world monkeys on exhibition. He did not have even the vestige of a rudimentary tail and his cry was a single wail, singularly like the cry of a child. He was all black except for a white frontal band over his eyes.

The Big Issue

After all, the big issue, this year as always, is a continuance of the prosperous conditions which have made the United States the envy and the marvel of the world.—Milwaukee Sentinel.

Posodas

The nine-day celebration in Mexico just before Christmas is called the "Posodas." It is a combined Christian and Aztec year-end holiday. The Aztecs originally celebrated December 10 to 21, and the Christians December 22 to 24. Being unable to suppress each other, the two tribes finally compromised and extended the Posodas to include both festivals.

As I am certain many worthy people throughout the country have had the same sad experience that befell me about 16 years ago. I felt it my duty to make public certain facts in their behalf. For 14 years I labored under the impression that I would eventually see him, my eyesight was gradually leaving me. I consulted some of the best doctors in both Sweden and Germany, but their treatments availed nothing. Since then I was fitted with glasses by some of the most noted eye specialists in this country, but with the same unsatisfactory results. Not only did my sight grow dimmer at each change of glasses, but the glasses brought on headaches which was so unbearable that I could not stand the light and often had to give up work altogether. For 8 years I had to use a strong hand magnifying glass in order to read ordinary newspapers. Two years ago I received through the mail a circular published by Lew Arntz, Doctor of Optics. In looking through the several testimonials from people I knew who had been afflicted 16 years and whose vision had been restored by using special ground glasses prescribed by Lew Arntz, I at once went to see him to have my eyes tested. He informed me I had a bad case of astigmatism which he assured me could be relieved by the use of properly fitted glasses. I could not help but laugh at that assertion and looked upon it as only a trade talk, as I should have been well pleased that time if only half vision could have been brought out, as I had previously consulted and had my eyes examined by some very noted specialists who informed me that my sight would never be perfect and I was resigning myself gradually going blind, but in the hope that Lew Arntz could help me some, I ordered the glasses, and to my surprise, when I first put them on, vision was at once fully restored. I could discern small objects which I had not seen for years, read the finest print perfectly and could see clearly at a distance without any inconvenience with the same glasses. This is now over 2 years ago and in that time I have almost been entirely free from headaches. I think Lew Arntz is a man of great abilities, an optician who does more good for eyesight sufferers than any other man in the state of Iowa. Respectfully, C. J. HEDLUND 1433 E. Vine St.
