Cry of "Fire" at Detroit Ball Park Ends in Tragedies

DETROIT, Mich., July 11.—One hundred and three persons were injured, four seriously, in a panic which followed a fire under the main grand stand at Mack Park, semi-pro baseball field, Sunday afternoon.

A cry of "fire" started the panic and in the mad rush to get out of the stand many men, women and children were trampled while others were hurt in jumping or being pushed over the fence into the street.

"People just tumbled over the fence," one passerby remarked. "The cause of the fire has not been definitely determined. Park officials denied any gasoline had been placed under the 15-year-old wooden stands. Preparations had been made to sprinkle a small amount of gasoline on the diamond and ignite it to dry it out for a game between the Detroit Stars and the Kansas City Monarchs, National League baseball teams. A sudden shower interrupted the plans."

The stand was immediately behind the home plate and was separated from the field by wire screen. That more were not injured was due to the presence of mind of players of both teams in tearing loose the screen. Many of the 1,500 persons in the stand were pulled over onto the field to safety.

Several of those injured insisted an explosion preceded the fire. One of these, James Robinson, said: "It began with an explosion. There was just one big 'boom' and then fire everywhere. My wife and I were high up in the stand and she was trying to jump. Everyone was pushing and screaming."

Robinson said he jumped over the fence when flames began licking at his back. Most of the injured were taken to city-owned receiving hospital, the wards and corridors of which were jammed by the victims, many of whom had to be placed on temporary cots.

A.M.E. Review Editor, Visits in Des Moines

Dr. J. G. Robinson, editor of the A. M. E. Review and noted evangelist, spent two Sundays with St. Paul A. M. E. church, Des Moines. He preached both Sundays and four times during the week. While here he was the guest of Dr. and Mrs. G. W. Williams. The Reverend seems to have been in excellent health and the best of spirit. He left Sunday night for Chicago, Detroit and Philadelphia, Pa.

The A. M. E. Review is what we call the "cream jug" in the form of literature of the African Methodist Episcopal church. To have been elected editor of that periodical out of a body of more than eight hundred delegates is sufficient introduction.

Gov. Moody Does Not Censor Hoover Tea

AUSTIN, Tex., July 11.—(By A. N. P.)—Governor Dan Moody refused to join hands in roundly criticizing Mrs. Hoover for inviting Mrs. DePriest to attend the now famous White House Tea Party, but declared that he was wholeheartedly opposed to any mingling of the races on a basis of social equality. He also took the occasion to flay Congressman Oscar DePriest for his address delivered at the N. A. A. C. P. convention.

Rev. R. P. Palmer of Michigan is visiting his family here.

DePriest Flays Southern Whites in Ohio Address

Cleveland, O., July 5—Charges of cowardice and hypocrisy were flung by Congressman Oscar DePriest, of Chicago, Monday night at members of the legislatures of southern states which recently passed resolutions censuring Mrs. Herbert Hoover for inviting Mrs. DePriest to a white house reception. Congressman DePriest was speaking before 2,000 persons at a massmeeting of the National Association for the Advancement of Colored People.

"They're just a lot of cowards," the Illinois congressman called the southern legislators. "This is my country and your country. I've been elected to congress the same as any other congressman and I'm going to have the rights of every other congressman—no more and no less—of it in the congressional barber shop or at a white house tea."

DePriest said the criticism of Mrs. Hoover's receiving Mrs. DePriest at the white house was an incident used by southern democratic politicians, seeking to win the solid south back into the democratic party.

However, he added, "all racial prejudice is not confined to any one party or to any one church. They are all tinged with it."

Talks on Prohibition Turning to the subject of prohibition, DePriest said, "the government is preparing to spend millions for enforcement of the eighteenth amendment. A few millions ought to be spent to enforce the thirteenth, fourteenth and fifteenth, which guarantee the Negro his civil and political rights."

I do not propose to vote to appropriate a penny to enforce the eighteenth amendment until similar sums are voted to enforce these other amendments now being violated all through the south."

DePriest said that as a congressman he will pay as much attention to the needs of his white constituents as to those who are black.

"Only in one respect will I insist favoring Negroes and that is my recommendations for appointments to West Point and Annapolis. As long as I am in congress, I'll appoint only Negroes to those two schools, or until some white congressman appoints a Negro."

"I want to thank the democrats of the south for one thing—they were so barbaric they drove my parents to the north. If it hadn't been for that, I wouldn't be in congress today."

"I've been Jim Crowed, segregated, persecuted and I think I know how best the Negro can put a stop to being imposed upon. It is through the ballot, through organization, through fighting eternally for his rights."

Saw Three Lynchings DePriest's reference to "driving his parents to the north," harkened back to his childhood in northern Alabama. There he witnessed the lynching of three Negroes near his home and after that his parents moved to Kansas and later to Chicago.

Plan to Repeat Ethiopia at Justice

Mrs. S. Joe Brown, president of the Des Moines Branch of the N. A. A. C. P., announces that her group request the play "Ethiopia at the Bar of Justice", America's greatest Negro Pageant, will be staged at the High School in Osceola, Iowa, on Saturday evening, August 17. All persons who have registered to assist with this production are urged to meet in the office of Mrs. Brown at 207 Sixth Avenue, Thursday evening, July 18th, at 8:00 o'clock.

Reveals Negro Was Lynched

Charleston, N. C., July 12.—(CNS)—Indisputable evidence that Willie McDaniel, twenty-three-year-old Negro farm hand, whose body was found back of his home eight miles from the city Sunday morning, came to his death by lynching at the hands of the white plantation owners of this section, was revealed this afternoon by the investigation of a newspaper reporter, who discovered the tree where he was hung.

McDaniel and his wife were living on the property of Mell Grier, white farmer, for whom they were working a crop on shares. Other tenants, who have been thrown into a panic by the death of the young Negro, say McDaniel and Grier quarrelled Saturday afternoon over the price of blackberries that the Negro's wife picked for the landowner, and that Grier threatened the Negro with a shotgun.

The body was discovered Sunday morning by a little Negro girl, and upon investigation by the authorities it was learned that death was caused by violent strangulation that broke the neck. The wrists bore evidence of having been bound. However, it was reported the Negro had hanged himself and until this afternoon his death attracted little attention.

Unsatisfied with the reports of the worker's death, a newspaper man this afternoon visited the farm and discovered a path broken through the bushes and underbrush from a place about 150 yards back of the Grier barn to a giant white oak tree.

Climbing a tree, he discovered on a limb of the oak cuts caused possibly by a sliding rope. From the tree to a spot back of the Negro's home, the path where the body was dragged across a wide cotton field could be seen plainly.

AMERICUS, Ga., July 11.—(A. N. P.)—W. D. Arnold, Sr., a white planter, admitted that he had killed one Negro worker and whipped others but denied that he had forced any of them to remain in his employ, and was acquitted of the charges of peonage here Friday when he was tried in the United States District Court for compelling Claude King, a white man, and John Vannover, to work for him on his farm.

Former Colfax Newton Citizens Organize Club

One of the most enjoyable affairs of the holidays was a picnic in honor of the former residents of Colfax and Newton at McHenry park, July 4. About fifty persons participated.

After dinner and while the ice cream and cake were being served an interesting program was rendered. Mrs. Agnes Williams read a paper on education and Mrs. Hazel Gairther read one on ways of life. Both were excellent. Remarks were made by Rev. G. O. Terrell, F. G. Goggins and James James. The surprise feature of the program was an interesting speech by Mr. W. E. Warfield of Chicago, who is one of the five Negro state representatives in the Illinois legislature. His wife, the daughter of Rev. and Mrs. Geo. O. Terrell, also made some pleasing remarks. Mr. Harry Wilson, master of ceremonies, was highly praised for the program. The remainder of the afternoon was spent in games.

The affair proved such a success a permanent organization was formed. Mrs. Beatrice Miller, who sponsored the affair, was elected president; Mrs. Harry Wilson, secretary; John Drew, treasurer. Chairmen appointed were: Mrs. Kittie Early, Mrs. Georgia Goggins, Miss Helen Hudson, Harry Wilson, James James, and Bennie Wellington.

Peons Fear Lynching Hide in Jail

AMERICUS, Ga., July 12, (CNS)—Fearing lynching because they testified against their plantation employer, W. D. Arnold, who had held them in feudal slavery for 2 years, John Vannover, a Negro farm hand, and Claude King, his fellow-worker, were forced to ask to be kept at Athens jail while the district court here was not in session. It was revealed at yesterday's hearings against Arnold, who is charged with keeping one white worker and several Negroes "in a condition of peonage and enforced servitude."

The evidence of Vannover and King will be substantiated by several other witnesses who will testify against Arnold, who is one of the wealthiest farmers in Webster County. The defendants were found not guilty.

The following article appeared in the Chicago Defender last week. We make no claims as to the accuracy of the figures.—Editor's Note.

San Francisco, Cal., July 5.—Atty. S. L. Mash, prominent barrister and citizen of this city, died Monday. He left an estate valued at \$500,000 without making a will. The attorney here was known to have no relatives. A national search for heirs is being instituted and unless they are located, the estate will go to the state of California.

Mr. Mash lived in Des Moines, having left about thirty-four years ago. He is well known to many of the old residents among whom are Mr. Will McGruder, who called the article to our attention, and Mr. A. L. Smith. He practiced law in Des Moines and won an enviable reputation as a criminal lawyer. Several of his relatives resided here.

Man and Wife Jailed; Disrobed in Automobile

ATLANTIC CITY, N. J., July 11.—(A.N.P.)—Daniel Dunbar, and his wife, Alberta, of New Castle, Del., were committed to jail Thursday, charged with undressing for bathing in their automobile. They were arrested by Patrolman Pike, following complaints from residents along Main avenue, and numerous complaints have reached police headquarters in regards to visitors using their automobiles for bath houses, whose antics with shades drawn can be plainly seen by passersby.

The name of Johnson is recorded in the annals of history as one of the greatest heroes of the World War. Many of his medals are exhibited by the National Museum.

UNTREATED DIABETES

Diabetes does not improve without some supervision in diet or some treatment. A diagnosis of this disease means that the diet should be arranged at once. As far as the treatment is concerned it can be laid down in a few words. A reduction of the amount of food eaten, especially the starchy ones and the use of insulin if it is required and necessary. Some people go years without doing anything to help themselves, allowing this disease to take its own course until the arterial system is affected and the circulation gives way. It has been observed lately that after diabetes has existed in an individual for some time its effects are shown on the arteries even if the disease itself causes no obvious objective or subjective inconvenience. Such a circumstance can not help but add to the already large list of deaths due to heart disease, now known and recognized as the greatest cause of death. Unrecognized diabetes cannot help but add to these statistics as well as untreated diabetes. Every case needs the diet arranged and every one so affected needs every available test so that the disease may be put under favorable control before secondary damage to other organs occurs.

The American Politicians are watching the Hon. Oscar De Priest, M. C. from the first legislative district of Illinois with narrowed eyes; and well they might, for if he is able to organize the fifteen to twenty millions of Negroes under the Stars and Stripes into a political unit functioning under the leadership of a sagacious politician such as he is; the Negro will become a potent factor in American politics.

GIFT SCHOOL PUPILS MARK TO AIM FOR

While attending St. Paul's A. M. E. Church one Sunday morning during the month of June, 1929, the Pastor, Rev. G. W. Williams, made a statement, that the Negro graduate, coming out of Des Moines high schools and universities have no hope of finding at home the work they have prepared for.

He bids well to do much more in the way of organizing the Negro than any other individual of our group, in that all the elements of our people seem to strike a common chord in him. The intellectual militancy of Du Bois, the shrewd sagacity of Kelly Miller, the poised conservatism of Maj. Morton and the ardent hopes of the oppressed multitude all find a balm for their restless spirits in him. He has plumbed the depths and has selected the foundation of self reliance upon which to lay the corner stone of Negro progress.

IOWA CONGRESSMAN OFF

Congressman Thurston of Iowa announced while in Des Moines a few days ago that he was opposed to the Tinkham amendment to the reapportionment bill which was defeated in congress last month and which provided that disfranchised Negroes in the south should not be counted in determining the number of representatives in congress. A similar bill, excluding aliens from the count, was supported by Representative Thurston on the ground that most of the aliens reside in the cities and this would tend to equalize the urban and rural representation in congress.

Like Elijah of old, he stands forth and prophesies that there shall be showers of blessings from the intelligent use of our suffrage. Stop hoping for someone else to do that which we can do for ourselves, and must do if ever we hope to receive our share of the liberty we have helped to establish on this continent.

Next spring we will be in the midst of the municipal elections. Under this commission form of government the Negro vote in this city can be the balance of power in the primaries preceding the general election of our city government. Now is the time to begin our campaign to unite and solidify our vote. We have the promise of Representative De Priest that when he makes his California trip he will give us a date in this city. We intend to solicit the attendance of every Negro within a radius of fifty miles to be present on that occasion. "In union there is strength."

What happened is that the eastern city and southern congressmen did some "log rolling" as a result of which both amendments were defeated. But the Congressman Thurston has no one to line up with—no one to do any log rolling with and for the life of anyone upon what theory should he wish to exclude the aliens from the count and not exclude the Negroes. The congressman's logic is poor and his politics bad and as the result of which he will get nowhere on his proposition.

MORE PREJUDICE THAN CHRISTIANITY HERE, SAYS HEAD OF WASHINGTON GIRLS' SCHOOL

Lynching, Prejudice, "Millstone About Neck of Democracy"

Cleveland, July 5—There is more race prejudice in America than there is Christianity, declared Nannie H. Burroughs, head of the National School for Women and Girls in Washington, D. C., speaking last night before a mass meeting of the National Association for the Advancement of Colored People, now in 20th Anniversary Conference here.

Chicago, Ill.—Every housewife's problem of preparing bacteria-free meat for her family's table, is about to be solved.

After a conference between prosecutors and police, it was decided that the evidence showed that Tapley had gone to the rescue of the girls and had stabbed Dunlap in self-defense. No jury in the world would convict Tapley in the face of the evidence of his heroism, officers said. The hero's wife was murdered nine years ago by a man who attempted to criminally assault her. Her assailant was sentenced to 30 years in the penitentiary.

The girls stated they were driven in a machine to a lonely spot near Floyd monument, overlooking the Mississippi river, by the men about midnight, after dining with them in a downtown cafe. The Kasper girl was pulled out of the machine by Dunlap and Arioso. Wesner remained in the car with the other girl. The girls began to scream for help. Tapley, who had been night-fishing in the river, ran to the scene with his flashlight. "What's going on here?" Tapley asked. "What are you trying to get away with? Don't abuse those girls." Tapley's interference was greeted with an outburst of profanity by the white men, the Kasper girl told the police. Dunlap ran to the car, picked up a club and started toward Tapley. The other two men joined in the attack on the intruder. Tapley warned the men to stop. When Dunlap rushed at Tapley he drew a knife and stabbed the man in the stomach. Dunlap died shortly afterward in a hospital. Dunlap had been convicted of grand larceny; Arioso had been jailed for assault with intent to do great bodily harm, rape, another assault charge and for selling, and Wesner had been sentenced to jail for breaking and entering a store and also held in jail for investigation on other charges.

The Knights of Columbus club, a white organization which annually awards medals for heroic acts in Sioux City, is planning to give Tapley a hero medal for rescuing the girls.

Check Convicts

First of four convicts to be indicted by the county grand jury Fleming was sentenced to two years and Oehme swore in affidavits Jan. 21 that he paid Fleming \$200 after legislation had been enacted by the city council to reimburse Oehme for medical bills incurred as the result of injury.

Dr. Spiesman then ran another test, this time with a pressure cooker, which is really an autoclave adapted to household use. The results with the expensive pressure cooker were exactly the same as those previously obtained with the most expensive autoclave.

Aside from its uses in meat cooking, the pressure cooker, from the housewife's point of view, has many other good features. It is cheap, easily manipulated, and a fuel saver no matter what type of heat is used. It is a time saver, too, especially in slow cooking processes used with beans, meats and cereals.

An interesting sidelight on Dr. Spiesman's experiments is that excreta of patients eating meat prepared with a pressure cooker do not prevent infection with spore-bearing putrefactive bacteria; as is usually the case with meat cooked any other way.

Juries he suffered in desperate struggle with a drug addict in 1922.

The payment, Oehme and his wife charged, was by check. Fleming characterized the story of Oehme as a "lie." He demanded that they produce the check. The following day the check was produced and presented to the grand jury. It bore Fleming's signature. Fleming was indicted Jan. 22. He pleaded not guilty.

Labor Improves Conditions

Labor in its collective efforts has contributed greatly to the maintenance of proper wages and to improved conditions of labor. But collective bargaining alone cannot overcome the forces that make for unemployment. The problem of insurtn, full work all the time is a problem of national concern. Our workers as citizens at the ballot box have a large part in determining our economic policies. — HERBERT HOOVER in his New York speech

SUPPOSE you are today paying 50c a tube for your tooth paste (and there are many very good dentifrices selling today at that price).

Suppose, like most people, you buy about twelve tubes during a year. Now if you knew that you could buy as good a dentifrice as can be made and still save each year the price of 25 loaves of bread or 60 bars of soap or 40 pounds of sugar or a box of fine cigars—could you conscientiously fail to take advantage of such an opportunity?

That is exactly what you do when you buy Listerine Tooth Paste at 25c for a large tube. Figure it out for yourself.

New Air-Mail Service Between United States and Chile Boosts Friendship of Two Countries

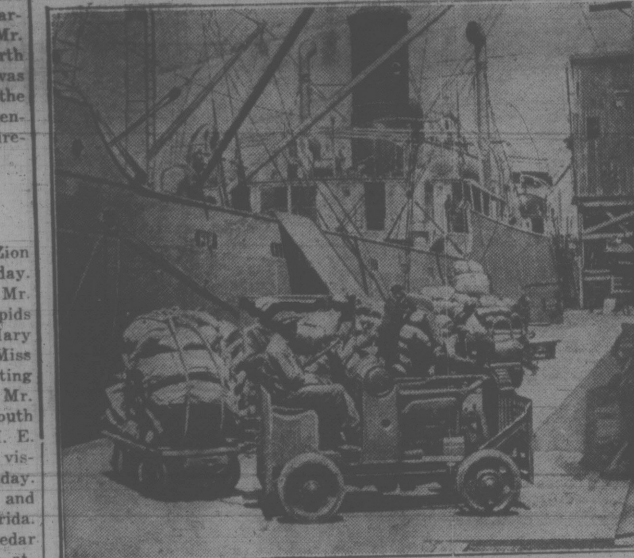

South's Cotton and Other Goods Find Market There While Chilean Nitrate, Copper and Iron Increasingly In Demand Here

THE air-mail service soon to be inaugurated by the United States Post Office Department, through a recent contract with the Pan-American Grace Airways, Inc., between the United States and Chile, will, in the opinion of the Chilean Minister of Finance, Don Pablo Ramirez, bring about a more friendly feeling between the two nations and further extend trade relations.

General view Chilean Nitrate of Soda mining and extracting plant, located in nitrate plains of Northern Chile, said to be the driest spot on earth. In the left foreground, caliche (the nitrate of soda ore) is being sorted from other rock and loaded onto cars for transporting to the extraction plant. At the plant (center) the caliche is crushed and dissolved in hot water to separate the insoluble substances from the nitrate. The solution is placed in large vats, where precipitation and crystallization of the nitrate of soda take place. Trains carrying the finished product to the Coast are observed in the right background. Workers' quarters are shown at the extreme right.

Senor Ramirez is the first cabinet official of the Chilean Government to visit a foreign country during term of office. He came to pay Chile's respects to President Hoover and to confer with American importers relative to extending the sales of nitrate of soda, one of the most valuable natural resources of his country. "Cutting the time from twenty to seven days in mail and perhaps pa-

sonner service between New York and Santiago, Chile, will be a great step forward in bringing us closer to the United States, as well as in establishing a friendlier feeling and in adding to the rapidly-growing developments," he said. To the Negro Organizations of Iowa, the Negroes of Iowa, and Friends of the Negro:

This company is publishing a paper FOR THE NEGROES OF IOWA. It is necessary that THE RACE have A MOUTHPIECE in the shape of a weekly newspaper. CERTAIN ITEMS OF NEWS that would NEVER GET IN THE REGULAR PAPERS are published in THE BYSTANDER for the BENEFIT OF THE NEGRO—current news concerning what is happening among our people, news of the various social, religious and fraternal organizations, also civic and legislative matters of great importance to us.

Ordinarily a newspaper gets its financial support from subscriptions and advertising, but it is a well known fact the proportion of business concerns operated by members of our race is not sufficient to furnish all the advertising needed, so it is necessary that we solicit advertising from the firms of the white man whom the Negro patronizes.

THIS IS A DIFFICULT TASK ON ACCOUNT OF RACE PREJUDICE

Therefore we feel it the duty of the various Negro organizations to put their shoulders to the wheel by raising a stipulated amount each month to help support The Bystander.

If the Negro organizations do this it will solve a problem which has made the regular publication of the paper uncertain for several years, still entail no great sacrifice upon any one person.

NO ORGANIZATION IN IOWA SHOULD TURN THIS REQUEST DOWN WITHOUT MAKING SOME SUBSCRIPTION, however small. This matter will come up at a regular meeting of your body and it is our hope that you attend, giving it your especial support in seeing it adopted.

Any individual who has the interests of the race at heart is urged to subscribe to the financial support of The Bystander.
