Justifiable Cussing?

Macon, Ga., July 25.—There are times when cussing is justifiable and one of those times is when a merchant sells you a green watermelon, according to the decision handed down by Judge Hatcher when Mrs. Clara Johnson was brought before him on charges of having cussed a store-keeper.

The woman testified that the store-keeper had sold her a watermelon and after she had lugged it home, a distance of several blocks, she cut it and over the matter she returned to the store, told the proprietor a few things and was "booked" on charges of using profanity and obscene language.

After listening to the woman's testimony, the judge deliberated a few minutes and declared that the case was one of "justifiable cussing" and acquitted the defendant.

Rumor Regarding Chicago Hotel False

Chicago, July 26 (A. N. P.)—Unfounded rumors to the effect that the Vincennes Hotel, which ranks as the largest and finest hotel owned by colored people, had passed from the hands of its owner, Mrs. Elizabeth Barnett-Lewis, were proven baseless today. "Not only do I still own the Vincennes Hotel," declared Mrs. Lewis, "but I have never even considered disposing of it. I have been busy improving it and making it still more attractive to the traveling public. I cannot understand the pernicious attitude of people who circulate reports of this kind. It is true that I have had offers because the plans for the coming world's fair indicate that we will be close to the center of its activities. But I have not the slightest intention of selling."

The Vincennes Hotel property cost Mrs. Lewis \$200,000. She has owned and operated it for ten years. It has 140 rooms with baths, 36 apartments, employs 32 workers, and ranks as one of the largest enterprises in the national hotel industry.

Porters Lose Lives in Wreck

STRATTON, Colo., July 25.—H. Toler and R. Griggs, both of St. Louis, Mo., Pullman porters on the Chicago, Rock Island and Pacific passenger train bound from St. Louis to Denver, lost their lives here Wednesday when the train plunged through a flood-weakened bridge into the Arroyo River. Ten white passengers were killed. E. J. Perry, white yachtman and inventor of New Bedford, Mass., sole survivor of the Pullman car in which he was riding, was saved by the two unknown porters. "Finally, I attracted the attention of two porters who tied sheets together and pulled me up to the embankment," Perry stated.

Baton Rouge, La., July 26 (A. N. P.)—George Bolden, Jr. trusty at the Angola state penal farm, grew weary of training puppy bloodhounds to pick up trails, and after notifying his companions of the fact calmly walked off the job. Now the puppies' mas and pas are endeavoring to find Bolden. He was serving a life sentence for murder, having been sentenced from Jefferson Parish, November 23, 1896.

A. M. E. Ministers Would Take Support Away From Bryant

Failure of New York St. Luke's Not National

Richmond, Va., July 26 (A. N. P.)—The recently announced failure of the Independent Order of St. Luke's of New York does not in any way affect the Right Worthy Grand Council Independent Order of St. Luke's with headquarters located here, according to announcement made Tuesday by Mrs. Maggie L. Walker, grand secretary-treasurer of the national organization.

The announcement of the failure of the New York order gave rise to belief on the part of many that the Right Worthy Grand Council Independent Order of St. Luke's would be affected and the financial condition of the order threatened. According to the statement issued from the local headquarters this lead is erroneous in its entirety.

The Right Worthy Grand Council Independent Order of St. Luke's, is a national fraternal insurance organization operating in several states. The branch in New York proved to be a progressive group and expressed the desire to enter into various extra-ordinary activities, such as the operation of restaurants, elaborate club houses and apartment buildings. The national organization refused to participate in these activities fearing that speculation on the part of the New York contingent might bring about serious financial trouble to the national body.

The New York order, which is now in the hands of the receiver, was organized as an independent organization and incorporated under separate charter in the State of New York, which permitted them to carry on the activities desired by the directors. For a time the organization flourished and at one time boasted of controlling more than \$300,000 worth of property in the City of New York. The crash which came recently and ended with the organization thrown into the hands of a receiver, has been attributed to bad management and speculation.

ATTORNEY IN ACCIDENT

Toledo, Ohio, July 26 (A. N. P.)—Jesse Heslip, well-known young attorney of this city, was the victim of an automobile accident here last Friday. Mr. Heslip who is reputed to have one of the largest law practices of any colored citizen, has made some very definite plans for its policy of watching over local political and general affairs of the group. The president elected was Mr. C. W. Stafford, Miss A. Williams, vice president, Mr. E. W. Fisher, secretary, Rev. F. C. McCall, chaplain, Mr. T. J. Norris, corresponding secretary, Mrs. S. Olyer, treasurer, Mrs. E. C. Morris, current topic reader.

Nashville, Tenn., July 26—Representing the continued vitriolic attacks on prelates and ministers of the A. M. E. Church by Ira T. Bryant, secretary of the Sunday School Union and manager of the church publishing plant here, the objects of his wrath are beginning to fight back. The business of the publishing house is reported to have taken a sharp drop, many districts having defected their order of Sunday School literature to other publishers. In some instances churches are even purchasing from the M. E. Book Concern at Cincinnati, which is operated by the Methodist Episcopal Church, a white organization with many thousands colored members. These pastors defend their action by claiming that some of the literature issued by Mr. Bryant is unfit to read and pointing out that all Sunday School literature is edited by a general cooperative committee composed of both white and colored editors, using the same subjects on the same date with the same general treatment.

Say Publication "Unfit"
At the Bishop's Council held recently in Denver, a group of ministers from this district introduced a resolution censuring Bryant bitterly. It was adopted, despite a vigorous plea by Mr. Bryant.

Among other things the resolution asked that the Bishops request Governor Henry Horton of Tennessee to appoint an accountant to make an investigation of receipts and expenditures and whether they might be necessary to establish the exact financial status of the Sunday School Union. It further stated that "The Sunday School Union's object is to unite, strengthen, and extend the Sunday School work and to provide ample and suitable literature for the same." "We take the position," the resolution said, "that the 'Allentite' is not suitable literature but to the contrary it is the most blighting and scathing curse with which the church and Sunday school are afflicted. Since this is true, we request an accountant that we may know what a monumental sum of the church's money is being spent on the publishing of literature positively forbidden by the constitution of the church."

The resolution was signed by a number of ministers.

FORUM WATCHING RACIAL AFFAIRS

Los Angeles, Cal., July 26 (A. N. P.)—With the election of new officers for the ensuing year the Los Angeles Forum, 28-year-old organization of colored citizens, has made some very definite plans for its policy of watching over local political and general affairs of the group. The president elected was Mr. C. W. Stafford, Miss A. Williams, vice president, Mr. E. W. Fisher, secretary, Rev. F. C. McCall, chaplain, Mr. T. J. Norris, corresponding secretary, Mrs. S. Olyer, treasurer, Mrs. E. C. Morris, current topic reader.

HOLD WHITE MAN FOR BRUTAL SLAYING

Hazelhurst, Miss., July 26 (A. N. P.)—L. T. Riles, a white man, has been arrested, charged with the murder of Moses Taylor, whose bullet riddled body was found in a cornfield. Taylor had an argument with Riles and had been placed in jail for fighting. Shortly after his release on bond his body was found.

Unappreciative Guest

Ralph, three years old, was spending the day with his aunt. Thinking a custard would appeal to him, she inquired if he liked them, at which he answered: "Oh, my, yes." However, upon being served, it fell short of his expectations. He ate a little and, passing it to his aunt, said: "You can have it, Aunt Myra. I am so full, and if you want some water to wash it down, here's my glass."

Coed Marries Negro Youth At Columbia

New York, July 26, (CNS)—Edith M. Sproul, white, of 115 West 11th Street was married last week to Jerome Sydney Peterson, of 141 West 118th street by Deputy City Clerk Joseph J. McCormick in the municipal chapel.

The bride and her husband are students at the Columbia university of medicine.

That the newly wedded pair will be welcome in the Sproul family was made plain by Albert E. Sproul, the girl's father, a commercial photographer at 9 West 35th Street, who because of racial associations is free from the influence of the ideology of superior and inferior races.

"I don't know Peterson, in fact I have never heard of him before," Sproul said, "but he will be welcome in my home if Edith loved him enough to marry him. She is well educated and has good judgment. She must have given this serious consideration and well aware of what she was doing. She has her own life to live and must live it as she chooses."

At the medical college it was said that Miss Sproul has been absent from her work as a summer student in the pathological laboratories for several days.

NAACP Thanks Neb. Governor for Fast Action

New York, July 26—The action of Attorney-General Sorenson of Nebraska in threatening to call out the militia and declare martial law if necessary to protect the lives and property of the two hundred Negro citizens of North Platte, Neb., who, according to press dispatches were driven from their homes by mobs following the killing of a policeman, was praised here today by the N. A. A. C. P. In a telegram to Mr. Sorenson the Advancement Association offered its aid "in safeguarding the rights under the law of these citizens" and in stopping "the penalizing of two hundred Negroes because of the alleged crime of one of them."

The Association's telegram was signed by James Weldon Johnson, national secretary.

New York, July 26—John D. Rockefeller, Jr., has just renewed his annual contribution of \$500 to the N. A. A. C. P. It was announced here today. In a letter of transmittal of the cheque for that amount Mr. Thomas B. Appleget stated that with the cheque "go our heartiest good wishes for the further success of the work which is being carried on so ably under your direction."

To Hold Anti-lynching Protest in Harlem

New York, July 26—The Inter-racial branch of the International Defense of Harlem, N. Y., is calling an anti-lynching protest meeting Friday at which thousands of white and Negro workers will be represented to discuss aid for the 15 Gastonia strikers in danger of legal lynching when they go on trial July 29th, charged with murder.

The strikers, all members of the National Textile Workers Union, were thrown into jail and charged with first degree murder following a raid on their tent colony by Chief of Police Aderholt, of Gastonia, and his men. The raiders fired into the tents and in the struggle that followed, Joseph Harrison, a striker, was severely wounded and Aderholt fatally injured.

Gets Good Position

CHAS. P. HOWARD

Atty. Chas. P. Howard who left Des Moines this week to become manager of the Chicago office of the National Benefit Life Insurance Co. Howard was a successful lawyer in Des Moines for several years and last year when the National Benefit entered the Iowa field he became state manager.

N.C. Teacher Denounces DePriest

Roper, N. C., July 26—The attack made upon Congressman Oscar De-

Priest of Illinois by J. J. Clemons, principal of a local school, has interpreted as an effort on the part of Clemons to ingratiate himself upon the white folks of this section.

Clemons, who is reported as having said that he preferred to teach school than practice law, although he is a law school graduate, because "his folks" needed to be taught to respect white people, and he might be compelled to embarrass some of his white friends in cross-examination, scored Mr. DePriest's Cleveland address and declared that it did not represent the opinion of the colored people as a whole.

This criticism of the Illinois congressman on the part of the school teacher who was born in the West Indies, has revived reports of other occasions when he sought to please the white people by whom he is "highly respected". One of these reports is concerning an occasion when he fired two of his teachers because they refused to answer white people "Yes sir" and "No sir". At this time he is alleged to have sought the aid of police and threatened to issue warrants for the disrespectful teachers.

While Clemons might be well thought of by a certain group of whites, he is not held in high esteem by members of his own race. He has been publicly denounced and at one time a group of citizens branded him as a traitor to the best interests of the group.

CONTRACTOR KEEPS NEGROES. IGNORES PROTEST OF WHITE

MASONS

Lexington, Ky., July 26—At the University of Kentucky here, a large building is being erected. White masons asked that an all white gang be used, but the contractor insisted on dividing the assignments among workers of both races. The Industrial Relations Department of the National Urban League was so informed through its Lexington correspondent. T. Arnold Hill, director of the Department cites other gains in industry for Negroes during the month of June.

Governor's Quick Action Saves Man From Mob, Lynching

Alice Files Big Suit Against Kip's Father

New York, July 26, (CNS)—Half the broadside that Alice Jones Rhinelander, Negro bride of Kip Rhinelander, is firing at the wealthy Rhinelander clan, went on its way toward Phillip Rhinelander, her father-in-law yesterday. It took the form of a \$500,000 suit for alienation of affections.

The other half of the broadside designed to break up the peace of mind of the Rhinelander family badly shattered by the 1924 wedding of Kip and Alice and the subsequent unsuccessful suit for annulment, has not been touched off yet.

This is the separation action which Alice, the daughter of a New Rochelle back-driver, will file in White Plains supreme court, the scene of her earlier triumph, as soon as Kip begins his divorce action against her in Reno.

Mrs. Rhinelander's attorneys, Clark, Close and Davis, filed the suit yesterday. Summons and complaint for the elder Rhinelander were accepted by his attorneys, Laughlin, Gerard, Bowers and Halpin on July 9. The Rhinelander answer is due July 29.

Alice charges that prior to and since her marriage to Kip, his father at all times "exercised an exerted influence and control over his mind and wrongfully contrived to take him away."

MONTGOMERY, Ala., July 26.—Hundreds of potential lynchers were cheated of their prey here, Friday when state law-enforcement officers arrested and carried Charley Harris to the state prison instead of to Eufala, where he was wanted on a charge of killing a white man and attacking a white woman.

This entire section has been seething with excitement ever since the crime was committed. Poses have conducted an intensive man-hunt with blood hounds, and reports that the fugitive had been captured and carried to "such and such jail" have sent armed men scurrying to various jails demanding the prisoner.

That the victim would be lynched if returned to Eufala was a foregone conclusion. So when found, Harris was rushed to the Kilby prison, where he is absolutely safe. This action, however, aroused the ire of those who sought to take the law in their hands, but they expected to have another chance to get him, namely, when he was brought to Eufala for identification.

In this they were wrong again. Harris was not carried to Eufala. Instead the law-enforcement officers boarded the train here for Eufala, with a photograph of Harris, which was identified by the white woman as the picture of her assailant.

Governor Graves and his law-enforcement officers took every precaution to prevent a lynching and were successful.

ENCOURAGING SIGNS
The editor of the Bystander has visited Waterloo, Cedar Rapids, Clinton, Davenport, Muscatine and Washington, Iowa, during the past week.

Negroes own some very nice homes. Many are buying and many are remodeling their homes. All of these are hopeful signs and should be encouraged at every opportunity.

Congressman DePriest is making a campaign to educate Negroes to take advantage of their political strength, which is sadly neglected in some of the places where there are many Negro voters.

THE GOVERNOR OF ALABAMA has demonstrated again that public officials can prevent mob violence if they have the inclination, even though courts, supposedly carrying out the law, are swayed by mob sentiment.

A Negro murdered a white man and beat his sweetheart near Eufala, Alabama. He was arrested and later confessed the crime to the officials.

THE JURY brought in a verdict within a short time after the trial started. The judge sentenced the man to die in August and the national guard troops under the command of a brigadier general spirited him away to safety.

THE GOVERNOR summoned the national guard troops in order to avert a lynching. Under the doctrine laid down by the United States Supreme Court in the famous Arkansas cases fought by the N. A. A. C. P., a man has not had a fair trial as contemplated by the constitution, when public sentiment displayed at the trial is so charged with mob spirit that public officials cannot do justice to the accused.

HOWEVER, the Alabama affair shows progress when a governor has the courage to take prompt, decisive action. It shows that some white people in the south are not contented with the practice of allowing their states to be disgraced continually by uncivilized conduct.

PLANS FOR APPEALING GARY SEGREGATED SCHOOL CASE COMPLETED BY N. A. A. C. P. ATTORNEYS

The Negro in America

By J. G. Browne

Attorney Charles P. Howard has gone to a field of greater opportunity, therefore his friends are glad. Howard is young, capable and aggressive.

It was his desire to get a real political organization functioning here. He was anxious to amalgamate all factions in order that we might concentrate our efforts to better advantage and accomplish things here in this city.

Individuals and groups find themselves in adversity. Will we profit by the many examples we have had of able influential men of our group who have left us for more progressive fields?

We can if we will. Des Moines is a wide-awake city, it is we who as a group are asleep; it is time to bestir ourselves.

James Weldon Johnson Given Leave of Absence

New York, July 12.—The Board of Directors of the N. A. A. C. P., it was announced here today, has granted a leave of absence to James Weldon Johnson, National Secretary of the organization, to enable him to accept a fellowship just awarded to him by the Julius Rosenwald Fund for a year to do creative writing, and in order that he may gain a much needed rest and relief from the duties and responsibilities of his office.

The award to Mr. Johnson is the first of a Julius Rosenwald Fund Fellowship established for the purpose of fostering creative achievements in the arts, and having in view the far-reaching effects of such achievement on the whole question of race relations in America.

Mr. Johnson informed the Board that he wished his leave to be returned no earlier than in the late autumn, so as to enable him to complete the handling of certain important Association matters now pending.

AMERICA'S RADIO LEAD IN DANGER

Gen. J. G. Harbord Sees a Threat to Our Nation's Place in British Merger.

The recent successful effort of the British to bring about consolidation of their cable and radio interests is a serious challenge to the radio supremacy of the United States, and of more importance to our country than oil or merchant marine at this moment, according to General J. G. Harbord, who was chief of staff of the A. E. F. and now is President of the Radio Corporation of America.

"Great Britain being the great cable-controlling power of our planet," General Harbord explained, "the combination there of cables and radio imperils American leadership more directly than that of any other country."

Other Countries Alert
The effect of this advanced system of international communication is a subject of discussion in the chancelleries of the world, General Harbord says, and is not viewed with indifference by any great nation aspiring to foreign commerce, unless it be the United States.

"Communications play an important part in national defense," he continues. "This is especially true of radio, and with countries having distant possessions such as the Philippines, Alaska and Hawaii or Australia, Canada, South Africa and India."

Great Britain approached this problem with the seriousness its importance demanded, in the opinion of General Harbord, and on March 15 of last year, as a result, the principal communications rivals in Great Britain, the Eastern Telegraph Company, Limited, representing cables, and the Marconi company, radio, announced a merger in the form of a holding company. The government will have representation on the board of directors, which with the vote of either the cable or radio interest, will be controlling.

The press approved this merger. "This new combined British communications interest will affect American relations in every part of the world," General Harbord asserts. "There will hardly be a port or principal city on the planet which will not be reached by British communications. American trade in every quarter of the globe cannot but be profoundly affected. The national defense of the United States must reckon with the planetary domination of communications by the British. Such is the result of the action of the farseeing British race under the lash which American progress in radio has applied—two old people which centuries ago underwent the diseases of national adolescence, through which we still are passing. Her politicians abuse one another, as do our own, but as against the outside world Britain's policy changes little with the advent of one party or another on the political stage."

Hard to Understand
"The time when Great Britain, France, Italy and Germany are selling radio and cables seems to be the time taken as our duty to keep them apart. What others unite to secure leadership in communications we divide. The long deliberations which preceded the consummation of the cables-radio merger in Great Britain saw in our country the enactment of the White Act of 1927, which in plain terms forbids any purchase of radio by cables or vice versa. While this provision is understood to have been inserted under the minority lash in the last days of the drafting of the law, its purpose no doubt was to preserve the competition, in form at least, between the two methods of international communication—radio and cables.

"Sitting between the hind legs of the British lion with the tail of the noble beast wrapped around his neck is a poor perch for the American eagle from which to recover lost leadership in world communications."

YOUNG OFFICIALS IN YOUTHFUL INDUSTRY

The announcement the other day of the list of officers for the Radio-Victor Corporation of America, just formed to handle the sales and distribution of the products of the Radio Corporation and the Victor Talking Machine Company, shows a preponderance of youthful officials in this company which combines the interests of two of the biggest and youngest industries.

Bayld Sarnoff, executive vice-president of the Radio Corporation, who is chairman of the Board of Radio-Victor, is 33 years old. Incidentally, he climbed to his present high position from a start as a messenger boy. An average of well under middle age is maintained by the other officials: J. D. Ray, President; E. E. Lambert, Vice-President and General Counsel; A. E. Reoch, Vice-President in charge of Production, Service and Traffic; H. C. G. R. D. S., Vice-President of the Victor Talking Machine Division; Quinton Adams, Vice-President of the Engineering Products Division; Meade Brunet, Vice-President of the Radiotron Division; E. A. Nicholas, Vice-President of the Radiola Division; E. C. Grimley, Treasurer and Comptroller, and Francis S. Kane, Secretary.

AMENDMENT TO ARTICLES OF INCORPORATION

of the Jacobson Linotyping Company

Know All Men by these Presents: That at a special meeting of the stockholders of Jacobson Linotyping Company, a corporation duly organized under the laws of the State of Iowa, held at the office of the Company in Des Moines, Iowa, on the 15th day of July, A. D. 1925, after due and legal notice of said meeting had been given and with all the outstanding stock present and voting, the following amendments were passed:

BE IT RESOLVED, that the articles of incorporation of the Jacobson Linotyping Company be amended by striking out all of Article III and inserting in lieu thereof the following:

ARTICLE III
The object of this corporation is to do a general business of typesetting, type-casting, make-up and all other composing room service, and to do all other business which may be deemed to be in the best interests of the Company in the first paragraph of Article Four and inserting in lieu thereof the following:

ARTICLE IV
The total authorized capital stock of the Company shall be thirty-five thousand dollars (\$35,000) and shall be divided as follows: 250 shares of common stock of the par value of \$100 each and 100 shares of preferred stock of the par value of \$100 each.

The holders of preferred stock shall be entitled to any annual dividend of eight per cent per annum as declared by the Board of Directors upon the common stock. The holders of said preferred stock shall not be entitled to any further dividends any one year even though said dividends have not been paid over and above an amount sufficient to a sum of eight per cent on the preferred stock.

After one year the preferred stock, at the option of the Board of Directors, shall be subject to redemption in whole or in part at \$100 per share and accrued dividends thereon on any dividend paying day of the Company.

The holders of preferred stock shall not have any voting power whatsoever except upon the question of selling, transferring or otherwise disposing of the property and assets of the corporation as an entirety.

In case of liquidation of the assets of said corporation, the order of participation in the assets shall be as follows: First, Preferred stockholders shall be paid in full; Common stockholders shall be paid the balance on the basis of their holdings at the time of the liquidation of the corporation.

BE IT RESOLVED, that the articles of incorporation be further amended by adding the words "or more" after the word "two" and of Article IV.

BE IT FURTHER RESOLVED, that the secretary sign and acknowledge in behalf of the stockholders such instrument as may be necessary and proper to make said amendments effective and legal and cause same to be filed and notice thereof to be published as provided by law.

Famous Tournament
The originator of the idea of the tournament of roses in Pasadena was the late Prof. Charles Frederick Holder. The first tournament was held January 1, 1890, and it has been held the first of January ever since.

Original Steeplechase
Steeplechase is a horse race in which the competitors have to surmount obstacles, such as hedges and ditches, in order to reach the winning post. The first race of the kind was run in Ireland by a party of fox-hunters, who actually made a distant church steeple the goal of the impromptu race. Such matches soon grew in favor, and steeplechasing became a recognized branch of horse racing.

AMERICA'S RADIO LEAD IN DANGER

Gen. J. G. Harbord Sees a Threat to Our Nation's Place in British Merger.

The recent successful effort of the British to bring about consolidation of their cable and radio interests is a serious challenge to the radio supremacy of the United States, and of more importance to our country than oil or merchant marine at this moment, according to General J. G. Harbord, who was chief of staff of the A. E. F. and now is President of the Radio Corporation of America.

"Great Britain being the great cable-controlling power of our planet," General Harbord explained, "the combination there of cables and radio imperils American leadership more directly than that of any other country."

Other Countries Alert
The effect of this advanced system of international communication is a subject of discussion in the chancelleries of the world, General Harbord says, and is not viewed with indifference by any great nation aspiring to foreign commerce, unless it be the United States.

"Communications play an important part in national defense," he continues. "This is especially true of radio, and with countries having distant possessions such as the Philippines, Alaska and Hawaii or Australia, Canada, South Africa and India."

Great Britain approached this problem with the seriousness its importance demanded, in the opinion of General Harbord, and on March 15 of last year, as a result, the principal communications rivals in Great Britain, the Eastern Telegraph Company, Limited, representing cables, and the Marconi company, radio, announced a merger in the form of a holding company. The government will have representation on the board of directors, which with the vote of either the cable or radio interest, will be controlling.

The press approved this merger. "This new combined British communications interest will affect American relations in every part of the world," General Harbord asserts. "There will hardly be a port or principal city on the planet which will not be reached by British communications. American trade in every quarter of the globe cannot but be profoundly affected. The national defense of the United States must reckon with the planetary domination of communications by the British. Such is the result of the action of the farseeing British race under the lash which American progress in radio has applied—two old people which centuries ago underwent the diseases of national adolescence, through which we still are passing. Her politicians abuse one another, as do our own, but as against the outside world Britain's policy changes little with the advent of one party or another on the political stage."

Hard to Understand
"The time when Great Britain, France, Italy and Germany are selling radio and cables seems to be the time taken as our duty to keep them apart. What others unite to secure leadership in communications we divide. The long deliberations which preceded the consummation of the cables-radio merger in Great Britain saw in our country the enactment of the White Act of 1927, which in plain terms forbids any purchase of radio by cables or vice versa. While this provision is understood to have been inserted under the minority lash in the last days of the drafting of the law, its purpose no doubt was to preserve the competition, in form at least, between the two methods of international communication—radio and cables.

"Sitting between the hind legs of the British lion with the tail of the noble beast wrapped around his neck is a poor perch for the American eagle from which to recover lost leadership in world communications."

The Ladies Usher Board of St. Paul A. M. E. church entertained with breakfast at Union Park Sunday morning, July 21st, honoring Mrs. Oas M. Madden of Detroit, the house guest of Mrs. Lucile Parsons. Other guests present were: Mesdames Stone, C. B. Woods, W. M. Ashby, Mayme Jackson, Gertrude Carl, Johournee Kelson, Ora Bruce, Gertrude Gould, Vernice Washington, Emergence Moore, Nina Ashby; Mrs. McCracken of St. Paul Minn., and Miss Aima Smith of Dave-Port.

The Thimble Art club will have their indoor picnic at the home of Mrs. Garth on Wednesday, July 24.

The Amos W. Bryant camp and auxiliary are entertaining the American Legion post and auxiliary, July 28 at 3 o'clock in honor of Mr. John Walker, civil war veteran. The affair will be given at 1235 Stuart street.

The following program will be rendered: Song by Maple St. Choir; invocation by Chaplain May Johnson; selection by choir; welcome address by Mrs. Electa Coleman; solo, Mrs. Naomi Douglas; short talk by Mrs. McGuire; selection by choir; short talk by the commander of the post, Mr. Samuel Walker; song, post quartet; Mr. John Coleman will introduce the speaker of the evening, Mr. Joe Walker. "Star Spangled Banner" closing number by choir. Refreshments are to be served.

Miss Gladys Graham was an overnight guest Sunday, July 21 at the home of her friend, Miss Dorothy Thorpe, 5627 Walnut Hill drive.

The Collegiate Eight was entertained at the Hotel La Marguerite annex by Miss Marguerite Esters, Sunday night, July 21. Students attending summer school at Drake university and students and teachers home for their vacation were the honored guests.

The main diversion of the evening was the discussion of "Sin", which was studied from ten different points. Sin was finally defined as being willful disobedience of divine law by Frank Robinson and John Chapman. "Who is the sin determiner, God or man?" It was decided by Miss Clara L. Lloyd Shelton that God is the determiner. "Is sin individual or social?" The conclusion reached by Miss Mildred Young and Harold Benning was that sin is individual but may have a social effect. "How do I know when I am sinning?" Miss Mary Holmes and Virginia Mackay concluded that conscience is your guide. "The Original Sin" was discussed by Miss Julia Manuel and Robert Young. "Can One Possess Sinful Thoughts and still not commit sinful actions?" It was decided by Stanley Proctor and LeRoy Berry that sin had to be committed before it became effective.

"How can we prevent sin?" was discussed by Marguerite Esters and Leona Palmer, who decided that it was entirely a personal matter and pertained to a persons outlook on life. A delightful repast was served.

Miss Marguerite Newcomb was the guest at honor Saturday, July 20 at a birthday party given at the Community Center, 907 Fifteenth Street.

Mr. James B. Morris after a ten-day tour of the eastern part of the state on business, has returned to the city. In his absence, Mr. Clifford Mackay, managing editor of the Bystander, issued the paper the week of July 20th. He was assisted by James Braddie Morris, Jr., and Fred Morrow, Jr.

Don't forget the Old Settlers' picnic at Union Park, Thursday, August 1st. All old settlers, young settlers and friends are invited to come and bring well-filled baskets. Ice cream and lemonade will be furnished free.

William Tomlin is president of the Old Settlers Association, sponsors of the affair, while John L. Thompson is secretary.

RADIO TELEGRAPH NOW GOES INLAND

Fourteen Cities in Nucleus of Network, With Plans for Twenty-nine as Wave Lengths Are Granted.

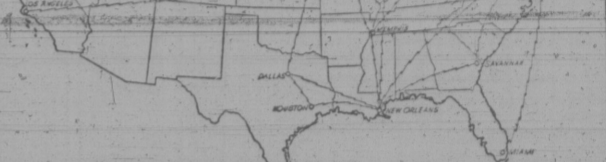

Plans for the immediate establishment of a radio-telegraph system serving all the interior of the United States through fourteen strategic cities just have been announced by General James G. Harbord, president of the Radio Corporation of America. The service will be managed and operated by the Corporation's subsidiary, R. C. A. Communications, Inc.

The stations will be at New York, Chicago, San Francisco, Los Angeles, Seattle, Denver, New Orleans, Kansas City, Detroit, Cincinnati, Cleveland, St. Louis, Boston and Washington, General Harbord's announcement reveals.

The establishment of the new service, which will give the inland cities direct communication with the world-wide wireless networks radiating from New York and San Francisco to foreign countries, was made possible by the recent grant of ten exclusive wave lengths already granted. These stations will be at New Orleans, Kansas City, Detroit, Cleveland, Chicago, Los Angeles, Seattle, Denver, St. Louis, Cincinnati, New York, San Francisco, Boston and Washington.

able means of communication with each other. "But its greatest significance, as the United States turns more and more to foreign markets, is that it brings Europe, South America and the Orient closer to America through radio's new and efficient avenues of communication."

Supplementing General Harbord's announcement, W. A. Winterbottom, vice-president in charge of communications, revealed that the construction program for the fourteen cities was already under way. Three million dollars has been set aside for the initial expenditure.

The above map shows the twenty-nine cities which the Radio Corporation of America hopes to include in an inland radio telegraph network soon. Work already is under way to give radio telegraph service to fourteen of the cities, on wave lengths already granted. These stations will be at New Orleans, Kansas City, Detroit, Cleveland, Chicago, Los Angeles, Seattle, Denver, St. Louis, Cincinnati, New York, San Francisco, Boston and Washington.

seven channels and five shared channels from the Federal Radio Commission. "We hope to extend the system," General Harbord said, "to the full list of 29 cities contemplated in our original application as soon as additional wave lengths are made available."

Other cities whose commercial importance and strategic location justified a place in the new radio network, General Harbord said, were Philadelphia, Miami, Fla., Savannah, Minneapolis, Memphis, Pittsburgh, Houston, Norfolk, Buffalo, Portland, Me., Rochester, Schenectady, Portland, Ore., Milwaukee, and many others which it is

Muscataine, Ia., July 25, (Spec.)—Fumes that had disturbed the quiet atmosphere around the home of Henry Seay last week and caused much uneasiness to the peaceful surroundings of his neighborhood was found to be caused by constant rainfall into one of his barrels of corn, used to mix feed for his chickens.

The barrel was wrecked by Henry and burned before the valient enforcers of the Volstead Act and the "five and ten law" paid him a visit.

Odd Monkey Specimen One of the most interesting specimens in the world zoos was the monkey that didn't have a tail, in Australia. He was the most human-like of all old-world monkeys on exhibition. He did not have even the vestige of a rudimentary tail and his cry was a single wail, singularly like the cry of a child. He was all black except for a white frontal band over his eyes.

Merely a Ratification

Herbert Hoover's popularity is growing at a rate that forecasts an other Republican tidal wave in November. Mr. Hoover's quiet dignity and reserve and lack of political bombast has already won for him the confidence of the nation. The election will be merely in the nature of a ratification. —Lynn L. Hunt

On Building

He that alters an old house to fit as a translator to the original, and is confined to the fancy of the first builder. Such a man were unwise to pluck down good old building, to erect, perchance, worse new. But those that raise a new house from the ground are blameworthy if they make it not handsome, seeing to their method and confusion are both at a rate. —Thomas Fuller (1627)

Originals of Names Old

Glasgow, the second city of the British empire today, obtained its name from two Celtic words, "glas" meaning green, and "gaid", meaning deer—deer green place. Dublin came from "dubh", meaning black, and "linn", meaning pool. Rutland is a corruption of Redlands.

Labor Improves Conditions

Labor in its collective efforts has contributed greatly to the maintenance of proper wages and to improved conditions of labor. But collective bargaining alone cannot overcome the forces that make for unemployment. The problem of insuring, full work all the time is a problem of national concern. Our workers as citizens at the ballot box have a large part in determining our economic policies. —HERBERT HOOVER in his Newark speech

To the Negro Organizations of Iowa, the Negroes of Iowa, and Friends of the Negro:

This company is publishing a paper FOR THE NEGROES OF IOWA. It is necessary that THE RACE have A MOUTHPIECE in the shape of a weekly newspaper. CERTAIN ITEMS OF NEWS that would NEVER GET in the REGULAR PAPERS are published in THE BYSTANDER for the BENEFIT OF THE NEGRO—current news concerning what is happening among our people, news of the various social, religious and fraternal organizations, also civic and legislative matters of great importance to us.

Ordinarily a newspaper gets its financial support from subscriptions and advertising, but it is a well known fact the the proportion of business concerns operated by members of our race is not sufficient to furnish all the advertising needed, so it is necessary that we solicit advertising from the firms of the white man whom the Negro patronizes.

THIS IS A DIFFICULT TASK ON ACCOUNT OF RACE PREJUDICE

Therefore we feel it the duty of the various Negro organizations to put their shoulders to the wheel by raising a stipulated amount each month to help support The Bystander.

If the Negro organizations do this it will solve a problem which has made the regular publication of the paper uncertain for several years, still entail no great sacrifice upon any one person.

NO ORGANIZATION IN IOWA SHOULD TURN THIS REQUEST DOWN WITHOUT MAKING SOME SUBSCRIPTION, however small.

This matter will come up at a regular meeting of your body and it is our hope that you attend, giving it your especial support in seeing it adopted.

Any individual who has the interests of the race at heart is urged to subscribe to the financial support of The Bystander.
