TURLEY WRIGHT 'NOT QUILTY' AFTER CON- VICTION OF ASSAULT

New York, Dec. 25—Upon appeal assisted by the N. A. A. C. P., a young colored man in Tennessee, convicted of "assault" upon perjured testimony has been given a verdict of not guilty and is now a free man.

The young man, Turley Wright, was accused of having attacked an elderly white woman, and was convicted and sentenced to ten years imprisonment upon testimony of herself and two granddaughters, later shown to have been perjured. It was further established that the jury gave a verdict of guilty and a relatively minor jail sentence was imposed in defiance of mob sentiment which it was thought would result in a lynching if the boy were acquitted.

W. L. Pinkerton, an outstanding white attorney of Centerville, Tennessee, who has been instrumental in procuring justice for the boy reports to the N. A. A. C. P. that the Attorney General, E. W. Eggleston, let it be known he would agree to a verdict of not guilty in the second trial "so as to completely vindicate a badly wronged boy."

Judge J. C. Hobbs briefly reviewed the case from the bench "explaining to the jury that in the other trial Mrs. Lynn, the prosecutrix and her two granddaughters had admitted perjury, and also that some of the jurors had made sworn statements to the effect that they gave Turley the least sentence thinking it better than to take chances on mob violence, and for these reasons, having doubt as to his guilt, he had set the verdict aside and granted the defendant a new trial, and still being of the opinion that the defendant is innocent, he instructed the jury to return a verdict of not guilty."

Episcopals Hold Xmas Services

The church school of St. Simon's Episcopal Mission held its first exercises and Christmas tree at the Community Center Friday evening, Dec. 20. The program consisted of singing by the school and an address by Mr. James G. Brown, the superintendent, also recitations by Mr. Huey, a member of the Porgy company.

The set of dishes which have been on display at the Economy Shop on Center Street was won by Mrs. Burnice Richmond who held the lucky number drawn by Mr. Huey from the large number of chances sold. The children were given Christmas candies.

N. A. A. C. P. COMMENDS DETROIT MINISTER

New York, Dec. 18—Congratulatory and praise have been telegraphed by the N. A. A. C. P. to Rev. Adelbert J. Helm, of Detroit, who resigned as pastor of the Bethel Evangelical Church, and Orville Brummer who resigned as Director of Education, in protest against the barring of Negroes from church membership.

Port Au Prince, Haiti, Dec. 12—Another travesty on American justice and a challenge to the name of "the land of the free" and the motto of government "for, by and of the people" was enacted last week when several detachments of marines were rushed here to quell alleged "serious disturbances" and to put Haitian citizens under strict martial rule. The latest invasion and illegal occupation of American troops completes another chapter in the volume of injustices which has been meted out to the

The perjured testimony alleged that the young colored man criminally assaulted the aged woman while covering the two young women with a revolver.

In reporting to the N. A. A. C. P. Mr. Pinkerton pays high tribute to the manhood and honor of Judge Hobbs, who, he said, would not have permitted an unfair verdict to stand. Judge Hobbs, who is said to resemble Abraham Lincoln, when he discovered that there had been perjury in the first trial, announced from the bench that there would be no death penalty inflicted in this case, and that the audience at the trial might as well begin to let that fact soak in on them.

LOS ANGELES, CALIF., Dec. 28.

"Color of skin makes no difference to me, he is my husband and I love him and intend to stay with him."

Thus Mrs. Helen Lee Worthington Nelson, two years ago the toast of Broadway and the idol of the American stage and screen, expressed herself about her husband, Dr. Eugene C. Nelson, one of the most prominent physicians in Hollywood and Los Angeles, who does not happen to be white.

The Nelsons, who were married at Tia Juana, Mexico, in the summer of 1927, were separated a few days ago as a result of a quarrel over another woman. Their separation brought the former stage beauty and Ziegfeld Follies star, who had been sought since 1927, when she disappeared, back into the limelight.

At first it was intimated that divorce proceedings were being instituted, and newspapers were making much over the fact that this white woman was leaving her husband because of his color. Her interview last week with reporters definitely ended these rumors.

"To me he is not a Negro, she declared to reporters. "He is a man; neither black nor white in skin or black in heart. I believe he loves me better than anything else in the world, and I know that I love him. No social—or racial barriers can ever separate us."

The Nelsons met in the truly romantic fashion. Two years ago, when she was at the height of her popularity, she was mysteriously set upon in her home and beaten severely. Dr. Nelson, considered as one of the best physicians in the city, was called to administer first aid. He returned again and again, and after she was completely recovered he continued to return. Suddenly Miss Worthington and Dr. Nelson disappeared from the neighborhood and returned as man and wife.

PITTSBURGH POLICEMAN DISMISSED FOR INSULTING COLORED GIRLS

Pittsburgh, Pa., Dec. 26—The Pittsburgh branch of the N. A. A. C. P. acting with local attorneys, brought about the dismissal from the police force of a white policeman who after profanely talking to two colored girls, arrested them and took them to the police station in a patrol wagon, charged with "jay walking."

Thomas Baron represented one of the girls and the Pittsburgh N. A. A. C. P. was represented by Homer Brown. According to the report published in the Courier, the two girls were roughly accosted by the policeman while they were crossing the street at an intersection. When a colored man protested, the policeman retorted "I'll throw them into jail" which he did.

His dismissal followed the instance of the two attorneys, and it is now stated that suit for illegal arrest will be brought against the officer.

SNOW AMAZES TWO AFRICAN NATIVES

NEW YORK, Dec. 27—Two native Africans, who arrived here Monday aboard the Mauretania, showed unmistakable astonishment as they watched the snowflakes fall. It was their first time to witness such a sight and they referred to the phenomena as "floating white blossoms."

The aborigines are Biano and Mutia, who are being taken to Hollywood to work in a motion picture, a part of which was filmed in Africa.

Curly Dead and Ewing Near Death in Shooting Scrape

CHICAGO, Dec. 27—Two are dead and another near death as the result of a jealous rage of Henry Jacquot, a taxicab owner, who ran amuck and shot to death Margaret Thomas, 34, 5131 Prairie Ave., and Donald J. Curley, 24, 6609 Marquette Rd., and wounded LaVere Ewing, 25, 6609 Marquette Rd., early Sunday morning in the dining room of Mrs. Thomas' apartment.

Both Curley and Ewing are former residents of Des Moines. Curley was for three years a student at Des Moines university. He also served as president of the Des Moines Junior Branch of the NAACP. Relatives of the two victims left Sunday afternoon for Chicago.

Curley's body was brought to Des Moines for burial. L. Fowler & Sons have charge of the funeral.

Police officers, led by Reid and Williams of the Fifth district, are combing the city for Jacquot. In the meantime a description of him has been flashed to the police in all nearby cities and towns.

According to witnesses at the inquest, which was held Monday at 5037 Indiana Ave., Jacquot and Mrs. Thomas had been living together since last summer, she having been divorced from her husband in May.

Mr. and Mrs. Floyd Robinson, roomers at Mrs. Thomas' house, were asleep in the front room and knew nothing of the shooting until the police aroused them, after having been summoned to the flat by a telephone call.

LaVere Ewing, who is at the point of death at the Wilson hospital, gave a statement to Officer Read, in which he declared that he and Curley went to the house about midnight Saturday. They and Mrs. Thomas, his statement points out, sat in the dining room and engaged in a general conversation. Finally Jacquot came in and demanded to know what they were whispering about, meanwhile drawing his revolver.

According to Ewing, Jacquot shot Mrs. Thomas first, then Curley, and a moment later opened fire on him. Mrs. Thomas was shot three times above the heart. She died in Wilson hospital. Curley was killed instantly. After he had shot all three, according to Ewing's statement, Jacquot picked up Mrs. Thomas' body and took it toward the front. It was discovered by the police in her bedroom, lying across the bed.

Jacquot returned to the dining room after taking Mrs. Thomas away. Ewing declared, and said: "I ought to kill you." Ewing states that he told his assailant he had already done a good job and asked him to call a doctor. Jacquot is believed to have called the police.

Mrs. Thomas, her sister, Sadie Morris, 4940 Calumet Ave., declared, was wearing three diamond rings at the time she was killed. They have disappeared.

Sam Elliot, 309 E. 47th St., a claim adjuster, testified that he was an old sweetheart of Mrs. Thomas and that he gave her two of the rings. He asked the coroner to make a searching investigation for the recovery of the jewelry.

Floyd Robinson stated that Officer Williams, to whom he made his statement, remarked to him that "she had two—nice rings, didn't she?" Williams was not at the hearing, and the

statement attributed to him could not be verified.

The inquest was continued and Deputy Coroner Benjamin A. Grant requested that members of the first police squad to reach the scene—Officers Williams and Reid—and William C. Jones, a witness, be present at the next hearing. It is also hoped that Jacquot will be available at that time.

The two Cadillac cars which Jacquot used for taxi service are said to be held in a garage for storage charges, and a theory that gained some prominence was that he shot, then robbed Mrs. Thomas, and had it not been for the fact that Policeman Williams is alleged to have remarked about the Rings, Jacquot might have been accused of having taken them after carrying Mrs. Thomas to the bedroom.

Woman Gives Birth to Babe on L' Train

CHICAGO, Dec. 27—Mrs. Anna Morris, 635 East 37th St., was probably as surprised as anybody else when on the elevated station at Adams and Wabash Ave., Saturday afternoon a son was born to her. Seeing her plight, policemen, elevated guards, and various other altruistic persons, scurried around, secured blankets, made her as comfortable as possible, and then rushed her to Research hospital.

Mrs. Morris, who is 25 years old, had started downtown to do some pre-Christmas shopping when the unexpected event sent her pell-mell to the hospital. She is said to have smiled and said: "Well, this is about the best Christmas gift I could have received even if I wasn't looking for it."

Both mother and son are doing fine.

U. S. APPEALS COURT TO PASS ON VIRGINIA ELECTION LAW

New York, Dec. 10—The United States Circuit Court of Appeals will pass on the Virginia election law, which makes it possible for state party committees to bar Negroes from state primary elections. This information is contained in a letter sent to the National Association for the Advancement of Colored People by Alfred E. Cohen, attorney of Richmond, Virginia, who, with Joseph R. Pollard, has been in charge of the case through the lower courts.

New York, Dec. 18—Crews of 18 United States war vessels have been inspected by N. A. A. C. P. representatives, with the cooperation of the Navy officers, in an effort to identify sailors who attacked and beat two colored men in the New York subway recently. As a result of this inspection, one man has been positively identified as having committed the attack and a naval Board of Inquiry is to be appointed.

William T. Andrews, Special Legal Assistant of the N. A. A. C. P., accompanied Carol Clark, one of the attack victims, to the Navy Yard in Brooklyn on Saturday morning, December 7th. They were informed by Captain Ganoa, of the battleship Wyoming, that all the men on the ships under the command of Admiral Cole, would be lined up for inspection.

STRANGE THINGS HAPPEN

The democratic state central committee of Alabama has passed a resolution barring those citizens who supported Hoover in the election last fall from running in the regular democratic primaries next spring. The action is aimed at Senator Tom Heflin who is a candidate for re-nomination and Hugh Locke who is a candidate for governor. Both supported Hoover last year, not because they preferred to do so but because they could not stomach Smith. The attorney general of the state has since ruled that the action is legal.

The resolution reads as follows:

"The following persons, and none other, shall be eligible to be candidates for nomination in this primary:

"Qualified white electors who possess the qualification fixed by law by the respective offices for which they are candidates for nomination, provided, however, that no person shall become a candidate for any state, district, federal or circuit office or have his or her name printed upon the Democratic ballot in the primary election to be held on the twelfth day of August, 1930, if such persons either voted a Republican presidential ticket in November, 1928, or openly and publicly opposed the election of the nominee, or either of them, of the Democratic electors for President or Vice President in November, 1928."

The action is unusual to be sure for it not only attempts to legislate recalcitrant individuals out of the party but also attempts to do by party action what the courts have held the clude citizens from voting on an independent ticket and will still line up behind the edict of the state central committee which proposes to bar Negro voters from

democratic primaries until the court has passed on the subject. There is no end to the attempt of some southern states to keep Negroes out of politics, by illegal methods, still they hold up their hands in horror when the senate discovers that Vane of Pennsylvania and Smith of Illinois have spent money in excess to get nominated.

OTHERS SHOULD FOLLOW

Good people all over the country are pointing to Des Moines and singing the praises of the Interracial Commission and the Des Moines Ministerial Association for the issuance of the manifesto of good will in which they call upon the business institutions catering to the public generally to grant all patrons equal accommodations; of course this means as long as they conduct themselves properly.

This action is particularly commendable in the face of the black eye which has been given several communities by their adverse action on matters pertaining to the Negro recently.

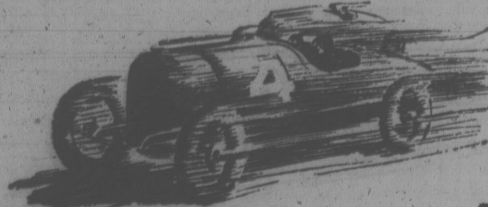

Now that these two splendid bodies of men and women have taken this action it would be a fine thing if the Chamber of Commerce and the Greater Des Moines Committee which everybody knows directs what shall and what shall not be done in Des Moines among business men endorsed this manifesto. Many of the members of both the Interracial Commission and the Ministerial Alliance belong to both of these latter organizations.

Some business concerns in Des Moines do accord the Negro equal accommodations while many claim the fear of loss of trade as a basis for denying it. Whole somebody will object to any privileges accorded the Negro even to that of walking on the same side of the street, yet we believe a stern policy of treating everybody fair who acts decent will win the approval of most patrons. This calls for sympathetic cooperation on the part of the Negro for dirty uncouth presumptuous patrons of any place should not be tolerated for they do the cause more harm than the white patrons who object simply on the basis of color.

ULCER OF THE STOMACH

Stomach diseases are very common and the variety of ailments that occur in this organ makes it necessary to single out the one that is causing the disturbance. It is so often termed Gastritis that this may mean any-

thing from nausea to cancer of this organ. Occupying the middle position between the mildest of stomach complaints and the most serious is one that takes its toll in disability and is often overlooked and is known as ulceration of the stomach. An ulcer is an ulcer wherever found but is much easier to heal one that can be seen and very difficult to heal one which is out of sight more so when there is some doubt in the mind that such a condition exists. The symptoms are so distinct and regular in some cases that no mistake can be made and in others so vague that it takes every means at the command to define the exact nature of the condition. The stomach has much work to do and because it has a variety of foods introduced into it at regular or irregular intervals little or much or too much as the case may be, this in solid or liquid form. The introduction of the wrong food or liquid in overdose is liable to be the beginning of this ulceration and the constant and regular introduction of wrong foods or liquids a source of irritation which prevents the healing of an ulcer once begun. Hence it is necessary in every case to prescribe a diet as the first step in the cure of this condition. This diet must be rigidly followed if cure is to be expected.

Simplification in tuning, popularity of screen grid tubes and exceptionally artistic cabinets for radio receivers are among the outstanding features of the radio shows which now are in progress throughout the United States. Quantity production has brought the greatest values ever offered. An innovation is the offering by one of the largest manufacturers of the first battery operated Radiolas whose performance is comparable to those of socket power. This development, made possible by loudspeaker refinements and the increased efficiency of the screen grid at a low current consumption, is being welcomed by owners of homes unwired for electricity.

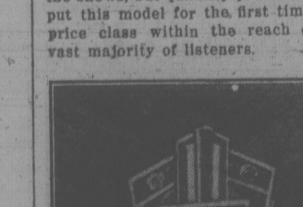

Although the screen grid leads in the new models as a radio frequency amplifier, another new Radiotron, the DX-245, is used widely as an outstanding part of the audio systems. The DY-227 and other standard tubes also retain their popularity for the specific uses for which they are best suited. The famous upper heterodyne circuit is employed in one of the newest Radiolas, attracting attention at the shows, but quantity production has put this model for the first time in a price class within the reach of the vast majority of listeners.

Simplified Tuning and Screen Grid Tubes Are the Big Features.

MEDAL TO OPERATOR 11,000 MILES AWAY

Malcolm P. Hanson, With Byrd Near South Pole, Hears Tribute.

One of the most striking methods of making an award of merit ever devised was the recent presentation of The Veteran Wireless Operators' Association medal in a speech by David Sarnoff in New York to Malcolm P. Hanson, radio operator with Byrd, listening by radio in the Antarctic wastes near the South Pole.

Mr. Sarnoff, Executive Vice-President of the Radio Corporation, praising Hanson, mentioned also the fortitude of the wife of the operator, who had consented that her husband go on the hazardous expedition for the sake of science. After she had received the medal for safe keeping, Mrs. Hanson, deeply touched, spoke to her husband across the vast distance. Within a

Mrs. Malcolm P. Hanson, Holding Medal Awarded to Her Husband, 11,000 Miles Away.

few minutes Hanson's reply came by radio through the receiving station of R. C. A. Communications, Inc., at Riverhead, Long Island. In addition to thousands at the Radio World's Fair, where the presentation was made, an uncounted throng heard the tribute over the network of the National Broadcasting Company.

"It is my privilege," Mr. Sarnoff said, "to pay tribute tonight to a man who has made an unusual contribution to science and civilization. Although he is 11,000 miles distant from this glass-enclosed room in Madison Square Garden, where I now stand, he is nevertheless able, through the instrumentality of Radio, to listen to the sound of my voice. That act alone is worthy of commendation; even in this day of extraordinary progress in science."

Malcolm P. Hanson, as Chief Radio Operator of the Byrd Antarctic Expedition, you have been awarded the annual medal of the Veteran Wireless Operators' Association, for the most distinguished contribution by a radio operator, in 1928, to wireless communication. As a member of that association, with some knowledge of its romantic traditions and standards of service, I feel that the award is well earned and well deserved."

Mr. Sarnoff related how Hanson planted his slender steel towers on the edge of the great ice barrier, cheered his comrades with news from home and gave the world for the first time a thrilling daily account of a polar expedition. Those things alone would have been a contribution to history, he said, but Hanson added to radio knowledge by testing signals against the polar sky, observed the phenomena of the Aurora Australis and made a record of radio behavior under conditions hitherto unknown. To Mrs. Hanson, Mr. Sarnoff said:

"Your sacrifice was all the greater because soon after your husband sailed for the Antarctic, you bore him a child. No medal can ever reward or repay you for your own courage and heroism."

RADIO TELEGRAPH EXPANDS SERVICE

Recent additions to the radio telegraph service from the United States are of special interest now as indications that America is striving to hold her own in a radio telegraph leadership, which is made more difficult to maintain by the British merger of radio telegraph and cables. The announcement that R.C.A. Communications, Inc., will begin work at once to establish an inland telegraph network in fourteen strategic cities in the United States, with plans for 29 inland stations, as wave lengths are granted, also has added to the country-wide attention to this modern means of communication.

Within the last few weeks three new direct international circuits have been announced by W. A. Waterbottom, Vice-President in charge of Communications of R.C.A. Communications, Inc., to Spain, Syria and Costa Rica.

Several reductions of rates for radio telegraph service also have been announced recently by Mr. Waterbottom. It was the competition of radio forced a reduction of rates for radio users have saved last eight years.

Broadcasting Will Aid World Harmony

A future in which races throughout the world will use English as a secondary language is envisaged by General James G. Harbord, who was Chief of Staff of the A. E. F. and now is President of the Radio Corporation of America, writing on radio as an instrument for promoting international understanding and peace.

Since the greater and most appealing part of the world's broadcast entertainment is offered in English from America and the British Isles, radio has provided the strongest incentive in history for many races to master a common tongue, General Harbord points out.

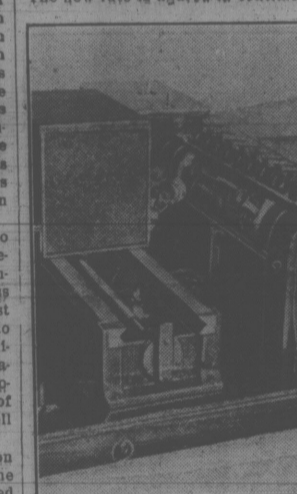

"We must not forget," he says, "that the nations' confusion of tongues has in itself been one of the most fruitful sources of international division and misunderstanding. People distrust what they do not understand; let them develop a common medium of communication and still another cause of distrust will fall by the wayside of human progress."

Radio and its allied science, television, will prove as valuable and perhaps more valuable than all diplomatic conferences in assuring universal peace for the future, General Harbord believes.

PHOTORADIO MAKES STRIKING ADVANCE

Photoradio, has made such strides recently that it promises more than ever to fulfill some day the forecast of Owen D. Young at a dinner given in 1923 to General James G. Harbord, President of the Radio Corporation, that it eventually will make it possible to flash whole pages of newspapers across the ocean.

The most recent developments are the simplification of photoradio apparatus, greater speed and the reduction in rates between New York and London which just has been announced by W. A. Waterbottom, Vice-President in charge of communications of R. C. A. Communications, Inc. The reduction was made possible by the simplification and the greater speed. The new rate is figured in centimeters.

The "heart" of a high speed facsimile transmitter

but is approximately \$2 a square inch. The old rate was \$3.20 a square inch. The accompanying cut shows the "doughnut" light, which center illumination on a point on the picture or printed matter placed on a roller across from them. This light beam is reflected from the picture or printed matter into the photocell box behind the lights. The "doughnut" is on a carriage which moves across and back in front of the roller. After every trip the carriage makes from one side to the other, the roller turns ever so slightly.

As the spot of light from the "doughnut" passes back and forth the lightness and darkness of the points it touches change the intensity of the reflected beam. The reflected beam produces electrical impulses, which are amplified, sent by radio to a receiver hundreds of miles away and changed by the receiver to electrical impulses again. These electrical impulses cause a neon light to glow at intervals timed perfectly with the beam of light reflected from the picture on the transmitter. The glow of the neon light is reproduced on photographic paper, placed in the same position on a roller on the receiver that the original is on the transmitter. Thus an exact duplicate of the original is made.

COWS GIVE MORE MILK BY RADIO

The first test under practical dairying conditions of providing radio music for cows has proved a big success, according to officials of the Detroit Creamery Company, near Mount Clemens, Mich. The creamery company officials bought RCA loudspeakers for each of their barns when they noticed the cows liked the music from a Radiola receiving set installed to entertain the men doing the milking. Now all the 900 cows on the model farm enjoy radio programs.

CHURCH SEEKS PASTOR WHO WILL BAR NEGROES

Detroit, Dec. 10—Members of the fashionable Bethel Evangelical church here Monday night sought a pastor who would concur with them in barring Negro members. The Rev. Adelbert J. Physical Education

One of the most productive pieces of work of the Crocker Street Branch is its physical education program. During the indoor season we use three gymnasiums, at East High, West High and Roadside Settlement.

The city-wide track and field meet was participated in by one hundred different persons.

The city-wide July Fourth picnic attracted one thousand people for the whole day.

The annual camp at Boone enrolled one hundred and thirty-eight boys, young men, leaders and staff members.

The Father-Son Banquet was the largest and finest in the history of the Crocker Street work with one hundred and twenty-five fathers and sons in attendance.

The Crocker Street Department through its Executive Secretary, Gordon H. Kitchen, placed one hundred and two boys, men and young men in places of employment during the year.

The Crocker Street Department building accommodates on an average of thirty-five boys daily during the fall and winter months.

The Big Brother Movement has a representative in court for every delinquent boy. The men composing this committee interview and counsel with the boy and his parents, and ask the Judge to parole the delinquent boy to the Big Brother Committee of the building.

SCREEN GRID GIVES FARM NEW RADIO

One Example of the Newest Battery Sets Which Offer Really Modern Radio to Unwired Homes.

"The real split between the requirements of rural and city listener-in came with the introduction of the loud-speaker in place of head-phones," says E. A. Nicholas, Vice-President of the Radio-Victor Corporation of America. "Until then the usual battery radio set, especially when operated with dry cells, could serve both rural and city family equally well. With the loudspeaker there arose a demand for more power and better tone, with a decrease in operating cost, all of which led to socket-power. "Now radio engineers have turned to the requirements of the un-electric home, eager to duplicate what has been achieved for city and town. Starting with current conservation as the ideal, they have evolved loud-speakers supplying ample volume and rich tone from a minimum input. "The recent development of the screen-grid tube, with an amplification factor several times that of the usual three-element or standard battery tube, also has been a step in the direction of the ideal battery set. Indeed, with a single screen-grid tube replacing between two and three of the usual tubes for the radio-frequency end, and, when also used as the detector, replacing the first audio tube as well, battery current consumption has been reduced to new low levels. "These current economies, combined with the possibilities of greater volume and better tone through refined loud-speaker design, have made possible a battery-operated radio set about on a par with the average socket-power radio set, plus the advantage of a noiseless background for tuning distant stations. "The combined engineering and research forces of the Radio Corporation of America have been at work on this new conception of an efficient battery-operated radio receiver. After many months of intensive effort, such Radiolas have been developed. These new sets are not simply revamped versions of old storage battery or dry battery radio sets. They are entirely new conceptions of battery-operated sets, designed to establish rural radio more on a par with metropolitan radio. In sensitivity, selectivity, simplicity, economy, tone and power, there is little more to ask."

MUSCATINE NEWS

I've been told: Mrs. Collier, wife of Rev. Collier, pastor of Bethel A. M. E. Church, was in the city Monday. They make their home in Washington, Iowa. Miss Henrietta Lamb and Miss Maryland Lamb spent Saturday and Sunday in the Tri-Cities visiting relatives. Ed Baines visited his daughter, Mrs. Ester L. Near in East Moline, Sunday. A Halloween Party will be given at the A. M. E. Church, October 30th. Mr. and Mrs. McLamore of Washington, Iowa, passed through the city enroute to Rockford, Ill., to attend a funeral of a friend. Mr. and Mrs. Robert Evans and family returned from Colorado Springs, Colo., after a two year stay here. Mrs. Lizzie Carr has been very sick. She is better now.

FT. DODGE NEWS
By Wm. Brown
We are glad to say that Mrs. Frances Reed, 905 South Eighth St., is resting some better at this writing, but she is yet poorly and is expecting to leave for Iowa City hospital to be treated. Mrs. L. Johnson of 215 Second Ave. South, is also feeling some better. Mrs. Henry Woods who has been planning a visit to her home in the south has decided to make the visit permanent. Her friends regret their leaving for they are good citizens. The Mission Circle of the Second Baptist Church will hold a joint meeting Tuesday evening at 7:30 at the residence of the pastor, Rev. I. N. Coggis. Rev. Fant and wife have spent the last three Sundays with Bethel Baptist Church of Perry, which we think has led up to a call for him to the pastorate of the church, so may it be. Mr. John Hays is able to be out around his home, but not able to resume his work. He says this has been the hardest sick attack of his long life. Mrs. Ash who is taking care of Mother Lockman was somewhat indisposed last week. Mother Lockman is about the same. We learn that the services were at our churches very good Sunday, but both churches have some members that are neither hot nor cold, but just before dead. The Second Baptist Church gave a duck supper but quite a few people got there when the ducks were all gone.

Men no longer live within little worlds
For thousands of years everybody—except travelers and adventurers—lived within their own little worlds, bounded by horizons only a few miles distant.
But in the past century men have been learning to enlarge these little worlds... with good roads, automobiles, radios, telephones... changing everyone's mode of living and making people far apart seem closer together.
Science and large business organizations, working together, have provided the services which have made life altogether different.
This Company is one of 24 Associated Companies of the Bell System... a nationwide organization which makes it possible for neighbor to call neighbor town to be linked with town... state with state... coast with coast... uniting almost everyone by one great network of communication.

TO UNVEIL LEE MEMBERSHIP TABLET AT N.A.A.C.P. ANNUAL MEETING

New York, Oct. 22.—Impressive ceremonies are being planned in connection with the unveiling of the handsome bronze tablet bearing the names of those who have become life members of the National Association for the Advancement of Colored People, it was announced today.

The bronze tablet is being made by the Newman Manufacturing Co., bronze founders, and above the names of the life members, will bear the following: "Hereunder are set the names of those who have become Life Members of the NATIONAL ASSOCIATION FOR THE ADVANCEMENT OF COLORED PEOPLE by giving each into its treasury the sum of Five Hundred Dollars, thereby testifying forever to their faith in the cause and the future of the Negro people of the United States and in the foundation principles of the American Republic."

All those whose life memberships in the N. A. A. C. P. are fully paid in time for their names to be cast in bronze and attached to the tablet will be included in the ceremony, which it is expected will attract national-wide attention.

CARDINAL HAYES TELLS N. A. A. C. P. CHURCH REPUDIATES COLOR BAR

New York, Oct. 18.—The leading newspapers of New York City are today featuring the second great victory of the N. A. A. C. P. in its fight against "Jim Crow Christianity." The N. A. A. C. P. won from Cardinal Patrick J. Hayes, just prior to his sailing for Europe, an authorized statement repudiating in behalf of the Catholic Church, the color bar sentiments expressed by Mgr. John L. Belford, pastor of a church in Brooklyn which endorsed the stand of the Rev. William S. Blackshear.

The Catholic Church statement, written by Mgr. Thomas M. O'Keefe, at the request of Cardinal Hayes, states that Mgr. Belford in his utterances does not represent the Catholic priesthood; that "Every Catholic is wide open for any one who wishes to enter it for devotional purposes;" that Mgr. Belford's statement "does not represent the attitude nor the spirit of the Catholic Church; and that the Church recognizes the same duties towards the Negro as toward anyone else."

The authorization from Cardinal Hayes follows ten days of correspondence between the National Office of the N. A. A. C. P. and the high dignitaries of the Catholic Church. The statement of Cardinal Hayes has been telegraphed to all parts of the country and is creating a sensation. The N. A. A. C. P. challenge of Jim-Crow Christianity having been made a major issue in religious circles.

NEWARK CLERGYMAN IN SERMON RENOUNCES RACIAL COLORED LINE

New York, Oct. 17.—One of the numerous outgrowths of the recent "discouraging" of Negroes from joining the Protestant Episcopal Church of St. Matthew, was a recent Sunday meeting in the church of the Redeemer, Newark, N. J., at which the pas-

tor, Rev. L. Hamilton Garner denounced the color-line.

He urged upon his hearers that they familiarize themselves with the work of organizations devoted to bettering race relations.

MANY SAY IT'S BIG JOKE

Rumors Fly Thick and Fast in South-side Chicago; DePriest Not Worried

Chicago, Ill., Oct. 17.—Roscoe C. Simmons has rung down national "schemes" and "New York pools" with his declaration that he will be a candidate for Congress to succeed Representative Oscar DePriest. Simmons, who says he is buoyed up by the alleged promises of the voters of the South Side, threatens to give the present congressman considerable "opposition."

The blustering declarations of enemies, however, are not causing Mr. DePriest any worry. Reported breaks between the ruler of the great Third ward and his constituents are merely the work of a few jealous friends.

To cap the climax, rumor now brings news of dissension in DePriest's own camp and tells that all is not well between the congressman and his erstwhile staunch supporter and former campaigner in the city council, Alderman Louis Anderson.

Some claim that as plans for the primaries shape up, Anderson is being sought as the candidate for congress of the Mayor Thompson faction.

Dr. R. R. Moton of Tuskegee Institute will deliver an address at the annual meeting of the Association for the Study of Negro Life and History to be held in Washington, D. C., from the 27th to the 31st of this month. His theme will be the present economic situation of the Negro. This address will be the keynote of the session devoted to the discussion of the "Negro as a Business Man." The institution which he heads and the Business League have always manifested interest in this important aspect of the development of the Negro. Tuskegee itself is an evidence of the business ability of the Negro.

On the same program will appear others who will discuss various aspects of the question. Mr. John R. Hawkins, president of the Prudential Bank, will speak on the Negro in business compared with the Chinaman. Mr. John E. Nail of New York City will discuss the Negro business man compared with the Jew. While these addresses will be historical they will at the same time enlighten the public on the situation of today.
