Pickens Will Edit German Paper's Negro Number

New York, Jan. 24.—William Pickens, Field Secretary of the National Association for the Advancement of Colored People, 69 Fifth Avenue, has been asked to edit an All-Negro Number of *Friedensfront*, a publication in Berlin, Germany, which will devote that number to contributions from Negroes in all parts of the world.

Articles are to be written for the number in English, German, French and Spanish; the editors undertaking to translate all articles from the other languages into German.

Like its twin publication *Deutsche Zukunft*, the *Friedensfront* devotes itself to the cause of international peace. The invitation to Mr. Pickens is an outcome of his lectures in Germany last July and August, one German leader in Frankfurt remarking that the Negro delegate at the Congress spoke the language of the German Academy of Literature.

This All-Negro Number of *Friedensfront* will be the first such number of any publication in Europe. All articles and poems intended for this number should be sent to William Pickens, 69 Fifth Avenue, New York City.

NOMINATIONS FOR SPINGARN MEDAL AWARD

New York, Jan. 24.—Nominations for the award of the Spingarn Medal covering achievements up to and including 1929, are being invited by the N. A. A. C. P., 69 Fifth Avenue. The Medal awarded this year will be presented at the 21st Annual Spingarn Conference of the N. A. A. C. P. in Springfield, Massachusetts.

The Spingarn Medal is given annually for outstanding achievement in some honorable field of human endeavor by an American citizen of African descent. Nominations should be accompanied by a brief statement setting forth the specific achievement or the career, on the basis of which the award is recommended, and by a brief biography of the nominee.

L. E. Hanger, Former Des Moines Resident, Dies

A telegram announcing the passing at Seattle, Wash., on January 29th, according to ord received last Wednesday by Mrs. S. Joe Brown. Mr. Hanger was Mrs. Brown's cousin.

Mr. Hanger was formerly a resident of this city and for many years, assistant custodian at the Polk County Court House. He is survived by his widow Mrs. Bertha Curtley Hanger, who was at his bedside when he passed, having journeyed to the western coast about a year and a half ago in search of health for Mr. Hanger who had not been strong for several years.

"AUTOBIOGRAPHY OF EX-COLORED MAN" PUBLISHED IN STAR DOLLAR SERIES

New York, Jan. 24.—The *Autobiography of an Ex-Colored Man*, a novel by James Weldon Johnson, originally published anonymously and since then republished, has now been issued as a volume in the Star Dollar Series by the Garden City Press.

Original Loving Cup
A silver mug fashioned in 1757 and presented to Matthew Bains of Northallerton, England, in 1839, is said to be the first railroad testimonial ever given to an employee of a railroad.

Tells Labor Group They Get Preference on Jobs

Congressman DePriest, who came from the capital to address the meet, cast a sensation over the audience as he hurled his political gauntlet in the fight to place a ban on cheap labor from the Western hemisphere immigrating into this country at the rate of 250,000 per year. He would contribute to the cause of organized labor to the extent of pushing a congressional measure to prohibit all immigration for the period of 10 years.

Citing typical cases in the Pacific coast cities, the congressman denounced the alien workers receiving preference in employment when they are not subject to the draft laws.

"All alien workers who come into this country and compete with native American workers who have shed blood in the wars of their flag should even be taxed for the privilege of working," he said further, as he proposed a law to carry out this end.

Mr. Fitzpatrick of the Chicago federation welcomed the Race Laborer into organized ranks. Referring to the Constitution and subsequent declarations he said: "On behalf of the American Federation of Labor I bid you come on the inside."

The labor leader laid bare the conditions. Invasion of machinery into the ranks of labor has displaced thousands of men, as less time is required to supply public demands. To combat this condition—technological unemployment as it is called—the federation throughout the country is fighting for five-day weeks and higher wages.

Mr. Fitzpatrick's speech bore largely on the official communication from William Green, read by M. P. Webster, master of ceremonies. Lending the brotherhood as an outstanding achievement in the economic progress of the Race, the message declared that "real independence comes only with increased material progress."

"No greater stumbling block," the federation head wrote, "can be put in the pathway of Negro progress than efforts to poison their minds with doubt as to the federation's good faith."

MEDAL TO OPERATOR 11,000 MILES AWAY

Malcolm P. Hanson, With Byrd
Near South Pole, Hears
Tribute.

One of the most striking methods of making an award of merit ever devised was the recent presentation of the Veteran Wireless Operators' Association medal to a speech by David Sarnoff in New York to Malcolm P. Hanson, radio operator with Byrd, listening by radio in the Antarctic wastes near the South Pole.

Mr. Sarnoff, Executive Vice-President of the Radio Corporation, protesting Hanson, mentioned also the tribute of the wife of the operator, who had consented that her husband go on the hazardous expedition for the sake of science. After she had received the medal for safe keeping, Mrs. Hanson, deeply touched, spoke to her husband across the vast distance. Within a

few minutes Hanson's reply came by radio-telegraph through the receiving station of R. C. A. Communications, Inc., at Riverhead, Long Island. In addition to thousands at the Radio World's Fair, where the presentation was made, an uncounted throng heard the tribute over the network of the National Broadcasting Company.

"It is my privilege," Mr. Sarnoff said, "to pay tribute tonight to a man who has made an unusual contribution to science and civilization. Although he is 11,000 miles distant from this glass-enclosed room in Madison Square Garden, where I now stand, he is nevertheless able, through the instrumentality of radio, to listen to the sound of my voice. That 'at alone is worthy of commemoration, even in this day of extraordinary progress in science."

"Malcolm P. Hanson, as Chief Radio Operator of the Byrd-Antarctic Expedition, you have been awarded the annual medal of the Veteran Wireless Operators' Association, for the most distinguished contribution by a radio operator, in 1929, to wireless communication. As a member of that association, with some knowledge of its romantic traditions and standards of service, I feel that the award is well earned and well deserved."

Mr. Sarnoff related how Hanson planted his slender steel towers on the edge of the great ice barrier, cheered his comrades with news from home

BROOKLYN BAR ASSOCIATION
HEARS N. A. A. C. P. CHARGES
AGAINST JUDGE

New York, Jan. 24.—Pressing their charges against Magistrate Mark Rudich of Brooklyn because he failed to hold trial the petitioner who shot Ralph Baker, Lincoln University student, representative of the N. A. A. C. P. were heard by the grievance committee of the Brooklyn Bar Association this week.

Present for the N. A. A. C. P. were Morris L. Ernst, prominent liberal attorney, who volunteered his services in the case; William T. Andrews, N. A. A. C. P. Special Legal Assistant; and Walter White, the secretary. They reiterated the charges made by letter to Chief Magistrate McAdoo and to the Brooklyn Bar Association, that Magistrate Rudich had favored the petitioner.

The petitioner, who had been a patrolman, had declined to hear witnesses for Ralph Baker and his companion, had urged a civil settlement for \$500, which came close to "committing a crime," and had he not shown due diligence in handling the case.

and gave the world for the first time a thrilling daily account of a polar expedition. Those things alone would have been a contribution to history, he said, but Hanson added to radio knowledge by testing signals against the polar sky, observed the phenomena of the Aurora Australis and made a record of radio behavior under conditions hitherto unknown. To Mrs. Hanson, Mr. Sarnoff said:

RADIO TELEGRAPH EXPANDS SERVICE

Recent additions to the radio telegraph service from the United States are of special interest now as indications that America is striving to hold her own in a radio telegraph leadership, which is made more difficult to maintain by the British merger of radio telegraph and cables. The announcement that R. C. A. Communications, Inc., will begin work at once to establish an inland telegraph network in fourteen strategic cities in the United States, with plans for 29 inland stations, as well as ten others granted, also has added to the country-wide attention to this modern means of communication.

Within the last few weeks three new direct international circuits have been announced by W. A. Winterbottom, Vice-President in charge of Communications of R. C. A. Communications, Inc., to Spain, Syria and Costa Rica.

Several reductions of rates for radio telegraph service also have been announced recently by Mr. Winterbottom. It was the competition of radio telegraph which forced a reduction of cable rates by which users have saved \$60,000,000 in the last eight years.

SAN FRANCISCO, Jan. 30.—Filipinos were barred Wednesday from California boxing rings as a precaution against further race trouble in the state.

Omaha Business Man Dies After Long Illness

OMAHA, Jan. 31.—James G. Jewell, prominent business and fraternal leader, was buried at Forest Lawn cemetery, Friday, following funeral services at St. John A. M. E. church.

Mr. Jewell died at Wise Memorial hospital last Monday after an illness of several months. Rev. W. C. Williams, a former pastor of the church, officiated at the services, being assisted by Revs. I. S. Wilson, John Albert Williams, Higgs, Long, Jackson and Burhardt.

The funeral was one of the largest ever held in the city and was attended by members of both races.

Mr. Jewell was born in Mississippi in 1873 and came to Omaha in 1888. For a number of years he was employed as a Pullman porter. He opened a poolroom and barber shop here in partnership with S. T. Phannix, which he continued until three years ago. Mr. Jewell then turned to real estate investments and in 1923 erected the Jewell building at 24th and Grant Streets, at an estimated cost of \$50,000.

Surviving Mr. Jewell are his widow, Mrs. Cecelia Wilson Jewell; a son, James Calvin Jewell; daughter-in-law, Mrs. Carrie Harrison Jewell; sister, Mrs. Dora J. McDermon, and a nephew, Arthur Jewell Wilson of Chicago. Other relatives in Chicago are W. T. Thompson, Mrs. Lewis Sykes and Mrs. Anna Jewell.

FLEEING MAN CAUGHT BY A RADIO PICTURE

Constantin Queruben has a chance today to share a certain pride with the old crowd character in Bayard Vellier's famous play, "Within the Law," in that he introduced a new era in criminal history. Vellier's character boasted that he was the first man to use a Maxim silencer in shooting his victim. Queruben was the first man captured by detectives by means of a radio photograph.

The chase after which Queruben is being taken back to New York to face charges of swindling and forgery extended over 6,500 miles and ended in Honolulu harbor. The sleepy Filipino was roused from his berth at 5 o'clock on a recent morning and identified positively by a facsimile radio photograph, taken from an original in the files of the Bureau of Information in New York Police Headquarters and projected 2,500 miles across the Pacific Ocean by the Radio Corporation of America.

Fearing that fight gatherings at which Filipino and white boxers were permitted in the same ring, might be turned into riots, William H. Hanlon, chairman of the state boxing commission, telegraphed all promoters to obtain substitutes for Filipinos already engaged and to book no more of the islanders until further notice.

Hanlon said crowded fight arenas "seem ideal places for creating of riots." He was particularly fearful of the consequences should a Filipino boxer win a victory over a white opponent.

Fuller, Religious Leader at S.U.I.

By L. B. White, Student

When a grave problem confronts a community and that community or its boundaries fails to meet the problem, the social welfare of each and every human in that community is directly or indirectly affected. So in Iowa City, where the Negro student population of the University of Iowa is over one hundred souls, the long neglect of certain local church leaders to construct an effective social or religious program which would attract the intelligent young students on the campus has heretofore retarded the cultural growth of the local community life.

The appearance of Rev. E. L. Fuller at Bethel A. M. E. in September not only marked a new era in the history of this church, but in the extra-curricular activities of the Negro students. After finding his desires to

enlighten the interests of the students in the church proper thwarted by a few citizens—whose ideas were at variance with his, Rev. Fuller sought to establish a Social Center after resigning from direct pastorage of Bethel. His hopes were to found an institution dedicated to Christian ideals in the workings of which employment would be afforded those students who needed assistance; religious services conducted weekly by a fully ordained minister; a culinary department offering board for students at a minimum of cost—in short, he has sought to actively personify the most urgent needs of Negroes attending the University as well as those residents of the town. And in the seeking Rev. Fuller has surely found some of these aims. Through his sole efforts the Carey Social Center has been founded, and is at this writing functioning in Iowa City. Employment is now provided for some five students and board for over forty students.

Undoubtedly Rev. Fuller's contribution to the social and religious life of this town is being felt by those who need to be affected by real vital leadership and a practical institution. This was partly evidenced Sunday, Jan. 12, in the recent election of Rev. Fuller to the office of Chaplain of the student Forum, the largest organization of Negro membership on the campus of the University of Iowa. The unanimous vote received by Rev. Fuller illustrates how this man has struck an answering note in the hearts of all the students on Iowa's hearts.

PRESSURE COOKER BIG AID IN HOME CANNING

Summer is here with all its luscious fruits and tender green vegetables and every housewife's thoughts are turning to canning.

The ideal canner is the pressure cooker, which is recommended by the U. S. Department of Agriculture. Foods canned in this cooker are sterilized at temperatures much higher than boiling point. Higher temperatures give added safety in the canning of such vegetables as peas, beans, and corn.

In addition to making for safety in canning, pressure cookers save time and fuel.

Famous Tournament

The originator of the idea of the tournament of roses in Pasadena was the late Prof. Charles Frederick Heider. The first tournament was held January 1, 1890, and it has been held the first of January ever since.

The Des Moines Interracial Commission, which has been in operation in this city for the past five years will observe Race Relations Sunday on February 9th at Plymouth Congregational Church, 41st and Ingersoll Ave.

The feature of this meeting will be the appearance of the Fisk Jubilee Singers who are of world fame and finished artists in the line of the singing of Negro Spirituals.

The meeting will be in charge of the Committee on Church Relations, and is composed of Revs. Clifton E. Rash, Chas. S. Medbury, Geo. W. Robinson, Stoddard Lane, H. L. Overton and Mrs. Lillian Edmunds.

"Black Crows" in Court As Split in Cast Occurs

LOS ANGELES, Jan. 31.—The famous team of Moran and Mack, known as the Two Black Crows, has separated and George Moran, whose real name is George Searcy, has obtained a restraining order against Charles Mack, whose real name is Charles E. Sellers, from using Moran and Two Black Crows in further acts.

Mack originated the act in 1917 and since then has had several partners. He and Sellers sued Moss and Fry, well known race performers, five years ago to prevent them using the name Black Crows, which the Race team is said to have had previous to the white team. The courts granted the white team the exclusive right to the name.

"Black and Tan" Dancing Popular in Gay "Paree"

PARIS, France, Jan. 31.—The Race ball room in Rue Blomet has proved so sensationally successful that opposition dance places with a "black and tan" clientele are springing up in Montmartre.

However, these new places are not getting the play that the one in Rue Blomet gets because the latter has a balcony where white "rubbernecks" from America can stare to their hearts' content at the probably horrifying spectacle of white women dancing with dark men and vice versa.

DR. W. F. BOTTS LAID TO REST IN OMAHA

OMAHA, Jan. 31.—Funeral services were held here Thursday for Dr. W. F. Botts, well known Baptist clergyman, who died in Arizona. Dr. L. K. Williams of Chicago, national president of the National Baptist Convention, Inc., officiated.

Dr. Botts was buried by Zion Baptist church, the \$100,000 institution of which he was organizer, builder and pastor for the past 18 years. He was former vice president of the National Baptist Convention, Inc., and was moderator of the New Era Baptist association of Nebraska, of which he was the organizer. Survivors are his wife, Mrs. S. A. Botts, and a brother, Rev. H. W. Botts of St. Paul, Minn.

Jobs Must Be First

The Bystander wishes to call attention of the Negro voters of Iowa to the fact that whatever consideration they get out of politics must come in the primaries for the election in November is simply a ratification of the spring voting. It is well to remember that each one of these candidates has from one to one hundred jobs at his command and that as taxpayers you are as much entitled to them as anyone else.

It is further well to remember that all these candidates are making deals with other people in consideration of their votes and that he might as well deal with you some too.

The Bystander has adopted as its slogan "more jobs for Negroes in public offices in Iowa". We expect the help of everyone in putting over this program. Now is the time to begin.

A GOOD SUGGESTION

Congressman Oscar DePriest stated in an address before the labor group meeting in Chicago that the United States has been heard from this proposal of Mr. DePriest and yet it is one which should have marked consideration.

In spite of our prosperity millions have been idle for several years. With the invention of machinery and the efficiency attained in the great industries, jobs have not increased in proportion to our growth in population.

Cessation of immigration would serve as a means of equalizing the jobs with American man power. This country should not continue to take more foreigners on the ship when already it is well loaded.

TWO GOOD PROGRAMS

The Des Moines Interracial Commission is sponsoring the appearance of the Fisk Jubilee Singers here on Feb. 9th. The Forum composed of the Roosevelt, Monarch, Rock Island and Automotive Workers clubs is sponsoring the appearance of George S. Schuyler, noted journalist and feature writer for the Pittsburgh Courier. Mr. Schuyler will discuss "The Negro in Politics". It was the Interracial Commission which sponsored the appearance of Congressman DePriest last fall.

These organizations do a fine service for the citizens of Des Moines by bringing these two splendid appearances to the city for they not only provide wholesome entertainment and instructions but give the City of Des Moines a good reputation. Both the Fisk Singers and Mr. Schuyler are well worth hearing.

Evansville, Ind., Jan. 23—Ernest Tidington, nationally known attorney and political diatribe of the race in Evansville, was shot to death here Wednesday night by Luther Bell, as he sat in his automobile. Bell surrendered to police and said he killed Tidington because of the latter's "political persecution" of him.

The Negro in America

By J. G. Browne

We are all beginning to realize how much we are appreciated in our respective communities just now. The morning mail brings us letters of thanks from office holders and announcements from office seekers, both soliciting our support in the coming elections.

The Negro voters of Des Moines owe nothing to the office seekers and in too many instances we owe less to the office holders. Our civil rights are denied us in public places of amusement and recreation if the law is invoked in our behalf the penalties are set aside through the connivance of those very officials whom we helped elect to administer those laws. Negroes have been abused, insulted and ignored by these officials, when they approached them for work after election, and now they are adding insult to injury by sending us letters and asking our continued support upon their record in office.

We have a mighty weapon of defense if we are intelligent enough to use the ballot. Through the united effort of the Negro vote many of these people who will be so polite when they see us from now until election only can be eliminated in the primaries. That is our opportunity, so we are urging every man and woman of voting age to go to the city clerk's office in the Municipal Building, between now and that time and see that you are registered, and then come to the Forum meeting and be advised. Individually we are helpless, but in union there is strength. We are not seeking a few dollars during the election but we want the opportunity to earn a living after the elections are over. In other words, we want to talk turkey with the cranberry merchant before Xmas, not after.

We want to inform some of these office seekers who think so much of our vote before election how much we think of the opportunity to work in some capacity under their supervision after election, and do some trading.

We want, prosperity, lower taxes, cleaner streets and evaporated prohibition or three per cent beer.

Come to the Forum meetings where we are trying to establish open diplomacy in the political efforts of our group in Des Moines.

Hear the eminent journalist, George Schuyler, at St. Paul A. M. E. Church, Tuesday, Feb. 18, speak on "The Negro in Politics," and hear what is being done and how it is being done. Join the Forum and help make the "City of Certainty," "City of Reality" for our group.

OBSERVATIONS IN IOWA CITY

By John L. Thompson

While in Iowa City for an operation or observation the first week in January 1930, at the University Hospital as a private patient of Dr. Alcock, I had an opportunity to observe the colored people as a whole, being an Iowan and intensely interested in the colored students at this great institution of learning. I am told that for equipment and modern paraphernalia to instruct the students, that there is no institution better and our instructors rank among the best. Their hospital facilities and equipment are wonderful. None better in this country, but I want to speak more in particular about the colored people here.

There are about 75 to 100 colored citizens living there. Of that number, some are doing well. Mr. Hal Short is one of the most successful business men of the group. He runs one of the largest and finest shoe shining and repairing shops in this state, employing from 10 to 30 people of all nationalities. His shop is in the heart of the business section. He has been there for more than 20 years and recently has bought the building where his shop is at a cost of \$14,000, paying cash. This one example just shows what economy and stick-to-it-iveness will accomplish. He has also bought another business building in Iowa City.

Mr. Joe Williams has organized and built up a big auto wash and storage business in this city. He owns the building in which he can store 150 cars, besides his modern wash stall. Mr. Williams has the largest trade of any auto storage in this city. Beginning here about 10 years ago, he now employs 10 uniformed men and boys, all colored. Any person should be proud of these two successful business men.

The Rev. Mr. C. L. Fuller, an A. M. E. minister, has recently opened the Carey Service Social and is doing very

JAUNDICE

Jaundice means always some disturbance in the liver or the gall bladder which is considered part of it. In this condition there is always a yellow discoloration of the skin and mucous membranes (the lining of the mouth), or of the eyeballs. Whenever this symptom appears it calls for attention as some forms are serious beyond any imagined degree.

Those types of jaundice however, that are serious have some accompanying symptoms such as loss of appetite, weakness and sometimes some disturbance in the stomach. Cases which are not serious present usually no other symptom except the jaundice itself with one exception. This one exception shows nothing in the beginning except this discoloration of the portions mentioned. The presence of gall stones may be made manifest by this symptom alone but usually there is enough pain to make the diagnosis of gall stones without the X-ray picture but these stones are seen very plainly when present in a picture made of the gall bladder. Whenever jaundice is present the liver is at fault, is not functioning properly and needs attention of some kind, best suited to the particular disease condition existing.

Jaundice exists in children at the time of birth occasionally but may come on weeks after. It has been found to be due to an infection in some cases especially in older children and it is not improbable that the failure to the water they drink may be the error which introduces this infection into the system. Germs that would produce no disturbance in grownups can cause infection in children who do not have the resistance acquired by age. Although jaundice may cause no discomfort or inconvenience its true nature or always to be known so that any future disability that might arise from neglect can be avoided.

well serving our group of students their lunches or meals, a much needed business. Mr. Donegan, an old citizen is doing well. He has charge of some business houses. He has furnished labor for students. I am informed that there are about 100 colored boys in the State University and about 25 girls. Students come from many states in the United States.

BEAUTY TYPES

By Luther H. Smith

It is a fact that though all of us have eyes, yet no two of us see an object identically alike. It is also true that each kind admires its own. For example, a bull age will see more attractiveness in the features of a she of his particular species, than he could discern in the wrinkled countenance of a chimpanzee. So it is quite natural that Prof. Reuter, being a white man, believes that all humans must see that the perfection in beauty is to be found only in the pale features and cold gray eyes of the caucasian female.

Some years ago while selling imported colored dolls to the trade in New York City, I called upon a certain manager of a department store. He said he was not interested in my line. In fact he said, he could not see why any colored child should wish a colored doll when white dolls were available. The professor might change his views if he could see the photographs and newspaper cuts of numerous colored stage and society celebrities when adorned in homes and bachelor quarters of Negro men and women. Personally, I still hold that the flowers of American beauty, like its best music, is to be found among the darker inhabitants.

Hardly Cheerful Greeting

A large number of travelers never actually see the beautiful scenery and monuments whose pictures they send home on post cards. One card showing a photograph of a view in Persia in Chastis cemetery reads: "Having a lovely day. Wish you were here!"

Broadcasting Will Aid World Harmony

A future in which races throughout the world will use English as a secondary language is envisaged by General James G. Harbord, who was Chief of Staff of the A. E. F. and now is President of the Radio Corporation of America, writing on radio as an instrument for promoting international understanding and peace.

Since the greater and most important part of the world's broadcast entertainment is offered in English from America and the British Isles, radio has provided the strongest incentive in history for many races to master a common tongue. General Harbord points out:

"We must not forget," he says, "that the nations' confused tongues has in itself been one of the most fruitful sources of international division and misunderstanding. People distrust what they do not understand; let them develop a common medium of communication and still another cause of human progress."

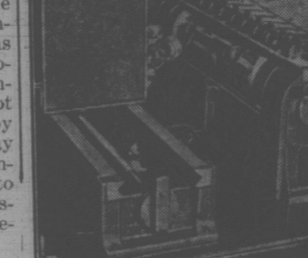

Radio and its allied science, television, will prove as valuable and perhaps more valuable than all diplomatic conferences in assuring universal peace for the future. General Harbord believes.

PHOTORADIO MAKES STRIKING ADVANCE

Photoradio has made such strides recently that it promises more than ever to fulfill some day the forecast of Owen D. Young at a dinner given in 1923 to General James G. Harbord, President of the Radio Corporation, that it eventually will make it possible to flash whole pages of newspapers across the ocean.

The most recent developments are the simplification of photoradio apparatus, greater speed and the reduction in rates between New York and London which just has been announced by W. A. Winterbottom, Vice-President in charge of communications of R. C. A. Communications, Inc. The reduction was made possible by the simplification and the greater speed. The new rate is figured in centimeters.

The "heart" of a high speed facsimile transmitter

but is approximately \$2 a square inch. The old rate was \$2.50 a square inch. The accompanying cut shows the group of lights, called the "doughnut light," which center illumination on a point on the picture or printed matter placed on a roller across from them. This light beam is reflected from the picture or printed matter into the photocell box behind the lights. The "doughnut" is on a carriage which moves across and back in front of the roller. After every trip the carriage makes a jump one side to the other, the roller turns ever so slightly.

As the spot of light from the "doughnut" passes back and forth the lightness and darkness of the points it touches change the intensity of the reflected beam. The reflected beam produces electrical impulses, which are amplified, sent by radio to a receiver hundreds of miles away and changed by the receiver to electrical impulses again. These electrical impulses cause a neon light to glow at intervals timed perfectly with the picture on the transmitter. The glow of the neon light is reproduced on photographic paper, placed in the same position on a roller on the receiver that the original is in on the transmitter. Thus an exact duplicate of the original is made.

COWS GIVE MORE MILK BY RADIO

The first test under practical dairy conditions of providing radio music for cows has proved a big success, according to officials of the Detroit Creamery Co. in Piquette, near Mount Clemens, Mich.

The creamery company officials bought RCA loudspeakers for each of their barns when they noticed the cows liked the music from a Radiola receiving set installed to entertain the men doing the milking. Now all the 500 cows on the model farm enjoy radio programs.

Moton Asks Gov't For Supervision

Washington, Jan. 23.—The possibility of federal supervised settlements of Negroes in the south was the subject of a lengthy discussion between Dr. Robert R. Moton, president of Tuskegee Institute and President Herbert S. Hoover here Thursday.

Moton said he found the chief executive sympathetic with the proposal of reclamation service, which would create co-operatively-owned and run rural settlements in the south.

The head of Tuskegee also said he had urged the President to disregard party lines in the appointment of a judge to the middle and northern districts in Alabama.

He said he had recommended no one, but that, in view of the fact there were more race citizens in that district than any other district in Alabama, he hoped that the President would see fit to choose the best possible man regardless of whether he was a Democrat or Republican.

ANNOUNCEMENT

Wm. E. G. Saunders of Emmetsburg has announced his candidacy for Secretary of State, which follows:

I hereby announce my candidacy for the nomination to the office of Secretary of State subject to the approval of the republican voters of the State of Iowa at the primary election to be held June 2, 1930.

Having served in the General Assembly as Representative from Palo Alto County for five sessions (three regular and two extras) and as chairman of the Appropriations Committee in the 42nd, together with over thirty years business experience in this and other states, I feel that I am qualified to perform the duties of that office and if nominated and elected I promise to give my best services to the people of the state of Iowa.

Wm. E. G. Saunders, Emmetsburg.

NOTICE OF DECLARATION OF FORFEITURE AND CANCELLATION OF CONTRACT

TO E. N. CORK AND U. CORK, HUSBAND AND WIFE

You are hereby notified that, at the expiration of thirty days from and after the completion of service hereof, the undersigned, Guy B. Brunk, will declare a forfeiture and cancellation of the contract for the sale by the Bankers Loan and Investment Co. to E. N. CORK and U. CORK of real estate in Polk County, Iowa, as therein mentioned, said contract being more particularly described as follows:

Contract No. 50, dated April 28, 1928, for sixty-four (64) of Beaver Heights, No. 2, an official plat now in and forming a part of the city of Des Moines, Iowa.

The above described contract was assigned to Guy B. Brunk by the Bankers Loan and Investment Co. on the 2nd day of May, 1928. Said forfeiture and cancellation will be made on account of your failure to make the payment of Ten Dollars due on said contract on November 28, 1928, and the further sum of Ten Dollars due on the 28th day of each month since said date to the date hereof, together with interest thereon, also on account of your failure to pay the general taxes in Polk County, Iowa, on said real estate for the years 1927, 1928 and 1929 respectively.

Service of this notice is made pursuant to the provisions of Chapter 927 of the 1924 Code of Iowa, and unless within the said thirty (30) days you perform all of the obligations on your part now delinquent under said contract and make all payments of principal, interest and other sums due, and pay costs of service hereof, and perform all conditions broken, fully as in said contract provided, said contract shall become null and void, and you will be barred and forever prohibited from having, asserting or claiming any right, title or interest in or to the premises aforesaid or any part thereof. Iowa, November 7, 1929.

Telephone Adventures of the Bright Family

"Of Course, You Can't Find It," Said Mom. "You're Using the Old Directory."

"I've looked high and low all through this directory and Sheriff Holmes himself couldn't find Jim's telephone number in it!" Pop said, Mom saying, "Well, of course, you can't find it using the old directory."

"Well," Pop said, "where's the new one? And what's this old one doing here?" And Mom said, "You'll find the new one right in the drawer there." She wasn't home when a new one was delivered, so they couldn't pick up the old one.

Pop found it and saying something about using out-of-date directories, wasn't fair to good dispositions, he took the old directory downstairs and threw it in the furnace, meaning it's best to get rid of old directories and always use the new one.

DECADE BRINGS VAST RADIO CHANGE

Tenth Anniversary of Organization Formed to Foster the Art in America Emphasizes Progress.

The story of a decade in which communication leaped beyond the wildest dreams of years that had gone before is linked with an anniversary which just has been observed. The anniversary, marking the passing of ten years since the Radio Corporation of America was founded, is significant for the entire field of radio because the corporation has been associated so closely with the great changes which have pushed back world horizons.

How great these changes have been it is hard to realize now that radio is accepted casually as one of the biggest of American industries, doing a business of more than \$600,000,000 a year. It helps to bring some realization to consider radio as it appeared to the men who formed the corporation, starting business on December 1, 1919. Broadcasting as it is today, with

GENERAL JAMES G. HARBORD
40,000,000 listeners in the United States, was undreamed of then. Transoceanic radio telegraph and ship to shore communication were the interests of the men who were brought together by Owen D. Young, now Chairman of the Board, with the sympathetic cooperation of the government. President Wilson feared the Alexander Alternator would enable the British to dominate radio telegraph, as they already dominated ocean cables and, at his request, the General Electric Company canceled negotiations for the device with the Marconi Company. It was to create a radio communication organization capable of holding its own against foreign competition and to supply such American organizations as the General Electric with a home market for inventions on which huge sums had been spent that the Radio Corporation was formed, welding under one central organization America's principal radio inventions and research facilities. Now the history of the corporation becomes a story of men, as well as the story of an era. Among them are Owen D. Young, whose broadminded judgment since has been recognized by appointment as Chairman of the Reparations Commission; General James G. Harbord; military leader with a brilliant record in peace and war; President; David Sarnoff, Executive Vice-President, one of many on the company's first roll who had been working in telegraphy since boyhood; Dr. Alfred N. Goldsmith, Director of Research, a scholar of radio. The possibilities of broadcasting suddenly were realized in 1920 and one of the most striking developments of modern times is summed up in the fact that between them and the end of 1922 the number of receiving sets in the United States increased from 30,000 to 1,500,000. In the years that followed the Corporation organized a decade ago to further America's interests in radio telegraph has played its leading part in a changing world. Always developing that first interest in radio telegraph, it has acquired an important position in the closely allied amusement field. It has a substantial interest in the production, distribution and exhibition of sound-motion pictures, with increased facilities for furnishing records, on films, through the air, in the theater and in the home. "The real split between the requirements of rural and city listener-in came with the introduction of the loud-speaker in place of head-phones," says E. A. Nicholas, Vice-President of the Radio-Victor Corporation of America. "Until then the usual battery radio set, especially when operated with dry cells, could serve both rural and city family equally well. With the loud-speaker there arose a demand for more power and better tone, with a decrease in operating cost, all of which led to socket-power. "Now radio engineers have turned to the requirements of the un electrified home, eager to duplicate what has been achieved for city and town. Starting with current conservation as the ideal, they have evolved loud-speakers supplying ample volume and rich tone from a minimum input. "The recent development of the screen-grid tube, with an amplification several times that of the usual three-element or standard battery tube, also has been a step in the direction of the ideal battery set. Indeed, with a single screen-grid tube replacing between two and three of

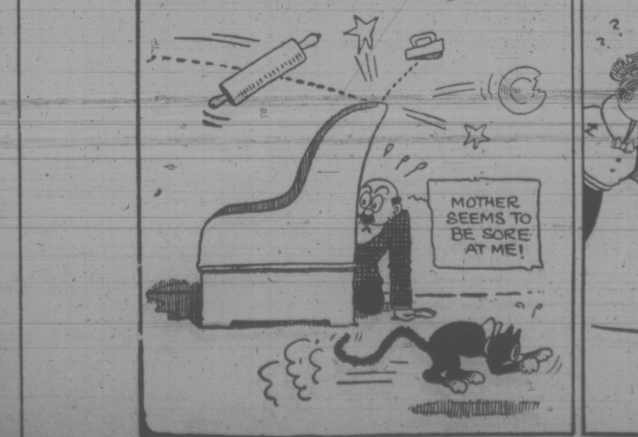

SCREEN GRID GIVES FARM NEW RADIO

One Example of the Newest Battery Sets Which Offer Really Modern Radio to Unwired Homes.

The usual tubes for the radio-frequency end, and, when also used as the detector, replacing the first audio tube a well, battery current consumption has been reduced to new low levels. "These current economies, combined with the possibilities of greater volume and better tone through refined loud-speaker design, have made possible a battery-operated radio set about on a par with the average socket-power radio set, plus the advantage of a noiseless background for tuning distant stations. "The combined engineering and research forces of the Radio Corporation of America have been at work on this new conception of an efficient battery-operated radio receiver. After many months of intensive effort, such Radiolas have been developed. These new sets are not simply revamped versions of old storage battery or dry battery radio sets. They are entirely new conceptions of battery-operated sets, designed to establish rural radio more on a par with metropolitan radio. In sensitivity, selectivity, simplicity, economy, tone and power, there is little more to ask."

The Newspaper
We wonder just how many people realize the high cost of the production of a newspaper. Be it ever so small, just the same number of steps must be taken in order to produce it. Regardless of whether any business comes in during the week or month, it must come out with regularity, if it is to be of any influence.
Take the colored newspaper. In cities where there is a large population of colored people, the task is great and in cities where the population is very small, comparatively speaking, the task is very difficult indeed, especially if that few is divided in its opinion—with regard to the paper's support.
Sometimes we hear the expression "the paper had no news in it."
Some may be of the opinion that no news came into the editor's office during the week. It is hardly true that is the reason, for there is a constant stream of news—and good news—from reliable sources—that pours

into the editor's office. But the average small newspaper does not print news because, it costs cash to set it up. It costs a whole lot, too, every word set up costs—that is why an article that comes to the editor a page long, may be reduced to a mere "telegram" when it appears in the paper.
However, if all the Negroes in any given community would support their home town paper by subscribing to it and urging others to do like wise in its columns, the newspaper could print a great deal more news than it does.
The average small newspaper expands at least \$20 per month for linotyping church news alone. Add to this the fraternal news, social news and what-not and one can readily see how it mounts up. For this news, with the exception of the church news, the other hand, the newspaper editor expects that these various organizations and individuals that it serves will in some way, show their appreciation by supporting the paper with their subscriptions and moral backing, and by urging others to support it in every plausible way.

IN MEMORIAM

In loving memory of our darling daughter and sister who departed this life February 9, 1926.

Lome's Exaltation

"Oglebe, personification of love;
Our tribute of self-determining style,
In all our activities, cares, grief or smiles,
While you softly sleep dear mother,
Away from sorrow and care,
We are lonely oft-times weeping,
For we miss you everywhere.
Rest in peace dear mother,
For your work on earth is done,
You have gone where those that love you
Will meet you one by one.

OBITUARY OF HENRY STANTON

Henry Stanton, the son of Mr. and Mrs. G. W. Stanton, departed this life Sunday morning in the Daily Sanitarium in Chicago, Illinois, where the family moved about two years ago. Mr. Stanton's death was a very sad one, having been run down by an auto truck. Several years ago he connected himself with this church and was a member of its Usher Board. Henry did not remain as active in the church as he might have been, but while in the Sanitarium he told his mother he was praying and when asked by her if he thought his soul would be saved if God took him, he answered unhesitatingly, sure.
He was conscious to the end and when the end came he quietly breathed his last with the entire family at the hospital, other than his two brothers G. F. Stanton of St. Louis and Harry Stanton of Indianapolis, Ind., who had not been called to Chicago. Henry had been entertained for Henry's recovery to the last. The operation Saturday afternoon was beyond his strength.
He leaves to mourn his departure Mr. and Mrs. G. W. Stanton, his father and mother; three sisters, Selma Brown, Estella Isaac and Mary Wiley of Chicago; two brothers, G. F. Stanton of St. Louis and Harry Stanton of Indianapolis, Ind., two nephews, Fred Stanton and Ulysses Grant and a niece, Almeta Stanton, other dear relatives and a host of friends.

CARD OF THANKS

We wish to thank our friends and neighbors for their kindness shown at the time of the death of our dear son and brother, Henry Stanton. We also wish to thank them for the floral offerings. We wish to thank Mr. Tug Wilson for his kind service.
Mr. and Mrs. Geo. W. Stanton and Family.

OBITUARY

Chas. Wilson was born April 21, 1876 at St. Joseph, Mo., and departed this life Jan. 31, 1930 at the age of 53 years, ten months. He lost his mother at an early age, came to Des Moines 35 years ago and remained until his death.
Mr. Wilson was married to Florence Payton, Feb. 13, 1908. Three children were born to this union. He leaves a devoted wife, three sons, Chas. Eugene, age 17; Marshall William, age 11; also three sisters, Maude Plenty of Los Angeles, Calif.; Iona Banks and Grace Phelps of Nashville, Tenn., one brother, Ira Wilson of New York and other relatives and a host of friends to mourn his departure.

CARD OF THANKS

We wish to thank our many friends and neighbors for their expressions of kindness shown at the time of the death of our husband and father, Chas. Wilson, also for the floral offerings sent, Rev. H. L. Overton for his kind remarks, also Mr. Tug Wilson of the Wilson Funeral Home, and assistants for their efficient service.

IN MEMORIAM

In loving memory of our dear mother, Margaret Rhodes, who passed away, Jan. 31, 1926.
Gone dear mother, gone forever,
How we miss your smiling face,
But you left us to remember,
There is none on earth can take your place.

CARD OF THANKS

We wish to thank our many friends and neighbors for their kindnesses shown at the time of the death of our brother and friend, Waverly Jones, also for the beautiful floral offerings. We also wish to thank Mr. Tug Wilson of Wilson Funeral Home, for his efficient service.

George Schuyler, noted journalist and special feature writer for the Pittsburgh Courier, will deliver an address at St. Paul A. M. E. church February 18, subject "The Negro in Politics".

Mr. Schuyler is a native of Rhode Island having graduated from the public schools of Syracuse, N. Y. He spent several years as chief clerk in the U. S. Barracks at Governor's Island. Early he became identified as a contributor of many sociological and satirical essays in The Messenger and the Pittsburgh Courier and was at one time editor of the Illustrated Feature Section carried by The Bystander and a number of other papers. He has traveled extensively and has contributed to such magazines as The American Mercury.
The meeting is under the auspices of the Forum which is composed of the Roosevelt, Monarch, Rock Island and Automotive Workers' Clubs.

At the sixth annual meeting of the Des Moines Interracial Commission held at the Y. M. C. A. last week, Col. Casper Schenk was for a third time unanimously elected as chairman, with Atty. S. Joe Brown as Vice Chairman and Geo. W. Webber, general secretary of the Y. M. C. A. as Secretary and Treasurer.

The executive committee includes these officers and in addition thereto Rev. Clifton E. Rash, Mr. H. T. Steeper, Rev. Geo. W. Robinson, Dr. J. Alvin Jefferson, Miss Effie E. Doan and Miss Ruth Marie Brown.
The commission is composed of about fifty members, equally divided between the men and women of the two races and was the instigator of the "Good Will Manifesto" issued just prior to the Christmas season, calling upon the members of each race to be more tolerant in their treatment of the members of other racial groups, which "Manifesto" as published in the Des Moines Tribune-Capital of Dec. 20th, was copied and commented upon by many newspapers throughout the country.

The commission also voted to send Mrs. S. Joe Brown, a member of the church Women's Committee of the Federal Council of Churches of Christ in America and Miss Effie E. Doane, Secretary of the Family Social Service, as delegates to the Church Women's Conference which convenes in Oberlin College June 20th to 22nd next.

The Rev. William E. Guy, D.D., of Lansing, Michigan, arrived in the city last evening to assume the pastorate of St. Paul A. M. E. Church at 12th and Crocker streets, succeeding the Rev. C. M. Tanner, who was transferred to Wayman Chapel, Chicago, after a brief pastorate in this city of only about three months.

The Reverend Mr. Guy is one of the most progressive of the younger men in the A. M. E. Connection, having been in the ministry only about

N. A. A. C. P. PRESSES CHARGES AGAINST BROOKLYN MAGISTRATE

New York, Jan. 17—A letter was addressed today to William McAdoo, Chief Magistrate of the City of New York, by the N. A. A. C. P. asking Magistrate McAdoo what action "has been taken or is to be taken" upon the charges filed by the N. A. A. C. P. against Magistrate Mark Rudich who on September 9th in hearing the case against Patrolman Walter Lowe on charges of shooting Ralph Baker, Lincoln University senior, summoned the defendant and plaintiff into his private chambers and there urged a cash settlement on a criminal charge. In a lengthy citation of charge of malfeasance against Magistrate Rudich, filed on January 11th, Walter White, acting Secretary of the N. A. A. C. P. alleged that the Magistrate in urging a cash settlement was guilty of "compounding a crime." The Advanct Association further alleged that Magistrate Rudich acted more as an advocate for Patrolman Lowe than as an impartial dispenser of justice.

Walker Holds Up Appointment
In its latest communication the N. A. A. C. P. presses its charges against Magistrate Rudich, whose reappointment as Magistrate is being held up by Mayor James J. Walker pending decision upon various charges which have been made against him and which

are now being investigated by the Brooklyn Bar Association. The Advanct Association has also placed its charges against Rudich before the Bar Association. It is announced by the N. A. A. C. P. that it will exert every effort to secure action by Chief Magistrate McAdoo and the Bar Association against Rudich not only that he may be disciplined for his action in dismissing the patrolman who shot an innocent man but also for its

Arthur Johnston of Miles Heights Village Honored by Three Thousand

Cleveland, O., Jan. 23—Inaugural balls are common as far as governors and presidents are concerned. But in Cleveland last night was given an inaugural ball for Mayor Arthur Johnston of Miles Heights Village, Ohio's only Negro mayor. The ball was held under the auspices of the Miles Heights Chamber of Commerce at the Elks' hall.

"Twas a mighty throng of nearly 3,000 happy souls that gaily danced to the strains of Al Jenkins' Cotton-Pickers in the main ballroom and to John Doway's Musical Monarchs in the cabaret. Political Cleveland was out en masse—the three councilmen, Payne, George and Bundy—were there with their wives. Mr. and Mrs. Alexander H. Martin were among the crowd; Mrs. Lethia C. Fleming; the three county commissioners, J. H. Harris, Walter F. Cook and Jerry R. Zmunt.
