#### THE BUNDLE DRIVE

The various veterans organizations of the city have combined in an effort to put over a bundle drive. It is probable that this bundle drive will be an annual affair. These bundles will be collected during the week of the 15th of December. Collection stations will be located in various parts of the city. For our group a bundle station will be established at the Community Service, 15th and Crocker Sts., Telephone 3-4634.

In the past our group has shared very generously in the benefits of charitable movements. Here is a splendid opportunity to do your bit for the other fellow. Each of us has some articles of wearing apparel that it would not be too great a sacrifice to part with and that someone else would be happy to receive. To say nothing of having a lot of articles that are useless to us and the rest of our families. Begin to collect them now. Watch the press for mediums of collection and get your packages turned over to the collection station. In due time the packages will be taken from the various collection stations and assembled at a central distribution point from which they will be distributed to the needy. Let's do our share.

#### THE POST OFFICE JOB

For several years we have had a colored man as Postmaster at the State House. His appointment comes through the Executive Council made up of the Governor, Secretary of State, Treasurer, Auditor of State and Secretary of Agriculture. The new council will assemble shortly after the first of the year. It is reported that there are two colored candidates and three white ones for the office of Postmaster and the rumor persists that one of these white candidates is going to get it.

Negroes of this state have practically no representation in the State House and to take from us any of the little dab that we now have is certainly unfair to the Negro voters of the State or to take this Post Office job and to give us another janitorship is certainly not fair. As a practical proposition one or the other of these Negro candidates should withdraw and the efforts of all of us should be concentrated back of one candidate.

### African Ruler Will Abolish Slavery

ADDIS ABABA, Ethiopia, Dec. 12.—Emperor Haile Selassie, the one remaining independent kingdom in Africa has named as his one definite ambition the abolition of slavery in his domain. As difficult a task as this appears, the former Ras Tafari, who was crowned 34th ruler of Ethiopia in November, declares that he will accomplish it.

The attitude of the emperor regarding slavery marks the first real effort ever made by a ruler of Ethiopia to wipe out slavery completely. Although Ethiopia has been a member of the league of nations for more than seven years, the slave traffic has been carried on, if not with actual help of the government, certainly with its knowledge and tacit consent.

### Interracial Group Plans Work for Another Year

By Mrs. S. Joe Brown, Chairman Publicity Department

On last Monday evening the Des Moines Interracial Commission instead of a set program, at its monthly meeting in the Y. M. C. A. Cafeteria, held an open forum. Each member was given an opportunity to give his or her estimate of the success of the work of the Commission during the year that is just closing and also to make any suggestions he or she might have with reference to any new features that should be added during the year 1937.

All agreed that the work of the past year had been quite successful, as in addition to continuing its activities along the lines begun five years ago, the Commission has during the year become one of the four major departments of the Des Moines Council of Churches, along with the Des Moines Ministerial Assn.; the Polk County Council of Religious Education and the Des Moines Federation of Christian Young People, with its chairman a member of the Executive Committee of that city-wide organization comprising more than fifty churches and other religious organizations.

Among the new objectives suggested for the coming year were: a recommendation to the Council of Churches, for a city-wide observance of Race Relations Sunday, the 2nd Sunday in February; an effort to have added to the curriculum in the high schools and colleges of the city a course in Race Relations, such as is now being given in many other cities; and a systematic effort to get before the youth of both races more information regarding individual Negroes who have actually accomplished things worth while.

A committee was also appointed to meet the City-wide Committee on unemployment and to urge upon that committee the claims of the Des Moines Negro to his proportionate share of employment.

Dr. Stoddard Lane of Plymouth Congregational Church; Miss Margaret Esters of the Juvenile Court; Miss Maude Woods, Chairman of the Blue Triangle Y. W. C. A.; Miss Jean Flinkinger, General Secretary of the Y. W. C. A.; and Mrs. H. H. McCoy, Chairman Race Relations Dept., Y. W. C. A., were newly elected members present at this meeting.

### Walker Household Goods Not Sold for Mortgage

Indianapolis, Dec. 12.—The furnishings of Villa Lewaro, the 24-room mansion of the late Mme. C. J. Walker, were not sold to satisfy nor to raise money to pay a mortgage of \$15,000, stated attorney F. B. Ransom, attorney and manager of the Mme. C. J. Walker Manufacturing Company, to a Chicago Defender reporter.

"We are closing the villa preparatory to the sale of the same for the sole reason that Mme. A. Lella Walker has never occupied and does not intend to occupy the villa as a home."

"The upkeep of the house was just as costly without her using it as a residence as it would have been had she lived there since we kept a full corps of servants on the premises, paid salaries, purchased food, etc., Attorney Ransom added.

### Cohen Must Fight to Hold Job

NEW ORLEANS, Dec. 12.—Facing the most serious fight made on his position since his appointment as commissioner of customs, Hon. Walter L. Cohen left for Washington, Saturday.

Appointed originally to the commissionership by the lamented President Harding, his confirmation was successfully fought by the Louisiana Democratic senators and President Harding gave Mr. Cohen a recess appointment. After the inauguration of President Coolidge, Mr. Cohen's name was again sent to the senate for confirmation and a precedent was set when the senate finally confirmed him by a margin of one vote and overturned the rule of senatorial courtesy whereby previously no confirmations were made when a senator made the plea that a nominee was personally objectionable.

Mr. Cohen's term of office expired during the Coolidge administration and because of the narrow Republican majority in the senate his reappointment was permitted to retain his office under the terms of his original appointment which ran until a successor is nominated and qualified.

When President Hoover was elected and inaugurated, Mr. Hoover retained Mr. Cohen in his post by simply refusing to nominate another candidate for it. In recent months extreme pressure has been brought to bear by white men nominated for the Cohen position.

Dale A. Griswold is Chairman of the General Committee for the Drive. The Service men of the city are handling the collection of old clothes and the Welfare Agencies of the city will attend to the distribution of the clothes collected to the needy of Des Moines.

There will be six main collecting depositories located as follows: WEST DES MOINES—1210 W. Grand Ave., in charge of the Salvation Army. Basement, University State Bank Bldg., 24th and University Ave. EAST DES MOINES—Lobby of the Capital City Bank Bldg., E. 5th and Locust Sts., in charge of the Family Social Center. Lincoln Post of the American Legion will have a collecting station at Community Service Bldg., 15th and Crocker Sts., in charge of Lincoln Post and Malvern Hill Barium Post V. F. W. Schools, American Laundry, O'Dea Motor Company are collection stations also.

Every family in Des Moines which has old clothes is requested to take them to their nearest school or one of the main collecting depots during the week of December 15 to 22. All bundles taken to school houses must be well wrapped in paper. The Welfare Agencies state that there is a great demand every month of the winter season. If every family in Des Moines would take the old clothing that they now have hanging idle there isn't a poor person in the city but who would be better and more warmly clothed than they are at the present time. The Service men of the city have assumed the responsibility for collecting the clothing and the Welfare Organizations, through the Public Welfare Bureau, will handle all of the distribution.

Take Your Bundle to Community Service, 15th and Crocker Sts.

### Kid Chocolate Is Betting Favorite in Title Bout

NEW YORK, Dec. 9.—Kid Chocolate is only an 8 to 5 choice to lift the featherweight title crown from the head of Bat Battalino, the present champion, in their 15-round bout here Friday night, December 12, at Madison Square Garden.

The present consensus of opinion among the wagers is that if the Cuban had landed the title go a month back he probably would have been a 3 to 1 favorite.

The champion, who has been doing the topnotchers in his class ever since he won the championship from Andre Rontis of France a year or so ago, is expected to battle like a cornered wolf for his ratings as the King of the 126-pound division.

#### N. A. A. C. P. SHARPLY SCORES HOOVER'S NAMING OF DOAK

New York, Dec. 5.—President Hoover's nomination of William N. Doak to be a member of his Cabinet as Secretary of Labor, brought today a sharp public letter from the N. A. A. C. P. condemning the appointment on the ground of Mr. Doak's and his union's anti-Negro attitude.

"We recognize the right of the President to appoint his official family," says the N. A. A. C. P. statement released by Acting Secretary Walter White, "but represented by the Cabinet, without outside interference except in extraordinary circumstances. The N. A. A. C. P. will therefore take no action in opposing confirmation of William N. Doak as Secretary of Labor.

"The N. A. A. C. P., however, views with great regret the appointment to so important a post of one who has in so many ways shown himself to be completely lacking in sympathy with the aims of Negro labor.

New York, Dec. 11.—(By ANP)—Dispatches from Monrovia indicate that the recent international investigation of abortive conditions in Liberia, verging almost on slavery, under the regime of President Charles D. King and Vice President Allan King, have forced these executives to resign. It seems that the findings of the League of Nations' commission give a truthful picture of the frightful conditions existing there.

## Annual Art Exhibit Held; Many Prizes Awarded Winners

The Annual Art Exhibit held at the Community Center, December 4, and 5, under the auspices of the Thimble Art Club was a success. There were 183 pieces entered, covering 31 varieties or kinds of art.

Mr. Charles Richardson and Mr. Melvin Carl monopolized the oil painting entries with some very excellent works, which showed an inherent love of painting and great creative ability. Mr. Richardson carried off first prize, and Mr. Carl, second prize. Mr. Everett Clay with his Norwegian cut woodwork, Mrs. Eugie Mae Walker's hand painted scarfs and Mr. Ovel Carter's hand painted glasses received noteworthy praise from the judges and were awarded first prizes. There were innumerable small cash awards.

The list is as follows: Charles Richardson, Melvin Carl, Mrs. Eugie Mae Walker, Everett Clay, Cornelia Leonard, Geraldine Green, Elsie Robinson, Mrs. Pearl Thompson, Mr. J. Blaine Thompson, Harold Benning, Mrs. Lena Wilson, Mrs. Julia Williams, Mrs. E. M. Burse, Ovel Carter, Mrs. Burroughs, Mrs. May Price, Donna Graham, Mrs. W. T. Hunter, Mr. Banta, Genevieve Moore, Miss Joan Bullock, Judith Wilson, Mrs. Helen Bogan, Mrs. Lola Hardwick, Mrs. Plummer, Mrs. Margaret Ward, Mrs. Cassell, Geraldine Cassell, Delphia Cassell, Ava Cassell, Beatrice Cassell.

The committee states that the exhibit has progressed and is increasing in popularity every year, but it needs closer competition, which makes for perfection, and larger cash awards which will act as a stimulant and incentive to art. Moreover, it is the wish and hope of the committee in charge that entrants will create something new each year to be exhibited. As a matter of fact, it is not the custom in most art exhibitions to award prizes on works shown in any preceding exhibit, and which have received a prize before. Old works can be exhibited, but should not be eligible to compete for prizes.

The judges were headed by Miss Vivian Morrison of the Art department of West Junior High.

**CASTERTVILLE, IOWA, NEWS**

By Mrs. A. L. Terrell

This is the last week for the big drive and the clubs are moving along rising early and returning home late. Success is reported from different ones. We hope to reach the goal by Sunday night, Dec. 14, when the last coin is laid on the table. These are not prize clubs this year, but just out working for the benefit of the church. Born to Mr. and Mrs. John Powell, December 3rd, a fine boy who has been named Tommie Nathaniel Powell. Mrs. Powell was formerly Miss Hazel Jeter. Mother and son reported nicely. Mr. S. Dawing is reported to be very sick and was taken to the hospital for treatment. The Second Baptist Church and the whole community was saddened when they heard of the death of Rev. Samuel Bates of Des Moines, Iowa. The passing of Rev. Bates brings sorrow to a wide circle of friends both here and all over the state. We extend our heartfelt sympathy to the bereaved family. Rev. C. T. Taylor, pastor of the Second Baptist Church, this city, left Monday morning to attend the funeral which was held from the Maple Street Baptist Church. Rev. Bates also had many white friends here in our city as well as elsewhere. Flowers were sent from this the Second Church here, as a token of love for our deceased brother. Mr. William Richards of Albia, called at the Robert Terrell home Saturday afternoon. Only a few more days until the year is out. Don't forget to renew your subscription and pay some on delinquent subscription.

**OKLAHOMA REVIEWER PRAISES JOHNSON'S "BLACK MANHATTAN"**

New York, Nov. 28.—James Weldon Johnson's story of the Negro in New York, embodied in "Black Manhattan" has been praised by a reviewer for an Oklahoma City newspaper, who boldly criticizes the treatment meted out to colored people by white men in the South. In the course of his review, the Oklahoma white man writes: "The Negroes dwell within America's most civilized community without friction. Wicked New York, that

three losses by close scores, and one tie, the Bison demonstrated the soundness of President Mordecai W. Johnson's idea, that a creditable showing could be made by a team gathered on a strictly amateur basis, without free room and board or other special inducement.

**DARROW TO LECTURE AT HOWARD UNIVERSITY**

Washington, D. C., Dec. 1.—Clarence Darrow of Chicago, and Arthur Garfield Hays of New York, are among the lecturers scheduled for the Howard University Law School during the present school year.

Mr. Darrow will deliver eight lectures on trial practice the first week in January; and Mr. Hays is lecturing on Civil Liberties of the Law the first of which was given on November 22 on the subject of "Freedom of Residence."

Washington, D. C., Dec. 1.—A blocked kick that bounded beyond the end zone for a safety early in the third quarter provided the margin by which Howard University defeated Lincoln, 2-0, in the annual Thanksgiving classic here at the Griffith stadium before a crowd of 20,000 cheering fans.

Victory in this game, over their traditional rivals, furnished a glorious finish to a season of ups and downs for the Howard team. With four wins,

**Ring in Health With Christmas Seals**

In the olden days anyone could be a bell ringer. Sometimes a citizen had to pay for the privilege; if he abused the honor he had to pay a fine. In all Saints' Church, at Hastings, England, these words may still be seen:

"This is a bell that is free  
For all those that will be,  
And if you please to chime or ring  
It is a very pleasant thing."

AR through history since the 16th century, which was the golden age of bells, chimes have called out to people their cheerful messages, usually telling a story. For example, with the passing of the old year the bells were tolled in sadness, then, when midnight had struck, the merry peals cleared forth their welcome to the new year. Before the invention of the newspaper the town crier focused the attention of the people by loudly changing a bell before he shouted the important news it was his duty to spread throughout the city. Bells have also served to proclaim victory. It is not surprising to find that the design of the modern cup presented as a token of victory in sport is really an inverted bell.

It is equally fitting that on the gay little Christmas seal for 1931 a bell rings should be portrayed tugging at a heavy ball, announcing once again to the nation that further victorious advances have been made against the enemy tuberculosis. Each year the seal brings its message of health at the Christmas season to remind people that sickness can be prevented.

Although the stamps are now well known, they originated in a modest manner only twenty-five years ago as the invention of a Danish postal clerk, who devised a method to raise money for a tuberculosis hospital for the children of Copenhagen. Miss Emily F. Bissell of Wilmington, Delaware, was the god-mother of the Christmas seal in this country. She also was seeking for a method to raise money for a tuberculosis institution in her state and in 1907 found the solution to her problem in a magazine article describing the Danish seal and its successful mission. Through her efforts a fund of \$5,000 was raised and the project began. The following year the first national-wide sale of tuberculosis Christmas seals was undertaken, and women's clubs, religious bodies and business groups gave their support to this cheerful method of raising money. In 1910 the then young National Tuberculosis Association took over the sale of the seals and has directed it ever since. The seals therefore should be called tuberculosis Christmas seals.

Thanks to the tiny seal, state after state has been organized to attack tuberculosis with a scientific program. Together, led by the national body, they have brought into existence much of the present-day community machinery that combats tuberculosis. Through the intensive educational work made possible by the Christmas seal, health laws have been passed and are being enforced; tuberculosis specialists and nurses reach the most remote country districts; printed matter on disease prevention is circulated in schools, homes and factories, and there is an active public interest in tuberculosis, control among civic, political, commercial, social and religious groups.

This year again the seal carries its message of health throughout the country, giving everyone a chance to be a bell ringer as in olden days—a proclaimer of the important tidings that health is the best insurance for happiness and that tuberculosis may be cured if discovered in-time. And as millions of letters and packages decorated with Christmas seals travel from one end of the country to the other during December they will spread the message, "Ring in a year of health with Christmas seals."

The proceeds of the seal sale are used by the local associations in various forms of child health work, nursing, weighing and measuring health education, fresh air camps, clinics, dental inspection, school health supplies such as scales, first aid kits, thermometers, posters, books etc., and a portion by the State Association in the prevention of tuberculosis both in humans and animals, in the discovery and prevention of heart disease, and in general health work.

**Many Modern Homes have more telephones than a whole community in the early days of the telephone...**

WHEN the telephone was in its infancy, demonstrations or concerts by telephone were features of the programs given to popularize the new invention. . . . to prove that it really would transmit voices and music and to develop a demand for telephone service.

Alexander Graham Bell, inventor of the telephone, gave many programs in the eastern states with Thomas A. Watson, his assistant, shouting and singing into a telephone several miles from the audience. A cornet player or small brass band sometimes would send music over the wire.

In the five mid-western states where this Company\* now provides telephone service, introduction of the telephone included telephone demonstrations. Sometimes several instruments were provided to enable persons in the audience to listen. . . . It was difficult for them to distinguish much more than a tune when the sound issued from only one telephone near the lecturer. There were no loud speakers in those days.

Today it is becoming more and more common for homes and offices to have several telephones instead of just one. Time and energy are saved. . . . telephone service is more convenient and satisfactory. Many homes and offices have intercommunicating systems. . . . portable telephones, switches of various kinds and other equipment which make for efficiency and comfort. This Company has equipment available to meet the requirements of each individual. . . . telephone service is designed to suit the particular needs of each user.

**LOVILIA, IOWA, NEWS**

By Sadie B. Jenkins

Mr. William H. Johnson departed this life November 18th, at the general hospital, Philadelphia, Pa. He leaves to mourn his loss a devoted sister, Mrs. Sadie B. Jenkins of Lovilia, Iowa; a brother, Mr. Suckel Johnson of Cleveland, Ohio; a grandmother, Mrs. Sallie E. Jones of Staunton, Va.; an aunt, Mrs. Jennie E. Wright of Lovilia, Iowa.

Though thy darling form lies sleeping  
In the cold, silent tomb,  
Though shall a glorious waking  
When the blessed Lord shall come.

There is no Death  
What seems so in transition  
This life of mortal breath  
Is but the suburb of life elysian  
Whose portal we call Death.

We shall be patient and assuage the feeling  
We may not wholly stay by silence  
sanctifying, not congealing,  
The grief that must have way.  
Sleep on dear brother and take your rest.

Oh, why should the spirit of mortal be proud,  
Like a swift flying meteor, a fast flying cloud.  
A flash of the lightning,  
A break in the wave,  
We pass from life to death in the grave.

Farewell dear, but not forever,  
There will be a glorious dawn;  
We shall meet to part, no never,  
On that Resurrection Morn.

**UNCLE SAM EATS MORE MARGARINE THAN PREVIOUSLY**

CHICAGO.—Consumption of margarine in the United States in the last year increased 13 per cent over 1928, according to a report just made public here by Dr. J. S. Abbott, secretary of the Institute of Margarine Manufacturers.

Dr. J. S. Abbott

"The consumption this year was 333,121,451 pounds as compared to 294,890,239 pounds in 1928," the report states. "This important increase is due principally to a more intelligent understanding on the part of the public of the composition and food value of margarine, to lower prices effected through economies in manufacture, lessened cost of food fats and other materials entering into its composition, mass production, a generous newspaper advertising policy, and improvement of the quality of the product by the application of scientific methods of production resulting from continuous researches in the preparation of this article of food."

"In Europe and the United Kingdom margarine is a staple table necessity, the annual consumption was in excess of 2,250,000,000 pounds. The per capita consumption in Great Britain was 7.75 pounds in 1915 as compared with 13.28 pounds in 1924. In Germany it was 10.5 pounds in 1923 as compared with 15.8 pounds in 1928. Denmark presented the best example of a rising curve in margarine consumption. In that country the per capita consumption was 34½ pounds in 1922 as compared with 45½ pounds per capita in 1928."

Future of the margarine industry, the report states, would seem to hold the promise of wider markets, especially in the United States, and in
