"About Town"

VE SAYS

The article about the "lack of bathing beaches" received quite a few days and of course some nays. It was suggested by one of our race, addressing a public gathering, that Negroes keep their nose (the mean bodies) out of places where they are not wanted, as at bathing beaches. Probably all right, if we could be exempted from taxation, which by the way, would be unconstitutional. However, I am sure this learned man of the race, along with many others, has quite a scuffle paying his regular taxes every year... and for the city to deny him the right to a cool plunge... after his hot and hectic pursuit of the wherewithal to help maintain the municipal beaches... is adding insult to injury. However, this exponent of "if you must swim, swim in your bath tub" idea, is to be commended for his tenacity in at least taking a decided stand on the subject; as there are some, who lacking interest, are being as silent as Cal Coolidge and as enigmatic as the sphinx, on this very most question. The Register says that the "Nudeist" Colony in Paris, France, was visited by thousands of curiosity seekers, under complete sanction of the government. The French might well commercialize the affair by charging an admission fee to the thousands of American tourists, who "go naughty" the minute they reach gay Paree. France could soon pay her war debt to Uncle Sam. Well, Hammond lost his near beer fight. His argument to ban beer because alcohol was mixed with it, was ludicrous to say the least. It would have been just as consistent to try to ban soda pop, crock, gingerale and mineral water. They are all used extensively for mixers, "all a matter of taste. If Mr. Hammond has ever heard of "Tom and Jerry" and "eggnog," he'll next try to eliminate eggs and milk.

NEGRO BOXER DEFEATS ENGLISH HEAVYWEIGHT CHAMPION IN LONDON

New York, July 3.—Decisive defeat by a Canadian Negro boxer of the British heavyweight title holder, described in clippings recently forwarded to the N. A. A. C. P., by Mr. John P. Fletcher of the Society of Friends in London.

Mr. Fletcher is active as Secretary of a Committee which has brought about a lifting of the color bar in boxing in England.

The defeat of the British heavyweight champion, Phil Scott, by Larry Gains, colored Canadian, is described as "agonizing" by a writer in the Daily Express. The colored boxer was cheered and the white ex-champion, whose retirement is now urged as a consequence of the defeat, was booed as he left the ring.

Lynch Record Falls; Southern Women Glad

Atlanta, Ga., July 4.—The Association of Southern Women for the Prevention of Lynching today issued a statement expressing gratification that the lynching record for the first six months of 1931 had, for the second time in fifty years, reached the low level of five for the six months' period, as against an average of about ten times that many for like periods throughout the last half century. As late as 1922, the Association states, the number of victims for the first six months of the year was thirty, or six times as many as in the present year.

Spingarn Flays America's False Democracy

Pittsburgh, Pa., July 9.—"White people of the North have practically deserted the Negro. From this time on anything done for the Negro must be done by himself."

Thus spake Clarence Darrow at the closing session Sunday afternoon of the 22d annual conference of the N. A. A. C. P. The meeting was held in Soldiers and Sailors Memorial hall.

Mr. Darrow's speech was typically frank and courageous. He stressed the fact that a large part of the Negro's misfortunes can be cured by himself; that the Negro must no longer rely on the white man or "the heavens opening up."

The celebrated Chicagoan was preceded by J. E. Spingarn of New York, president of the association, who gave an interesting personal account of his work with the association and the broad program of defense it has waged for the past 21 years, and Walter E. White, secretary, who related recent achievements of the organization. The session was presided over by Mrs. Daisy Lampkin, regional secretary, and broadcast over KDKA, pioneer broadcasting station of the world.

The meeting marked the end of one of the most important and valuable conferences in the history of the association. Sweltering in the intense heat that enveloped the city the entire week, the delegates and visitors daily crowded their way into the Plunger and Warren churches to hear the noted speakers and take part in the various discussions. The speakers were equally enthusiastic, for they soared to oratorical heights in expressing superior thought on most important subjects.

Pittsburgh, July 3.—Bishop E. D. W. Jones, of the A. M. E. Zion Church, Washington, D. C., last night in a public address declared that the Negro race in this country was "as far advanced from the Steepers trial in Tennessee and the religious and educational enactments of legislatures against evolution and discoveries of science as the enlightened Englishman is far removed from the cave man."

The statement occurred in the course of Bishop Jones' address before the 22d Annual Conference of the N. A. A. C. P., in session here through Sunday, July 5th.

Bishop Jones also assailed the white man's "Christianity of injustice, prejudice, hate, cold indifference, brotherhood, war, slaughter, and armed missionary invasion" as being not the Christianity of the Negro.

Pittsburgh, July 4.—America as a laboratory for the entire world's race problems, may reveal laws applying everywhere, declared Professor Herbert Adolphus Miller of Ohio State University, who last night (Friday) addressed a Carnegie Hall mass meeting of the 22d Annual Conference of the N. A. A. C. P.

"Almost everywhere the impermanence and dominance of the white race in world affairs has been challenged," declared Professor Miller. "Great aggregations of colored peoples, who altogether constitute two-thirds of the human race, have suddenly projected themselves into the current of both practical politics and world attention."

Pittsburgh, July 4.—That the press today was the champion and defender of the people was the statement of Robert L. Vann, editor of the Pittsburgh Courier, addressing last night's mass meeting of the 22d Annual Conference of the N. A. A. C. P.

"The day has passed when America can any longer ignore the race question or follow a policy of laissez-faire. Today she must choose between one of two courses—either to follow and see that others follow orderly processes of the law, guaranteeing to the Negro all the rights which belong to him as a citizen and human being, or to leave the Negro open to communist propaganda."

NEGRO REPUBLICANS IN LOVE FEAST WITH NEW YORK'S DEMOCRATIC MAYOR

New York City, July 3. (CNS)—New York's smiling Democratic Mayor came in for the unstinted praise of two nationally famous Negro Republicans at the closing banquet of the National Negro Business League held here July 1. Robert C. Moton, Principal of Tuskegee, and Fred Moore, 74 year old Republican Alderman of New York, both lauded the treatment accorded Negroes by Jimmy Walker, the Mayor of the city.

"This is the best Mayor of the best and cleanest city in the world," said Alderman Moore in introducing Mayor Walker.

In responding to the welcome of Mayor Walker, Major Moton, president of the Business League, said: "Mr. Mayor, you are my mayor too. I am a Republican, but if I had to work with you, I'd be a Tammany man. The Mayor has and is doing more for colored people than any other mayor in any other city in the world. I wish to thank the Mayor for his profound address. We need you in our business, Mr. Mayor."

SCOTTSBORO CASES EVIDENCE OF "BLACK LAWS" IN SOUTH SAYS PICKENS

Pittsburgh, July 4.—That the conviction and sentencing to death of eight Negro boys in Alabama was evidence of the continuance of "black laws" in southern states, was the statement last night of William Pickens, Field Secretary of the N. A. A. C. P., addressing in Carnegie Music Hall its 22d Annual Conference of the Association which closed Sunday afternoon.

Mr. Pickens blamed the Communists for their political activity in the case which, he said, had created an intensely hostile sentiment and had made the task of saving the boys' lives a more difficult one.

"This Scottsboro case ought to call the world's attention to the fact that in spite of the 14th and 15th Amendments, there are still 'black laws' in the southern states," declared Mr. Pickens. "The making rape or attempt at rape a capital offense is in fact a 'black law'. It avoids use of the word 'black' or 'colored' simply to avoid conflict with the Constitution of the United States. It is made only to catch colored men in any relationship of intimacy whatsoever with white women."

Mrs. McGuire stated that she had been driving a car four years; she is the wife of James Lloyd McGuire, deputy sheriff.

TWO FLORIDA WHITE MEN CONVICTED OF MURDERING NEGRO

New York, July 3.—A Florida correspondent of the N. A. A. C. P., telegraphs that two white men, father and son who were tried on June 15 in first degree murder in connection with the death of a Negro, Joe Dean, on May 8, have pleaded guilty to manslaughter carrying with it a penalty not to exceed 20 years and were sentenced yesterday.

A bayonet, pistol and belt figured in the killing of the Negro who it was charged by the state, was murdered because the defendants mistakenly suspected him of having given information about a moonshine still they were operating.

Williams' Singers Present Concert At St Paul Church

By Everett Wadsworth

The World Famous Williams Colored Singers, known as the greatest harmonizing quartette, presented to their audience last Thursday evening, July 2, at St. Paul's A. M. E. Church, the finest and most enthusiastic program that has been given to the music lovers of Des Moines for some time. It may be truly stated that this organization has been acclaimed by the most exacting critics as the finest troupe of its kind before the public today. Every member of the company is an artist of unusual merit and an unexcelled genius. Their program included everything from the sweet melodies of the cotton fields to the rarest gems of the classic operas.

Their opening well known spirituals won great favor, followed by a symphonic rendition of the popular "Pagan Love Song." J. S. Crabbe, basso, recording and broadcasting ar-

COL. ROOSEVELT FLIES TO PITTSBURGH BY ARMY PLANE TO ADDRESS N. A. A. C. P.

Pittsburgh, July 3.—Flying from Washington yesterday afternoon in an army plane, Col. Theodore Roosevelt, Governor of Porto Rico, came to Pittsburgh to address the meeting of the 22d Annual Conference of the N. A. A. C. P. Colonel Roosevelt urged full recognition of the Negro's contribution to American civilization in business, science and the arts and praised the loyalty of the Negro to the nation. The Negro should be given his full rights, said Colonel Roosevelt, those rights ranging from opportunity for schooling to the matter of holding public office.

Colonel Roosevelt also denounced lynching, legal as well as by mobs, and said he had felt bitter shame as an American at last year's increase in number.

"Any time you need my help, all you have to do is ask for it," he said at the conclusion of his address amid cheers.

Mr. James A. "Jimmy" Johnson, who resolving to become an undertaker two years ago, in what is conceded a spectacular rise, now stands as one of the leading morticians of Iowa and Missouri. Taking Mr. Tug W. Wilson's suggestion that he ought to take up embalming, Mr. Johnson entered the Wilson Funeral Home two years ago as a pupil under the tutelage of Mr. Wilson, and after one year of practical work, entered the Hohenschuh-Carpenter College of Embalming at St. Louis, graduating from that institution at the head of his class in June. his father, George Johnson, being a respected citizen of that place. One sister, Mrs. Della Page, is a teacher in the public schools there. Mrs. Vienna Williams, 1329 McKinley, and Mrs. Gertrude Harris, of this city, are also sisters of Mr. Johnson. In an interview, Mr. Johnson stated: "Any measure of success I may have attained is due to the encouragement and practical experience received while a student under Mr. Wilson; and now that I am actively connected with him in the undertaking business, I stand ready to co-operate with him in giving the public the same courteous, efficient service which has always been the paramount aim of the Wilson Funeral Home. My motto is 'To live a clean, conscientious personal life and to give a square deal to all.'"

Mr. Guye Harris returned Monday from the Government hospital at Excelsior Springs, Missouri, much improved, after undergoing a serious operation there.

PROF. HERSKOVITS IN DAHOMEY MAKING PHONOGRAPH RECORDS

New York, July 3.—A letter from Dahomey, French West Africa, has been received at the N. A. A. C. P., from Professor Melville Herskovits, well-known anthropologist, who reports that he is making phonograph records and studying the culture of the native Africans.

Professor Herskovits is making a special study of the origins and the acculturation of Negroes in America.

impressed hearers with selections, "Moonlight and Starlight" and "Lindy Lou." Joseph J. Miles, tenor and impersonator, drew much laughter with his costumed imitations of the ante bellum characters of the South.

After a varied group of numbers by the men's quartette, the grand finale came with dramatic rendition of the "Misere" from "Il Trovatore" by Verdi, with Miss Gladys Sparks Boucree, dramatic soprano, taking the lead for her share of the honors. It is a most remarkable musical combination and praised alike the world over for its natural talent and unlimited ability.

Three Held In Bomb Plot

Mrs. Hattie Tucker, Tony Brown, and Leonard Beene, 947 14th St. Place, confessed to police, after their arrest last week, to a plot to dynamite the home of E. A. Malone, 931 14th St. Place. The confessions were made to Detectives Rhodes and Hill, who arrested the trio after two sticks of dynamite and a fuse were found under the front porch of the Malone home. Mrs. Tucker declared that she would fix some of these neighbors and Malone for protecting Madison Tall, who shot and killed her husband a few months ago, according to the police. Tall shot Tucker in self-defense and the grand jury ignored the murder charges, police said. The trio were indicted Monday.

Mr. James A. "Jimmy" Johnson, who resolving to become an undertaker two years ago, in what is conceded a spectacular rise, now stands as one of the leading morticians of Iowa and Missouri. Taking Mr. Tug W. Wilson's suggestion that he ought to take up embalming, Mr. Johnson entered the Wilson Funeral Home two years ago as a pupil under the tutelage of Mr. Wilson, and after one year of practical work, entered the Hohenschuh-Carpenter College of Embalming at St. Louis, graduating from that institution at the head of his class in June. THE C. M. T. C.

The C. M. T. C. of the Seventh Corps area at Fort Riley, Kansas, has just closed. While the general understanding was that four hundred boys would be accommodated—more than four hundred qualified—only one hundred fifty were admitted. Nobody seems to know why.

Anything may happen in the War department and nobody can tell its origin. For this reason all as the fact that we want Mrs. boys in these camps, now lined time to begin making plans for 1932. Lincoln Post of the American Legion of Des Moines and Tom Powell Post of St. Louis have been the moving spirit behind this effort. Already they are making plans for the next camp. They will need the help of everyone.

THE BATHING BEACH SITUATION

The extreme hot weather last month, drove the public to every available swimming hole. But at that, Negroes had no decent place to go. For several years our group has been "shoved off the log" on this matter of bathing facilities even though they are paying taxes to maintain some of the places provided.

During the administration of the late Mayor Garver, the city council passed an ordinance "That there shall be no discrimination in the bathing beaches or public parks in the city of Des Moines" and this in addition to our civil rights statute.

Like many other places where the public should be free to go, Negroes have been tactfully excluded. It is generally conceded that this condition of affairs is very unsatisfactory and the average Negro resents it woefully. This resentment was fully made known in the more than a hundred phone calls at the Bystander office this week approving V.'s article in "About Town" last week on this same question.

The department of parks is now engaged in some controversy as to whether any beaches will be opened this season or not, due to the polluted condition of the water. Surely, now is the time for the Negro to have this matter settled once for all.

Of course to start with, this matter must be faced squarely and the authorities should have the backbone and courage to make just rules and back them up. Dodging and hiding won't meet the situation. We have had too much of this already, even by the present administration.

The Bystander suggests that the Des Moines Branch of the N. A. A. C. P., the Interracial Commission and other interested groups, contact the departments of parks and secure definite satisfactory arrangements with regard to this bathing beach question. To continue to let the matter go by default makes the public feel that these organizations are not on their job.

HEALTH TALKS

By Dr. H. H. London

JOINT TROUBLE

Soreness in the joints is extreme in serious conditions of joint trouble but there are cases of mild joint disease which come and go cause but little inconvenience.

The severe cases almost always cause some permanent stiffness and this stiffness not so rarely goes on to complete fixation of the joint so that it cannot be moved at all. If the arm at the elbow or the knee is the one affected there is much inconvenience aside from the uncomfortable feeling which comes from having an immovable joint. Many of these cases of joint trouble begin abruptly and without warning, the person affected is confined to bed and with much treatment and the lapse of time healing takes place and the joint is found to be partly or wholly fixed so that movement is impossible. This happens many times in persons who are supposed to be in perfect health. Whereas it is possible for such a person to have been in perfect health and to have picked up the germ from outside sources it is more logical to assume that the causative germ existed somewhere within the body sometime prior to the beginning of the infection. Such a place is usually the tonsils but by no means the only place. If such a localization of infection exists eradication of the same removes the possibility of joint troubles and their subsequent deformity and disability.

New York, June 26—An important legal victory has been won in the Court of Appeals of Franklin County, Ohio, against the principle of residential segregation by restrictive covenants among property owners.

The property in question was part of a plot of land in Columbus, Ohio, subdivided in 1922, all deeds to the plot containing a provision that it should be neither sold nor rented to persons of African blood and that no such person should reside in the house except as servant or employee.

Mrs. Daisy Hall Rice bought the property and paid for it, and the original grantee brought suit claiming that because Mrs. Rice was colored the restrictive covenant had been broken and that the property belonged to him. The lower court dismissed his complaint and he appealed to the County Court of Appeals which affirmed the lower court's decision.

The N. A. A. C. P. is following the case closely and should there be appeal to a higher court, will offer aid to the colored defendants.

New York, June 26—An objectionable advertisement with the headline "Find the Nigger in this Woodpile" has been cancelled by the Acme Card System Company of Chicago, in response to a letter from the National Association for the Advancement of Colored People calling to their attention that it was highly offensive.

New York, June 26—With 90 days leeway from the time motion for a new trial for the eight Negro boys in Scottsboro was overruled, Messrs. Fort, Beddow and Ray, Birmingham, Alabama, Attorneys retained by the N. A. A. C. P. are preparing a bill of exceptions. This will be presented by them to the trial judge in ample time.

Judge William E. Fort, of the law firm, informs the N. A. A. C. P. that both in writing and by understanding with the trial judge, his firm noted an exception to his decision overruling the motion for a new trial for the boys.

Lawyer A. P. Chamberlin (Deceased) Spoke Very Complimentary of Lew Arntz.

Des Moines, Ia., July 19, 1931. This certifies that about five years ago I was compelled to undergo an operation in having my right eye removed, as it had even blind for some time and was interfering with the left eye. The operation was successful with the exception of leaving me the socket as misshapen, had it seemed possible to ever be able to wear an artificial eye, I consulted the best eye specialists in Iowa, Kansas City, Mo., Washington, D. C., and Chicago, Ill., who all tried their best to fit me, but utterly failed and after repeated trials positively declared I could never wear an artificial eye. About eight months ago I consulted Lew Arntz, who I knew had quite large experience in the optical line and there in a few minutes he succeeded in fitting me with an ordinary artificial eye, reshaped it so it would fit the misshapen socket. I wore it a few days when he again changed it for a larger and more perfect one. He changed from time to time until now am able to use an ordinary artificial eye. Several of the first ones had to be reshaped in order to form a groove or cut away the lower lid, which was partly closed or cut away, but is now perfect. This took a great deal of skill and patience which I have reason to believe Lew Arntz possesses. He has also fitted me with a pair of glasses which are very satisfactory and better than any other glasses I have worn. I am sure that both far and near seeing. Of course, my right eye is not as good as my left, but is very improved when using the glasses prescribed and I therefore can cheerfully and conscientiously recommend him to others in need of optical service.

FIND MEAT IS BEST DIGESTED BY DOGS

CANINE ANATOMY MORE LIKE HUMAN'S THAN ANY OF FARM ANIMALS.

If you saw a man and his dog walking down the street, you would not be likely to confuse one with the other, but if you saw skeletons of the two mounted in a museum, with the man down on all fours in the position of the dog, you might have quite a time of it puzzling out which is which, declares the Chappel Kennel Foundation, Rockford, Illinois. The striking similarity in the anatomy of man and dog is well shown in the accompanying illustration prepared by the Foundation. The dog's anatomical structure is more nearly like a human's than that of any of the farm animals. The skeleton holds true not only of the skeleton formation but also of the organization and operation of the internal organs. In fact, what we know today of the working of man's internal organs has been learned largely as the result of experimental work on dogs. Proper feeding is the keynote of successful dog keeping. If a man may be said to thrive best on a mixed diet of meat and vegetables, meat must form the base and bulk of any satisfactory food for dogs. Despite the beliefs held by many people, the dog is by nature...

a flesh-eating animal and his digestive system is ideally adapted to the handling of meat. No one has succeeded in preparing a perfectly balanced ration for humans, but it has been done for dogs with horse meat, cereals, powdered bone, cod liver oil and other natural foods, prepared in balanced proportions. Tests with hundreds of dogs have shown that a dog fed on 15-20 plus possibly some dog biscuits in the morning—required nothing else save water. This is the ration fed the experimental dogs in the Northwestern university medical school and the famed mule dog, Rin-Tin-Tin, recently subjected to stringent physical examinations after eight years on this regime, was found to be in condition that belied his 13 years. Of particular interest to the dog owner will be the following information from a report on the efficiency of various foods given dogs under various conditions by three members of the Mayo Clinic: Meat and rice were among the best-digested foods, and the investigators marvelled at the thoroughness with which they were digested. On the other hand, practically none of the starch of a corn source was digested, as evidenced by the residue which appeared to be unchanged. Furthermore, it passed through the digestive tract slowly, requiring more than 24 hours. Also poorly digested were stewed tomatoes, baked bananas, stewed prunes, stewed corn and beans. A dog holding his food is following a good rather than harmful instinct, since meat is best digested in the form of lumps. Anxiety and excitement during feeding influenced adversely the efficiency of digestion. Food when taken in one large amount was better utilized than when taken in several fractions at short intervals. Apparently each feeding stimulates peristaltic action and caused the food to pass too rapidly through the system.

Dog Holding Most Appeal for You Is One to Choose

What is the best breed of dogs? This is the question most frequently asked of the Chappel Kennel Foundation, Rockford, Illinois. Invariably the answer is this: That breed of dog is best which appeals to you the most. By all means, try and get a purebred animal, because the chances are that you will get added pleasure out of owning it.

In selecting a home dog, people usually look for a companion, a playmate for the little folks or a guard. Below are listed some of the general characteristics and temperaments of some of the more popular breeds of dogs as worked out by the Foundation for the guidance of those seeking impartial advice. BOSTON TERRIER—Good practical dog. All-round favorite. Lively, stylish, smart and obedient. Short-coated. BULL TERRIER—The White Cheviot. Brave as a lion. Will protect to the death. Natural watchdog.
