A paltry thousand or so expended for a bathing beach with adequate protective facilities probably would have saved the life of fifteen year old Leroy Wilson, who drowned in the Center Street dam Thursday.

Clarence Darrow, the great, addressed an audience of 2,500 at the convention of the N. A. A. C. P., held in Pittsburgh recently.

"But Mr. Darrow did not tell Negroes many new things. The same advice given by Mr. Darrow was given by Fred Douglass years and years ago.

But now that Mr. Darrow, the great criminal lawyer and courageous white man, has repeated them, these time-worn truths which they themselves have long since known, they become new truths with new meanings and the Negro is perhaps ready to admit that what Mr. Darrow says is so.

AMEN! AMEN!

A colored bellhop at St. Joe has committed to memory 850 telephone numbers of people there. Quit an accomplishment. The only Negro member of France's romantic Foreign Legion conducts a jazz orchestra on the outskirts of the desert, when not on duty, for which tourists and the curious desert habitues pay a small fee to listen to it.

Two Sundays ago Center Street looked like Remarque's "Western Front," as sporadic fights and group hostilities occurred all day on that street. Some of the combatants seemed rather bewildered and befuddled, as if uncertain as to why they fought.

E. C. BERRY LEFT N. A. A. C. P. \$1,000 IN BEQUEST BY WILL

Strong Resolutions Adopted At NAACP Conference In Pittsburgh

A. A. C. P., held at Pittsburgh June 30 to July 5.

Termed as a "new magna carta" for the Negro, a broad line of battle was laid down in the resolutions not only for emancipation of the American Negro from the evils from which he now suffers, but embracing the whole problem of color throughout the world.

She was awarded a two hundred fifty dollar scholarship. Miss Williams is a popular member of the younger set of Des Moines society, and well known for her dramatic ability, having appeared in many local stage revues and high school productions. Scottsboro Cases Evidence of "Black Laws" in South

Pittsburgh, July 4.—That the conviction and sentencing to death of eight Negro boys in Alabama was evidence of the continuance of "black laws" in southern states, was the statement last night of William Pickens, Field Secretary of the N. A. A. C. P., addressing in Carnegie Music Hall its 22nd Annual Conference of the Association which closed Sunday afternoon.

Mr. Pickens blamed the Communists for their political activity in the case which, he said, had created an intensely hostile sentiment and had made the task of saving the boys' lives a more difficult one.

"This Scottsboro case ought to call the world's attention to the fact that, in spite of the 14th and 15th Amendments, there are still 'black laws' in the southern states," declared Mr. Pickens. "The law making-rape or attempt at rape a capital offense is in fact a 'black law'.

In some respects the issue confronting us from Scottsboro is worse than the massacre at East St. Louis or the burning of Tulsa. East St. Louis and Tulsa were manifestly and evidently in the hands of a mob, while the case in Scottsboro, while really of the mob is technically of the State of Alabama.

Pittsburgh, July 3.—Bishop E. D. W. Jones, of the A. M. E. Zion Church, Washington, D. C., last night in a public address declared that the Negro race in this country was "as far advanced from the Scopes trial in Tennessee and the religious and educational enactments of legislatures against evolution and discoveries of science as the enlightened Englishman is far removed from the cave man."

The statement occurred in the course of Bishop Jones, address before the 22nd Annual Conference of

NOBODY LIKES A SQUEELER

Mr. Cabell and Mrs. Fall, who has been sentenced to a year and a day in the federal prison for accepting a bribe, is writing a series of articles purporting to expose others who had knowledge of and condoned his conduct in connection with the leasing of oil lands while he was secretary of the interior.

While they will be interesting to many, the world gives little credit to a squealer, in fact, few have respect for them. This one will be no exception to the rule.

UNFORTUNATE

From reports sent out by the attorneys of the National Benefit Life Insurance Company of Washington, D. C., the company is in serious financial condition caused by the inefficiency and dishonesty of the officers. It appears that the conduct which brought about these conditions has extended over a long period of time.

It is unfortunate that this condition of affairs should have occurred not only because of the loss many investors will sustain, but because of the loss of confidence it will help to create. The National Benefit has been heralded as our biggest business institution. This situation hurts.

AT LAST

On June 30th, the government of the Virgin Islands was changed from military to civil control. This means that the United States marines who have bossed the island for the past few years have been relieved.

When the commission, headed by Attorney George H. Woodson, made a report upon their return from a tour of inspection, they recommended that the island should have a civil government; that the marines were a source of considerable trouble with the natives. While it has taken a long time to make the change, the commission and those who know the characteristics of the marines will breathe a sigh of relief because everybody knows that their presence in the island has been a source of trouble from the beginning.

This year we have made arrangements and are planning to swim in the new swimming pool at the boys'

HEALTH TALKS

By Dr. H. H. London

HEADACHE

Headache is a common cause for discomfort and occurs from causes within the head or farther removed from it in some other part of the body. Many times the eyes are overlooked as a cause for headaches and years of discomfort pass without the needed remedy being applied. The ache varies from mild, almost unnoticeable uncomfortable sensations to unbearable boring pain permitting not even the slightest movement. An occasional headache seems to be the lot of the average although some state decidedly that never a headache has been suffered in a lifetime. The occasional headache is not of significance and the one affected can usually assign a cause.

Those which occur frequently and persistently have a definite cause which is increasing in seriousness and for that reason calls for immediate attention. The teeth may be the seat of the trouble and an occasional examination of these may reveal some condition which is causing the headache and which will in the future be the cause for more trouble in other parts of the body. The stomach, the intestines, the nervous system and many other organs can produce them and the cause wherever present should be sought and vigorous treatment applied as needed.

"Y" camp, every afternoon; morning tips will be taken in the same old river which we used last year.

AMERICA MUST BE JUST TO NEGRO OR FACE COMMUNISM SAYS WALTER WHITE

Pittsburgh, July 6.—A warning to the American people that they must do justice to the Negroes in the United States or face the spread of communism propaganda was the message delivered to the closing mass meeting Sunday in Soldiers Memorial Hall of the 22nd Annual Conference of the N. A. A. C. P., by Walter White, the organization's secretary.

In Mr. White's address, which was broadcast over station KDKA, he said the only answer to the communist "counsel of despair" for American Negroes was to convince him he hid his share in the future of the country. Mr. White said in part:

"The day has passed when American can any longer ignore the race question or follow a policy of 'laissez-faire'. Today she must choose between one of two courses—either to follow and see that others follow orderly processes of the law, guaranteeing to the Negro all the rights which belong to him as a citizen and human being, or to leave the Negro open to communist propaganda.

COL. ROOSEVELT FLIES TO PITTSBURGH BY ARMY PLANE TO ADDRESS N. A. A. C. P.

Pittsburgh, July 3.—Flying from Washington yesterday afternoon in an army plane, Col. Theodore Roosevelt, Governor of Porto Rico, came to Pittsburgh to address meeting of the 22nd Annual Conference of the N. A. A. C. P. Colonel Roosevelt urged full recognition of the Negro's contribution to American civilization in business, science and the arts and praised the loyalty of the Negro to the nation. The Negro should be given his full rights, said Colonel Roosevelt, those rights ranging from opportunity for schooling to the matter of holding public office.

Colonel Roosevelt also denounced lynching, legal as well as by mobs, and said he had felt bitter shame as an American at last year's increase in number.

"Any time you need my help, all you have to do is ask for it," he said at the conclusion of his address amid cheers.

NEGRO REPUBLICANS IN LOVE FEAST WITH NEW YORK'S DEMOCRATIC MAYOR

New York City, July 3, (CNS)—New York's smiling Democratic Mayor came in for the unstinted praise of two nationally famous Negro Republicans at the closing banquet of the National Negro Business League held here July 1. Robert Russa Moton, Principal of Tuskegee, and Fred Moore, 74 year old Republican Alderman of New York, both lauded the treatment accorded Negroes by Jimmy Walker, the Mayor of the city.

"This is the best Mayor of the best and cleanest city in the world," said Alderman Moore in introducing Mayor Walker.

In responding to the welcome of Mayor Walker, Major Moton, president of the Business League, said: "Mr. Mayor, you are my mayor too. I am a Republican, but if I had to work with you, I'd be a Tammany man. The Mayor has and is doing more for colored people than any other mayor in any other city in the world. I wish to thank the Mayor for his profound address. We need you in our business, Mr. Mayor."

New York, July 3.—Decisive defeat by a Canadian Negro boxer of the British heavyweight title holder, is described in clippings recently forwarded to the N. A. A. C. P., by Mr. John P. Fletcher of the Society of Friends in London.

Mr. Fletcher is active as Secretary of a Committee which has brought about a lifting of the color bar in boxing in England.

The defeat of the British heavyweight champion, Phil Scott, by Larry Gains, colored Canadian, is described as "agonizing" by a writer in the Daily Express. The colored boxer was cheered and the white ex-champion, whose retirement is now urged as a consequence of the defeat, was booed as he left the ring.

FIND MEAT IS BEST DIGESTED BY DOGS

CANINE ANATOMY MORE LIKE HUMAN'S THAN ANY OF FARM ANIMALS.

If you saw a man and his dog walking down the street, you would not be likely to confuse one with the other, but if you saw skeletons of the two mounted in a museum, with the man down on all fours in the position of the dog, you might have quite a time of it puzzling out which is which, declares the Chappel Kennel Foundation, Rockford, Illinois.
The striking similarity in the anatomy of man and dog is well shown in the accompanying illustration prepared by the Foundation. The dog's anatomical structure is more nearly like a human's than that of any of the farm animals. The statement holds true not only of the skeleton formation but also of the organization and operation of the internal organs. In fact, what we know today of the working of man's internal organs has been learned largely as the result of experimental work on dogs.
Proper feeding is the keynote of successful dog keeping. If man may be said to thrive best on a mixed diet of meat and vegetables, meat must form the base and bulk of any satisfactory food for dogs. Despite the beliefs held by many people, the dog is by nature

SKELETON OF A MAN "on all fours"

a flesh-eating animal and his digestive system is ideally adapted to the handling of meat. No one has succeeded in preparing a perfectly balanced ration for humans, but it has been done for dogs with horse meat, cereals, powdered bone, cod liver oil and other natural foods, prepared in balanced proportions. Tests with hundreds of dogs have shown that a dog fed on less than possibly some dog biscuits in the morning—required nothing else save water. This is the ration fed the experimental dogs in the Northwestern university medical school and the famed movie dog, Rin-Tin-Tin, recently subjected to stringent physical examinations after eight years on this regime, was found to be in condition that belied his 13 years.
Of particular interest to the dog owner will be the following information from a report on the efficiency of various foods given dogs under various conditions by three members of the Mayo Clinic. Meat and rice were among the best-digested foods, and the investigators marveled at the thoroughness with which they were digested. On the other hand, practically none of the starch of a corn source was digested, as evidenced by the residue which appeared to be unchanged. Furthermore, it passed through the digestive tract slowly, requiring more than 24 hours. Also poorly digested were stewed tomatoes, baked bananas, stewed prunes, stewed corn and beets. A dog bolting his food is following a good rather than harmful instinct, since meat is best digested in the form of lumps. Anxiety and excitement during feeding influenced adversely the efficiency of digestion. Food when taken in one large amount was better utilized than when taken in several fractions at short intervals. Apparently each feeding stimulates peristaltic action and caused the food to pass too rapidly through the system.

Dog Holding Most Appeal for You Is One to Choose

What is the best breed of dogs? This is the question most frequently asked of the Chappel Kennel Foundation, Rockford, Illinois. Invariably the answer is this: That breed of dog is best which appeals to you the most. By all means, try and get a purebred animal, because the chances are that you will get added pleasure out of owning it.
In selecting a home dog, people usually look for a companion, a playmate for the little folks or a guard. Below are listed some of the general characteristics and temperaments of some of the more popular breeds of dogs as worked out by the Foundation for the guidance of those seeking impartial advice.

BOSTON TERRIER—Good practical, all-around favorite. Lively, stylish, smart and obedient. Short-coated.
