"About Town"

NEW FLASHES HERE, AND THERE
VE SAYS—

And now comes along eight Iowa Millionaires who are for repealing the Prohibition law, which must be a disappointment to the know-it-alls, who have always contended that moneyed men and big business interests did not want it repealed, because they were collecting such huge profits by financing bootlegging rings.

Wrapping parcels in gay colored paper, by Des Moines merchants, regardless of whether it happens to be a Christmas purchase or merely a sack of sugar, is a pretty good advertising stunt to boost holiday sales.

Somehow, after gorging on a typical Thanksgiving dinner, I always think that I never want to see another piece of turkey or mince pie again. However, after three or four hours away from the dinner table, I go right back to cramming again.

One question I'd like answered: Whether the enormous crowd who attended the Thanksgiving dance at the Billiken Ballroom, really went to dance or to gaze upon the good looking all ladies' orchestra—the women, perhaps, with envy and the men with a little of everything?

The Court has decided that it is alright to "pull a man's leg" but breaking his leg is a horse of another color. There is one such offender, who has been given one year in the County jail to reflect upon his peccadory.

Mr. and Mrs. J. W. Hendricks, 1048 Thirteenth Street, entertained a few guests Thanksgiving Day, in honor of their daughter, Miss Mildred Peavy of Kansas City, Missouri, who is visiting them. Those sharing the courtesies were Mr. and Mrs. Delbert Page, Mrs. Earline Cunningham of Detroit, Michigan; Mrs. Mary Wyatt, Virginia S. Dixon, and Messrs. George Stewart, William Tall and Oscar and Arthur Peavy.

Ve Says: In Wednesday's Register approximately one and a fourth columns was used explaining Gas company rulings and the therm system of measurement. I've always been leary of things which demand so much explanation. Overheard on Center Street: "I'll be standing on Tenth and Center, when you starve to death this winter, I'll be glad when you're dead, you rascal, you."

The booze squad says it's hard to raid Negro bootlegging establishments on Center Street successfully, due to the close proximity of these places. I am wondering if this isn't also true of white "legging" districts.

Mme. Heink Stops Parade to Greet Negro Veterans

BUFFALO, N. Y., Nov. 26.—Mme. Schumann Heink stopped a procession to speak with war veterans here recently. The American Legion was escorting Mme. Schumann Heink from the train to her hotel, where she was to stop during her week's play at the Teck Theatre. Drums were beating and drill teams were marching, when she spied about 50 colored war veterans of the Jesse Clipper Post American Legion, who had turned out to pay her tribute.

Immediately she asked that her car be stopped and the leader, Commander Edward H. Thomas was called to be introduced.

"Give my love to every one of the boys," she requested and the procession continued on its way to the hotel.

National Lodge Officers Back Relief Move

Washington, D. C., Nov. 24.—National officers of the Negro fraternal orders of Masons, Elks and Woodmen are urging all local units to cooperate in unemployment relief, particularly in the matter of finding either temporary or permanent work for unemployed members of their respective orders and for non-members as well, according to advice received by the President's Organization on Unemployment Relief.

All members of these organizations have been urged to remember the less fortunate and to exercise extra diligence in seeking work for unemployed members in order that they may retain their self reliance and self-respect. Each local unit is urged to maintain an Honor Roll on which the names of all members finding employment for others will appear. Members finding work for five or more persons will have their names enrolled on a permanent Honor Roll to be displayed in the lodge rooms.

Oklahoma V. F. W. Oppose War Department Demobilization of 10th Cavalry

OKLAHOMA CITY, Okla., Nov. 25.—The National V. F. W. Post No. 100, which has taken a more militant position than the American Legion, which has petitioned resolutions at its Detroit session condemning the demobilization of the 10th Cavalry, Capt. S. P. Kretlow, commander of the Oklahoma department of the Veterans of Foreign Wars, telegraphed a protest to Secretary of War Patrick Hurley this week.

Secretary Patrick Hurley, War Department, Washington, I am reliably informed that the war department plans the ultimate demobilization of the 10th Cavalry, and that to this end the regiment has been separated into small units and distributed over the United States along with white organizations.

National Benefit Saves by Dropping Officers

WASHINGTON, D. C., Nov. 27.—A drastic reduction in the personnel of the National Benefit Life Insurance company in the interest of economy was made by Daniel G. Roper, the receiver, effective at the close of business November 14. Sixty-six employees, including three high officials of the company, were dismissed, resulting in an annual saving of \$120,000. Immediately following the dismissals officers who were retained by the receiver voluntarily made reductions in their salaries in amounts as high as 50 per cent.

By their action a further saving of \$14,000 a year will be effected, making a total saving of \$134,000 a year. Economical Measures Taken There had been a gradual reduction in the force of the National Benefit since its reorganization in June. When the accountant for the receiver made his report disclosing an impairment in the legal reserve of the company of approximately \$2,328,350.35, adoption of a program of rigid economy became imperative. The dismissals were in line with that program and, according to the receiver, were made for the sole purpose of aiding in a hasty restoration of the company to a solvent condition.

WASHINGTON, D. C., Nov. 26.—Postmaster General Walter F. Brown will become chairman of the Republican National Committee after the Republican National Convention in June, according to political leaders who have been conferring on the political situation. Mr. Brown is said to be acceptable to the President, who, however, is unwilling to have him assume the chairmanship until next June. His selection was urged upon President Hoover recently by Senator James E. Watson of Indiana, when Chairman Simon D. Pess offered to resign when the Republican National Committee meets here next month to choose the convention city.

White Gives Full Story of Communist Tactics

New York, Nov. 20.—Carefully laid plans by the Communists to capitalize Negro discontent in America, are exposed in "The Negro and the Communists," a detailed narrative of the Scottsboro cases, written by Walter White, Secretary of the N. A. A. C. P. and published in the forthcoming December Harper's Monthly Magazine, which will be on newsstands December 26. Mr. White three times visited Alabama in the course of organizing the defense for the convicted boys.

The article sets forth in narrative form all the known events of the freight train ride in Alabama, during which a fight occurred between white and colored boys, and following which nine colored boys were railroaded to death sentences for alleged criminal assaults upon two white girls riding the train in men's clothing. The ensuing tactics of the Communists, including misrepresentation of the N. A. A. C. P. as "traitors" and "in alliance with the lyncher bosses", attempts to break up N. A. A. C. P. meetings, and offers of money to Negro editors to boost Communist meetings, are fully recounted.

The N. A. A. C. P. organization of the defense, including the retention of Fort, Boddow and Ray in Alabama, the state's leading criminal law firm; of Clarence Darrow, and the offer of Arthur Garfield Hays to give his services, are outlined. The article closes with a warning to America that "there is but one effective and intelligent way in which to counteract Communist efforts" among Negroes and that is "a drastic revision of the almost chronic American indifference to the Negro's plight."

Fourth Annual Art Exhibit Here Dec. 5-6

The 4th Annual Art Exhibit sponsored by The Community Center will be held at the Center, 907 1/2 14th Street, Saturday and Sunday, Dec. 5 and 6. Approximately 25 individuals have made reservations to exhibit their work. The English Forum of which Mrs. S. E. Gilbert is president, will have charge of display arrangements and securing competent judges for the affair. The public is invited to view the exhibit on both days and also attend the Bohemian tea and musicale on Sunday afternoon at the Center. The Art gallery will be officially opened to the public Saturday afternoon.

The exhibit is given yearly to promote and stimulate the interest of Des Moines citizens in local artists, to keep before the public the latent talent in the race which otherwise might lie dormant and undeveloped and to encourage Des Moines people who have ability along these lines to strive to rise above mediocrity. Cash prizes donated by the Service Club, Mrs. A. A. Alexander, chairman, will be awarded successful contestants.

TELEPHONE COMPANY OFFERS NEW SERVICE

This is an entirely new communication service which heretofore has not been available anywhere in the United States. It consists in the establishment and operation of central switching exchanges for teletypewriters—machine with the same general appearance as an ordinary typewriter that typewrites electrically over wires to a distant teletypewriter or any other subscriber to the service within the United States.

OUR CHRISTMAS ISSUE

Next week, the Bystander will begin work on its Christmas issue which is to be published on December 18. Heretofore we have called upon all the business people, lodges, churches, clubs and other friends to join in greeting friends and customers in these issues.

We plan to make this the best issue yet. We are calling upon all of our friends who have appreciated the paper in the past and wish to do something to help it along to join and give a hand in the undertaking.

Like most institutions, the Bystander is having a most difficult time. It has been able to continue because a large number of its friends, black and white, have become convinced that the paper is a distinct asset to the community and are anxious that it succeed.

Naturally most people are trying to spend less money; many must do so because they make less. But we ask that your subscription to The Bystander or the ad or greeting you have run from year to year be not taken from your budget. We are keeping up the standard and can do so only if you do your part. Let us count on your help. Interested friends are urged to write or call in about this issue.

UNDULY ALARMED

Des Moines has had a recent case of kidnapping. One occurred last year. All the parties concerned have admitted that the participants have been men involved in the gambling business. These two cases coupled with an almost normal amount of crime for the time of the year have excited a lot of people who are charging that Des Moines is reeking with crime and demand that it be cleaned up.

Unfortunately these people who become "all het up" over criminals not only do little by their spasmodic outbursts but don't know and don't seem to get acquainted with the practical side of law enforcement.

A few days ago one of our law enforcement officers was holding a man for investigation. The man owned a car which was in the possession of the officers also. Later a woman appeared on the scene, informed the officers that the man owned her a bill and demanded that the officers sell the car and pay her. It is reported that she must take steps in the civil courts to subject the car to her claim, she left indignantly saying that "you fellows are in league with the criminals."

Criminals have rights and whether you like it or not they must be respected. They are smart enough to know that and operate in such a way as to avoid trouble. At best they are a difficult lot to handle.

Des Moines people have little to worry about in the matter of law enforcement for on the whole the town is pretty clean; cleaner than most any town to be found of its size. Yes, we have lots of gambling, bootlegging, etc., but they are kept down to the minimum. The nature of their operations assure the existence of some. Our officers are doing a pretty good job and there is little about which to become alarmed.

CANCER

Cancer is not incurable in its beginning but becomes so after so long a time. This curable period may occupy a short time of a longer time. In the beginning of this disease there is always some doubt about its true nature especially by the one afflicted and the growth is assumed to be other than it really is. This applies, of course, to growths on the external portion of the body, on the lip, on or within the breast and on any portion of the body externally where it may be easily observed.

Cancer of the stomach and cancer of the reproductive organs are hidden from view and may reach a certain growth before they are suspected. These are the most dangerous and more difficult of cure at any stage but are better treated at an early stage in their development. Any disorder of the stomach whether it be pain, nausea, vomiting, bloating after meals or whatever the symptom might be should prompt an examination of this portion of the digestive tract. Likewise any irregularity in the action of the reproductive organs should be regarded as sufficient cause for examination there. The relief which comes from knowing that cancer does not exist and the comfort which follows cure when it has been discovered in the early stage is well worth the imagined inconvenience of an examination for the discovery or absence of this condition.

Further Light on the Accident

This memorial service and further reports on exactly what happened in Dalton, Georgia, have done a good deal to help the faculty and student body of Fisk to pull themselves together and go on with the school work. It has been definitely proved that those suffering from the accident were not left on the roadside for a long time. Miss Derricotte was received at a doctor's office between 4:10 and 4:20, Miss Johnson between 4:00 and 4:10 o'clock. The very earliest time that the accident could have occurred has been fixed at 3:45. Miss Johnson, according to the doctor who attended her in Dalton, was removed to "the house where operations are

REV. A. CLAYTON POWELL, JAMES MARSHALL, ELECTED TO N. A. A. C. P. BOARD

New York, Nov. 13.—Dr. A. Clayton Powell, pastor of the Abyssinian Baptist church of New York, one of the most powerful churches in the country, and James Marshall, son of the late Louis Marshall, have been elected to fill vacancies in the Board of Directors of the N. A. A. C. P. It was announced today.

Dr. Vernon Bance, president of the New Jersey State Conference of N. A. A. C. P. branches, and William Allen White, of Emporia, Kansas, celebrated journalist and writer, have been nominated for election in January, to fill vacancies in the N. A. A. C. P. Board which will occur at that time.

Dr. Powell's election to the N. A. A. C. P. Board fills the vacancy caused by the death of the late George William Cook, Dean of Howard University. James Marshall, who has been a member of the N. A. A. C. P. National Legal Committee, succeeding his father, has taken an active interest in the legal battles being fought by the Association.

New Orleans, La., Nov. 10. (AP)—Summary action was taken here Tuesday by S. W. Green, supreme chancellor of the Knights of Pythias, against the principal officers of the South Carolina jurisdiction because of their failure to comply with the laws of the Supreme lodge.

The men against whom the supreme chancellor issued a suspension order are: J. A. Brown of Charleston, S. C., grand chancellor; J. B. Lewis of Columbia, grand keeper of records and seals; and Dr. R. S. Wilkinson of Orangeburg, grand master of the jurisdiction.

In the place of the suspended grand chancellor, Mr. Green appointed E. F. Floyd, former vice chancellor. The new grand chancellor is directed to appoint new men to fill the positions

CANCER

The smoldering sentiment of hostility was brought to a flame two months ago when certain factionists in the South Carolina order held a meeting and agreed upon a program which was construed as secession from the supreme lodge. This action was taken without the knowledge of the supreme chancellor. The explosion came because of friction between the grand lodge and the supreme lodge over the payment of certain taxes prescribed by the supreme lodge laws by the grand lodge to the supreme lodge. The taxes imposed by the supreme lodge laws were held to be exorbitant by the leaders of the grand lodge.

Nashville, Tenn., Nov. 13.—A very beautiful memorial service for Dean Juliette Derricotte and Miss Nino Johnson who died on Saturday, Nov. 7, as a result of injuries received in an automobile accident was held in Fisk Memorial Chapel at one o'clock on Wednesday, the same hour in which funeral services were being held in Miss Derricotte's home in Athens, Georgia.

These doctors believed that the injuries would prove fatal. There is a hospital in Dalton, Georgia. So far as can be learned and according to the testimony of the doctors no attempt was made by any one to have Miss Derricotte and Miss Johnson admitted to Hamilton Memorial Hospital for treatment, the reason being, as one of the doctors said, "we don't

take them there. You see we don't have any ward for them there." It was 10:30 before Chattanooga doctors removed the injured thirty-five miles away to a Chattanooga hospital. Further investigation of the accident is being made by the Commission on Inter-racial Co-operation.

as a grown dog, and its future is entirely in your own hands.

Eating is the biggest thing in a puppy's life, and what and how he eats will either make or break him, according to the Foundation. "Little and often" is probably the best rule of successful puppy rearing. Feed four or five times a day from weaning time till four months of age and no more than four times a day at six months. Increase the ration as you decrease the number of feedings, fresh meat never more than just a trifle over what the puppy will eat up quickly. When the average puppy is at the end of twelve months ready to enter full doghood, he should be getting no more than two meals a day, and preferably one if the puppy does not finish the meal provided for him, what remains must be removed in a few minutes and nothing else should be given until the next feeding hour.

By nature the dog is a meat-eating animal, but under today's domesticated conditions, fresh meat serves from the butcher's is much too concentrated a diet. Research workers who have given thought to this problem in recent years have been able to develop scientifically-balanced canned meat foods which have taken all the guess out of dog and puppy feeding. They contain all the elements necessary for proper growth and development. Both puppies and dogs especially relish those made from horse meat. A part of every puppy's ration should be some dry food which has been softened with milk or water. This may be only a teaspoonful at six weeks, but should be increased with the size and condition of the animal. As the puppy grows older of its teeth stronger, dog biscuits (killed) or whole form may be substituted. The biscuits afford the exercise demanded by the puppy's jaw and serve to keep his teeth clean. Teach your puppy to eat at a regular place and time. Having regular eating times will be a big step in disciplining him. Make it a practice to take him out for a walk short after feeding.

"Until Negroes are assured a permanent place in the industry of America the real emancipation of the black race will not be accomplished," asserts Dr. W. E. B. DuBois as he publishes the first of a series of articles in the December Crisis, depicting jobless Negroes being lost in the maelstrom of the present depression. "While America makes itself over industrially the Negro is being almost entirely left out of the pattern," he continues.

Economically weak, the Negro is put to test to keep his head above the stagnation line. What few jobs that are available are not for him. The lack of organization cause this, the Editor believes. He suggests a five-year plan for the Negro, which calls for a directing of America's black laying power so that it will create an outlet for Negro labor. Only a firm

economic foundation can lift the race out of a virtual state of slavery. In attacking this question of employment, unemployment and relief, Dr. DuBois made an official survey of the nation's cities through their mayors to find out to what extent Negroes were suffering and the provisions that were being made for them. These reports, published in the magazine, clearly show that while some cities have made sincere attempts to take care of their black unemployed others displayed an attitude of indifference leaving the colored citizens to shift for themselves.

Washington, Nov. 19, (ANP)—The best way out of the difficulties confronting National Benefit Life Insurance Company, is to reorganize the institution upon a mutual basis for the benefit of its policyholders, according to recommendations contained in a report filed by Receiver Daniel C. Roper, in the Supreme Court of the District of Columbia, last Tuesday.

Presenting to the court the results of the work of the auditors and the actuary who have been examining the records and transactions of the company, ever since his appointment as receiver, September 24th, Mr. Roper set forth the present financial condition of the organization and showed that the sum of \$2,825,000 would be necessary to make good the impairment now existing in the legal reserve of the company.

National Benefit had \$60,000,000 worth of insurance in force. The amount required by law to be set aside as legal reserve for the policies outstanding is \$8,063,503.98 less liens and unpaid premiums totalling \$838,374.34. Against this is the net worth of the company which Mr. Roper reports as being \$2,396,749.23. The capital stock of the organization is \$250,000.

Stockholders May Reclaim Company

If They Raise \$3,000,000

The stockholders are to have an opportunity to make up the impairment if they so desire and to this end receiver Roper recommends that they be instructed to appear in the Supreme District Court and express themselves regarding their desires with respect to contributing the necessary fund.

\$6,400,000 BUDGET "AGREED TO" AFTER N. A. A. C. P. PROTEST TO HOOPER

New York, Nov. 18.—Placed in a

highly uncomfortable position by a strong protest to President Hoover by the N. A. A. C. P. against the ultimatum delivered by the American minister in Haiti, Dana Munro, holding up all Haitian salaries, the U. S. Department of State has "agreed to" a budget of \$6,400,000 and given up insistence on a \$6,100,000 budget which Minister Munro had tried to force on the Haitian government.

Announcement of the new "agreement" came in an Associated Press dispatch from Washington announcing that the "detailed budget was nearly completed" according to advices from Minister Munro in Haiti.

It is no secret in the State Department that the N. A. A. C. P. protest caused acute discomfort there, and that the N. A. A. C. P. protest was transmitted to the Department by President Hoover accompanied by a strongly worded memorandum from the President.

New York, Nov. 13.—Plans for a nation-wide campaign to procure employment for colored people have been worked out by the national office of the N. A. A. C. P. and have been placed before the branches throughout the country, which are now working to carry out those plans.

Three main activities are contemplated in the N. A. A. C. P. Employment Campaign: first, appointment of committees to see to it that Negroes get their proper share of positions in city departments and on municipal county and state jobs; second, inquiry into the administration of local, state and federal funds for unemployment relief to make sure there is no discrimination against colored people; and third a "Buy Where You Can Work" campaign, with special reference to chain stores and other business deriving considerable revenue from Negro patronage.

Concerning the Buy Where You Can Work campaign, the N. A. A. C. P. letter urges a committee to request employment of Negroes by chain store and other proprietors and managers in Negro neighborhoods. The letter continues: "The recent highly successful campaign in Chicago by the Chicago Whip was financed in a large part by the Chicago branch of the N. A. A. C. P. In this connection the branches are warned against establishing a "black list" as this is illegal. On the other hand there is no legal prohibition of "white lists"—that is, stores which are favorable in the matter of employment of Negroes."

The N. A. A. C. P. is inviting and urging its branches to invite the co-

Watches in Havana Set

When Old Gun Is Fired
Among the world's odd timepieces is that by which Havana sets its clocks and watches. Never has it lost a minute, run down or chimed the wrong hour. Nor has its face necessitated the periodic washing that all clocks seem to need.

In fact it really isn't a clock at all, but a battery of 21 old Spanish guns, mounted on the parapet of Havana's fortress overlooking Havana harbor, one of which is fired slightly at nine o'clock, a custom that has prevailed for nearly four centuries.

Though Havana may bustle with activity throughout the day, hearing a thousand noises and sounds, it listens intently at nine o'clock for the rumble of one of the guns. The electric timepiece in the old fortress is controlled by the adjacent observatory National. Each night a few seconds before nine o'clock a bugle sounds the approach of the hour, the gun is rammaged and then fired on the dot.

Years ago, before Cuba won its independence, the Spanish fired the gun twice daily—at 12 o'clock noon and at nine, when the gates of the old city of Havana were closed for the night. However, after Cuba became its own master, it was felt needless—and a trifle expensive—to fire the gun at noon, when the city's natural noises drowned the boom of the gun. So the noon shot was discontinued, effecting a saving of seven dollars a day at the time.

Beds in Closets Once

Matter of Necessity
This hygienically minded age which scoffs so readily at the "Etropean notion" that fresh air at night is unhealthy may be chagrined to realize that the open beds on which we sleep nowadays are a natural evolution of the beds with doors which can still be found in peasant quarters in Europe, says the New York Sun.

The last vestige of the old notion of sleeping in a closet was the four-poster bed which, to antique collectors, is a very desirable object. It was from sheer necessity that people used to sleep in closets. Without central heating it was the only way to keep warm at night, but as houses were better built, the closet doors changed to heavy curtains. The next development was leaving off the back and sides and substituting four posts with a canopy from which curtains hung.

Monks in Old Home

The old abbey of Saint-Wandrille, near Rouen, is inhabited again by the Benedictine monks, who used to live in it before the days of the expulsion of religious orders from France. The homecoming of the holy men must have frightened away a good many profane spirits, as the abbey belonged for several years to the Belgian writer, Maurice Maeterlinck, who, with his former wife, the actress Georgette Leblanc, gave there great artistic parties, including productions of famous plays. The old cloisters contributed a beautiful scenery, and "Macbeth" found there an unrivaled setting. Then Maurice Maeterlinck took to other pleasures and other elms, and the abbey of Saint-Wandrille was deserted. Now the monks sanctify it anew.—Exchange.

Beauty Now a Science

The invention of a device to measure beauty is claimed by Jose Y. Soriano, student in the University of the Philippines. The machine consists of a circle divided into more than 20 parts and angles in which the beauty of the face can be mathematically determined for purposes of comparison. The girl is viewed from different angles and her score is the sum total of the grades taken from the various angles. The highest grade that can be made is 2,000 points and the lowest 450 points.

Yellowstone in 1867

"An exploring party, which has been to the headwaters of the Yellowstone river, has just returned and reports seeing one of the greatest wonders of the world," said an article in the Montana Post on September 14, 1867. "For eight days they traveled through a volcanic country, emitting blue flame and living streams of molten bitumens. The hollow ground resounded beneath their feet as they traveled, and every movement seemed to break through. Not a living thing was seen in the vicinity. The explorers gave it the significant appellation of Hell."

Close Acquaintance

Mrs. S. had gone down to her precinct voting place to vote. She noticed another woman also waiting. "I've always voted a straight ticket before," Mrs. S. told the woman, "but this year I don't think I will, because I don't think much of Mr. — of that party. Do you know much about him?" "Well, rather," replied the woman. "You see, I'm married to him!"

PATIENCE IS KEY TO DOG TRAINING

Use Tact and Kindness to Bring Out the Best of Animal's Ability.

A properly trained dog is a delight to himself and his master. He loves to do his master's bidding, and were every dog well-trained, there would be little complaint about dogs and their deeds, states the Chappel Kennel Foundation, Rockford, Illinois.

Probably 95 per cent of dogs have the ability for training and only require effort, patience and repetition to bring it out of them. The early training of a dog is most important. A dog not trained or disciplined during the first twelve months of his life, will not be nearly as manageable and dependable when grown.

Only one person should be the dog's instructor during the entire course of

training. After a dog is trained, he should go through the commands for anyone who gives them properly.

The first and highest lesson you can teach him is obedience, founded upon full confidence in you as his master. All the rest will take care of themselves as a matter of course.

Causes of failure to secure obedience from a dog after weeks of training may be set down as two. The act has not been repeated often enough or it has been repeated too many times on the same day. Two or three commands a day are sufficient. But stop work only on a successful performance.

A dog does not know the difference in the meaning of words. After many trials and much work he can be taught to do so and so when a certain word is spoken. But the meaning of the word itself is beyond him. A word spoken in a kind way will make him glad and wag his tail; the same word spoken in a rough way will make him run in fear.

Another cause of poor control over a dog is failure to reward him. A dog likes to be praised and feel that he is appreciated. A kind word, a pat on the head will usually go about as far as anything else. A bit of such food as kibbled biscuit, given at the end of each successful act helps him to feel that he is appreciated.

Simple Facts of Dog Feeding Told

If the feeding of your dog presents itself as a weighty problem, take heart!

According to the Chappel Kennel Foundation, Rockford, Illinois, here is all that you need to know about his feeding:

- 1. Feed one heavy meal a day, preferably in the evening. Feed the light meal in the morning. Puppies require three to five meals a day, depending on their ages. Feed at the same hours each day.
2. Meat is the dog's natural diet. If you feed your dog a prepared, well-balanced meat food, with dog biscuits for variety's sake, he will need nothing else.
3. Don't feed table scraps, potatoes, boiled eggs or pork, and don't serve soupy foods. Beware of chicken and fish bones. Dogs' taste nothing for sweets until taught to like them.
4. Provide plenty of water.
5. Never allow violent exercise directly after feeding.
If a dog does not take readily to biscuits, which are essential to keeping his gums hard and teeth clean, it is suggested that kibbled or broken biscuits be gradually incorporated in its regular ration until he gets used to eating them.

UNCLE SAM EATS MORE MARGARINE THAN PREVIOUSLY

CHICAGO—Consumption of margarine in the United States in the last year increased 43 per cent over 1928 according to a report just made public here by Dr. J. S. Abbott, secretary of the Institute of Margarine Manufacturers.

"The consumption this year was 333,213,451 pounds as compared with 232,979,289 pounds in 1928," the report states. "This important increase is due primarily to a more intelligent understanding on the part of the public of the composition and food value of margarine, to lower prices effected through economies in manufacturing, the annual cost of fact fats and other materials entering into its composition, mass production, a generous newspaper advertising policy, and improvement of the quality of the product by the application of scientific methods of production resulting from continuous researches in the preparation of this article of food."

"In Europe and the United Kingdom, where margarine is a staple table necessity, the annual consumption was in excess of 22,000,000 pounds. The per capita consumption in Great Britain was 7.70 pounds in 1928 as compared with 11.78 pounds in 1924. In Germany it was 10.3 pounds in 1928 as compared with 17.8 pounds in 1928. Denmark presented the best example of a rigid curve in margarine consumption. In that country the per capita consumption was 7.75 pounds in 1922 as compared with 4.31 pounds per capita in 1928."

Future of the margarine industry, the report states, would seem to hold the promise of wide markets, especially in the United States and in

PROTEST TO NEW YORK DISTRICT ATTORNEY ON REMARKS AT TRIAL OF ASSISTANT

New York, Nov. 13.—Remarks of Assistant District Attorney Joyce of New York, who in the recent Rosenthal kidnapping trial referred to a "dirty nigger neighborhood" are the subjects of a strong protest to District Attorney Thomas C. C. Crain of New York County, by the N. A. A. C. P.

The N. A. A. C. P. letter reports also that Mr. Joyce exhibited either ignorance of the New York civil rights law or willingness to disregard that law, when he inquired at the trial: "What business has a colored woman in the Hotel Astor?" The N. A. A. C. P. asks that District Attorney Crain take appropriate action against his subordinate and asks that it be advised of what action

has been taken against this prejudiced officer of the law.

It is dumb stupidity for any woman to have bad breath. It offends others—ruins you socially. The worst of it is you, yourself, never know when you have it.
