What with not a few preachers dabbling in local politics, police raids, prohibition, etc., I am wondering when they have time to take care of their own business of spreading the gospel.

While one our scientists is attributing his success to "Divine Revelation," I wish "Divine Revelation" would enlighten the Negro on how to make money.

The muff erage is coming back. Fat women barging along with their hands stuffed in a muff look like so many fat tug boats puffing along.

Is there anything that can be done about the pest who walks along Center street stopping to peer into windows at every skirt he sees?

A pet prejudice: I have never quite been able to like folks who dislike cats and dogs; and people whose culture is so effected and obvious that it is as noticeable as a cotton field in Alaska would be.

When men say "thumbs down" on a woman, she's down. When women say "thumbs down" on another woman, she's down. But when a woman says "thumbs down" on a man, he immediately becomes "the man of the hour" with all the other women. 'Tis pitiful that we have no sense of loyalty to one another where a man is involved.

St. Paul AME Church Endorses Excellent Work of Rev. Guy

At a joint meeting of the Trustee and Stewards Board of St. Paul's A. M. E. church held January 31, 1932, a summary of two years work under the administration of Rev. W. E. Guy was made. Out of appreciation of the progress made in these two years, it was the action of the two boards that a committee of three be named to write and publicly express to the public their deep feeling of gratitude. Mr. R. S. Sims, secretary of the Official Board, Miss Susie L. Hart, secretary of the Trustee Board and Mr. O. L. Glass, treasurer of the Trustee Board were named as this committee.

On Sunday, Feb. 7, on the date of Rev. Guy's second anniversary, this committee conformed to the action of this meeting and two documents were read before the congregation of St. Paul's. A motion made by Mrs. Sue Brown received unanimous vote adopting the report of the committee as the expression of the entire congregation. The following were the reports as read.

The pastor in response to these resolutions surprised his officers and congregation by announcing that he had voluntarily taken of his own free will and accord a second cut on his salary, in order that he might share with his congregation the economic loss that they were sustaining in these troublous times.

Political War Rocks Evanston Illinois

Evanston, Ill., Feb. 11.—As the result of an intensive political war, led by many of this exclusive suburb's most influential white citizen's the name of Edwin B. Jourdain, 31, a Harvard grad and former Chicago newspaperman, will be first on the aldermanic ballot here next April. Jourdain was unseated by the city council recently on charges of election fraud, but this act was followed by a stormy protest on the part of hundreds of the community's outstanding residents.

Four northwestern university professors, two nationally-known grid stars, a dozen students and scores of other white citizens led the drive on the City Hall here, Friday, in an effort to register the name of Jourdain to appear No. 1 on the ballot. The leaders included Professors J. A. James, A. R. Hatton, Kenneth Colegrove and James Yard and Ernest "Fog" Rentner, star halfback and Jack Riley, tackle and co-captain of the Purple Wolverines. Prof. Hatton, one of America's foremost authorities on municipal government led the protest against Jourdain's ousting.

Evanston is an aristocratic North Shore neighbor of Chicago and is ranked as one of the world's wealthiest suburbs.

Jourdain was elected to the Evanston City Council in April, 1931, for a two-year term.

Japan hates us because of our famous "exclusion act." China hates us because we've intruded upon them. England hates us because of the Boston Tea Party. The Philippines hate us because we won't give them their independence. Haiti hates us because we won't give them their absolute freedom. Russia hates us because we don't recognize their government. Germany hates us because of the World War. Hawaii hates us because of America's conduct toward darker races. Mexico hates us because of border warfare and ruthlessness of our big business interest there. South America tolerates us, but does not like our attitude of condescension used against its conglomerate dark races. France hates us because of her war debt to us.

Chief of these private concerns is the Six Companies, a San Francisco corporation. This company refuses to employ Negroes in any capacity and all efforts to obtain jobs or even a respectful hearing are balked by its superintendent, Mr. Crow. The only Negro on the job is employed by the smaller New Mexico company.

The government link in this outrageous affair is supplied by Mr. Blood, chief of the federal employment office at Las Vegas. All labor hired for the construction work is supplied by this servant of the people. But Blood's office will not hire Negro workers despite the fact that the labor turnover is about 300 per day.

He drew a harrowing picture of more than 200 Negroes denied work of any kind at the mushroom town that has sprung up around the Nevada city. Housing facilities are pitifully inadequate, Buford revealed, and Negroes are living in a section of the city known as Old Town. Their dwellings are old piano boxes, ragged tents, or any other kind of rude shelter that will protect them from the ravages

of the weather.

Eminent Scientist In Grand Homecoming

dents headed by Mr. Frank Matthews, a Negro, graduate and Miss Myrtle Morrow, a Negro undergraduate student.

Mrs. S. Joe Brown, chairman of the special committee, presented the Burns Junior Quartet, who sang a group of Negro spirituals, and Miss Harriet Fulton and Mr. Irvin White recent graduates of Des Moines High schools who respectively contributed a reading and a vocal solo.

Dr. Chas. D. Reed, director of the U. S. Weather Bureau, introduced Dr. Carver, who had been his classmate at Ames and from whom he acknowledged he had received much spiritual as well as intellectual inspiration and Dr. Carver in the course of his lecture, that lasted more than an hour, exhibited near a hundred of the two hundred eighty-five useful commercial products that he has developed from the humble peanut of Alabama, which ranged all the way from milk, of the same constituency as Jersey cow's milk made from the oil of the peanut to writing paper made from the skin from around the kernel.

At Ames

Wednesday morning Dr. Carver was conveyed to Ames, accompanied by Attorney Brown, Prof. Abbott and Revs. Geo. W. Robinson, Wm. E. Guy, H. L. Overton and J. W. Tutt of the reception committee of the Interracial Commission and upon his arrival upon the campus was immediately taken in charge by Dr. I. E. Melhus, the present head of the Botany Department, in which department Dr. Carver specialized as a student and where he spent two years as a teacher after his graduation and they two spent most of the day together discussing various genuses and species of plants and herbs that were entirely beyond the comprehension of the members of the reception committee, who found much better entertainment in visiting each of the score of more magnificent buildings on the Ames campus including the radio station WOI and the chemical laboratory of Mr. N. O. Calloway, a former student of Dr. Carver at Tuskegee, who has already taken his Master's Degree from Ames and is now working for his Doctorate, experimenting with a certain by-product of oat meal, upon which one experiment he has been working for nearly a year and has fitted for his exclusive use one entire laboratory of the College.

Dr. Carver was honored guest at two luncheons with present and former members of the Ames faculty, including Miss Etta M. Budd, who was his teacher at Simpson College and who was largely responsible for his transferring from Simpson to Ames. His public lecture to the student body was delivered in the laboratory of the Botany building, which was jammed and overflowing with faculty and students, including Miss Catherine Glass a Sophomore student from Des Moines and the rest of the score of Negro students; and while the lecture and demonstration were practically the same as the one given at the Testimonial dinner in Des Moines, it was made by far more impressive because of the fact that it was being given in the very laboratory in which as a student Dr. Carver began his scientific investigations and upon the walls of which hangs today but one individual portrait of a former student—that of Geo. W. Carver.

Dr. Carver was honored guest at two luncheons with present and former members of the Ames faculty, including Miss Etta M. Budd, who was his teacher at Simpson College and who was largely responsible for his transferring from Simpson to Ames. His public lecture to the student body was delivered in the laboratory of the Botany building, which was jammed and overflowing with faculty and students, including Miss Catherine Glass a Sophomore student from Des Moines and the rest of the score of Negro students; and while the lecture and demonstration were practically the same as the one given at the Testimonial dinner in Des Moines, it was made by far more impressive because of the fact that it was being given in the very laboratory in which as a student Dr. Carver began his scientific investigations and upon the walls of which hangs today but one individual portrait of a former student—that of Geo. W. Carver.

W. Carver.

It is indeed remarkably co-incident that during February in the year that America is celebrating the two hundredth anniversary of the birth of George Washington, the first great American, that Des Moines and Ames should be celebrating the first "Homecoming" for George Washington Carver, the great Negro scientist of Tuskegee, who was reared and educated near Des Moines and who was the first Negro to graduate from the Iowa State Agricultural College at Ames, where he received his Baccalaureate in Science thirty-eight years ago, and to neither of which cities he had returned since that time, until he was brought back last Tuesday by the Des Moines Interracial Commission and given a full day's celebration in Des Moines on Tuesday and then escorted to Ames where he was given another full day's round of honors by the faculty, students, former teachers, other old time friends.

The celebration in Des Moines began shortly after the arrival of Dr. Carver and his secretary, H. O. Abbott, when they were escorted to East High school by Rev. Wm. E. Guy, members of the Carver Reception Committee, where he addressed two assemblies of students comprising nearly a thousand each; these assemblies having been specially arranged for by Prof. A. W. Merrill, Asst. Supt. of Schools and Chairman of the Educational Committee of the Commission and Prof. A. J. Burton, principal.

He addressed two assemblies of nearly two thousand students at North High school in the afternoon, making a total of near four thousand Des Moines high school students who had the honor of seeing and hearing this greatest of Negro scientists in these two high schools which have the largest percentage of Negro students.

However the crowning event of the Des Moines celebration was the Testimonial Dinner, held in the Auditorium of the Y. W. C. A. in the evening where two hundred and fifty men and women, of both races, including Mayor and Mrs. Parker L. Crouch, Judge and Mrs. O. S. Franklin, Rev. and Mrs. Chas. S. Medbury, Atty. and Mrs. Casper Schenk, Dr. and Mrs. Chas. D. Reed of the U. S. Weather Bureau and a number of other prominent Des Moines white citizens, too numerous to mention, were present.

In addition to all these distinguished Des Moines citizens, there were present a delegation from Winterset, Iowa, where Dr. Carver got his elementary education, including Prof. E. R. Zeller, '88, who was Supt. of the Winterset schools when Carver entered there fifty years ago and Mr. H. A. Mueller, Secretary of the County Historical Society, who is compiling a biography of Dr. Carver for the files of that organization.

While a special religious emphasis campaign in Simpson College at Indianola, where he received his secondary training, prevented the attendance of the President and faculty of that institution, they were officially represented by a delegation of stu-

dent and where he spent two years as a teacher after his graduation and they two spent most of the day together discussing various genuses and species of plants and herbs that were entirely beyond the comprehension of the members of the reception committee, who found much better entertainment in visiting each of the score of more magnificent buildings on the Ames campus including the radio station WOI and the chemical laboratory of Mr. N. O. Calloway, a former student of Dr. Carver at Tuskegee, who has already taken his Master's Degree from Ames and is now working for his Doctorate, experimenting with a certain by-product of oat meal, upon which one experiment he has been working for nearly a year and has fitted for his exclusive use one entire laboratory of the College.

THE WRONG CHOICE

The political campaigns are beginning to take form. Political leaders, little and big, are getting busy, each contending that he controls blocks of votes. It is little wonder that the voters become confused for invariably issues are lost sight of in the scuffle to determine who the real leader is.

Too many of our office seekers prefer to deal with the "Uncle Tom" type of Negro politician, rather than the type from which leaders of their same level in life come. The reason of course is obvious. Uncle Tom never hopes to be anything else and is entirely satisfied with whatever crumbs that fall from the table.

And immediately office seekers show this preference they may be well labeled no good for the best interest of the Negro race. The race is too intelligent to be kidded any longer about this.

WALTER WHITE COMPLETES 14 YEARS WITH N. A. A. C. P.

ON FEBRUARY 1

New York, Feb. 5.—Walter White, secretary of the N. A. A. C. P., completed fourteen years of service with the Association on Feb. 1. He came to the Association from Atlanta, where he was the cashier of the Standard Life Insurance Company, at the instance of James Weldon Johnson, at that time Field Secretary of the N. A. A. C. P.

During the course of his work with the Association, Mr. White has traveled hundreds of thousands of miles, including a lecture tour in Europe, in connection with the Pan-African Congress, and a visit last year to Haiti. On Mr. Johnson's resignation as Secretary of the N. A. A. C. P. in January, 1931, Mr. White was elected to succeed him. Besides the work on lynching, "Rope and Faggott", written during a year's leave of absence, under a Guggenheim Fellowship, Mr. White has written two novels, "Fire in the Flint" and "Flight", both dealing with aspects of race relations, besides numerous articles in leading magazines and newspapers.

INVESTIGATE—ACT

The Colored Citizens Labor Protective Association at Las Vegas, Nevada, makes the disclosure that Negroes are not being hired at the Hoover dam, because they are Negroes, and that foreigners are getting jobs.

Undoubtedly thousands of people have flocked there for work and in the shuffle it is pretty hard to trace down the reason for the difficulty. We hope that organization has substantial proof of their charges; on the ground they are in a position to get it.

Here is a government project where the tax payers' money is footing the bill. Surely Washington ought not allow the color of a man's skin to be the determining factor in hiring its employees. These people are contracting representatives in Congress, bringing who yells the Democratic nomination that an investigation be made and the unjust practice stopped. It ought to be done.

It looks as if Al Smith is going to have a lot to say about nation for President. He has done this twice before and his say helped the Republicans get elected.

Negro baritone and former all-American football star at Rutgers, entranced an appreciative audience at the Hoyt Sherman auditorium Thursday night with his great singing of the spirituals.

Robeson's superb performance with spirituals and his encore of Russian folk songs proved to his listeners that he is without question the great-

HEALTH TALKS

By Dr. H. H. London

TEETH

The teeth are frequently cause for many bodily conditions when pyorrhea is present or when there exists at the roots abscesses or pus pockets. In some cases this may be told at a glance and in others closer inspection is necessary to observe disease conditions in and around them. Where such conditions are easily observed there is only one course to pursue and that is to remove or attempt to remove pyorrhea or decayed teeth before some disease in other organs or other parts of the body ensue.

At other times it is necessary to make a more careful examination of the teeth even to x-raying of same to discover infection or abscesses at the roots. Sometimes, far from being the cause of bodily conditions the teeth but share in the destruction which is going on in other organs or tissues. The connection between teeth and stomach has always been considered close and whether this connection be one merely of location in reference to the mastication of food in preparation for its reception by the stomach or a closer one involving intricate chemical considerations is unknown.

Certain it is however that there is a previous food digestion in the mouth cavity which has to do with starch digestion and the absence of teeth or the presence of poor teeth makes a perfect digestion here an impossibility. Putting the teeth in order usually results in an improved digestion where poor digestion has existed in connection with poor teeth.

DARROW FEELS DEBT TO NEGRO HE SAYS IN HIS NEW 'LIFE'

New York, Feb. 5.—Clarence Darrow in his new "The Story of My Life" just published by Scribners, tells of the debt he feels to American Negroes, which led to his entrance into the Sweet Case in Detroit, which he successfully defended for the N. A. C. P.

This debt Mr. Darrow who is a member of the N. A. A. C. P. board of directors, expresses as follows: "I may not be true to my ideals always, but I never see a Negro without feeling that I ought to pay part of a debt to a race captured and brought here in chains."

The book gives a picture of Mr. Darrow's entire career from his early struggles to his attainment of fame as an internationally known criminal lawyer.

RADIO TELEGRAPH NOW GOES INLAND

Fourteen Cities in Nucleus of Network, With Plans for Twenty-nine as Wave Lengths Are Granted.

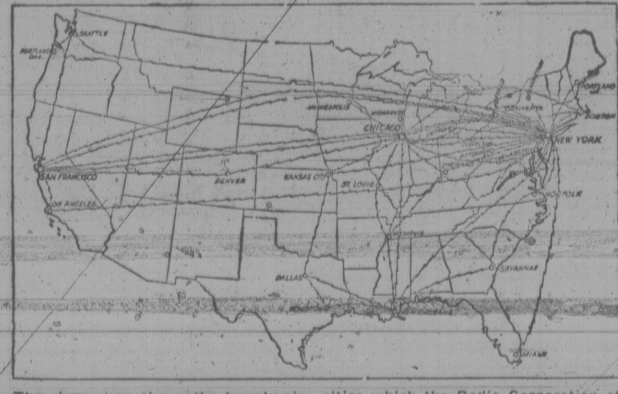

Plans for the immediate establishment of a radio-telegraph system serving all the interior of the United States through fourteen strategic cities just have been announced by General James G. Harbord, president of the Radio Corporation of America. The service will be managed and operated by the Corporation's subsidiary, R. C. A. Communications, Inc.

The stations will be at New York, Chicago, San Francisco, Los Angeles, Seattle, Denver, New Orleans, Kansas City, Detroit, Cincinnati, Cleveland, St. Louis, Boston and Washington. General Harbord's announcement reveals.

The establishment of the new service, which will give the inland cities direct communication with the world wide wireless network radiating from New York and San Francisco to foreign countries, was made possible by the recent grant of ten exclusive channels and five shared channels from the Federal Radio Commission.

"We hope to extend the system," General Harbord said, "to the full list of 29 cities contemplated in our original application as soon as additional wave lengths are made available."

Other cities whose commercial importance and strategic location justified a place in the new radio network, General Harbord said, were Philadelphia, Miami, Fla., Savannah, Minneapolis, Memphis, Pittsburgh, Houston, Norfolk, Buffalo, Portland, Me., Rochester, Schenectady, Portland, Ore., Milwaukee, and many others which it is

hoped will eventually be added to the radio-telegraph chain.

"Establishment of a new service," General Harbord said, "will give the leading commercial and industrial centers of America a new, quick and reliable means of communication with each other."

"But its greatest significance, as the United States turns more and more to foreign markets, is that it brings Europe, South America and the Orient closer to America through radio's new and efficient avenue of communication."

Supplementing General Harbord's announcement, W. A. Winterbottom vice-president in charge of communications, revealed that the construction program for the fourteen cities was already under way. Three million dollars has been set aside for the initial expenditure.

Ft. Huachuca, Ariz., Feb. 4.—Again hurling insidious insult at that gallant Negro soldiery which fought and died for "democracy," and not content with segregating Negro and Indian children in the school system, headquarters of the 25th U. S. Infantry instituted the practice of discrimination in the company theater here a few days ago. The commanding officers of the unit are white, but the Negro soldier personnel constitutes about 95 per cent of the outfit.

A wave of resentment swept the rank of the Negro soldiers following the issuance of the order calling for sectional segregation in the theater and indicating that certain sectors would be reserved for "white civilians, the white enlisted personnel and Mexicans."

SCIENTIST CREDITS HIS ACHIEVEMENTS TO DIVINE REVELATION

"Some Iowa youth studying chemistry today may be the savior of the wheat or corn situation tomorrow," Dr. George W. Carver, director of the department of agricultural research of Tuskegee institute, told high school students in Des Moines Tuesday.

Speaking at two assemblies at East High school in the morning and at two others at North High in the afternoon, he told his audiences possibilities of science and the opportunities science holds out for the youth of the nation "have been only scratched."

How he made the peanut a basis of 285 commercial products was outlined Tuesday night, the noted Negro scientist, at a dinner given in his honor at I. W. C. A. headquarters under the auspices of the Des Moines interracial commission.

Among the 250 persons present were six former classmates of Dr. Carver at Iowa State College, Ames, in 1874, and E. R. Zeller, 88, of Winterset, Ia., who was superintendent of schools at Winterset when Dr. Carver was a student. Mr. Zeller lauded the career of

Dr. Carver, as did Charles Reed, meteorologist in charge of the weather bureau at Des Moines, who was a classmate of Dr. Carver at Ames.

Exhibiting samples of the products he has made from the peanut, Dr. Carver declared he has not even scratched the surface of the by-product possibilities. In addition, he has made 418 products from the sweet potato and 300 from Alabama clay.

Emulsions, ice cream, Jersey cream, peanut butter, face creams, butterfat, paints, wood stains, cooking oil—all these and many more have emerged from the shell, husk or meat of the peanut under guidance of the scientist.

Dr. Carver exhibited paving blocks made from cotton in his laboratory at Tuskegee, to which he was called 35

years ago by the late Booker T. Washington. Dr. Carver declares he takes no personal credit for his work. He attributes it all to divine revelation. "I put it in God's hands and said I wanted to find out about the peanut," he said.

S. Joe Brown, chairman of the interracial commission, presided at the meeting. Wednesday, he addressed a faculty luncheon and the student body at the Iowa State College at Ames, climaxing the series with a lecture at the Ames business men's dinner club.

A young man, just entering journalism asked an old editor to give him some advice on how to run a newspaper. The editor replied "You have come to the wrong place. Go ask some of my subscribers."

JUNIOR N. A. A. C. P. TO CROCKER CAGERS TROUCE TALLCORN FIVE, 36-13 The fast stepping undefeated Crocker Big Five ran roughshod over the Hotel Tallcorn quintet of Marshalltown, 36-13, on the East High floor Wednesday night. The locals outclassed the visitors in every department of the game leading at the intermission 13-0.

TOMMY HARRIS GUEST OF DR. LOWERY Partsmouth, O., Feb. 12.—Tommy Harris, famous comedian, formerly of Des Moines, is playing here at a local theatre in a vaudeville sketch with Ezanex X. Bushman, matinee idol of yesteryear. This is his fourth season with the Hollywood star.

They are making a circle tour of the eastern houses having played two weeks ago in Boston, Mass., and is now enroute to Pennsylvania. While in this city Mr. Harris was the guest of Dr. Lowery, dentist, and wife, former well-known residents of Des Moines.

JOHN T. CONROY ANNOUNCES HIS CANDIDACY FOR MUNICIPAL JUDGE Mr. Conroy has lived in Des Moines nearly all his life and is well known as an Attorney.

He is a graduate of Drake university Law School and was formerly Justice of the Peace of Des Moines Township, Polk County, and when Justice made a creditable record. He served for some time in the Legal Department of the City of Des Moines. He asks the support of his friends.

A. E. MCGLOTHLEN Mr. McGlothlen has been a resident of Des Moines for the past twenty-three years; is a widower (by death)—maintaining a home for the support and education of his two children. Is a member of the Official Board of University Place Church of Christ. He served the City of Des Moines as City Clerk under Mayors H. H. Barton and Carl M. Garver.

With twenty-five years of study, observation and experience, and in keeping with present economic conditions, he stands for a conservative administration in Public Office—consistent with good business; for a greater city and better protection for its citizens.

39 STATES HAD NO LYNCHING IN 1931 New York, Feb. 11.—The interracial commission of the Federal Council of Churches announced last week its 1931 honor roll of States where no lynching had occurred during the past year. The announcement was made by Dr. George E. Haynes, secretary of the commission. The State of Connecticut, New Hampshire, Massachusetts, Rhode Island and Vermont were reported never to have had a lynching in their history. On the other hand three Southern States—Florida, Mississippi and Alabama—have had at least one lynching every year since 1889.

Georgia tops the list of States having large numbers of lynchings during this period, with 463. Mississippi is next with 452, Alabama is third with 305, and Florida, fourth with 237.

How can she be so stupid?

It is dumb stupidity for any woman to have bad breath. It offends others—ruins you socially. The worst of it is you, yourself, never know when you have it. But you can be sure that you won't have it by gargling with Listerine. It instantly ends halitosis—improves mouth hygiene, and checks infection. Lambert Pharmaceutical Company, St. Louis, Mo., U. S. Little Profit Found in Search for Sensation A time comes to most of us when life means just a little more than playing around. We must not think for a second that there should be no play. That would be unwise. But what is foolish is the attitude that brings us to the belief that, to gain happiness—for that is, after all, what we are trying to get—we must indulge in all sorts and all kinds of fun and frolic.

Sometimes it extends beyond that: we seek every kind of sensation—we possibly can in our pursuit of gaiety. Whenever a new idea is mooted we go after it with renewed vigor. In the hope that the boredom of life—as some limited minds regard it—will be changed to a really good time.

We only manage to secure the maximum of contentment by accepting the debits and credits—taking the former at their real valuation, and making the utmost of the credits—Brazhage.

Chateau of Knowledge The speculative mind of man is like a colossal chateau set on a hill. It is surrounded by perpetual darkness. The chateau has countless windows facing in all directions. There is, at first, but one light—a flickering glimmer, in one small window level with the ground.

As years pass, another window slowly lights up. Gradually, as time flows away, a thousand windows in the chateau flame with light. Tower windows begin to glimmer. Finally, the whole chateau is a blaze of light. For behind each window a mind labors in a small dark room shaped like a human skull to create a light of its own. From the tower windows the lights flash the dark for a great way. But what power!
