U. and the Women's and Men's Association met at the Corinthian Baptist Church, Tuesday and Wednesday, to plan their program for the conventions which are to be held in June and August. LINDY BABY HUNT MOVES TO HARLEM

New York City, Mar. 17.—With the utilizing of every instrument within the exigencies of the law throughout the nation, the search for the Lindbergh baby has moved to the black belt of Harlem.

Certain gangsters who are known to ply their trade among the Negro population have caused the spotlight to be focused in that direction. No clues have pointed toward members of our race.

Dwight Lewis Thanks Supporters

Dwight N. Lewis, popular candidate for Mayor, who lead his nearest rival by more than a two to one margin in the primary, stated after the totals had been compiled that the results justified the efforts put forth in his behalf by his friends, and he further expressed his appreciation of their support.

In commenting on the sweeping victory, in which he carried 59 of the 63 precincts, he stated this was a vindication of the stand which he has taken that he is a candidate of no one group or clique and that he has made no pledge to any one except to serve all of the people to the best of his ability.

In commenting on the tax situation, he said the recent reductions given to down town property owners without contest by the present Mayor's legal department may seriously threaten the financial condition, not only of the city, but all of the local governmental bodies before the current year is out.

Mr. Lewis stated that the sweeping victory could only have been achieved through the loyal efforts of his friends, and he expressed confidence that this same support would be manifested in the election on March 28 and during his term as Mayor.

Mr. DePriest's amendment reads, "after line 15 calling for an investigation add (4) the conduct, methods, accounting, forms and procedure, in force in the office of the secretary-treasurer, covering the bookkeeping, audit of accounts, receipts and disbursements; the purchase or sale of land or buildings, the placing of mortgages or refunding same, together with fees, commissions and attendant expenses; said investigation to be by competent certified public accountants and for the period of the past ten years. This year's budget of Howard University was \$1,610,000, recommended by the Secretary of the Interior and approved by the President's Bureau of the Budget and the \$935,000 cut proposed in the Senate was \$400,000 short of the appropriation voted in the house of Representatives.

Victory Life Official Ousted

Chicago, Ill., March 17.—Insurance circles in this city, as well as throughout the country, received quite a shock last Saturday when Charles A. Shaw, former secretary of the Victory Life Insurance Company and James E. Stamps, manager of agencies of the same company were ousted as officers of the Victory Life at a call meeting of the board of directors of that company.

The action, it is said, is a further result of the annual meeting of the Victory held sometime ago in which a fight was made on Mr. Overton and his method of directing the affairs of his many interests. (1A-7539) Bystander 3-16 ig

Dramatic Club Plans Building

By William Smith

Convinced that the Crocker "Y" in order to adequately serve the youths of Des Moines needs adequate facilities the dramatically inclined young people of Des Moines have been organized into the Robesonian Dramatic club by S. E. Gilbert. To procure the money for their building fund, the club plans to produce first one act plays, later three or four act productions.

The officers are: Miss Helen Graham, president; Beatrice Eaves, secretary; William Smith, vice president; and reporter; Miss Aleynetta Walden, William Smith and Dr. S. E. Gilbert are the directors.

They have selected "The Beaded Buckle", "Forbidden Fruit" and "Sauce for the Goshing", and have assigned roles to the following people: Helen Graham, Helen Childs, Earl Newcomb, Martha Gater, Leona Palmer, Rosa Chapman, Mrs. Millie Gilbert, Virgil Mann, William Eaves, Chester Williamson, LaVerne Wilson, Aleynetta Walden, Bessie Brown, Beatrice Eaves, Paul Woods, Jerome Southers and Harriet Fulton.

EDITORIAL A CALL TO UNITE

Nobody can successfully contend that the Negro gets his just dues politically or economically. It is, therefore, ever a pertinent inquiry as to why. Those allegedly politically-wise and well informed generally say it is because we are never united. It is perhaps true that we do represent more divisions than most similarly situated groups. However, a sounder criticism is that there is no group authorized either by election or by public sentiment to serve as spokesman of our group. It is impracticable to have an elective body express its wishes in a matter of this kind. There are numerous members of our group with more or less of a following and it seems reasonable that if these individuals could form a working body for the purpose of threshing out matters of importance to the race and present something of a unified front, the solution of some of our problems would more nearly be effected.

With this in mind the following individuals are requested to meet at 5:30 P. M., Monday, March 21, at The Iowa Bystander office, 203 Seventh St., and form a Central Committee.

- A. A. Alexander, Pres., N. A. A. C. P.
- S. Joe Brown, Commander Lincoln Post
- J. B. Morris, Editor Iowa Bystander
- Harry E. Wilson, Pres. Booser Club
- Elbert Hall, Pres. Capital City Progressive League
- J. G. Browne, Chm. Negro Voters League of Iowa
- Chas. P. Howard, Attorney.

This invitation is made public for the reason that such a group must have public approval and public acceptance before it will ever be able to function with any degree of public confidence. These individuals are asked to associate themselves together for the purpose of taking inventory of the political status of our group and take such steps as will improve our forward progress politically and economically.

Such additions to this list as merit the group confidence will be made as the occasion demands.

Loss Partially Covered By Insurance, Officials Say

Pioneer Observes 109th Birthday

MRS HENDERSON, 109, FINDS PEOPLE UNCHANGED

Mrs. Adaline Henderson, welcoming guests to her one hundred ninth birthday celebration Wednesday, observed that human nature has not changed a whit since she was a little girl.

"The world has changed a lot in my time, but people are still pretty much the same," she said. "They ain't no better and they ain't no worse."

"Young folks always cut up like their old folks. When I was young we tried to do what old folks did. That's what the young folks now do, too."

Mrs. Henderson was born a slave on a plantation near Lynchburg, Va. After the Negroes were freed she came to Des Moines with her husband and three children. Her home is at 728 South East Twenty-eighth street.

Quitting and listening to the radio are her hobbies.

Services will be held temporarily at McCree's Hall, at East Sixteenth and University Avenue. Ride Walker St. to East University, walk two blocks blocks north or take East 14th St. car east.

Fire of unknown origin destroyed the Maple Street Baptist Church at Ninth and Maple Streets, early Sunday morning, causing damage of \$17,000, as estimated by the Rev. A. Ross Brent, pastor. The exact cause is unknown but it is thought to have started from an over-heated furnace which gained great headway before the arrival of the firemen.

Sunday School Rooms and Basement Destroyed

Sunday School rooms and other meeting rooms were reduced to ruins, and considerable damage was done in the collapse of the main entrance. Church sacraments, expensive books, valuable documents, pictures, and fixtures were entirely destroyed in the conflagration.

The city fire department was directed to the wrong location on the first call at 4:04 A. M. Later the firemen arrived on the scene in answer to the second alarm. Officials state that the loss is partially covered by insurance.

Organized in 1901

Maple Street Church was organized in 1901 at Second and Des Moines Streets, under the pastorate of Rev. Wimbush. A new structure was erected on its present site in 1918 under the Rev. S. Bates, who succeeded the founder in 1908 and pastored until his death in December, 1930. Rev. Brent came to Des Moines in April, 1930. It has been a landmark in the Baptist Association activities and religious and fraternal enterprises where it gained nation-wide prominence. It was one of the largest edifices in the midwest and a source of historic interest to all visitors.

Two junior-high school Girl Reserve clubs, one senior high club, Y Camp Workers, made up of girls who are earning their camp fees and a club of employed girls and college students are important parts of the organization.

The Book Lovers, a study group, is organized by the education committee to read and study all phases of literature. The Forum, an intellectual group, is sponsored by the Committee on Colored Work and came into being early last year.

It is interesting to notice that the total attendance at the Branch in 1929 was \$800; in 1930, 5522; in 1931, 6878.

A Union victory will gain them their third consecutive title. St. Paul has also won the title on two previous occasions but not on successive years. A loving cup will be awarded the winners of both the Senior and Junior Leagues.

DEFEAT LILY-WHITE POLICIES

The candidates for the two major parties nominations are hunting delegates to the conventions in Chicago. As usual the campaign for places on the Republican delegations from the South is stirring up considerable trouble which will be heard until the National Convention meets.

The same thing happened in 1923. It placed the Negro political leader in a most embarrassing position in that the forces behind the Republican party actually aided, and admitted the lily-white movement—a group with the avowed purpose of eliminating the Negro from politics in the South.

Many new Republican leaders harbor the view that a strong republican vote can be built up in the South, and the only way to accomplish this is by eliminating the Negro. This has given encouragement to the Southern leaders. They eliminated Ben Davis of Georgia in 1928 and embarrassed Perry Howard of Mississippi to the point that he was absolutely powerless.

Two things the Negro must do to defeat the lily-white movement: The Southern Negro must make an intelligent fight in their local communities, keeping at all times within the rules; the ground work for contests at the National Convention should be laid well in advance and carried out intelligently at Chicago—this was not done in Kansas City; Northern Negroes must penalize the Northern white Republican who joins the movement to overthrow the Negro in the South, a program which is a threat to the Negroes of America, generally.

THE CITY PRIMARIES

The city primaries brought some grand surprises Tuesday. We are well satisfied with the results and are confident that those worthy of support will win in the finals.

One feature of the election, however, was the light vote cast in many precincts. Too many voters don't feel that it is their duty to go to the polls unless a spectacular campaign has been conducted. This is a mistake.

Every citizen should be interested in good government. The only way to get good government is to elect good candidates to office. It cannot be done by staying at home.

Let every person get out and vote on March 28.

CHLOROSIS

Chlorosis is a condition affecting the blood in young women between the ages of fourteen and seventeen. A case of this disease in males has never been observed. The cause of the disease has never been determined definitely but there seems to be something wrong in the organs which form the blood and its elements.

Lack of exercise and an insufficient amount of fresh air play a part in its causation as does improper food and one author states that excessive stair-climbing together with the above mentioned factors has something to do with causing the condition. Breathlessness and palpitation and a peculiar color of the skin are the chief symptoms although there are many others which serve to distinguish this disease from others which begin in the same way.

Of all the different kinds of blood conditions this one probably responds best and quickest to treatment if it is recognized soon enough. The disease, however, has been known to recur in those past the age of thirty and it is so unusual at this age that some other form of blood condition may be suspected. Not serious in the beginning a permanent change in the blood elements might take place if it is allowed to go on without treatment.

The Home and That Boy of Yours

TRAINING GOOD ANIMALS NOT ENOUGH

MOST parents seriously attempt to be good animals. That is to say, from the standpoint of the physical care of our children we do pretty well in most particulars. Not many children starve; most are at least occasionally bathed and many still "censor diled." Mothers do provide reasonably suitable clothes and seek with a positive irritation for the black ringed neck and the finger nails "in mourning."

Most youngsters are fairly well schooled as such schooling goes. They can read and scribble and spell (sometimes). They can sing and dance and find amusement, but when it comes to that much more significant wise training and direction of the emotional self, it almost makes one shudder to realize the unfortunate effects average parents with the best of intentions have upon the emotional unfoldment of their children, because they know no better!

Mothers who are scrupulously careful about proper food, sufficient milk and vegetables, who would be horrified to find their precious child in soiled "undies," are often essentially responsible for a type of emotional environment in the home in those early days of youth, which, in spite of excellent physical care, gives excruciatingly, irritable, nervous, inadequate boys whose chances at normal adjustment out in a big busy, selfish, thoughtless society, are pretty slim.

Physical care is basic and absolutely necessary. We would not substitute something else for it. Wise and proper feeding and sane

"LEXS-O-GRAPHS"

By

The Counsellor

Equity follows the Law.

The first ten amendments of the Constitution of the United States do not apply to the several states.

Question submitted from S. B. Baltimore, Md.—Why is it legal to jim-crow the Negro in the Southern states and not legal in the Northern and Western states?

Answer—As much as it grieves me to answer, yes, the Supreme Court of the United States has so held giving its reason in the celebrated civil rights cases, that a State in the use of its police power, had a right to separate (jim-crow) its citizens because of race, health, etc. A short explanation of police power is here given to wit:

When Thomas Jefferson so drafted the Constitution of the United States, it was his intention to have a general Militia—or a police force to marshal and govern all the people. An example—The prohibition force. The States who foreseen the evil that is practised against our group today refused to agree or sign the Constitution unless permitted to retain their police power. The present Constitution met this requirement. Thus a State has a right to control its health, good will, courts, peace, etc.—this is called its police power. The Southern States hide behind this screen of deprecism and our great court holds that they are within their rights. However, it has held that in some instances that the Southern States have abused this right. While on this subject of Jim Crowism let me beseech all leaders of the race, should they be in quest of a name for some monument of achievement to the Negro or the name of some school—Pray name it the Harlan. Name it after a man who has proven himself the friend of the Negro. I speak of none other than the Honorable Justice Marshall Harlan, once a member of the Supreme Court of the United States.

I shall give a short biography of Judge Harlan next week in my column.

Answer to last week's question:

The survivors would not be tried for murder. Based upon the cardinal rule of law that self preservation is the first law of nature.

Question:

Jack hands a loaded revolver to Phil and then pulls another gun and places it at the back of Phil's head and demands him to shoot Smith who is standing in front of him. Jack speaks to Phil, "If you don't shoot Smith, I will kill you." Phil shoots and kills Smith. Who will be tried for the murder of Smith?

Each week the Counsellor will submit a statement of facts to the Readers of THE BYSTANDER and will likewise AN-

SIVER the same in the following issue and will answer any legal question in his column sent to him.

MOTT PRAISES NEGRO WRITERS

The literary merit of Negro poetry was defended Sunday by Prof. Frank L. Mott, director of the University of Iowa school of journalism, speaking at St. Paul's African Methodist Episcopal church.

The meeting was sponsored by the junior division of the Des Moines branch of the National Association for the Advancement of Colored People.

Professor Mott gave his evaluation of the outstanding Negro poets of the last 25 years.

He said the dean of Negro poets in his opinion is James Weldon Johnson, author of the national Negro hymn. He also said the greatest of present day Negro poets is Countee Cullen.

The Shiloh Baptist chorus sang two groups of Negro spirituals. Among numbers were several composed by Prof. Richard Oliver, chorus director. Other numbers were a solo by Ralston Patten, violin solo by Miss Helen Wheeler and two selections by the Blue Triangle "Y" quintet.

DEFEAT LILY-WHITE POLICIES

The candidates for the two major parties nominations are hunting delegates to the conventions in Chicago. As usual the campaign for places on the Republican delegations from the South is stirring up considerable trouble which will be heard until the National Convention meets.

The same thing happened in 1928. It placed the Negro political leader in a most embarrassing position in that the forces behind the Republican party actually aided and admitted the lily-white movement—a group with the avowed purpose of eliminating the Negro from politics in the South.

Many new Republican leaders harbor the view that a strong republican vote can be built up in the South, and the only way to accomplish this is by eliminating the Negro. This has given encouragement to the Southern leaders. They eliminated Sen Davis of Georgia in 1928 and embarrassed Perry Howard of Mississippi to the point that he was absolutely powerless.

Two things the Negro must do to defeat the lily-white movement: The Southern Negro must make an intelligent fight in their local communities, keeping at all times within the rules; the ground work for contests at the National Convention should be laid well in advance and carried out intelligently at Chicago—this was not done in Kansas City; Northern Negroes must penalize the Northern white Republican who joins the movement to overthrow the Negro in the South, a program which is a threat to the Negroes of America, generally.

THE CITY PRIMARIES

The city primaries brought some grand surprises Tuesday. We are well satisfied with the results and are confident that those worthy of support will win in the finals.

One feature of the election, however, was the light vote cast in many precincts. Too many voters don't feel that it is their duty to go to the polls unless a spectacular campaign has been conducted. This is a mistake.

Every citizen should be interested in good government. The only way to get good government is to elect good candidates to office. It cannot be done by staying at home.

Let every person get out and vote on March 28.

Atlanta, Georgia, has a new daily newspaper, The World, owned and operated by Negroes. This is not the first time Negroes have attempted a daily. Several others have started and failed.

However, for many years Negro weekly papers were unsuccessful, but today some of the best weeklies in the country are owned and operated by Negroes. We hope that success with a

HEALTH TALKS

CHLOROSIS

Chlorosis is a condition affecting the blood in young women between the ages of four and seven-teen. A case of this disease in males has never been observed. The cause of the disease has never been determined definitely but there seems to be something wrong in the organs which form the blood and its elements.

Lack of exercise and an insufficient amount of fresh air play a part in its causation as does improper food and one author states that excessive stair-climbing together with the above mentioned factors has something to do with causing the condition. Breathlessness and palpitation and a peculiar color of the skin are the chief symptoms although there are many others which serve to distinguish this disease from others which begin in the same way.

Of all the different kinds of blood conditions this one probably responds best and quickest to treatment if it is recognized soon enough. The disease, however, has been known to recur in those past the age of thirty and it is so unusual at this age that some other form of blood condition may be suspected. Not serious in the beginning a permanent change in the blood elements might take place if it is allowed to go on without treatment.

The Home and That Boy of Yours

By F. H. CHELEY

TRAINING GOOD ANIMALS NOT ENOUGH

MOST parents seriously attempt to be good animals. That is to say, from the standpoint of the physical care of our children we do pretty well in most particulars. Not many children starve; most are at least occasionally bathed and many still "cutor oiled." Mothers do provide reasonably suitable clothes and seek with a positive irritation for the black ringed neck and the finger nails "in mourning."

Most youngsters are fairly well schooled as such schooling goes. They can read and scribble and spell (sometimes). They can sing and dance and find amusement, but when it comes to that much more significant wise training and direction of the emotional self, it almost makes one shudder to realize the unfortunate effects average parents with the best of intentions have upon the emotional unfoldment of their children, because they know no better!

Mothers who are scrupulously careful about proper food, sufficient milk and vegetables, who would be horrified to find their precious child in soiled "undies," are often essentially responsible for a type of emotional environment in the home in those early days of youth, which, in spite of excellent physical care, gives society neurotic, irritable, nervous, inadequate boys whose chances at normal adjustment out in a big busy, selfish, thoughtless society, are pretty stiff!

Physical care is basic and absolutely necessary. We would not substitute something else for it. Wise and proper feeding and sane

"LEXS-O-GRAPHS"

By

The Counsellor

Equity follows the Law.

The first ten amendments of the Constitution of the United States do not apply to the several states.

Question submitted from S. B., Baltimore, Md.—Why is it legal to jim-crow the Negro in the Southern States and not legal in the Northern and Western states?

Answer—As much as it grieves me to answer, yes, the Supreme Court of the United States has so held giving its reason in the celebrated civil rights cases, that a State in the use of its police power had a right to separate (jim-crow) its citizens because of peace, health, etc. A short explanation of police power is here given to wit:

When Thomas Jefferson so drafted the Constitution of the United States, it was his intention to have a general Militia—or a police force to marshal and govern all the people. An example—the prohibition force. The States who foresaw the evil that was practised against our group today refused to agree or sign the Constitution unless permitted to retain their police power. The present Constitution met this requirement. Thus a State has a right to control its health, good will, courts, peace, etc.—this is called its police power. The Southern States hide behind this screen of de- potism and our great court holds that they are within their rights. However, it has held that in some instances that the Southern States have abused this right. While on this subject of Jim Crowism let me beseech all leaders of the race, should they be in quest of a name for some monument of achievement to the Negro or the name of some school—Pray name it the Harlan. Name it after a man who has proven himself the friend of the Negro. I speak of none other than the Honorable Justice Marshall Harlan, once a member of the Supreme Court of the United States.

I shall give a short biography of Judge Harlan next week in my column.

Answer to last week's question:

The survivors would not be tried for murder. Based upon the cardinal rule of law that self preservation is the first law of nature.

Question:

Jack hands a loaded revolver to Phil and then pulls another gun and places it at the back of Phil's head and demands him to shoot Smith who is standing in front of him. Jack speaks to Phil, "If you don't shoot Smith, I will kill you." Phil shoots and kills Smith. Who will be tried for the murder of Smith?

Each week the Counsellor will submit a statement of facts to the Readers of THE BYSTANDER and will likewise AN-

SIVER the same in the following issue and will answer any legal question in his column sent to him.

Address your letter plainly to THE COUNSELLOR, Iowa Bystander, Des Moines, Iowa.

MOIT PRAISES NEGRO WRITERS

The literary merit of Negro poetry was defended Sunday by Prof Frank L. Mott, director of the University of Iowa school of journalism, speaking at St. Paul's African Methodist Episcopal church. The meeting was sponsored by the junior division of the Des Moines branch of the National Association for the Advancement of Colored People. Professor Mott gave his evaluation of the outstanding Negro poets of the last 25 years. He said the dean of Negro poets in his opinion is James Weldon Johnson, author of the national Negro hymn. Among numbers were several composed by Prof. Richard Oliver, chorus director. Other numbers were a solo by Ralston Patten, violin solo by Miss Helen Wheeler and two selections by the Blue Triangle "Y" quintet.

POET-LECTURER SAYS "BLUES" NEGRO FOLK SONGS

Langston Hughes, widely known poet, novelist and lecturer, Friday night brought to a Des Moines audience the whimsical humor and touching pathos of his race.

Appearing at the Y. W. C. A. under auspices of the organization's committee on Colored work, Mr. Hughes gave a clear picture of his life thus far as reflected in his poetry, which he read.

"Blues," he told his listeners, "are Negro folk songs, just as spirituals are. They are songs about someone in trouble, usually the singer.

"With a reputation of being not exactly respectable, blues have been avoided by readers in past years." Mr. Hughes declared. "However, I think the blues type of poetry as respectable as any and a true expression of Negro emotions."

Two musical numbers were rendered by Mrs. Gertrude Carl. An informal reception followed the recital.

HOWARD LOSES BIG SUM AS CONGRESS SLASHES ON BUDGET

Washington, D. C., Mar. 11.—Howard university is perhaps hardest hit by any institution to which the federal government makes annual appropriations by the reduction of governmental expenditures by the congress, it was learned here this week.

After the interior department appropriations bill passed the house carrying only \$1,070,000 for Howard university, which was \$535,000 less than the estimates of the budget bureau, the senate appropriations committee struck out an additional total of \$400,000, leaving the bill carrying only \$675,000 for that institution as it was reported to the senate last Tuesday.

MATHIS ASKED QUESTION "WHY CHANGE?"

Frank A. Mathis, incumbent in seeking re-election as Superintendent of Parks, announced as the one question to be answered in the coming election by the voters is, "Why Change?"

Mathis contends that already having been a choice of the people three times, he is acquainted with duties of said office in all its minute details and that his record will stand. Why change?

KING PROMISES REDUCTION IN OPERATING COSTS

A twenty-five per cent reduction of the costs of operating the city streets department was promised by George M. King, candidate for superintendent of streets in a statement requesting support by Des Moines voters in the primary election Tuesday, March 15.

It is necessary to keep a careful watch over all department funds if this saving is to be made but it is possible King said and announced his intention of making every endeavor to accomplish this.

King, who is the son of the late J. W. King, who was principal of Crocker school for 28 years and who has been a contractor and engineer for thirty years, also expressed himself as firmly against reducing salaries. Every regular employee needs every cent he now receives and termed this "the wrong way to reduce costs."

The candidate also said if he is elected he will maintain a close watch on the condition of the streets to prevent the recurrence of the present condition of deep, dangerous holes in many of the most important thoroughfares.

BROOKINS PLEDGES FAIRNESS TO ALL

Ed. Brookins, bailiff of the municipal court, in a statement to the By-stander desires to make clear to the Negro voters the situation with reference to the employment of deputies in that office.

First, he states that the present bailiffs are under civil service and new appointments can be made only in case of vacancies and then after taking the civil service examination; second that wherever an extra bailiff has been employed and during his administration he has been a colored man.

Mr. Brookins states that it is his policy to give the Negro voters representation in his office whenever the opportunity permits.

LEWIS STRESSES TAX REDUCTION

Dwight N. Lewis, candidate for mayor, in his campaign has emphasized the fact that he is a "small home owner" and that his interests lie with this class.

He has stated that the claims of an 8 per cent tax reduction for home owners have not been verified by facts from the court house but that the home owner has received but 3 per cent while down town property owners have had their taxes reduced 20 per cent or more by Crouch as chairman of the board of review and the mayor's legal department.
