Soldier Commits Suicide On Scott Street Car

Joe Heath, 22, soldier, member of the 8th Cavalry at Ft. Riley, Kansas, died Monday night after drinking poison while on a Scott street car.

Police recalled that they had arrested Heath here for Ft. Riley officers several times when informed that he was absent without leave.

When he re-listed early this year, his 1931 discharge showed 195 days of A. W. O. L. during the three years of his previous enlistment.

Police said each time he had been picked up here he told them, "I just left because I wanted to see my gal."

Military funeral services were held at Shiloh Baptist church, Thursday, April 1. He is survived by his mother, four brothers and six sisters. L. Fowler and Son were in charge of the funeral services. Interment was at Laurel Hill cemetery.

Reception Honors Rev. A. R. Brent

The Maple Street Baptist church entertained in honor of Rev. and Mrs. A. Ross Brent, last Monday evening in the McCree Hall. The affair marked the close of the second anniversary celebrations of Rev. Brent's pastorate at Maple Street church. A large crowd attended and a very interesting program was rendered. Music was furnished by the "Brown Derby Quartette", "Four Kings of Harmony" (Junior) and the Booster's Chorus.

The various auxiliaries of the church presented Rev. Brent, a beautiful tweed spring top coat, and Mrs. Brent a delicious cake as a token of appreciation for their splendid work during the two years.

Miss Louise Wrant made the presentation speech, and Miss Freida Garland in a very able manner represented the church in a talk on "Why We Love Rev. and Mrs. Brent." Mrs. Grace Stokes was general chairman, and Mrs. Opal Jaco was chairman of program committee.

Protests Shout 'Alabama Justice'

ATTORNEY GENERAL TRIES TO STOP TELEGRAMS

Montgomery, Ala., April 14.—Alabama authorities last week resorted to a strange defense against the bombardment of telegrams they have received in connection with the Scottsboro case. Attorney General Thomas E. Knight issued a formal warning to telegraph companies in the state that they would be cited for contempt of court if any more coercive telegrams are delivered to the Alabama Supreme Court.

The managers of the telegraph company branches were given verbal notification of the attorney general's decision, which was followed up by a letter. Although the Scottsboro case was not specifically mentioned in the letter, the attorney general indicated that this was the case he had in mind.

No Segregation in New York State Institutions

New York, April 14.—Fortified by an opinion by Attorney General John J. Bennett, Jr., of New York and by Judge Franklin C. Hoyt of the Children's Court, the New York State Department of Social Welfare has prohibited an attempt to exclude a colored girl from the State Training School for Girls at Hudson, N. Y., and considers the ruling binding on all state institutions.

The present case, according to the letters sent to the N. A. A. C. P., originated when the Girls' Training School declined to receive a colored girl committed by Judge Hoyt. Judge Hoyt referred the matter to the Social Welfare Department with the suggestion a ruling be had from the attorney general. Bennett writes that he finds himself "unable to justify any classification or segregation of inmates for purposes of admission to a State institution by virtue of which discrimination may be possible on the basis of race, color or creed."

This ruling immediately follows the ruling won by the N. A. A. C. P. from Richard C. Patterson, Jr., Commissioner of Correction of New York City, barring segregation in the new Women's House of Detention.

NEGRO HELP FIRED AFTER 40 YEARS REGIME

New York, April 14.—White girls replaced colored male employees of over 40 years standing in the check room of the Pennsylvania railroad station operated by the Savarin chain restaurant company, it was reported last week. In many instances the men were heads of families and had been long established in their positions. No reason, other than the securing of employment of unemployed whites was advanced for the sudden change of policy.

Civic Bodies Sponsor Clean Up Week

The Junior Chamber of Commerce is again sponsoring Des Moines' annual Clean-Up Paint-Up and City Beautification Campaign April 17th to 23rd inclusive.

The campaign this year will be larger than ever before. Schools, Boy Scouts, Girl Scouts, Girl Reserves of the Y. W. C. A., Camp Fire Girls and Hi-Y boys of the Y. M. C. A. will participate. Merchants' community groups and all civic clubs will assist in the project along with the official city departments.

This organization is also urging people to create jobs for the unemployed by having men to assist in cleaning up and painting up. This part of the campaign is functioning in conjunction with the Coordinated Committee of Unemployment Relief. Phone 4-9052.

Biggest Campaign In Years Draws Big Vote

Illinois' primary election which is gaining landslide proportions for the victors as the vote count progresses swept back into the limelight former Governor Len Small and permitted State's Attorney John A. Swanson and Congressman Oscar DePriest to maintain their positions as leaders in the councils of the Republican party.

The election to nominate county and state officers, a United States senator and congressmen and municipal court judges and to elect ward committeemen was held Tuesday, April 12.

With former Mayor William Hale Thompson directing his campaign, ex-Governor Small made a successful come-back and won the Republican nomination for governor by approximately 100,000 over four other candidates.

DePriest Wins

Congressman Oscar DePriest, who was faced with possible political annihilation, with his own office as well as the offices of his principal lieutenants in jeopardy, came out of the fight with flying colors. He defeated Alderman Louis B. Anderson for congress and won over the field in the Third ward for committeeman.

Judges Beaten

Four Negro candidates for associate judge of the municipal court were defeated, according to latest returns. The aspirants were former

'Protest Sent to General Motor Co.

Birmingham, Ala., April 14.—Declaring that they never authorized the exclusion of Negroes nor had any knowledge of such a practice existing local officials of the General Motors Corporation extended special invitations to colored customers and apologized for any offenses which had been made to them.

The trouble started when prominent colored citizens, who spend thousands of dollars yearly on General Motors cars, were advised by a policeman that "Negroes would not be allowed to see the Auto Show", here, Saturday. This act caused a wave of resentment, and a letter was sent to the General Motors headquarters in Detroit.

General Motors Corporation officials expressed the opinion that some unauthorized, irresponsible individual was responsible for the offense.

Judge Albert B. George and Attorneys William H. Haynes and J. Harold Moseley, Republican candidates, and Attorney Richard Hill, Democratic candidate.

Roscoe C. Simmons and John Lord (white) won the right to represent the First district at the Republican national nominating convention in June.

Corinthian Celebration Greatest In History

By Owen Robinson

Corinthian Baptist church has just closed the greatest celebration in its history. It marked the thirty-fourth birthday of the church and the fifteenth year of the present pastorate. Starting Tuesday evening four divisions of the membership started in a friendly rivalry campaign. The anniversary sermon was delivered by the pastor at 11 a. m. Sunday.

The climax was reached Sunday afternoon when Dr. Chas. S. Medbury, pastor, University Church of Christ, and the most outstanding minister of the state, delivered the fifteenth anniversary sermon for the pastor, to a packed house. His subject was "The Ministers Work".

Church Organized in 1898

The Corinthian Baptist church was organized April 3, 1898, by Rev. Samuel Johnson, then State Missionary, who with twenty-one members purchased property on West 11th street, and called to the pastorate Rev. S. Bates who took charge May 1, 1898. Within three years the membership increased to 155 and \$25,555.65 was raised, all debts were paid. Deacons were Chas. Hart, Calvin Pettigrew, Simon Blakey, John Heath and Nelson Walker; trustees: Jas. B. Burrel, S. Farley, Simon Blakey and Henry Brown, who was also clerk.

Following the resignation of Rev. S. Bates, Rev. T. L. Griffith, who was pastoring a Historic church at Christiansburg, Va., was called and began work Jan. 1, 1902. The property was repaired to the extent of \$400 all of which was paid. The officers were: Deacons: Chas. Hart, F. C. Goggins, Wm. Hammit, Lucian Brown, Henry Brown, Simon Blakey; Trustees: Saw-

ney Earley, George Law, James Willett, Henry Brown and Jas. James; Clerk, Henry Brown; Treasurer, C. H. Hart.

The membership continued to increase to the extent that Rev. Griffith and his official boards decided that the place of worship was not large enough to accommodate the people and the matter was brought before the church and they agreed to purchase the site then known as the Unitarian church on 15th and Linden streets.

Rev. Griffith was very successful continuing pastor for fifteen years. He resigned to take up the work as pastor in Topeka, Kan. At that time the membership was 350.

For more than nine months the church was without a pastor. H. R. Graves then director of the choir, with wonderful singing through Gods holy spirit held the church together.

Rev. G. W. Robinson of El Paso, Texas, was invited by the official board to visit the congregation, coming here on Feb. 9, 1917. He carried on a series of meetings, and during the time was unanimously called as pastor and took up the work April 15, 1917. At that time F. J. Harris was clerk of the church.

With the membership still increasing, Rev. Robinson and his official board decided to have the church more centrally located for the benefit of the people.

The church members decided to purchase the site then known as the Presbyterian church, 9th and School streets. They moved into the present location on July 3, 1927.

This report was given by Mrs. Eva Owens, the historian.

CLEAN-UP WEEK

The Junior Chamber of Commerce is sponsoring the annual Clean-Up, Paint-Up and city beautification campaign, April 17 to 23, inclusive. In the past many people have entered these campaigns and competition has brought splendid results.

This year the campaign takes on a two-fold proposition in that not only does its efforts add to the beauty of Des Moines homes but additional help will be employed, thereby aiding unemployment.

No matter where the home is located it will be well for the occupant to do something extra next week toward its beautification. It will help to improve the community.

THE BONUS FIGHT

The Soldier Bonus is before congress again. Full payment of the remaining fifty per cent due in 1945 is asked in a bill introduced by Representative Patman of Texas and Senator Thomas of Oklahoma. Undoubtedly the bill will pass, but whether sufficient votes can be secured to override the President's veto, which is certain, is a question.

The Veterans of Foreign Wars are for the bill and the heads of the organization are urging its passage. Without question the rank and file of the American Legion is for the bill, but officially the organization is pledged against it.

To criticize the Legion for this apparent inconsistent position is unfair because few people are willing to take the time to find what the record is.

Speaking before the Iowa Department of the Legion last year Representative Royal Johnson of South Dakota, former chairman of the Veterans Committee in the House of Representatives, said that the Legion promised Congress when the original law was enacted that the organization would not come back asking for payment of the bonus certificates until they were due. To do it now would be breaking faith with Congress.

But after all this is not a strange position to be in at that. For instance, if the people had an opportunity to pass on the moratorium granted by Congress to foreign countries on their debts due the United States, it would not have been granted; the Reconstruction Finance Corporation would not have been formed. The Legion officially is not in politics, yet its members wield a tremendous influence in all campaigns.

Everyone knows that the financial plight of the veterans along with others generally forces this apparent repudiation of the stand taken at Detroit last year.

However, big business leaders oppose any legislation tending to place a lot of money in the hands of the common people; the common people do big business likewise. But if the bill does become a law, the United States will not go to pieces as predicted by the business leaders who have appeared before the committee

HEALTH TALKS

By Dr. H. H. London
GOOD EYES

Good eyesight is dependent upon the perfect functioning of every part of the eye, the condition of the brain itself. The parts of the eye are many and delicate and no description could convey the exact position and working of these parts. For any concrete idea of these the eye would have to be studied and likewise the brain and nerve. It is enough to say that all these take part co-operatively and coordinately in the production of good sight and that a defect in any one of the parts produces poor vision or complete loss of sight depending upon what part or parts or to what degree certain important parts are affected.

Eye troubles may be divided into the minor ones and the major ones although the minor ones assume a seriousness far beyond the scope of what the name implies, a great many times. Some of the minor imperfections in the eye are what is known as astigmatism (possessed by a great many people), near sightedness and far sightedness. Any one of these conditions may be present without the knowledge of the person so handicapped. They reduce, nevertheless, the efficiency or proper nervous condition to a noticeable or marked degree, depending upon the amount of the defect which is present. Glasses worn for these produce surprising result in a very short time.

When the vision becomes misty or limited or double or there seems to be a something in the way which makes seeing awkward you may rest assured that a serious eye condition is present and unless it is cared for immediately total loss of sight or blindness may be the result. Glasses do not cure such conditions. In these cases the trouble is deep seated and the eye condition only an indication of serious trouble elsewhere in the body.

While Des Moines Negroes are felicitating friends for the recognition given in the appointment of a Negro in its legal department, California is doing the same thing because recently the first Negro, Ivan Johnson III, received an appointment as Assistant United States Attorney.

TRAINING GOOD ANIMALS NOT ENOUGH

MOST parents seriously attempt to be good animals. That is to say, from the standpoint of the physical care of our children we do pretty well in most particulars. Not many children starve; most are at least occasionally bathed and many still "castor oiled." Mothers do provide reasonably suitable clothes and seek with a positive irritation for the black ringed neck and the finger nails "in mourning."

Most youngsters are fairly well schooled as such schooling goes. They can read and scribble and spell (sometimes). They can sing and dance and find amusement, but when it comes to that much more significant wise training and direction of the emotional self, almost makes one shudder to realize the unfortunate effects average parents have upon the emotional unfolding of their children, because they know no better!

Mothers who are scrupulously careful about proper food, sufficient milk and vegetables, who would be horrified to find their precious child in soiled "undies," are often essentially responsible for a type of emotional environment in the home in those early days of youth, which, in spite of excellent physical care, gives society neurotic, irritable, nervous, inadequate boys whose chances at normal adjustment out in a big busy, selfish, thoughtless society, are pretty slim.

Physical care is basic and absolutely necessary. We would not substitute something else for it. Wise and proper feeding and sane

"He who seeks equity must do equity."

The United States and the several States governmental power is known as a tri-partite government. To-wit (The Executive), President or Governor, (The Legislative), The House of Representatives, and the Senate, and (The Judiciary) namely the various courts. Our law is divided into three main courts, to-wit: The Law Court, the criminal court and the equity court. Each one has its various function, if you want money as a redress you go into the Law Court, if you want a wrong righted or a divorce you go into equity court, if the state wants a redress, you go into the criminal court. It is a mighty fine thing to stay out of any one of these.

Answer to Last Week:

Yes, The legal title vests in the survivors and he can pass it, but only for the proper purposes of winding up the partnership. He is regarded, in equity as a trustee for the estate of the deceased.

Question for This Week:

When may one, in defense of person or property, use means endangering human life.

Baltimore, Md., April 8.—The Baltimore Afro-American, of which Carl Murphy is editor, was named defendant in a \$75,000 libel suit last week by Charles C. Craft of Washington, D. C. The suit, filed by Attorney Josiah Henry of this city in the court of common pleas, sets forth an alleged libel of Mr. Craft published in the Afro-American on Jan. 17, 1931.

The most recent libel suit against the Baltimore weekly is one of several suits for large sums now pending against the publishers of the paper. Some months ago the same paper was sued for \$100,000 by Charles Satchell Morris.

J. W. Long In Race for Auditor

J. W. Long, present State Auditor, plans to enter the Republican Primaries to succeed himself. Heading this office for the last eight years Mr. Long has conducted the office in a most efficient manner and has given the tax payers full value for all expenditures.

When the State Employment Committee was formed Governor Turner appointed him as its chairman which post he still holds.

"The times require unselfish teamwork to influence speedy return to normal conditions.

All Evanston Jubilant Over Victory

Evanston, Ill., April.—Smashing all Evanston's political records and piling up a new figure for city council elections, former Alderman Edwin B. Jourdain, Jr., Harvard graduate and Republican of the Fifth ward, was re-elected Tuesday to the Evanston city council by a victory of 2,358 votes against 1,845 amassed by his rival, Peter N. Jans (white).

The total number of votes cast for Alderman Jourdain was the largest ever piled up for an alderman in the history of this city. Jourdain's total was larger than the combined total of the votes secured by any pair of candidates running from any of the other wards.

Alderman Jourdain's victory was being hailed throughout Cook county

this week as one of the most sensational in recent politics. He not only vindicated himself and his ward after charges of irregularities in last year's election, but he ousted from office the political machine which had brought the charges. He defeated a white alderman who held office for eight years and was the oldest member of the Evanston city council. Tse defeated candidate also had been chairman of the most important committees in the city council and was head of the political machine which had dominated the ward.

Sunday promises to be an eventful day in the church. No one in the city of Des Moines who has been here any length of time, but has not felt the influence of Corinthian Baptist church. On coming to the city one would think that the church is very old. It is now celebrating its thirty-fourth birthday and the fifteenth anniversary of its pastors service.

Sunday afternoon Dr. C. S. Medbury, the dean of all preachers of the city will deliver the sermon. All of the people of Iowa honor Medbury. There has never been a time when our people needed a spokesman but what he did not speak for us. There ought to be at least five hundred people to hear him Sunday afternoon.

The church was full last Sunday to hear our pastor in the morning. At night the congregation was above normal. It is very encouraging to all the way the whole church is working together. Every department is alive.

A few nights ago a spectacular fire lit a warehouse a smoking ruin. Fire alarms were sounded. Eleven reporters—two working and nine out to enjoy the fire—rushed to the scene. A columnist, who had no business there but loves to run after the engines, got his feet wet and caught cold.

The conflagration was the destructive sequel to a minor blaze that had scorched the establishment a few hours earlier. The first fire was discovered by the owner of the building, who sent in the alarm, watched the fire-fighters apparently extinguish the flames, and then went home.

Before retiring he telephoned a contractor to call around the next morning to see about repairing a few windows, painting the doors, and otherwise touching up the place here and there.

How Volcanic Islands Act as Safety Valves

Niuafoou is one of the Tonga, or Friendly Islands, situated halfway between Samoa and Fiji in one of the most restless geological areas in the world. Stretching across the South Pacific from Samoa to North Island, New Zealand, there is a huge fissure in the earth's crust. Volcanic islands, such as Niuafoou, strewn along this gigantic crack, act as vents for the molten mass within the earth.

To passengers of steamers passing close, the island looks like any other tropic life, green with vegetation and coconut palms. Clean white houses and thatched native churches set in grassy lawns dot the hillsides. When wind and sea are quiet, landings are made in small open boats which are guided skilfully into a nook partly sheltered by fingers of lava flow.

Obeying Instructions

Farmer Smith had a supply of winter cabbage to plant. Arriving at the farmyard, he called over one of his laborers. "George," he said, "I want you to plant these cabbages, but remember to plant them well apart."

Jewish Emblems

Just as the oak from which came the navy that made Britain mistress of the seas, became the national tree of England, so did the beautiful lofty palm, which gave oil, timber and dates to its people, become the national tree of what we like to call the Holy Land.

Chivalry in 1867

"When you tread on a lady's train in the street, you are not required to apologize," observed the Providence (R. I.) Journal on July 18, 1867. "You have a right to be in the street. So has the lady; but she has no more right to carry her train with the expectation of having it respected than she has to bring her cradle to Market square and rock her baby in it. You have a right to stay on the sidewalk, and if any foolish woman chooses to lay five yards of satin between your feet and the flags, it is her risk, not yours."

Chinese Immigration

Prior to the discovery of gold in California in 1848 there were no Chinese laborers in the United States. From 1849 to 1850, according to immigration records, only 25 entered the country, but during the next decade 41,397 came to the port of San Francisco. About 1870 Chinese coolie immigration began to be a political issue and the treaty signed November 18, 1882, gave the United States the

Favor Getting a Puppy to Buying a Mature Dog

Hints on Care and Training Given by Kennel Foundation.

Dog or puppy? The choice of one or the other must be made by everyone who contemplates adding a canine pet to his household, states the Kennel Foundation, Rockford, Illinois. While some prefer a perfectly-trained grown dog, most people are inclined to agree with Albert Payson Terhune that a puppy is more desirable. For one thing, a puppy does not cost as much

as a grown dog, and its future is entirely in your own hands.

Eating is the biggest thing in a puppy's life, and what and how he eats will either make or break him, according to the Foundation. "Little and often" is probably the best rule of successful puppy rearing. Feed four or five times a day from weaning time till four months of age and no more than four times a day at six months. Increase the ration as you decrease the number of feedings, but never serve more than just a trifle over what the puppy will eat up quickly. When the average puppy is at the end of twelve months ready to enter full doghood, he should be getting no more than two meals a day, and preferably one if the puppy does not finish the meal provided for him, what remains must be removed in a few minutes, and nothing else should be given until the next feeding hour.

Hard to Grasp Facts of the Stellar System

At first the brain reels a little in the attempt to grasp the facts of the stellar system, even explained with the lucidity and exactness of which Sir James Jeans is a master. From the vast extensions of the sky he carries us into the inmost recesses of the atom, where the electron whirls around its perpetual circuit several thousand-million times every second. These numbers, says the London Spectator, are but dazzle painting, and it is simpler to say that the electron travels as far in a second as our latest seaplane travels in an hour. Sir James Jeans has a happy facility in such comparisons, and forcibly strikes the imagination when he tells us that if the carbon atom were magnified to the size of Waterloo station, its electrons would be represented by six wasps flying round in the vast vacuity. All the rest is emptiness; and so in the celestial spaces it is immense odds against any given spot being occupied. "We live in a gossamer universe; pattern, plan and design are there in abundance, but solid substance is rare."

One of Life's Tragedies

They sat gazing into each other's eyes. At last he slipped from the sofa and, kneeling at her feet, gave utterance to the sweeping thoughts that were swelling up his mind. "Darling," he said, "sometimes I think how lucky I was to be born in the same century as you, to have met you. It seems as if Fate had intended us for each other since the beginning of time, and that at last the great design has been completed in our love. It has been Fate, my dearest, Fate."

Paper Barometer

Henry's Twentieth Century Book of Recipes publishes the following method of making a paper barometer: Saturate white blotting paper with the following liquid and then hang up to dry:

Cobalt chloride, 1 ounce; sodium chloride, 1/2 ounce; calcium chloride, 1/2 ounce; acacia, 1/2 ounce; water 2 ounces.

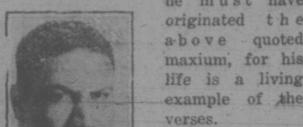

Unfortunate Early Savant

Henry, Marquis of Villena, a Castilian savant in the reign of John II, studied astronomy so diligently that he lost all wit of his worldly affairs and caused a ruin of his day to comment sarcastically: "He knew much of heaven and nothing of earth."

All things comes to him who waits, But here's a rule that's stickier, The man who goes for what he wants, Will get it all the quicker.

In speaking of Chas. P. Howard, local attorney, it seems to me that he must have originated the above-quoted maxim, for his life is a living example of the verses.

I know Chas. P. Howard as an able and efficient attorney; he needs no introduction in Des Moines; a man who has fought the battles of the masses, and glad am I to say has won most of the time.

Chas. P. Howard is a man of a family, three fine children and a very lovable wife. Mr. Howard has stood out in all the endeavors of his career, distinguishing himself in the Army, on the athletic field at Drake, and in the courts of Iowa and Illinois. No one will marvel at his appointment as City Prosecutor, all we can say is that Mayor Lewis had his eyes open and appointed one of the fittest of the fit for the position.

The Bystander congratulates him and extends to him its sincere wishes for a successful administration.

The annual membership drive of the Des Moines Branch of the N. A. A. C. P., of which A. A. Alexander is president, will be held April 10 to May 5, inclusive. A goal of 100 paid members has been set by the membership committee. Mrs. Anna Mae Carter, chairman, Harrison Gould, Fred Morrow, A. P. Trotter and Mesdames Mable Typony, Essie Davis and Georgine Morris will head the drive as captains. Speakers will appear in all churches Sunday to announce the formal opening of the drive. On Monday, the 11th, from 10:45 to 11:00 A. M., Attorney S. Joe Brown, organizer and first president of the Des Moines Branch will broadcast the history of the association and make an appeal for new members over WHO, and a chorus under the direction of Mrs. Joburness Kelso will sing.

Present branch office holders are public spirited men and women of both races, averse to compromise, ready to fight for a legitimate principal and the legal rights of Negroes, and they are backed by a formidable array of

legal talent well able to cope with any situation which might arise effecting the race. Several attempts at discrimination in our school system has been successfully combated recently.

Program for the year states that grievances of Des Moines Negroes will be taken care of first, with a reasonable amount of stress on national issues. The association is asking the financial and moral support and cooperation of the citizenry in the drive and in making this one of the most effective years ever experienced by the association. A monster public demonstration will close the drive. Progress
