Officials Deny Plan to Send Negroes South

Newark, N. J., Aug. 5.—As a result of the protest on the part of the N. A. A. C. P. commissioner of the poor, Owen A. Malady, of Newark, New Jersey, denies any intention of discrimination against Negroes in the plan to persuade newcomers who are unemployed to return to their home locality, the city arranging transportation. Mr. Malady states that it will apply to all alike and that the Association can be assured that only those who wish to return home will be affected by the plan.

The protest of the Association grew out of news reports of the Newark "Evening News" stating that Mr. Malady had settled on a plan to induce unemployed Negroes of Newark to return South, offering to pay their transportation. The National Association felt that such plan constituted discrimination against Negroes as the news story did not state that it applied to others, and, from experience, the Association was convinced that in its working coercion would be used.

ETHEL WATERS AND MILLS BROTHERS IN MIDNIGHT BENEFIT AT PORO

St. Louis, Mo., Aug. 5.—(ANP)—The S. R. O. sign was hung out early in the lobby of Poro of St. Louis last Tuesday evening when the most scintillating stars of the stage, the cinema, and the radio, the famous Mills Brothers and the internationally known Ethel Waters and other Rhapsodians, combined in a benefit entertainment for the St. Louis Colored Orphans' Home in the Poro Auditorium.

THE CAT CAN'T LOOK AT THE QUEEN?

Fayetteville, N. C. (CNS)—An Indian stared at a white woman. He was arrested and convicted of assault, proving that there isn't very much to that old cat and queen story, here, at any rate.

James Wynn, an Indian, was found guilty of an assault by terrifying and abusing Mrs. E. M. Wagner when he was tried in Recorder's Court on a warrant charging assault and abuse as a result of his "terrifying stare" at the white woman. Judge H. C. Blackwell reserved his sentence.

PREJUDICE EVICTS FILIPINOS FROM FERTILE FARMS

West Palm Beach (CNS)—Because white farmers objected to their presence, all Filipinos residing in the upper Everglades, Florida's fertile truck farming area, were forced to leave their homes and crops on forty-eight hours notice, upon threat of serious racial trouble. The evacuation was completed by Monday night.

Negro Veterans Attend Fort Dodge Convention

Negro veterans were well represented at the state convention of the American Legion held at Ft. Dodge this week. James W. Mitchell, Spencer Elliston and S. Joe Brown, were delegates and W. M. Burns, Berry Tucker and James B. Morris, alternates, and Guy Harris attended.

Commander Brown served as a member of the by-laws committee the

New York Woman Will Run For Legislature

Brooklyn (CNS)—Mrs. Maria C. Lawton, prominent club woman, civic worker and journalist of this city may secure the designation for Republican candidate for the Assembly from the Seventeenth district of Kings county, as a reward for 40 years of service to the Republican organization of the county according to present indication. It will be the first time that a colored woman has run for member in the State Assembly.

THREE MORE MASSIES EVADE PUNISHMENT IN LYNCHING

Ironton, Ohio (CNS)—Acquitted by a jury of white men, six white men, including three brothers named "Massie", went free Friday following trial for second degree murder growing out of the death of Luke Murray, colored chauffeur of Atlanta, whose body was found in the Ohio river several days after the defendants forcibly removed him from jail.

NOCTURNAL BASEBALL INAUGURATED IN WASHINGTON BY COLORED PLAYERS

Washington (CNS)—The management of the Washington Pilots of the East-West Colored League has the credit of playing the first nocturnal baseball game in the Nation's Capital. Monday night July 25, Griffith Stadium, the home of the Washington American League team, was lighted under the direction of Fred B. Polham, Washington's well known electrical engineer, sufficiently for every play to be visible from all parts of the field. The lighting was accomplished with the aid of portable generators brought from New York on large trucks.

Paul Robeson Is Guest Artist

New York City (CNS)—Paul Robeson was the guest artist at the concert of the Philharmonic Symphony Orchestra at Lewisohn Stadium Sunday evening. The orchestra, formerly directed by Van Hoogstraten, was conducted by Albert Coates. Mr. Robeson was accompanied by Lawrence Brown. More than 5,000 attended the open air concert.

first time a Negro veteran has been a member of the by-laws committee, or any other convention committee. Chas. P. Howard of Lincoln Post entered the golf tournament and was one of the winners in the finals.

The Senegalese drum corps of Mason City was on hand and was popular in the line of march during the parade.

Lyles, of "Miller and Lyles", Dies

New York City (CNS)—Aubrey Lee Lyles, diminutive comedian of the internationally famous vaudeville team "Miller and Lyles", died Thursday night in Dr. Wiley M. Wilson's Sanatorium. Lyles had been ill for two months of a bronchial infection and gastric ulcers.

Lyles was 49 years old and was born in Jackson, Tennessee. He attended Fisk University at Nashville where he became interested in amateur theatricals and teamed with Flournoy Miller, a fellow student. From campus theatricals this partnership continued through years on small time vaudeville circuits to stardom in "Shuffle Along" in 1921.

Following the success of their production "Shuffle Along" Miller and Lyles produced and starred in "Running Wild", "Rang-Tang", and the loss successful "Sugar Hill" of last season. They were featured in "George White's Scandals", the late Florenz Ziegfeld's "Midnight Frolic" and a "Charlot's Revue", the latter appearance taking them to Europe.

1,300 Negro Bonus Vet Off for Home

Washington (CNS)—Thirteen hundred colored veterans have deserted the Bonus Expeditionary Forces after weeks of privation in improvised camps and joined the exodus back home with their expenses paid by funds advanced by the government. Transportation by railroad was furnished to 4,344 veterans, of which 1,079 were colored. Provision for the return of 939 by means of automobile transportation included 217 colored men. The men were provided subsistence at the rate of 75 cents per day until they reach their destination.

WHITE SUPREMACY ISSUE OF TENNESSEE DEMOCRATS

Nashville, Tenn. (CNS)—White supremacy is the main issue of the Tennessee Democratic primary August 4. White voters of the community are being urged to recognize the registration of 33,100 Negroes as Democrats, as "the worst menace in the history of the country", and one that threatens to strangle the whites of the South like a filthy black rag.

Y Camping Days Drawing Near

The short space of seven days separates dozens of eager, expectant boys from the most looked forward to event of the summer vacation. On August 18, between 125 and 150 boys will leave the Inter Urban station for eight days to be spent at the Des Moines "Y" Camp.

During this space of eleven days, boys will grow anxious and nervous, days will seem longer and hotter, work and chores will become more arduous, but finally it must all end. Every boy bears the burden manfully because he knows he can play better when he has done his work well. He knows, too, that that grand and glorious day—August 18—is coming. That is the day the prayers are answered of every boy who loves the outdoors, and is filled with the spirit of adventure.

New York Doctor Denied Passage; Sues Company

New York (CNS)—Claiming that the steamship company refused to permit them to embark on the Mauretania for the three weeks cruise for which they had obtained passage and accommodations, Dr. George Hutson Batson and his wife, Mrs. Costella Batson have filed suit for \$21,000 against the Cunard Steamship Company and the National Pleasure Tours, Inc., through which they arranged and paid for their tour.

Dr. Batson claims that he paid the full amount of the passage and accommodations for three weeks, several weeks before the date of sailing. He received in exchange a certificate guaranteeing them passage and accommodations on the boat. All arrangements had been made and their baggage, duly labelled, was on the boat which was scheduled to sail from Pier 4, Hoboken, New Jersey at midnight July 8. The names of the couple had been published among the guests. When the couple presented their tickets, Dr. Batson claimed that they were told that there was something wrong "somewhere" and they were refused permission to embark, and a part of their luggage was removed from the ship to the pier.

Dr. Batson and Mrs. Batson each are suing both companies. They each ask \$10,000 damages for the humiliation they suffered, and \$500 under the New York Civil Rights act for discriminatory practices.

Shriners Call Off Annual Meeting

Washington (CNS)—The Shriners following the example of several other fraternal orders have called off their annual session originally scheduled for Philadelphia August 15. Due to the number of requests to call off received by Imperial Potentate Harry Knight, Knight called a session of his Divan at which time it was decided to submit a referendum to the various Temples. A later session of the Divan was held when the answers were in and it was disclosed that all but two of the Temples voted to call off. Knight then issued a proclamation to call off the annual session until August, 1933.

BETHEL SCORES SECOND STRAIGHT TRIUMPH OVER UNION

Frazier Scores Shutout

STANDINGS:

Union	W. L. Pct.
St. Paul	8 3 .266
Bethel	7 4 .292
Burns	6 5 .555
Burns	1 11 .083

Bethel and St. Paul should extend a vote of thanks to Burns for leading the way to the downfall of Union Baptist, who after establishing a fine record of 8 consecutive victories, have been humiliated in their last four starts.

Bethel completed the job they began last week by shutting out the Union men Tuesday evening 4-0 before a large crowd. Jesse Frazier, Bethel speed ball artist, was in rare form, allowing one hit and striking out seven of the rival hitters.

In the big game next Tuesday, St. Paul and Bethel will meet in the final game of the season. If St. Paul is successful in defeating Bethel, they will tie Union for the championship and a playoff for the title will be necessary.

Wright to Accept Wilberforce Post

New York City (CNS)—Dr. R. R. Wright, Jr., of Philadelphia, for twenty years editor of the Christian Recorder, on a recent visit to this city indicated that he would accept the presidency of Wilberforce University, offered him by the board of trustees of the university, following the resignation of Dr. Charles H. Wesley of Washington who accepted the position in June.

Retrial of Assault Charge Frees Boy

Luray, Va. (CNS)—Leon Fry, charged with assault on a white girl, was acquitted yesterday afternoon at the conclusion of his second trial. The jury was out 45 minutes. The verdict brought no demonstration of any sort.

Fry was grilled on the stand for more than an hour and a half, but his story checked in every way with the story told by Sheriff Sedwick, who with his family were the main witnesses used by the defense in establishing an alibi for the young prisoner. Sedwick has employed Fry since he was a child.

MCCORMICK WILL PROVIDE \$1,000 FOR NEGRO SERVANT

Washington (CNS)—John Bryce, house-man for Mrs. Katherine Medill McCormick who died in Versailles, France, April 11, will receive \$1,000 by the terms of her will filed here Saturday. Mrs. McCormick was the mother of the late Senator Medill McCormick of Chicago.

Eddie Tolan Wins Two Dashes In Record Time

Gordon Leaps to Broad Jump Fame

With the Stars and Stripes outlined against the blue sky over the Sierra Madre range most of the time during the first week of the tenth Olympiad held at Los Angeles, two American Negroes restored the sprint supremacy to the U. S. A. for the first time since 1920, when Eddie Tolan, bespectacled five foot four marvel of Michigan, and Ralph Metcalfe, 180 pound giant, speed demon from Marquette, shared international applause as they won stellar honors in the 100 meters and 200 meters events with "little Eddie" leading the field in both events.

Metcalfe Second in Heart-breaking Finish
Many years will elapse before the world will forget the 100 meters race which was called the sport classic of the twentieth century. Monday afternoon, under the glare of the California sun, two-bronzed-flyers from the midwest streaked through the ozone, bringing fifty thousand spectators to their feet, as the two streaks of lightning, seemingly, hit the tape together. The Marquette meteor, however, placed second by the superhuman lunge of the Wolverine speedster who won in world's record time: 10.3.

Boulder Dam Case Is Still Under Investigation

New York, Aug. 5.—According to the report sent the N. A. A. C. P. by Attorney Leland S. Hawkins, President of the San Francisco Branch, as the result of an interview with the president of the Six Companies, Inc., which is in charge of the Boulder Dam construction, a definite promise has been obtained that Negroes will be given any jobs they are capable of filling at the Dam without discrimination and as fast as jobs are available. According to Mr. Hawkins, Mr. Bechtel states that accommodations are being provided for Negroes of the same sort as that for whites in dormitories. He further stated that food will be served from the same kitchen, and the same utensils, and in the same dining room for all employees, but indicated that Negro men will have their own tables "so as to avoid friction". Mr. Hawkins, speaking as representative of the Association and the National Bar Association protested against this segregation in dormitories and in dining rooms.

Tolan King for Two Days
Tolan, king of sprinters, delighted seventy-five thousand spectators again Wednesday afternoon, when he duplicated his Monday's triumph in the 100 meters, by shooting down the straightway like a hurricane across an open plain to win the 200 meters event in an Olympic record time of 21.2. Metcalfe, Marquette express, and American idol, had to be content with third in the greatest field of crack sprinters ever assembled. His tremendous final charge was not enough to overtake the world champion.

Tall Corn Boy Takes Title

Eddie Gordon, Hawkeye broad jump star, wearing the white shirt and American shield of the U. S. A. for his second Olympic appearance instead of the Old Gold jersey of Iowa in which he gained national fame for three years, defeated Nambu of Japan, holder of the world's record. His winning leap was 25 feet, 3/4 inch, adding another gold medal to his laurels and sharing honors with his team mate, Tolan.

America Fourth in High Jump
The high jump loss was a blow to America who has always won this event since 1896. After a four-cornered tie of 6 ft., 6 1/2 inches for first place the jumpoff left Cornelius Johnson, Los Angeles high school boy, placing fourth. The other American jumpers were eliminated. Silvio Cator, broad jumper from Haiti failed to qualify. Andre Theard, sprinter from Haiti, lost in the first heat. Phil Edwards, former New York University ace, competing for Canada placed third in the 800-meter run finals, and the 1,500 meters event.

It is often said that Iowa is one of the dry states of the nation. On the other hand Iowa ranks among the states with the greatest percentage of automobile accidents. This does not support the argument of those who "shiver" when they think of legalized liquor traffic and the automobile.

Judging from the articles coming from such prominent Negro writers as Kelly Miller and Floyd Calvin, a large share of the campaign will be fought over the fitness of John Garner for the Vice Presidency.

"TO HELL WITH THE COURT"

John Nordquist, cronic seeker of public office and one of the so-called radicals in Des Moines, was evicted from his home last week by an order issued from the Municipal Court. Disregarding the eviction, Nordquist moved back into the house and was hauled into court for contempt. Judge Allen imposed a fine for this contempt and upon hearing the sentence Nordquist said "To hell with the court." Immediately the court imposed an additional fine for the remark.
 America is a free country but Nordquist nor any other man has any right or should be allowed to so lower the dignity of the courts as to make remarks of this kind. Any man who has such little respect for constituted authority as to do things of this character has no right to the protection from that authority.

Judge Allen did just the thing when he imposed this fine. It is wholesome medicine to that class of people who although temporarily at a disadvantage because of unemployment attempt to take advantage of the situation to undermine our institutions. It will be a sad day for our country when a fellow can stand up in a court room and say "To hell with the court," without having that court stand on the sanctity of our institutions and put down that sentiment promptly as was done in this case.

LEGIONAIRES FOR BONUS

The Iowa Department, American Legion, at its annual meeting in Fort Dodge this week, went on record favoring the immediate payment of the balance of the face value of the adjusted service certificates. Other states are following suit and it is almost certain that the national convention will do likewise.
 The most convincing argument for the immediate payment of the bonus at this time is the fact by 1945, interest on the amount already borrowed by the veteran will equal the balance due. On the other hand the poorest argument against immediate payment was the inability of the government to get the money. When we realize that every issue of notes sold by United States

THE PROSTATE

The prostate gland becomes affected sometimes. This gland is present in man only and is not a part of the other sex. The greatest difficulty in affections of this gland lies in the fact that it is in a way a part of the bladder so much so that its enlargement to any great extent causes a shutting off of the urinary outflow. Now this enlargement begins to make itself known at about age 55 or 60 but perhaps some knowledge of this might prevent serious enlargement by causing something to be done before this time, for example an examination might show some beginning enlargement before this time. This condition comes about through various causes and the symptoms are those which might occur from any derangement of the urinary system.

In thinking of cancer the possibility of its location in the prostate gland is more in the mind of the medical man than in the minds of those in other professions and for that reason any symptom in question regarding this urinary system should call one of that age to the medical man for examination. The word cancer itself is so expressive of its nature that nothing more need be said of why it should have that attention as previously described.

CARE OF DOGS

Doctor G. W. Little, author of numerous books on dog care, estimates that constant feeding of boiled liver alone will shorten a dog's life at least four years. Veterinarians lay 80% of dog trouble to improper feeding, says the Chappel Kennel Foundation.

recently has been oversubscribed several times, the argument is at least untrue.
 But the Iowa Legionaires have spoken on the question and the organization is committed to it. Whatever action the Legion questioned in the convention we are taking to secure the action requested in the convention we are certain that it will not be in conjunction with groups like the bonus marchers we witnessed in Washington recently.

Dog's Education Should Start With Proper Manners

If Not a Gentleman, He Surely Will Be a Social Flop.

Is your dog well-bred? This does not refer to his pedigree although that kind of good breeding is important too—but to his manners. The first thought you should have for your puppy is to make a gentleman of him, says the Chappel Kennel Foundation, Rockford, Illinois.
 Every one hates bad manners in other people's dogs. Halitosis, body odor, yellow teeth and pimples may cause your friends to shun you, but not nearly as fast as if you own an ill-bred dog.
 It is not hard to make a dog obedient. He will respect you much more and love you not one whit the less if he is rigidly trained to heed when

called, to lie down and sit on command, to lead without pulling and to behave decently indoors.

Being a native of the woods and fields, he must first be taught indoor manners. Cleanliness in personal habits is the most important, so he should be housebroken first of all.
 Table manners come next. Never allow the dog near the family table at meal times. Teach him to expect his own food at a certain time and place every day. If fed a good meal in the evening, consisting of a well-balanced meaty ration, plus a fresh meat biscuit or two in the morning and plenty of water, he will not be tempted to haunt the family dining room. Horse-meat, the best meat for dogs, with cereals mixed in proper proportions, is now obtainable in prepared, canned form at stores everywhere. Feed, brush and exercise your dog daily.

His relations to strangers should next be considered. The aim is to train him to a general attitude of "friendly reserve," neither surly and vicious nor over-affectionate, towards all strangers. He can learn his guard

Average Cash Value of Dog Placed at About 40 Cents

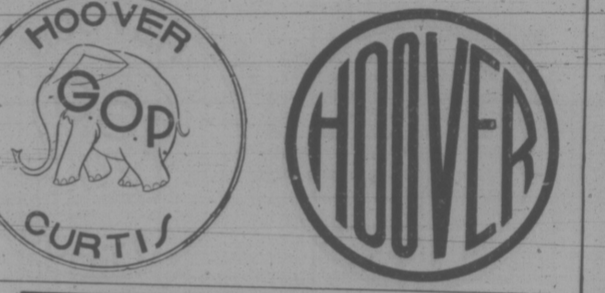

If you sent your dog to the junkyard today, what would the parts be worth? Of if you wanted to "assemble" a dog, what would the raw materials cost?

Chemical analysis shows the average dog is really worth about forty cents, says the Chappel Kennel Foundation, Rockford, Illinois. That is the cost of raw materials to make the bones, brain, muscles, nerves and everything else the dog needs, at drug and grocery store prices. If bought in quantities for mass production, however, the average cost of the chemical ingredients of a dog should not exceed a dime. Nor are the chemicals in the human body worth much more.

A fourteen-pound terrier, for instance, contains enough fat to make a medium-sized cake of toilet soap; enough carbon to fill 75 dozen lead pencils; about as much iron as is in a carpet tack; phosphorus enough for 220 match heads; sufficient lime to whitewash his kennel, sulphur enough to kill his fleas and enough manganese to make him a good daddy.

Dissolve these ingredients in a gallon of water, season with a small pinch of magnesium, salt, sugar, iodine, soda and kosh, add tiny specks of tin, silver, lead, copper and arsenic, and if you stir up the mixture in Nature's own incomparable way, you'll have a dog!

The same ingredients are used whether your dog be pointer or Poui-

DOGS SHOULD VISIT DOCTOR TWICE A YEAR

For Well-Loved Dog, Call on Vet Is Safe Health Assurance.

More people every year are taking the common-sense precaution of having a licensed veterinarian give their dogs an annual or semi-annual examination, reports the Chappel Kennel Foundation, Rockford, Illinois.

The dog's anatomy is as complex as our own. Undermining influences may be at work which will eventually result in serious illness or death. The dog cannot recognize these symptoms until they cause acute pain, and then perhaps it will be too late for even the best dog doctor to save his life.

Do not wait until your dog is "down sick" to think about his health, the Foundation advises. But if he does become ill, do not "doctor" him yourself. Consult a trained veterinarian, licensed to practice in your state, and follow his advice, which is inexpensive and safe.

If a dog is fed properly, veterinarians say, the chances are four out of five he will never need treatment. Eighty per cent of dog ailments originate in the digestive system and most of them can be avoided by observing a few simple rules.

Pork products, soupy and starchy foods, fats, sweets, ice cream and the like will soon ruin the digestion of the soundest dog. "Table-scrub" feeding

kills more pets every year than accidents and all other causes combined. Pure, lean meat, lightly cooked, should form the basis of every dog's diet. Horse-meat is the best, and now that mass production has made it available to every dog owner, there is no reason why the humblest little mixed-breed cannot enjoy this food which was once reserved for only the proudest aristocrats of his race.

The meat should be balanced with certain cereals and minerals to provide a maximum of nourishment with a minimum of strain on the digestive system. Unlike most animals, the dog cannot balance his own diet.

Prepared dog rations, made under the supervision of the United States

Department of Agriculture, offer a safe, simple way to insure balanced feeding, as they come in canned form, ready to serve.
 Overfeeding should be guarded against, the Foundation states. One heavy meal a day, preferably in the evening, and a light breakfast, are enough for any dog.

Miss Dorothy Miles Honors Movie Star

More than fifty guests were entertained at an informal party given by Miss Dorothy Miles, daughter of Mrs. Minta Miles, 1427 Maryland Avenue, in honor of her guest Ernest (Sunshine Sammy) Morrison, juvenile screen star of the original Our Gang comedies, and his vaudeville company, at the La Marguerita Hotel Friday evening. The popular actor and his song and dance team consisting of Messrs. Harry Payne, Bobby Green, and George Duncan, played the last half of the week at the local Paramount theatre.

The elaborate affair was honored by the presence of Prof. C. G. McCowan and his Magnolia Southern quartette consisting of Messrs. Ripley, Jones, Casey and Hawkins. All of the honored guests entertained with specialty numbers.

The hostess was assisted in the receiving by Mrs. Mary Miles and in the serving by her aunt, Mrs. Gladys Johnson and Curtis Morton. Dance music was furnished by Harry Miller and his Billiken Ballroom orchestra.

Marguerite Esters To Tour Western States

Marguerite Esters, juvenile probation officer, accompanied by her mother, Mrs. Nell Esters, cousin, Lucille Bennings, aunt, Mrs. Hattie Bennings, and Mrs. Lillian Edmunds, director Community Service, left by motor Wednesday on a vacation trip to Seattle, Wash. While there she will visit her uncle, William Grayson and cousin, Harold Bennings, formerly of Des Moines. Enroute they will stop at the Black Hills, Yellowstone Park, and other points of interest.

Returning they will motor down to the coast to Los Angeles and through the Mojave Desert to Arizona, on to Salt Lake City and Denver. They will return about September 1st.

Harriet Fulton Fetes Californians

Henry Herndon and family, Lonnie Herndon and family of California and Mr. and Mrs. Bonnie Herndon of this city were the guests of Miss Harriet Fulton at the home of Mr. and Mrs. Gilbert, Sunday evening. The feature of the evening was a special song and dance by Miss Cleo Herndon who was formerly the leading lady in the California musical comedy, "Lucky Day."

Dr. and Mrs. J. Alvin Jefferson will leave Sunday, August 7th, for San Antonio, Texas, to visit relatives and friends. They will return in about three weeks.

Mary Church Terrell Club served a barbecue at La Marguerita Hotel last Sunday evening. The evening was spent in playing bridge.

The Mary Church Terrell Club will meet Monday, August 8, with Mrs. A. P. Trotter, 934 Fourteenth St. Place.

The Merry Widow Club will meet Sunday, August 4 p. m., at the home of Mrs. L. Henry, 1221 E. Eleventh street.

Herndons Compliment California Visitors

Mr. and Mrs. Henry Herndon and daughter Cleo, and Mr. and Mrs. Lonnie Herndon and daughter Clara Jean of Beverly Hills, Calif., were the guests of Mr. and Mrs. Bonnie Herndon, 1636 Walker street. While here they were the recipients of many social functions, one of which was a lawn party at the Herndon residence Sunday afternoon, July 24th. The thirty three guests enjoyed a delightful afternoon.

Saturday Party Honors Visitors

Mr. and Mrs. Alex Wilburn of 1715 Walker street, entertained to a cocktail party Saturday, July 23rd, Mr. and Mrs. Henry Herndon and daughter, Mr. and Mrs. Lonnie Herndon and daughter of Beverly Hills, California, and Mr. and Mrs. Bonnie Herndon of this city.

Mrs. Earl Southall of Fort Dodge motored to Des Moines Thursday to attend the Union Sunday School picnic. While here she was the guest of Mr. and Mrs. Arthur Crowder, 716 Eighteenth street.

Mr. and Mrs. E. Davis entertained their friends Thursday evening from 8 to 12 p. m. at their home, 1115 Eleventh street. Games and a dainty tray luncheon were the features of the evening for the sixteen guests present.

Miss Mary Maxfield of Waterloo, was the guest of Mrs. Naomi Lewis, 914 Laurel street, for the past week.

The Young Women's Missionary Auxiliary of St. Paul's A.M.E. church will have a TRIP AROUND THE WORLD to Orolabor, Friday, August 12th, at 8 P. M. Refreshments free.

WATERLOO, IOWA, NEWS

Miss Ora Lee Allen, daughter of Green Allen, was buried Saturday, July 30th. Mrs. A. H. Hyland, 1206 East Fourth St., have returned home from a ten days' visit with Miss Fannie Ricks at Iowa Falls. The Kings of Harmony rendered a program Sunday, July 31st, at Davenport, Iowa. Mrs. Price Robinson is convalescing at her home on Salisbury street.

COLFAX, IOWA, NEWS

A large audience greeted Rev. Lucas and his choir at Bethel Baptist church in spite of the heavy downpour of rain. An old time spiritual meeting was held, with Rev. Lucas presiding. Those on the sick list are Rev. Clark, Messrs. Holmes, and Anderson. The Mission Circle meets every Thursday afternoon.—Rev. E. R. Mason, Pastor.

In the community center division, the Community Service, 907 Fifteenth Street, took first in both the boys' and girls' divisions of the Tribune's "You Can Make It" contest, Saturday. Georgia Edmunds, 11, of 967 Fifteenth Street, won an autogiro ride and Arthur Clay, 13, of 1055 Seventeenth St., also won an autogiro award for his first prize.

Everett Clay, 1055 Seventeenth St., took first in the men's section with a carved candelabra. He will receive \$10 merchandise certificates from a department store.

The contest closed Saturday afternoon with a month's competition. Sponsored by The Tribune, it was arranged by community centers of the Public Welfare bureau in conjunction with the city playground commission.

Memphis.—(CNS)—The lily white contestants for places upon the Republican State Committee withdrew the names of their four candidates Friday, leaving the way clear for the members of the regular organization to complete the naming of the State executive committee from its membership.

Washington.—(CNS)—The Rev. Walter H. Brooks, oldest active minister in Washington, is completing his fiftieth year as pastor of the Nineteenth Street Baptist Church. Coming to Washington in 1882, Rev. Brooks began his work at the Nineteenth Street Church during which he has rendered invaluable service not only to his church, but to virtually every civic project that would improve the status of the race in the community.

IDEAL VACATION

Aren't you just a bit tired of the city? Wouldn't ten days away from it, out among the cool, lofty hills be a great relief to you? Well, that's just what camp offers, a delightful change from the daily routine of city life.

The Y. W. C. A. camp is an ideal place for Iowa girls to spend their vacations. Offering all the activities that delight the hearts of girls, carefully supervised and located in a beauty spot, the Des Moines River Valley. The camp provides an all-around vacation for girls of all ages.

Since we are expecting so many new campers this year, here are a few suggestions of what you should bring to camp as a necessary and desirable outfit: 2 warm blankets, sheet, sweater or coat, raincoat, swimming suit and cap, skirts, towels and toilet articles. Now for things that are not necessary, but always desirable: Tennis equipment, flashlight, musical instruments, kodak and costumes.

Don't forget girls, everyone of you should buy and wear a Y. W. C. A. button. To wear one means: "I believe in the fullness of life for every girl."

"I am willing to share in order to help bring it about."

Buy one of these buttons and help some girl to attend camp.

Those girls who wish to sell buttons can get them from Mrs. J. G. Browne, 1419 Maryland or call 3-6359.

Morning Prayer and Sermon 11 A. M.

The Rev. Roger E. Bunn, Priest-in-Charge.

Chicago.—(ANP)—Rev. Edward H. Branch, pastor of Antioch Baptist Church, here, and treasurer of the National Baptist convention, not incorporated, known as the "Boyd Faction," died here last week and was buried on Thursday after a funeral which was attended by 2,000.

New York.—Harlem, as well as Broadway, mourns the passing of Florenz Ziegfeld, premier producer and originator of the Follies, because of the unlimited opportunities he gave to colored actors.

Bert Williams, world's greatest comedian, was given his start by the great showman, by featuring him in an all-white production of the early days. Jules Bledsoe, singing "Ole Man River," Will Vodrey, arranger of all Ziegfeld music scores, Paul Robeson, baritone star of "Showboat," numerous all-colored choruses and countless others owe their success to this man.

Houston, Texas.—Negro voters of Monday sought the arrest of Harris County Democratic primary election judges for refusing them the right to vote Saturday. Several hundred Negroes attempted to vote but in most instances they were refused the right by election judges and clerks who were backed up by police stationed at the polls to prevent disorder.

U. S. Commissioner Winston McMahon was given the names of the judges and clerks who had refused the Negroes admittance to the polls. The lawyer who presented the names was told to take the matter up with the district attorney's office.

Desire to Help Condemned Boys in Spite of Attacks by Communists on Association Promptly Sending Check to Walter H. Pollak

New York.—The N. A. A. C. P. has sent its check for \$1,000 to Walter H. Pollak, leading New York lawyer, who is in charge of the appeal of the condemned Scottsboro boys to the United States supreme court.

The N. A. A. C. P. board of directors in its July meeting authorized the contribution out of the legal defense fund because the Association is deeply concerned with the fate of the boys, above every other consideration in the case. The board chose to send the check in spite of the slanderous attacks which have been made on the Association and its officers by various speakers, writers and publications of the Communist party.

An Eminent Lawyer

The fate of the boys is regarded as resting in the skilled hands of Mr. Pollak, who has been retained as chief counsel by the International Labor Defense, which is conducting the case. Mr. Pollak is an eminent lawyer and was at one time an associate of Justice Benjamin N. Cardozo of the United States supreme court. The N. A. A. C. P. feels that in Mr. Pollak the boys have one of the best lawyers in America.

The Old Mohawk Church

The old Mohawk church, the oldest Protestant church in Ontario, is on the Six Nations' reserve near Brantford, Ontario. The grave of Chief Joseph Brant is alongside its walls, and the church is proud of the silver communion service and Bible presented by Queen Anne. The service is inscribed: "The gift of Her Majesty Anne, by the Grace of God, of Great Britain, France and Ireland, and Her Plantations in North America, Queen, to Her Indian Chapel of the Mohawks, 1712." The church is a popular mecca for tourists.

Salt and Sugar

A young woman entered an east end drug store and bought some supposedly salted peanuts.

"There's no salt in these peanuts," she protested.

"Well, we don't salt them much—salt hardens your arteries."

"Oh, is that so? Try eating a little sugar sometime and see if it won't soften your heart!"

Here endeth the conversation. —Indianapolis News.

Accumulation of Ages

Travelers in the Holy land visiting the deepest hole in the earth's surface, that occupied by the Dead sea, into which the Jordan empties itself, are always struck with astonishment at the sight of countless numbers of palm tree trunks, heaped by the waters on its banks.

There are now no such numbers of palm groves in the vicinity, or on the banks of the Jordan, the Arnon or other rivers flowing into this sea, as would account for so prodigious an amount of debris. Any attempt at building a fire out of the mass of flotsam, results, after exercising much patience, in feeble, blue flames of no great intensity. The wood is heavily impregnated with salt from the Dead sea—Salt sea, or Lake Asphaltas as it has been called—that is, it is pickled and will last for centuries.

The accumulations of countless ages are represented in those piles of roots and logs, carrying the mind back to the time when the four kings made the first incursion from Mesopotamia into Canaan; near Hazazon-Tamar, "The Rons of Palms," the modern Engedi, (Genesis 14:7), captured Lot and his family, but were followed and defeated by Abraham.

Memphis.—(CNS)—Alarmed over

the heavy registration of Negro voters in Memphis and Shelby County which totals one-third of the total registered and eligible to vote in the Democratic primary, August 4, attempts are being made to bar the Negro voters from the polls by party edict of the State Democratic party.

Washington.—(CNS)—When Congress closed its doors last week and tramped down the broad steps of the Capitol its members had to pass thru rows of hungry and destitute veterans who have been here eight weeks seeking relief for themselves and their families.

Members of Roy Robertson's insurgent California regiment, famous for their "death march" around the Capitol plaza were joined shortly before adjournment by the crippled veteran leader W. W. Waters and placed a petition in the hands of Speaker of the House John Nance Garner on behalf of their fellow veterans, both white and colored, requesting that Congress not adjourn but recess. Garner promised to take up the matter but shortly after arrangements had been made, he left the Capitol building by an unobserved door and boarded a train for Uvalde, Texas, from a station in the remote section of the city.

Early "Dictionaries"

Before there was a dictionary, people literally "did without." Over 2,500 years ago the Assyrians had one of their languages pressed in cuneiform characters on clay tablets. One authority says: "The Arabians, the Greeks, and the Romans, too, compiled dictionaries; they did not make any attempt at giving all the words of a language, but contented themselves with listing rare or difficult words."

Lexicons were a development of the Middle Ages. The first English dictionary which aimed at completeness was that of Nathan Bailey, published in 1721 and called the "Universal Etymological English Dictionary."

Chemical Spray SPEEDS MAN'S WAR ON HOUSEHOLD FLY

All through the ages, since human misfortunes were first chronicled, mankind has struggled to protect itself from its chief peacetime and wartime enemy and annoy—the common house fly which is credited nowadays with causing 75,000 deaths annually.

Paulus Silentarius, the Roman, accomplished the first really progressive step in outsmarting the fly in the Sixth century, A. D., according to O. F. Hedenburg, director of the Rex Research Foundation, Chicago, which is staging a modern nation-wide warfare on household insect pests. This wily Roman ordered a fine net built around his bed to keep the flies away so he could sleep in peace.

His method proved so good that it was used until recent years, as was the later and more widespread idea of "swatting."

"More real progress in fly extermination has been made in the last five years than in the previous five centuries through the development of scientific chemical sprays which destroy flies in homes and elsewhere wholesale without injuring humans or animals," Doctor Hedenburg said.

"This crowning achievement was accomplished at Mellon Institute in the form of liquids, which, sprayed into the air, form a mist cloud that may be breathed by people with perfect safety but which quickly and efficiently eliminates all insect pests in a room. It leaves no stain on clothing or walls."

Doctor Hedenburg declares that homes should be sprayed with a good insecticide twice daily, once, perhaps in the afternoon, to protect baby's nap, and once just before bedtime, thus destroying all germ carrying or otherwise destructive insects that may have entered through opened doors or meshes in the screens.

NOTICE OF INCORPORATION TO ALL WHOM IT MAY CONCERN:

Notice is hereby given that Carl L. Hegen and H. S. Hegen have organized and duly incorporated Curly's Shoe Store, No. 1, and the Articles of Incorporation, together with an amendment thereto, provide among other things the following to-wit:

1. The name of the corporation is "Curly's Shoe Store, No. 1," with its principal place of business in the City of Des Moines, Polk County, Iowa.

2. The general nature of the business shall be to establish, maintain and operate shoe stores, to buy and sell merchandise of every kind, at wholesale and retail, and to conduct the general mercantile business to deal in, manufacture, job and sell, either wholesale or retail, each and every kind of shoe, leather goods, fabric goods and wares, and all kinds thereof, in any manner or in any wise connected with or relating to the general sale of foot-wear, leather findings, repairs, shoe repairs, hosiery or any other matter, now or hereafter suitable or usable in connection with the sale of shoes or leather findings, either as certificates or in connection therewith, and to that end, to purchase, lease, lease-and-sell houses or buildings, to establish or maintain stores for the setting up and unloading of said stores and to acquire, carry on and conduct any part of the business or profits of any corporate partnership or individual engaged in a business similar.

3. The amount of capital stock authorized to be issued shall be only when the corporation has received payment in full therefor at par in cash or property, provided that when stock is to be issued for anything other than money it shall be subject to the approval of the Executive Council of the State of Iowa.

4. The corporate term of the corporation shall begin on the date the Secretary of State issues a certificate of incorporation which shall expire on the date of the expiration of the term of years from said date, unless sooner dissolved by four-fifths vote of the interest of stockholders at such annual meeting or at a special meeting called for that purpose or by unanimous consent, as provided by law.

5. The affairs of this corporation are to be conducted by a Board of not less than two nor more than five Directors, who, until the first election in 1933, shall be Carl L. Hegen, Des Moines, Iowa, and H. S. Hegen, Des Moines, Iowa; and the following shall be officers: President, H. S. Hegen, Des Moines, Iowa; Vice-President, Carl L. Hegen, Des Moines, Iowa; Secretary, Carl L. Hegen, Des Moines, Iowa; Treasurer, H. S. Hegen, Des Moines, Iowa; and the annual election shall be on the third Monday in January of each year at 7:30 P. M., at the office of the corporation, Des Moines, Iowa; and each stockholder shall be entitled to one vote for each share of stock held by him.

6. The private property of the members and stockholders of the corporation shall be exempt from liability for corporate debts except as otherwise declared by law of the State of Iowa. Done at Des Moines, Polk County, Iowa, this 15th day of June, A. D. 1932.

quito are admirably adapted to piercing the skin. The "dagger" is made up of a bundle of six very fine sharp needles which puncture the mosquito pumps blood into her stomach. Before the blood is drawn, however, she injects a poisonous fluid which thins the blood so that she can draw it up readily. It is this poison that causes the familiar mosquito bite.

The best cure for mosquito bites is their prevention. This is done most effectively in or about the home by destroying the mosquito before she gets a chance to land on her victim. Spraying with a good spray made expressly to kill mosquitoes and other insects is a sure way to exterminate these pests.

This spray material floating in the air as a fine mist, while harmless to humans, and nonstaining to household furnishings, also keeps other mosquitoes from entering the room.

It is often said that Iowa is one of the dry states of the nation. On the other hand Iowa ranks among the states with the greatest percentage of automobile accidents. This does not support the argument of those who "shiver" when they think of legalized liquor traffic and the automobile.

Judging from the articles coming from such prominent Negro writers as Kelly Miller and Floyd Calvin, a large share of the campaign will be fought over the fitness of John Garner for the Vice Presidency.

"TO HELL WITH THE COURT"

John Nordquist, cronic seeker of public office and one of the so-called radicals in Des Moines, was evicted from his home last week by an order issued from the Municipal Court. Disregarding the eviction, Nordquist moved back into the house and was haled into court for contempt. Judge Allen imposed a fine for this contempt and upon hearing the sentence Nordquist said "To hell with the court." Immediately, the court imposed an additional fine for the remark.
 America is a free country but Nordquist nor any other man has any right or should be allowed to so lower the dignity of the courts as to make remarks of this kind. Any man who has such little respect for constituted authority as to do things of this character has no right to the protection from that authority.

Judge Allen did just the thing when he imposed this fine. It is wholesome medicine to that class of people who although temporarily at a disadvantage because of unemployment attempt to take advantage of the situation to undermine our institutions. It will be a sad day for our country when a fellow can stand up in a court room and say "To hell with the court," without having that court stand on the sanctity of our institutions and put down the contempt promptly as was done in this case.

LEGIONAIRES FOR BONUS

The Iowa Department, American Legion, at its annual meeting in Fort Dodge this week, went on record favoring the immediate payment of the balance of the face value of the adjusted service certificates. Other states are following suit and it is almost certain that the national convention will do likewise.
 The most convincing argument for the immediate payment of the bonus at this time is the fact by 1945, interest on the amount already borrowed by the veteran will equal the balance due. On the other hand the poorest argument against immediate payment was the inability of the government to get the money. When we realize that every issue of notes sold by United States

HEALTH TALKS

By Dr. H. H. London

THE PROSTATE

The prostate gland becomes affected sometimes. This gland is present in man only and is not a part of the other sex. The greatest difficulty in affections of this gland lies in the fact that it is in a way a part of the bladder so much so that its enlargement to any great extent causes a shutting off of the urinary outflow. Now this enlargement begins to make itself known at about age 55 or 60 but perhaps some knowledge of this might prevent serious enlargement by causing something to be done before this time, for example an examination might show some beginning enlargement before this time. This condition comes about through various causes and the symptoms are those which might occur from any derangement of the urinary system.

In thinking of cancer the possibility of its location in the prostate gland is more in the mind of the medical man than in the minds of those in other professions and for that reason any symptom in question regarding this urinary system should call one of that age to the medical man for examination. The word cancer itself is so expressive of its nature that nothing more need be said of why it should have that attention as previously described.

CARE OF DOGS

Doctor G. W. Little, author of numerous books on dog care, estimates that constant feeding of boiled liver alone will shorten a dog's life at least four years. Veterinarians lay 80% of dog trouble to improper feeding, says the Chappel Kennel Foundation.

recently has been oversubscribed several times, the argument is at least untrue.
 But the Iowa Legionaires have spoken on the question and the organization is committed to it. Whatever action the Legion questioned in the convention we are takes to secure, the action requested in the convention we are certain that it will not be in conjunction with groups like the bonus marchers we witnessed in Washington recently.

Dog's Education Should Start With Proper Manners

If Not a Gentleman, He Surely Will Be a Social Flop.

Is your dog well-bred? This does not refer to his pedigree although that kind of good breeding is important too—but to his manners. The first thought you should have for your puppy is to make a gentleman of him, says the Chappel Kennel Foundation, Rockford, Illinois.
 Every one hates had manners in other people's dogs. Halitosis, body odor, yellow teeth and pimples may cause your friends to shun you, but not nearly as fast as if you own an ill-bred dog.
 It is not hard to make a dog obedient. He will respect you much more and love you not one whit the less if he is rigidly trained to heed when

called, to lie down and sit on command, to lead without pulling and to behave decently indoors.

Being a native of the woods and fields, he must first be taught indoor manners. Cleanliness in personal habits is the most important, so he should be housebroken first of all.
 Table manners come next. Never allow the dog near the family table at meal times. Teach him to expect his own food at a certain time and place every day. If fed a good meal in the evening, consisting of a well-balanced meaty ration, plus a fresh-meat biscuit or two in the morning and plenty of water, he will not be tempted to haunt the family dining room. Horse-meat, the best meat for dogs, with cereals mixed in proper proportions, is now obtainable in prepared, canned form at stores everywhere. Feed, brush and exercise your dog daily.

His relations to strangers should next be considered. The aim is to train him to a general attitude of "friendly reserve," neither surly and vicious nor over-affectionate, towards all strangers. He can learn his guard

Large Newspaper Collection
 What is said to be the largest collection of newspapers in the world has been opened to the public in a newspaper museum at Aix-la-Chapelle, Germany. Among its collection of 150,000 newspapers are curiosities from all over the world, including an Eskimo paper from the middle of the century.

Average Cash Value of Dog Placed at About 40 Cents

If you sent your dog to the junkyard today, what would the parts be worth? Or if you wanted to "assemble" a dog, what would the raw materials cost?
 Chemical analysis shows the average dog is really worth about forty cents, says the Chappel Kennel Foundation, Rockford, Illinois. That is the cost of raw materials to make the bones, brain, muscles, nerves and everything else the dog needs, at drug and grocery store prices. If bought in quantities for mass production, however, the average cost of the chemical ingredients of a dog should not exceed a dime. Nor are the chemicals in the human body worth much more.
 A fourteen-pound terrier, for instance, contains enough fat to make a medium-sized cake of toilet soap; enough carbon to fill 75 dozen lead pencils; about as much iron as is in a carpet tack; phosphorus enough for 220 match heads; sufficient lime to whitewash his kennel, sulphur enough to kill his fleas and enough manganese to make him a good daddy.
 Dissolve these ingredients in a gallon of water, season with a small pinch of magnesium, salt, sugar, iodine, soda and potash, add tiny specks of tin, silver, lead, copper and arsenic, and if you stir up the mixture in Nature's own incomparable way, you'll have a dog!
 The same ingredients are used whether your dog be pointer or Poin-

DOGS SHOULD VISIT DOCTOR TWICE A YEAR

For Well-Loved Dog, Call on Vet Is Safe Health Assurance.

More people every year are taking the common-sense precaution of having a licensed veterinarian give their dogs an annual or semi-annual examination, reports the Chappel Kennel Foundation, Rockford, Illinois.
 The dog's anatomy is as complex as our own. Undermining influences may be at work which will eventually result in serious illness or death. The dog cannot recognize these symptoms until they cause acute pain, and then perhaps it will be too late for even the best dog doctor to save his life.
 Do not wait until your dog is "down sick" to think about his health, the Foundation advises. But if he does become ill, do not "doctor" him yourself. Consult a trained veterinarian, licensed to practice in your state, and follow his advice, which is inexpensive and safe.
 If a dog is fed properly, veterinarians say, the chances are four out of five he will never need treatment. Eighty per cent of dog ailments originate in the digestive system and most of them can be avoided by observing a few simple rules.
 Pork products, soupy and starchy foods, fats, sweets, ice cream and the like will soon ruin the digestion of the soundest dog. "Table-scrub" feeding kills more pets every year than accidents and all other causes combined. Pure, lean meat, lightly cooked, should form the basis of every dog's diet. Horse-meat is the best, and now that mass production has made it available to every dog owner, there is no reason why the humblest little mixed-breed cannot enjoy this food which was once reserved for only the proudest aristocrats of his race.
 The meat should be balanced with certain cereals and minerals to provide a maximum of nourishment with a minimum of strain on the digestive system. Unlike most animals, the dog cannot balance his own diet.
 Prepared dog rations, made under the supervision of the United States

Department of Agriculture, offer a safe, simple way to insure balanced feeding, as they come in canned form, ready to serve.
 Overfeeding should be guarded against, the Foundation states. One heavy meal a day, preferably in the evening, and a light breakfast, are enough for any dog.

The 12 worst odors in the world

Scientists recently selected the twelve worst odors in the world to test the deodorizing power of Listerine and other antiseptics. In every case Listerine showed marked superiority. In several instances Listerine promptly ended odors that other antiseptics couldn't hide in 4 days. To keep your breath sweet and clean and beyond power to offend others, use Listerine every morning and night. Lambert Pharmacal Co., St. Louis, Mo.

EXECUTION

In the community center division, the Community Service, 907 Fifteenth Street, took first in both the boys' and girls' divisions of the Tribune's "You Can Make It" contest, Saturday. Georgia Edmunds, 11, of 967 Fifteenth Street, won an autogiro ride and Arthur Clay, 13, of 1055 Seventeenth St., also won an autogiro award for his first prize.

Everett Clay, 1055 Seventeenth St., took first in the men's section with a carved candelabra. He will receive \$10 merchandise certificates from a department store.

The contest closed Saturday after more than a month's competition. Sponsored by the Tribune, it was arranged by the community centers of the Public Welfare bureau in conjunction with the city playground commission.

Memphis.—(CNS)—The lily white contestants for places upon the Republican State Committee withdrew the names of their four candidates Friday, leaving the way clear for the members of the regular organization to complete the naming of the State executive committee from its membership.

Washington.—(CNS)—The Rev. Walter H. Brooks, oldest active minister in Washington, is completing his fiftieth year as pastor of the Nineteenth Street Baptist Church. Coming to Washington in 1882, Rev. Brooks began his work at the Nineteenth Street Church during which he has rendered invaluable service not only to his church, but to virtually every civic project that would improve the status of the race in the community.

IDEAL VACATION

Aren't you just a bit tired of the city? Wouldn't ten days away from it, out among the cool, lofty hills be a great relief to you? Well, that's just what camp offers, a delightful change from the daily routine of city life.

The Y. W. C. A. camp is an ideal place for Iowa girls to spend their vacations. Offering all the activities that delight the hearts of girls, carefully supervised and located in a beauty spot, the Des Moines River Valley. The camp provides an all-around vacation for girls of all ages.

Since we are expecting so many new campers this year, here are a few suggestions of what you should bring to camp as a necessary and desirable outfit: 2 warm blankets, sheet, sweater or coat, raincoat, swimming suit and cap, skirts, towels and toilet articles. Now for things that are not necessary, but always desirable: Tennis equipment, flashlight, musical instruments, kodak and costumes.

Don't forget girls, everyone of you should buy and wear a Y. W. C. A. button. To wear one means: "I believe in the fullness of life for every girl."

"I am willing to share in order to help bring it about."

Buy one of these buttons and help some girl to attend camp.

Those girls who wish to sell buttons can get them from Mrs. J. G. Browne, 1419 Maryland or call 3-6359.

Desire to Help Condemned Boys in Spite of Attacks by Communists on Association Prompts Sending Check to Walter H. Pollak

New York.—The N. A. A. C. P. has sent its check for \$1,000 to Walter H. Pollak, leading New York lawyer, who is in charge of the appeal of the condemned Scottsboro boys to the United States supreme court.

The N. A. A. C. P. board of directors in its July meeting authorized the contribution out of the legal defense fund because the Association is deeply concerned with the fate of the boys, above every other consideration in the case. The board chose to send the check in spite of the slanderous attacks which have been made on the Association and its officers by various speakers, writers and publications of the Communist party.

An Eminent Lawyer

The fate of the boys is regarded as resting in the skilled hands of Mr. Pollak, who has been retained as chief counsel by the International Labor Defense, which is conducting the case. Mr. Pollak is an eminent lawyer and was at one time an associate of Justice Benjamin N. Cardozo of the United States Supreme court. The N. A. A. C. P. feels that in Mr. Pollak the boys have one of the best lawyers in America.

Salt and Sugar

A young woman entered an east end drug store and bought some supposedly salted peanuts.

"There's no salt in these peanuts," she protested.

"Well, we don't salt them much—salt hardens your arteries."

"Oh, is that so? Try eating a little sugar sometime and see if it won't soften your heart!"

New York.—Harlem, as well as Broadway, mourns the passing of Florenz Ziegfeld, premier producer and originator of the Follies, because of the unlimited opportunities he gave to colored actors.

Bert Williams, world's greatest comedian, was given his start by the great showman, by featuring him in an all-white production of the early days. Jules Bledsoe, singing "Ole Man River," Will Vodrey, arranger of all Ziegfeld music scores, Paul Robeson, baritone star of "Showboat," numerous all-colored choruses and countless others owe their success to this man.

Accumulation of Ages

Travelers in the Holy land visiting the deepest hole in the earth's surface, that occupied by the Dead Sea, into which the Jordan empties itself, are always struck with astonishment at the sight of countless numbers of palm tree trunks, heaped by the waters on its banks.

There are now no such numbers of palm groves in the vicinity, or on the banks of the Jordan, the Arnon or other rivers flowing into this sea, or would account for so prodigious an amount of debris. Any attempt at building a fire out of the mass of flotsam, results, after exercising much patience, in feeble, blue flames of no great intensity. The wood is heavily impregnated with salt from the Dead sea—Salt sea, or Lake Asphaltas as it has been called—that is, it is pickled and will last for centuries.

The accumulations of countless ages are represented in those piles of roots and logs, carrying the mind back to the time when the four kings made the first incursion from Mesopotamia into Canaan, near Hazazon-Tamar, or "The Rows of Palms," the modern Engedi, (Genesis 14:7), captured Lot and his family, but were followed and defeated by Abraham.

Memphis.—(CNS)—Alarmed over the heavy registration of Negro voters in Memphis and Shelby County which totals one-third of the total registered and eligible to vote in the Democratic Primary, August 4, attempts are being made to bar the Negro voters from the polls by party edict of the State Democratic party.

Washington.—(CNS)—When Congress closed its doors last week and tramped down the broad steps of the Capitol its members had to pass thru rows of hungry and destitute veterans who have been here eight weeks seeking relief for themselves and their families.

Members of Roy Robertson's insurgent California regiment, famous for their "death march" around the Capitol plaza were joined shortly before adjournment by the crippled veteran leader W. W. Waters and placed a petition in the hands of Speaker of the House John Nance Garner on behalf of their fellow veterans, both white and colored, requesting that Congress not adjourn but recess. Garner promised to take up the matter but shortly after arrangements had been made, he left the Capitol building by an unobserved door and boarded a train for Uvalde, Texas, from a station in the remote section of the city.

Early "Dictionaries"

Before there was a dictionary, people literally "did without." Over 2,600 years ago the Assyrians had one of their languages pressed in cuneiform characters on clay tablets. One authority says: "The Arabians, the Greeks, and the Romans, too, compiled dictionaries; they did not make any attempt at giving all the words of a language, but contented themselves with listing rare or difficult words." Lexicons were a development of the Middle Ages. The first English dictionary which aimed at completeness was that of Nathan Bailey, published in 1721 and called the "Universal Etymological English Dictionary."

quite admirably adapted to piercing the skin. The "dagger" is made up of a bundle of six very fine sharp needles which penetrate the mosquito pumps blood into her stomach. Before the blood is drawn, however, she injects a poisonous fluid which thins the blood so that she can draw it up readily. It is this poison that causes the familiar mosquito bite.

The best cure for mosquito bites is their prevention. This is done most effectively in or about the home by destroying the mosquito before she gets a chance to land on her victim. Spraying with a good spray made expressly to kill mosquitoes and other insects is a sure way to exterminate these pests.

This spray material floating in the air as a fine mist while harmless to humans, and nonstaining to household furnishings, also keeps other mosquitoes from entering the room.

CHEMICAL SPRAY SPEEDS MAN'S WAR ON HOUSEHOLD FLY

All through the ages, since human misfortunes were first chronicled, mankind has struggled to protect itself from its chief peacetime and wartime enemy and annoy—the common house fly which is credited nowadays with causing 75,000 deaths annually.

Paulus Sententiaris, the Roman, accomplished the first really progressive step in outsmarting the fly in the Sixth century, A. D., according to O. F. Hedberg, director of the Rex Research Foundation, Chicago, which is staging a modern nation-wide warfare on household insect pests. This wily Roman ordered a fine net built around his bed to keep the flies away so he could sleep in peace.

His method proved so good that it was used until recent years, as was the later and more widespread idea of "swatting."

"More real progress in fly extermination has been made in the last five years than in the previous five centuries through the development of scientific chemical sprays which destroy flies in homes and elsewhere wholesale without injuring humans or animals," Doctor Hedberg said.

"This crowning achievement was accomplished at Mellon Institute in the form of liquids, which, sprayed into the air, form a mist cloud that may be breathed by a person with perfect safety but which quickly and efficiently eliminates all insect pests in a room. It leaves no stain on clothing or walls."

Doctor Hedberg declares that homes should be sprayed with a good insecticide twice daily, once, perhaps in the afternoon, to protect baby's nap, and once just before bedtime, thus destroying all germ carrying or otherwise destructive insects that may have entered through opened doors or meshes in the screens.

of the things we so badly need. Let all Christians join with us in prayer during this convocation. We are told by the Lord to try Him.

Each day of the meeting will be of interest. Prayer from 9 to 10 o'clock; Bible lesson 11:30; Preaching 3:30, and 8:30 each day. Saving business to the nation seeing that wise men in their judgments are turned as it were, backwards. As was predicted by Isaiah, Isa. 59:14. "And none seem able to know just how to lead the nation out of its distresses." We, therefore, can turn to our God in prayer and He will be as merciful to us as to Israel of old. See 2nd Chron. 7:14.

Therefore we are holding a ten days' meeting, that we may pray together as well as reason and speak together even Holy Convocations which, we shall proclaim in their seasons, Lev. 23:4.

Brethren, these are days when the churches can be of the greatest help "These are the days of the Lord. Prayer Band and each auxiliary of the women's work will hold a session with State Mother Benson presiding. They will also make their financial report.

SUNDAY, AUGUST 7th—Overillaries iron, 9:30 a.m. Overseer's Day. Preaching by our Senior Bishop, Chas. H. Mason, whom we expect to be with us during much of the meeting.

MONDAY, AUGUST 8th—Y. P. W. W. and Sunday School will hold a Special Session presided over by President, Elder H. P. Fisher.

TUESDAY, AUGUST 9th—A Session of the Board of Elders, making a research of the general work of the state and character of its ministry. This meeting presided over by Ex-Overseer H. D. Smith.

WEDNESDAY, AUG. 10th—A Concluding Session of the Meeting where each pastor, evangelist, missionary, state mother, chairmen and presidents of each department of the church with them in session, presided over by the State Overseer. Each individual named above is requested to remain until the close of the meeting. The executive board with the financial board will close all business of the convocation. We are expecting visitors and

bishops from other states, whom we make welcome. They will also preach for us during this session. Praying the blessings of God upon you, I remain your humble servant. H. P. FISHER, Pastor.

A few nights ago a spectacular fire left a warehouse a smoking ruin. Five alarms were sounded. Eleven reporters—two working and nine out to enjoy the fire—rushed to the scene.

The conflagration was the destructive fire of a minor blaze that had scorched the establishment a few hours earlier. The first fire was discovered by the owner of the building, who sent in the alarm, watched the fire-fighters apparently extinguish the flames, and then went home.

Before retiring he telephoned a contractor to call around the next morning to see about repairing a few windows, painting the doors, and otherwise touching up the place here and there.

At seven o'clock the next morning the contractor called upon the owner at his home and together they went downtown. Arrived where the building should have been, the contractor looked at the smoking pile of debris and then at the owner. "Just what was it you wanted me to do?" he asked, puzzled.

Because of the owner's fine Sunday-school record, we don't like to tell what he replied.—Pittsburgh Post Gazette.

How Volcanic Islands Act as Safety Valves

Niuafoa is one of the Tonga, or Friendly Islands, situated halfway between Samoa and Fiji in one of the most restless geological areas in the world. Stretching across the South Pacific from Samoa to North Island, New Zealand, there is a huge fissure in the earth's crust. Volcanic islands, such as Niuafoa, strewn along this gigantic crack, act as vents for the molten mass within the earth. The lack-in-the-box island of Falcon has popped up from the ocean's bottom at least twice, only to be washed and blown away each time by sea and wind. Only recently it has made its reappearance again in larger size, acting as one of these famous safety valves for the earth's mighty internal furnace.

To passengers of steamers passing close, the island looks like any other tropic isle, green with vegetation and coconut palms. Clean white houses and thatched native churches set in grassy lawns dot the hillsides. When wind and sea are quiet, landings are made in small open boats which are guided skillfully into a nook partly sheltered by fingers of lava flow. Such landings are dangerous and exciting, because the boats bob up and down with the incoming rollers and scrape against the steep, jagged cliffs.—National Geographic Society Bulletin.

Obeying Instructions Farmer Smith had a supply of winter cabbage to plant. Arriving at the farmyard, he called over one of his laborers. "George," he said, "I want you to plant these cabbages, but remember to plant them well apart."

"Ay, sir," replied George, and went about his task. The following day the farmer again went in search of George. "Well," he said, when he found him, "did you plant those cabbages as I told you?"

"Yes, sir," was George's reply. "I planted some in your garden and some in mine. Is that far enough apart?"—London Answers.

Jewish Emblem Just as the oak from which came the navy that made Britain mistress of the seas, became the national tree of England, so did the beautiful lotus palm, which gave oil, timber and food to its people, become the national tree of what we like to call the Holy Land.

Judah Maccabaeus had it engraved on his coins as a symbol of Jewish victories. Vespasian, the Roman emperor under whom the Jews were finally defeated, engraved it on his coinage as a token that he had vanquished Judaea. The lotus tree was well understood to represent the Jewish people in ancient days as, indeed, it does in a sense today.—Montreal Star.

lore—to mention a few attractions, are fond memories and hopeful dreams of all boys. Mention camp to any boy who has been there and he will in his boyish relate all his pet adventures.

But parents have long realized the great and real value of camping. The "Y" camp program is one of the best to be found and it is designed to improve boys mentally, spiritually physically and socially. Boys are taught at camp to do many things they never do at home. For instance; they have to clean the dishes they eat from; to hang their clothes up; to make beds; to sweep the floors of their cabins; to wash and mend their clothes. In fact the boys experience at camp what mothers have to go through 365 days a year. That is one reason mothers are always anxious for their sons to spend some time away from home.

Camp is the solution to the problems of all parents.

HOWARD DEAN CONDEMN'S SEGREGATION

New York, Aug. 5—(ANP)—Separate schools for white children and colored children were severely criticized in principle by Dean D. O. Holmes of the college of education at Howard university in an address before the Negro Education Conference at Teachers College, Columbia University, Thursday.

"Negroes justly object to segregation for three reasons," Dean Holmes explained. "First, segregation always implies inequality of status and that one group is dangerous to the other; second, segregation always means inferior accommodations for those seg-

regated, and third, segregation prevents the races from knowing each other through the usual means of communication.

NEGRO DEMOCRATIC FACTIONS MAKE BID FOR CONTROL OF CAMPAIGN SET-UP

Chicago, Ill. (CNS)—The question as to what group will handle the Negro end of the campaign for the Democratic Party remained undecided this week, as Jim Farley, new chairman of the Democratic National Committee busied himself with the general set-up of campaign leaders following the Roosevelt-Garner nomination a few days ago. That there will be a Negro division similar to the one headed by Julian Rainey of Boston, Massachusetts in 1928 seemed a certainty, however.

SPRAYING MOST EFFECTIVE WAY TO DESTROY FLIES

The Wrong Way to exterminate flies

The Right Way to exterminate flies

SCIENCE FROWNS ON SWATTING FLY

Urges Use of Insecticide to Kill Fly as Well as the Germs He Carries.

Leading health authorities declare that a single fly can carry 6,000,000 germs and because of this serious health menace they warn that the appearance of flies in the home is a danger signal to be quickly heeded by the careful housewife.

Dr. O. F. Hedenburg, director of the Rex Research Foundation, Chicago, which is engaged in a nation-wide warfare on flies and other "public enemy" insects, states that a study of the habits of flies shows that it is impossible for them to live without their bodies

being continually laden with germs. "Flies hatch, grow and crawl only in the most unsanitary places," said Dr. Hedenburg. "They come direct from these places to the home."

"The only effective modern method of exterminating flies is to use a good home spray. It is very unsanitary to swat the fly because swatting merely releases the millions of germs in and on the hairy body and the insect's sticky footpads. These germs remain alive and scatter to contaminate human habitation and food. Swatting also soils walls and fabrics."

"A sprayed insecticide will instantly kill flies and the germs they carry. This spray when shot to the ceiling and walls forms a mist cloud that clears the room not only of flies but other pests. It is stainless, entirely harmless when breathed by humans and animals, and has a pleasing odor."

"Extermination by spray leaves no stains or other disorder to clean up. The dead flies are easily disposed of by sweeping or with a vacuum cleaner."

The Telephone saved us \$8000

An actual incident from a community served by this Company, showing how one telephone call may be worth more than telephone service costs in a lifetime.

YOU may have read this story in the newspaper . . . and forgotten it. It was just a small item: "Fire caused by the explosion of a stove slightly damaged the residence of . . ."

The owner of the home tells more of the story: How his wife rushed to the telephone and called firemen; how they arrived quickly and put out the fire with chemicals. "If we had not had a telephone, the house would have burned down," he says. "It is worth \$8,000 and wasn't insured."

Emergency calls make up only a small part of telephone usage. In everyday affairs the telephone saves time and expense, brings friends and relatives together—all for a few cents a day.
