## The Observer Many Iowa Towns Represented At Boys' Camp

By Chas. P. Howard  
MY PEOPLE

Negroes in Iowa who announce themselves as being determined to vote for the Democratic Party this year should look about and see what is happening to their brothers of color in North Carolina, Tennessee and Texas and other southern states who have attempted to align themselves with the Democratic Party. In Texas to keep you from voting the Democratic ticket the state was carried to court and the Fourth Court of Civil Appeals of the State of Texas last week, cast out all the Negro votes in the Democratic primaries and held them to be illegal. Will you please take note that the Vice Presidential nominee of the Democratic Party is from Texas and is one of its most influential political powers. Of course Mr. Garner, your proposed Vice President is going to take a hand and see that his beloved state does not bar his fellow Democrats from voting just because they are black like you! Oh, brother, will you ever take off your blindfold?

### YOUR PEOPLE

It seems that nothing in the world does a Negro so much good as for a white man to tell him how much better he is than some other Negro. He just basks in it, and his smile get so broad that his ears almost bump in the back. The favorite way to kill off a Negro candidate for office is for a white man to get a fool Negro and tell this Negro that he is the one that ought to have this office that some other Negro is proposed for, and from that minute on, the Negro that is in, starts getting one drubbing. This spirit is a relic of slavery; plantation owners kept up strife among your ancestors by pitting one against the other. Of course in sixty years you would not be presumed to have learned anything.

(Editor's Note: These articles entitled "The Observer", written by Attorney Chas. P. Howard, read by thousands of our readers, will be resumed to appear each week as a regular feature in this paper.)

### UNION BAPTIST AND ST. PAUL A.M.E. TO PLAY FOR CHAMPIONSHIP OF LEAGUE

Bethel Eliminated by Loss to St. Paul

E. and Union Baptist are the two aggregations who will engage in a playoff series. The champions to be decided by the winner of two of the three games. The games will be played on Friday, August 12; Monday, August 15; and Wednesday, August 17. The contests will be played at the West First and University Avenue diamond.

St. Paul A. M. E. earned the right to meet Union Baptist by taking the

The Des Moines Y. M. C. A. Camp at Boone, Iowa, will be taxed to its capacity on Thursday, August 18th, when over 125 boys and leaders from the Crocker Street Department take over the facilities of the Camp for an eight day period ending on the twenty-sixth of August.

Approximately ninety boys have already signed up, exclusive of the fourteen leaders. This number will be augmented by the last minute rush of applicants during the next few days. Boys are again urged to pay at the "Y" office so as to mistakes often made at the station, and also to be certain of getting in the cabin they desire.

A number of out of town boys will be included again this year. Reservations have been made for campers from Fort Dodge, Ankeny, Perry, Valley Junction, and Omaha, Nebraska.

Veteran Leaders who will be present are: Alphonso Spriggs, Robert Webb, Dudley Black, Allan Ashby, George Crank, Lucian Wyant, Vergil Miller, Vincent Wilson, Fred Thomas, James Allen, William Brewer, and Leo Elmore. Melvin Overton and Chester Williamson are the new additions to the Leader staff this year.

Many old faces among the Camp Directors staff will again be seen, namely: Henry Hasbrouck, Camp Director; Howard Crawford, Camp Manager; Dave Abrams, Athletic Director; Al Montrose, Swimming Instructor; Glenn Lull, Art and Craft Director.

### MRS. ROBESON MAY NOT NAME WOMAN IN SUIT

New York, Aug. 12.—Indications that the far-famed divorce suit, rumored to be started by Mrs. Eslanda Goode Robeson, wife of the international singer, Paul Robeson, barrister, scholar, athlete and artist, now starring in "Show Boat", would not be filed was seen Thursday.

### "Green Pastures" to Tour Southland

New York City (CNS)—An enthusiastic crowd of Harlemites jammed traffic in the neighborhood of the New York Central's 125th Street station and welcomed home the cast of "Green Pastures". Marc Connelly's Biblical drama who arrived Tuesday from a triumphant tour of the middle and far west.

After a short stay in New York, the entire company will spend a week's vacation in Atlantic City, and then journey to Boston, where they will open Labor Day. The company will then play Baltimore, Washington and the South, where they believe the story will have a special appeal.

Interestingly enough, the company is substantially the same cast that played the opening performance of the show at the Mansfield Theatre, February, 1930. Richard Harrison, the eighty-year-old actor whose portrayal of "De Lawd" won for him the Spingarn medal, has not missed a single performance.

measure of Bethel A. M. E., Tuesday evening, by the count of 4-3. The game developed into a wild and woolly affair with the actual winner clouded by a shroud of doubt due to two of Arbitrator Crowe's decisions, which in each instance, was just and correct. Regardless of the justice of his decisions, the umpire's word is final and absolute.

In addition 15 names of colored office-seekers will be found on the primary lists for Wayne County, which includes the city of Detroit. Five of the men seeking seats in Congress are running for Republican nominations from the first, 13th and 15th Michigan congressional districts. The other two are seeking Democratic designations from the first and 13th districts.

### Camp Period Great Time For Des Moines Youths

The "Y" Camp calls and interest is mounting steadily among the boys. We feel it appropriate therefore, to stress some of the camp's chief objects. It is a camp with a program designed to develop the boys in four ways: mentally, spiritually, physically and socially. It is situated about five miles north of Boone amid towering hills and surrounded by acres of beautiful wooded land.

The camp is adequately equipped to supply everything close to the heart of a boy. 33 permanent buildings are provided, including 14 cabins, each accommodating 9 boys and a leader, a beautiful headquarters lodge, two Craft shops, Dining hall and modernly equipped kitchen, Nature study, Museum, 2 cabins in the woods for overnight hikes, Directors Cabins, Shower bath house, First-aid Cabins, Headquarters for Yea Bo (Camp paper) staff, a Handball court, Electric lights and a water pumping system in the Headquarters Lodge. ### Playground Jim Crow Fought

Asbury Park, N. J., Aug. 5.—Vigorous demand has been made by a committee headed by the Asbury Park Branch of the N. A. A. C. P. of which Paul Prayer is President, against the arbitrary exclusion of colored children from a playground which has been leased to an amusement company known as the Shore Amusement Company. Representatives of this company by the names of Seger and Goldberg, recently ordered that no colored children be admitted to the playground, declaring that "they would close up first" before this rule would be abrogated. Prompt action was taken by the local N. A. A. C. P. when this rule was made public. Mr. Prayer organized a committee representing the Branch and other community groups, and presented in person a petition to

#### Lady Cunard Returns; No Escort

New York, Aug. 12.—Where is Lt. Anselm Colebrook? That is the question in the minds of the entire city when Hon. Nancy Cunard disinherited heiress to the famous British steamship company, and the daughter of Lady Nancy Cunard, returned alone from Havana on the United Fruit liner Metapan Thursday.

A month ago the exotic and rebellious member of the bluest of Merry England's blood, in accordance with her policy of absolute blindness to narrow American race prejudice and also in unswerving pursuit of her quest for first-hand information and knowledge of race culture the world over, sailed for the West Indies in company with Anselm Colebrook of Boston.

Lieutenant Colebrook, a commissioned officer in the Massachusetts national guard and high in the Elks lodge, sailed on the Ward liner Oriaba, and return passage was booked. However, Colebrook and Miss Cunard did not return on the ship. Miss Cunard obtained a rebate on his passage from the Ward line offices.

### Citizens Seek Government Jobs

New York, August 12.—In an effort to secure to the colored citizens of Jackson, Mississippi, their pro rata share of employment under the contract of the federal government about to be let for the erection of a Post Office Building in that city, at a meeting held on July 22 resolutions were adopted and forwarded to President Hoover, Ogden L. Mills, Secretary of the Treasury and Postmaster-General Walter H. Brown. This was made pub-

New York, Aug. 12.—The younger generation of two continents, two races and two extremes of social opportunity pledged each other to mutual devotion in a common cause when Lucille Wright, 10-year-old Race girl had Gabriel Carritt, Oxford student, godspeed on the deck of the Minnetonka Monday.

Gabriel Carritt is a student of Oxford university, member of an aristocratic family in England, son of Prof. E. F. Carritt, professor of Philosophy of Oxford university. Lucille Wright is the 10-year-old sister of two of the condemned Scottsboro boys, Roy Wright, 15 and Andy Wright, 19.

To Organize Committee

Young Carritt left to organize the English committee for the defense of the Scottsboro boys, which will include such men as Bernard Shaw, H. G. Wells, Julien Huxley, Aldous Huxley, John Galsworthy, Gilbert Murray and other of Mr. Carritt's acquaintances in the intellectual and social life in England.

Pope and Malcolm R. Patterson. McAllister has an apparent advantage of some 10,000 votes over his nearest competitor, Pope.

Here today by the N. A. A. C. P.

The resolutions point out that practically all the jobs in Jackson once held by Negroes have been given to whites; that Negroes comprise more than half the population of the state; and that half of the soldiers sent from Mississippi to the World War were Negroes; that "therefore, we, the unemployed Negroes of Jackson and Mississippi, in mass meeting assembled, do hereby petition President Herbert Hoover, the Honorable Ogden L. Mills, Secretary of the Treasury, and Postmaster-General Walter H. Brown to have stipulated in the contract to build said Post Office Building and all contracts to do public work in which the government furnishes the money or a part thereof, that the colored man shall be given his pro rata share of the work on said jobs according to the Negro population of the state in which the work is to be done.

If people could be returned to work half as fast as stocks and bonds are going up, Old Man Depression would not be with us very much longer.

Politicians still want the vote of those representing unpopular causes but generally whisper the news into their ears.

### FEDERAL FUNDS

Recently, congress has created a home loan bank committee, who have authority to make loans to building and loan associations who in turn may finance the building of homes or refinance mortgages already made.

This set up enables thousands of people to borrow indirectly from the Reconstruction Finance Corporation, a feature which meets the objection that individuals cannot borrow from the government as banks, railroads and insurance companies can; it will enable many to secure mortgages at a reasonable rate of interest.

Here is a feature which is particularly advantageous to Negroes in that generally the small fellow, black and white, must pay larger rates of interest than large companies; then too, insurance companies have not been willing to handle such loans at all—in fact most insurance companies, even the Metropolitan Life, which has thousands of Negro policy holders, won't loan money on Negro homes.

This of course means that the possibility of securing loans of this federal money will depend upon whether the local agency which handles loans places their money with Negro clients. It is a matter which should be watched carefully. Certainly the Negro farmer has had his grief trying to get federal loans.

### UNEQUAL DISTRIBUTION

During the past few weeks the Des Moines Register has been publishing a lot of salaries paid employees by the State of Iowa. Of the whole list of departments that of our educational institutions showed most, the large salaries and in fact a greater share of the money. It is also remarkable that of all this money paid out for education not one Negro employee is listed.

The list further shows that of all the salaries paid by the State, for employees no Negro draws more than eighteen hundred dollars per year; that there is not a Negro woman on the payroll of the State; and that out of more than seven thousand employees on the payroll less than ten are Negroes, a ratio of one Negro employee to seven hundred whites. In round figures the last census gave Iowa a population of 2,400,000; Negro population 18,000. In round figures there is one Negro to every one hundred thirty three white persons in the state.

## HEALTH TALKS

By Dr. H. H. London

### HEART DISEASE

The most serious form of heart disease is the one which sometimes ends fatally within a very short time from its beginning—sometimes within a few hours, sometimes within a few days, and sometimes after months or years.

This is a disease of the arteries which supply the heart muscle and it is present in those whose arteries are affected, the age of forty or fifty and sometimes earlier in life these arteries become affected and any symptom or feeling which points to an affection of the arteries will require an examination to determine if it is indeed those which are becoming altered in any way. If these arteries become markedly altered in any way unless they are restored to normal within a very short time nothing but the worst can be expected, because they nourish the heart itself and if the heart does not have nourishment it cannot continue to beat.

The heart must be nourished the same as any other part of the body and its circulation must be ideal if it is to beat and send blood to other parts of the body. Now when these arteries which supply the heart itself are becoming affected in any way there will be a sense of fullness in the chest over the area under which the heart lies. This sense of fullness begins with a sense of uneasiness in this region and it may go on to what is termed apprehension or it may begin with this feeling. This is the way it usually begins but it may begin with pain in this region and if it begins with pain in this region it will require treatment immediately and this treatment must be immediate.

This form of heart disease is called Angina Pectoris and is only one of the many kinds and one of the several serious affections of the heart but it is without a doubt the most serious form because it has been developing for many years before any symptom has shown itself. This is because arterial disease develops slowly but those things which produce arterial disease are so well known by those who deal with these conditions that their recognition by them before these symptoms have occurred will in almost every instance prevent the occurrence of the most serious of heart diseases.

In matters of this kind, yet it feels that the present situation is not only inadequate, but discriminatory. It has contended that since prejudice kept Ne-

groes from obtaining fair opportunities in private institutions, the State in all fairness; which is presumed to have no prejudice should make up the difference.

This subject has been called to the attention of our friends on many occasions and although many of the campaigns have been fought around this issue, nothing has been done. We venture to say that the total salary of Negro employees of the State has not increased during the last decade—surely the number of employees has remained the same. This ought not to be in view of the facts that hundreds have been added during that period.

Newark, N. J.—Aug. 5.—As a result of the protest on the part of the N. A. A. C. P. commissioner of Newark, New Jersey, denies any intention of discrimination against Negroes in the plan to persuade newcomers who are unemployed to return to their home locality, the city arranging transportation. Mr. Malady states that it will apply to all alike and that the Association can be assured that only those who wish to return home will be affected by the plan.

The protest of the Association grew out of news reports of the Newark "Evening News" stating that Mr. Malady had settled on a plan to induce unemployed Negroes of Newark to return South, offering to pay their transportation. The National Association felt that such plan constituted discrimination against Negroes as the news story did not state that it applied to others, and, from experience, the Association was convinced that in its working coercion would be used.

The orchestra, formerly directed by Van Hoogstraten, was conducted by Albert Coates. Mr. Robeson was accompanied by Lawrence Brown. More than 5,000 attended the open air concert.

## TENNESSEE DEMOCRATS WHITE SUPREMACY ISSUE OF

Nashville, Tenn. (CNS)—White supremacy is the main issue of the Tennessee Democratic primary August 4. White voters of the community are being urged to recognize the registration of 33,100 Negroes as Democrats, as "the worst menace in the history of the country", and one that threatens to strangle the whites of the South like a filthy black rag.

Luray, Va. (CNS)—Leon Fry, charged with assault on a white girl, was acquitted yesterday afternoon at the conclusion of his second trial. The jury was out 45 minutes. The verdict brought no demonstration of any sort. Fry was grilled on the stand for more than an hour and a half, but his story checked in every way with the story told by Sheriff Sedwick, who with his family were the main witnesses used by the defense in establishing an alibi for the young prisoner. Sedwick has employed Fry since he was a child.

## FINE OUTING ON SMALL COST AT STATE FAIR

Des Moines, Ia., Special.  
 Iowa opens her gates here Aug. 24 to nearly 400,000 vacation-seekers of the midwest who will take their 1932 outing at America's largest agricultural and livestock show—the Iowa State Fair, Aug. 24 to Sept. 2.

The State Fair is advertising "the largest outing at the smallest cost in the entire midwest". A visitor may see the entire 300-acre exposition this year for 50 cents. Or an entire family may camp in the 100-acre recreation grounds and live almost as cheaply as at home, while taking in the five million dollar program of events covering eight days and nights.

Headlining the busy array of educational features are: National Livestock show with thousands of prize entries from coast to coast, Iowa corn and small grain show, boys and girls 4-H Club Congress with livestock, crops, demonstration and judging team entries by 2,000 farm youngsters, television show, Iowa women's exposition, midwest poultry show, national farm machinery and home equipment show, Iowa collegiate and educational exposition, Republican Day, Aug. 30 and Democratic Day Aug. 29 with noted party leaders speaking, Iowa wild life exhibit, Iowa art salon, thirty-five Farm Bureau project and plays, Iowa products, produce and Iowa garden clubs show.

The entertainment program will open with national championship auto races Friday, Aug. 25, motorcycle races Saturday, Aug. 27, horse races Aug. 29, 30, 31 and Sept. 1 and auto races on the closing Friday, Sept. 2. Other headline amusement events will include "World on Parade" a huge night show extravaganza, George Washington Bi-Centennial fireworks, a world wide circus revue of star attractions and thrilling twelve bands amusements, a head-on collision between two automobiles traveling 60 miles an hour, a railroad crossing smashup between train and automobile, a new supermidway of rides, side shows and curiosities, and numerous contests and tournaments including horse shoe pitching, fishing, and team pulling.

"This will be one of the best fairs Iowa has ever held", Secretary Gray said this week. "It's our promise of wonderful outings in the tents of their parents who will come here for a real out-fair vacation."

## Is My FACE RED?

SO WE ARE MAKING PROGRESS, EH?

Three hundred fifteen years ago we spent our A. M. teasing monkeys so they would throw coconuts at us which we consumed for breakfast. At noon we lolled and slept under the shade of the national shade tree the "Palm"—At night we would chase wild animals and make war on neighboring tribes and capture their women—Now we spent our mornings haunting bread lines and charity headquarters so as to catch an occasional breakfast which they throw out—At noon we lol in the shade of the Courthouse—Library—and Coliseum to sleep and talk communism—and at night we chase wild water and other men's wives—What will that local Negro quartet which was booked to appear at the unemployment show given at the President Theatre Saturday and Sunday have to say this winter when they apply to the Welfare Bureau for aid and go home and wait two months before they get it—on the program they were marked absent and unaccounted for on both nights—When that show gives its next performance this month I hope there will be more Negroes present—Of course eleven attended the first two performances, but when we consider that we receive at least forty percent of the total resources of that fund, I hardly consider eleven, a fair representation—There is sure a lot of irony in Negro Life—Yesterday four Negro men and two Whites approached me asking for money to buy a feed—While I was carrying one of my brothers down Walnut to get him some coffee and—Two of our women approached me and asked for a donation to help send her pastor on a vacation—I understand that said pastor receives one hundred and fifty bucks per month—Not counting side bets. Shadowproof again... however, a bit more optimistic. P. S. I saw prosperity's shadow this morning.

New York, Aug. 5—According to the report sent the N. A. A. C. P. by Attorney Leland S. Hawkins, President of the San Francisco Branch, as the result of an interview with the president of the Six Companies, Inc., which is in charge of the Boulder Dam construction, a definite promise has been obtained that Negroes will be given any jobs they are capable of filling at the Dam without discrimination and as fast as jobs are available. According to Mr. Hawkins, Mr. Bechtel states that accommodations are being provided for Negroes of the same sort as that for whites in dormitories. He further stated that food will be served from the same kitchen, and the same mess hall, and in the same dining room for all employees, but indicated that Negro men will have their own tables "so as to avoid friction". Mr. Hawkins, speaking as representative of the Association and the National Bar Association protested against this segregation in dormitories and in dining rooms.

The Mayor and the Board of Commissioners of Ashbury Park. Especial emphasis was placed upon the fact that a city-owned and free playground had been turned into a private venture as a means of profit to the city and the lessors had in turn instituted a policy of racial discrimination which made the city directly and indirectly responsible.

The Mayor speaking for the city sought to evade this issue, declaring that the city could do nothing other than to suggest to the tenants that they withdraw the ruling barring Negro children. He promised to write a strong letter of protest to the Shore Amusement Company in an effort to end this discrimination, and promised to give copy of his letter to the protestants.

O. sign was hung out early in the lobby of Poro at St. Louis last Tuesday evening when the most scintillating stars of the stage, the cinema, and the radio, the famous Mills Brothers and the internationally known Ethel Waters and other Rhapsodians combined in a benefit entertainment for the St. Louis Colored Orphans' Home in the Poro Auditorium.

THE CAT CAN'T LOOK AT THE QUEEN

Fayetteville, N. C. (CNS)—A Indian stared at a white woman. He was arrested and convicted of assault, proving that there isn't very much to that old cat and queen story, here, at any rate. James Wynn, an Indian, was found guilty of an assault by terrifying and abusing Mrs. E. M. Wagner when he was tried in Recorder's Court on a warrant charging assault and abuse as a result of his "terrifying stare" at the white woman. Judge H. C. Blackwell reserved his sentence.

PREJUDICE EVICTS FILIPINOS FROM FERTILE FARMS

West Palm Beach (CNS)—Because white farmers objected to their presence, all Filipinos residing in the upper Everglades, Florida's fertile truck farming area, were forced to leave their homes and crops on forty-eight hours notice, upon threat of serious racial trouble. The evacuation was completed by Monday night.

COOKED FOOD BEST FOR DOGS, TESTS PROVE

Raw meat, sometimes advocated for dogs simply because it was their "natural" food in the wild state, has no greater food value and is much harder to digest than meat which is lightly cooked, according to Dr. W. M. Clifford, famous British nutritionist.

In an exhaustive series of tests, Dr. Clifford proved that cooking to the level of a "rare" roast destroys the anti-enzymic compounds in the meat, while no food value is lost because the hardening effect of heat on proteins has hardly come into play. The experiments have aroused wide attention, the Journal of the American Medical Association declaring that "now the raw meat propaganda is meeting with experimental rebuff."

"This, coming from an authentic source, ought to impress veterinarians who think raw meat is the perfect food for the dog," comments the North American Veterinarian. "There is too much difference of opinion regarding the feeding of dogs, and some of the opinions entertained are not founded on fact."

"All dog-lovers will welcome this new light science has shed on a mistaken belief," declared L. J. Brosmer, director of the Chappel Kennel Foundation, Rockford, Illinois. "It seems to prove beyond question that raw meat is not the best steady diet either for dogs or humans."

Changes in food during digestion are caused by mysterious organic compounds called enzymes, which break down the compounds in food, the Chappel Foundation explains. The turning of starches into sugar is a typical example of enzymic action. Raw meat, Dr. Clifford found, contains "anti-enzymes" which directly oppose the digestive process. Heat destroys these properties, so even over-cooked meat is more rapidly digested than raw meat.

"The sanitary value of cooking meat has long been recognized. All agree that it is one of the greatest safeguards against entry of germs and parasites through the mouth. Tapeworm in dogs is almost always contracted from raw meat."

"It has been said that because the dog originally was a wild animal, raw meat is his natural diet," says the Chappel Kennel Foundation. "But the dog was domesticated centuries ago, at a time when man himself probably lived chiefly on raw flesh torn from the bones of freshly killed animals."

"Science is constantly finding new ways in which the dog's constitution resembles our own. For them, as for us, the ordinary foods are one-sided in composition. One has too much of certain essential food elements; and not enough of others. So to get a 'square' meal we have to eat several different articles."

"Most people who take an interest in their dog's welfare now buy correctly-balanced kibble foods, mixed and canned under government supervision. This is, of course, the safest way, and it is the only way the average person is able to get horse-meat, which is the most perfect meat for dogs."

"One meal of a prepared ration in the evening, plus an occasional fresh piece of meat, given during the day and plenty of fresh water, will meet all the dog's dietary requirements for health, strength and a well-kept coat."

nished to 4,344 veterans, of which 1,079 were colored. Provision for the return of 939 by means of automobile transportation included 217 colored men.

New York City (CNS)—Aubrey Lee Lyles, diminutive comedian of the internationally famous vaudeville team "Miller and Lyles," died Thursday night in Dr. Wiley M. Wilson's Sanatorium. Lyles had been ill for two months of a bronchial infection and gastric ulcers.

Lyles was 49 years old and was born in Jackson, Tennessee. He attended Fisk University at Nashville where he became interested in amateur theatricals and teamed with Flournoy Miller, a fellow student. From campus theatricals this partnership continued through years on small time vaudeville circuits to stardom in "Shuffle Along" in 1921.

Following the success of their production "Shuffle Along" Miller and Lyles produced and starred in "Running Wild," "Rang-Tang," and the less successful "Sugar Hill" of last season. They were featured in "George White's Scandals," the late Florenz Ziegfeld's "Midnight Frolic" and a "Charlot's Revue," the latter appearance taking them to Europe.

New York City (CNS)—Claiming that the steamship company refused to permit them to embark on the Mauretania for the three weeks cruise for which they had obtained passage and accommodations, Dr. George Hutson Batson and his wife, Mrs. Costella Batson have filed suit for \$21,000 against the Cunard Steamship Company and the National Pleasure Tours, Inc., through which they arranged and paid for their tour.

Dr. Batson claims that he paid the full amount of the passage and accommodations for three weeks, several weeks before the date of sailing. He received in exchange a certificate guaranteeing them passage and accommodations on the boat. All arrangements had been made and their baggage, duly labelled, was on the boat which was scheduled to sail from Pier 4, Hoboken, New Jersey at midnight July 8. The names of the couple had been published among the guests. When the couple presented their tickets, Dr. Batson claimed that they were told that there was something wrong "somewhere" and they were refused permission to embark, and a part of their luggage was removed from the ship to the pier.

Dr. Batson and Mrs. Batson each are suing both companies. They each ask \$10,000 damages for the humiliation they suffered, and \$500 under the New York Civil Rights act for discriminatory practices.

Washington (CNS)—The Shriners following the example of several other fraternal orders have called off their annual session originally scheduled for Philadelphia August 15. Due to the number of requests to call off received by Imperial Potentate Harry Knight, Knight called a session of his Divan at which time it was decided to submit a referendum to the various Temples. A later session of the Divan was held when the answers were in and it was disclosed that all but two of the Temples voted to call off. Knight then issued a proclamation to call off the annual session until August, 1933.

New York City (CNS)—Dr. R. R. Wright, Jr., of Philadelphia, for twenty years editor of the Christian Recorder, on a recent visit to this city indicated that he would accept the presidency of Wilberforce University, offered him by the board of trustees of the university following the resignation of Dr. Charles H. Wesley of Washington who accepted the position in June.

being continually laden with germs. "Flies hatch, grow and crawl into the most unsanitary places," said Dr. Heidenburg. "They come direct from these places to the home."

"The only effective modern method of exterminating flies is to use a good home spray. It is very unsanitary to swat the fly because swatting merely releases the millions of germs in and on the hairy body and the insect's sticky footpads. These germs remain alive and scatter to contaminate human habitation and food. Swatting also soils walls and fabrics."

"A sprayed insecticide will instantly kill flies and the germs they carry. This spray when 'shot' to the ceiling and walls forms a mist cloud that clears the room not only of flies but other pests. It is stainless, entirely harmless when breathed by humans and animals, and has a pleasing odor."

"Extermination by spray leaves no stains or other disorder to clean up. The dead flies are easily disposed of by sweeping or with a vacuum cleaner."
