HATRED

Sec Taylor, sports writer of the Register-Tribune, had this to say about Negroes competing in the Olympics:

The Negroes competing for the U. S., were showered with as many honors as the whites. There was no race prejudice among athletes or spectators.

This is truly as it should be. To save my soul, I am unable to understand the "why" of prejudice. I often wonder what would be my reaction if I were a white man. However, I think you may answer that question by sizing up the prejudices the Negroes are supposed to have toward propositions that have no racial slant. For the life of me, I can't understand why people despise their own blood and kind because of some religious difference. When I hear a man vigorously denouncing the Catholic, either from sheer stupidity or something else, I just can't figure out what he is talking about or why. Why I should dislike somebody because they worship their God in some way different from my method, is just something I have not been able to adjust myself to. The other day a man told me that if I wanted to understand the "why" of some of these prejudices, I should read certain books. I can't visualize any kind of book that I could read that would make me hate all of a class of people. I don't even hate the man who held my ancestors in slavery. I differ with them violently. Personally I think I should have preferred to have died and gone to hell than to have taken the treatment that the practices of slavery are supposed to have dished out. But that I should hate the descendants of the people who practiced slavery just because they are the descendants of those people is a state of mind, no amount of reading can work me into.

I fought the Germans. I have seen my kind mutilated by them, but to save my soul I can't work myself into hating all the Germans I ever saw. That I can hate individuals, goes without saying, but to hate them because of their religion, because of their color, because of something their ancestors did to my ancestors, or because of some book I read, is just quite more than I can work myself into.

I have no patience with the Negro who tries to array Negroes against white people. I certainly have no patience with white men who proclaim a group hatred for Negroes, or Indians, or Eskimos or Japanese, or any other group.

For several years I have very studiously observed individuals whom I had heard proclaim certain prejudices. I have come to see some of those individuals admit their own stupidity. I have known others belonging to that group, whose closest friends acknowledge them to be "off" and not of full growth mentally and otherwise. I never propose to

In conjunction with the Second Annual Buxton Reunion and Celebration to be held at the old camp site in Monroe County on September 4, The Iowa Bystander is planning to issue a Special Buxton edition.

The paper will include a historical sketch of the camp, greetings and photographs of old timers, and much interesting data for those who once lived there and their relatives and friends who may attend.

The Bystander will be pleased to have the names of any desiring greetings in the paper, cuts of anything pertaining to the camp or the people and material of interest that might go in the paper. All matter must be in the office by August 29th.

3rd Green Pastures Man Dies

Howard Smith, Manager of Prize Play, Passes Away

Denver, Colo., Aug. 18.—The death of Howard Smith, manager of "The Green Pastures", who passed away here in a hospital, has caused superstitious members of the famous prize play to worry a bit more than is usual. Smith was ill in a hospital here for a short time. He was found dead late in the evening, having passed away while he slept.

Third Member

Passing of Smith marks the third to die since the show started in New York less than two years ago. The first was Wesley Hill, original "Gabriel" of the show, who was killed in an auto accident while traveling the streets of New York. Then when the show went on the road, Sam Davis, who had succeeded Hill to the part, passed away in a hospital in Cincinnati.

put a line in this column that isn't purported to improve the status of my group. I hope those of other groups into whose hands this may come will just lean back for a moment and say to themselves, "Now self, explain to me what good reason have I for disliking any man that has never done me one iota of injury?" Without question the Negro is constantly rising in favor, and the conduct and success of the Negro participants in the Olympics will go a long way toward raising the general level. In the degree that you prove yourself superior in business, finance, athletics, character, all of them, in that degree will other groups be unable to do better than say to themselves, "I am justified in holding down Negroes."

State Fair Exhibit of Negro Progress Ready

The committee from the Des Moines Branch of the N. A. A. C. P., under the direction of Mrs. S. Joe Brown, who will have charge of the booth in the Educational building at the State Fair, next week, are bending every effort to make this year's exhibit surpass that of last year which was awarded second prize as being most outstanding in the religious and social section.

All those who attend the fair should be sure to pay them a visit. They will

Court Order Aids Dock Workers

New Orleans, La., Aug. 19.—The ordinance introduced recently by Mayor T. Semmes Walmsley and unanimously adopted by the commission council, which made it unlawful for persons to work on public docks who have not paid two years poll taxes previous to applying for work, has failed of enforcement. Two hours after the adoption of the ordinance a temporary federal injunction was obtained against it by George H. Terberry, attorney, representing the New York and Porto Rico Steamship company.

ARREST NEGRO MAN, WHITE WOMAN, FOR WALKING ON STREET

Kansas City, Mo. (C.N.A.)—For the "crime" of walking down the street together, police here arrested Henry Winston, a Negro member of the Young Communist League, and Marie Harrison, white, organizer of the local branch of the International Labor Defense. They are being held on a charge of "vagrancy."

Over a year ago, an interracial dance here was broken up by police and over 40 workers were thrown into jail. The judge searched the statute books, but failed to find any law under which interracial dances would be held illegal. He released the workers, first telling them it was "against the law of God" for the races to mix socially.

Continue Fight on Pro Parker U. S. Senators-NAACP

New York.—The position of the N. A. A. C. P. as to what should be the attitude of Negro voters towards senators seeking re-election who voted for confirmation of Judge John J. Parker of North Carolina as an associate justice of the United States Supreme Court "is precisely what it has always been," the N. A. A. C. P. stated here today in response to a flood of inquiries from its branches and from individuals in various parts of the country. "The issue involved in the Parker fight was fundamental," the N. A. A. C. P. statement read, and "it is fundamentally important that Negroes prove they meant business when they said that they would regard those senators who voted for Parker as betrayers of the Negro's interests."

Negroes Terrorized in Washington

Washington, D. C. (C.N.A.)—A systematic terrorization of Negroes here by the police and by gangs of hoodlums, has resulted in the arrest of 21, and the indictment of 11. Three of those indicted are charged with murder, the others with being accessories before the fact. The police are attempting to implicate these Negroes in the death last week of Policeman M. J. Kennedy (white). The International Labor Defense has offered its services to the arrested workers, and has been accepted by all who could be reached so far. Bernard Ades, who was one of the attorneys defending Euel Lee in Baltimore, is at present in Washington preparing to fight "the murder-frame-ups."

Kennedy charged into a group of Negro men and women at Logan Circle. Using club and revolver, he threatened them and ordered them off the streets. He singled out one Negro for arrest, and was driving him to the corner to wait for a patrol wagon, when the workers rallied and fought for the release of the prisoner. The policeman was beaten and died later from a fractured skull. At once the white papers launched into a tirade against the Negro population of Washington.

Since the eviction of the veterans from this city, police and press have been attempting to provoke attacks on the Negroes. The police have beaten Negroes, broken up any group of two or three or more seen on the streets, and arrested scores under the "vagrancy" law.

Wright Enters Upon Duties at Wilberforce

Wilberforce (C.N.S.)—Dr. R. R. Wright, Jr., president of Wilberforce University, arrived at the university last week and took charge of affairs. He was cordially received by Bishop R. C. Ransom, president of the Board of Trustees, Superintendent J. A. Gregg, Secretary Valentine, Deon G. McGinnis, and a large group of the faculty members. Mr. A. L. Foster of the Chicago Urban League, President of the Wilberforce Alumni Association, made a special trip to Wilberforce to welcome the new president and assure him of the full co-operation of the alumni.

D.M. Youths Attend Y Camps

Over 130 boys entrained Thursday afternoon to attend the Crocker "Y" period of the Y. M. C. A. Camp near Boone. This is the largest number of colored boys in the 14 years' history of the camp and probably the largest in America. They will be there about eight days.

Henry Hasbrouck is general director, assisted by a corps of expert leaders and campers. The athletic and aquatic meet results, which promises to be a young "Olympic classic," will be in next week's issue of the paper.

Thirty-five girls of the Blue Triangle Y. W. C. A. branch left Tuesday morning to spend nine days at the Y. W. C. A. Camp, located in the Des Moines river valley, near Fraser. Miss Ruth Marie Brown, executive secretary, will have charge of this period. She will be assisted by several leaders.

Cooking, trailing, nature study, swimming, rowing, tennis, archery, dancing, hikes, worship, discussion, dramatic and campfires comprises the major camp activities.

Mrs. Holt has been much sought after night club hostess and entertainer on both the American and European continents and now adds a third to her extensive travels.

DANCERS SCORE AT LEWISOHN STADIUM

New York (A.N.P.)—At the Lewisohn Stadium, City college, Tuesday night the season's largest crowd, estimated at 14,000, saw an excellent performance by the Albertina Rasch dancers and a chorus of Negro singers and dancers. "Cakewalk" and "Negro Chant" were the most interesting and the finest staged numbers of the production. The former had to be repeated after its presentation.

Negro Movie Actors Stranded in Russia

New York (C.N.S.)—Reports have reached here that the 22 Negro actors and actresses who sailed June 11 on the Bremen en route to Moscow, Russia, to make a "true motion picture of Negro life" have been stranded in the Russian metropolis because of the abrupt decision of officials to cancel plans for making the picture. Varied rumors are to the effect that the motion picture officials did not wish to antagonize the United States by such a picture with conditions in the diplomatic circles already far from satisfactory.

The picture which was to have been on a gigantic scale and to have shown a complete cross-section of Negro life in America, was to have been produced by Mezharabpom, leading motion picture company in the Soviet republic.

Editor Answers Mrs. Abbot's Suit

Chicago—Robert S. Abbott, pioneer publisher of the R. S. Abbott Publishing Co., publisher of The Chicago Defender and Abbott's Monthly, a magazine, filed an answer to the suit of his wife, Mrs. Helen T. Abbott, for separate maintenance, Wednesday, in which he denied most of the charges made against him by his wife and insisted that he wished to come back home, and had tried on several occasions, but that his wife would not permit him inside the door.

In her suit for separate maintenance filed the latter part of May in this year, Mrs. Abbott charged that Mr. Abbott left their home without her knowledge on May 10 and failed to communicate with her between that time and the date of the filing of the suit. She also stated in her bill that he was a man of violent temper, that he had threatened her, used strong language to her, struck her and shoved her.

Mr. Abbott's answer sets forth that he is not the owner of the Robert S. Abbott Publishing company and refers to the fact that it is owned by a corporation. The company has been incorporated for a number of years, but it is understood that three or four other persons own one or two shares and that Mr. Abbott owns the balance of a reputed 2,500 shares.

The answer to Mrs. Abbott's suit is not signed by Mr. Abbott, but by his attorney.

TUSKEGEE INSTITUTE, ALA.—Down in Farmhaven, Mississippi, a dream has come true. Miss Ozie Bell Garrett, sixteen years old, was announced the winner of a contest for 4H Club members of the southern states by the United States Department of Agriculture at Washington, D. C.

Four years ago she joined the 4-H Club of Farmhaven community, Madison county, Mississippi. In this organization she worked tirelessly to improve not only the conditions in and around her own home, but community conditions as well. In 1930 she won first place in a dishwashing contest and for this received a trip to Tuskegee Institute. In 1932 she won a trip to the Tri-State Fair in Memphis, Tennessee.

This summer when the United States Department of Agriculture Extension Service announced a contest for Members of the 4-H Club to determine who would speak on their radio program at Washington, D. C., Miss Garrett submitted a paper. And, from the hundreds of papers submitted, she was announced the winner.

Metcalf-Tolan Race Off Says Champion

Chicago.—Eddie Tolan, of Detroit, who won the 100 and 200 meter Olympic races, Wednesday night agreed to compete in the post-Olympic meet at Soldier Field but he refused to run against Ralph Metcalf, his Marquette rival.

Tolan is said to have given as his reason for not wanting to compete the fact that Chicago Negro papers had been unfair in their comment on his races with Metcalf.

Instead he would team up with Metcalf, Jim Johnson, Illinois State Normal, and John Brooks, U. of Chicago, in an all-Negro 400meter relay team which would run against the teams of Germany, Greece and Italy.

PRESIDENT HOOVER'S SPEECH

President Hoover proved in his acceptance speech that he is a vote getter for any one who heard it must have been well impressed. Generally there has been a disposition on the part of politicians to make long speeches and leave the public in doubt on every question discussed except the speaker's greatness. The public has grown tired of this. It was refreshing to hear the President say at the outset that he would speak plain so as to leave no doubt as to his position on matters touched upon.

The President reviewed the misfortunes which had befallen the world, particularly the United States during his administration; outlined the program which had been instituted upon his suggestion to bring about recovery; told the public he stood on that platform and none other.

While the new financial agencies created by Congress to help business conditions have not been in existence long, already their helpful influence is being felt. The public will not want to disturb that recovery already started.

Mr. Hoover will be admired by fair-minded people on his stand with regard to the 18th Amendment. While in 1928 he named prohibition a "noble experiment" and has since made an honest effort to enforce the law, his practical experience has enabled him to look into the whole situation and conclude that the present arrangement must be changed.

Since the acceptance speech the Bystander is more than ever convinced that the President is on the right track.

VICIOUS CIRCLE

Richmond, Virginia, in an effort to find self liquidating project upon which to borrow money from the Reconstruction Finance Corporation, decided to make application for \$2,000,000 in order to rebuild a Negro section. Like most southern towns, Richmond contains a slum section for Negroes, the condition of which is so bad as to warrant its destruction.

But as a business organization, usually does, a survey was made to determine whether the project was self liquidating. That survey showed that Negroes living in the section made such poor salaries that they could not pay sufficient rent to support the project.

Again is demonstrated the vicious circle, that generally a man's economic condition must be improved first before the comforts of life can be enjoyed. In other words, it is pretty hard to get the cart to pull the horse unless it's on a down hill grade.

HEALTH TALKS

By Dr. H. H. London

ANEMIA

Anemia is a condition of the blood in which there occurs a reduction in one of its elements or a reduction in its volume or in all of its parts. It is not necessary to describe all of these parts because of their multiplicity but it is necessary to speak of the red cells which constitute the most important element in the blood when considering anemia. The right amount of good blood is one of the necessities for a healthy body and this condition should be thought of when anything arises that would make anyone think that a perfect healthy condition did not exist. I do not know of any disease that would cause such a feeling sooner than this one in the absence of any other known condition, but of course, there are other diseases which do act in about the same way, some in the beginning and others during the course of other disease conditions.

It is important that these cells be kept normal and healthy and it is just as important that their number be held at a certain point. In some disease processes these cells are destroyed and with certain diseases some destruction of these cells is expected. Whenever the destructive agent is not known to be present in the body the reduction in these cells may go on to a serious anemia before any markedly observable symptom becomes known to the one affected. For this reason some attention must be paid to these bodies of ours. It is so important that this be done that any symptom causing a doubt should be looked into by someone knowing everything concerning it.

After a short stay in New York the entire company will spend a week's vacation in Atlantic City, and then journey to Boston where they will open Labor Day. The company will then play Baltimore, Washington and the South, where they believe the story will have a special appeal.

Interestingly enough, the company is substantially the same cast that played the opening performance of the show at the Mansfield Theatre, February, 1930. Richard Harrison, the eighty-year-old actor whose portrayal of "De Lawd" won for him the Spingarn medal, has not missed a single performance.

MRS. ROBESON MAY NOT NAME WOMAN IN SUIT

New York, Aug. 12—Indications that the far-famed divorce suit, rumored to be started by Mrs. Eslanda Goode Robeson, wife of the international singer, Paul Robeson, barrister, scholar, athlete and artist, now starring in "Shew Boat", would not be filed was seen Thursday.

Washington, D. C., August 12.—At least five colored people were invited to attend a buffet luncheon as guests of President and Mrs. Hoover at the White House Thursday afternoon preceding the ceremonies incident to the notification of President Hoover, of his resignation.

Invitations went out from the White House to members of the notification committee, Republican national committee, cabinet officers and their wives and Republican senators and representatives.

De Priest Present

Included among them were Charles H. Isaacs, members of the notification committee from Natchez, Mississippi; Dr. William H. Harris, member of the notification committee from Georgia, Athens, Ga.; Perry W. Howard and Mrs. Mary C. Booz, Republican national committeeman and committeewoman, respectively for Mississippi and Representative Oscar DePriest of Illinois. About 500 persons attended the luncheon.

Detroit, Mich. (CNS)—The names of seven colored men will go on the State primary ballots here in September as candidates for Republican and Democratic nominations for Congress. In addition 15 names of colored office-

holders will be found on the primary lists for Wayne County, which includes the city of Detroit. Five of the men seeking seats in Congress are running for Republican nominations from the first, 13th and 15th Michigan congressional districts. The other two are seeking Democratic designations from the first and 13th districts.

New York, August 12.—In an effort to secure to the colored citizens of Jackson, Mississippi, their pro rata share of employment under the contract of the federal government about to be let for the erection of a Post Office Building in that city, at a meeting held on July 22 resolutions were adopted and forwarded to President Hoover, Ogden L. Mills, Secretary of the Treasury and Postmaster-General Walter H. Brown. This was made public here today by the N. A. A. C. P.

The resolutions point out that practically all the jobs in Jackson once

The 12 worst odors in the world

Scientists recently selected the twelve worst odors in the world to test the deodorizing power of Listerine and other antiseptics. In every case Listerine showed marked superiority. In several instances Listerine promptly ended odors that other antiseptics couldn't hide in 4 days. To keep your breath sweet and clean and beyond power to offend others, use Listerine every morning and night. Lambert Pharmacal Co., St. Louis, Mo.

COOKED FOOD BEST FOR DOGS, TESTS PROVE

Raw meat, sometimes advocated for dogs simply because it was their "natural" food in the wild state, has no greater food value and is much harder to digest than meat which is lightly cooked, according to Dr. W. M. Clifford, famous British nutritionist. In an exhaustive series of tests, Dr. Clifford proved that cooking to the level of a "rare" roast destroys the anti-enzymic compounds in the meat, while no food value is lost because the hardening effect of heat on proteins has hardly come into play. The experiments have aroused wide attention, the Journal of the American Medical Association declaring that "now the raw meat propaganda is meeting with experimental rebuff."

"This, coming from an authentic source, ought to impress veterinarians who think raw meat is the perfect food for the dog," comments the North American Veterinarian. "There is too much difference of opinion regarding the feeding of dogs, and some of the opinions entertained are not founded on fact."

"All dog-lovers will welcome this new light science has shed on a much taken belief," declared L. J. Brosemer, director of the Chappel Kennel Foundation, Rockford, Illinois. "It seems to prove beyond question that raw meat is not the best steady diet either for dogs or humans."

Changes in food during digestion are caused by mysterious organic compounds called enzymes, which break down the compounds in food, the Chappel Foundation explains. The turning of starches into sugar is a typical example of enzymic action.

Raw meat, Dr. Clifford found, contains "anti-enzymes" which directly oppose the digestive process. Heat destroys these properties, so even over-cooked meat is more rapidly digested than raw meat.

The sanitary value of cooking meat has long been recognized. All agree that it is one of the greatest safeguards against entry of germs and parasites through the mouth. Tape-worm in dogs is almost always contracted from raw meat.

"It has been said that because the dog originally was a wild animal, raw meat is his natural diet," says the Chappel Kennel Foundation. "But the dog was domesticated centuries ago, at a time when man himself probably lived chiefly on raw flesh torn from the bones of freshly killed animals."

"Science is constantly finding new ways in which the dog's constitution resembles our own. For them, as for us, the ordinary foods are one-sided in composition. One has too much of certain essential food elements, and not enough of others. So to get a 'square' meal we have to eat several different articles."

"Most people who take an interest in their dog's welfare now buy correctly balanced kennel foods, mixed and canned under government supervision. This is, of course, the safest way, and it is the only way the average person is able to get the best, which is the most perfect meat for dogs."

"One meal of a prepared ration in the evening, plus an occasional fresh-meat biscuit or two during the day, and plenty of fresh water, will meet all the dog's dietary requirements for health, strength and a well-stomached coat."
