## The Observer

By Chas. P. Howard

Try to hide it all you want, one of the great questions in the voting public's mind is whether or not Roosevelt, physically, can stand the rigors of the office of President of the United States.

Democratic publicity agents can do all the ballyhooing they want to about how well Roosevelt withstood his Western tour; we are still unconvinced that he can stand up through four years as President. Roosevelt's physical inability brings Negroes face to face with the proposition of accepting John N. Garner of Texas, as President of the United States—MAY GOD FORBID!

I wonder if the Negroes who are talking about voting for Roosevelt for President have ever thought of what it would mean to them to have Garner for President.

If you have never lived in the South, it is difficult for you to visualize what a tragedy it would be for Negroes to have Southerners in command of this Government. And that is just what will happen if the Democrats win. We may be dissatisfied with a good many things the Republicans have done or have not done. Dissatisfaction with the Republicans is one thing, but Democrats running the country would be just plain hell for Negroes.

Having the Democrats as a minority party is an evil that we will just have to bear as a necessary one, but there certainly is no excuse for lending your influence to put them in a position where they can carry out their policy of ill-will toward Negroes. It is all right to vote a vote of protest sometimes and under certain conditions, but when your vote may be your funeral, you ought to think long and hard before casting it.

As for me, I am convinced that as long as the Democrats support the program that they have followed for the last fifty years, I will remain a Republican.

## Man Dies from Fight Injuries

Jacob McGee, 47, of 1443 E. 18th street, died Thursday at Broadlawn's General hospital, from injuries suffered more than a week ago in a fight on E. 17th street, near his home.

**Question Two**  
Assistant County Attorney Ray Harrison, deputy sheriffs and detectives questioned Clarence L. Gatewood, who said he lived at 518 8th street, and Hale Snyder, of 1446 E. 18th street, at the sheriff's office. They were held at the county jail after they failed to provide \$1,500 bonds each.

Fletcher Clayton, of 1438 E. 18th street was at liberty on \$1,500 bonds. Lived Here 28 Years  
The men were arraigned before Municipal Judge Jordan Wednesday and denied guilt. Hearing was set for October 27.

McGee had been a resident of Des Moines 28 years. He is survived by his mother, Mrs. Julia McGee and a daughter, Barbara McGee.

## Negro Haters Indulge In Series of Debates

Jackson, Minn.—(By the Associated Negro Press)—Factional differences between Democrats in this state have aroused some of them to the fear that "white supremacy," as represented in the dominance of the Democratic party in the state is being threatened and a few Republican congressmen may be elected at the November 8th polls.

The state is being treated to an old-fashioned Lincoln-Douglas series of debates between the Negro-hating ex-governor of the state, Theodore G. Bilbo, and Congressman Will Whittington. Both men are candidates for Congress on the Democrat ticket, but they represent different factions. Whittington has charged repeatedly that the Bilbo faction is endangering "white supremacy" by being in the field.

In one of the recent debates which the two men have been having in different cities in the state in which Whittington declaimed over the danger to "white supremacy," Bilbo replied:

"Whittington is trying to ride to Congress on the back of a nigger. There is no more connection between 'niggers' and the issue now before the people," declared Bilbo, "than there is between the ridgepole of heaven and mudsills of hell."

"General George saw to that in the constitution of 1890. General George said, 'we'll get rid of the Negro in three ways: first, with a provision that to vote a man must reside in a precinct for one year—though Negro is nomadic, he moves about—second, to vote a man must pay his taxes for two years prior to February 1 of the year in which he wants to vote—the Negro is largely thriftless, he won't pay his taxes—and third, to vote a man must be able to read or understand the constitution when read to him.' Then, said General George, 'we'll write a constitution that few white men and no niggers at all can understand.'"

## White Predicts Political Revolt

Walter White Addresses Indiana State N. A. A. C. P.  
Anderson, Ind.—"The greatest political revolt among Negroes that has ever been known in a national election" was predicted for November by Walter White, Secretary of the N. A. A. C. P. who Sunday afternoon addressed the Association's Indiana State Conference here.

Making it clear that the "intelligent Negro voter has but little hope in the Democratic party," Mr. White assailed the Hoover Administration's indifference and hostility to Negroes in America as evidenced by the nomination of Parker to the U. S. Supreme Court; the jim-crowing of Negro Gold Star mothers on the pilgrimage to European battlefields; the entering to lily-white elements in the South; the peonage and slavery conditions prevailing under government contracts on the Mississippi Flood Control project and the apparent determination of the War Department to "whitewash" the charges made; and the "apparent unwillingness" of the government to prevent color discrimination on Federal relief projects.

Mr. White severely scored Senator James E. Watson of Indiana for his vote in the Senate in favor of confirming the Parker nomination.

"The Negro in Indiana, as elsewhere," he said, "is being treated as a second-class citizen."

## Flyers Accorded High Honors

COAST-TO-COAST FLYERS FETED IN NEW YORK

New York.—(By the Associated Negro Press)—All classes of citizens have joined in celebrating the successful forty-one hour coast-to-coast airplane flight of J. Herman Banning and Thomas C. Allen in a 14-year-old plane. They are the first Negro flyers to cross the country. North and south, they were hospitably received in the cities they touched. White and colored friends helped to make the trip financially possible. They plan to fly back to Los Angeles, stopping off to visit Oklahoma friends and relatives.

## Texans Win Ballot Rights

El Paso, Texas—Declaring that he was "fighting only for a principle," and that he was satisfied with his award of \$1 damages, Dr. A. L. Nixon, prominent local physician, won his damage suit against El Paso election officials who refused to permit him to vote in the 1928 Democratic primary.

The suit was directed against C. H. Kolbe and James Condon, the election officials, and the doctor asked for \$5,000 damages, alleging they would not permit him to cast his ballot. Dr. Nixon's present victory marks his second in a court of law which involved his suffrage and his right to vote in Democratic primaries. Both cases were carried to the United States supreme court, the present one being remanded to the federal district court here for decision.

## Governor Rapped for Indifference

Resolution Says He Tabled Request  
Cincinnati, Ohio.—Condemnation of Governor George White of Ohio "for his refusal to request the attorney general to send a representative to prosecute vigorously the accused in the Ironton lynching, after having been urged to do so," is contained in the resolutions passed by the Ohio state conference of the N. A. A. C. P. in Cincinnati.

"Governor White has revealed himself as indifferent to the Negro," says the resolution, "and we urge his retirement to private life."

## 'I Am for Pres. Hoover'-Howard

Chicago, Ill., Oct. 20.—Perry W. Howard, who speaks in Sioux City November 4th, said today: "I am unconditionally for the re-election of President Hoover and Vice-President Curtis. It is hard to conceive how anyone would attempt, except desigedly, to lead a great mass of the colored voters into the Democratic camp when there is no change in the policy of the Democratic party North or South—the party which neither desires, invites nor accepts Negroes' support except in the North and that is only because it is an absolute necessity. But it is quite a solace to find that those so-called leaders who are espousing the cause of Roosevelt and Garner are those who have been disappointed in their quest for office and those who sought prestige within the Republican Party to which their ability and character did not justify their appointment."

"I know of no more pitiable spectacle than a disappointed office seeker sore-head; this is all the more pitiable when their disappointment leads them to support Roosevelt and Garner."

## Local Politicians Well Organized

REPUBLICANS MEET AT HEADQUARTERS

The Negro Voters Division, Polk County Republican Central Committee met at the Insurance Exchange Building Thursday, October 13th, and perfected a full organization for intensive work during the remaining time of this campaign. The meeting was addressed by A. A. Alexander, State Chairman of the Colored Division, Atty. J. B. Morris, Secretary, and the pastors from all the colored churches who pledged support to the work. Rev. G. W. Robinson, Corinthian Baptist church, made special mention of the splendid organization among the Negro Republicans of Iowa.

## DePriest O.K.s the President

New York.—America's depression-torn economic structure is being solidified by President Hoover's same reconstruction program, Congressman Oscar DePriest (Republican, Illinois) declared in a speech here last Sunday night at Abyssinian Baptist church.

The Chicago legislator, introduced during the program for notification of Rev. A. Clayton Powell elector-at-large on the Republican ticket, pictured President Hoover as the savior of a nation threatened by utter collapse. He said that Hoover had acted courageously and in the best interests of the country in the face of overwhelming opposition from a hostile Democratic congress.

## 25 SENATORS PLEDGE SUPPORT TO WAGNER MISSISSIPPI RESOLUTION

New York.—No less than 25 United States Senators have written to the N. A. A. C. P. either definitely pledging their votes in favor of the Wagner resolution calling for a Senate probe of slavery conditions on the Mississippi levee work, or giving assurance of their aid and favorable consideration.

## Red Cross Discriminates In Fla.

New York.—A complaint from colored citizens of Clearwater, Florida, that Negroes are being discriminated against in the distribution of relief flour and government cloth, has been forwarded by the N. A. A. C. P. to Judge John Barton Payne, Chairman of the American Red Cross in Washington, D. C.

The letter to the N. A. A. C. P. from the Clearwater colored citizens charges: 1. That Negroes are being denied free flour and free government cloth while white families are being fully supplied. 2. Negroes are made to wait until whites have been supplied and then, if any is left, they receive the fragments, accompanied by abuse and insult. 3. Before receiving relief, Negroes are made to do a day's work for \$1 and are paid not in cash but in groceries. White people are paid and allowed to select their own supplies.

## Fiery Cross Burned at Garland Home

A fiery cross was burned Thursday night at the home of L. A. Garland, policeman, at 1333 Mondamin Avenue. No other trouble has been reported.

The resident of that section have lodged vigorous protests against the occupancy of Mr. Garland and his family in the neighborhood. Rumors have reached the ears of the Des Moines Interracial Commission, of the plan of the white people to forcibly prevent Mr. Garland from occupying his new home; he and his committee have made extensive investigations into the affair.

## Mayor Metcalfe Greets Ralph

Omaha, Nebr.—Ralph Metcalfe, Olympic star and member of the Marquette university track team, was highly honored when he arrived in town Saturday with the Marquette football team, who played at the Creighton stadium against the Creighton team Saturday night, the game ending 0 to 0. He was met at the train by a number of citizens of our group and by the mayor, Hon. Richard L. Metcalfe, who gave him the key to the city.

The mayor said: "I am glad to meet my cousin and know that you are O. K., due to the name of Metcalfe." The mayor then asked the runner where he was originally from, and Ralph replied, "Kentucky." Then the mayor grasped his hand the second time and replied: "I am from Kentucky, too."

## Parade Two Blocks Long

This took place immediately after the runner had alighted from his train. Then the big parade, two blocks-long, started from the station, with the mayor riding with Ralph Metcalfe to the city hall and escorted by two motorcycle officers. They marched through the downtown section and then north on 24th street to the Race section.

Dinners and automobile rides were given for the visitor and he was honored by a dinner at the home of Lewis A. Ariston, Jr., 2816 Hamilton street, Saturday night.

Calloway of Kansas City, in Davenport, October 24th, and Waterloo, October 25th. All are speakers sent by the National Committee.

## Republicans Seek Single Ballot

Columbia, S. C.—(By the Associated Negro Press)—South Carolina Republicans have appealed to the state supreme court to order a single ballot at the general election November 8th. They contend, through their attorney, D. W. Robinson, white, that the use of separate ballots for each party, as has been the custom here in the past, violates constitutional guarantees of secrecy in voting.

## INDICATION

In a release by the Republican National Committee, information was given that when the Democrats took charge of Congress in 1931, they selected John Garner speaker following which thirty Negro janitors, messengers and laborers in the committee rooms were discharged.

It has been the idea that southern Democrats usually took pleasure in giving Negroes all the menial jobs and kept the good ones for themselves. This, however, is unusual, for they have taken all.

The Bystander does not propose to enter into any controversy about this class of jobs, but it is certainly fair to assume that if Mr. Garner feels that all the janitors should be fired there is absolutely no chance for Negroes in higher up jobs.

**FEDERAL RECOGNITION**  
Des Moines has been assigned one of the Federal Home Loan Banks. Except in the Post Office department, Negroes hold no Federal jobs in Iowa of importance.

Here is a place where a substantial place could be given a man or woman which would fill the gap about which we have complained a long time.

## PRESIDENT SOUND

Every citizen who did not hear President Hoover's speech in Cleveland Saturday night should read it. Generally in campaigns too many voters base their convictions on unimportant issues which should have no weight in matters of such importance.

Mr. Hoover's discussion of the tariff was so clear that anybody can understand it. Speakers have discussed the tariff but their hearers have left bewildered. This he did not do.

The Bystander has consistently maintained that the fundamental principles of Hoover's program were correct; that capital and labor—and of course that must of necessity include the Negro—will see a more speedy recovery should Hoover be elected rather than Roosevelt.

Those people who argue "We need a change" are usually careful not to state what we are to change. They do this because they have no alternative program.

President Hoover made many friends when he made this speech. It is having a lot to do with the decided trend toward the Republican ticket.

## HEAR THESE SPEAKERS

The Republican State Central Committee through its Negro Voters' Division is bringing several outstanding Negro speakers to Iowa. Among these are Perry Howard, national committeeman from Mississippi; Miss Nannie Burroughs, internationally known club woman of Washington, D. C.; Dr. L. K. Williams of

## HEALTH TALKS

By Dr. R. H. London

### COUGHS

A cough which is not produced by the passage of some material into the breathing apparatus (which begins in the throat) during the taking of food is an indication of some abnormal condition in some part of the breathing apparatus. The cough which occurs from the passage of some foreign material into the trachea is called temporary strangling and occurs not infrequently in children. From the rapid taking of food this cough is an attempt to expel this material and to clear the breathing passage so that the entrance of air into the lungs will not be interfered with.

You know in almost every instance this cough is so effective that all the material thrown back up into the mouth with the result that normal breathing goes on as before. Sometimes, however, some of this material falls into the passage and lodges itself within the lung tissue. If this material is food and the fact is not known that such material has found its way into the lung, it will be the beginning of an abscess of the lung, which might from this cause produce a gangrenous condition of this area. However, with this material in the lung tissue there would occur a very persistent cough which would be the attempt of the breathing apparatus to expel this foreign material.

It is surprising, however, how little coughing there may be when some other articles enter this tube and occupy this same position. Safety pins, coins, parts of toys, all of which are metal, may or may not cause severe coughing and would not, as a rule, be a nucleus for abscesses or gangrenous condition of the lung tissue; but it is necessary in almost every instance to remove them.

Enlarged tonsils are responsible for a certain percentage of coughs, but the cause for the majority of all coughs arises from an irritation within the bronchial tube and trachea; this irritation is referred to as bronchitis. The majority of coughs in adults is due to this bronchial inflammation. Any bronchial condition needs speedy handling to produce a cure, and none is more important in this connection than the beginning bronchial cough of adults.

## CRISIS IN DEPRESSION MET HOOVER AT CAMP

Day and Night Session by President on Long Distance Telephone Prevented Collapse at Crucial Moment.

An incident dramatically illustrating President Hoover's courage in emergencies and his ability to accomplish results against seemingly hopeless odds is recounted by E. A. Van Valkenburg, former publisher of the Philadelphia North American.

Chicago, Atty. C. H. Calloway of Kansas City.—It has assigned prominent Iowans to address meetings throughout the state.

These assignments indicate the importance of the Negro vote and the effort of the committee to demonstrate its friendliness to the Negro voters. Few states have been able to secure a state organization such as Iowa has. All of these things make it important that these speakers be given good audiences. It indicates good followers of a recognized leadership.

## IT COULD BE MUCH WORSE

(President Hoover at Des Moines.)

"Thousands of our people in their bitter distress and losses today are saying that 'things could not be worse.' No person who has any remote understanding of the forces which confronted this country during these last eighteen months ever utters that remark. Had it not been for the immediate and unprecedented actions of our Government, things would be infinitely worse today.

"Instead of moving forward we would be degenerating for years to come, even if we had not gone clear over the precipice with the total destruction of everything we hold dear.

## THE FARMERS' PLIGHT

Farmer, Worker, Business Man All in Same Boat, Says President.

"Every decent citizen wants to see the farmer receive higher prices and wants to see him hold his home," said President Hoover, at Des Moines.

"Every citizen realizes that the general recovery of the country cannot be attained unless these things are secured to the farmer. Every thinking citizen knows that most of these low price levels and most of this distress, except in one or two commodities where there is an unwieldy surplus, is due to the decreased demand for farm products by our millions of unemployed and by foreign countries. Every citizen knows that part of this unemployment is due to the inability of the farmer to buy the products of the factory. Every thinking citizen knows that the farmer, the worker, and the business man are in the same boat and must all come to shore together.

"Every citizen who stretches his vision across the United States realizes that for the last three years we have been on this downward spiral, due to the destructive forces which I have already described. If he has this vision, he today takes courage and hope because he also knows that these destructive forces have been stopped; that the spiral is moving upward; that more men are being employed and are able to consume more agricultural products.

"The policies of the Republican party and the unprecedented instrumentalities and measures which we have put in motion, many of which are designed directly for agriculture—they are winning out. If we continue to fight along these lines we shall win.

"The very basis of safety to American agriculture is the protective tariff on farm products. The Republican party originated, and proposes to maintain, the protective tariff on agricultural products. We will even widen that tariff further where necessary to protect agriculture.

"Ninety per cent of your market is at home, and I propose to reserve this market to the American farmer.

"Has the Democratic party ever proposed or supported a protective tariff on farm products? Has it ever given one single evidence of protection of the home market to the American farmer from the products raised by peasant labor on cheap land abroad?

"The Democratic party took the tariff off a large part of farm products in 1913, and placed them on the free list. A Republican Congress passed the emergency farm tariff in 1921 and a Democratic President vetoed it.

"The Democratic minority in the next Congress in 1921 voted against the revived emergency farm tariff. The Republican majority passed it and the Republican President signed it.

"The Democratic minority voted against the increase of agricultural tariffs in the Republican tariff of 1922.

"Most of the Democratic members of Congress voted against the increases in the tariff bill of 1930.

"When you return to your home you can compare prices with foreign countries and count up this proposed destruction at your own firesides.

"There are this minute 2,000,000 cattle in the northern states of Mexico seeking market. The price is about \$2.50 per 100 pounds on the south bank of the Rio Grande. It is \$4.50 on the north bank—and only the tariff wall between!

"Bad as our prices are, if we take comparable prices of farm products today in the United States and abroad, I am informed by the Department of Agriculture that you will find that except for the guardianship of the tariff, butter could be imported for 25 per cent below your prices, pork products for 30 per cent below your prices, lamb and beef products from 30 to 50 per cent below your prices, flaxseed for 35 per cent below your prices, and wool 30 per cent below your prices.

"Both corn and wheat could be sold in New York from the Argentine at prices below yours at this moment were it not for the tariff. I suppose these are ghastly jests.

"The removal of or reduction of the tariff on farm products means a flood of them into the United States from every direction, and either you would be forced to still further reduce your prices or your products would rot on your farms."

## Some Hoover Vetoes and What They Meant

In the course of his Des Moines address, President Hoover referred to some of the outstanding vetoes of his administration, and to other measures he opposed, as follows:

"The Administration proposed economy measures to bring about reduction in specialized government expenditures by \$500,000,000. When those recommendations had passed through the filter of the Democratic majority in the House only \$50,000,000 of savings were left, yet we hear many speeches from them upon economy.

"They passed a bill to destroy the effectiveness of the Tariff Commission. I vetoed that bill.

"They passed a price-fixing bill creating what might be colloquially called the 'rubber dollar.' I opposed this. It was held up in the Senate.

"They passed a provision for loans to corporations and everybody else, whether they were affected and guarded by public interest or not. It would have made the Government the most gigantic pawnbroker of history. I vetoed this measure.

"They passed other measures with this same reckless disregard for the safety of the Nation.

"All this undermined public confidence and delayed all the efforts of the Administration and the powerful instrumentalities which we had placed in action to save the country. These measures representing the dominant Democratic control brought discouragement and delay to recovery. That recovery began the moment when it was certain that these destructive measures of this Democratic-controlled House were stopped. Had their program passed, it would have been the end of recovery. If it ever passes it will end hope of recovery."

## President Hoover on the War Debts

"In connection with agriculture I may mention the question of war debts. I do not approve cancellation of these debts. I certainly do not approve the proposal of our opponents to lower our tariffs.

"In my acceptance address I stated the exact reverse of this proposal. I said: 'If for some particular annual payment we are offered some other tangible form of compensation, such as the expansion of markets for American agriculture and labor and the restoration and maintenance of our prosperity, then I am sure our citizens would consider such a proposal.'

"I am prepared to go farther. I am prepared to recommend that any annual payment on the foreign debt be used for the specific purpose of securing an expansion of the foreign markets for American agricultural products. There is justice in that, for the difficulties inherited from the war are part of your difficulties today. That is a proposal of more importance to the farmer than any panacea."

## Youthful Strength

Dr. Magnus Hirschfeld, the world-known authority on Sexology and Director of the Institute for Sexual Science of Berlin, Germany, created

### TITUS-PEARLS

to help the millions of men and women who have lost or are losing their vital physical power. In his 35 years of practice and research, however, he realized that the weakening of man's glands was also responsible for other troubles: High blood pressure, hardening of the arteries, physical exhaustion after work or exercise, dizziness, depression, neurasthenia, etc.

All these troubles can be removed with Titus-Pearls. Numerous cases were treated by Dr. Hirschfeld in his Berlin Institute.

L. S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been incomplete for previous 5 days. Blood pressure too high. Given 2 Titus-Pearls 3 times a day. 2 weeks later the medical report on this man was:—General health better, more vigor; dizziness much less and returning of power. Treatment continued and 2 weeks later L. S. reported again, this time to say that all weariness and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained physical power and virility that he had known in the prime of his life.

Start regaining your youthfulness now! Today! In 2 weeks time you will be aware of the new, virile force within you. Send \$5.00 (cash registered or money-order) for 2 weeks treatment.

## WORDS AND DEEDS

### ROOSEVELT'S HOOPER'S

The Agricultural Tariff.

The claim that the two million cent tariff in the northern states of Mexico to the farmer is a benefit is about \$2.50 per 100 pounds on the south bank of the Rio Grande. It is \$4.50 on the north bank. Only the tariff wall stands between.

## Farm Mortgages.

It is my purpose, if elected, to provide to the whole mortgage situation by loans from the Reconstruction corporation to banks, mortgage companies and insurance companies to enable them to show consideration to their farm borrowers. As a result of these actions, hundreds of thousands of foreclosures have been prevented.

## Emergency Call at Rapidan.

"At eight o'clock on a Saturday night at the worst of the depression, the President was called by phone at his Rapidan camp. The head of the largest Chicago bank told him that not a city bank would dare open its doors the following Monday unless given financial help.

"Had the Chicago banks failed at that critical time, it would have been only a question of days before the other banks of the country would have gone down like a row of falling bricks. Efforts of Chicago bankers to obtain necessary help from banking circles in other cities had failed. Eighty million dollars was the amount needed. Only the Hoover relief measures were available.

"The President, undaunted, received the startling news, requested that the representatives of the Chicago banks be immediately called together and await word from him. Then obtaining a wire to Washington, he asked that members of the Reconstruction Finance Corporation be summoned. Next, a wire was opened to New York and representative bankers and members of the Federal Reserve Board were hurriedly called into conference.

"With an open circuit through Washington to New York passing through Washington and the Rapidan, the President sat at the telephone throughout the night directing the mobilization of banking credit and currency sufficient to avert the impending catastrophe. At eight o'clock the following night he hung up the phone, knowing the situation had been saved.

## Crisis Successfully Met.

"Thirty million dollars of currency was delivered to the tottering bank before opening hour Monday morning. Fifty million dollars more soon followed. The greatest crisis of the depression had been successfully met. The recognized leaders of finance did not initiate and direct this stupendous achievement. In its entirety it was the accomplishment of a weary man who had gone to a mountain retreat for a brief, uninterrupted rest.

"This, however, was but one battle of a warfare which Hoover waged up on a hundred fronts, Van Valkenburg writes. "During all this cataclysmic period," he says, "only one man in Washington kept his head and retained his nerve. During this perilous pe-

## Franklin D. Roosevelt

### International Banker

As Democratic Presidential candidate, Franklin D. Roosevelt stands "international bankers, eyeing the unsuspecting American public with worthless securities." He promises that, if elected, he will seek legislation to curb such activities.

As president of the United European Investors, Ltd., the same Franklin D. Roosevelt in 1922 invited American investors "to participate in the large earnings and dividends of German securities." Through advertisements in leading American cities, United European Investors, Ltd., offered to accept "checks, currency, bonds, credits in Germany" in exchange for its shares.

The New York Times of September 14, 1922, quoted a statement given out by the new corporation of which Mr. Roosevelt was president, as follows: "It is quite apparent that, in spite of present economic disturbances, Germany is today hard at work and will sooner or later regain her industrial and commercial prosperity. It is, therefore, quite feasible to take advantage of the cheapness of the mark."

On December 15, 1922, the Times said: "Announcement was made yesterday by the United European Investors, Ltd., through its president, Franklin D. Roosevelt, that the first 100,000,000 mark investment had been made by the corporation in a widely diversified list of nineteen stocks, all but one of which are listed on the Boerse. . . . Mr. Roosevelt and his associates formed the company in September, taking out a Canadian charter."

## Franklin D. Roosevelt

### International Banker

As Democratic Presidential candidate, Franklin D. Roosevelt stands "international bankers, eyeing the unsuspecting American public with worthless securities." He promises that, if elected, he will seek legislation to curb such activities.

As president of the United European Investors, Ltd., the same Franklin D. Roosevelt in 1922 invited American investors "to participate in the large earnings and dividends of German securities." Through advertisements in leading American cities, United European Investors, Ltd., offered to accept "checks, currency, bonds, credits in Germany" in exchange for its shares.

The New York Times of September 14, 1922, quoted a statement given out by the new corporation of which Mr. Roosevelt was president, as follows: "It is quite apparent that, in spite of present economic disturbances, Germany is today hard at work and will sooner or later regain her industrial and commercial prosperity. It is, therefore, quite feasible to take advantage of the cheapness of the mark."

On December 15, 1922, the Times said: "Announcement was made yesterday by the United European Investors, Ltd., through its president, Franklin D. Roosevelt, that the first 100,000,000 mark investment had been made by the corporation in a widely diversified list of nineteen stocks, all but one of which are listed on the Boerse. . . . Mr. Roosevelt and his associates formed the company in September, taking out a Canadian charter."

in the argument. A copy of brief which Mr. Pollak has supplied to the N. A. A. C. P. shows that emphasis in this case is being laid upon the precedent in the Arkansas peonage cases, (Moore v. Dempsey, 281-U. S. 86) won by the N. A. A. C. P. before the Supreme Court, and establishing that a mob-dominated trial is not due process of law.

SLAVE HONORS MASTER Otterville, Ill.—On October 9th the townspeople of Otterville, Ill., turned out for the annual memorial for Geo. "It's a good thing we had a Telephone to call your Daddy!"

An experience that brought home to this family the priceless value of their telephone...

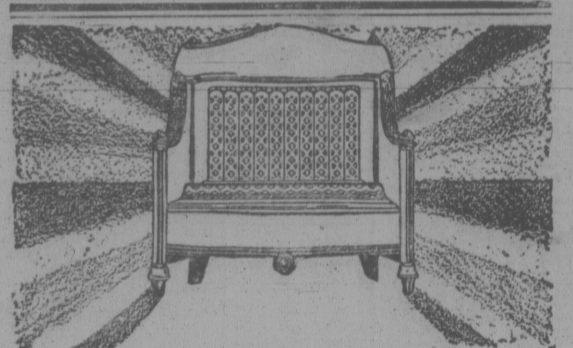

After they had left, she began to feel ill. She telephoned her son, who came home and found his mother unconscious. With treatment she revived. Had there been no telephone, it might have been hours before she was discovered, and the baby would have been in danger, too, because there was no one else in the house to look after him.

ored pioneers of the air, Thomas G. Allen, 26 years old, and J. Herman Banning, 32 years old, circled the towers and pinnacles of Manhattan's Sunday-quieted downtown, headed for Valley Stream, Long Island, and brought to earth an ancient airplane, and thus completed the first transcontinental trip ever made by Negro flyers at 10:40 Sunday morning.

Banning's Career J. Herman Banning, who has held a commercial pilot's license since 1927, has official records from the Department of Commerce of the United States to prove that he has spent 750 hours in flying, more, he says, than any other Negro flyer.

Former Ames Boy Mr. Banning comes from Ames, Iowa, where he attended for three and one-half years the state college there. He began to fly there, and was for some time in the automobile business in his home city. For the past four years, however, he has followed most Iowans to their earthly paradise, namely California, and has made his living flying commercially, giving exhibitions and working with planes.

Also from the Middle West is Thomas C. Allen, originally in Oklahoma City, Oklahoman, who has worked with, around and in airplanes most of his life, and who is working up to his pilot's license as one of his ambitions. He has been associated with Wiley Post and James V. Hazel, internationally known air men, during his travels. He was working with an aeroplane laboratory in Los Angeles.
