Garner Speech Hotly Challenged

New York, Dec. 23.—Attempt by Dr. Harry W. Chase, President of the University of Illinois, to excuse and explain the "white domination" speech made in Atlanta, November 26, by Professor James W. Garner, has drawn a reply from the N. A. A. C. P., inquiring whether the professor did or did not make the remarks quoted by the Associated Press.

The N. A. A. C. P. brushes aside the contention that Professor Garner is a "humanitarian" and has been kind to individual Negro students, saying: "The issue goes far deeper than that. One can be most charming in personal manner and most kindly and benevolent, but yet deny fundamental citizenship rights which would keep the objects of his kind benevolence eternally in a position of inferiority."

Professor Garner proposes elimination of the racial issue from politics by elimination of the Negro from participation as a voter. The point at issue is whether or not Professor Garner made the statements attributed to him in direct quotes by the New York Times and the Associated Press.

C. Heath Wins Welter Crown

Welterweight Title Scrap Thriller

Amid flying leather and knockdowns galore, champions in six weight divisions were crowned city titlists in the final round of the local amateur boxing tournament at the Punch Forum Monday night.

Fighter Is Hero

Carroll Heath, Negro boxer who was forced to spot his opponent some seven pounds in weight, was one of the highlights on the card, knocking out Bob Pike in the final round of their three-round go-for the welter crown. He was an entry in the state fray last year in the lightweight division.

Wins by Knockout

After drawing in the initial frame, Carroll Heath, flashy Negro amateur, turned the tide in his favor in the second round with a well directed body attack that nearly chilled Bob Pike. Pike, however, came back but ran into Heath's right hand in the third and took a kayoe count on the canvass, giving Heath the welter crown.

The winners were awarded trips to Chicago to participate in the Golden Gloves Tournament.

This makes the second Negro appointment made by Commissioner Bane since March. The first one was Ben Rich, appointed at the start of the second term of Mr. Bane. Des Moines is indeed fortunate to have a courageous official in its public safety department who recognizes merit and ability regardless of race, color or creed.

Rev. Green Transferred to Ottumwa

(Special to the Bystander)

Ottumwa, Iowa, Dec. 23.—Rev. E. P. Green, former pastor of the Bethel Baptist Church of Manly, has been assigned the pastorate of the Second Baptist Church of Ottumwa. He began his duties as pastor, Sunday, December 24th. The Manly congregation showered the pastor and family with many gifts before their departure.

Paul Robeson Listed in the International Who's Who

New York (CNS).—The International Who's Who for 1933 just published, containing 25,000 world notables, includes the name of Paul Robeson, "singer and actor and former all-American football player at Rutgers."

John Stewart Helps Poor

Des Moines citizens are indeed fortunate to have in charge of its county relief work a man of the caliber of John M. Stewart, chairman of the paper committee of the Board of Supervisors.

With the widespread economic depression sweeping the cities' unfortunate, Des Moines is much better situated than most cities. Mr. Stewart has complete charge of the east side commissary and through the abnormal sub-zero weather, he has done heroic work and valiant service in alighting the city's needy.

FOR XMAS AND ALL TIMES

Two years ago, the Interracial Commission of Des Moines adopted a manifesto of good will which was approved by the Ministerial Alliance. The press, local and foreign, gave considerable publicity to it; many editors heralding the sentiments a long step in better racial understanding.

So well does it set forth what ought to be the sentiment and practice of the people today that we reprint it here:

Manifesto of Good Will
"Prompted by the Christmas spirit of peace and good will, gratefully acknowledging the Golden Rule, honoring the declaration of equality proclaimed by our revolutionary fathers, supporting the constitution and laws of our state guaranteeing equal privileges and opportunities, and mindful of the dictates of our own better natures.

We, the undersigned, publicly pledge for ourselves and respectfully urge upon others that a friendlier and more tolerant attitude be cultivated among the races destined to live side by side in this community; that every individual be judged solely on the basis of individual character and conduct, irrespective of race, creed, or color; and that influenced by this standard alone, owners, proprietors and patrons more cheerfully grant to men, women and children of every color and nationality, the privileges now granted to those of their own race in all public places such as churches, theatres, eating houses, hotels, lecture halls, colleges and schools."

No law out of sympathy with the thinking of a country can be enforced. It is generally known that we have laws guaranteeing us every right but the public has not been educated to think that way. But sentiment is getting better and it is just such things like this which make it. We cannot get this manifesto before the public too often.

XMAS SPIRIT

Another Christmas is with us. With millions of men out of work and the country upset, one naturally wonders what will happen in the homes of many of those whose families have been reasonably comfortable in the past.

Our business and social groups have had this in mind so much that in most communities the situation will be well cared for. Des Moines is particularly fortunate. Polk County and the Family Social Service have done heroic work providing food, coal, housing and clothing for the unfortunate. While no perfect system can be devised, generally the job has been done well.

Recently Christmas, Inc., a group formed to provide toys, clothing and food for Christmas cheer, was organized. A big unselfish job they undertook. It looks as if they are going to make a good job of their work. The wise men brought gifts to the Baby Christ Jesus 1932 years ago; in 1932 the spirit of Christ in the big-hearted people is bringing gifts to their less fortunate brothers.

INFLUENZA

The seriousness of individual cases of influenza and of epidemics when the disease becomes widespread makes it necessary to keep certain of its aspects in mind. Breaking out with great severity and affecting a very great

many people every thirty years with an epidemic fifteen years back and a winter showing an increasing number of severe cases, it seems timely to mention some things which may exert some restraint on this disabling and sometimes fatal malady. Contagion playing as it does quite a role in the spread of infection does not seem to outweigh the resistance to the infection. In the fall and winter and especially in times when the disease is on the increase an attempt should be made to increase this resistance to infection and this can be done very easily by increasing certain foods or substances in the diet. It has been determined that a deficiency in vitamin A when there is a sufficiency in all other vitamins leads to certain diseases and an easy susceptibility to all infectious diseases. That is to say a well balanced diet with a variety of foods with an excess in butter, raw carrots, eggs, cream and milk (cow's milk, fresh milk, dried milk, evaporated milk), spinach, water cress cod liver oil and olive oil, will increase the resistance to the extent where influenza will be very difficult to take. A gargle once or twice daily will be an additional prophylactic means of warding off this infection.

Alberta, Edward, Deibert and Helen Roberts, ages 4, 6, 7, and 10, respectively, expect Santa to stop at their home where he will find Lucille Thomas, age 9, a cousin to the Rogers. Eloise Morow, age 7, said, "I want Santa to bring me a writing desk, a chair to go with it, a doll, and a little doll trunk." Eloise has sent her letter to the chimney and expects Santa to enter her home through the same. Florence and Evelyn Carter, ages 6 and 8, 1070 Fourteenth St., are going to hang up their stockings, also and retire early.

Religion has its skeptics, but so does our Santa Claus legend. Betty Stewart, age 10, 1317 Day, is about to be a skeptic and her future belief in Santa is to be determined by his appearance and generosity in her home this Xmas eve. He will at least have to be generous as she said, "I want a dress, doll, buggy, story book, paint box, and table". When Santa comes to Betty's home, he'll not only find her stocking in which to place toys, but also her shoes.

JUDGE TONEY SUCCEEDS IN OUSTING CORNELIUS HUGHES FROM CLERKSHIP
New York (CNS). — The Appellate Division of the Supreme Court handed down a decision on Friday, December 8, ordering the removal of Cornelius Hughes, well known Harlem Democrat, from his \$4,000 position as deputy clerk of the 10th District Municipal Court. The complaint against Hughes was made by Justice Charles E. Toney, one of the two Negro judges of this court. The complaint was based on the fact that Hughes had attacked the judge in his monthly paper, "The Fraternal Review", for a decision handed down in a landlord and tenant case.

PAYS INSTALLMENTS 20 YEARS TO GET SEALSKIN COAT
Indianapolis, Ind. (CNS). An official of a local department store here relates the following story for a place in the "believe it or not" series of stories.

"A Negro woman who scrubbed floors and washed clothes for twenty years to make payments weekly on a sealskin coat costing \$1,000, has paid the last installment and received the garment.

A score of years ago, according to the store managers, the woman, whose name they refused to divulge, selected the garment and had it placed in the lay-away department. When she paid off her bill recently, it was discovered the coat she had chosen—a 1912 model—had been lost. She was satisfied, however, when the management replaced it with a 1932 style jacket-length sealskin.

favors the repeal of the 18th amendment with—a provision which would keep out the open saloon, it does not favor nullifying the constitution in order to gain more revenue to balance the budget. This is dangerous business which in the end may prevent the repeal of the prohibition amendment.

Obviously the country is ready for a change. But that change should come in an orderly constitutional way and not by short cuts as are contemplated in these beer and wine bills. It is not likely that the bill will become a law at this session. In the meantime the sane legislators may have an opportunity to do the job as it should be.

Literary Spotlights

By Senator E. Whitaker

The date of our Christmas festival is a chosen one and what could be the reason for selecting December 25 rather than any other day for this occasion? The Gospels, always measure in dates, were silent here. Oral tradition was equally fetid and indifferent. However, ancient writers give a few suggestions regarding the date of the birth of Christ; but these are of late origin, probably unhistorical, and above all contradictory. Cleon of Alexandria claimed that many Christians reared the 20th of May as the date of nativity, others preferred the 20th of April, but he favored the 19th of November. Still others fixed March 21st as the date of the birth of Christ. There being no specific historical date on which to depend, nothing was left for the church to do but select some day of universal convenience and symbolic significance and celebrate it by common consent as Christmas day.

As it was assumed that the world was made in the spring, because it was commanded to bring forth grass and herbs and that it was made when light and darkness were divided, it was quite natural to fix the vernal equinox (March 25, according to Julian Calendar) as the exact date of the creation.

Having discovered, by this easy method, the very day on which the world was created, it was very simple to assume that it was on this same day the power of the Providence overshadowed Mary, and the "Light-spring from on high" began His entrance into the world. Could anything be plainer? Even the least imaginative of chroniclers could reckon forward from this point of the Annunciation nine months, and arrive at December 25th, as the day of the birth of Jesus. Here a remarkable coincidence meets Christ. For this is the day of winter solstice, the day when darkness begins to lessen and the light begins to grow; the day which the ancient world had long celebrated as the birth of the sun. Could a more fitting day be found for the birth of the "sun of Righteousness?" "Behold, my brethren," said St. Augustine, "another instance of the wondrous fulfillment of the Scripture. St. John the Baptist was born on June 26th, the summer solstice, when the sun begins to decline. The Lord Jesus is born on December 25, the winter solstice, when the sun begins to ascend. And in this is fulfilled the saying, "He must increase, but I must decrease."

its annual convention in New York City last September. The change was made over the objection of Dr. Thomas W. Turner, its president. This caused friction and now the executive committee has deposed Mr. Turner, charging him with having accepted re-election of the presidency of the federation knowing that it was committed to an interracial policy but later caused newspaper articles to be published denouncing the idea and attacking the influence of priests in the affairs of the organization.

Dr. Turner was at one time a member of the faculty of Howard University at present he is a professor of biology at Hampton Institute, the leader in the organization of the Federation several years ago, and has up to the present been its head.

He gained wide publicity because of his uncompromising stand for equality in the various educational institutions of the American Catholic Church, and also insisted on the education of colored aspirants for the priesthood. This brought active opposition from the white clergy of the church.

Dr. Turner was ousted at a meeting of the executive committee of the federation at Chicago last Sunday called by George W. B. Conrad, of Cincinnati, first vice-president.

WHITE STUDENTS STRIKE FOR RIGHT OF NEGROES
Nena, Ark. RECTOR BACKS N. A. A. C. P. IN FIGHT ON NURSE JIM CROW
New York, Dec. 16.—L. H. King, Rector of St. Mark's M. E. Church, backing up the N. A. A. C. P. in the fight being made against the discrimination being practiced against colored nurses under the administration of J. G. Greeff, Commissioner of Hospitals.

New York, Dec. 16.—Decision Tuesday by Supreme Court Justice John R. Vank, awarding \$20,000 damages to Gustave Bensen (white), 42-year-old Bellmore, Long Island farmer, in a \$50,000 alienation suit against William Jackson, wealthy Negro contractor, revealed, needless to say, a situation unequalled in Nassau county records.

Richard Benson, 12-year-old son of the farmer, testifying against his own mother, told of meetings between her and the race contractor over a period of more than a year.

Klan Is Active
In the meantime the countryside has been deeply stirred by the latest miscegenation scandal. A meeting Tuesday night of 800 Ku Klux Klansmen of Nassau county is believed to be the reasons by William Jackson, who is 36 years old, did not appear in supreme court, Minneola, to fight the suit of Gustave Bensen.

Fort Worth, Tex., Dec. 16.—At its annual meeting last week the Texas State Teachers association (white) invited the State Association of Colored Teachers to take charge of its concluding program, and came out in large numbers to hear, and gave the Negro speakers and singers a great ovation.

Members of the white association, who arranged for this feature of the program were enthusiastic about the results. The occasion was felt to be significant as indicating and strengthening a fine sense of sympathy and cottons.

Detroit, Mich., Dec. 16.—Robert Harris, self-styled "king" of a fantastic religious cult, was removed to the hospital at Ionia for the criminal insane Wednesday. Harris had been committed to the Ionia institution by Judge John Scallen of recorder's court after he had been declared insane by a sanity commission composed of three local physicians.

ADA WRIGHT SAILS WITH ENGBAHL ASHES

Bremerhaven, Germany—Bearing the ashes of J. Louis Engdahl, late national chairman of the International Labor Defense, the American delegation to the World Congress of the International Red Aid which was recently held in Moscow, U. S. S. R., set sail for New York on the Bremen, Thursday, December 8. The delegation includes Mrs. Ada Wright, mother of Roy and Andy Wright, two of the Scottsboro boys, Carl Hacker, national organizer of the International Labor Defense, and Mariam Brooks, youth delegate from California.

Washington, D. C. (CNA)—In the teeth of a show of armed force by the government such as has seldom been seen except in wartime, three thousand elected delegates of the jobless paraded through Washington on December 6 and forced government officials to receive the demands of the unemployed. About 40 per cent of the total number of delegates were Negroes.

This year as last year, the hunger marchers broke through all Jim Crow barriers on the way, and achieved complete unity of the Negro and white delegates. The delegation from Virginia forced the Salvation Army to feed and house the marchers together, although the Salvation Army made an attempt to Jim Crow the Negroes. The Birmingham delegates refused to al-

low the Negro members to be Jim Crowed at Asheville, N. C., and forced the city authorities to house them in one hotel.

The march through Washington and the presentation of the demands was followed by a conference at which plans were laid to carry on the struggle for relief and unemployment in-

By Allen Ashby
Local athletics as far as Des Moines Negroes were concerned proved several things. Among these being the fact that our Negro athletes are as good as the general run of white athletes in the city.

In basketball, the local Y league found the teams more evenly matched than ever before due partly to the fact teams were better organized. Union Baptist won the title for the third year nosing out St. Paul in a play of game after the two teams had tied during the regular schedule.

The Crocker Y team composed of the best players in the Sunday School league enjoyed one of the best seasons a Negro basketball team has ever known in this city, winning 13 out of 15 games against the leading white teams of the city. The Y team coached by the writer averaged over 30 points a game, totaling 478 points to their opponents 315. High spots were wins over the University of Commerce, and a two day series in Crookston, Minn., which marked the greatest distance ever travelled by a local Negro basketball team.

The Harlem Globe Trotters, a travelling team made life miserable for local teams and added much to the prestige of Negro athletes. Our high school had Negro players, Melvin Overton of North, Earl Miller and Haywood Brewer at East. These boys were capable players, but not outstanding.

Track found Negroes enjoying their greatest success of the year in our local schools. Headed by Walter Thompson and Bob Webb of Drake, who won many points for their school, the list includes George Robinson, Melvin Overton, Leland Johnson, Linford Willis of North High and Earl Miller, Prezell Frazier, Emerson Redrick of East High.

The Crocker Y Sunday School meet was not up to the usual high standards of other years, but was a good meet. Ralph Metcalfe the "Marquette Meteor" also showed his wares at the Drake Relays in a manner that caused Negro hearts to swell with pride.

The baseball season was not such a success, due to the fact that too many teams were playing when there was about enough good material for one good club. Union Baptist maintained its strange hold on the Sunday School title, after a sensational mid-season spurt by St. Paul, which resulted in a tie, making a post season play-off necessary.

Tennis found Negroes enjoying more than usual this great game. The Midwest Tennis club was organized and played several dual meets with local clubs while Earl Newcomb carried the club colors to the Mississippi Valley meet in Jefferson City, Mo., where he reached the quarter finals. Improved play made the city tournament a series of surprises which culminated in the breaking of the grip Chet Williamson and Allen Ashby held on the doubles title. The new champions are Earl Newcomb and Paul Wood who trimmed the defending champions in the semifinals. Chet Williamson kept his grip on the men's singles crown by downing Duke Proctor in the final round.

High spots in the golf season were the Midwest Tournament and the Missouri Valley meet, both of which brought some high class talent from other cities. Chas. P. Howard and the Lewis brothers, James McGuire and

Harry Walden were the best players in the city.

Football provided us with a year of good Negro school players and a crack semi-pro team. The exploits of Thompson, Webb, Coleman and Smith of Drake, the Johnson brothers, Leland and Orlando of North and Haywood Brewer and Emerson Redrick of East High are too fresh in mind to go over. But this amateur team coached by Lucius Ashby, old timer at East High, escaped notice mostly because it played out of town. The Des Moines Bulldogs played nine games, winning four, losing three and tying two against the strongest teams in the state, bringing their three year record up to 13 games won, 5 lost and 7 tied. Bunny Wilson, Toady Jackson, Bus Brown, James Allen, Paul Thomas, and Leon Bruce were consistent high-class performers.

The year 1932 could truly be called the greatest year in the history of local Negro athletics and here's hoping that the coming year will prove an even greater one in every way.

Yancey, Ky., Dec. 16.—One of the most tragic mine disasters ever recorded in this state occurred here last Friday morning when 28 miners, 12 of them Negroes, lost their lives in the Zero mine of the Harlan Fuel company following a terrific explosion of coal dust which entombed the unfortunate victims.

Immediately after the explosion rescue workers and volunteers rushed into the pit and began a frantic search for the entombed men. The blast cut off communication with officials of the mine at the surface, and as the hurt

for the bodies continued the families of the trapped men rushed to the mouth of the pit, wives and mothers becoming hysterical as no immediate news came as to the fate of their loved ones.

Carrying gas masks, fire fighting apparatus and other equipment to aid them in clearing the underground passage blocked by the explosion, the rescuers worked with feverish haste, their efforts being made less hazardous by the absence of fire following the blast.

The bodies were taken to Cumberland mortuary in Harlan, and all day Saturday and Sunday thousands of people from all sections of this mining country viewed the bodies of the dead miners.

Funeral arrangements for the victims are being made as fast as identifications are completed, and Harlan county, in which the disaster occurred, is bowed with grief by the tragic suddenness of the catastrophe which snuffed out the lives of the 23 unfortunate men.

N. A. A. C. P. PUSHES FIGHT ON MOBBIING AND JIM CROW IN SOUTHERN FLOUR RELIEF

New York, Dec. 16.—Negroes and Red Cross workers distributing free government flour in southern states are being intimidated and prevented from reporting the discrimination practiced against Negroes according to a letter sent yesterday to Judge John Barton Payne, national Red Cross chief, by the N. A. A. C. P.

New reports from Clearwater, Fla., state that none of the mobbists who brutally fogged two members of the Colored Welfare Association has been apprehended. Colored people are being paid for relief work not in cash as are the whites-but in grocery orders and on these orders there is no allowance for meat other than "white bacon" or fat pork, no butter, no fresh milk.

ROSENWALD FUND AIDED THE CONSTRUCTION OF 5,357 SCHOOLS IN THE SOUTH

Washington (CNS)—In a recent summary of the Julius Rosenwald Fund it is stated that the money furnished by the late philanthropic, Chicagoan has aided the construction of 5,357 Negro school buildings in the South at a cost of nearly \$30,000,000.

In summarizing its work, the annual report says: "The fund has given aid on 270 school buses at 159 schools in 128 counties of 15 southern States, transporting more than 10,000 Negro pupils to consolidated high schools a distance of 8,000 miles daily, costing over a three-year period \$440,000, the fund's share being \$142,253 (32 per cent). The importance of this project has been so well demonstrated in the three-year period that the public school authorities seem willing to make over the entire expenses of operation without further aid from the fund."

Philadelphia (CNS)—Jess McMahon is spokesman for a group of Quaker City fight promoters who are willing to put up \$100,000 for Jack

Sharkey to defend his heavyweight title against eGorge Godfrey, of Leiper, Pa.

McMahon, former associate of the late Tex Rickard, called Sharkey's manager, Johnny Buckley, on the telephone, it was stated, and offered to pay Sharkey \$50,000 when the articles were signed and the balance one week before the fight.

Buckley was quoted as saying he would talk the matter over with the champion before replying.

Washington (CNS)—The conduct of the District of Columbia police in handling the recent demonstrators in Washington was termed "outrageous and disgraceful" by Senator Blaine (Republican), Wisconsin, in the Senate on Friday, December 16.

"I've been informed by responsible members of Congress," he said, "that language was used by the police that was insulting. Language spoken to women on the public streets was in terms that honorable gentlemen would permit to be said in any other place in his presence to any woman."

The Wisconsin senator said the police had acted with "arrogance, violence and abusive language."

It is related that certain policemen were extremely harsh and abusive toward Negro marchers. On one occasion when a truck carrying white and colored delegates was sighted not less than 25 policemen, including a lieutenant, surrounded the car.

"Come out of there you lousy white trash, traveling around with blacks", shouted a policeman.

APPEAL FILED IN DUMAS CASE ASKING RAPE CONVICTION REVERSAL

Oklahoma City, Dec. 16.—Dorcas Dunje, president of the local branch, N. A. A. C. P., announces that appeal brief has been filed in the Oklahoma State Criminal Court of Appeals in the case of Charley Dumas, convicted on a forced confession of rape alleged to have been committed on a white girl, while Dumas was a road camp prisoner. The brief recites that Dumas was made to plead guilty without having any attorney, that he was under threat of mob violence, that he had only five minutes conversation with an attorney appointed by the court and that the presiding judge had remarked after imposing death sentence that "he wished he could pull the switch."

New York, Dec. 9.—A "white domination" speech made by Professor James W. Garner of the University of Illinois before an audience in Atlanta, Ga., has drawn vigorous protest to the Governor of Illinois and the President of the University from the N. A. A. C. P.

In his address Professor Garner justified white domination, declaring that intelligent northern whites did not favor depriving the southern whites of their prerogative to rule over and administer the affairs of Negroes. In the letters to Governor Louis L. Emerson of Illinois and President Harry Woodburn Chase of the University, the N. A. A. C. P. says in part:
