Boy Cannot Attend School In White District

Tuscaloosa, Ala., March 3 (By the ANP)—According to a ruling in the Circuit court Wednesday, upholding the County Board of Education, the seven-year-old son of Mrs. Lillie Boyd, white, cannot attend the Cedar Cove white school, where his brothers and sisters go, because the neighbors say that this particular son has Negro blood in his veins. Judge Henry B. Foster refused the white mother's petition for a writ of mandamus which would have required the school board to admit the child to the white school.

Wednesday's decision came after an extended hearing in which Mrs. Boyd and her white neighbors of Cedar Cove testified. Mrs. Boyd was joined in her plea by her white husband, Will Boyd, said to be more than 75 years of age, and ill for several years. The dark child, aged seven years and eight months, sat in his mother's lap, during the trial.

Neighbors Testify
Mrs. Boyd testified that the father of the child was a white man, although he wasn't Mr. Boyd. Neighbors of Mrs. Boyd, testifying in behalf of the school board, told Judge Foster that they had cause to believe the child was of Negro blood and said they had always believed its dark complexion and characteristics indicated Negro ancestry.

Can't Attend Sunday School
They also said that Mrs. Boyd insisted that the child be admitted to the white school and had threatened suits or other means of forcing them to permit his admission. It was also said that Mrs. Boyd had attempted to enter the child in the community white Sunday School, but there was no place here for a child with Negro blood.

Fights C.M.T.C. Appropriations

Washington, March 3 (By the ANP)—When the United States voted to support the amendment of Senator James Couzens to the army appropriation bill, to set aside \$22,000,000 extra for the Citizens' Military Training Camps, the National Council for Prevention of War immediately launched an offensive against this amendment as an unnecessary expenditure under present economic conditions.

One of the issues raised against the Couzens amendment was to the effect that Negroes are denied admission to the Citizens' Military Training Camps. Senator Couzens had stated that this money could be used to take homeless boys off the street, but Mary Ida Winder, associate secretary of the peace organization, points out that colored boys would be denied the advantages that might accrue from such a provision and that if it were made, it would be less likely that relief measures in which they could share would be created.

ATTY. MITCHELL ATTENDS INAUGURATION

Mitchell, prominent local barrister, Democratic leader and national president of the Phi Beta Sigma fraternity, left the city Wednesday on the Liberty Limited for Washington, D. Haywood Brewer Placed On All-City Basketball Team

East's Only Representative

By Everett Wadsworth

Two members from Roosevelt High, two from North and one representative from East make up the all-city high school basketball team for Des Moines as selected by The Des Moines Tribune. Frank Brody, sports writer, in selecting Heywood Brewer, stellar East High guard and football star, for the position, says:

"Possessing an athletic build that would be a credit to any athlete Heywood Brewer of East is moved from a guard position to center. Aided by the ability to leap like a cat and possessing large hands that really clamp the ball Brewer was the backbone of the Lee Township defense that was an exceptionally tight one all season."

Earl Miller on Second Team

Brewer is a good one-handed shot and his sturdy build leads one to believe that on a center pivot post play he would be a sensation. Earl Miller, center of East, played well for the Lee township crew and was awarded a place on the second team selection by Mr. Brody.

Three Colored Boys

Negro football players and trackmen have represented local institutions every year for over a decade, but cage athletes have been rather a scarcity. East high school teams of the past have only a fair record to boast of, however this year, Lee township has enjoyed a good season with three colored boys playing prominent parts in the victories.

"Scotty" Rowland of North
Lawrence Riederik, football player and track man, substituted at guard very creditably. Brewer's award makes the third Negro athlete to receive this honor in the late years. "Scotty" Rowland, North high flash of '26 to '28, won all-state and all-city selection, during his brilliant athletic career for the Pink and Green. At one time he was considered one of the best forwards in the state. James Allen, North high all-around athlete, was an outstanding guard, developing several years ago at the Polar Bear Institution. He was all-city choice in 1928.

Citizens Protest Police Killings

Birmingham, Ala., Mar. 3.—(By the ANP)—A protest against the large number of killings by the police and other brutality was filed here last week with the City Commissioners, by the members of the local branch of the N. A. A. C. P.

Reasons for the killings of Negroes were simply "resisting an officer" which according to the protest ranged from talking back to an officer to struggling with him. The practice is prevalent, according to the petitioners in Negro neighborhoods and women and children have been abused without cause by the white policemen.

Hunger March On Capital Today

New York (CNA)—Unemployed Negro workers are actively participating in the nation-wide preparations for a National Hunger March of elected delegates to Washington on March 4, and the supporting demonstrations throughout the country on the same day. Many Negroes are among the delegates already elected by conferences held in many cities with delegates from hundreds of organizations.

Negro Strugglers
The National Hunger March, planned for Inauguration Day, will present the demands of the workers, unemployed and employed Negro and white united in the struggle against starvation, for adequate unemployment relief and social insurance at the expense of the employers and the government. Demands will be sharply raised against the practices of discrimination against Negroes in the "doling out" of present inadequate relief. The banner of struggle will also be raised against the forced labor practices of the relief agencies, and against all forms of peonage affecting both Negro and white workers throughout the country.

Cabinet Member Belongs to NAACP

New York, Mar. 3.—Harold L. Ickes, of Chicago, selected by President-elect Franklin D. Roosevelt as the new secretary of the interior, was for several years president of the Chicago branch of the N. A. A. C. P. Walter White, secretary of the N. A. A. C. P., wired congratulations to Mr. Ickes.

President Chicago Branch
"Profoundest congratulations of National Association for Advancement of Colored People and my personal one on your selection as secretary of the interior. We are happy that one who has so long been active in securing justice to twelve million American Negroes and who served as president of our Chicago branch with such effectiveness and zeal is to occupy so important a position in the new administration, and especially as head of the department of the interior where such matters of vital importance as Howard university and the Virgin Islands will come under your direction. I do not need to assure you that we shall be happy to render any service you may require in your new position."

Cutler, Harmon, Address Service Club

Ted Cutler, president of the Junior Chamber of Commerce and Ray Harmon, secretary, addressed the Young Negro Men's Service Club at their club room, 12th and Center, Wednesday night, Feb. 22nd. After extending greetings from the Chamber of Commerce, Mr. Cutler outlined the program of the Chamber of Commerce for the coming year. Mr. Harmon spoke on organization.

Jessie Graves, former Des Moines man, who recently returned from Los Angeles, also addressed the club on his experiences in California. The public is invited to all open forums. The next open forum meeting is scheduled for March 22nd to which the public is invited.

U.S. Attorney to Prosecute Peonage System

Memphis, Tenn., March 3.—A story of amazing injustice—virtual slavery to thousands of tenant farmers on Dixie plantations will be bare to department of justice agents in Washington soon by Dwayne D. Maddox, U. S. district attorney here.

Although a federal law declares that "the holding of any person to service or labor under the system known as peonage is abolished and forever prohibited", the practice of enforced labor and conspiracy is alarmingly prevalent in many cotton farming states.

Will Affect Many
An inquiry that is expected to undermine the very foundation of the distasteful system of employing Negro families already has been launched. The government probe will vitally affect the future of thousands of Negroes.

Armed with many specific instances of peonage, General Maddox will go to Washington at an early date to make his report. Just what tactics the government will resort to punish the plantation owners hinges on the \$5,000 fine.

The federal law, which defines peonage as "a status or condition of compulsory service based on the indebtedness of the peon to the master", also provides that persons convicted of the crime may be fined not more than \$5,000 or sentenced to not more than five years in a federal bastille—or both.

Paper Raps Theatre Policy; Loses All Advertising

Washington, D. C., Mar. 3.—Because the Washington "Daily News" printed an editorial criticizing the National Theatre for excluding colored people, the theatre has withdrawn all advertising from the paper. The National Theatre has been showing "The Green Pastures" for two weeks with Negroes barred from seats.

The Washington "Daily News" is a Scripps-Howard chain of papers which has always maintained a liberal policy toward Negroes.

Illinois Solon Introduces Anti-Jim Crow Measure

Springfield, Ill., March 3 (By the ANP)—Continuing his battle against discrimination in the State of Illinois, Representative J. Jenkins introduced a bill in the State Legislature here last week urging that "the Secretary of State shall revoke the charter of any corporation serving the general public, which discriminates against any citizen or citizens of the United States in any manner because of race, creed, or color."

He is being defended by the Birmingham branch of the N. A. A. C. P. and a Birmingham citizens committee.

REVEALING—YOUR PAST PRESENT, FUTURE

W. E. L.—How will I know my future husband when I meet him? Will we be a happy couple?
 Ans: He will have a mouth full of gold teeth and will make you happy with his happy go lucky attitude towards life. I see a few children resulting from this union.

L.—I am planning to take up hairdressing will this in any way interfere with my health? Will I be successful?
 Ans: This will in no way interfere with your health, go ahead with the course for you will profit from it.

H. B. C.—Will I win my court case and can you tell me if there is hidden treasure on my property?
 Ans: You will receive a compensation from this suit but not as much as you anticipated, less than half the amount. I cannot detect any treasure about your place.

B. B.—I am a young girl 18 years old and I am in love with a married man over 30. Will he ever quit his wife for me? We have kept company for a year and a half.
 Ans: Shame on you. Haven't you done enough mischief without ruining this man's life completely. Can't you realize that if this man will cheat on his present wife he will cheat on you too. Wake up sister and find a single boy friend.

T. B. C.—My boy friend now goes with a girl friend of mine. I love him and have tried every way I know to stop loving him. What shall I do?
 Ans: If you take a teaspoonful of castor oil every day for the next two weeks you will have something real to worry about. You will find that you have so much to do that you won't have time for your love affairs. Try it. The results will prove interesting.

C. E. P.—Will my youngest sister marry before I do?
 Ans: Yes. But it will not be long after her wedding when you too will timidly consent to "take this man for your lawfully wedded husband."

J. E. E.—Where is my son and will I ever see him again?
 Ans: The crystal reveals your son in the city of Knoxville Indiana. He will pay you a visit this fall and you will be proud of him.

M. A. T.—Will I ever be popular with the college fellows?
 Ans: Yes. Such popularity must be deserved however. I suggest that you copy the method used by the most successful and popular girl you know. Incidentally you will marry a college man.

L. D. T.—Does my baby's daddy love me and will he marry me?
 Ans: He does love you and I believe he will marry you in the summer months. Do every thing you possibly can to win him as you want your baby to have a daddy.

T. M. C.—I met a travelling man a few weeks ago and he writes me regularly. Is he sincere?
 Ans: This man will never influence your life in any way. He is not sincere. He uses the same old line over and over again on all his girls. You feel for it like the rest but don't be fooled into taking this "salve" seriously.

MRS. JENKINS CELEBRATES NINETY-SECOND BIRTHDAY

(Special to the Bystander)
Lovilla, Iowa.—Mrs. Hester Jenkins who lives a short distance southwest of what formerly was the old Buxton mining town, celebrated her 92nd birthday Feb. 26th, at her home. She was born Feb. 20th, 1841, near Lexington, Mo. Being the oldest of 19 children of her parents John Wesley and Matilda Loren so far as she can learn she is the only one yet living. She is the mother of three children, Mrs. Dollie Lewis of Chicago, John, with whom she resides and Rev. Samuel J. of Des Moines.

Since girlhood she has been a member and great worker in the Baptist church until recent years since her church was moved from Buxton and her greatest grief has been that she is not able to attend services regularly. Mrs. Jenkins has never seen the need of having to use eye glasses and can boast of splendid eye sight, can sew and view things at a distance much better than many younger by several years.

When the weather is warm and pleasant she enjoys taking her walking stick and walking out to visit her neighbors. The old Buxton Homecoming is something she delights in looking forward to, greeting old friends. She otherwise would not get to see and she remembers them too. Now she desires to know if she has a twin. If so write and let her know. Address Mrs. Hester Jenkins, Lovilla, Iowa, Route No. 2.

Beauty Hints

By "Bebe"

Someone has said, "when carelessness comes in at the door, beauty goes out the window." How true that is. We can make the most of ourselves by good grooming. This demands that the hair be simply and neatly and becomingly arranged, and free from excessive oil and dust. The skin, hands, nails, teeth must be clean and the clothing fresh and well pressed. Take stock of yourself by using the following questions as a guide:
1. Are seams in my hose straight?
2. Holes in my shoes built up?
3. Rips and tears in clothing mended?
4. Clothes free from powder, dust, lint, hair, and dandruff?
5. Shoes polished?
6. Gloves Clean?
7. Collar and cuffs fresh?
8. Shoulder straps clean and held in place?

New York, Feb. 24.—Announcement in the film gossip column of a New York daily paper that Thomas Dixon, author of "The Claspman," from which the silent picture, "The Birth of a Nation" was made, was seeking to have a talking picture version of the film produced, caused Roy Wilkins, assistant secretary of the N. A. A. C. P. to write the Motion Picture Producers and Distributors of America, Inc., urging that no consideration be given such proposal.

The association's letter declared the silent version of the picture depicted Negroes as bestial creatures and that these scenes were presented as historically accurate pictures of the Negroes' place in this country's development. It asked that no effort be made to produce a talking picture version because racial strife would be stirred. The producer's association, through Carl E. Milliken, secretary, replied that it had no information indicating interest on the part of any of its companies in a talking version of "The Birth of a Nation."

Durham, N. C., Feb. 24.—A legal battle to secure the entrance of Negro students to the law school of the University of North Carolina will be launched here soon... Awaiting only the refusal of the university to accept an application from a qualified Negro student who already has an application blank to be filled out and returned to the dean of admissions.

The attorneys who are handling the case are basing their claim on the United States Constitution and upon the fact that the North Carolina laws do not forbid education of both races at colleges and universities, but only at elementary and high schools.

New York, Feb. 24.—(By the ANP)—Mare Connelly and Rowland Stebbins, author and producer, respectively, of "The Greer Pastures," were requested in a letter Tuesday by the N. A. A. C. P. to cancel the remainder of the engagement of the show at the National Theatre in Washington.

The Association gave two reasons for its request: because threats had been made against the life of Richard B. Harrison, who plays the role of "De Lawd" in the play, so that it is necessary for him to have police protection, and because withdrawal of the play would serve as a rebuke to the intolerance in the capital of the country.

CORBETT SAYS PETER JACKSON WAS GREATEST

Chicago, Feb. 24.—(By the ANP)—Americans may remember longest the fight which the late James J. Corbett had with John L. Sullivan and thereby destroyed the legend that Sullivan was unbeatable, but the fight which stands out in Corbett's mind was the 61-round no-contest with Peter Jackson, according to Grantland Rice, writing for the North American Newspaper Alliance. Rice quotes from an interview with Corbett several years ago: "Peter Jackson was a great fighter in every way. At his best, he had everything that a champion needs—boxing skill, punching power, stamina, speed, courage and coolness. I almost had him out in the twenty-eighth round—at least I had him groggy—and yet he was still there thirty-three rounds later on."

SHOCK KILLS GIRL

Three days after arranging for the operation Harrison took the girl to the doctor's office and an attempt was made to treat her, but the shock was too great. She died on the operating table. Further testimony was to the effect that the physician then performed a tonsillitis operation and certified death on that ground.

DR. MARMILLION REFUSED TO ACCEPT \$250 FOR OPERATION, IT WAS REVEALED

The money, his fee, was offered after the girl's death. Vigorous nation-wide complaints have been made by leading organizations, that Negroes on the project have been subjected to working conditions described as virtual peonage and slavery equal to middle age barbarisms.

Washington, D. C., Feb. 24.—Efforts of Congressman Oscar DePriest of Illinois to help secure an appropriation of \$460,000 for a new heating, light and power plant at Howard university, successfully culminated in legislation on Saturday when President Hoover signed the department of the interior bill.

The original bill as presented to the house of representatives did not include this particular item, whereupon Mr. DePriest offered an amendment from the floor, which was passed Dec. 28, 1932, by a vote of 136 to 105, with 110 Republicans and 26 Democrats supporting the measure. Technical data in the case presented by Mr. DePriest was prepared by Albert L. Caspell, Howard university architect.

The Louisiana council comprises eleven women prominent in religious and civic circles, including representatives of the Federation of Women's Clubs, the Congress of Mothers, the Daughters of the Confederacy, the Council of Jewish Women and the Presbyterian, Baptist, Methodist and Catholic denominations. HITS LYNCHING

"We declare lynching is an indefensible crime destructive of all principles of government, hateful and hostile to every ideal of religion and humanity, debasing and degrading to every person involved. Public opinion has accepted too easily the claim of lynchers and mobsters that they were acting solely in the defense of womanhood. In the light of facts... we repudiate this disgraceful claim for all time. In evidence of our purpose we solemnly pledge ourselves to create a new public opinion in the South which will not condone for any reason whatever, acts of mobs or lynchers. We shall teach our children at home, at school and at church a new interpretation of law and religion; we

HOOPER-ROOSEVELT

Thursday newspapers said that President Hoover's valet, a Serbian, would not accompany him on his ocean trip after March 4, but could go directly to California after leaving Washington. The valet could not stand ocean trips.

It is also generally known that Mr. Hoover used Filipino servants at his Rapidan camp in the Virginia hills.

Friday newspapers say "The next president received newspaper men Wednesday in his bedroom, where Erwin McDuffie, Negro valet, was giving him his inaugural haircut. The shearing went on throughout the interview."

Representative Tinkham of Massachusetts said the Republican party needed new heads as it had sunk to a low ebb under the leadership of Hoover, Mills, et al.

While the use of servants may not point to the stand which Mr. Roosevelt will take about giving Negroes high federal places, at least he is using Americans to do his personal chores.

IOWAN IN CABINET

Henry A. Wallace, farm editor of Des Moines, has been named Secretary of Agriculture. His father filled the same position under President Harding. Wallace is independent in politics, a close student of agriculture and its needs, and was a supporter of the equalization fee and the domestic allotment plan for relief of the farmer. He carries to the job a pretty definite idea of what he thinks will cure our ills.

Of course what Mr. Wallace believes will work, and what law Congress will pass, are two different things. But fortunately for him, his chief has a Congress overwhelmingly Democratic; he ought to get some of his ideas tried out.

Personally the Bystander has little faith in the ultimate success of these cure all ills. However, it is well to try some of them out for the benefit of those who do. Anyway, the Bystander wishes Mr. Wallace well.

HYSTERIA

The Iowa legislature, like most taxing bodies, has the tax reduction hysteria. Not only are they slashing wages, but efforts are being made to abolish jobs and cut off employees here and there.

While the idea sounds good to some, very few citizens will notice the savings on their tax receipts. Prices have come down, sure, and so must taxes, but the amount expended for salaries is such a small proportion of the total budget, that holding a few employees here and there will make very little difference.

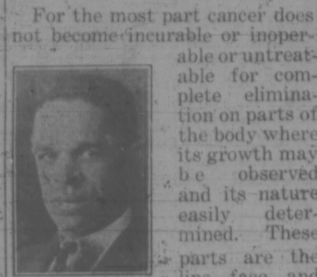

Reasonable reductions in wages and without the abolition of any jobs should be the program. Wholesale dismissal of public employees is not good sense or economy.

SCHOOL ELECTION

Our school election occurs March 16th. Little has been heard about it, possibly because the jobs carry no salaries. Just the same, they are important.

HEALTH TALKS

Dr. H. H. London
CANCER

For the most part cancer does not become incurable or inoperable or untreatable for complete elimination on parts of the body where its growth may be observed and its nature easily determined. These parts are the lips, face, and breasts; although cancer may occur on any portion of the external surface of the body. Any growth on this external surface immediately excites inquiry as to what form of growth it is and whether it be harmless or cancerous in its nature. It is desired, however, to have any growth, which is conspicuous, as it must be on the face and hands, removed whether it be harmless or cancerous in nature.

Lumps in the breasts do not always excite this inquiry. This is perhaps the main reason why they oftentimes grow beyond the point where they should have been removed. It is almost always the rule to remove these breast lumps as soon as they are discovered and, if this is done, probably no death from cancers of the breasts would occur.

Cancers in other portions, as in the stomach and in the uterus, frequently attain a growth beyond that place where cure may be had by any known means, because in the beginning they give rise to no pain and, when other symptoms supervene, the growth may or may not be in a curable stage. For these very vital reasons examinations of these particular parts must be done at regular intervals when any existing abnormality of tissue may be seen and cared for.

New York (CNA)—Lloyd Price, 22-year-old Negro arrested on January 27 on a charge of murder of a white child, has in open court repudiated the confession extorted from him by torture while in the Raymond Street jail here. His mother, Mrs. Mary Price, who is held as a material witness, denied that she had identified as belonging to Price, a pencil found at the scene of the crime. This alleged "identification," together with the fake confession, form the sole grounds for Price's imprisonment.

The brazer and avowed attempt to set a speed record in sending the youth to the electric chair has been halted by Price's repudiation of his confession and by the action taken by the International Labor Defense of New York in protesting against the arrest of Price on such flimsy evidence and against the lynch-terror being whipped up as a result of this case.

HOW ABOUT IT?

Our basket ball season will become history in another week or two, then we will swing into baseball. We suppose there will be about three Negro teams as usual, with each manager booking each other's games and stealing each other's players and with each player jumping around from Sunday to Sunday. Baseball here is really in a pitiful mess.

Our football team is recognized wherever it plays as a good team, never looking bad, even in defeat. Our basket ball team has established itself as one of the good teams in the state, good enough to always make a creditable showing, whether winning or losing. But just anybody may beat the Sox off our baseball teams just any time. In spite of the fact that we have a lot of fine players, we have no organized baseball team.

The cause of this situation in baseball is due to the fact that there is too much greedy grasping for nickels among the baseball players instead of the desire to have a good club. The managers of these many teams don't care what kind of team they have so long as they themselves can pocket a few dollars. The players don't care who they play for so long as they get the price of a hair-cut or admission to a dance. Both managers and players are too cheap to care about building a good club. They would rather fight over the crumbs from the table, than sit up together and enjoy a good meal from the table.

Our football reached its present place through unselfish leadership which sacrificed and placed the good of the club above individual profit or glory. The success of our basketball team has been due to this same self-denying team spirit, born of the desire to have a good team. Ask any of the baseball managers or players to do as the football and basket-ball players have done, and you will get an invitation to a place where you won't need an overcoat.

Even in these lean years our football and basket ball teams draw from two to four times as much as white clubs do. While nobody is making any money now, we are building up to the time when things will get better. Then we will be in demand when the real big time competition is because we will have proved we can go. And we'll all make more money than we ever made in all our athletic careers before.

This is the ideal year to start to build a good club. Baseball won't be a very paying proposition this year, and most of the semi-pro clubs in Iowa will be playing for the fun of it. Why don't some of our leading baseball players get together and build up a good team? Establish a reputation and get ready for the better times. The present managers and team owners are too greedy or too ignorant to help you, so, you'll have to help yourselves.

If you want your picture in the rotogravure section call the Bystander for information.

Get your leader in whom you all have confidence and stick with him. Don't jump your club every other week in order to make an extra fifty or seventy-five cents. You will be playing for bigger stakes which are a lot farther away. Develop into a good club, able to go at all times and with an honest, capable leader you will surprise yourselves with the games and purses you'll get.

We've put our football and basket ball teams on the map. How about baseball?

THE BIG FIVE

Last week was a rather hectic one of close games and one loss, with no chance to relax until Tuesday night. Wednesday the Valley Junction De Molays came to West High and were ready. The Valley boys turned up with a surprisingly good club, and it seemed that our boys were not supposed to win. They didn't, the score being 27 to 29 in an exciting scuffle.

Thursday the boys went to Alden and grabbed the Alden Colts, one of the three big time clubs in North Central Iowa. Those Colts turned out to be horses, and what a battle we had! The Five trailed from one to four points all through the game until the last two minutes they got a break and went ahead two points. On Palmer's sensational basket, with ten seconds left to play one of "them thar" Colts made the beathest shot we ever seen

and tied the score at 21 all. Then we put on Brown's special scoring play and scored in the overtime period. Palmer added a free toss and we won 26 to 21 and the Coach almost became a raving maniac.

Friday the gang went to Monroe and were still shaky from their terrific battle the night before. They led the home boys all the way, but couldn't get far enough ahead to win 22 to 16. Brown and Allen nearly made all the points for the Five. This was the first time they had been able to play under wraps all week.

Tuesday the gang spent a lot of time looking for Viola and finally sneaked up on the town in which the gymnasium is the biggest thing for miles around. The boys played the Viola hot shots and turned in their best performance of the year. Those folks had never seen the Globe Trotters so we took a leaf from their book and put on a show that beat anything they'd ever seen. One old man said he hadn't seen a better show in forty years. Oh, yes, we also managed to get enough points so we could show the score being 42 to 21 with Overton taking his time to sink at least one basket for the home boys since he couldn't hit the basket he was supposed to.

SIDE LINE NEWS

We didn't see last week's league battles, but they must have been whizzers, with the Fellowship club nosing out the Panthers for the Junior play 15 to 10 and the Corinthian-St. Paul brawl which tied things up in the league making a play-off necessary, Corinthian winning 29 to 25.

We owe the Fellowship club an apology. Last Wednesday night they played over at West and beat the C. A. C. Juniors 16 to 6. We didn't mention it. Sorry, boys, for it isn't our intention to slight anybody.

Heywood Brewer made the all-city team at center, shifting McMichael of Roosevelt to forward. Let's see, we believe that is the second Negro to make the all-city club, James Allen being the first. Brewer stood out all the more and deserves special credit because he played with a weak team.

After seeing how the Trotters performed against the All Stars, our boys are rather glad they didn't make the All Star Club, still, some of them deserved that honor.

Last week at Alden was the first real big time club we had met and we were all happy to win. The three best clubs in that part of the state are Hubbard, Masoh City, Denison and Alden. The only games they have lost have been to each other and Hubbard lost to the Trotters while Alden scratched out on them. An even break with two of those good clubs is not a bit bad.

We hated to lose that Valley Junction game in front of a home crowd. There were so many people there who enjoyed it, and now they tell us that is the only real team we played all year. They're wrong. What about Hubbard and Beech? They beat us, too.

The fellows have now developed into a real club. Even when they are losing they don't blow up and take wild shots, but keep on trying what they know and play for a break. A team like that may lose, but it will seldom if ever be stampeded.

How many games have we played this year? Twenty-six, losing three. What? "Was you dere, Sharley?" So, that's twenty-six.
