Must Face Trial In Virginia For Murder

Judge Lowell Faces Impeachment
Washington.—The Supreme court of the United States Monday refused to review the case of George Crawford, whose fight against extradition from Boston to Middleburg, Va., where he is wanted to stand trial for murder, was made a nation-wide issue last winter when Federal Judge James A. Lowell ordered him discharged following a habeas corpus hearing.

In this refusal, the order of the court of appeals, which reversed Judge Lowell's decision had ordered Crawford sent to Virginia for trial, was left standing. The N. A. A. C. P. then took up the case and appealed on writ of habeas corpus to the federal court for Crawford's release on the grounds that he would not receive a fair trial in Virginia as Negroes were denied jury service.

It was upon this plea that Federal Judge Lowell made his sensational ruling which caused the House of Representatives to appoint a judiciary committee to investigate the conduct preparatory to filing impeachment proceedings.

Crawford is wanted in Virginia on charges of murdering Mrs. Agnes B. Isley, wealthy white woman, and her maid, Mina Bucher, in January, 1932. He was arrested in Boston, where he had gone before he was indicted on the murder charges.

Lee Case Will Not be Reviewed

Washington.—(ANP)—Euel Lee, alias, Orphan Jones, who was convicted more than two years ago for the murder of Green Davis, white farmer, near Ocean City, Md., was denied a review of his case by the United States Supreme court Monday, October 9.

Attorneys for Lee, retained by the International Labor Defense, had sought to have his conviction set aside on the grounds that there were no Negroes on the jury which convicted him, nor on the grand jury which indicted him.

FIGHT U. S. COLOR BANS IN BRAZIL

SAO PAULO, Brazil, Oct. 13.—The efforts of certain immigrants here from the southern part of the United States to set up a Brazilian Ku Klux Klan received an answer from the people of this state this week when it was made known that Sao Paulo and Bahia have organized a society known as the "Frente Negro" (Black Front), which, although only a few months old, has already enrolled more than 50,000 members.

The Black Front society, according to its founders, has for its purpose the re-establishment of the friendly relations that have formerly existed here between the races, but which have suffered recently due to the influences of white Americans, who, not satisfied with the chaos of race relations in their own country, have come here to sow the seeds of trouble.

"NO COLORED TRADE WANTED" SIGN ILLEGAL IN NEBRASKA

Omaha, Neb., Oct. 1.—Posting of signs reading "No colored trade solicited" in shops selling beer is in violation of the Nebraska civil rights law, according to an opinion received here by R. C. Price, president of the Omaha N. A. A. C. P. branch from Attorney General Paul Good.

Mr. Price had complained that such signs were posted in Omaha beer gardens. Mr. Good held that establishments selling beer came under the classification of restaurants or hotels and could not exclude colored persons.

"Heaven Bound" Pageant Is Great Religious Spectacle

By Everett Wadsworth Staff Writer

An audience of nearly one thousand people witnessed the first performance of the religious pageant "Heaven Bound" presented Thursday night at St. Paul A. M. E. church under the direction of Madame Pauline Dalley of Kansas City, Mo. The local Ministerial Alliance and Women's Federated Clubs of the city sponsored the affair headed by Mrs. S. Joe Brown, who was general chairman of the production. This unique spectacle, repeated tonight, has been hailed by modern critics in leading cities as the prize drama of modern religious presentations. It is certainly the best of Biblical dramas, staged by local talent, probably seen in the history of this city.

Dramatic Scenes

The theme depicts the Christian's weary journey through this wicked world and the various applications for entry into Heaven of characters from all walks of life; the drunkard, rich man, widow, soldier and gambler. Probably, the best scenes were: the triumphal entry of 200 white robed singers of the Heavenly choir wearing golden crowns and waving palms singing "When the Saints Go Marching In," the singing of George Brewer "Tramplin'" and "Look to Heaven," accompanied by the mammoth chorus, the Wayward Girl's repentance, reuniting of Mother and Daughter, the Devil's futile attempts to ensnare Christians and the final climax of his battle with the Soldier of the Cross.

Gorgeous Settings

The grand finale included the blending of the voices of the entire cast in

the mighty "All Hail Emmanuel," amid a setting of white background dotted with golden festoons fronted by an immense Golden Gate, overhead were seated fifty children robed in white representing angels, each playing a golden trumpet and harp. The entire scene was acted under amber and blue lighting effects, created by Lester Benning, technician and assisted by Carl Johnson.

Characters

The narration was read by Madame Bailey with music by Vivian Warricks Parker, pianist, George Robinson, saxophonist, six vocal soloists, and the mammoth Heavenly choir of 250 voices in spirituals and colorful accompaniment. The characters were: St. Peter, Rev. A. Ross Brent; Satan, Bonnie Wellington; Wayward Girl, Dorothy Miles; Hypocrite, Gertrude Brown; Poor Widow, Olive Edman; Rich Man, S. L. Ewing; Minister, G. H. Mason; Evangelist, Joburgness Kelso; Blind Woman, Mrs. J. W. Tatt; Weary Travellers, George Brewer, Goble Fast, Viola Jones; Old Man, W. H. London; Daughter, Gertrude Caz; Mother, Sophia Nichols; Gamblers, Morris Smith, Robert Brooks; Guardian Angel, Eumec Rhoads; Travellers, Cecelia Williams, Elizabeth Warricks; Soldier, Estella Broomfield; Gatekeepers, Helen Frye, Valeria Griffin, Lucille Henry, Geraldine Mann.

Mrs. Brown expressed appreciation to the public for their ready cooperation; Mrs. Dalley was pleased with the active interest of the churches and the clubs; she looks forward to presenting a similar production here again next year.

Tentative plans call for the speakers to appear at the colored churches here in the morning with a public meeting in the afternoon with the place to be announced later. Mrs. Patterson is the mother of the oldest of the Scottsboro prisoners. Lester Carter, white, is the friend of Ruby Bates, one of the alleged "attacked" girls; both are now defense witnesses. Richard Moore, Negro, is a noted orator and champion of equal rights.

Maryland Mob Defies State Police to Get Victim

Princess Anne, Md.—George Armwood, accused of attacking Mary Denton, Monday, 31-year-old white woman, was dragged from Somerset county jail Wednesday night by a mob of more than a thousand men, women and children and was lynched.

He was hanged to an oak tree after the mob had stripped him of his clothing, and pulled him behind an automobile through the main streets. He apparently was dead before he was hanged. Later, the body was taken to the public square and burned.

Overpowered Police

The mob overpowered 25 state policemen who had been sent to Princess Anne to guard Armwood, injuring five officers.

The snatch to the hanging was wild in extreme, the mob members continually leaping on the dead man, even after he fell to the ground and was unable to rise. After they had burned the body the mobsters disbanded.

Repulsed Once

The mob gathered shortly after nightfall but was driven away from the jail when police fired tear gas bombs. Later it again came forward, and this time came to hand-to-hand combat with the police. The mob then took timbers and shattered the jail door while the officers stood helplessly nearby.

Governor Ritchie, after being informed of the lynching, said he had telegraphed officials to set in motion all the forces of law to apprehend the mob members.

Law Opens Jail; Prisoner Murdered

Ninety-six, S. C.—In a crime whose fiendishness is unrivaled in this section, four white men took 10-year-old Bennie Thompson girl off jail Saturday night and beat him to death in the woods at the edge of town.

One of the men, who confessed his part in the affair, said that he and his three friends had trouble with Thompson and that he drew a gun on them. They had him arrested, went to the jail in the afternoon and asked the jailer to let them have Thompson. The jailer refused. Then, said the captured man, they asked the chief of police, Calvin Rush, for Thompson and that Rush told them to come back after dark and the jail would be unlocked.

Gov. Ira Blackwood has dispatched a state constable to help in the investigation and Solicitor Horner S. Blackwell has announced his intention to see that not only are the lynchings punished but that Rush is indicted and prosecuted for his part in the affair.

Sheriff Halts 100 Would Be Mobsters

Thibodaux, La., Oct. 20.—At least one white sheriff has proved that lynchings can be prevented. This man, Sheriff Thomas Stark, proved this fact last Saturday when, armed with a rifle, and with two deputies standing back of him, he held at bay a mob of more than a hundred men and women who had come to the jail to lynch a man who had been brought here from Illinois for safe keeping.

Jones to Head Negro Study Unit

Washington, D. C.—Secretary Roper Wednesday announced the appointment of Eugene K. Jones, New York Negro economist and executive secretary of the Urban League, to head the commerce department unit for the study of Negro problems.

The secretary also announced that the business advisory and planning council, comprising the business leaders of the nation, will meet with him Nov. 1.

Alabaman Flays Mob Violence

Birmingham.—A terrific broadside against lynching was launched here last Sunday by Dr. Henry M. Edmunds, chairman of the State Inter-racial Commission and pastor the Independent Presbyterian church, in a sermon before many of the city's most representative people. On Monday the Ales Herald broadcast the sermon in full to the entire city, under heavy front page headlines.

Quoting extensively from the studies of mob violence made by the Southern Commission on the Study of Lynching, Dr. Edmunds painted many vivid pictures of the insane brutality of lynching mobs, arraigned their work as a deadly attack on civilization, and pointed out means for the eradication of this type of crime. Of all the latter, he said, the most valuable is education for both races—education of a kind that deters people from crime and gives them an appreciation of the sanctity of personality without respect to condition or color.

SCHOOL FOR JOBLESS IS BLOCKED

TAMPA, Fla.—Tampa's Negro experienced a shocking disappointment Monday afternoon when Mrs. Blanche Armwood Washington, Social leader, educator and founder of the Tampa Urban League, pressed her way thru the crowd of men and women who waited her return from an important summons to the office of the Social Service Director of the Hillsborough County Board of Public Instruction. These eager, anxious, unfortunate citizens were at Mrs. Washington's office at the suggestion of the teachers waiting to serve in the first adult Educational Project for the Negro unemployed to enroll for instruction and help them to earn through mental work leading to better citizenship, four dollars and eighty cents per week, for support of their suffering families.

Imagine the shock, the sad contentment when Mrs. Washington announced that there would be no Federal Relief school, according to information given her by Miss Blanche Asbury to the effect that the project was dead and all plans abandoned indefinitely.

Questioned as to the cause for such a tragic end to a matter that

had brought such unprecedented happiness to the Negroes of Tampa, those to be directly benefited and their good thinking sympathizers as well. Mrs. Washington said she was advised by Miss Asbury that the City Supervisor of Schools, Mr. M. S. Hyde, asked that the project be abandoned since it would be a duplication of work done in a night school to be opened for Negroes at the request of the Tampa Urban League.

The Federal Relief school was planned as a "work project" out of which students would receive thirty cents per hour. The school was to be conducted as a day school according to Mrs. Washington, operating four days per week and four hours per day, aggregating sixteen hours for each student or four dollars and eighty cents per week. The course of study was to include the "three R's" and a vocational period to be arranged according to the needs of the individual students, such needs and trends to be determined thru personal vocational guidance furnished by Mrs. Washington prior to classification. A special questionnaire for this purpose has been carefully prepared and this entire work was to be devoted to these interviews.

The Hillsborough County Board of Public Instruction had unanimously endorsed the plan at its meeting Thursday, Oct. 5th and consented to give school books for the classes. The Old Fellows had donated the use of their auditorium for an indefinite period, and two teachers were to have class units there; the St. James Rectory was offered as a home for one; or quit Bethel Baptist church had graciously opened its doors to a class; and Mr. Zion Baptist church on Michigan Avenue welcomed two teachers and their students. The project would, therefore, not interfere with any Tampa Public school activity.

With the enthusiasm for this nationally helpful work mounting, hourly as the day for the opening of school approached the abrupt ending struck the Negroes of Tampa with consternation and a determination to investigate the reasons and fix definitely the responsibility for this great loss to needy black men and women.

There was actually no duplication of work done by the Tampa Public schools, and no offering of such material aid from the public schools to untrained Negroes as this Federal project offered. Leaders in every walk of life began at once to organize for the defense of the project.

The Tampa Negro Ministerial Alliance, in the largest business session recorded for many months, went on record as denouncing any agency or individual that would block a thing calculated to benefit the poor in this crucial time and

Kelly Miller SAYS

HOW THE GOVERNMENT CAN BEST HELP THE NEGRO

The national government can best help the Negro by removing the grip on the soil. The saddest chapter in the history of race progress is found in the census report that during the last century the Negro lost over four hundred square miles of farm ownership—an area larger than the state of Connecticut. There were no offsetting gains of a permanent character and value.

My advocacy of the farm as the Negro's only salvation grows out of a life long experience, observation and conviction. I was born on a farm and lived and worked there until I was seventeen years of age. I bought the farm on which I live in every city in the land where the last fifty years have been a poor farm proprietor. I have tasted both the joys and the hardships of rural life. I have experienced the exhilaration and zest of the tillage of the ground and the joy of the catch in my fish boat as I sit all day long in the hot sun fishing in Mill Creek and at home making labor for a whole year to be rewarded at Christmas tide with 60 dollars to buy a pair of shoes and some fine clothes.

On the other hand I have lived in the city for the past fifty years, importantly related to Howard University, the chief Negro institution of higher learning. I have observed and studied race conditions in every city in the land where Negroes are found in considerable numbers. Although this study has not taken on the form of technically scientific research and surveys yet I have had a wide appreciation of the whole field. Those who have done me the honor to follow my writing for the past forty years can testify that my sympathies have always leaned to the side of agriculture. This more widely and closely I look into city conditions, the more thoroughly I am convinced that they hold out little immediate or future hope for comprehensive racial betterment. Let us take Harlem, the South Chicago as tragic examples. In these two metropolises, race prejudice has shut the Negro into restricted areas, and abandoned to him extravagant houses built a generation ago for the wealthy. One walks along Marquette Street in New York or South Boulevard Chicago and grows when he contemplates the sinister "rick" which prejudice has played by building over these fastidious properties to a hopelessly indifferent race. It is said to say that the average Negro roomer in these and other cities are paying at least half their income for rent. Any fool can easily predict the outcome of such a dilemma. The lot of those who live in the slums and shanty towns is no whit better off.

Race prejudice confines the city Negro to the lower rings of occupation, and under the growing pressure of competition is pushing him further and further down, until serious threat to push him out altogether. The farm offers the only relief in sight. It is very difficult to get the merits of the country Negro case adequately presented to the people of the country, even the Negro himself. Race leaders who control the public press and other agencies of public opinion are located in the cities and are unwilling to see the country Negro case presented to the people of the country. Their consciousness are in the cities. They should hold their peace. He always will cry out.

A generation ago, we watched with much interest such rural experimenters as Boyce Watkins, Mound Bayou, Miss, and sundry like enterprises in various parts of the South. These all have come to a greater or less degree of ruin. They have sustained the brunt of agricultural depression in the country at large. But the noble experiment is not discarded. These experiments should be carried out in a systematic and scientific manner of their early

CALIF. SCRIBES WILL EXPOSE HIGHER-UPS

LOS ANGELES (WS)—An affidavit supposedly signed by James Orlando Mitchell and substantiated by Henry O. Douglass, Greer, newspaper men who were apprehended by the police in alleged charges of collecting graft, is being circulated in certain sections of the city, and the allegations contained therein may cause an upheaval in the present city administration according to statements that have been issued by people who are well conversed in the affairs of the Municipal government.

The statements of the two men which have been sworn to point at one man high up in the present administration who is supposed to have deliberately used a large sum of federal money as a means of acquiring his coveted office. It is charged in the affidavit that Mitchell was one of the workers in the recent campaign and he contacted men who were out of work and offered them a chance to get employment if they would vote the right way.

It is said that the federal government has begun to look into the matter and he original of this document has been sent to Washington. This affidavit is believed to contain enough scandal to make the recent election one of the most drastic for a certain group of politicians that they will not be able to participate in another one for some time to come.

However these men may not testify to what has been written at the time of a hearing. This document is said to have been drawn when the men were in jail and there were no plans on foot to get them out. They claimed that the charges were trumped up and it was an attempt to blacken their character when they did leave the jail. While in custody, Mitchell is reported to have talked and the affidavit which carries his signature is believed to have been the instrument which is a record of what he said.

Just what will become of the matter cannot be said at the present time. Since the two men are free again, it may be difficult to get them to repeat what they said while behind bars. It may however be the initial firework

SEGREGATED HOSPITALS ARE HIT

Rebuttals Follow Disclosures of Grigsby OFFENSE TAKEN

DETROIT, Mich.—The statement of Snow F. Grigsby, secretary of the National Association for the Advancement of Colored People, that the private segregated Negro hospitals in Detroit were not recognized as such by the American Medical Association, has been met by a rebuttal here which may lead to a public discussion of the subject of great concern to the colored people. Honors of the valetage hit by his statement were taken definite offense by the American Medical Association.

With his program of elimination of segregation Grigsby has issued the following letter to Fred M. Hiltz, president of the Board of Trustees of the Memorial Hospital, inviting him to give his views on segregated hospitals and allied questions. The letter is printed in full from St. John's Presbyterian Forum:

My Dear Sir: By way of this letter, the above Forum is extending to you an invitation to address an audience on the following subject: Segregated Hospitals. Segregated hospitals do they affect the health of the Negro? The American Nurses and Physicians Association, on Sunday, October 22nd, November 26th, at 3:15 p. m. I desire you a packed house of callers. We are quite sure you are aware of the fact that it has not been a question of the Negro physician practicing in private hospitals, but it has been a question of his entering Municipal Hospitals. You are sure you realize that to segregate hospitals is to segregate the people. It is a different kind of citizen, medical student, physician, intern, nurse and patient, which you know is not the case. The thinking Negro citizens are

OUTLINE BIG GATE CITY PROJECT

Proposed University Housing Project is "Grand Idea" TO CREATE JOBS

ATLANTA, Ga.—The Atlanta Negro is to share in the funds to be spent by the United States government to improve housing conditions. An allocation of funds amounting to nearly four million dollars has been obtained for two developments in Atlanta, according to the announcement of Mr. C. F. Palmer, who returned today from Washington. One is in the vicinity of Georgia Institute of Technology, for whites and is known as the Techwood Development. The other is to be in the vicinity of Atlanta University and Spelman and Morehouse colleges, and is to be known as the University Housing Project.

The plan is to construct modern, fire-proof, three-story buildings which will provide adequate housing conditions for the occupants. The project comprises six blocks of property, approximately 800 units. These 800 units will include 280 rooms and 15 stores. The buildings are to be modern in every detail, yet the rental will be very moderate and apartments will be available at rates as low as \$4.50 per month per month.

Simple Rites Mark Funeral of Deaconess

ATLANTA, Ga.—Simplicity and brevity marked the funeral services of Mrs. Lizzie Moore, very prominent matron and one of the oldest members of the First Congregational church Sunday. The rites were very impressive and beautiful. Too much praise can not be bestowed to Murdaugh Brothers, morticians in charge, upon the splendid manner in which the funeral was conducted.

Simple Rites Mark Funeral of Deaconess

The casket was a full field mouse grey broadcloth with a crepe lining. Mrs. Moore made a very beautiful corpse and bore a striking resemblance to the deceased in her life-like form.

MASONS WIN SMASHING VICTORY

Court Appoints Negro to Receivership of Endowment Dept. MEMBER OF ORDER

NASHVILLE, Tenn.—The Grand Lodge of Ancient Free and Accepted Masons, jurisdiction of Tennessee won a smashing victory over the machinations of evil influences (that) sought to exploit and disrupt it. It was a victory in the courts of law and will likely have a far-reaching effect in curbing the zeal of a certain class of white men who are continually seeking to control Negro organizations when the slightest distress of those institutions affords them an opportunity to do so.

It was during the month of May of this year that one E. B. Kirkpatrick, white Tennessee, but posing as a resident of Chicago, gained the ear of officers of Tennessee Masons and was employed to adjust some claims of them. It is said that Kirkpatrick settled a number of these claims, but while moving about among members of the order he misrepresented to them the condition of the order, with the result that some claimants became disturbed and began to file suits and to repudiate settlements they had agreed to with Kirkpatrick.

In July of this year at the Grand Lodge meeting held in Nashville the Masons by resolution discontinued their Endowment Department, and as a proper and convenient means of effecting a settlement of all claims against the Endowment Department they filed a bill in the Davidson County (Nashville) Chancery Court, asking that a receiver for the Endowment Department be named. It was their purpose, of course, to have a competent colored receiver appointed. The Mr. Kirkpatrick was made a party to the suit, in view of his activities with claimants. However it is stated he evaded summons in the suit, and instead took steps to have the whole Grand Lodge thrown into receivership.

Kirkpatrick's suit for a receivership was filed in Federal Court at

PASTORS CAN ONLY STAY 5 YEARS

HOPKINSVILLE, Ky.—Since conference time is drawing near, the good people of our fair city are now wondering and will regret the departure of one of its most influential ministers. But the popular pastor's leaving has a lesson at this time. Let us bear in mind that Methodist preachers come and go seldom do they stay in a city over five years. All other denominations allow their pastors to become permanent citizens, which has its benefits. But when men and women come into a city for just a few years they should not be allowed to assume a leadership that means the peaceful relationships, especially the political situation that exists.

Unfortunately, Hopkinsville, has just gone through this ordeal. And one of our well known influential pastors who will not be a resident of this city for another year, if the Bishop sticks to the rules of the conference that a man can only stay in the church in a city certain number of years, then we are bidding this brilliant pastor good bye, for we know that he will not be a resident of this city for another seven or ten years. He was an excellent gentleman and beyond doubt meant well, but his present course in politics is calculated to hurt the Negroes of our beautiful and most powerful city. Because he not only disturbs the interracial relations that had always been so good in Hopkinsville, but he was and is still creating bad feelings between the Negroes themselves. This kind of leadership must be looked upon as degrading to the colored citizens of Hopkinsville. We must remember that we have to live here, where as this man will be gone soon. So we are appealing to you to beware of such leadership.

Memphis, Tennessee, and he was successful in having one William E. Umber, of Memphis, appointed a receiver for the whole order.

The appointment of the receiver stirred Masons throughout the state, and publicity of the affair was heard throughout the nation.

Notwithstanding the appointment of the white receiver and by Federal Judge, a thing that usually causes Negroes to resent is either give up or seek the counsel of the colored white receivers. They can procure the Masons of Tennessee elected to rely upon the skill of their own attorney, Z. Alexander Laddy, colored, one of the most brilliant attorneys of the race, and who enjoys the highest respect in all of the courts of Tennessee.

Mr. Laddy went to Memphis, before Judge Anderson, the Federal judge who had granted the receivership and appointed Mr. Umber as receiver, and there filed a plea in behalf of the Masons that caused the judge to rescind his action in granting the receivership. Mr. Laddy showed that sheer misrepresentation had been made to Judge Anderson in getting him to grant the receivership. The lawyer pointed out that the Federal Judge in Western Tennessee was without authority to entertain a suit against the Masons of Tennessee because their chief place of business was in Nashville, which is in the Middle Tennessee Federal district. Mr. Laddy followed this up with the plea that no Federal court at all would have jurisdiction in a suit such as the one that had been brought because the "aggregate sums due the nonresident claimants in the case was less than three thousand dollars."

A further fact pointed out by attorney Laddy was that a suit for receivership of the Endowment Department of the order had been

Mr. Barkway is a noted proponent of the League of Nations and is President of the British Universities League of Nations Society. He debated the war debts question over the radio with Yale university earlier this year.

INTEREST IN UNION IS AROUSED

DURHAM, N. C.—The Labor-Farmer Union held a very enthusiastic meeting at the Mt. Vernon Baptist church Monday night and several persons became members.

NEW CORN HOG PROGRAM

Secretary Wallace has evolved a program whereby hog farmers are to be paid bounties on 75 per cent of the average number of hogs grown during the last three years and 30 cents per bushel on 75 per cent of the average number of bushels of corn grown during the past three years.

Unquestionably this plan will raise the price of these commodities some, but whether the increased price can be maintained is another question.

Figures show that the farm prices were 32 1/2% higher in September, 1933 than in 1932. However, buy a sack of flour today and it is 75% higher.

How, like the soldiers who were paid their bonus, the farmers will all have a little money for a while whether it cures their ills or not.

A GOOD APPOINTMENT

Secretary Roper of the Department of Commerce has announced the appointment of Eugene Kinkle Jones, executive secretary of the Urban League, as chairman of the study and advisory committee to which the department will look for guidance in matters pertaining to Negroes.

Secretary Roper is from North Carolina and yet he has shown more inclination to deal with Negroes fairly than most cabinet officers even under Republican administrations. He recognizes that the Negro has a problem that must be dealt with by co-operating with the Negro rather than acting behind closed doors with no voice from him about what action should be.

Thus Secretary Roper has done what we would like every public officer to do: give the Negro competent representation in every branch of the government.

THE INTERRACIAL CONFERENCE

The Interracial Commission of Des Moines is holding a regional conference in Des Moines, October 22 and 23. Dr. George E. Haynes, of New York, secretary of the committee on Race Relations of the Federal Council of Churches, and two co-workers will conduct the conference.

Dr. Haynes has given a great deal of study to the NRA as it affects the Negro and a discussion of the subject should be of universal interest.

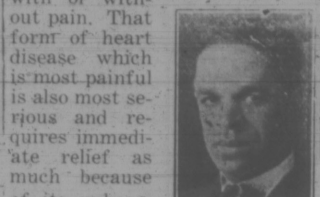

The meetings both day and night will be open to the public. People interested in race relations will do well to attend for besides learning much on the subject, results are bound to improve our already fair relations here in Des Moines, of which we boast.

Sports

By Allen Ashby

Our Scout Says: Our boys enjoyed a good week end this time; Ward of Michigan blocked a Cornell punt as his part in the rout of the Big Red team.

Lyons and Babbs started for Indiana against Notre Dame. Babb carried the ball in the first part of the game. Lyons hung through until the whistle blew.

High Schools: At North, Leland Johnson and Archie Lucas helped dust Lincoln. Johnson's hard plunging was one of the features of the game; too bad he hurt his ankle but it'll get much worse if he doesn't ask questions about how to protect himself.

Three Musketeers at East High looked after Sioux City. According to the books, Heywood Brewer scored just one lone point but that pass Frederick clicked again; Lawrence is getting to be something of a pass snatcher and that Brewer boy tosses pretty well himself.

Professionals: Joe Lillard seems headed for all-star honors in the National Pro League if he can keep up his present pace. Last Sunday he made all of his team's points when they lost to the Bears at Chicago.

Ankeny Club: Our club at Ankeny put up a whale of a battle last Sunday before going under against the Daniels Tire team.

After facing the Daniels Tire eleven, we are really heartbroken because the Bulldogs folded up. It is a firm belief that Daniels couldn't even score on the Bulldogs; we would back that with our shirt.
