Prisoner May Have Government Protection

President Can Call Out Land, Naval Forces or Militia Against Officers Who Permit Lynchings

Washington, Oct. 27.—The federal government has the power to punish officials in any state who permit lynchings of prisoners in their care, and the President of the United States may call out the land and naval forces of the nation to see that the guilty ones are punished. These are the contents in a brief filed with Attorney General Cummings this week by Charles H. Houston, Leon Ransom and Edward P. Lovett, attorneys of this city.

A federal law first passed May 31, 1870, and amended to make it still stronger in substance that any person under color of any law or custom shall subject or cause to be subjected any inhabitant of any state to the deprivation of any rights, privileges, immunities secured or protected by the Constitution and laws of the United States, or to different punishments, pains or penalties on account of such inhabitant being an alien or by reason of his color, or race, than is prescribed for the punishment of citizens, shall be deemed guilty of a misdemeanor and on conviction shall be punished by a fine not exceeding \$2,000 or imprisonment not exceeding one year, or both.

Going deeper, the brief recites from Section 55 of the same chapter and title (R. S. 1929): "It shall be lawful for the President of the United States, or such person as he may empower for that purpose, to employ such part of the land or naval forces of the United States or of the militia, as may be necessary to aid in the execution of the judicial process issued under any of the preceding sections, or as shall be necessary to prevent the violation and enforce the due execution of the provisions of this title."

Would Punish Tuscaloosa Sheriff

The brief is an attempt to get the federal government to act to punish Sheriff R. L. Shamblin of Tuscaloosa county, Ala., from whose custody Dan Phippen and A. T. Harden were taken on August 12 and lynched. The three lawyers prepared and submitted the brief for the N. A. A. C. P., the International Labor Defense and the American Civil Liberties Union. They contend Sheriff Shamblin caused Phippen and Harden to be deprived of their rights as United States citizens, and the sheriff acted under color of or custom of Alabama that the victims suffered the deprivation of the rights by reason of their color and race, and that federal prosecution is the only means by which the deprivation can or will be punished.

Local Scottsboro Meeting Sunday

The local International Labor Defense will sponsor a Scottsboro meeting, Sunday, Oct. 29, at the Jewish Odd Fellows Temple, Third and Crocker sts., at 2:30 p. m. Mrs. Janie Patterson, mother of the oldest prisoner, Richard Moore, West Indian I. L. D. lecturer, and Lester Carter, defense witness, and friend of Ruby Bates, will be the speakers.

The two years' imprisonment, the Alabama trial methods, Victoria Price's story, Ruby Bates' testimony, and the cases of American class oppression will be told by these speakers.

The Illinois state is free to disintegrate and when you get the power.

Scottsboro Trials Set for Nov. 27

Decatur, Ala.—When the Scottsboro boys face trial a third time in a special term of court here November 27, the presiding judge in the case will be Judge W. W. Callahan.

Judge Callahan was picked to preside at the hearings by Attorney General Thomas E. Knight, prosecutor at the second trial in Decatur in April. The decision came following a conference between Callahan, Knight and Judge James E. Horton, judge in the first Decatur trial, which ended in conviction and sentence of death. Judge Horton later reversing the sentence and ordering a new trial for Heywood Patterson, first Scottsboro, youth to face trial.

GOV. RITCHIE, JUDGE BLAMED FOR LYNCHING

Baltimore, Md., Oct. 27.—The lynching of George Armwood at Princess Anne last Wednesday has brought forth a storm of denunciations from men and women of both races throughout the country. Governor Albert C. Ritchie, who knew of the mob spirit at Princess Anne before the lynching, has placed the blame upon the shoulders of Judge Robert F. Duer of Princess Anne and State's Attorney Robins.

Judge Duer, who, with the state's attorney, ordered Armwood's return to Princess Anne from this city, where he had originally been placed in jail for safekeeping, has sought to shift the load to the shoulders of Sheriff Luther Daugherty and the state's attorney. The state's attorney absolves himself of all blame by declaring that it is the duty of the sheriff to protect his prisoners.

G. W. BROWN INJURED IN WAGON-ALTO COLLISION

G. W. Brown, 1818 Illinois St., suffered bruises and body injuries in an accident at the west end of the University Ave. bridge Thursday evening when the wagon in which he was riding, was struck and overturned by an auto driven by E. G. Hilleberg, 503 Hughes Ave.

"Challenge to Youth"

The subject under discussion at the camp conference was "Today's Challenge to Youth." Conference leaders were Mr. Sulmonetti and Everett Wadsworth. Devotional leaders were Mr. Haydon and Florence Thomas. Mr. Wadsworth, Melvin Overton, Epworth League president, and Jesse-rean Sharon all of Burns M. E. church, were among the thirty-five who attended the conference.

Four Church Groups The Young People's Christian Federation

The Young People's Christian Federation is composed of the leaders of the four young people's church groups in Des Moines—Christian Endeavor, Luther League, Baptist Young People's Union and Epworth League.

What Do You Know About Your Present City Government?

The Bystander begins a series of articles about our public officials. At election time voters are apt to discount what is said because all are looking for votes. These articles offer an opportunity to know what is going on at a time when no campaign is in progress.

Public Affairs: A brief resume of activities and accomplishments of the department of Public Affairs of the City of Des Moines under the supervision of Mayor Dwight N. Lewis:

City Clerk: A complete re-registration of voters and re-numbering of precincts to simplify the holding of elections and to cut down the expense of the administration.

Building Department: A careful re-checking of furnace installations, with rigid requirements for building safety and the protection of homes and buildings. Revision of building code with improved building requirements looking toward an increase in home building.

Health Department: Rigid inspection of hotels, restaurants, meat and milk dispensaries. Only complete sanitation requirements for outdoor toilets enforced in more than 20 years. Effectiveness shown in absence of epidemics of any kind. City dumps carefully supervised. Thousands of school children vaccinated against contagious diseases.

Legal Department: Hundreds of left-over cases promptly disposed of, including many claims for personal damages and remission or suspension of taxes. In many Court actions sustained by judgment of Court the correctness of assessed values of Des Moines real estate. A previous administration permitted reduction without a Court hearing in assessed valuations to the extent of hundreds of thousands of dollars in taxes. No favoritism is now shown. In the 408 appeals to the Court the present legal department has won more than 90% of those tried, many have been dismissed, and of the cases pending it is believed practically all will be won by the City. No legal department of the past has such a splendid record.

The expense of all departments under the jurisdiction of the Mayor have been drastically reduced since the present administration took charge.

Finance: In this day when so many criticisms of public affairs and public officials are heard it is the policy of this paper to applaud good service of any public official that has been proven worthy of praise. On the City Council at present is a woman who, during her campaign and election, showed every evidence of being a friend to colored people. Nearly two years since that campaign, Finance Commissioner Francette Miller has not only proven herself a true friend to the colored people of Des Moines by having them employed in every division of her department, including some places where they have never been represented before, but she has handled her

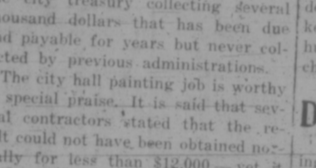

office in a manner worthy of applause.

By her action in the assessor's office, residence valuations in Des Moines have been cut far in excess of the amount required by the Beatty-Bennett bill. Expenses in all of her department have been drastically reduced and salary reductions in this department have been considerably greater than the average throughout city hall. Mrs. Miller's action in investigating the condition of special assessment taxes levied for real estate improvements has resulted in the city treasury collecting several thousand dollars that has been due and payable for years but never collected by previous administrations.

The city hall painting job is worthy of special praise. It is said that several contractors stated that the result could not have been obtained normally for less than \$12,000—yet it actually cost the taxpayers of Des Moines only \$2,550 and has given one of the most beautiful city halls in the country.

Public Safety: Crime wave in Des Moines has been definitely checked under the two terms of Roscoe Bane, commissioner of Public Safety. He is the only com-

missioner. He has established baseball diamond and athletic fields throughout the city.

Bathing beaches have been established, with an improved sandy beach on the south side which was enjoyed by thousands of colored people in the city. At the municipal airport, five acres of ground enclosed a baseball diamond, natural football field, and tennis courts. Mr. Welch's program also calls for, in addition to the sixteen tennis courts at Birdland, further improvements for civic beauty on the drive, and the riverfront which will employ hundreds of workers.

Streets: John MacVicar, commissioner of streets and public improvements, following in the footsteps of his noted father, has stood the test of the depression by taking this office at the most difficult time in the history of

the city because of the widespread unemployment.

Hundreds of workers have been given employment and thousands of dollars worth of improvements spent for public construction. The streets are in the best condition today ever recalled by the oldest resident, and the upkeep has been kept up above average.

Future plans call for further street paving projects and city-wide improvements to be shared by the needy working people who have been unemployed for some time.

Parks: This department is headed by a man with a wide background of experience and observation. Pete Welsh, former East High and Drake foot-

ball star and popular athletic official, was chosen as parks commis-

Women's Clubs In Nationwide Drive

Mrs. Sallie Stewart, retiring president National Association of Colored Women's Clubs and national chairman of the financial drive, has requested that an after collection be taken in every Negro church in the country Sunday, Oct. 29, for the purpose of raising funds for headquarters in Washington, D.C., and to place the N. A. C. W. on a solid financial foundation.

The Negro churches in Iowa are urged to cooperate with the Federated Club Women to make this drive successful. Mrs. R. A. Dobson, president, Iowa Federation, has appointed key women throughout Iowa, and one hundred per cent response from the church and the citizens is anticipated.

Dr. Jefferson Recovering

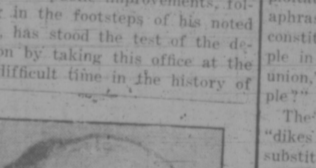

Dr. J. Alyn Jefferson, 1825 Washington st., is showing much improvement this week after a serious attack of pneumonia. It is reported that he is out of bed and is able to see visitors.

He has been confined to his home for three weeks; his attending physicians are Drs. Hubert H. London

and Dr. J. Alyn Jefferson. He has established baseball diamond and athletic fields throughout the city.

Drs. Haynes, Merchant and Swartz Discuss Race Issue

Old habit patterns, permitting or prompting dominance of the white race over others, are being destroyed, Dr. George E. Haynes, Negro, of New York, head of the department of race relations of the Federal Council of Churches, told the Regional Conference on Race Relations at First Methodist church Sunday night.

Dr. Haynes, Harvard graduate, discussed the Negro's contribution to civilization at Grace M. E. church vesper services Sunday afternoon. The Rev. Irving K. Merchant, from the Federal Council of Churches national office, addressed the morning services at Forest Avenue Baptist church.

The Rev. Phillip A. Swartz, also a speaker on the Sunday night program, talked before the morning congregation at First Friends church. The Rev. Mr. Swartz, a Congregational minister, is a member of the commission.

Harvey Ingham, editor of The Register and Tribune, presided at the evening meeting.

Pointing to the fact that "means of production has shifted from man power to machine management," Dr. Haynes said there was no longer excuse of need for the subjugation of one race to another under the "thin guise of necessity of production of goods."

NRA Difficulty: Attempted differentiation between white and colored races in wages and hours was "the fly in the ointment" in the formation of NRA codes, he said.

He told of discovery at the first formation of the cotton-textile code of a different standard for the Negro workers in the south, and said "two young Harvard economists" immediately set to work with briefs, and appearances to make the code apply equally to white and Negro workers.

Religious and social agencies have joined the drive to keep codes applying to the southern and northern pine lumbering industry, the steel mills, and other works free of discrimination against the workers of races other than the white.

Cites Constitution: He summarized his plea for religious interest in correcting race exploitation with the question paraphrased from the preamble to the constitution: "whether we have people in order to form a more perfect union," shall include all of the people?

The Rev. Mr. Swartz urged that the "dikes of good will and justice" be substituted for "dikes of suppression and intolerance" in stopping a possible flood of resistance to white dominance.

Northern Trek: The "collapse of southern agriculture" in recent years has accelerated the movement of Negroes from the south to northern and western states, Dr. Haynes told race relations conference at the Y. W. C. A. Monday. He estimated that a million Negroes had moved out of the south since 1915. "And they made the discovery that they really could live in the northern climate," he added.

Dr. Haynes was introduced to the audience by Dr. Stoddard Lane, pastor of the Plymouth Congregational church. Security of life and liberty and participation in civic affairs also were cited by Dr. Haynes as contributing to the movement of Negroes from the south. Among those present at the Monday morning meeting were a number of Grinnell delegates.

In addition to the problem of race and other races, Dr. Haynes pointed out that the problem of internal adjustments among the old and new communities is a serious one.

Negroes' Place in Iowa: After reporting the treatment of Negroes in Iowa, the conference concluded its two-day sessions at the Y. W. C. A. Monday night with a series of six recommendations.

A committee consisting of S. Joe Brown, Negro attorney; the Rev. Paul E. Becker, University Church of Christ; the Rev. George W. Robinson, Carinthian Baptist church, and Miss

praised Des Moines for its cooperation which helped to make this one of the most successful conferences held. Dr. Stoddard Lane, chairman of the commission, expressed his appreciation for the work of the team and the members of the commission. Atty. James B. Morris, chairman of the general committee, presided at the evening meetings.

Mitchell's Weekly Book Review

By CLIFFORD C. MITCHELL

THE VOICE OF BETHESDA.
This little four-page bulletin was given me by George P. Blount, the advertising manager. It is a weekly bulletin containing the announcements and personnel of the Bethesda Baptist Church, located at 53rd Street and Michigan Boulevard, Chicago. SMITH'S ARROW WEEKLY.
Purely an advertising "throwaway" of four pages, tabloid size, and containing about ninety per cent advertising matter of the merchants located, for the most part, between 47th and 51st Streets, Chicago.
THE FLASH.
A little eight-page weekly with an ambitious program, containing spicy news purely of Chicago's southside society; some gossip, a few sophisticated stories, a generous amount of theatrical and cabaret notes, and advertising of the same calibre.

THE BRONZEMAN

The October issue is the first under the new editorship of Perry C. Thompson, publisher and editor of the Chicago Review. Authors will be interested in Mr. Thompson's frank announcement of their commercial policy. Intimating that authors in the past have been promised flashy prices for manuscripts but seldom paid their new policy explains all of this for they are frank in warning the authors to expect but little in the way of cash remuneration, appealing more to a sense of mutual cooperation in building upward.

OHIO MERCHANT

A syndicated monthly put out by the Dixie Syndicate who publish the name and address of mail-order dealers on the cover for all those who care to use the medium as they wish. The magazine appeals, through the small beginner in the agency or mail-order field.

BIRTH CONTROL REVIEWS

The October issue is the first of a new series of a monthly publication published and distributed by the American Birth Control League and as such is purely a propaganda magazine for those interested in the subject of Birth Control and its affiliated ideas.

NEW MASSES

This is the monthly magazine published in the interest of those promoting communistic ideas. Quite a few of the leading colored writers and poets contribute regularly to New Masses. Those that like to read blood and thunder stories might find plenty of realism in reading New Masses each month.

OPPORTUNITY MAGAZINE

As every reader knows this is the monthly Journal of Negro Life published by the National African League and as such is naturally the official organ containing news, stories, articles, etc., designed to bolster the work of the national organization. It is one of the few Negro monthlies appearing with constant regularity, presumably because it is backed by a sizeable subsidy.

SHORT WAVE CRAFT

A monthly of national reputation containing news, stories, sketches, etc., of interest to radio lovers, and radio mechanics.

The New Era, published by Leavenworth prisoners, and the Koch Messenger, published by Koch Hospital patients, were also received and read.

ALUMNAE NOTES FROM FORT VALLEY

Fort Valley—Normal and Industrial School is in the heart of Dixie, about seven miles south of Macon, Georgia, serving thousands of homes of the race. In addition to its class "A" high school and industrial department there is a junior college department for which students go to any creditable college and make their classes. This school is well known for its thorough and progressive training in industries, academic subjects and the conduct of the races. All so vital a need for the race. All so for its progress in the athletic world. Ask Clark university.

The Alumnae Association of this school wishes the world to know that it is 100 per cent loyal to the promotion of its ideals and purposes. The association is making strenuous efforts to raise \$200.00 to donate in the Thanksgiving Rally to the School. The Association has already undertaken to buy a big "Bite" for the school to transport its singers, athletes, etc. So far, success is very apparent. All members and friends of the school and education are asked to send in their contributions as early as possible. Mr. H. A. Hunt, Jr., business manager, has pivoted Georgia in collecting financial aid. Many have responded to the call. The school aims to raise a certain amount in order to get its allotted amount from the board of education. So let us as a race begin to learn the lesson of self-support.

We are grateful to this newspaper for the courtesy of printing these notes. We go on record urging all our members to subscribe or buy out race papers every week. This applies to all members of the race and other races. Most of our race papers are very interesting and well edited. This writer takes the Atlanta World, Pittsburgh Courier and Chicago Defender. We also go on record promoting greater patronage to our professions, business enterprises, Negro Press and any other project that will progress us and cement us into a greater and stronger group.

W. T. Ford, D.D.S., Chairman of Publicity Committee, on their "exchange" list and their papers are not reaching me here in Chicago, although they did when I was in Jackson Prison; Florida Sentinel, Jacksonville, Fla.; Detroit Independent, Detroit. About four copies only of the latter newspaper reached me in my month; American News, New York, California Eagle, Los Angeles; Charlotte Republican, Tribune, Charlotte, Michigan, on July 13th Mr. DeFoe wrote advising me that my name had been placed on their "exchange" list but so far not a single copy has reached me. The Negro World, New York. This paper stopped coming about a month ago, school News, Jackson, Mississippi. This publication also stopped coming about a month ago; Afro-American, Baltimore; Kansas Spokesman, Topeka, Kansas. Another publication that stopped about a month ago; Shining Light, East Akron, Ohio. The July-August issue is the last one received. The Harlem Star, New York. Only one issue so far received; The Weekly Echo, Meridian, Mississippi; The North Jersey News, Montclair, New Jersey.

Editor's Attention: If your name appears in the above paragraph please re-instate my name on your "exchange" list and thus continue our co-operation that has extended, in some instances, for many years.
The Detroit Peoples News, after a lapse of several weeks, arrived again this week and I shall look forward to its coming regularly. Apparently, Mrs. Beulah Young is back at its helm again.
I am indebted to Luther Hill, at Atlanta, for a copy of his School publication, the Howard Rambler. Although but eleven years old he has contributed a very interesting article to his school paper on "Viewing the Century of Progress and White City Park Chicago."
The Omaha Chronicle, edited by John Benj. Clinton, Jr., makes the one hundred and fifty fourth publication to use my weekly "Prisons and Prisoners."
And I would ask each reader of this column to write at once to the National Agency Distributors, 4812 Vincennes Avenue, Chicago, as they have many opportunities to use your spare time services during the weeks between now and holidays.

CHAT WITH WRITERS

BY DAVID LEE

The majority of writers that I know read more fiction than any thing else in the line of fiction. However, I read more mystery than any other. I like them better in fact, mystery is my forte in the creative realm. But it happens that I somehow got hold of a magazine that grips the imagination more than any mystery I have ever read—"Irish Lovely Clay" by Maymie Craig. I am sorry that I cannot give you the name of the publisher here.

Mrs. Craig is a master fictionist, and the beginning will profit greatly by reading this new novel and paying particular attention to each skillfully and deftly handled situation. You can imagine that you are seeing and hearing Garry Benoit as you read this yarn. He stands out from the rest with his peculiar sayings and actions. As you read on you become familiar and sympathetic with everything he does. You love him; you would fight for him. He is so innocent and trustworthy.

The yarn gathers interest and suspense with the advent of Kane Stanton, a cunning villain, and vain claim that she had from the outset. Guy finds himself entangled in the web of love and intrigue. Stanton, a thing like the American hellraiser, for the ultimate profit of Roslyn Gale, pretty red-headed typist, whom Kane uses for his own personal financial gain. Guy abhors Kane and tries to counter his evil designs. He both a victim and a perpetrator to subdue their own passions and control their emotions. After buying Roslyn expensive diamonds, Kane sends her to the hotel, Kane's victims to be controlled their emotions. After buying Roslyn expensive diamonds, Kane sends her to the hotel, Kane's victims to be controlled their emotions.

Try to obtain a copy of this new novel and study it. It is really a course in story technique and plot development. If you cannot obtain a copy send me a letter in care of the paper in which this appears, enclosing a three-cent stamp. I shall be glad to tell you where and how to get a copy.
Sometimes ago I referred in this place to certain periodicals for writers. Several so in my Business Manager informs me have written me requesting further information as to address and subscription rates. I shall either pass on the desired information through this medium next week or send it by mail.

Digesting The News

Co-operating with the Publishers, I have been informed by Mrs. Glady's letter of the Kuhn Remedy Company, 1237 Milwaukee Avenue, and Mrs. E. Both firms of Chicago, that several of your publishers have shown a willingness to cooperate by sending them sample copies of their papers.

PRISONS AND PRISONERS

By CLIFFORD C. MITCHELL

Many times in this column I have written of the necessity of having a definite job before prisoners can be paroled. This week it is a real pleasure for me to devote this space in an attempt to help a real friend of nearly a dozen years' years, when both were in adversity and struggling amidst the hardships of prison life, both trying to erect a foundation upon which to build anew.
I wish to quote in its entirety a letter received this week from the friend in question:

ROY H. LARKIN, CENSOR
From Walter Dock Paul, No. 14048-23, 4th St., Jackson, Mich.
Dear Friend:
This is to acknowledge receipt of your last week's release and to thank you for the comments the article contained about Mr. Paul. Walter Dock Paul, No. 14048-23. Though it came just a little late to especially help me but it will be of great benefit to Mr. Thomas, as he has a recommendation attached to his sentence, where I have not.
I was recommended for "special" consideration by Warden Peter F. Gray, September 27th last. There, I am not in, as much need as Mr. Thomas for assistance, only in securing a job with someone, which I am sure that Mr. Diggs can be instrumental.

Again "We" thank you from the depth of our hearts for remembering "We" when it seemed as though all had forsaken us.
Adios until "We" meet again, with all good wishes for your continued success. "We" remain, as ever, FRIENDS,
From Walter Dock Paul, No. 14048-23, 4th St., Jackson, Mich.
And Paul J. Thomas, No. 14078, P. S.—We are at the New Prison now and I am still working for the Chaplain.
That letter explains the whole story. He like hundreds of others can be released, presumably, tomorrow, if he can secure the promise of a job from some reliable individual or concern, but in his particular case I not only can recommend him to anyone desiring a real worthwhile, trustworthy, loyal, efficient and ingenious worker, but I consider it so worthy of assistance, from my personal knowledge and observation, consisting of well over ten years, that I am using this space in his sole behalf.

In prison he has constantly studied and can quickly adapt himself to any class of work as a helper and as a mechanic, either around machinery or in kind of handicraft, but is positively the best I contacted while in prison. And I personally guarantee him to be loyal to whoever employs him. If any reader has or knows of a likely job for him please contact me at once.
and sell through agents in every part of the country. I mentioned this firm in my last week's release.
I am also thankful to the Consumers Refined Co., 456 Transportation Bldg., Chicago, for that sample Hollywood Cape which they sent me. This cape, as announced last week, retails rapidly for only one dollar and the company is seeking agents throughout the country.

"NO COLORED TRADE WANTED" SIGN ILLEGAL IN NEBRASKA

Omaha, Neb., Oct. 1.—Posting of signs reading "No colored trade solicited" in shops selling beer is in violation of the Nebraska civil rights law, according to an opinion received here by R. C. Price, president of the Omaha N.A.A.C.P. branch from Attorney General Paul Good.

Mr. Price had complained that such signs were posted in Omaha beer gardens. Mr. Good held that establishments selling beer came under the classification of restaurants or inns and could not exclude colored persons.

Cleveland, Ohio, Oct. 13.—More than 125 persons of both races attended the Ohio conference on social work among our people in the Hotel Statler here, Oct. 4 and 5. The conference theme was "Social Justice" and the presence of Negroes in the Hotel Statler gave the 3,000 delegates attending the various divisions of the Ohio welfare conference a very practical problem in "social justice" to think about.

FIGHT U. S. COLOR BANS IN BRAZIL

SAO PAULO, Brazil, Oct. 13.—The efforts of certain immigrants here from the southern part of the United States to set up a Brazilian Ku Klux Klan received an answer from the people of this state this week when it was made known that Sao Paulo and Bahia have organized a society known as the "Frente Negra" (Black Front), which, although only a few months old, has already enrolled more than 60,000 members.

The Black Front society, according to its founders, has for its purpose the re-establishment of the friendly relations that have formerly existed here between the races, but which have suffered recently due to the influence of white Americans, who, not satisfied with the chaos of race relations in their own country, have come here to sow the seeds of trouble.

\$72,000.00 Added to Our Tax Bill

Heretofore the Federal electric power consumption tax, amounting to 3% of the gross bill, has been paid by the consumer.

Effective Sept. 1, 1933, by act of Congress, this tax was removed from the consumer and placed on the shoulders of the producing company.

This means an addition of approximately \$72,000.00 per year to the taxes our properties in Central Iowa pay to support Federal, State, County and City governments.

Money which we pay for taxes is derived from the money you pay us each month for service. A substantial part of every dollar you pay us for service is passed on by us to governmental units for taxes.

We will endeavor to absorb this \$72,000.00 new tax item, the new Capital Stock Tax, the increased Income Tax, and higher operating costs due to NRA compliance without increasing rates or curtailing service to customers.

These new taxes and other taxes for support of various governmental units, are paid only by privately operated utility companies like ours.

VICTORY IN DEFEAT

The United States Supreme Court refused to review the decision of the U. S. circuit court which held that George Crawford wanted for murder in Virginia must return to that state for trial.

Hundreds of dollars were spent in the battle and many more will be spent, for the association has announced that it will assist in the defense at the trial.

APPALLING SITUATION

Statistics compiled by the Community Chest use in the recent interracial conference, showed that Des Moines has 28,000 on the charity, Negroes comprising 2,600 of the number, roughly speaking one out of ten receiving charity is a Negro.

According to the 1930 federal census, Des Moines had a population of 143,000 of which 4,750 were Negroes. Unquestionably this latter figure is incorrect. A good example of this inaccuracy is that this same census shows one Negro listed in Iowa when there were four.

Another feature of this appalling situation is the difficulty it makes for Negro business and professional men dependent upon Negroes for support.

These figures show that one out of ten persons on the charity list is a Negro; yet the ratio of population is one in twenty. Of course, it is not surprising that there would be a big difference and the difference becomes greater in proportion that cities hold to the custom of hiring Negroes in the unskilled non-essential jobs only.

Sports

And the weeks roll merrily by with our boys continuing to show that they mean business in the nation's grid teams. In the Michigan-Ohio State game, Ward, stellar end for the Wolverines, proved popular with the 50,000 spectators.

HEALTH TALKS Society and Clubs

DIABETES

The real cause of Diabetes is some disease which has affected the pancreas, an organ which lies behind the stomach. The fact is that most cases of this disease have existed some time before being suspected by the one affected because all cases are mild in the beginning and the symptoms are not marked enough to cause the patient to know that he is affected by this disease.

East and North

At North High, Leland Johnson's leg kept him on the sidelines while his team went under to Roosevelt. Leland begged to play but the coach knew that it would have been suicidal to risk further injury.

State High Schools

Several of our boys are playing on the various high school teams over the state. The outstanding ones include: Burke of Perry; Gibbs of Dubuque; Nance of Cedar Rapids; Ashby of Davenport; Dobson of Sioux City Central; Black of Ottumwa; Roberts, Pickett, Taylor and Wells of Mt. Pleasant; and Jones of Centerville.

Ankeny or Bulldogs?

Coch L. Ashby's heart was lighter last week. His Ankeny club begins to look like a 1933 Bulldog team as the white boys continue to drop out; Tillman and Brown, tackles; Wilson, shifted to end; Thompson, Hall, Jackson and your uncle Dudley in the backfield.
