TUSKEGEE HOLDS 54th COMMENCEMENT "Communistic" Teaching Worries Congressman

Moton Awards Last Degrees

Tuskegee Institute, Ala., May 28.—Shortly after daybreak today the largest crowd that has assembled at the institute since the fiftieth anniversary started pouring into the campus to attend the fifty-fourth commencement exercises of Tuskegee institute and the last at which the degrees and diplomas would be awarded by Dr. Robert R. Moton, retiring president. The influx of visitors, graduates and friends of the school began arriving as early as Sunday for the baccalaureate address, which was delivered by Dr. Lavens H. Thomas II, professor of religious education at Emory university, Atlanta, Ga. and by Thursday the campus had taken on a real festive appearance.

Dr. Calloway

In the academic procession for the afternoon exercises, which began at 2 o'clock, were President Robert R. Moton, the Reverend Richard H. Bowling, speaker of the day; Dr. F. D. Patterson, president-elect; Dr. Nathaniel O. Calloway, alumni speaker, representing the class of 1925, celebrating its tenth anniversary reunion, four members of the class of 1885, who returned for their fiftieth anniversary reunion, members of the faculty, visiting alumni and friends.

Bachelor of science degrees were awarded by Dr. Moton to ninety candidates representing school of education, home economics, agriculture, mechanic arts and business. College trade certificates were awarded to three candidates; diplomas in nurse training to six; high school diplomas to forty-seven and trade certificates to eleven.

"Faithful Support"

Dr. Moton, after expressing his deep love for Tuskegee Institute, its high ideals, its students, its faculty and its friends, assured all that although he was giving up active duties, Tuskegee would continue to have not only his interest, but his presence, as well as his loyal and faithful support. He then said that although the inauguration of Dr. Patterson would not take place until the coming October, he felt that Tuskegee's new president should be presented at this time.

In acknowledging Dr. Moton's tribute, Dr. Patterson said: "It shall then be a great privilege and a pleasure to co-operate with you, Dr. Mo-

Jesse Owens Steals Big Ten Meet With World Marks Performances

NEARS 27 FEET IN BROAD JUMP AS JUDGES GASP

Ann Arbor, Mich., May 31.—Climaxing his amazing world record performance on the cinder path of Ferry Field at the Big Ten meet Saturday, Jesse Owens, the "Buckeye Bullet," set three new world records in the 220-yard low hurdles, 220-yard dash and broad jump, as well as trying the world record in the 100 yard dash. Although Owens' time in the 100-yard dash was :09.4, tying the record set by Frank Wykoff of Southern California in 1930, all the watches showed him doing it 2-100 less than :09.4, but it will be placed in the record books only as a tie. Many track experts believe Owens has not reached his peak and are offering to wager any amount he will run the distance in :09.3 and carry on to still greater world record breaking on the track and field. In equaling this record, Owens technically ran the distance faster than any human ever has. The Big Ten record of :09.6 was set by Eddie Toian of Michigan in 1926.

In the 220-yard dash, Owens was clocked in :30.3, bettering the old record of :29.6, held by R. A. Locke of Iowa, since 1926. He then shattered the world record for the 220-yard low hurdles in :22.6. The former record of :23 flat was held jointly by Norman Paul of Los Angeles and C. R. Brookins of the 1924 Olympic team. Lastly, Jesse performed his most amazing feat by jumping farther than any other human ever has leaped on the surface when he covered 26 feet, 8 1/4 inches in the broad jump, thus erasing the miracle jump of 26 feet, 2 1/4 inches by Chubel Namba of Japan in 1931. Owens made only one jump to qualify in the preliminaries and that was all he needed in the final, the event that gave him his third world record for the day.

Willis Ward, Michigan's great all-around man, who pulled a muscle in the trials, came through nicely in spite of his injury. Ward, ending his career in the Big Ten meet, tied with Reigel of Illinois for first place in the high jump and turned in the greatest leap of his life, 25 feet, 1 1/2 inches, to place second to Owens in the broad jump. Ward said Owens now deserves the title of "one-man track team" more than he.

Lincoln Honors Fallen Comrades

Negro Veterans and Ladies' Auxiliary in Memorial Week Activities

The past week has been one filled with activities for the members of Lincoln post of the American Legion and the auxiliary. Last Saturday was the biennial sale of "Buddy Poppies" in memory of the veterans, in which Lincoln unit collected more than two hundred dollars to be used in the assistance of disabled Negro veterans and their dependents in this community.

The Lincoln Post Glee club of sixteen members, under the direction of Past Commander S. A. Walker, rendered the spiritual, "Study War No More," on the Gold Star program at Burke park, East Sixth and University avenue, Sunday afternoon. On Tuesday and Wednesday, Lincoln auxiliary assisted in the making of floral wreaths at the court house.

A detachment of legionnaires, under the direction of Spencer Elliston, chairman on grave registration, joined with a detachment from Argonne post in the decoration of the graves of all veterans of all wars who are buried in Woodland cemetery on Wednesday afternoon. The members of the post marched, while the ladies of the auxiliary were conveyed in automobiles in the Memorial Day parade. Comrade G. L. Leath, commander of the post, was one of the mounted aids to division commander and was escorted by the Community Service band, under the direction of Harry Cunningham.

"Y" STARS ANNEX MEET

By Quentin R. Mease
Crocker Y Director
Presenting a well balanced squad, the "Y" Stars scored heavily in every division to top the scoring in the annual Crocker "Y" track and field meet held at East High stadium Thursday afternoon.

The winners amassed a total of 71 points to lead in the scoring, followed closely by the Congress club with 57 points. S. K. Club 13, Maple Street Baptist 3, Corinthian 2.

Lawrence Carter, with first places in three events in the lightweight division, was the high scorer of the meet, garnering 15 points. George Wells took runnerup honors with 8 points.

Says Students Are Being Taught "Subversive" Information

Washington, D. C., May 31.—The critical guns of the super-Americans which have been directed against alleged subversive teachings and influences on the campuses of several institutions of higher learning in the country were trained on Howard university this week by Congressman Arthur W. Mitchell.

The representative from the first congressional district of Illinois announced Saturday that he would demand an investigation into charges that communism was being taught openly at the federally supported institution.

The unexpected action was inspired, the congressman said, by a meeting May 18 at the institution, at which Dr. Mordecai W. Johnson, president, presided and according to Rep. Mitchell, openly asserted that he preferred "academic freedom to government support."

FIRST IN NEGRO SCHOOL

The impending investigation will be the first of its kind in a Negro school, though similar charges have been brought against several white institutions of the country, including the University of Wisconsin, University of Chicago, Columbia and others.

The first Negro Democratic congressman further stated that he would put into the Congressional Record the open letter to Dr. Johnson written by Prof. Kelly Miller, educator and columnist, in which he took issue with the teachings of Dr. Johnson.

COMMITTEE

Recently a congressional sub-committee on interior department appropriations, headed by Congressman Edward T. Taylor, visited the university, observing its classes and facilities. The committee was composed of Congressman Taylor of Colorado, chairman; Congressmen Jed Johnson, Oklahoma; Mariop A. Zioncheck, Washington; James G. Scruggs, Nevada; and William P. Lambertson, Kansas.

The conference at which Dr. Johnson is alleged to have made remarks held dangerously un-American was one on the economic condition of the Negro, jointly sponsored by the social science department of the university and the joint committee on national recovery.

Liberals of all shades were on the program, including socialists and communists—especially James W. Ford, former vice presidential candidate on the communist ticket, and Norman Thomas, socialist leader.

FINAL METHODIST MEETING TUESDAY

The Methodist Council will hold its final meeting Tuesday, June 4, at 8 p. m. at Bethel A. M. E. church, 1530 East University avenue. All the pastors, their wives and officers of the six Methodist churches are expected.

Rev. G. E. Morrison will preside and the Rev. J. A. Alexander will read a paper on "The Last Thirteen Articles of Religion."

Negro Democrats Elect Buford Head

The Roosevelt Negro Democratic league elected officers Tuesday as follows: D. L. Buford, chairman; H. Dudley, vice chairman; Mrs. Hazel Patton Oliver, secretary; Mrs. Gertrude Hyde North, assistant secretary; Mrs. Margaret Carson, treasurer; James Taylor, sergeant-at-arms; J. R. Roberts, chaplain, M. E. Matthews, assistant chaplain.

The following delegates were elected to the state convention of the Iowa Negro Democratic league, to be held Saturday, June 8th: Henry U. Mease, H. Dudley, Arthur Branham, D. L. Buford, Atty. W. Lawrence Oliver, Mrs. Gertrude Hyde North and Doc White. Alternates, Mrs. Margaret Carson and L. Chapman.

Archie Lucas Ends Prep Track Career

North City Track Champ Again

By Everett Wadsworth
Staff Writer

With North winning the city high school track championship the second year in succession, Archie Lucas, Polar Bear captain, closed a great prep athletic career at Drake stadium Saturday. The fleet Negro captured the 220 yard dash with the time of :22.6 and anchored victories for the Pink and Green in the 440-yard and half mile relays. He has been a consistent star performer in northside sports for two years and will graduate in June. Lucas was chosen as end on the Tribune's all-city football team last fall.

Alfred Thomas of East performed well to aid his school in placing second in the meet. He was a member of the half mile relay team which scored second and was second runner on the victorious relay team. Stanley Beverly of East was third man for the mile relay team, event won by North, and was fourth in the 440-yard dash. Herman Wadsworth won fifth place for East in the high jump behind a teammate and three jumpers from Roosevelt who tied for first.

Annexing third in the 220-yard hurdles, Osborn Lewis of North also ran a great race in the mile relay to place his team first. Wm. Ware, who was third in the 440-yard dash, Kenneth Hill of the medley relay team, Chet Simms, running on the winning football relay team, and Eddie Reeves and Eddie Eaves, both of the novice 880-yard relay, event won by East, were the other colored boys competing for North.

WATERLOO DEFEATS EAST HIGH

(Special to the Bystander)
Waterloo, Iowa—West High track team defeated East Des Moines in a dual meet by the score of 71 to 61 points before a capacity crowd here Wednesday night. Seventeen competed for the Scarlet and Black squad.

Herman Wadsworth of East, only colored boy in the meet, won the high jump with height of 5 feet, 6 1/2 inches. His try for a record of 5 feet, 9 inches was handicapped by a wet field.

Wadsworth, who will graduate in mid-year, completed his prep track career this week. He placed first in two meets, second in two, third, fourth and fifth, respectively, in others this season.

PARK DANCE ENDS IN 'RIOT'

Blame Liquor Vendor For Outrage; Fuss Over Moonshine PATRONS FLEE

CHARLESTON, S. C.— Wednesday, May 15, over three hundred people attended a dance just a few miles out of the city...

After a futile hunt by the moonshiners, the enemy was not found, and every one returned with their eyesafar, bruises that were obtained from the mad rush were treated by many friends who helped to make it more peaceful for the remainder of the evening.

Pop bottles were used as weapons on each other. Women and men mounted each other and came down upon the other's head with a serious blow that layed men out on the ground.

The road leading to the highway was a dangerous one to travel after the fighting had become intense. Bottles were being thrown in every direction. The wounded were being hauled into cars for the hospital.

After the police was summoned to the park, the injured persons were taken to the hospital and about 150 persons were arrested by county police and charges were presented against them.

What Is Luck?

By ARTHESA S. DOUGLAS We talk a lot about luck. Particularly hard luck. Isn't it funny that you seldom see a man who admits that he's lucky but so often hear him talking about the serenely are of our own extraordinary ability.

A man applying for FERA Relief came into the office the other day complaining bitterly about hard luck. He harrowed my very soul for it's terrible to see a man whipped, without shame, voiceless, surrendering in failure.

Successful men who look back upon their lives invariably dwell with keenest joy upon those days when they were hardest pressed, sometime for bread to eat or the shelter of a roof, or if not such dire distress, then of lack of encouragement, of dishonoring criticism, of poor pay, but they had the courage to go on, to fight to endure.

Present Other Side Of Tangle About Church Property

WRITE "WORLD"

BIRMINGHAM, Ala. Special.— Please give space for the correction of certain statements made in your paper of last Saturday touch on the purchase of a piece of property in this city, known as Thomas Chapel A. M. E. Church. To begin with I wish to inform you that I have no quarrel with any one, and I do not like fussing with any kind and most especially among church folk.

That it is true that the church property above mentioned, has been taken over, as the home of the St. Mark A. M. E. Church, etc. was not known to the representatives of St. Mark that there was such property obtainable until we received a letter from a business man of this city, telling us that he had learned of our being without a place of worship, and asked that we see him before considering other places, for he had a church house at 11th street and 16th ave. in Birmingham, for sale etc.

When the deal was closed we went immediately to Brother Frank Thomas, chairman of the trustee board of Thomas chapel church, and informed him of the purchase, and presented to him a request that they not be disturbed in so far as removal is concerned, that we all could stay together and worship together, since both congregations are small and that neither church need to lose its identity and that we could stage a real workable program along all lines for the good of all concerned. LISTERINE TOOTH PASTE 25¢

The And Variations

(By Gamewell Valentine) During my grammar school days, I was required to memorize quotations, many of which still linger in my memory: "To climb steep hills requires slow pace at first."

I do not profess a great knowledge of the Bible, not with standing all of the passages of the Scripture I can quote, having been taught plenty of Bible from my parents at school and college, yet the sayings of the Bible sounder to me than those from any other books I have read.

Sometime ago in this column, I denied any conviction for the Methodist Episcopal Church in spite of the fact that my name was on the roll. A friend reader told me that I showed myself to be an infidel. This I stoutly deny. Because I don't wish and decidedly frown upon the churches as they are conducted today does not brand me an infidel.

The church is ever changing in its doctrines, trying vainly to compete with the world. In the Methodist church a few years ago, it was considered sinful to play cards or dance, but recently this church has repudiated that law and all good Methodists may dance. Episcopalians and Catholics have never been as rigid as the Methodists or Baptists. A Catholic priest is allowed to walk in the front door of a saloon and order a glass of beer from the bar and drink his fill.

The church as far as I am concerned may do and preach what it wills. I have no desire to reform it. Most of the ministers are my

Freedom Of Scottsboro Pair Sought

MONTGOMERY, Ala. (Special)—A hearing on writs to obtain bail for two of the young Scottsboro defendants will be held Friday, May 31 according to an announcement made following the filing of a writ of habeas corpus in the Morgan County circuit court.

Friday, Attorney C. B. Powell, of Birmingham, presented copies of the petitions and orders for the hearing to Attorney General Carmichael. The attorney general announced that Lieutenant Governor Tom Knight, would represent the state as he has in other hearings. The petitions, which were filed in the name of Attorney Osmond K. Fraebel of New York, retained by the I.L.D. as counsel, seeks the release of Willie Robertson and Clem Montgomery, two of the accused lads.

The habeas corpus pleas are based upon the recent United States Supreme Court ruling which set aside the death sentences of two other defendants, Haywood Patterson and Clarence Norris, on the ground that Negroes were "systematically excluded" from the grand and petit juries indicting them and that their trial, as a result, would be a violation of their constitutional rights.

friends and I am occasionally among different congregations as a visitor to some service. If I wished to see any reform in the church, it would be in the leaders, bishops and preachers, rather than its members. The Negro church in particular leads the world in carrying big mortgages which they never pay off. Churches of the same denomination in the same city will strain its members to pauperism rather than merge memberships. You see this condition in Atlanta on every corner. Common sense is unknown to the average Negro church in its business affairs. A rare and intelligent exception occurred in Atlanta when the two Episcopal churches merged their congregations into St. Paul located on Ashby street, giving up the church building on Auburn Avenue. But many other churches in the city that could lighten their load of debt and strengthen their memberships and financial assets refuse to follow the example of the Episcopal churches.

BROWN AMERICA

By ALBERTUS B. CONN It is tragic irony that Addis Ababa, capital of Abyssinia, should be in the limelight of the arena of international affairs. Many centuries ago Ethiopia was the cradle of civilization; today Abyssinia, its modern counterpart, may turn the course of history into channels which no man dares to think of.

Italy, greedy in her colonial ambitions, may find that she has bitten off more than she can chew. After all, there are only two colored nations that have been victorious in war over white nations, one of them is Japan and the other is Abyssinia. To subdue Abyssinia, Italy must do one of two things: either completely conquer the entire country, or else so terrorize this brave little nation that Haile Selassie will be glad to capitulate to Mussolini and accept a puppet throne accompanied with a fat salary and nominal authority.

Italy must come to Africa to fight and it has long ago been demonstrated that the white man does not fare so well under the burning African sun. Physically, man for man, Mussolini will find that

his Italian soldier will be no match at all for the African warrior; to whom conquest is a daily occupation. He will further find that the African terrain will lend itself to the most devastating type of guerrilla warfare that the modern world has ever known. Of course much is being said about effectiveness of the Italian air armada; but there is much military authority to the effect that if that is the method by which it is expected to be used, the Abyssinia he might do well to send his generals back to the national war council for further study and research. Dropping bombs upon Abyssinia would be just about as effective as dropping them upon the waves of the middle Atlantic. There would be a big splash a mighty detonation the water would rush quickly back into its place and the Atlantic would roll on as serenely as if nothing at all had happened. The tanks would knock down a few mud huts, but their noses ineffectually against a row of the giant trees of the jungle and their run out of gas in the vast desert country. Italy will probably have an army of infantrymen, equipped with the latest of modern mechanical and chemical devices, and large enough to wipe out the entire Abyssinian army in a day; but it is certainly elementary that you can't kill a man unless you know where he is and you can't wipe out an army if you can't find it.

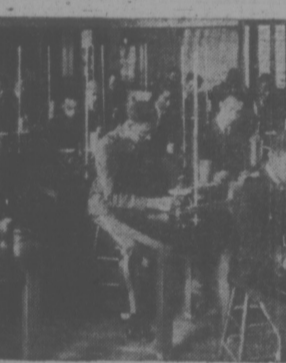

It is probably fair and reasonable to say that Mussolini could conquer Abyssinia and subdue Haile Selassie if he sent enough men and machinery there and let them stay there long enough. But can it be supposed that Herr Hitler would be sitting at home twiddling his thumbs while it was engaged in a lengthy and strenuous African campaign. Hitler at this moment is quietly laughing up his sleeve because Mussolini, after all these years, has made a major political blunder. He is perfecting his already formidable military machine and awaiting the psychological moment to annex his native country, Austria-Hungary, and then step out for a nice slice of Russia, France, Russia and Britain, committed because of diplomatic considerations to a hands off policy in regard to the Italian colonial grab in Africa, are quaking in their very boots concerning what they privately believe to be "Mussolini's folly." Mussolini is a stubborn, Haile Selassie is adamant; Japan is an exceedingly interested spectator; Europe is whistling in the dark; and Germany is still chaffing under the humiliation of Versailles. What will happen when the first bombs fall on the mud huts of Addis Ababa, no man knows.

SUPREME COURT UPHOLDS GEORGIA'S SENTENCE OF COMMUNIST

Washington—Sentence of from 18 to 20 years imprisonment imposed by a Georgia court on Angelo Herndon on charges of attempting to incite insurrection was upheld here Monday by the United States supreme court. Herndon's appeal was dismissed in a 6 to 3 decision. The 22 year old Communist organizer was charged with possession and distribution of Communist literature advocating the social and economic emancipation of Negroes in the south to the point of conducting land owned by whites in the so-called Black Belt. He was sentenced on the old slave statute passed in 1861 used by the slave holders to crush uprising, slave insurrections and to punish those found giving aid to the slaves. The International Labor Defense has had charge of the case and Herndon's counsel insisted that the reference to "revolutions" and "revolutionary" movements did not constitute a threat to overthrow constituted government by force, but to bring about reforms. Herndon has been out of prison on a \$15,000 bond making speeches throughout the country to audiences

Painted Desert an Area of Plateaus and Mesas

The painted desert is an area of plateaus and low mesas in north central Arizona. It extends from the top of the Marble canyon of the Colorado river southeastward along the east side of the valley of the Little Colorado for about 100 miles, varying in width from 15 to 20 miles. At the south, it ends near the Santa Fe railway, which crosses it between Holbrook and Winslow. The desert lies at an altitude of about 5,000 feet and has an exceedingly arid climate. In consequence, vegetation is so scant that areas of rocks are bare or very nearly so. These rocks, mostly Triassic shales and sandstones, exhibit a great variety of colors, including red, pink, purple, chocolate, lavender, pale green and gray, whence the name "painted."

Situated on the margin of this desert, about 90 miles north of Winslow, are the seven villages of the Hopi Indians, the best known of which are Walpi and Oraibi. The pueblos are picturesquely built on cliffs which project from a high plateau of sandstone.

Gave New Zealand Name

Just about the time when Vikings may have been exploring Labrador, Nova Scotia and the coast of Maine, there lived in Raiteia, an island of what is now the Friendly Group, a Polynesian navigator called Kupe. He was known for his intrepidity in a community where the virtue was common. Kupe paid a visit to Haratonga, 500 miles from his home, and there decided to see what lay to the south. There are no details of that voyage of discovery. All that is known is that on a November morning Kupe's wife saw the clouds over the land to the north of Auckland, and from that came the Maori name for New Zealand—Aotearoa (the long, white cloud).

Air Cells Make Soap Float

Any soap can be made to float by manufacturing it by a process that presses air ducts into the bar. These ducts also speed up curing, permitting the soap to dry out from the outside. So small are the ducts that they retain air, preventing water from entering. This results in floating. The old method was to beat air into the soap before it was shaped into bars. This made the soap porous, since it was filled with minute air cells.—Popular Mechanics Magazine.

Kept French Revolution Alive

The French revolution so affected France that for years its memory was kept alive in many tangible ways. Women's dresses were trimmed with miniature chains, plating braces and leg irons. They shingled their hair as the executioners had cut the hair of their women victims so it would not impede the blade. And even the children had little guillotines with which they beheaded the toy figures of aristocrats.—Collier's Weekly.

Grant's Tomb

The corner stone of Grant's tomb on Riverside drive in New York, was laid by President Harrison on April 27, 1892, the seventieth anniversary of Grant's birth. It was dedicated on the seventy-fifth anniversary. The cost was about \$600,000, which was subscribed by 90,000 persons—none of it being paid by either the government or the city.

Hide Furnace, Save Space

It is a simple matter to segregate the coal furnace in such a way that, while it still functions as capably as ever, it is hidden from sight, and the remaining part of the basement is ready to be cleaned and painted for recreation purposes. A room can be built around it. In this way it will keep its dust to itself.

NOTED WASHINGTON CORRESPONDENT SAYS G. O. P. WILL MAKE IT CAMPAIGN ISSUE

Washington, May 24—In his May 10 dispatch, Rodney Dutcher, noted Washington correspondent for NEA Service, predicts that the shelving of the Costigan-Wagner anti-lynching bill will be used effectively by the Republican party to woo the Negro voter back into its ranks and may conceivably result in the Democratic loss of eight pivotal states in the 1936 presidential election.

"A northern senator high in the Democratic councils," he writes, "remarked privately after the burial of the Costigan-Wagner anti-lynching bill by a southern filibuster that if the 1936 election were close, the episode might cost his party eight or ten important states. He referred to the fact well known among politicians that the Negro vote can exert a balance of power in certain states—Missouri, Kansas, Illinois, Indiana, Ohio, Pennsylvania, New Jersey and Maryland are usually named—in close contests."

PHONE NIGHT RATE AT SEVEN O'CLOCK

Beginning June 1st night rates on station-to-station long distance telephone calls will become effective at 7 P. M. instead of 8:30 P. M. and continue until 4:30 A. M. These rates apply to those calls on which the customer asks to talk with anyone available at the telephone called for which the day rate is 40 cents or more. This announcement was made today by C. E. Plamadore, District Manager of the Northwestern Bell Telephone Company.

FRANCE, ENGLAND JOIN PLOT AGAINST AFRICA

Geneva, May 24.—European diplomats seek this week to tie Ethiopia's hands behind her and to allow Italy to run through her mineral wealth, if this will placate the belligerent Premier Mussolini.

Wednesday found efforts to patch up a compromise between Italy and the African kingdom running into a deadlock as League of Nations officials at last found out that Mussolini really intends to undertake a colonial war with the ancient African empire.

Britain, France Play Hand

Impressions that the French, and that the British, among the great powers, were representatives of the world's hope for fairness in this question, a political sore spot to future peace in Europe, were scuttled here when it was revealed that Great Britain and France, through their delegates here were just as willing to give Italy an effective mandate over Ethiopia as effective as the former would have it and indicated that they are willing to combine all their influence in assisting Mussolini bully Emperor Haile Selassie into submission.

ONCE MORE

About once a year it becomes necessary for us to state the policy of this column. We know we can't cover all the news so we don't try to. We simply comment on what we think interests our readers most and let it go at that.

Having been associated with local athletics for nineteen years, we feel we know a little of the local problems and the ills causing them. Through this column we have attempted to correct a few of the ills by airing them for everyone to see. In our articles of this nature, we have never nor shall we vent any personal feeling on any one person or club. Our personal quarrels are too petty to waste paper on. The things we attack are for the common good of all who are interested and are practiced by a few people who hope to benefit by them. These fellows who sacrifice the common welfare for their own selfish aim naturally hide behind the weak protest of personal grievances. We believe we have done some good in our column.

We think we helped to create a sharing of the Y. M. C. A. financial problems by young men who had never thought it out before. We think we stung a group of baseball players into sticking together and we fought those who would have meddled with our Big Five during its early days. As long as we can see results like these, we think our policy is justified and we shall go on with it, not caring whose toes we walk on. If your toes are tender keep them out of our way.

OWENS AND THE BIG TEN

It isn't necessary to go into any lengthy details about Jesse Owens' unparalleled feat of breaking three world records and tying a fourth in the Big Ten meet last Saturday. Owens established himself as the greatest athlete in the world today and one who hasn't reached the limit of his possibilities. Now every one is predicting a 27 foot broad jump for the youngster but, thank Heaven, we beat em all to that prediction. Evidently Willis Ward of Michigan jumped within a half inch of the old world's broad jump mark but it didn't mean a thing. He got second and then tied for first in the high jump, but didn't compete in the hurdles and century. We have always felt a personal interest in Ward perhaps because our first conversation was about football. A subject dear to both of us and we feel his failure to dominate meets as he used to be due to his being barred from that Georgia game. Not that he doesn't try but the old spark to make him get into condition was killed. Melvin Walker of Ohio State was third in the high jump. If Owens was not running amuck, Walker would be a good athlete with lots of publicity.

BALLYHOO?

We are somewhat amused at the news stories that try to explain the apparent Negro supremacy in the running and jumping events. Longer legs, bigger leg muscles and heredity are supposed to be part of it, but we think it just happens to be in our day. How, and Drew was our last sprinter who completely outclassed his competitors so the host of Negro stars are simply about twenty years overdue. In another athletic generation we'll probably wonder why we haven't any sprinters, but we might have some pole vaulters and distance men who are many years past due.

This Week in Movies

The new George A. Hiss picture, "Cardinal Richelieu," is now showing at the Des Moines theatre. Mr. Arliss has the role of the power behind the throne of Louis XIII of the France of 200 years ago, supported by Maureen O'Sullivan, Edward Arnold and Cesar Romero. The fourth issue of "The March of Time" is offered.

'Folies Bergere' Bring Paris To You

This week-end at the Paramount theatre Maurice Chevalier brings in the "Folies Bergere." "I Love the Rhythm of the Rain" and "I'm Lucky," and Merle Oberon and Ami Sothern are also featured. Also Franchot Tone and Una Merkel and our own Conrad Nagle in "One New York Night," a mystery comedy, is the companion feature.

Returning Hips Will Please You

At the new Strand theatre downtown this week-end Constance Bennett, Clark Gable and Stuart Erwin are in "After Office Hours" and the companion picture is "Two Heads On a Pillow."

Out at the new Roosevelt theatre

this week-end are Charles Laughton, Charlie Ruggles, Mary Boland, Young Zasu Pitts and Maude Eburn in "Ruggles of Red Gap," beginning Sunday.

Road Show Attraction Opens at Garden

At the Garden theatre, starting Saturday, the parents of Des Moines story of the high school boys and girls to see this beautiful produced story of the high school boys and girls' experience. While "The High School Girl" is frank and relentless in its searching truths, it is produced in the highest taste and holds the attention closely, driving home, relentlessly, the urge that modern parents must take their high school youngsters into their confidence and warn them against the dangers that beset them on all sides. No children will be admitted to see "The High School Girl" unless accompanied by adults.

VIRGINIA QUARTET

STOPPING HERE

Mrs. Cora Moore of the Bellville apartments, 1212 Center street, is entertaining as her guest for the week a representative of the Bellville Industrial school of Portsmouth, Va. Rev. B. H. Watkins and wife, Mrs. Carrie B. Watkins, of Washington, D. C., and the girls' quartet, "The Virginia Blue Birds," of the Bellville Industrial school.

THE QUARTET APPEARED TWICE AT THE

Park Avenue Presbyterian church, and the large attendance was very much satisfied with the Negro spirituals and southern melodies presented by them.

MARION CARTER OPENS ICE STATION

Coal, wood and ice supplies are on sale at the station. Mr. Carter is well known in the city and was formerly in business as a mortician. He is married, has five children and belongs to St. Paul A. M. E. church.

New York—Declaring that he had

reached the age where he was no longer physically able to perform his pastoral duties, the Rev. A. Clayton Powell, Sr., pastor of Abyssinian Baptist church, 132 West 138th street, tendered his resignation to officers and members of his church on Sunday. The resignation, read at the Sunday morning services, caused consternation to reign, but despite representations made to him by local friends and followers for him to reconsider his action, Rev. Powell persisted in his determination. He re-read his message of resignation at the Sunday evening services to an equally protesting congregation.

In tendering his resignation, Rev. Powell asked that he be made pastor emeritus, having already been elected pastor for life by the church in July, 1924. While no mention was made of his successor it was said that one of the favorite choices of the joint boards of the church for the post would be his son and assistant pastor, Rev. A. Clayton Powell, Jr.

Millions prefer it to mayonnaise—costs less!

Miracle Whip Salad Dressing

● Miracle Whip is different—delicious! The time-honored ingredients of mayonnaise and old-fashioned boiled dressing are combined in a new, skillful way. Given the long, thorough beating that French chefs recommend for ideal flavor and smoothness—in the Miracle Whip beater—that's exclusive with Kraft.

Our Anniversary Edition is June 14

OWENS PERFORMANCE UNPARALLELED IN CINDER HISTORY

Owens Puts Dash Men Of History In Shade

By Ric Roberts

I AM sure, Mrs. Applethwacker, that you are proud this fine May morning. It is quite unlikely that you are not proud. Just look what 1935 has brought you and me and 13,998,000 other persons of color. Why, Mrs. Applethwacker, you, you don't intend to convey to me the impression that you have not heard about Joe Louis and Jesse Owens. My, my, my! I know very well, Mrs. Applethwacker, that you are what Duke Ellington had in mind when he wrote "Sophisticated Lady," and I know the bulk of your "extra curricula explorations and detours" are in quest for better understandings in the art of teacup balancing, social teas, the life of Cyrano de Bergerac, the Shakespearean sonnets or the organ or tulle or crepe de chine profferings of the moment. . . . but, my dear madame, you should know your sports highlights likewise.

The high crust ladies of the other race are quite familiar, I dare say, with the escapades, the conquests, the general attributes of Bill Tilden of Babe Ruth of Jack Dempsey of Dizzy Dean. Have you heard of Joe Louis and Jesse Owens?

Meet Jesse Owens!

Well, I am sorry, madame, I don't have the time to introduce them both at this sitting. However I shall attempt to acquaint you with Jesse Owens. This, due to the circumstance that he has just done something which caused the literati of two continents to gasp.

He is a sophomore in Jesse Owens. He attends Ohio State University and is a good student but his main claim to fame is his ability to run faster than any man that ever lived. Saturday before 15,000 fans he made his white boy opponents look like a 1925 bell-bottom suit of clothes. He established three world records and then equalled another.

The first event of importance at the sitting, Mrs. Applethwacker, is to tell you of his excellence in the 100 yard dash. This dear lady, is a feature race between humans over a measured span of ground. Six or seven college sprinters line up on a given mark and start out to see who can reach the point 100 yards distant quickest. The ultimate of human endeavor in this race has never been determined but yesterday our own brown-skinned Jesse Owens ran it faster than any man who ever lived. Without starting blocks (a gadget to help runners get away faster) he ran the distance in 9.2-5 seconds. A white boy, Frank Wyckoff of the University of Southern California, once ran it in that time but he used starting blocks. Hence our Jesse is the works. This was the record that Jesse tied yesterday. The other records he eclipsed.

The running broad jump is a leap for distance. You run as fast as you can and leap from a given mark into the air to see how far you can sail before coming back to earth. Negro boys have been dominating this event for fifteen years or more, Mrs. Applethwacker. Pat O'Connor, an Irish lad, ran and sailed through the air for 25 feet 3 1/2 inches years ago for a record that the sports people thought would endure for half a century. In 1921 a colored boy from Jacksonville, Florida, went to Harvard and in his spare moments

JESSE OWENS
Jesse Owens marched into the hall of the sports immortals yesterday. Already he had equalled 3 world records and established one earlier in the week, but Saturday he did more than any other human ever did in track and field sports of an afternoon alone. He set four new world records, one of them, the broad jump, was particularly impressive because he heaved his body through space 26 feet 3 1/2 inches to beat the old record by practically a half foot. This is super jumping because after 25 feet, broad jump differences usually mete down to fractions of an inch.

Indianapolis Ready As The Classic Nears

INDIANAPOLIS, Ind. (ANP)—Indianapolis fans are all set for the coming of the annual Motor Speedway classic race which will bring thousands of visitors from all parts of the United States to watch the dare devils send their moments at top speed over the 2 1/2 mile oval May 30th.

The thrills and chills that go with the annual classic are never wanting. Many spills, or pile ups that look like death and destruction are avoided by the dashing speed cars and it is rarely that a wholesale death trap is set when an accident occurs.

The safety system of warning notifies the drivers to check their speed watch for the danger point and therefore all you get is a thrilling thrill.

A greater speed is expected with the running of the race this year as there are many faster mounts in the field which will begin their trial heats to qualify among the thirty-three cars.

The big parade and lineup is a spectacular sight to watch also giving the many Negroes, who come here annually a real treat. It is the after-race affairs which make the track here an enjoyable one. Fans arrive in beautiful cars, join the heavy traffic up and down the Avenue (Indiana) and take in the night spots over the week-end.

For the third successive year, Lee A. Johnson will take a seat in the press pagoda as the only Negro to have been so honored in the history of the twenty-two year old classic. It is expected that many other press agents will take in the auto-terry this year.

COSTLY ARGUMENT
MEMPHIS, Tenn.—An argument about clothes resulted in severe injuries for Julia Evans, 45, rear 378 Carroll. She was hit on the head with an iron by Viola Wiley, police said.

Graduation Will Rob LeMoyné Of Hughes, Lee, King, Isabelle

By OSCAR KNIGHT
MEMPHIS, Tenn.—As a result of this year's graduation, LeMoyné College will be deprived of the services of four of its most colorful athletes. Robert (Roundhead) Lee who for six years has played varsity football and basketball for LeMoyné, will receive his Bachelor of Science degree next Tuesday. Robbie's favorite position on the gridiron—the only one he ever held—was that of quarterback. And a craftier little quarterback never roamed the striped grid for any school in this section of the country.

Sports writers and spectators who watched him in action labeled him as the brain of the Yellowjacket pigskinners.

Ted "The Terrible" Hughes, who made the varsity team in his first year and received honorable mention on numerous All-American selections will also pass out via the graduation route this year. Ted played right guard and few plays were ever directed at him twice when the "Terrible" was in town. Hughes is also a good student. He will receive his Bachelor of Science degree with honor.

Douglas Isabella's swan song will not create a gap in the Yellowjacket line up. For Doug was unable to take an active part in last year's grid campaign because of injuries sustained in an auto, mobile accident. But he made himself an indispensable factor in the camp by acting as medicine man and trainer.

When the call to colors is issued next fall there will be no doubt many promising gridlers, but Hughes is also a good student. The lucky ones will likely have to play them in the shadows of their predecessors.

HIS LAST COLLEGIATE POSE

Charles King, captain and center with LeMoyné College Yellow Jacket football squad last fall will don graduating togs this evening. King, an excellent linesman, plans working a year, and then taking a swing at a business course.

SPORTS

FRIDAY, MAY 31, 1935 THE IOWA BYSTANDER, DES MOINES, IOWA

Dixie Golf King

John Dendy, a sophomore at Morehouse college and a native of Asheville, N.C., is a superb golf stylist, one of the greatest in the country, regardless of race. He first broke into the golf world by taking the southern open and national open. In short, Dendy is a real golfer, thru and thru. He has real form, accuracy, an unusual temperament.

DOFFS TOGS

ROBERT LEE
LeMoyné loses Robert Lee today. For several years, the Yellow Jacket's star quarterback, Lee is scheduled to call the signal for his Bachelor of Science degree this evening. Timmers have it that Lee will assist Coach Jack Atkins this fall in developing the "Jacket gridiron machine."

Your Child And Mine

For every thing that happens, there is a cause, notably when a child commits a wrong we must seek the reason. After all the child is not fully responsible when he violates the laws of home or society.

Contributing causes may be found in a thousand different places. As an example, I would advise parents to visit the slum exhibit on the Steel Pier. When you see the conditions under which some children are forced to live, you not only see the condition of many so-called homes, but you see also a lack of ambition on the part of parents, who offer no example of cleanliness and who automatically teach their child to be satisfied with conditions as they find them.

Citizens can do no better thing to further child welfare than urge membership in the Boy Scouts, Y. M. C. A. and various other organizations for the boys, and the associated clubs for the girls. Clean

Max Wallops Foe In Grand Ring Exhibit

SAN FRANCISCO, Calif. (ANP)—Maxie Rosenbloom, former world's light heavyweight champion, easily won six out of seven rounds here last week, to win a ten round bout over Oscar Rankin, high touted, lightweight, at Olympic auditorium, Rosenbloom substituted for Bob Olin, the champion.

Maxie's tenor arms had Rankin at a disadvantage during the most of the fight. The Jewish fighter weighed 179 1/2 while his opponent scaled 176 1/2. The colored fighter took the fifth round with a body attack which chased Rosenbloom to the ropes. He opened a cut over Maxie's eye in the ninth round and might have won on a technical knockout if he had followed up his advantage.

MAN, WOMAN DISAPPEAR
Mrs. Lilian Monger Has Weak Mind

MEMPHIS, Tenn.—Police Saturday were looking for two missing colored persons, a man and a woman.

Mrs. Lilian Monger, 30, described as being mentally unbalanced, was reported missing last Thursday by her husband, Robert Monger. Mr. Monger informed police officials that his wife had been a patient at Shelby County Hospital and had been released only a short while before making her disappearance.

Mrs. Monger who resides at 1393 Mississippi avenue, is about five feet, six inches tall, and was wearing light colored cotton clothes when last seen at her home.

The other missing party is Tom Harris, 21, who worked as a yard man for a Mrs. Lee, white.

Harris who had been employed by Mrs. Lee for several years, disappeared two Saturdays ago and has not been seen or heard of since that time. He is 21 years old, slender, of light brown color, and walks very erect.

He resided at 1313 Larkin. Mrs. Mary Harris is his aunt.

Young Baptists Of Atlanta to Meet Soon

ATLANTA, Ga.—The Atlanta District B. Y. P. U. and S. S. Convention will hold its 31st annual session at the Zion Hill Baptist Church, Rockmart, Ga., the Rev. B. J. Johnson, Jr., pastor, June 6 and 7.

According to the announcements by L. D. Keith, plans have been made for one of the best meetings in the history of the convention. Rev. Johnson and the people of Rockmart have completed all necessary arrangements for the entertainment of the delegates.

The convention is an auxiliary of the Atlanta Missionary Baptist Convention and is one of the strongest of its kind in the state. A large delegation is expected to attend from the various churches of Atlanta, Cartersville, Jackson, Jonesboro, Stone Mountain, Covington and other surrounding points.

Dr. C. J. Graham of Morehouse college and Dr. G. W. Dwyer will be the theme speakers while Rev. J. R. Barnett.

Red Sox Grab Two; Split Twin-Bill

MEMPHIS, Tenn.—The Claybrook Tigers are winding up their tour after traveling over parts of Louisiana, Texas and the central parts of Mexico. Their trip has been a very successful one since playing their first game the 5th of April in Houston, Texas, and today they have won 30 games and lost 8 which in itself is a record worth while with 7 more to play before opening the remodeled park at Claybrook which Mr. John Claybrook has put into tip-top condition since the players have been on the road.

The only colored team that has defeated the Tigers were the hard hitting American Giants in Austin, Texas. The teams played were the Houston Black Buffaloes, Taylor Braves, Temple Giants, Monroe Monarchs, San Antonio Black Minors, Mexican teams are the Laredo Lulacks, Bredvilles Braves, La Junta Mar-Chants, Monterrey Tigers and St. Louis Pottis.

Games won: Monroe Monarchs, 2; Houston Black Buffaloes, 2; Taylor Braves, 2; Temple Giants, 2; San Antonio Black Minors, 2; lost to the American Giants, 2 games and won 3 and lost 5 to the Mexican Teams.

The entire trip has been a treat to the Tigers and all towns in Texas and Mexico have made things pleasant for the boys and hope they will return in a short time. In Monterrey, the entire team was invited to appear on a radio program and finally ended with four numbers by the famous Claybrook quartet. Watch for the big opening June 2, at Claybrook where big things will take place. The team is under the direction of L. S. N. Cobb, who hopes to make things go over this summer.

Red Sox Grab Two; Split Twin-Bill

MEMPHIS, Tenn.—The Atlanta Black Crackers, Saturday 8 to 6, and before a Sunday crowd of nearly 1,100 split a twin-bill, 9 to 8, and 3 to 5.

Bill Howard held the mound Saturday in which he pitched the visitors holding the enemy to "Twee" hits. Memphis registered 14 hits, Adams and Howard buried the first for the Sox Sunday and in the night cap Howard assisted Ligon.

Brown rained poorly in the box Saturday for the Crackers, but on Sunday, Williams made up for the bad game.

Nunley, first base for the Sox, got the longest hit of the series, banging out a triple Saturday off Brown.

Cincy Deltas Have Fine Jabberwock

CINCINNATI, Ohio—May—(ANP)—The Delta Sigma Theta Sorority presented its third annual Jabberwock at Walnut Hills high school to an audience of several thousand patrons, Friday.

The Burlesque of Merchant of Venice sponsored by the Collegiate Club won first prize. "In Baby's Nursery" sponsored by the Alpha club won the second prize. Four and Twenty Blackbirds by the prize—"The Valfant" a 1-act play presented by a group from Kentucky State college received the greatest amount of applause and many favorable comments for having been excellently performed.

The pastor of the Butler St. Baptist church will deliver the opening sermon. The closing sermon will be preached by Rev. C. N. Ellis, pastor of Reed Street Baptist Church.

The Junior contest will be held at three o'clock Friday afternoon June 7. Stated under the direction of Miss F. B. Morrison of the West Street Baptist Church; the young contestants will be required to recite Proverbs 3:1-18 and Proverbs 22:1-15 and sing two stanzas of a Gospel song.

The convention will open at 9 o'clock Thursday morning, June sixth and close Friday night, June seventh.

Trains will leave the Atlanta Terminal station at seven A. M. while for the safety of those going in cars, a motorcycle will leave Atlanta Thursday morning by the way of Austell and Dallas. Fur-

Claybrooks And Red Sox In Winner Take All Series Sunday

MEMPHIS, Tenn.—Never has Memphis witnessed a series of baseball games as will be staged Sunday and probably Monday at Martin's Park. In a winner take all agreement the Claybrook Tigers, sensational Southern League team which recently ended a successful tour through Mexico, will engage the Memphis Red Sox in a best two out of three affair.

A double header will be staged Sunday at the Park and should each club take a game, a third contest to determine the winner of the series will be unreeled Monday at the local park.

The first game Sunday will be called at 2:15. Mr. John Claybrook Sr., prominent Arkansas planter and owner of the Claybrook Tiger, has already placed a heavy side bet on his charges. Owners of the Sox likewise have expressed faith in their own boys by waging a nice little bet.

It was agreed last week in the Memphis World office that the winner of the 3-game series will put all the money in a sack and trot off home with it. Dr. B. B. Martin business manager for the Sox and Mr. Claybrook, in presence of Editor Robert M. Ratcliffe and Manager Jasper T. Duncan, of the Memphis World, agreed to this.

The Sunday contest is expected to draw a crowd of more than 5,000, the like of which has not been in these parts in a long, long time.

Headed by L. S. N. Cobb, veteran baseballer, the Claybrooks with more than 30 victories to their credit, are being counted on to may be to sweep the series. The Claybrooks will sport some fifty hurlers in Eddie Henley, St. Louis; "Lefty" Calhoun, Union City, Tenn.; "Fireball" Smith, St. Louis, and Genevie Donald, Tuskegee.

Other stellar performers are L. Henderson, third sacker, Johnny Lyles, shortfield, Roosevelt Tate, Bill Ball, Trip Merritt, Johnny Ray, Jessie Ashby.

The Claybrooks have been beaten only twice this year and the American Giants stepped in and accomplished this. "The Tigers were a sensational show in Mexico and are expecting to make another trip this way before this summer is over.

STRANGE DOCTRINE

One school of thought in America today is criticizing the United States Supreme Court because it has refused to be stamped into the hysteria of making statutory laws the supreme law of the land rather than the Constitution of the United States. In spite of the fact that the Supreme Court knocked out the NRA and rendered two other important decisions involving acts of almost the same radical nature by unanimous vote, they criticize the court or urge amendments to the Constitution which will permit their fancy laws to square with the Constitution.

As to the NRA the Bystander has never agreed with most of the things it attempted to do and none of the methods by which it attempted to enforce its commands. Then, too, those who wanted to do so flouted the NRA with impunity or arranged codes to suit themselves whether justice prevailed or not. After all a man's business is his own affair subject to reasonable regulation by the government. Few institutions will attempt to deal with their employees other than in the light of modern yet reasonable social trends.

Fortunately we have a constitution which reasonable legislation will not violate and a Supreme Court unaffected by radio ballyhoo and threats.

DIFFERENT AGAIN

The N. A. A. C. P. telegraphed President Roosevelt recently calling attention to the fact that in the two regions where low wage scales were set by him for work under the new public works legislation, eight of the twelve millions of Negroes live. The telegram said in part:

"The National Association for the Advancement of Colored People urges rearrangement of scale of relief wages which as announced on May 29th will fall with unusual severity upon Negro workers. Wage scales in regions three and four running as low as nineteen dollars per month for unskilled labor in which regions the majority of Negroes live will mean a level of subsistence too low for decent living. Racial prejudices of these two regions are notorious and will inevitably result in Negroes being uniformly classed as unskilled workers. In six states of section three, two million seven hundred, fifty-seven thousand six hundred forty-six Negroes live according to 1920 census, while in section four with lowest wage scale of all five million six hundred forty-seven thousand four hundred seventy-one Negroes live. Thus more than eight million Negroes or two-third of entire Negro population of the United States will be subjected to these conditions. Even payment of prevailing wage scale as demanded by American Federation of Labor would not prevent hardships since the wage scale for Negroes and many whites is that of the plantation level."

During the formation of codes under the NRA southern industrialists were able to get a lower wage scale than other parts of the country. True, wages are not as high in many of these states, but this is no reason why they should not be brought up to a decent scale. The government ought to take the lead in correcting this condition. One of our leading white business men made a trip through

ERUPTION OF PERMANENT TEETH

We are conscious of the time for the front or anterior permanent teeth to erupt in children after about the sixth year of age. At that time the child is beginning to lose the baby or deciduous teeth and the vacant spaces left to make their appearance. This loosening of the first teeth followed by the last set of natural ones continues noticeably until the eruption of the second molars, from twelve to fifteen years old. The third molars or wisdom teeth may make their appearance any time after sixteen years and in some instances never come through.

The first permanent tooth to erupt is the first permanent molar and this tooth comes in directly behind the last baby tooth around the sixth year and is the sixth tooth from the middle of the face. This and the other molars are not preceded by baby teeth therefore they very seldom appear crooked.

The seventh to eighth years generally witness the appearance of the permanent upper central incisors or the large teeth in the front of the mouth. The smaller or lateral incisors follow the centrals in about a year or so. Now the space for the permanent cuspid or eye tooth is still filled, by the baby teeth because this cuspid isn't due before twelve or fourteen years of age.

The first and second bicuspids teeth, those replacing the large molars of the baby, erupt from ten to twelve years of age.

Remember that the lower permanent teeth erupt before the uppers and may do so from six months to a year before the uppers are present.

QUESTIONS AND COMMENTS

Dear Dr. Dean:

How often is it necessary for me to get my teeth cleaned?

Miss E. D., Des Moines, Iowa.
Ans. The frequency of your visits to your dentist to have your teeth cleaned and a prophylaxis given would depend on your personal care of the teeth and the rapidity of the formation of calculus and tartar upon them. It varies in some people from every three months to a year or more in other but another value in seeing your dentist often is for an examination

some of the southern states recently. He reported that if sufficient rebuilding and repairing necessary to make the homes of the poor whites and Negroes habitable was done, the building industry would be booming today. These homes are in this condition because the south has insisted on remaining a backward section of the country by paying its labor as near nothing as possible.

It is disagreeable to complain that in everything the administration does the Negro gets the rotten end of the deal, but the wage differential in codes and the gross discrimination in the work relief scales point that way.

Advertisers Who Have Used Our Anniversary Edition

As The Bystander approaches its 42nd anniversary we can not help but feel proud of the many things we have achieved in spite of the great handicap and obstacles that have continuously confronted us. We are not unmindful of the splendid support that the merchants, professional and governmental people have played which enabled us to publish the oldest and only Negro paper in the state of Iowa. We are grateful to all of you. So that others may know, we are announcing this year a few names of some of the firms and persons who have advertised and subscribed and found our medium a great benefit to them for many years, some of them ever since the organization of the paper 42 years ago: Frankels, Utica, Bernstein, Flynn Dairy, Peoples Fuel, A. & P. Stores, Red Ball, Henry Field Stores, Tri States Theatres, Northwestern Bell Telephone Co., Des Moines Water Co., Gas and Electric, City Railroad, Olmsted Ins., Gately, Standard Glass and Paint, Keo One Stop Oil Co., Ungles Bakers, Standard Oil Co., Phillips, Garton, Trumans Shoe, Tobis Poultry, Yellow Cab, Best Laundry, Newby Seed, Thrift, Inc., Valley Bank, Morris Plan, Clark Fish, Scottie Fish, Jewett Dress Club, Gallagher Drug, Hewitt Wholesale, British Woolsen Mills, Iowa Seed, Addington Poultry, Sears-Roebuck Co., and hundreds of Negro business and professional men and women of Iowa.

Health Talks

INFLUENZA

Influenza attacks people at all ages but is most severe in old age as a rule. The respiratory form is the most common and is the form which occurs epidemically. The other forms, the nervous and the intestinal are usually more severe comparatively but any one of the forms can take on a severity which is not to be outdone by any other form. The respiratory form begins usually as a bronchitis and goes through all the stages until it finally assumes the severity which is characteristic of all typical influenza. It is usually called three-day fever because the fever has a tendency to run three days even though the other symptoms and especially the weakness may last for months.

The beginning of an attack is the signal for a good physic and a hot lemonade and hot foot bath at night before retiring and this beginning is usually ushered in by a cough, fever and general pains in the back and limbs. If this initial treatment is started in a majority of the cases by morning or by the day after the one so affected is again practically back to normal health again. If not the disease takes its typical course and runs through all the symptoms and takes up all the time and requires all the attention that is usually necessary in any case of typical influenza. Any case which is being ushered in by the typical symptoms before mentioned should have the hot lemonade and hot foot bath and the hot lemonade so that if possible the disease may be aborted and the complications which are so troublesome may not take place.

It should be part of every one's business to help create bigger and better opportunities of one kind or another. But after all the laurels are placed upon heads of those who can wrest opportunity out of barriers—those who can say, as did a renowned warrior, "We'll find a way or make one."

with death Tuesday afternoon at Passavant hospital, following an operation. She was 74 years of age and the founder of Hull House, Chicago's greatest community center.

Funeral services were held at 2 p. m. Thursday on Hull House. Thousands of both races jammed the streets with bowed heads to pay their last respects to the noted social worker. Miss Addams' entire life had been devoted to the development, encouragement and improvement of the higher ideals which made for human happiness. In the scope of her services, no race or races were denied the virtues of her labor. She saw only humanity.

IGNORE FACT LOVEJOY DIED FOR NEGROES

Freedom of Press Stressed in Tribute To Fiercely Abolitionist

Waterville, Me.—(ANP)—Services commemorative of the life and death of Elijah Lovejoy were held here at Colby college last week, at which distinguished leaders of American life and if journalism paid tribute to the fiery abolitionist who was killed by a mob at Alton, Ill., in 1837.

All those who gathered to pay him tribute were white.

Although Negroes have revered Lovejoy for his outspoken position against slavery, this phase of his life was virtually ignored in the tributes paid him here. Lovejoy was principally praised as a defender of the freedom of the press and it was held that he gave his life for that principle.
