Emperor Selassie Sees Victory

Ethiopian Conflict Watched As Nations Stand By Guns

OFFERS OF AID POUR IN

Addis Ababa, Ethiopia, July 19.—"We nourish no illusions of the task confronting us," stated Emperor Haile Selassie, "Conquering Lion of the Tribe of Judah," in reaffirming the position of Ethiopia in its impending conflict with Italy, "but we are confident of the Divine aid and of the sympathy of the civilized world in resisting the territorial aspirations of a power which, while seeking to disguise these as a mission of civilization, rejects every means of pacific settlement elaborated by modern civilization."

Recent attempts at settlement of the question by European powers headed by Great Britain and France by giving Italy certain territorial privileges in Ethiopia in return for which Mussolini would halt his intentions and preparations for war, were met with unequivocal assertion by the emperor that "Under no circumstances will we accept a railway or other zone in or through Ethiopia, administered or policed by Italy, because history teaches that the creation of such zones inevitably is followed by annexation."

URGES BOYCOTT OF MELONS

WITH INSULTING NAME

Newburgh, N. Y., July 19.—Protest was lodged here with wholesalers and retailers against a watermelon known as the "Georgia Nigger Head." The action was taken by the Newburgh branch of the N. A. A. C. P. through Robert Branch, president. A paper sticker about two inches square appears on each melon with the offensive name in prominent letters. It was found that the dealer also displayed the name in a large sign in his window.

The Newburgh branch is asking colored people everywhere to refuse to buy melons with this label and to register protest with all retailers and wholesalers in all parts of the country who are selling this brand.

LYNCH VICTIMS STRUNG TO CHURCHYARD TREES

Mob Carries Out Plans in Typical Southern Barbaric Fashion

Clarksdale, Miss., July 19.—They lynched two more men in Mississippi this week. They chased the men, Bert Moore and Morton Dooley, 26 year old farmers, caught them, beat them, tied them, standing on top of a car, to trees, drove the car from under them and left them dangling in a churchyard where all might see.

In that manner, the good white folks of Clarksdale demonstrated their superiority over the dark people of the country, and avenged an alleged attack upon an alleged woman. At the time of the big lynching spree there was no evidence that the men had been guilty of raping anyone. There was not even an accuser to face them and charge them with the crime. They just happened to be a couple of farmers, who, for one reason or another, had incurred the displeasure of the whites of the country-side. So they were charged with rape and lynched.

HISTORICAL BACKGROUND AND POINTS OF INTEREST IN MONTREAL AND QUEBEC

Editor's note: The following article written by Miss Clara Webb depicts most interesting highlights of Canada as a result of her recent motor trip there with Mrs. Helen Beahrs where they attended the National Conference of Relief Workers. Read next week's article written by Mrs. Beahrs on the Negro's economic status and social advantages in Canada.

By Miss Clara Webb The British Dominion of Canada consists of nine Provinces. The cities of Montreal and Quebec are both situated in the Province of Quebec.

Montreal, with a population of over one million (including suburbs) is the largest city in Canada and the seventh largest in North America. It is the third largest French city in the world, ranking next to Paris and Marseilles in population, and by reason of its large French element, the city has

been called the Paris of North America. It is the chief financial, commercial, industrial and transportation center of the Dominion. Situated one thousand miles from the sea, it is the largest inland port in the world and the second largest port in North America, being surpassed only by New York.

History

Montreal's history begins with the landing of Jacques Cartier on this island in 1536 and his discovery of the Indian village of Hochelaga. There was no trace of this village left when Champlain arrived with his expedition in 1611. He named the mountain Mount Royal, from which the name of Montreal is derived. In 1642 Maisonneuve, a French captain, arrived with fifty colonists, a priest, and a young heroic girl, Jeanne Mance, and established a settlement called Ville Marie, a fortified town. The walls have long since disappeared, but many old buildings remain as monuments to the city's beginnings.

In 1763, the treaty of Paris brought and end to the seven years war and the flag of France was replaced by that of Great Britain.

Points of Interest

Unusual points of interest in Montreal include the Century old Notre Dame Church which can accommodate ten thousand worshippers. In its twin towers are ten bells, one of which is known as "Le Gros Bourdon," it

MISSISSIPPI TORTURE CASE

READY FOR SUPREME COURT

Jackson, Miss., July 19.—The case of Ed Brown, Yank Ellington and Henry Shields, three Kemper county farm hands who were tortured and beaten into "confessing" the murder of a white tenant farmer, is ready to be filed in the United States supreme court, attorneys acting for the N. A. A. C. P. announced today.

Shields, Ellington and Brown were convicted last summer and their conviction appealed to the Mississippi supreme court last fall. By a majority opinion the court affirmed the conviction, but a strong dissenting opinion by two justices gave hope for success if an appeal were taken to the United States supreme court.

Religious Drama Made Burlesque

AL JOLSON CERTAIN TO GET LEAD IN FILM'S "PASTURES"

Hollywood, Calif., July 19.—"Green Pastures" will positively be started shortly at Warner Brothers First National, following the great preparations now going on to film the famous stage play that made dramatic history. This will be much to the regret of the many lovers of the beautiful play sanctified by the late Richard B. Harrison, who created the role of "De Lawd."

Clarence Muse is one who is saddened by the danger of it developing into a burlesque. This is because it is generally understood that Al Jolson, who has craved to play the role of "De Lawd" ever since it first opened, is generally expected to be cast in this beautiful part.

Joe Louis' Victory Over Carnera in Pictures Here

Family Theatre To Run Blow-by-Blow Pictures of Sensational Battle

By Everett Wadsworth Staff Writer

Just what we've been looking for! What a break for those unfortunate souls who were unable to celebrate in Harlem on that memorable night of June 25th, when Joe Louis, 21 year old wizard of the mitts, slugged his way to historic fame over Primo Carnera, the Venetian behemoth, in Col. Ruppert's ball, orchard. The story has been told and retold, and how Louis pounded his way to victory over his huge opponent is history now, and how the towering Alp, former champion and veteran of seven years in the ring, went down to oblivion, has been sung over the wires until every hamlet in the universe has been acquainted with the yarn.

Des Moines fans will at last get an opportunity to see this heavyweight classic. The Family theatre is showing a blow-by-blow screen account of the six round fight, beginning Saturday, for four days. These pictures were taken from the ringside of the Yankee stadium in full view of the 70,000 spectators who came to see Mike Jacobs' show. The sensational rise of this bronze marvel of the age has been shouted from the "house-tops" of the U. S. all this year.

The toast of champions, Joe Louis has stood the nation on its figurative head and sports writers have gone into raptures over the new coming titleholder. One Negro newspaper captioned a fight picture, "Ethiopia Stretched Forth Its Hand and Italy Hit the Canvas."

All New York still says if Louis fights there again, an addition will have to be built on the "Stadium That Ruth Built." One New York minister said: "I couldn't get to the fight, but God knows I prayed hard enough for Joe to win." As a fight, it was all Louis; as a spectacle, it was unparalleled in sports history.

Writer Reviews 1935 Dixie Golf Showdown

ATLANTA, Ga.— (Chairman of the Tournament Committee)
Lincoln Country Club, the south's pioneer and leading golf club has just put over the most successful tournament in its history. This year's tournament drew entrants from five Southern states and from many points in Georgia. The roll of entrants included 25 professionals and 18 amateurs and the winners received the most attractive purse ever offered and the most beautiful trophies available.

The 1935 tournament was also marked by a complete shake-up in both the professional and amateur ranks, two new stars forging to the front to top the fast field of entries. The new open champion is John "Honey" Smith, former Morris Brown grid star, who turned professional after completing his school work in from La Grange, Ga. and will be long remembered by the local ama June. The new amateur champion, and a real champion he is, hails from James Minnifield.

In the most sensational finish ever witnessed "Honey" Smith came thru to take the open, noting out Howard Wheeler, former national and southern champion by a single stroke. When John Dendy, the defending champion won the open back in '32 he was well out in front after the 54 hole mark and nobody threatened to even tie his score.

In the '33 tournament Wheeler stepped out in front at the half-way mark and held it throughout the tournament. Again in '34 Dendy set a dazzling pace for the first 18 holes and was never headed off.

In this year's tournament Wheeler and Hartfield tied for the lead on the first day with a pair of 64's. Hartfield went out in front on the second day to lead Wheeler one stroke, on the

A. J.—Is me and my husband ever going to get along together or not?
Ans.: Your "old man" will always be a griper—ready and willing to find fault with every little thing you do. You will get along best by paying no attention to such "talk" for he really doesn't mean to hurt your feelings.

E. G.—Did my husband "hit" me?
Ans.: He did—several weeks ago on a Thursday he made a "hit". The money was spent on himself and a "retail" who showers attention on him.

A. M. P.—Why hasn't C. A. written to me?
Ans.: He is a little too busy running after other girls. You will receive a letter shortly with a very plausible excuse—BUT DON'T FALL FOR IT, you know the old saying "Absence makes the heart grow fonder"—it does all right but only when the one who is absent means more to you than your own selfish interests.

M. E. C.—I would like to know if she is lying when she says she loves me?
Ans.: Not altogether—she loves you FOR YOUR MONEY. You're a SUCKER and it's time you woke up to the fact. I suggest that you stop wasting your time with MARRIED WOMEN and settle down with a girl worth being good to.

E. M.—Will I be happy with what I am expecting? Will it be as I think and what most people expect it to be? How soon will it be?
Ans.: In the fall of the year you will become the proud mother of an EIGHT POUND BABY BOY. Nice work—my congratulations.

B. E. C.—Has this man here got his place fixed so I will get it at his death?
Ans.: He's too smart to make those papers out to you. I am of the opinion that HE IS BLUFFING you and this is the reason why he won't SHOW YOU THE PAPERS IF he has made the papers out as he says ask him why he is afraid to let you see them.

L. G.—I am unhappy and I want to know if there is anything worth

while for me?
Ans.: Your unhappiness began when first you began CHEATING ON YOUR MATE. You can't be fair to TWO PEOPLE at the same time—and should events take place tomorrow enabling you to divorce your husband you would find your SUPPOSED TO BE LOVER ready to leave town—WITHOUT YOU.

M. E. L.—Who took my dress and quilt top?
Ans.: This job was done by someone on the INSIDE OF YOUR HOME. These articles are at present in your neighborhood and information concerning same will reach your ears this month.

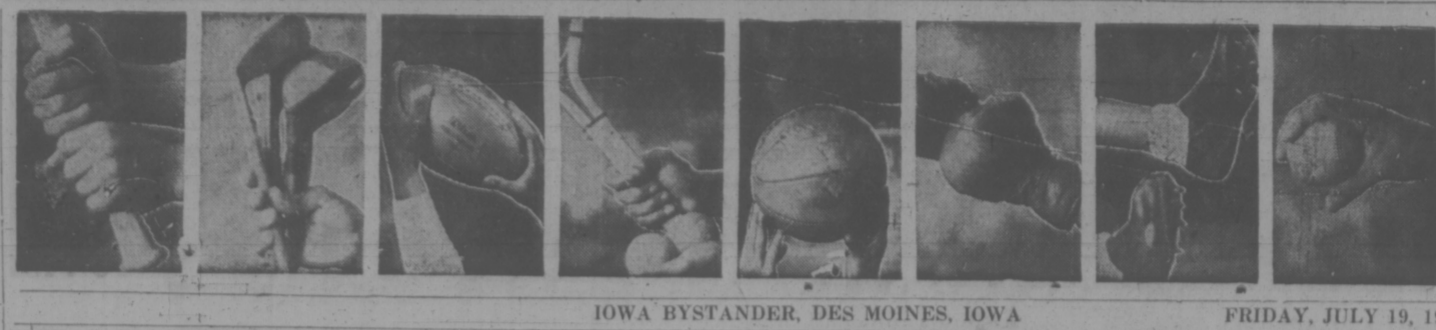

J. P.—Am I safe now or how can I evade it?
Ans.: If you mean to SUE PEOPLE—Perhaps you would have been sued long ago if the person could have afforded it—I see nothing concerning this matter that you need be alarmed about at this date. I believe this thing will BLOW OVER.

C. A. S.—Do you see a better change in the near future for me?
Ans.: No important events recur.

J. C. W.—I work hard and feel disgusted because I cannot make enough to get by with. I want to know what to do about my affairs.
Ans.: I believe you will be happier with another. Concentration reveals to me that you and he are not physically well suited to one another as it is necessary to one PERFECT MARRIAGE. You or your ideal has not as yet entered your life.

No Supernatural Powers Claimed

Ralph Metcalfe Rated 'Tops' By Ray Buford

By RAY BUFORD
LOS ANGELES, Calif.—(WS)— One hundred and twenty-five thousand yelling fans jumped to their feet as two bronzed demons of speed crossed the finish line in the 100 meters race in Olympic Coliseum in 1932 and from that day until this there have been arguments about the winner of that race—and anytime you want to argue, just mention it where three people are.

While admirers of both sprinters contend that their favorite breasted the tape first—and that kept the Olympic Committee in such a quandary that both of the men were credited with the same time—one thing stood out and that was a bronzed youth was the best 100 meter sprinter in the world in 1932.

Olympic Year Approaches
We find ourselves on the threshold of another Olympic year and the crop of bronzed athletes is larger and more versatile. Representatives may wear the tri-color of Uncle Sam in the 100 and 200 meter sprints high hurdles, high jump, broad jump and there are remote chances of an entrant in the discus and javelin.

At the present time a quartet of colored sprinters are the best in the United States. Ralph Metcalfe, Jesse Owens, Eulace Peacock and Ben Johnson form a quartet who would bring tears of gladness to any coach's heart and if some of the "white hopes" don't materialize, this country will be represented by the darker runners.

Metcalfe has proved himself to be the greatest runner of all times. His wins are as imposing as a sturdy oak is to an ant on the ground. Winner of the Drake Relays 100 and 200 yards races for three straight years; winner of the Central Intercollegiate 100 and 200 yard dashes for three years; winner of the NCAA 100 and 200 yard dashes for three years and the National AAU sprints for three years, has placed him at the top of the sprinters.

The Marquette Marvel did not stop with these victories but went to Europe and the Orient to give the lady a good lesson in how the short dash should be run. This doughty sprinter won his races against time and against men in his own backyard and in strange lands.

Owens Started Track World
Full grown giant Jesse Owens, Ohio State track and field man, into college competition and his marks have proved him to be one of the greatest dash men and broad jumpers this country has ever known. They are comparing him with the great Jim Thorpe and why shouldn't they?

To prove that he was full grown, Jesse ran wild while a high school student in high school. When the dust of combat had cleared away at the Stage Intercollegiate about '30 year ago, Jesse had set the world's interscholastic records for the 220, 100 and broad jump. He had toured the first in 207 seconds; the 100 in 9.4 and had leaped 34 ft. 7 inches. With these marks he would have been the best athlete in many college conferences, had he been enrolled.

With all the glory which was to be his definitely assured, Jesse Owens became of age at Ann Arbor Michigan on May 25. He did the impossible when he ran the 100 in 9.4 to tie that record—ran the fastest 100 yards in the history of mankind when he was clocked in 20.5—ran the fastest low hurdles race man has ever seen when he was clocked in 23.5 and leaped farther than any other human being when his distance was measured and found to be 36 ft 3 1/4 inches. These marks were nothing more than a realization of what was to come about two years ago when he showed his heels to the best in the interscholastic competition.

Even Owens Has a Conqueror
Great athlete that Jesse Owens is, he has fallen behind another great runner in the person of Eulace Peacock the "Cock of the Walk" from Temple University. It was on a windy day with a wind at their backs that Peacock defeated Owens and Metcalfe in the 100 meters in the amazing time of 16.2 seconds. With all the cockiness that characterizes a man who believes that he can win, Peacock went out to do the job and he did it well. He did not stop there, but went on to win from him in the broad-jump.

Ward Good Too
Willis Ward, mighty man of the U. of Michigan will positively try to be one of the representatives of the United States in the decathlon at the Olympic Games next year. This was confessed by the athlete while sitting in the lobby of the YMCA a few weeks ago when he returned from San Diego, Calif. where he led all en-

Daily Mirror Points Youth To Race Aces

NEW YORK—(ANP)— Quoting an editorial in the Daily Mirror: "Make War for Africa."
"You will see on the right, three pictures of three young colored men that just now lead the world in broadjumping and sprinting. A fourth, Cornelius Johnson, of California, hold the high-jump national championship, and the white men are 'nowhere'."
"On the Fourth of July, Eulace Peacock, colored, of Temple University Philadelphia, 20-year-old New Jersey athlete, broke two world records in one day, the 100-meter dash, and the broad jump."
"Jesse Owens, also colored, of Ohio university, had broken all white men's broad jumping records previously."
"Ralph Metcalfe, also colored, of Marquette university, Wisconsin, won the American 200 meters championship."
"These pictures of three colored athletes, all good students as well, are published to remind young gentlemen of the white race, that to 'make their lives sublime' they must run faster, jump higher and farther."

"These pictures showing that the white man is 'nowhere' in track athletics compared to his dark-skinned brother, may suggest to you in general that it is better to develop your mind than your muscles. Mental championship outlasts muscular championship."

"It should be mentioned young Joe Louis, 21-year-old color-pelate fighter, who the other day beat the giant Carners, and will doubtless be heavyweight champion of the world as soon as he gets near enough to the improvised white champion."

"Sporting reporters will get used to writing 'The colored man first, the rest nowhere' as was once written of a great Derby winning horse."

Powder Springs Bests Remont Aggregation

ATLANTA, Ga.—
By JUDSON T. FREEMAN
Sunday, at Powder Springs, Ga., the exciting witnessed a fine ball game between the Remont Tigers of Atlanta and the Clarke-Crawford Black Crackers. The locals came out on the losing end of an 8 to 11 tilt.

About 430 there was a large and anxious crowd awaiting the call of play ball.

The Tigers, however, found plenty of competition awaiting them after Hood, pitcher for the Tigers, walked two men in the first inning while the Black Crackers scribbled through four hits, two runs and two errors.

The last half of the second inning brought in Young, with the Crackers getting a hit. Then Evans and Howard brought in hits to give the Black Crackers a 3 to 1 margin at the end of the second.

trans after the 32nd day of competition.

Ward refused to enter all of the events at San Diego because of the strenuous campaign he had just completed. He is considered by many as the greatest all-around athlete to wear the Maize and Blue of the U. of Michigan. Coming to that school from a Detroit prep, he became the outstanding track athlete and was one of the mainstays of the football team.

The noted Wolverine pulled a muscle early in the season during his senior year and did not reach the peak of his career. He was a mainstay when the squad defeated all teams in the Big Ten Conference track meet and ended his 1935 season at San Diego. Ward did not compete in the National A. A. U. meet which was held in Lincoln, Nebraska afterwards.

The versatile athlete will begin the study of law this fall, he stated. He will enroll at the U. of Michigan law school, which is considered one of the leading law schools of the entire country.

College Boys Afford Hot Stuff For Crax!

ATLANTA, Ga.—
By Ric Roberts
THE Atlanta Black Crackers and the College Stars played some gold-plated, push-lined baseball Sunday afternoon at Ponce de Leon Park before 2,000 appreciative cash customers. A muddled melee between "Snook" Wellmaker and Norman Cross ended with the varsity bunch tucking our Southern League boys away by a score of 2 to 0 in the first of a double-header.

The Black Crackers might as well have been waving their war clubs at a couple of guys going by in a day coach on the Crescent Limited for all the damage they could do to Wellmaker. Donald Reeves, that ball whack-lingest of all the Cracker contingent, was all that separated Wellmaker from a no-hit performance. Don separated the erudite sidewinder from two base pokes of the scratch variety to ruin the day. Wellmaker was hot stuff and whiffed ten. He fanned Chin Evans, Robinson and Cross twice and shot fast ones past the maces of Kemp, Reeves, Humphrey and Red Moore. He cut every Cracker except Holliday and Green and hung nine successive home-runners around the Cracker necks (000 000 000) count 'em.

Norman Cross was ablaze too and gave only five hits and no walks. Wellmaker did let Humphrey and Green stroll to first. The second inning proved the undoing of Cross. Tiny Smith, the first man-up, rapped him for a single to right. Jack Thornton lofted to Red Moore but "Squabber" Wright poked a line single to left to put two on. Frazier fanned but Catcher Lester Pitts singled down the third base line and Smith tallied. Wellmaker then skied to Holliday, in deep center and when that eminent young man muffed the catch, Wright scored.

A Thrilling Duel
Cross turned on the steam thereafter and blanked the victors for seven innings running. He struck out Cotton, Tiny Smith, Thornton, Frazier, Pitts and Wellmaker. Only one Cracker got as far as third on Wellmaker and the League boys hit the dust. It was one of those battles dusted with stardust and the customers were very much pleased at the turn of events. The college contingent revealed the fact that we have enough ball players in this town to go anywhere this side of heaven and win ball games. The Crackers are high in their praise for Wellmaker and claim that they have seen nothing classier this summer than that burning fist ball of his and that baffling collection of slants that he sends in there.

FEMS SET FOR GOLF SETTO AT LINCOLN

ATLANTA, Ga.—
Since the recent Southern Open and Amateur Tournament at the Lincoln Golf and Country Club, the women have been clamoring for a golfing feast among themselves. President Miller had his hands full attempting to appease their consciences but nothing would do for them but a real tournament.

Therefore on next Sunday the women golfers of the city headed by such malleable and spoon swingers as Medames and Misses Mays, Robinson, Johnson, Leleh, and Prude, are to get started in what should be a very interesting affair. It will be the first step forward in things golf for Negro women and may have a strong bearing on the pastime among the dolls of this immediate vicinity.

The women are decidedly jealous of the space and ballyhoos the males have been grabbing while they themselves have had to be content to remain in the background.

Trophy donors and the spoils to be reaped are to be announced early this week by the officials of the club. A spirited and enthusiastic rush on the part of the prospective competitors is expected to blossom for over the week-end.

Softball Lead Is Held By Blue Devil Performers

ATLANTA, Ga.—
Having won their first two starts in the third round of the Softball League competition, the Blue Devils are atop the league at this writing and asserting themselves of serious consideration in the final awarding of the Bailey trophy being proffered by the theatre executive here. The newly initiated North Carolina Mutual Life Insurance company outfit has served notice that it is to be a threat by bonning the Transient Bureau outfit, 10 to 4. They are thereby stationed in the win column and standing second to the leaders.

Rain and other situations have thwarted the other teams in carrying out their games as booked. The administrators of the league are hoping that the managers of these teams may effect some manner of playing the games which can be held at any time between nine in the morning and eight in the afternoon.

The sponsors of the league want the public to know that the softball contests are sponsored by the Recreation Department of the FERA and that admission is free. Come out to the historic old Morris Brown athletic field and get the softball idea. Any club or organization that would like to see into the league may do so by getting in touch with Messrs. E. Thomas, A. Neal or A. Gay at old Morris Brown where they are available any day.

They have divided the city into districts with members assigned to each district. The city was divided into districts that numbers would not run into each other.

NEWER FAVORITES SCORE ON LOCAL SCREENS

Loretta Young is at the Des Moines theatre in "Shanghai." With Miss Young is Charles Boyer. The second feature is Jimmy Dunn and Mae Clark in a peppy comedy, "The Darling Young Man," as two enterprising reporters on rival sheets who fall in love with each other.

McMurray At Paramount
Two features at the Paramount are "Men Without Names," starring Madge Evans and Fred McMurray, and "Dinky," starring Jackie Cooper, centering around a young boy who goes to military school and Mary Astor is Jackie Cooper's mother in this story.

Returning this week-end is "Men" out at the new Roosevelt theatre on Sunday, Monday and Tuesday of next week, with James Cagney.

At the Strand theatre, "Private Worlds," with Charles Boyer and Claudette Colbert, and the companion picture is "Sweepstakes Annie," with Marian Nixon and Tom Brown. At the Garden theatre is the comedy, "Ruggles of Red Gap," presented on the same program with Bill Powell's dramatic story of Ireland, "The Key."

TEAMS BATTLE FOR "Y" SOFTBALL TITLE

Paced by the strong Gale Transfer outfit, six teams are waging a determined fight for title honors in the "Y" senior softball league, games of which are played at the West High stadium field, Twenty-first and High streets.

The transfer men are, at present entrenched in first place, with three consecutive victories in games played to date. Two other strong aggregations, the Commodores and the I. D. K's, are deadlocked in second place, having split even in their two games played. Corinthian Baptist, the Monarchs and Burns M. E. follow in that order in the standings.

With the return of real summer ball weather, large crowds are attending the games each evening and are being treated to some fine exhibitions of this popular variety of baseball. In one of the best played games this season, the pace leading transfer team nosed out the Monarchs in an airtight pitchers' battle by the season.

NEGROES VS. NEGROES

There seems to be a general search on foot to find a Negro heavyweight to keep Joe Louis busy so he won't have time to fight for the title. It seems that none of the best white boys around are considered equal to the job so they are looking for a Negro. Then these Negroes will be fighting each other for the Negro heavyweight championship and let the white boys be world's champions. Just by the way of caution, don't get too feeling sorry for Kingfish Levinsky when he fights our boy next month. We think the Detroit Mauler will stop the fish peddler but he might stay the route and when one is merely trying to stick he is hard to put away.

LOCAL DOPE

Bring on the machine guns as we're going to blast Bill Ashby right out of the picture. We put him on the train last week headed for New Jersey and a string of tournaments in the East. Well sir, the paper hadn't got off the press good when here comes Bill up Locust street to our headquarters announcing that he was back. It seems that the people in Chicago who were to take him East had to forego the trip due to illness therefore, Bill was disappointed.

The Capitol City Monarchs, after winning eight straight games lost the next four to finish second in the league; we wondered why until we saw the team lineup last Sunday. Where did all the old veterans go? Same old story, we guess, once a tramp ball player always one and not even a league makes a difference. The Gale Transfer softball team

CECIL RAPIDS, IOWA

Miss Edith Jones of Mason City has arrived in Cedar Rapids to make her home with her uncle and aunt, Mr. and Mrs. Alfred Horne. Mrs. Anna Rosa of Ottumwa spent the 4th of July with her sister, Mrs. Queen A. Brown, and brother, Mr. Alfred Horne. Mr. and Mrs. Alfred Horne entertained at dinner on the 4th for Mrs. Anna Rose of Ottumwa, Miss Edith Jones, Mrs. Queen A. Brown and daughter, Miss Margaret Boone. Mr. Alvin Smith of Chicago spent the week-end with his wife, Mrs. B. Smith, who is recuperating from a recent illness. Mrs. Margie McGuire of Des Moines was in the city visiting her sister, Mrs. Lottie Blakely, and Miss Beulah Parkey.

QUEBEC

The city of Quebec was founded by Samuel de Champlain in 1608, and is linked in history with the cities of the West and United States. It was from Quebec that Joliet and Marquette ventured forth in 1673 to discover the Mississippi. Historically Quebec is one of the most interesting and romantic cities in North America, and is today a charming city of 142,000 inhabitants, most of them French speaking.

Some of the points of interest in and about Quebec are the following: The Battlefields Park or as we commonly speak of it as The Plains of Abraham where the decisive battle of the French and Indian war between General Wolfe (English) and General Montcalm (French) was fought; huge canons and guns used in that war; the huge rocky walls that General Wolfe's army had to scale before capturing the city; the Chateau Frontenac, one of the finest hostelries (hotels) in America; St. Anne de Beaupre a pilgrimage center 22 miles from Quebec; Montmorency Falls are also of interest. They are 274 feet in height or a hundred feet higher than Niagara. The provincial Parliament building is quite picturesque.

N. A. A. C. P. Protests Italian Aggression
Washington, D. C.—President Roosevelt and Secretary of State Cordell Hull were asked by the N. A. A. C. P. on Friday to voice publicly for the United States their disapproval of the Italian government's action in Ethiopia. Resolutions adopted at the twenty-eighth annual conference and telegrams citing the state department's action on Japanese aggression in Manchuria as a precedent for opposing similar encroachment by Italy in Ethiopia were also sent to the two officials.

Following a conference with President Roosevelt, Secretary of State Cordell Hull replied to Temper Hall's Selassie of Ethiopia that he trusted both sides would abide by their treaty obligations and "hoped" peace would be established. Although neither Ethiopia nor Italy are purchasing munitions from this country, The United States appeared to have definitely decided not to sell arms to either warring nation.

Montreal Trip

(Continued from page 1)

weighs 24,780 pounds and is the largest bell in North America. St. Joseph's Oratory is of interest. It's a world famous Shrine where Brother André performs his miracles of healing the sick.

Other points of interest are McGill university comprising eight faculties; the university of Montreal; St. Catherine Street West is the sophisticated shopping district of Montreal. The Montreal wharves are of interest stretching eight and a half miles long, with a harbor railway of over sixty-five miles of track. It is the world's greatest grain port.

250 Churches

Montreal with its 250 churches, its modern industrial plant, its numerous monuments and banks, its organ grinders and horse drawn carriages, its old fashioned church steeples with bells tolling each hour, its many nationalities (French and English predominates) living side by side in perfect harmony, its unexcelled cordiality and kindly hospitality to every one, makes Montreal one of the most colorful, quaint and picturesque cities of the world.

Quebec

The city of Quebec was founded by Samuel de Champlain in 1608, and is linked in history with the cities of the West and United States. It was from Quebec that Joliet and Marquette ventured forth in 1673 to discover the Mississippi. Historically Quebec is one of the most interesting and romantic cities in North America, and is today a charming city of 142,000 inhabitants, most of them French speaking.

Some of the points of interest in and about Quebec are the following: The Battlefields Park or as we commonly speak of it as The Plains of Abraham where the decisive battle of the French and Indian war between General Wolfe (English) and General Montcalm (French) was fought; huge canons and guns used in that war; the huge rocky walls that General Wolfe's army had to scale before capturing the city; the Chateau Frontenac, one of the finest hostelries (hotels) in America; St. Anne de Beaupre a pilgrimage center 22 miles from Quebec; Montmorency Falls are also of interest. They are 274 feet in height or a hundred feet higher than Niagara. The provincial Parliament building is quite picturesque.

BIDDING FOR NEGRO TRADE

During the past few weeks, the New Utica clothing store has run a series of ads in the Bystander in which the cuts of some prominent Negroes who trade with that store appear. These individuals urge that Negroes trade with the New Utica because among other fine features they hire Negroes, advertise in their paper, give excellent service to all and sell fine merchandise at reasonable prices.

Anytime an ad appears in a Negro newspaper the advertiser is bidding for Negro trade and in most instances gives the Negro group as a whole more consideration than those who don't.

BLUNT, BUT TRUE

Prince Guido Pignatelli of Italy who arrived in Des Moines recently told a reporter that Italy was justified in evading Ethiopia because when territory was being divided up in Africa between the big nations of Europe, Italy was cheated out of its fair share.

As blunt as this may seem, stripped of all coating, it is the crux of the whole trouble. And because it is the whole trouble, the peace agreements signed by the disputing nations and others during the past twenty-five years will be put to a real test; that is, if they can not stop a war brought on without justification they can have but little value as a preventative where each side has justification.

LYNCHINGS DECREASE

The Records and Research department of Tuskegee, Institute, Ala., reports four lynchings during the first half of 1935—all of the victims Negroes, all occurring in the south. While this is less than in 1934 or 1933, the number is too many at any rate. When the Costigan-Wagner anti-lynching bill was before congress last spring, senators from the section where these lynchings occurred were loudest to be heard in the appeal that this was a matter of local government and could best be dealt with by the individual states.

They had made this appeal before and made it work. They argued that anti-lynching legislation was unconstitutional and made it work, but lynchings go on just the same.

Undoubtedly continued agitation has had much to do with cutting down the number of lynchings. The fight must and will go on.

1936 CAMPAIGN ON SAYS WRITER

The campaign for 1936 is in full swing so far as the state and city are concerned; we even hear of prospective candidates. It is therefore proper and right that the Negro voter should begin to contact his neighbor and formulate some plan by which the majority of votes can be polled to our best interest.

Dental Health Education Hints

By Dr. Millard R. Dean

HEREDITARY SEPARATION OF FRONT TEETH

The separation sometimes found between the two upper front teeth or incisors varies in its width to a marked degree. In some cases the space appears to be one-sixteenth to one-eighth of an inch and is noticed first around eight or nine years of age. This space is caused by a too thick and strong muscular attachment coming down from the upper lip and continuing on between the teeth. By holding up the upper lip you can easily see the muscular attachment and better understand how it keeps the teeth apart.

In most instances such a condition is hereditary and can be followed throughout a family's existence. The only harmful effect of this space is in the personal appearance and of course women are more concerned about that. To remedy or close in the area is possible when the child is young and up to about fourteen to sixteen years of age. If done later in life appliances have to be attached to the teeth to pull them together. The attachment is cut and removed and the bone and tissue treated while the teeth are moving inward. Another method of filling in the operation is by means of gold.

QUESTIONS AND COMMENTS Dear Dr. Dean: I must commend you for informing us about the prize-fighter's mouthpiece in your last week's article and I am forced to disagree with your account of its being left out of Carnera's mouth. I distinctly remember the broadcaster stating that a powerful blow from Mr. Louis knocked the mouthpiece out of his opponent's mouth. Yet I again thank you for some interesting stories at times.

Des Moines, Iowa. A. While writing the Carnera-Louis story I expected to find many who thought different that my account; consequently, I tried to verify what I had written. I still maintain that in the first round the rubber mouthpiece was forgotten but I will make another effort to get the correct information from the sports authorities.

concerned; we even hear of prospective candidates. It is therefore proper and right that the Negro voter should begin to contact his neighbor and formulate some plan by which the majority of votes can be polled to our best interest. Unorganized individual voting does not accomplish anything politically, and if the bitter experiences of this depression have not convinced the Negroes of Iowa that their economic security can only be safeguarded through the intelligent combination of our voting strength, we are lost. The grass roots Republicans held forth in Springfield, Ill., in June, the blue grass Republicans in Cleveland, Ohio, in July and now the bunch grass states of the west coast meet in Salt Lake City, Utah, in September. That makes 25 of the 48 states joining together for one grand concentrated effort for next year's campaign.

The Negro Republican Voters League of Iowa organized September 11, 1930, has functioned continuously and consistently as a political organization with a complete system of key men and women in every Negro community of our state. This organization and its members have remained steadfastly Republican throughout all of the reverses of the past two campaigns. Most Negro delegates from Iowa who went to Springfield and bore his own expenses are active members of this state league of voters.

The respectful interest manifested by the press and the courteous consideration extended by the Republican leaders from those ten midwestern states to the more than 200 Negro men and women who attended, forbodes a better understanding and a more serious consideration for our welfare in the future by the G. O. P.

Soon we are to make a call for a get-together of our groups. We cordially invite every intelligent race conscious individual voter, men and women, to attend that meeting. We have a program and a method for the successful execution of that program and the moral support and recognition of the Republican Central Committee of Iowa, we welcome you one and all and will grant a respectful hearing to all constructive propositions you wish to offer.

PERIODIC HEALTH EXAM

That periodic health exams have a wide field of usefulness, perhaps, conceded by everyone. Keeping the well person well is the most fundamental problem of the present day doctor. Periodic health exams will solve the problem of keeping people healthy, so that the development of serious conditions in those approaching sickness may be postponed.

The antiquated idea of the doctor's usefulness being confined to sick people and that one had any use for a doctor until he had contracted some disease no longer exists. We know better now. Those diseases which, fifty years ago, were called plagues and pestilences are now called preventable diseases.

It is only within comparatively recent years that the movement for periodic health exams received considerable impetus and development which promises to make it a real and important factor in the physical welfare of the nation.

Health exam is a thorough physical and mental appraisal of an individual, disclosing the exact state of his health, and pointing the way to a longer and happier life. It is a necessary periodic stocktaking revealing possible faulty habits of hygiene needing correction, detecting incipient disease in a curable stage; and is the best preventative method of warding off possible future ills.

Negro Republican voters league and member of the executive committee of Polk County Central Committee.

"Pay 50¢ for tooth paste? Let me laugh!"

"I used to think that to get quality in a tooth paste, I had to pay 50¢ or more. This toothpaste cost me about 25¢ and I have had better results than I ever had with other tooth pastes and it costs only 25¢ a tube."

More thousands of men and women have the same idea. Why not try Listerine Tooth Paste tomorrow? You will be delighted with it. Lambert Pharmaceutical Co.

J. L. P.—Do you think I am doing my boy friend right? Ans: What you are doing to your friend is just plain cheating, and you can hardly call that treating him right. The girl that works with you would gladly give her right arm to be in your shoes. If you continue twinning him, don't be surprised someday to find this girl to be the one that gets all the attention from him.

B. G.—I have always desired to belong to a certain organization and I want to know if I will ever be that lucky? Ans: Within the next two months, you will probably have a chance to become a member of the organization which you wish to belong to however, through a sudden change you'll make, it will offset your plans. For detailed information, see note attached to this column and write to me for a private reply.

M. H. K.—Will my mother ever get anything for her property? Ans: The damage that was done to your mother's property was estimated to have been very little and it will hardly be worth her time to take such a small matter to court. If she'll act a little more even headed, she'll have a better chance to settle up this matter with the state and will be treated fair about the cost of the damage.

E. S.—I would like for you to kindly tell me what is the trouble with my husband and what should I do? Ans: Your husband is apparently very lazy and is just trying to hide it from you, for if he had any ambition at all, he would be out making a living instead of letting you do all the work just to satisfy his desire for money. I don't think it would be very wise for you to leave him now for there is a chance to make something out of him. Every week when you draw your small salary, just keep it and don't give your husband a penny of it.—That will be a good way for you to find out just what kind of a man he is.

M. A.—Please tell me if the gossip I heard about my sister-in-law is true or not? Ans: The rumor you heard was more or less just a lot of gossip for as far as men are concerned, your sister-in-law never has a serious thought about any of them except her husband. One of your gossiping neighbors happened to see your girl friend's husband talking to your sister-in-law as she passed her tea shop, and didn't stop to consider what he was doing there.—After all, it is your sister-in-law's duty to be friendly toward people so as to bring in customers, and build up a good reputation for her tea shop.
