DR. LORENZO H. KING of New York Fights Church Merger Plans New Suits Against Maryland

Baltimore, April 15—(ANP)—A series of lawsuits seeking to open the University of Maryland to colored students is under consideration by the N. A. A. C. P., declared Thurgood Marshall, general counsel, here Wednesday.

Marshall said a plan advanced by President H. C. Byrd of the university and subsequently enacted by the state legislature is discriminatory and not satisfactory. Already one student is attending the Maryland U. law school without trouble following court action undertaken and won by the N. A. A. C. P.

Our Men Should Have More Backbone, Says Do for Mary F. Waring

NATIONAL CLUB WOMAN HEAD SPEAKER AT SEVERAL CHURCHES By Everett Wadsworth Staff Writer

Dr. Mary F. Waring of Chicago, president of the National Association of Colored Women's Clubs, believes that if the men of our race showed more backbone and courage there would be less lynchings, discrimination and mistreatment to the Negroes. In a brief speech at St. Paul A. M. E. church Sunday morning she utterly denounced the leaders and heads who allow such practices to go on without protest. She was heard during this week at several churches and club groups.

Recalling the recent dedication ceremonies of the Eleanor Roosevelt School for Negroes at Warm Springs, Georgia, where the Negroes were forced to stand outside and peek in the windows as the President spoke, she declared: "Such conditions would not exist if our men, our leaders, would fight and flood Washington with protests every time these things

WHITE CHURCHMAN FIGHTS "FORCING" PLAN ON GROUP

New York, April 15—(Calvin Service Flash)—The fight started on the M. E. church merger by Dr. Lorenzo H. King, when he appealed to the N. A. A. C. P. to use its legal staff to prevent the jim-crow plan from going through, has gradually grown to a veritable avalanche of sentiment against the plan. Such high churchmen as Dr. E. Stanley Jones oppose the merger. The meeting of the M. E. publication council, at which it was decided to ignore Dr. King's protest, has gradually been worn down. In Atlantic City the Delaware conference voted against unification by 116 to 18 here Friday. This is the first test vote of the Border conferences, which will probably swing the plan or kill it. Other important conferences to yet vote are the Washington, Lexington and central west.

ILLINOIS SENATE PASSES KING BILL

Springfield, Ill., April 15—(ANP)—Passage of a resolution introduced by Senators William E. King, Republican, and Frank J. Huckin, white Democrat, asking appointment of a committee to investigate the cause of rent increase in Chicago and activities of the Chicago real estate board was reported Thursday by the state senate.

King said his request was based upon action of the real estate board's rental and management division, which was openly admitted that the idea of blanket increases was fostered on all landlords regardless of individual circumstances. It is expected to increase rentals \$50,000,000 for the year.

Noted Athlete Is Stabbed in Fight

ROBERT VANDEVER IS RECOVERING FROM WOUND Narrowly escaping death from a stab wound just below the heart, Robert Vandever, prominent athlete and professional football star, was taken to the Broadlawn General hospital Saturday night in a serious condition. Hospital attendants report his condition as "good."

Police reported that Vandever was stabbed when attacked in a fight with another Negro at the Iowa theatre at 510 E. Fifth street. The assailant is still being sought by the police. A large gash was cut in Vandever's chest and he lost considerable blood, authorities said. A mainstay with the Comets, Des Moines professional football team, Vandever is noted for his outstanding track and baseball ability. During his high school days he was one of the most versatile winners in the athletic circles of the state.

RESTAURANT DISCRIMINATION SEVERE HANDICAP

Champaign, Ill., April 15—(ANP)—Nearly 110 Negro students at the University of Illinois face the cheerless prospect of two more school months without a satisfactory place to eat near the campus. The University cafeteria, an experimental laboratory located in the Woman's building on the campus, is the only place in which they may eat and this place has two disadvantages—the price of a complete meal is prohibitive to most colored students and lunch is the only meal served.

The nearest place for the students to secure proper food is located twenty blocks from the campus. This distance makes it impossible for them to eat lunch and be present for one o'clock classes. Consequently they must eat bakery products, confections or fruit purchased from street vendors. For their evening meal they are forced to crowd into one small restaurant or cook for themselves. In both instances many valuable hours are lost that could be utilized in study.

This situation has existed since the closing of the Co-Operative restaurant last December. This cafe was used by members of both races, but closed because of mounting financial losses. Recently four Negro students attempted to secure food at a campus confectionery, but service was refused them. A damage suit totaling \$2,000 resulted from this alleged act. The suit was filed in circuit court through Attorneys George Nesbitt and Edward B. Toles, Chicago, former students in the university.

Harlem's God to Face Court Again

FATHER DIVINE SUED FOR CULT FEE

New York, N. Y.—Harlem's Negro God is having more "angel" trouble in his "heaven." Mrs. Barbara Jones, middle aged white housewife, sued "Father Divine" for \$2,315, an amount she claims was given him to make her an "angel."

She further says that she was lured to the "heaven" in 1928 on his promise to "bless her," give her "everlasting life," but instead was seduced by the prelate at Sayville, New York. The process server was disguised as an "angel of peace."

With the surrender of John Hunt, 33, one of the white disciples, who is charged with the Mann act in the seducing of Delight Jewett, 17 year old white girl, G-Men, it is claimed, are investigating Divine's various "heavens" as result of the complaints.

North Dakota Ace At Drake Relays

FRITZ POLLARD TO LEAD OLYMPIC PARADE HERE

By the Staff Writer Included in the greatest front line of Olympic stars ever to compete in the twenty-eighth annual Drake relays here, April 23-24, will be Fritz Pollard, Jr., North Dakota university, son of the immortal Fritz Pollard, Sr., of Brown, one of the few All-American Negro football stars.

Establishing an enviable athletic record at Senn high school in Chicago, this remarkable prep star continued his fame making feats in the Olympic tryouts last year at Chicago, Milwaukee and Randall's Islands, losing only to Speck Towns, U. S. champion from Georgia Tech. His best time is .143.

Pollard, who placed third in the high hurdles at Berlin last August, thrilled the football world in 1936 season with sensational runs and touchdown sprints as halfback. Critics believe that he will emulate his famous father to become a member of the All-American squad before his college career is completed.

ADVANCE SALE TICKETS ARE GOING FAST, SAYS HOWARD

Music critics everywhere regard Fletcher Henderson as America's greatest exponent of swing music and classify his tunes as "distinctive" and "rhythmic." During his engagement at the Pla-Lan, Seventh and Grand, on Wednesday, April 21st, Fletcher Henderson and his orchestra will play some of the arrangements that have made him famous.

This is a Speck Howard promotion. T. L. (Speck) Howard, dance promoter, is urging everybody to take advantage of the reduced prices on the advance sale, which will end about 6 p. m. Tuesday. "There are only two hundred tickets left and you'd better hurry," he said. The admission at the door will be slightly higher.

Mail orders will be filled at Community Pharmacy, Twelfth and Center streets.

FLETCHER HENDERSON "Christopher Columbus"

Ballot of Approval Forecast of Leaders

Washington, D. C.—Opponents of the Gavagan bill were not helped by Tuesday's "blowtorch" double murder at Duck Hill, Mississippi. Renewed efforts have been forced behind the drive for a house approval of the measure making lynching a Federal crime.

Representative Joseph Gavagan (Dem. N. Y.), sponsor of the measure, predicted that it would pass the house by a 2 to 1 vote despite opposition from more than a hundred southern Democrats. The house debate will be resumed in the house Thursday, with final action expected Friday.

"Northern Democratic" Clashes between northern and southern Democrats were frequent during the house debate. Representative Stephen Pace (Dem., Ga.) said northern Democrats were "seeking to legislate on a subject they don't know anything about."

The Georgia representative, Pace, asserted that northern Democrats' interest in an anti-lynching bill "can be attributed only to the presence in their congressional districts of a limited Negro voting population which is demanding this legislation as the price of their support."

"Has Not Ceased" On the floor of the house Representative Michener (Rep., Mich.) arose to read an account of the Mississippi lynching. "This horrible incident proves that lynching has not ceased."

A house vote on the Gavagan measure will provide the first occasion in 15 years that the house has taken final action on anti-lynching legislation. Sponsors admitted, however, that they saw little chance of early senate action.

Provisions Southern Democrats attacked the measure as unconstitutional. It provides that peace officers who fail or neglect to protect their prisoners or who fail or neglect to apprehend members of a lynching mob are liable, on conviction, to five years imprisonment or a fine of \$5,000.

The county in which the lynching occurred also would be liable to a fine of from \$2,000 to \$10,000. The measure provides for federal prosecution under state law if state authorities fail to act within 30 days.

Mitchell Promises Aid Arthur W. Mitchell, representative from Illinois promised despite the fact that the chamber declined, on a 257 to 122 vote, to debate his "weak" anti-lynching bill, he would work "wholeheartedly" for the Gavagan bill and is sure it will pass the house, although he has grave doubts of its constitutionality.

The Gavagan bill has the support of the N. A. A. C. P. and Northern congressmen who fought Mitchell's measure because it was held too weak to be effective.

U. S. Goes Modern

America goes modern. Instead of the old antiquated bonfire and stakes, blow torches are used. While the Governor Hugh White was boasting to his friends at a Farm Conference that "Mississippi had not had a lynching in 16 months," the new improved method of murder was demonstrated at Duck Hill, Mississippi, Tuesday as Roosevelt Townes, 25, and "Boot-jack" McDaniel, 28, accused of murdering a country grocer were slain by a mob of 300 after being tortured with white hot blow-torches.

As officers were taking them from the mob-proof jail to Winona, Mississippi after arraignment to Jackson, Mississippi, Sheriff E. E. Wright and two deputies were surrounded by the human fiends. The manacled prisoners were loaded into a school bus over the pleas of the officers, and taken to the woods near the scene of the murder where the men were tied to trees.

McDaniel was the first victim. When the torch was applied to him he "confessed" naming Townes the killer. A volley of shots rang out and McDaniel was dead. Brush was piled around Townes and drenched with a can of gasoline. When the match was applied, flames enveloped the victim in death. Circuit Judge Allen announced an "investigation". The officers failed to recognize any member of the mob.

Compromise on Farm Tenant Bill

Washington, April 15—(C)—A compromise on the farm tenant bill now before the house was reached Tuesday when the "land purchase" section was changed to provide "loans" to tenants up to \$50,000,000 to buy their own land instead of having the government buy it for them.

WHITE WRITER LAUDS CHEYNEY SPIRITUALS

Philadelphia, April 15—(C)—"Guard's Talk of the Day," a column of comment in the Philadelphia Inquirer, daily newspaper, said recently on hearing the Cheyney college chorus sing: "And when better Negro spirituals are sung, Negroes will sing them."

COLORED NURSE SAILS FOR DUTY IN SPAIN

Boston, Mass., April 15—(ANP)—Miss Salaria Koo, R. N., of Harlem hospital, the first colored nurse to register for service in Spain, sailed Saturday with the Third medical unit, sponsored by the Friends of Spanish Democracy.

'N.Y. Negroes Voodoo Worshippers' Magazine, Film Propaganda Against Race Is Attacked

BOSTON EDITOR SCORES "TIME"; SAYS IT "LIES ON"

Boston, April 15—(C)—The Boston Chronicle, in an editorial captioned "Time Lies On!" last week said: "It was with disgust and nausea that we witnessed the latest issue of the 'March of Time,' for which Time Magazine is responsible. A section devoted to Harlem, New York, depicts the colored people in that section as ardent voodoo worshippers,

but falls miserably to prove it."

"We condemn this vicious and impudent propaganda on the part of Time Magazine, we urge our neighborhood theatres to refuse to run the film and we call upon all right-thinking Negroes to cease buying the magazine called 'Time' and to boycott any theatre that shows this malicious misrepresentation of colored people. Let Time lie on—but do not let them do it on our money."

Catholics Adopt Program Of Justice To Negro

CATHOLIC SOCIAL JUSTICE PROGRAM GROWING

NEW YORK, April 15 (C)—The prediction that within two or three years the Catholic program for social justice for the American Negro will become "one of the most important and far-reaching movements of our times," was made here Sunday by the Rev. John LaFarge, S. J., noted Jesuit author and educator.

Father LaFarge spoke at the third annual Catholic Interracial Conference held under the auspices of the Catholic Interracial Council, at Teachers College, Fordham University. The conference, attended by 300 delegates from 43 Catholic colleges, universities and other organizations, was characterized by speakers as the most important of its kind ever held in the United States on the Catholic Interracial program.

Enactment of a strong, adequate and effective anti-lynching law by the present Congress was demanded by the conference, which also adopted a pledge urging all Catholics to treat the Negro as a human being and to further his spiritual, material and economic welfare as much as possible.

Delegates from a dozen Catholic colleges and universities who attended also voted to expedite the formation of interracial clubs at every Catholic college and university in America. The purpose of these clubs will be to acquaint Catholic college students with Catholic efforts to assist the Negro, urging these students to participate.

BIT PREJUDICED BROOKLYN SCHOOL TEACHER Brooklyn, N. Y., April 15 (C)—A white teacher at P. S. 11, a Miss Kirby, instructor of the 5A class, is accused by the Brooklyn Youth Council of the National Negro Congress as referring to Negroes as "savages" and telling her Negro pupils to "go back to Africa" in ouster charges preferred Monday. An open hearing is sought before the assistant district superintendent by William Hillton, executive secretary of the Youth Council.

Miss Kirby is charged with making distinctions between her pupils, such as "You black boy" and "You white boy"; and explaining to white children when a colored boy struck his head on a wooden ledge that such a blow would have fractured a white child's skull, but that a Negro child's skull is hard and would not be harmed.

Many Famous Personages Born in Summer Months

Are you a genius? For all you know you may be, and if you were born in April, May, June, or July your chances of fame are much higher than if you were born in dark December.

These conclusions are the result of large-scale investigations by American biographers who have examined the careers of 10,000 famous English men and women. By far the greatest number of them were born between April and July, while the worst birth month for possible English geniuses is December, says Pearson's London Weekly.

According to investigators, weather and climate play an important part in shaping the mental development of the unborn child. The rhythm of climatic change affects our glands, and the human body responds so as to adjust itself to the weather. This mysterious change affects the child as much as the mother, and in some way, as yet unknown, the child's brain is increased or retarded by the action of the glands.

But don't despair simply because you are a winter child. Possibilities of genius may seem attractive, but they are accompanied by an equal risk of lunacy. The summer baby may be a genius, but he also may be a nit-wit, while the children of winter months stand a far greater chance of growing up into normal, easy-going citizens.

It has also been found that the birthplace is an important factor. In America, for example, where the seasons are the same as in England, the largest numbers of famous people have birthdays in October, November, and December—quite different from the English months of genius.

Heart Beats and Fear
Many people believe that when they get scared their hearts beat faster and faster. The truth is that the action of the glands, particularly the adrenals, during fright is such as to cause a slight initial speeding up of the heart when first scared, and this is followed almost immediately by a slowing up of the heart and faster. The truth is that becomes stronger—but not faster, declares a writer in Pearson's London Weekly. People mistake the pounding of their hearts for speed. These strong beats raise the blood pressure, pump sugar to the muscles, cause fatigue to be banished and prepare the body for defending itself. The heartbeats are stronger but not much faster.

All Urged to Make Arrests
Citizens of Chicago in 1931 were told they could constitute themselves a one-man vigilante in apprehending speed-law violators, as revealed in the ordinances of the city. "No person," read the anti-speed ordinance, "shall immoderately ride or drive any horse in any avenue, street, alley or lane within the limits of this city under penalty of not less than \$2 nor more than \$10. And it is hereby made the duty of every officer, and it shall be lawful for any citizen, to stop any person who may be immoderately riding or driving as aforesaid."

Tonic Talk
If at any time you think yourself a failure (and most of us have that feeling at times) go out-of-doors, no matter what the weather is, advises a writer in Pearson's London Weekly, and keep on walking until you come across a man doing a job of work and doing it well. Now say to yourself: "If that man can do his job, why can't I? What others can do, I can do, too." Jonah, although badly down in the mouth, came out all right, and so can you. The kettle, even when up to the neck in hot-water, can always sing.

Drake Looms Favorite In Relays 2 Mile Event

It has been twenty-four years since a Drake team has won a relays championship at its own meet, but this year the Bulldog two-mile quartet looms as one of the greatest in the nation's history. These four—Harrison, Kohl, Bob Horstmeier and Capt. Ray Mahannah—ran the two miles in 7:47.6 at the Texas relays, faster than any turned in during 1936 in the entire United States.

TRACK

The boys did pretty well in the Valley relays. East, with George Wells, Stanley Beverly, Al Thomas, Frank Kaiser, Harry Sanders, Harold Miller and Bill Parker, took things "into camp" nicely, winning the meet decisively. Chet Simms, Eddie Eaves, Bill Ware, Tommy Avant didn't do so well, while Valley brought Booker King and Charley Swink along and made a scuffle for honors. Incidentally, Swink won the 440 yard dash at Iowa City last week, but this thick-headed scribbler forgot to mention it. Pardon, please. These boys will have a swell time next week at the Drake relays.

The college competition promises some interesting Negro personalities. Olympic winners and other luminaries will be on hand next week. A lot of the boys who couldn't make the Olympic teams, but who were good enough to extend the team members and sometimes beat them will also be on hand.

BOXING

John Henry Lewis, light heavyweight boxing champ, will show his wares here at the Coliseum on Monday night. His opponent hadn't been decided on at this writing. John Henry has been clamoring for a match with Joe Louis since last May. He contends that he is the logical contender for the heavy title instead of either Max Schmeling or the Bomber. He bases his argument on the fact that he had Braddock on the floor and was robbed of a decision just before Braddock fought Baer. When Joe Louis was here we asked Roxborough about John Henry. Rexy didn't say so in just so many words, but he inferred that Joe would stop the light heavy champ and besides "there isn't any demand for the bout. Since it wouldn't make any money, we won't consider it."

Those who saw Joe go through his motions last month will have a chance to compare the two boys, both leaders in their class.

BASEBALL

The season is about on us for balls and strikes. We have wondered at the lack of young Negroes on local school teams. Still there is no proving ground or place for them to play so they can team the game. Our baseball league was to have been that, but the boys wanted to win too badly, so it was good that it turned to a soft ball league. But that doesn't help the baseball players any.

ED BURKE EXPECTED TO BE HEADLINE ATTRACTION
Marquette's popularity as headline thrill "went with the wind" with the passing of Ralph Metcalfe's flying spikes from the picture. However, this year, on April 23-24, Con Jennings Marquette's track mentor, is bringing another star in the track crown of the Hilltoppers to Des Moines for the twenty-eighth annual Drake Relays.

Ed Burke, sophomore high jump sensation, who is the present world's accepted record holder, 6 feet, 9 inches, established in New York recently, is counted to smash the oldest record on the Drake books. Back in 1922 Harold Osborne of Illinois sailed over the bars set at 6 feet, 6 inches to remain unbroken through all these years.

Cal Beckett, middle distance runner and 1936 captain of Marquette, will be one of the mainstays of the relays quartet from Milwaukee. Last year he pressed the winner, Glenn Cunningham, in the special 1,000 yard race to a new mark.

LOUISVILLE FLOOD LOSS HEAVY
Louisville, Ky., April 8.—A report to Mayor Miller on Friday said the flood loss here in January was \$52,575,741. Losses on private property, including household goods and damage to homes and buildings, were estimated at \$49,681,676. The main colored business section, and most of the better colored homes were overflooded.

Looking Over the Hawkeyes

By J. Braddie Morris

Hi everybody! We weren't with you folks last week because of the lack of printable matter (news to you who don't know any better) in this college town. Although on Saturday evening the Alpha Phi Alpha fraternity came through in fine style to break the monotony. The boys broke out with one of their fine parties. Every one was there and all enjoyed a fine evening. Among those present were out of town guests from Illinois Normal college, Cedar Rapids and Fairfield. Music for the occasion was furnished by the "Swing Maniacs." Iowa university's premier swing band, Ozzie Simmons, the football playing "trouser," wields the baton and does the vocal honors for the boys.

We see by last week's Waide column that the S. U. I. fellows will be in Des Moines for the Drake Relays. Well, that's that. I'm sure that a fine representation of our college manhood and probably some of the womanhood will be on hand for the gala affair.

We have one of our good friends on the casualty list this week. He is Leo Kerford, the only Negro member of the Hawkeye tennis squad in history. He has only a slight cold and will be back on the tennis courts by the end of the week.

The Hawkeye track squad goes to the Kansas relays this week. We are hoping the boys all the luck in the world. Among those making the trip will be Homer Harris, Robert Nelson, Eugene Skinner and Ed Wiggins. Next week the Hawks will strut their stuff at Drake. So long, and we'll see you there.

Marks of Past Illness

Shown by Hair and Nails
Signs of past illness often remain long after the illness has ended. These are to be found where the circulation is poorest, viz., in the hair and the nails, says a writer in Pearson's London Weekly.

After a severe illness, you will often find that a ridge appears running across the nail and growing with it, advancing towards the free end as the nail gets longer. This is due to the fact that the illness has absorbed a good deal of the patient's strength and the circulation, in consequence, has not been sufficient to nourish the nails properly.

When anyone gets run down in general health, the nails frequently suffer in other ways, especially if the condition is a chronic one. They may become brittle and crack easily, while sometimes they are pitted with small holes as though they had been worm-eaten.

To restore the appearance of the nails you must, of course, first restore the general health. The principal cause of the debility must be treated, and when this has been done improvement in the circulation follows. As soon as the nails begin again to get proper nourishment they will quickly regain their healthy look.

A Skytop Republic

Bolivia is known as the skytop republic of South America. With no outlet to the sea, it is reached from Mollendo, Peru, and Arica and Antofagasta, Chile. Chief among the country's attractions are Lake Titicaca, highest navigable lake in the world; La Paz, the capital, and two towns called Sucre and Potosi. The latter was a fabulously wealthy city long before the Mayflower landed its settlers in North America. Lake Titicaca's interest to visitors lies largely in the peculiar beauty of its mirrorlike, rush-fringed waters, in the Indian villages surrounding it and in nearby ruins of cities belonging to the Tiwanaco civilization, which antedated even that of the Inca empire. La Paz, the world's highest capital, is notable for its spectacular setting 12,000 feet above sea level, in an amphitheater of crinkled, rust colored rocks and mountains; for its attractive old Spanish churches, with their almost constantly ringing campanile bells.

Sign of the "Go-Getter"

The square type of hand is one in which the back of the hand (excluding the fingers) is almost square in shape. This is the hand of the practical materialist. The man or woman who pushes things through to a decisive conclusion, according to a writer in Pearson's London Weekly. Possessed of a hand such as this you are determined and forceful, possess little imagination or creative ability, but can be relied upon to make a success of any occupation where sheer grit is required. Methodical and painstaking, once you get your teeth into a thing, like the bull-dog, you won't let go. You must see it through.

Woman for President

It is often said that Betsy Lockwood, who headed the Equal Rights party ticket in 1884 and again in 1888, was the first woman nominated for the Presidency, but Mrs. Victoria Claflin Woodhull (later Martin), was nominated in 1875 for the Presidency at Vineland, N. J., by a convention styling itself the Equal Rights party. Frederick Douglass was the nominee for Vice President. Mrs. Woodhull, like Mrs. Lockwood, received no electoral votes and only a few scattered popular votes.

Where Columbus Once Lived

One of the famous ancient monuments of Savona, Italy, is the Pancaldo tower, which overlooks the harbor and was built to guard it at night. In 1684 the tower was ornamented by a clock and a statue of the Madonna, the latter facing the sea. Close by one encounters a small square, the Piazza Colombo. On the right-hand side of this square, as one faces the harbor, stands a tall, narrow dwelling, with a tablet on its wall stating that Columbus lived here for many years.

THE IOWA BYSTANDER

Madagascar Lemurs

Madagascar lemurs (these are other types in Africa and India) sleep all day; at night, roam from their tree homes seeking insects, birds and birds' eggs. Powerful legs make them comparatively the best broadjumpers in the animal kingdom. Lemurs got their name from the Latin for ghost, because of their weird cry. Madagascar natives superstitiously avoid them.

Earned Net Income

Earned net income means the excess of the amount of the earned income over the sum of the earned income deductions. Earned income means wages, salaries, professional fees and other amounts received as compensation for personal services actually rendered. Earned income deductions are expenses or deductions which are applicable to the actual earning of income.

Bold Crook

One of the boldest crooks in the criminal records of America was a forger who, after having passed bad checks in virtually every state of the Union, calmly visited Sing Sing one day in 1914 in the guise of a sightseer—and, on his way out, caught another worthless check through a clever ruse which he worked on the prison authorities.—Collier's Weekly.

Growing Tree as Memorial

Luther Burbank was born March 7, 1849. A growing tree in Santa Rosa, Calif., marks his resting place. "The plant mind is subconscious, but it is there," said Burbank. It responds to environment. Plants can feel. A shudder runs through the forest with the flames. Some plants permit insects of only a certain type to take away their pollen. The mind of the hop vine inspires it to wind around the pole in but one direction. Expansion and contraction of cells in plants are heart beats—14 a minute. Plants are our distant relatives.

Cheese Wizardry

Cheese, every epicure recognizes, rely for their distinctive flavor on a fungus called penicillium. Its function is to create the mold without which most cheeses would be distastefully anaemic. Included in its family group are innumerable sub-varieties, each with a singular characteristic. These famous Roquefort caves in France, where millions of cheeses ripen annually, are infested with Penicillium Roqueforti, and its presence accounts for this local industry's world-wide reputation, according to London Tit-Bits Magazine.

Coil of Snakes

The rattlesnake is typical of the snakes that coil before striking. As soon as it is alarmed, it throws its body into a coil, with head raised a little above the rest of the body. When ready to spring, the muscles of the upper part of the snake are suddenly contracted, so as to straighten the body abruptly and thrust the head forward in a direct line. As the upper part of the body only is employed, the snake never strikes at a greater distance than one-third to one-half its length.

How Do You Feel?

Do you feel tired, nervous, or out of sorts? If so, you need Listerine. It's the only mouthwash that kills germs and keeps your mouth clean and fresh.

Penicillium Magic Word

For many years science has been seeking to discover the secret of the flavor of the most famous cheeses—that it is, aside from different names, that makes Camembert, Brie, Stilton and Roquefort individual. According to J. Ramsbottom, of the Natural History Museum of London, much of the secret lies in one word: "Penicillium."

Penicillium, though unfamiliar

even as a name to the layman, although in American dictionaries, is a group of some 600 members, which shares with one other kind of fungus the responsibility for most of the common "molds" of fruit, leather, and many other materials. "Penicillium roqueforti" ripens cheeses of the Roquefort, Gorgonzola, Stilton type. It is, par excellence, the maker of green cheese, and its special virtue is that it can live and thrive in cheese cracks where the supply of oxygen is very small.

India Elephants Not Bred

In India elephants are used for hauling and big game hunting. Despite popular belief, they are not bred. It's cheaper to capture a wild adult, which is easily trained. The African elephant, on the other hand, is untamable. His ivory tusks are his only assets to man.

ETHIOPIANS AID IN NEW ITALIAN ROUT MOROCCANS REBEL

Madrid, April 8—(Special to CNA)—Mussolini's vaunted legions, fresh from their "triumphs" against unarmed Ethiopia, were in headlong flight on another Spanish front last week, barely two weeks after the disastrous rout of three crack divisions of Italian army regulars on the Guadaljara front, northeast of Madrid.

Following up the Guadaljara victory, the government forces unleashed "blanco" front that resulted in a "second Guadaljara" on a minor scale, with the complete rout of another invading Italian army as the Spanish people's front government passed from successful to telling counter-attack. A government army also swept forward toward Burgos, so-called capital of the rebel regime, hurling back its fascist defenders.

American Negroes also came to grips with the fascist on the Jarama front, south of Madrid, where the Lincoln brigade, composed of white and black American "anti-fascists," went into action. The Spanish government reported that forty members of the brigade were killed and 100 wounded in recent fighting in that sector. The government gave no indication of the racial identity of the killed and wounded.

DEFEATS CHILD LABOR BILL OF COLORED SENATOR

Lincoln, Neb., April 8—(ANP)—A bill proposing ratification of the federal child labor amendment, introduced by Atty. John Adams, Jr., of Omaha, only colored member of the Nebraska unicameral legislature, graduate of Nebraska and serving his second term, was overwhelmingly vetoed Friday. Objection was so great that a machine record was not required and senators escaped going on record.

Immediately representatives of eleven women's organizations sent angry telegrams of protest to Speaker Warner scoring the "cowardly" action of the body. It was the fifth time the measure has been rejected in Nebraska, with twenty-eight other states voting for ratification.

To all my cool kind friends in my own inimitable way: The amount of accurate news in our old home town seems to be steadily decreasing with the publication of this column each week. Contrary to the old saying "real news should be seen, not heard," these things were heard not seen, so I am not responsible for any prevarications which follow.

SIT-DOWN STRIKES IN DES MOINES

Des Moines is being plagued with sit-down strikes in the big laundries. And nobody seems to be doing much about it. Streamers, made in most instances from dirty rags, tell passers-by that union recognition is demanded.

The Bystander is convinced that if these strikes are being conducted all over the country with the same crudeness that prevails here in Des Moines, their methods are bound to lose friends for their cause.

But regardless of incidental things that occur, farsighted people interested in the common good of all the people cannot but detest a sit-down strike for not only are they illegal but they set a precedent for any other pressure group to take the law into its own hands. For instance most corporations are owned by a large number of stockholders. Would it not be just as logical for them to enter upon corporate property and demand that dividends be paid to their liking?

Taxpayers own our public buildings. Would it not be just as logical for the taxpayers to enter legislative halls, take possession and demand certain legislation or take possession of other public buildings and make demands to their liking?

The point is that in this country we have gone on a theory of getting our demands satisfied by orderly process. While there are instances where we have strayed from the principle, they constitute no license for a wholesale violation of the laws as is being done in sit-down strikes today.

NEEDED, BUT WHO IS BLOCKING ANTI-LYNCHING LEGISLATION?

Mississippi lynched two Negroes this week in the most cruel manner imaginable. Members of the mob used a blowtorch to burn confessions from the victims and as soon as this had been accomplished the bodies of both men were riddled with bullets. The men had been returned from the court house where they plead not guilty to a charge of murder and were in the custody of the sheriff and his deputy.

Yet Mississippi and the rest of the southern states insist that they know best how to deal with the question of lynching. Maybe so if they are allowed to be the judges of the meaning of the word "best."

Today a bill—the Gavan anti-lynching bill—is being debated in the house of representatives. Crimes like the one which occurred in Mississippi this week prove conclusively that in most instances the states make no substantial effort to protect guilty or not guilty prisoners from mobs and do nothing to punish the perpetrators of these heinous offenses.

Most of the opposition to anti-lynching legislation comes from members of congress who hail from states where practically all of the lynchings occur. On the other hand there are sufficient men in congress coming from other sections to pass the anti-lynching bill. That being the case we are charging the south with doing something they ought not be able to accomplish. The Bystander is inclined to place as much responsibility on the many weak kneed legislators—Republican and Democratic—as we do on the southerners. The fact is the southerner gets up and fights while

too many spineless politicians from the north simply take the attitude that they will support the bill if it comes to a vote but do nothing to get it in that position.

During the campaign last fall northern candidates, Republican and Democratic alike, promised Negro constituents that they would support such legislation. The opportunity is here. Let us see what happens.

Under the rules of the house of representatives, there is absolutely no excuse for the bill not passing. While the rules of the senate which permit unlimited debate enable minorities to defeat the will of the majority, it might be well to invoke the aid of President Roosevelt that he may carry out his oft-proven interest in the "forgotten men."

Mobs and sit-down strikes are in the same category. Congress is afraid to deal with them and the executive branch of the government lets them "take their course." In the meantime men are losing their lives and we are getting in worse shape as a country daily simply because there are no weak kneed men in public life.

George H. Edmunds, who is engaged in organization work for the C.I.O. in the St. Louis district, is spending a few days in the city with his family.

Health Talks

By Dr. C. R. Bradford

ULCERATIVE STOMATITIS

Also called Pinnet's infection or trench mouth is an inflammation and ulceration of the lining of the mouth, cheeks, gums, etc. This condition is caused by a rod shaped germ that gains entrance into the mouth by personal contact such as kissing or the use of contaminated articles such as drinking cups, knives and forks, etc. The common use of drinking cups on picnics should be discouraged as in that way the disease is transmitted with little difficulty.

The onset of the disease is usually slow with some days of general indisposition; the symptoms are usually mild but develop rapidly if treatment is not started. The mouth becomes red, swollen and painful, especially when swallowing, sometimes there is hoarseness. Pain and soreness, however, are usually the worse symptoms.

Every case of sore mouth should be investigated immediately and home remedies should not be tried.

Prevention is better than treatment and if properly carried out in places where groups of people are thrown together such as schools, hospitals, hotels, army barracks, etc., much can be done to prevent the disease entirely.

Caution your children to practice oral hygiene and to refrain from using drinking cups others than their own.

A. W.—My husband is a good man, but he needs to go to a doctor, and every time I suggest it he says he does not have the money. Tell me what to do?

Ans.—Your husband don't have the money to throw away, but surely he could arrange to receive the medical attention necessary for his health. Make him realize that it would be cheaper in the long run for him to see a doctor. He shouldn't neglect himself.

Ans.—There is no reason why you shouldn't associate with him. However, you should not devote all your time to him. It is true that he is agreeable and pleasant, but he is just not the man that will become your future mate.

J. H.—Does this man I am so fond of love me or am I acting silly? Every one knows I love him and will he visit me or s he just like all other men I know, a cheat and a false hood?

Ans.—Of course not. Give the boy a chance to reach an honest opinion. He was truthful when he said he did not know if he loved you or not. Continue your association and be sure that your conduct is above reproach. He is searching for the perfect girl.

M. L. P.—Will you tell me if I am going to take the trip? Could I get a private answer from you?

Ans.—You will make the trip an originally planned and the result will be very satisfactory. If you desire a private reply, send a quarter for my new Astrology Reading, along with full name, correct address and birth date, and you will receive my free opinion on three questions.

M. P.—I enjoy reading your column. Will my husband change and will I have success in the future?
