SENATOR ROBINSON

Senator Robinson of Arkansas who died last week was eulogized by official Washington and his close friends were grieved at his untimely death. However the previous week, his colleagues in the Senate said he had a nasty temper and other things most uncomplimentary about him.

However the Negro press lambasted him last week before his death and since because in spite of the fine things his colleagues said about him after his death, they knew he was just a petty politician as far as Negroes were concerned and that he rode to his heights partly because of his opposition to the Negro.

In other words what the Negro press said about Senator Robinson in each instance was true while his friends lambasted him during his lifetime and praised him after death. That is customary.

Of course what people say about him now he knows nothing, but everybody wants to be praised even by the lowly. The best way to get the praise of the lowly is to treat them right.

THAT SCOTTSBORO JUDGE

Judge Callahan of Alabama will convict all the Scottsboro boys with his instructions to the jury when he says: "The law presumes that if a Negro has intercourse with a white woman it is against her will."

Coupled with the Alabama theory that at all times a white man's word is to be taken as true in preference to that of a Negro, the jury can have little else to do.

And we question whether such an instruction will be sustained by a higher court. In fact we think not unless it is composed of men of Judge Callahan's type.

There is some encouragement in the decided change in sentiment in Alabama in behalf of the boys and a few more trials may eventually get justice done.

A TYPICAL GESTURE

The house of representatives voted a pension to Harry Parker, veteran janitor of the ways and means committee in recognition of his 63 years of continuous efficient service.

Representative Warren of North Carolina and several other members spoke in glowing terms of this man. The most outstanding tribute paid Parker was that he was a very efficient man. And he must have been in order to hold the job under many changes in office which have occurred during all these years.

It is a might fine thing to have had it said that he had done his work well. It is a pattern well worth making even in the most lowly tasks there is entirely too much of a disposition on the part of people today to see how little they can do.

Rep. Warren is no friend of the Negro as such but evidently like the average southerner he can do some good things for individuals of the group.

WHY HIDE IT?

A subscriber for the Bystander who lives in an Iowa town with a small Negro problem—a fact which makes the race problem less acute there—suggests to the management that all papers sent out should be wrapped

individually so those only to whom the paper is sent could read it. He felt that white people who know nothing about the unfair tactics practiced upon Negroes in some communities have these things suggested to them by reading Negro papers—things they would not otherwise know.

The Bystander nor any other Negro paper should be ashamed of its new columns. In fact it makes a definite effort to secure as many readers among the white people as possible—yes ten per cent of our subscribers are white people.

The only justification for any class paper is the fact that it specializes in and prints news which those for whom it is maintained want. In the case of the Negro, we contend that we can't get our news in the white papers except in a very limited degree and that editorial opinion—the Negro's expression on the topics of the day—can be gotten to Negroes and the white people only in this way. And we think we are right.

We are not unmindful of some truth in what our friend says, that some people can and will be inoculated with race hatred in this manner but to the whole the people who read Negro literature are bound to appreciate him more and treat him better because they know more about him.

Scottsboro Case

(Continued from page 1)

settlement of the case could be brought about with a local attorney added to the defense, the trial of Charlie Weems, scheduled to begin Thursday, was postponed until July 22nd.

To further refute Victoria's story, Leibowitz brought in a surprise witness, Mrs. Emma Bates, mother of Ruby, who later repudiated the attack yarn and said the whole thing was a frameup. The defense also introduced evidence purporting to show that Victoria, a fully grown woman, induced Ruby, then a girl of 17, to go into Alabama for immoral purposes.

"Wouldn't Believe Her"
Leibowitz also put R. S. Watson, former Huntsville deputy sheriff, on the stand to tell of the Price woman's reputation. He said he had known Victoria since 1894 and that he "would not believe her under oath." Similar testimony was offered by Sol Wallace, another Huntsville deputy, who said he had known the woman since 1921.

Lawson, assistant attorney general, made a restrained plea in contrast with those previously given by the deceased Lieut. Gen. Thomas E. Knight, Jr., straying only once from a calm analysis of the evidence when he said, "For the protection of the womanhood of our state, I submit that the defendant should be found guilty and condemned to death."

Claims Insanity

The New York lawyer did succeed in deferring the arraignment of Cecil Powell on the ground he was insane and could not stand trial. He said the youth had become insane during his six years in prison and asked that he be committed to a state institution. Action was deferred until Callahan looks up the law on the point. Heavily armed guards brought the defendants here from Birmingham by truck. Spectators and newspaper men were searched for weapons as they entered the sweltering court.

SHOWED LOUIS-SCHMELING BOUT LAST YEAR, BUT PASS TITLE PICTURE

Nashville, Tenn., July 15—(Special)—Nashville theatre operators snub the showing of the Braddock-Louis championship battle which took place at Comiskey park, Chicago. Aside from the two Negro theatres, only one other Nashville show house, the Princess theatre, catering to white patrons only, has booked the pictures of the fight.

The attitude of local theatre operators following the recent fight is exactly the reverse of the course they pursued following the Louis-Schmeling fight of a year ago, when practically every down town theatre showed the films for a two week period, a record run for any type of movie in this city.

RACE NEEDS MORE THAN ONE LEADER, SAYS JOHNSON

Detroit, Mich., July 15—The day of a Moses for the race—one man who can lead it out of all its troubles—is past, declared James Weldon Johnson, speaking here July 2nd before the twenty-eighth annual conference of the N. A. A. C. P.

Is Your Fish Cooked?

Recently I talked with some friends who related to me their surprise at finding a worm buried in the tissue of a fish they had cooked for consumption. While the fish tape worm is not very common in this country, yet the fish of many important lakes in this country are becoming infested. It infests man through the indigestion of incompletely cooked fish and is most common in those who prepare fish dishes and sample them during the process of preparation and in those who eat raw fish either in the dried or salted state.

Tapeworm infestation is usually manifested by the following symptoms: abnormal appetite, picking of nose and scratching of the skin, restlessness at night and nervous symptoms by day, dizziness, colicky pain, nausea, vomiting, and ova (eggs of the worm) in the stool. Proper cooking of fish at all times is essential since it is usually impossible to know when fish is infected. The experience of finding a worm by my friends was an experience they cannot easily forget, this experience should not discourage their fish eating but should encourage them to cook all fish thoroughly.

W. W. J.—Please tell me if I am going to get the job that I want next summer?

Ans.—I am inclined to believe that things in general are not as serious as you believe them to be, therefore your plan wouldn't amount to much. Wait until the first of September before making any change and you will be able to clearly determine your circumstance.

W. W. J.—Please tell me if I am going to get the job that I want next summer?

Ans.—Don't depend on it. When next summer comes around you will be so far advanced that you won't even want the job. Study hard this fall and winter and you will be able to get a much better paying position next summer than the one in mind.

G. P. P.—Tell me if there is any danger for me by going with the man I am going with?

Ans.—There is danger of your falling in love with the man, but that is all. The man in question is very skeptical and doubts any one he comes in contact with, so don't show your emotions too much in his presence.

L. B.—Will my husband still go with the woman I have in mind? What shall I do?

SOUTHERN PINE GOES TO NEW YORK FAIR

NEW YORK (Special).—Southern yellow pine from the Eastern Shore, Maryland, and from points in Delaware, Virginia and North Carolina is already going into foundations in the central area of the New York World's Fair of 1939.

This was learned when the Fair Corporation announced the purchase of more than \$100,000 worth of fir plings from the National Pole Treating Company. This particular lot of fir sticks will be driven into the ash fill of the 1216½-acre exposition site to guarantee the support of the two unique structures forming the Theme Centre of the "Nation's Fair." These are the 200-foot Pentisphere, a globe seemingly supported on the waters of fountains, and the Trylon, a 700-foot triangular needle or beacon and broadcasting tower.

Shipments of the 1200 sticks, 25 to 30 feet in length, are taking place this month, after creosote treatment has been accorded them either at the National Pole and Treating Company's plant at Hillside, Washington, or at the Minneapolis yards.

This is the Fair's second purchase of fir from Northwest sources. An order for 770 sticks of similar length was filled early this year from Oregon cuts. This earlier shipment of piling supports the Fair's \$900,000 Administration Building already erected on the grounds.

RACE RALLIES TO AID STEEL STRIKERS

Cleveland, O., July 15—(CNA)—Active support of the strike against Republic Steel Corporation which has refused, in defiance of the Wagner labor relations law, to recognize the right of its employees to bargain collectively, was pledged this week by a meeting of Negro civic leaders and employees of Republic in Cleveland.

More than one hundred Negro steel workers attended the meeting and pledged to stay on the picket line "till hell-freezes" if necessary, to bring Tom Girdler, head of Republic, to terms.

N. S. A.—Please tell me why my fort. Should I ask them not to my friend stopped coming to see me all of a sudden? Put in the column immediately, please.

Ans.—He became interested in another girl. It seems to me that you have your friend lose interest by calling him so often. Don't run after the boys, but sit still and they will seek your company.

H. J. B.—I am a constant reader of your column. Tell me if I should proceed with the plan I have in mind at this time?

Ans.—I am inclined to believe that things in general are not as serious as you believe them to be, therefore your plan wouldn't amount to much. Wait until the first of September before making any change and you will be able to clearly determine your circumstance.

W. W. J.—Please tell me if I am going to get the job that I want next summer?

Ans.—Don't depend on it. When next summer comes around you will be so far advanced that you won't even want the job. Study hard this fall and winter and you will be able to get a much better paying position next summer than the one in mind.

G. P. P.—Tell me if there is any danger for me by going with the man I am going with?

Ans.—There is danger of your falling in love with the man, but that is all. The man in question is very skeptical and doubts any one he comes in contact with, so don't show your emotions too much in his presence.

BEAUTY AND ROMANCE by Marie Downing

PERSPIRATION
"His brow is wet with honest sweat."
Perspiration is above criticism for the working man, but for us, dear ladies it is a decided foe of attractiveness. For to be completely delectable and to have the irresistible charm of feminine distinctness is the wish of every woman.

During these warm summer days our efforts to control excessive perspiration becomes a real battle. Frequent bathing to keep the skin fresh and clean is of primary importance. A cold sponge or shower is an excellent preventive, and a few drops of your favorite perfume or some bath salts in the bath water will help achieve your goal.

If you perspire freely about the face, makeup should be used sparingly and applied carefully. Don't make the mistake of trying to overcome the effects of perspiration by a heavy application of cosmetics, for this would soon become streaked and blotched. As a result your appearance would be worse than if no makeup at all were used.

Rinsing the face with witch hazel or any good astringent lotion before applying cosmetics is a good method. This has a mildly astringent effect that will check the flow of perspiration and also soothe and cool the skin.

Your choice of powder for the summer should be made very carefully. Be sure to get one as light in weight as possible. A heavy powder clots easily on molar skins—so the lighter the powder, the better for those who perspire freely.

Don't feel handicapped if your skin is moist. It will probably look fresh and smooth and will not have the parched, dried-out appearance that the warm, sunny days bring to

BUILDING TESTS WALLS FOR FAIR

NEW YORK (Special).—Although the opening date of the New York World's Fair is still almost two years away, the Fair site already has one building that mystifies all persons who pass that way and one that is of great interest to the contractors and builders of the whole country. The big sign says it is the "test building."

The building can be made to do a lot of things just short of a late dance step. It can be made to twist, heave, buckle, sag or otherwise contort, all at the will of the Fair's engineers. It has a saved-off lower arrangement on one end. Some sections of its walls are dazzling under the sun and are, obviously, encrusted with bits of broken glass. Its four walls in fact, comprise 43 different set-ups of material, supports and surface coatings. When its day is done it will be made to collapse by the turn of a screw.

The unique building is typical of nothing other than itself, say Fair officials. It is just a set of walls, upon which to try out the merits of various types of wall coating and stucco treatments.

The sturdiness, appearance and structural peculiarities of walls are of great importance to the Fair, since its 300 buildings will require about 10,000,000 square feet of such enclosures.

The interior of this "wall laboratory" is given over to the Corporation's illumination engineers and their experimentation with new lighting devices.

NEW YORK (Special).—Radio, television, movies, telephone, telegraph, photography, news and magazine print—all those factors as they relate to communications in American life—will have their own pavilion and ten-acre exhibit zone at the New York World's Fair of 1939, according to an announcement by Grover Whalen, President of the Fair Corporation.

The Hall of Communications will be built this year on the 1216½-acre exposition site within a few minutes' ride from mid-town Manhattan. Its location is adjacent to that of the unique Theme Centre structures, which with their "thousand wonders" will dominate the Fair grounds. About the Hall will be grouped ten acres of buildings to be erected by private exhibitors in the communications industry, said Mr. Whalen.

Before the building will be two ultra-marine pylons, 100 feet high and face with continuous glass lighting fixture. Features of the structure are a great hall, in which will be placed the focal exhibit summing up the role of communications in the World of Tomorrow and a glass-walled restaurant opening onto a dining terrace and garden. The total length of the Hall of Communications will be over 400 feet, its cost, estimated at \$400,000. Numerous other Fair structures are emerging from stages of design. Construction of the exposition, however, will not reach its peak until early next year.

Whether how long the session lasts, the anti-lynching bill will be considered.

LAWYER APPOINTED TO DISTRICT ATTORNEY'S OFFICE
San Diego, Calif., July 15—(ANP)—Atty. John Roundtree, the only colored lawyer in this city, last week was appointed deputy district attorney in the office of Dist. Atty. Thomas Whelan, replacing Edward W. Goodman, who was appointed legal adviser to the county welfare department.

Washington, July 15—Even with the beginning of the debate on the president's supreme court proposal, the anti-lynching bill could not be kept in the background and this week Senator Bennett Champ Clark of Missouri, wrote the N. A. A. C. P. that he would vote against adjournment unless the anti-lynching bill is disposed of at this session.

With the mid-summer heat ahead and the pressure by the administration for the enactment of its legislation, coupled with the refusal of administration leaders to name a date for adjournment, the anti-lynching bill was thought by its enemies to be securely buried, but with the assurance of Senator Clark and of other senators, it seems certain that no

NEW ELECTRICAL UNION OPENS DOOR TO NEGRO

New York, July 15—(CNA)—Negro electricians may now have the protection of organized labor, which has been denied them by the Jim-crow A. F. of L. union, the International Brotherhood of Electrical Workers of America, it was pointed out this week by the Negro Workers' Council, the workers' education group sponsored by the National Urban League.

The new brotherhood is being backed not only by the CIO, but by the United Electrical and Radio Workers, a CIO affiliate, which has already organized employees in such shops as General Electric, Philco, RCA-Victor, etc. Under the closed shop established by the Radio Workers' Union, the Negro members have been fully protected in their jobs, hold offices in the union and share in the improved wages and working conditions resulting from the union contract.

TOOK OFF 17 LBS. OF UGLY FAT
HEEDED DOCTOR'S ADVICE

Mrs. Robert Hickey, Roseville, Calif., writes: "My doctor prescribed Kruschen Salts for me—he said they wouldn't hurt me in the least. I've lost 17 lbs. in 6 weeks. Kruschen is worth its weight in gold."

Mrs. Hickey paid attention to goodness who said there was no safe way to reduce. She wisely followed her doctor's advice. Why don't YOU?

Get a jar of Kruschen-to-day (lasts 4 weeks and costs but a trifle). Simply take half teaspoonful in cup of hot water every morning. All druggists.
