Bledsoe Charged with Murder In Shooting of Plantation Boss

Huntingdon, Tenn., Aug. 26—(C)—The question of whether or not a Negro has the right to protect his home, his family and his own life against a white man in the traditional south is the fundamental issue in a tension-packed legal drama, one phase of which was heard Friday, growing out of the shooting of George Stanford, white plantation overseer, by B. J. Bledsoe, colored tenant farmer, last March.

Another issue, equally important to the tenant residents of this west Tennessee farming area, is whether or not the landlord or his representatives has the right to use force in dealing with the workers on the plantations.

The first trial of these issues took place at Huntingdon three weeks ago, when an all-white jury, disregarding the evidence as presented by defense attorneys, sentenced Bledsoe to twenty years imprisonment, and charging his uncle, Curtis Bledsoe, with voluntary manslaughter, sentenced him to two years in the penitentiary.

White Lawyers In Defense
Defense attorneys, three young white lawyers, J. Ross McKinney, chief counsel; Jimmie Lee Taylor, Buck Crider, and one colored lawyer, P. L. Hardin, immediately made a motion for a new trial. Hearing on

Cites Mob Record SENATE IS WARNED ON TENNESSEE LYNCHING

Washington, Aug. 27—Citing the lynching of Albert Gooden at Covington, Tenn., on August 17th as a warning to the senate that action on a federal anti-lynching bill must be taken speedily in the new session, Senators Robert F. Wagner, of New York, and Frederick Van Nuys, of Indiana, placed descriptions of the Tennessee lynching in the Congressional Record.

The N. A. A. C. P. asserts that record of the local and state authorities in the six lynchings of 1937 demonstrate that a federal law is necessary if any progress is to be made toward wiping out mob violence.

Harlem Messiah Wins First Tilt

COURT ORDERS DIVINE DEPOSIT \$5,000 IN SUIT
New York—Father Divine, whose peace of mind has been upset by legal complications since Mrs. Verinda Brown, a former "angel," demanded the return of \$4,400 she says she invested in his "heavens," won a slight victory in court this week when the amount of cash he must put up to prevent his Peace Missions from being put into the hands of receivers was tentatively reduced from \$20,000 to \$5,000.

In return for the reduction in bond, about forty-nine of Divine's "angels" are to drop their claims that they were improperly served in the suit, and to agree further that they will not attempt to transfer title to any of the properties allegedly owned by the Peace Missions which stands in their names until the action is settled.

Teachers to Fight For Equal Wages

Mobile, Ala., Aug. 26—(ANP)—Transcending in interest all other work to be undertaken by the regional conference of southern branches of the N. A. A. C. P. is the proposed fight to equalize teachers' salaries in the deep south, the first of such cases being planned for Mobile county, Ala., where colored teachers are poorly underpaid, and with many receiving less than fifty per cent of the minimum pay for white teachers.

A recent investigation conducted by the Mobile branch of the N. A. A. C. P. revealed that several high school and elementary teachers who are college graduates receive as low as \$28 per month salary. Both Thurgood Marshall, of New York, assistant special counsel, and the Mobile branch announced that the N. A. A. C. P. will be ready to go to court as soon as a teacher can be found to bring the test case.

Miss Mary E. Wood, Y. W. C. Scottsboro Youths To Play in Theatre

LIEBOWITZ AND REV. HARTEN OPPOSED TO CHEAP PUBLICITY

Boys Said To Feel Free To Do As They Please

New York, Aug. 26—(ANP)—The four Scottsboro boys are soon to appear in a show at a Harlem theatre. They will play parts in a re-enactment of the court scene in the hour of their release. Samuel Liebowitz, their counsellor, is opposed to such publicity and Rev. Harten has expressed fear that should the boys lack proper supervision they will again get into trouble.

Moogie Hawley of Chicago, fair-skinned actor, will act as the lawyer in the scene, and it was announced at the theatre that a white man will act the role of the presiding judge. Olin Montgomery interviewed mumbled that he felt that since he was free he would be his "own man" in seeking a career. The other boys are said to think likewise.

Philadelphia, Aug. 26—(ANP)—The Sunday School Union of the African Methodist Episcopal church has moved from Nashville to the new A. M. E. Publishing House building here pursuant to an order entered after an unanimous vote of the bishop at the recent Bishop's Council in Memphis. Plans have been perfected under E. A. Selby, who succeeded Ira T. Bryant as secretary of the Sunday School Union to issue all church literature from Philadelphia.

It is expected by this move to divert from Mr. Bryant the lucrative Sunday school supply business. Secretary Selby announces that literature is ready for distribution and has sent out an appeal to all pastors to obey their bishop's ruling and patronize only the official publishing houses.

Offers Ethiopia

REPORT SELASSIE FINANCES RUNNING LOW

London, Aug. 26—(C)—A report was broadcast last week that the finances of former Emperor Selassie of Ethiopia are running low. The upkeep of his own family and of several Ethiopian officials who fled the country with him when the Italians occupied Addis Ababa have reduced the emperor's exchequer to a very low status, it is said.

Rumors of an offer from Mussolini to the emperor to go back to Ethiopia and the possibility of the acceptance of the emperor were discounted by those near the exiled monarch. It is admitted, however, that Mussolini is having trouble in Ethiopia, and that the presence of the former emperor would help pacify the populace.

Chicago, Ill.—On the twelfth anniversary of this labor organization, eight thousand Pullman porters won a wage increase Wednesday of \$12 per month when the Pullman Company signed its first working agreement with the Brotherhood of Sleeping Car Porters of which A. Philip Randolph, is international president.

Robert F. Cole, mediator for the federal railway mediation board, said the pay boost would raise the basic wage to \$100 per month. Negotiations for the agreement were opened in April.

Champ Carry, vice president of the Pullman Co., said the agreement would raise the porters payroll about a million and a quarter dollars annually.

The brotherhood was officially recognized as bargaining agent for the porters, Cole said, following an election two years ago under the supervision of the federal mediation board.

With twelve long years of militant trade union struggle behind them, members of the Brotherhood this week celebrated the twelfth anniversary of their union with a mass meeting in New York City. Among the speakers who addressed the meeting were Fiorello H. La Guardia, Mayor of New York and an honorary member of the Brotherhood.

The Brotherhood is one of the most popular unions throughout North America. Particularly has it attracted wide praise in the manner in which it has organized Negro women to support its struggles, and for its progressive stand against war and fascism.

Sends Wire to New High Court Justice

N. A. A. C. P. EXPRESSES HOPE SEN. BLACK WILL BE FAIR

New York, Aug. 26—Following the speedy confirmation on August 17th of Senator Hugo L. Black to be associate justice of the United States supreme court, the N. A. A. C. P. wired the new justice expressing the hope that he would "take the broadest interpretation of the due process and equal justice clauses of the constitution." The telegram was signed by Walter White, secretary.

The N. A. A. C. P. telegram, signed by Dr. Louis T. Wright, chairman of the board, asked for closer investigation of Senator Black's record "as it affects the rights of twelve million Negro American citizens." The telegram also expressed concern with the support received by Senator Black from the Ku Klux Klan.

The association already was in possession of information on Senator Black's record on the anti-lynching bill, which included a speech in 1935 devoted principally to objections to the bill on the grounds that it might be used in labor disputes. It is interesting to note that in 1930, during the N. A. A. C. P. fight against the confirmation of Judge John J. Parker, Senator Black voted against Parker's confirmation.

By the time you read this the Louisa Farr fight will have been held and you will be arguing over the results. We hope it suited all of us.

TENNIS

Our tennis meet starts Sunday at Good's Park. The last one held here was in 1934. We were unable to get all the tennis players together, probably would not have done so this year if it were not for the fact that the Y agreed to sponsor the meet and let us handle it.

Dog Days Traced to Egypt

Dog days, so often misinterpreted, go back to ancient Egypt, for on the Nile the star Sirius (named in honor of the dog) denoted the hot flood season. Its rise was the signal for lowlanders to move to higher ground. The fact that Sirius rises in the summer has brought dog days to mean something entirely different.

Famous Twelfth Century Teacher

Peter Abelard (1079-1142) was the most famous teacher of the Twelfth century. Like all teachers of that day, he was trained for theology and his fame rests largely on his ability as a disputant. He was an opponent of William of Champeaux, whom he seriously worsted in the theological debate. He became a hermit in Champagne, where hundreds of students flocked to him. He is one of the important reformers of the school of theology which afterward became the University of Paris.

Balboa Was a Deckhand on His Trip to Dairen

Few persons think of Vasco Nunez de Balboa as a common seaman, but this is exactly what he was on the voyage which led to his discovery of the Pacific ocean. To get to Dairen, on the Isthmus of Panama, he left Santo Domingo as a deckhand to do anything and everything so as to get to Panama. He labored so willingly and so well that he was soon the most popular man aboard the ship. Upon reaching Dairen he was chosen as leader of the settlement. While on a short expedition of exploration he crossed the isthmus and discovered the Pacific ocean, claiming all the lands that touched upon it for the King of Spain. This was in 1513.

The narrowness of the isthmus between the Caribbean and the Pacific led to the laying out of a trail across it. It also led to the founding of the settlement of Panama six years later in 1519, the town originally being a fishing village, the name "Panama" signifying "fishermen."

The ruins of the old city are only five miles distant from the new. The trail of the early Sixteenth century is a fine roadway. Originally it was called "Camino de Oro," meaning "the Road of Gold." The wealth of Western Mexico and of Peru once poured over it. This all led Panama to become very wealthy. It was the starting place for the caravans of mules drawing loads of yellow metal to the Caribbean side, where ships waited to convey it to Spain. Pirates frequently staged successful raids at Panama.

Egg Uses

Besides being used as human food, eggs are used in feeds for dogs, fish, birds, foxes, hogs and other animals. The poultry product is used also in the manufacture of inks, lithography, photo-engraving, textile printing, paints for artistic work, printing ink, photography, gilding books, leather, cloth, fabric, toys, and in egg shampoo. It has been estimated that 12,000 dozen of eggs are laid every three months in the United States, 24 hours a day.

Whole Cities Perfumed

Whole cities have been perfumed for gala occasions. Among notable instances, says Collier's Weekly, were the sprinkling of the streets of Rome with saffron to celebrate the entry of Nero in 59 A. D., and the perfuming of the streets of Cologne, Germany, with Essai de Cologne during the visit of Queen Victoria and Prince Albert in 1848.

SWIMMING MEET SUNDAY, AUGUST 29

The first annual swimming meet will be held at Good's pool Sunday, August 29th, at 3 p.m. Since many of the leading swimmers have died since the last meet, spectators are assured of something new. Many new well known aquatic circles have entered their services for this day. The city park board will furnish refreshments for the three first place winners in each event.

In conjunction with the meet there will be a diving exhibition given by Joseph Feinert, one of the most expert divers in the world. A. C. Alphin of the National Red Cross office will supervise a demonstration of life saving methods. All those interested in aquatic sports should be present. The meet should have been held at the pool no later than Sunday at 12 p.m.

Outstanding Marks Made At Crocker-Y.M. Camp

SECRETARY MEASURES REPORTS 145 CAMPERS AT 19TH DIVISION

With a record breaking group of 145 campers and leaders, records and marks were made at the monthly annual Crocker "Y" camp, at the Des Moines "Y" camp, that came to a close Monday morning. The climax of the week's outing was the closing day's program on Sunday, which was highlighted by the address of A. B. S. Joe Brown on Chapel Hill at the morning services, Quenton B. Mease, executive secretary, presided.

Coming his talk with a dramatic recitation of the camp theme song, "Dear Old Y," Secretary Brown reported the experiences shared by himself in past years in the camp, and the progress from the beginning of the camp to the present splendidly equipped plant. The speaker pointed out, and mentioned by name, the many young men who had their start in the Y. M. C. A. and the camp, some of whom were in the first period in 1919, that consisted of twenty-nine boys.

Honor Point

The always impressive services at Honor Point were furnished with additional features, chief of which was the presentation of the Allen A. Ashby honor trophy to Calvin Dues, who was judged the camper who had most nearly lived up to camp ideals during the past year. The presentation was made by the donor, who very emphatically told of the contributions made by the camp and the Y. M. C. A. to his life, and his hope that these boys were getting the same inspiration.

Honors of all kinds were awarded to 725 campers during the ceremony. The highest of the camp movement, the junior leader's shield, was awarded to Edward Mease, Jr., and Kenneth Hill, both of whom completed two years' work for this degree. Walter Carter was top-donor in the physical efficiency tests, conduct in a number of sports to determine the best athlete in his respective division in camp. Morton Ganges, Harry Sauer and Lowell Bush captured the major honors in the track meet held Saturday afternoon. Lawrence James and David "Slick" Carter were outstanding in the younger boys' division.

APPOINTED LIFE SAVING EXAMINERS

Albert Webb and Frank Robinson of the Good pool staff have been appointed by the National Red Cross office as life saving examiners. They are the first two Negroes in the state to receive such an appointment.

This honor was given them for the ability they have shown in handling swimming and life saving classes. By this appointment they will have the power to instruct and to treat all applicants for junior and senior Red Cross work.

Wait for Big Labor Day Dance, Sept. 6 with Nat Towles, 65c advance

St. Louis, Aug. 19—(ANP)—Based on American Federation of Labor unions of skilled mechanics, college skilled workers are building a motion picture theatre in the Negro district in order to show their qualifications for membership in unions affiliated with the Building Trades Council.

Swimming Honors

Chauncey Bailey and Charles Howard shared swimming laurels in the aquatic meet, with Al Jenze exhibiting rare form in the dives. Edgar Pilow, Grant Brown and Freddie James headed the competition among the smaller fellows.

The Rig Cutters, captained by Joe Danforth and composed largely of "Y" Stars, captured the baseball and volleyball championships in the older boys' division. The Double-A's furnished stern opposition for the champs in this section. The baseball champions in the younger boys' section were won by Louie Howard's Brown Bombers, while the team captained by Harold Greenlee won the volleyball title.

Individual championships were won by Kenneth Hill in tennis singles, while Amos Holt and Walter Carter garnered the doubles title.

Daniel Boone Cabra, under the leadership of Bobby Hyde, were awarded honor cabin pennants for receiving the highest average in cabin inspection during the period at Thomas' cabin, Flying Eagle, were presented with a cup for second place honors. Harry Sanders moved up a notch to take the tap dancing laurels this year, followed by the deposed champ, Bobby Parker, and Langston Hardaway. Lee Wallace Hill proved to be the tallest story teller in camp and received the prize.

Evening Program

Evening programs of various nature featured by Cleo Deane's narrative of the "Five Fires" and his well known dramatization of that legendary character, "Sam McGee," both of which were presented on Wednesday night. Deceptive tricks of magic were unfolded by Hubert Riley, magician, on Thursday evening. The joint stunt night show of both the Y. W. and Y. M. camps was staged Friday evening, followed by a social hour. Henry Hasbrouck was the principal feature of Saturday night's campfire on "Monticlers" relating stories of his experiences up in the north woods.

New York City, Aug. 19—(ANP)—

Dr. Monroe N. Work, director of the department of records and research at Tuskegee Institute and editor of the Negro Year Book, caused a decided stir this week in church and educational circles throughout the country when he accused Dr. George E. Haynes, famed churchman and executive secretary, Federal Council of Churches of Christ in America, of plagiarism.

Dr. Work declared Dr. Haynes appropriated a paper prepared by him and was having it published in a nationally known weekly under his (Dr. Haynes) signature. The series of articles "written" by Dr. Haynes and published under the title "Dr. Haynes Dissects Heart of Racial Problem in America."

At the Riverview Park diamond in conjunction with Emancipation Day. This will probably be the last appearance of Nat Towles in Des Moines this season, and he guarantees it to be a very interesting farewell. Dancing will be from nine until one. CITY CHAMPS TO BE PRESENTED WITH THOMPSON TROPHY

Van Ginkle's to Accept at Labor Day Dance

The Van Ginkle's softball team, Negro champions of Des Moines of 1937 by virtue of their 3 to 2 victory over the Hasbrouck's Aces in an exciting game at the Riverview park diamond, August 4th, in conjunction with Emancipation Day, will be presented with the J. Nelson Thompson traveling trophy at the Labor Day dance of the El Producto Club. The dance, at which Nat Towles will play, will be held at the Shrine Auditorium-Ballroom, Monday, September 6th.

The trophy is a beautiful bronze statue on a white base, standing approximately 18 inches in height. The engraving to be found upon this beautiful trophy reads: "J. Nelson Thompson traveling trophy, City Champs 1937, Van Ginkle's." The winners of the Negro championship in the succeeding years will have their names engraved immediately beneath in like manner.

In order to obtain permanent possession of the championship trophy, it will be necessary for one team to win the championship for two successive years. However, if any team wins the championship three times, not in succession, they will become the permanent owner of the Thompson Trophy.

The Van Ginkle's, which is managed by Charlie Tolson, have won many awards this season and are to be congratulated upon their fine play this year which was climaxed by their winning the Negro championship.

The joint stunt night show of both the Y. W. and Y. M. camps was staged Friday evening, followed by a social hour. Henry Hasbrouck was the principal feature of Saturday night's campfire on "Monticlers" relating stories of his experiences up in the north woods.

The Telescope

The invention of the telescope—usually attributed to Galileo, who first exhibited it, in its completed form, in 1609—aroused new interest in communication by visible signals. By the end of the Seventeenth century, these instruments were fairly common throughout Europe, and several signal systems, based on their use, had been suggested. About 1690, Afiontonis, a member of the French academy, devised a system, the simplest form of which consisted merely of hoisting flags or placards bearing large letters, to be read by telescope and relayed from station to station. He demonstrated his system before the Dauphin in the Luxembourg gardens, Paris. Shortly before this, Hooke, an English physicist, had invented a system made up of a line of high towers, each holding a frame on which twenty-six figures representing the letters of the alphabet were to be hung and the message spelled out.

Grease Paints Oldest

Grease paint may fairly claim to be the oldest kind of paint. It is only reasonably to suppose—and this is borne out by the present practice of savage tribes—that the earliest paints may have been pigments mixed with grease or fat. Such a paint adheres to the human skin with considerable persistence, yet it may be removed by thorough washing. Of this nature are the grease-paints used by actors.

Vandyke Brown Pigment

Vandyke brown is an earth pigment of a rich, deep brown. It takes its name from the old Dutch master, Vandyke, who used the color with remarkable effect. It is of bog origin and contains iron and bitumen. It is excellent for staining old bronze effects and for glazing old English, antique and bog oxen. When used to color a white base, the tints have a laven-der tinge.

LEGISLATION IS FARTHEST AHEAD IN HISTORY OF FIGHT

Senator Wagner has wired: "The agreement of the senate to make the anti-lynching bill its unfinished business for January is a great victory. At that time it will be impossible to deny to the overwhelming majority in the senate who are for the bill a chance to vote for it."

Washington, Aug. 19—After deadlocking the senate and throwing the closing days of congress into a panic, the supporters of the Wagner-Van Nuys anti-lynching bill agreed to a proposal made by senate leaders that the bill be set down definitely on the senate calendar for action in the next session after the farm bill.

Action on the anti-lynching bill will be taken either at the regular session beginning next January or at the special session some time in the fall, if a special session should be called. The resolution making the anti-lynching bill the unfinished business of the senate was proposed by Majority Leader Aiken W. Barkley of Kentucky, and passed by a two-thirds vote August 12th.

No Argument The resolution means that the anti-lynching bill will not have to fight for a place on the calendar and that there will be no argument over whether it should be taken up or not. It means that the anti-lynching bill is definitely set down on the senate calendar and must be debated and voted upon.

"Hanging Stones" May Be Work of the Phoenicians

There are "hanging stones" or Stonehenges in Southern America and Southern Africa, all believed to be the work of the Phoenicians, whose city, Atlantis, lies, so we suppose, beneath the waters of the Atlantic. So it is possible that Stonehenge and other similar temples were erected by people of the Phoenician Empire, who were sun-worshippers and members of a great civilization, states a correspondent in Pearson's London Weekly.

After the destruction of Atlantis, it is thought that the Venetians descended from the Phoenicians, for the names are remarkably similar. Stranger still is the fact that the people of Biddulph Moor, in Staffordshire, are "different." Their red-gold hair and straight features seem to prove that they do not come from the native stock.

It is said that, centuries ago, a Lord of Biddulph engaged Venetian stone-masons to build a church, and they settled down in the district and formed a colony, so it is possible that those living on Biddulph Moor are descendants of those Venetian masons. It has been said that the Phoenicians were a race of people with red-gold hair and fair, straight features, so that if all this is true, there is the startling possibility that descendants of the inhabitants of the Lost City of Atlantis are living in England.

Coal Ages in Forming

Millions of years before the age of man, nature sowed the land with great forests and dense jungle, rank with fern and moss. Millions of trees grew and died, fell and partially decayed. Heavy rainfalls and overflowing streams, formed swamps and ponds and new growth developed. In the course of time, successive layers of decaying vegetation were packed down under immense pressures and coal was formed for man to discover later and burn. Each pound of coal has been ages in the making. In some regions where nature has been particularly lavish, coal of a superior grade will be found. Often in the same field, there will be good, medium and poor grades of coal.

North Carolina Schools Erect Three Buildings

SUDDEN SPURT OF DURHAM COLLEGES AMAZES EDUCATIONAL WORLD

Everybody wondering "How" Durham, N. C., Aug. 26.—(C)—The educational world has been amazed at the sudden "come-back" on a bigger and better than ever scale of the North Carolina college. Visitors to Durham this summer have gasped at the fact before their very eyes that nine buildings are going up at one time—three major buildings which have a total cost of \$280,000, and six teachers' cottages, five of which are costing \$39,000, and one alone costing \$12,000.

Everybody is wondering "how" was it done, and Dr. James E. Shepard, the veteran president, who started out twenty-seven years ago with his National Religious Training School and Chautauque, merely smiles and says the college will find a great need in the educational life of the Negro in North Carolina.

Just how the federal government came to give \$127,000 toward the construction of the buildings, and the state suddenly loosened up and appropriated \$155,000 for administrative knowledge only, but there are the buildings going up, with brick being placed and carpenters' hammers ringing.

NEGRO'S HOUSE TOO GOOD—FHA REFUSES LOAN

East St. Louis, Ill., Aug. 27.—Because his home is valued at twelve thousand dollars and is located (because of segregation) in a neighborhood where the homes range in value from one thousand to twenty-five hundred dollars, Atty. Frank N. Summers of this city has been refused a loan by the Federal Housing Administration.

Mr. Summers has taken up the matter with the N. A. A. C. P. in New York, which in turn wrote Clyde L. Powell, assistant deputy administrator of the F.H.A. Mr. Powell cites a technical rule of the F.H.A. relating to the value of surrounding property in determining loans.

New York Fair

Hall to Feature Radio and Television

NEW YORK (Special)—Radio, television, movies, telephone, telegraph, photography, news and magazine print—all those factors as they relate to communications in American life—will have their own pavilion and ten-acre exhibit zone at the New York World's Fair of 1939, according to an announcement by Grover Whalen, President of the Fair Corporation.

The Hall of Communications will be built this year on the 121/2-acre exposition site within a few minutes' ride from midtown Manhattan. Its location is adjacent to that of the unique Theme Centre structures, which with their "thousand wonders" will dominate the Fair grounds. About the Hall will be erected by private exhibitors in the communications industry, said Mr. Whalen.

Before the building will be two ultramarine pylons, 180 feet high and faced with continuous glass lighting fixtures. Features of the structure are a great hall in which will be placed the focal exhibit summing up the role of communications in the World of Tomorrow, and a glass-walled restaurant opening onto a dining terrace and garden. The total length of the Hall of Communications will be over 400 feet. Its cost is estimated at \$400,000. Numerous other Fair structures are emerging from stages of design. Construction of the exposition, however, will not reach its peak until early next year.

Illinois Fence for New York Fair

NEW YORK (Special)—Illinois-made fencing is being shipped to the New York World Fair for enclosure of the 389.8 acres comprising the central exhibit area. This was learned when Grover Whalen, President of the Fair Corporation, announced the award of a first fencing contract to the Cyclone Fence Company, whose New York offices are at 370 Lexington Avenue.

Officials of the manufacturing firm announced that its Watergan plant was shipping the fencing and that installation would start as soon as the first steel reached the 121/2-acre exposition site on Flushing Meadow.

The contract price of the nine-foot steel fence installed, complete with gates and concrete footings at ten-foot centres, as derived from figures submitted by pre-qualified bidders, is \$32,812. About three miles of fence are required to enclose the central exhibit area along three sides and down to the Flushing river.

Immediate enclosure of the tract was made necessary, Mr. Whalen said, by the great and varied construction work that is already taking place on the site two years in advance of the Fair's opening date. The Illinois-made fence will enclose all of the Transportation Zone of the exposition and the area that will be dominated by the two Theme Centre wonders, the Perisphere and Trylon.

SHOWS NEGRO, WHITE WOMEN IN PICKET LINE

Dallas, Tex., Aug. 19.—(AP)—Soon after he had shown a labor film Monday night in which colored and white women marched together in a picket line, Herbert Harris, 47, white, socialist-party organizer, was kidnapped by a group of hoodlums who raided the labor meeting, oiled and feathered and dumped from an auto on a main street. "Get back up north," shouted the abductors.

There were about twenty men in the mob that invaded the park where the meeting was in progress. They overturned Harris' auto, which carried a projection machine. The audience of 200 scattered as the organizer was rushed into an auto and taken into the country, where his outer garments were torn off and crude oil and feathers splashed over him.

Immediately two rival pickets were put out to pace the sidewalk with the union picket. They carried signs stating "Organized Labor is Unfair to Negro Labor" and a large banner on a wall of the building told the purpose of its construction, ending: "We insist on jobs where our money goes."

The \$55,000 job, started two weeks ago, is being constructed by Ora Stubbfield, contractor who studied architecture at Lincoln university. Everything is being done by Negroes barred from union affiliation. It is understood owners of the project are white.

Walda Goes Round & Round

Peace!! Its wonderful!!—yeah, to Father Divine—and even then it isn't so wonderful—It must have been the same love-bug who bit all our kids, 'cos he did a bum job—all his magic spell is wearing off now—leaving the kids crooning melancholly, "Its wearing me down."—for a while I wondered (seriously too) if the Vanderbilts had steered upon the rocks because of a certain charming miss but after the Mr. speiled some English better than the ever did in any class—Sunday the way is quite rosy . . . for at least one member of the Duponts the path seems full of thorns—but one never knows—while Art John E. does his traveling around over the county, his thick travels in the old home town—course Dan Law is a might man—and I'm wondering if Jab still wants competition . . . and again one never knows about that 17th street couple—the Duke and Duchess—all that can be done is to watch and wait . . . SANITARY MATTRESS ENLARGES PLANT

Paul J. (Harty) Hartney, owner of the Sanitary Mattress company, 1214 University avenue, announces the enlarging of his factory and warehouse. This expansion covers more than a quarter of a block. Visitors are welcome to inspect the new plant.

One of the best equipped firms in the middle west, this company has patented a "Saniblast process" which renovates and cleans old, wornout mattresses to fluffy newness. At a small additional cost it can be made into a modern innpring.

Mr. Hartney, who is known to hundreds of Negroes, as his family has lived in the same neighborhood for more than fifty years, appreciates the Bystander's business and says he will be glad to see his boyhood friends. The factory site is a former playground for the pioneer colored youth "way-back when."

THE STATE FAIR

The Iowa State fair is in progress. It promises an all time record both as to attendance and exhibits. The bright prospect for good crops naturally spurs farmers to come out and see what the other fellow has done. Anyone who has visited the fair in the past must be impressed with exhibits which not only include farm products but everything that goes to make the home.

The local branch of the NAACP has an exhibit in the educational building. This they have done for several years. The exhibit has been a fine educational feature especially for people coming from farms and small towns and who know little of the Negro except what they read in newspapers much of which is entirely too uncomplimentary.

Visit the fair. It is an inspiration. You may get an idea that will mean much in times to come.

THE SUMMER CAMPS

This summer more than two hundred boys and girls from Des Moines journeyed to the Boy Scout, Y. M. C. A. and Y. W. C. A. camps for the annual periods sponsored by the respective groups. Camp life included nature study, recreation, swimming, religious education and all the other activities which go to make up a well rounded outing. In fact for more than fifteen years this has been one of the high lights in the lives of the boys and girls of this community.

As further evidence of the interest in these camps hundreds of parents, relatives and friends make the trip on Sunday. The camps resemble a big community picnic on that day.

Few people realize the large investment for land and equipment that is necessary for the maintenance of these camps. That is easy to imagine. But entirely too few boys and girls realize that the amount they pay is only part of the regular fee charged—that is every boy and girl who goes to camp is partly subsidized by somebody else. This of course shows a fine spirit on the part of many clubs and individuals who see to it that the unfortunate are not denied recreational advantages for lack of funds.

The editor of the Bystander had occasion to talk with a Des Moines family who had four children in the camp this year. In fact they have sent their children to camp for the last ten years. This family stated that they had never paid a penny for their children's camp fee and yet their children had paid the full fee charged by each organization. In other words these youngsters had earned their camp fee themselves.

Of course every youngster can't do this for in the instant case, the brothers had paid the fee for their sisters at times. But there is no earthly excuse why parents should not start their children early to raise their camp fees. It teaches them thrift, how to work and to appreciate the value of money.

Heretofore the drive has been to get the biggest camp possible. Next year, it might be a fine slogan to have the biggest camp with the biggest percentage of campers earning their own fees.

ITALY'S OFFER

The daily press reported a story last week that Premier Mussolini has offered former Emperor Selassie the privilege of returning to Ethiopia as

head of the government, but of course under the direction of the Italians.

No doubt Italy is having trouble ruling its newly conquered territory and also feels that to give the former ruler his old job back would in part make the other nations feel somewhat more kindly toward its occupation of the country. On the other hand the former Emperor is not as wealthy as was first believed and that soon he must face the task of making a living. And Selassie knows that stripped of the wealth which goes along with their office kings and emperors don't make very much money. Thus he is willing to undertake the job with reservations: that is have the League of Nations stand between Italy and him.

The former Emperor is too smart to pass up the offer, in fact he makes a counter-proposal to get the best possible deal. And he ought to take it for this will be his only method of returning to Ethiopia as a ruler. As a practical proposition the Ethiopians will never be able to beat the Italians and the League of Nations nor any other group of nations is willing to undertake the task of helping them do it.

Passing over the injustices that Italy has heaped upon these people, it is now a question of making some headway under handicaps. Strong nations treat the weaker ones as they please; the latter can only make the best of the situation.

And after all Ethiopia may go a long way under such an arrangement.

Tennessee Trial

(Continued from page 1)

The motion was set for last Friday. The result of the hearing was a denial of the attorney's plea in behalf of Bledsoe, held here in jail under twenty years sentence. Curtis Bledsoe, out on \$2,000 bond, under a two year sentence, was granted a new hearing, slated to come before the October term of the circuit court, presided over by Judge W. W. Hood. His bond was arranged through his white attorneys.

Negroes Summoned
At the first trial, held on July 26th, an effort was made to include Negroes on the jury. And for the first time in a half century in Huntington, county seat of Carroll county, Negroes were actually summoned.

But the subterfuge of an old legal trick worked. Out of a large colored population of stable and respectable persons, the only Negroes called, with one or two exceptions, bore criminal records. Thus, when they were challenged by the prosecution, they were found unfit for jury service.

Mob Threats Heard
In an atmosphere charged with passion a mob had hunted Bledsoe all night, March 9th, date of the shooting—they even went to the Huntington jail for him, but the sheriff, M. J. McLemore, had secreted the prisoner; a jury of small business men and farmers, passed judgment on the Bledsoes, and meted out punishment which even many white residents of the area regarded as unjust.

How is your Childs Diet?

It is now a recognized fact that children should at all times have a well balanced diet to prevent some of the diseases commonly seen among them. In Medicine we now recognize five vitamins, the lack of which may cause disease. Two of these diseases, scurvy and rickets frequently seen among children can definitely be prevented. Scurvy is due to an insufficient quantity of vitamin C in the diet; the chief symptoms that occur are, bleeding of the gums, loosening of the teeth, and small hemorrhages under the skin. Vitamin C is found in fresh vegetables and fruits, those mothers who fail to give their infants fruit juices can expect to see their babies developing scurvy.

Rickets a disease of infancy and childhood is caused by a deficiency of the vitamin D. It is most prevalent in the temperate zones, rare in the tropics where the children get plenty of sunlight, and in the arctic regions where they get lots of fish oils rich in vitamin D. The onset is slow and the first symptoms noticed are listlessness, irritability, disturbed sleep, sweating of the head and neck, and resentment at being touched.

As the disease progresses the child develops certain physical changes, such as enlargement of the wrists and ankles, bowing of the legs, the head gradually assumes a squarish shape, a sausage like thickness of the fingers and toes, development of a pot belly, weakness and flabby muscles. Our present knowledge of the cause and prevention of rickets leaves little excuse for its occurrence.

Seek the advice of your physician even though your baby appears well or attend your nearest well baby clinic regularly.

CALL OUT STATE RANGERS TO PREVENT NEGROES FROM SWIMMING

Gary, Ind., Aug. 19—(ANP)—So determined were officials of Indiana Dunes park, a state supported resort near here, to keep Negroes from swimming on the beach that state rangers were called out Sunday to intimidate a party of thirty Chicagoans and Garyites.

The case has been carried to state officials inasmuch as there is no Indiana law ordering segregation at Dunes park.

E. M. W.—I am sick and have been for a long time. Tell me if I will get to feeling better?

Ans.—Without a doubt, provided you consult with a doctor and leave off the thousand of remedies that you have been trying over a period of several years. Any person your age shouldn't think of allowing themselves to remain sick year in and year out when it is so simple to get medical treatment.

M. M.—Please tell me if I will be successful in getting my divorce?

Ans.—Yes, provided you pay for it yourself. Your ex-mate isn't thinking of handing it to you gratis and if you want to keep down trouble, buy it yourself.

JUDGE DEMANDS JURY INDICT NIGHT RIDERS

Covington, Tenn.—Six masked men, shouting "to hell with the law," seized Albert Gooden, 35, accused of slaying a white officer from Sheriff W. J. Vaughan on Tuesday and left his body dangling at the end of a frayed rope after riddling it with bullets. It was the seventh lynching in the south this year.

The body of Gooden was found partly submerged in a creek twelve miles south of here. The rope had been tied to the outer beam of a bridge.

"The mobsmen, Sheriff Vaughan said, crowded his car off the highway Monday night, disarmed him and seized the prisoner. After keeping him in Memphis for safety, the sheriff was bringing Gooden to Covington to face a charge of slaying City Marshal Chester Doyle of Mason, Tenn., a month ago.

Circuit Judge R. B. Baptist, ordering a grand jury investigation of the "disgraceful, horrible crime," demanded first degree murder indictments against the "night riders," if their identities can be established.
