JOE LOUIS

Maybe not a hero but certainly the tops in the fighting game. He can't knock everybody out.

D.M. 'Harlem' Is Quiet After Fight

JOE LOUIS' VICTORY IMPRESSIVE DESPITE LETDOWN By Everett Wadsworth Staff Writer

Save for a few scattered knots of people engaged in whispers and almost inaudible conversation, Center street, Des Moines' Negro section, was quiet and serene as a schoolroom after the broadcast of the Joe Louis-Tommy Farr fight from New York on Monday night.

In talking with several of the crowd from Ninth to Twelfth the consensus of opinion was that the delay from Thursday didn't help the Brown Bomber. "The seventh round should have lasted another minute!" "The Welshman was game and could take it; "Joe is only human, he can't K. O. everybody"; "Louis is lucky; he shouldn't have risked his title so soon"; "The seventh, tenth and thirteenth were his best; he used his right more!"; "Oh, well, the fight game is a racket, that was planned so that a return match could draw the biggest gate in history"; and some of the wise boys mumbled, "Sho, I know'd Joe had won dat fight, fo' ah head da decision."

Des Moines' populace also agreed that Joe was not the Louis who won the championship in Chicago two and a half months ago. Your writer saw one of the fastest, cleverest and dead, best fighters of modern times, when the Alabama youth stepped into the ring at Conkey park that memorable night of June 22nd, to wrest the crown from the Cinderella man, Jimmy Braddock.

It was revealed that the Bomber's hands were severely injured Monday night, especially his right, which was fractured in the third, a mark of courage as he was able to carry the fight to the end and successfully defend his title.

Newspaper stories contradicted the radio announcers, who were inclined to give the "underdog" the breaks in their accounts to make a show for their listeners.

Judge Cites 'Secret Pact' in Decision on Third Appeal

Decatur, Ala., Sept. 3—(Special)—In denying to grant new trials to Clarence Norris, Andy Wright and Charlie Weems, three of the five Scottsboro boys, being held in Alabama jails under convictions, Judge W. W. "Speed" Callahan thus prepared the case for a third journey to the supreme court of the United States.

In making his decision Judge Callahan said that the six year old case, which has bankrupted a county and cost Alabama over \$50,000, was to have ended "for good" in July with the freeing of four of the nine accused youths "by agreement."

This statement is at variance with the one issued by Samuel S. Leibowitz, chief counsel for the defense, after it gained headway following the release of the four boys.

"I have never entered into such an agreement, and I'll take the remaining cases to hell and back before I compromise," declared Attorney Leibowitz when informed of the judge's statement at his New York office.

Atty. Clarence Watts of Huntsville, Ala., associated with the defense, also said that he would withdraw from the case if any such agreement had been entered into.

SCOTTSBORO DEFENSE COMMITTEE DENIES JUDGE'S AGREEMENT

New York—The Scottsboro defense committee denied Judge Callahan's statement, in a release by Morris Shapiro, as follows: "At Decatur, Judge Callahan, in denying motions for new trial in the Scottsboro cases, stated that a "hard and fast agreement" was made in July for the termination of the defense. The committee has no knowledge of nor was it a party to any such agreement.

We therefore take direct issue with Judge Callahan on the question of compromise and advise all friends of the defense that there is no agreement and that appeals will be vigorously prosecuted looking to the unconditional release of all the defendants.

ITALY WITHDRAWS SOLDIERS FROM ETHIOPIA TO GO TO CHINA

Addis Ababa, Sept. 2—(ANP)—The first battalion of Italy's 10th Grenadiers' regiment, about 1,000 men, left Tuesday for Massawa, port on the Red sea, to embark for Shanghai to protect Italian interests and citizens in the Chino-Japanese war zone.

Earl Hines, Nat Fowles in Town

IDA JAMES, SONGBIRD. TO BE FEATURED Earl "Father" Hines, pianist, and his Grand Terrace band of Chicago, featuring Songbird Ida James, make their third appearance in Des Moines Friday, September 3, at the Shrine Temple ballroom through arrangements completed with Consolidated Radio Artists, Inc., by J. G. Brown of the Hawkeye Elks lodge No. 160, which is sponsoring the affair.

Earl's popularity as a radio and recording pianist dates back to eight years ago when his orchestra first made their debut at Ed Fox's Grand Terrace on Chicago's southside. The orchestra was an over night sensation and the piano playing of Hines won the acclaim of radio fans from coast-to-coast. The last trip to Des Moines, in 1935, was marked by tragedy when the bus carrying his band crashed into a truck, killing one member and injuring several others.

2,200 Persons at Music Association

AWARD PLAQUE TO W. C. HANDY FOR HIS "ST. LOUIS BLUES"

St. Louis, Sept. 2—(ANP)—Before an audience of 2,200 persons Monday night at Washington Tabernacle Baptist church, W. C. Handy, famous composer, was honored at the six day convention of the National Association of Negro Musicians by the local branch, which gave him a plaque in memory of his famous "St. Louis Blues." Over 250 local musicians of both races were in the audience.

After receiving the plaque, which bore the inscription: "Achievement Award to the Famous Composer, W. C. Handy," the 64 year old musician was surrounded by autograph seekers. For over twenty-four years the St. Louis Blues has been popular throughout the world and is still going strong. It was published in 1914, has sold nearly 1,500,000 copies and brings in nearly \$20,000 a year in royalties and radio and movie rights.

Woman Held in Chains for Debt

PLANTER ARRESTED— FREED ON BOND

Clarksdale, Miss., Sept. 2—(Special to GNA)—One of the most revolting cases of peonage in the deep south was uncovered this week when Ethel Davis, a tenant on the cotton plantation of J. S. Decker, wealthy white planter, was found chained to the bed in her sharecropper cabin. Sheriff H. Dogan found Mrs. Davis and J. W. Wiggins, her common law mate, held in "forced condition of servitude" for payment of an alleged \$175 debt.

Federal agents who brought the peonage charge against Decker, related how Mrs. Davis was found "chained to a bed with a trace chain locked around her neck. She had been there for several days." Decker, the sheriff said, was afraid the tenants would leave the grounds without paying what he called their "debts" to him. He has seven or eight families working as sharecroppers on the farm.

Elks Frolic At Cleveland Meet

PARADE, MARCHING UNITS

GREAT FEATURES

Cleveland, Ohio, Sept. 2—(ANP)—Trucking, strutting, wing-footing and jaggly-walking, 22,900 Great Elks marched to the blare of twenty bands over a six-mile route that took about five hours. The huge parade started at East Fortieth and Central avenue, and moved south along east Fortieth to Woodland through a densely crowded street of spectators.

Automobiles, horns blaring, decorated with flying colors, lined the streets for miles in every direction. Mounted police were kept busy in their efforts to keep the crowd back. They had little success. Children, grown-ups, dogs and even a few stray cats were animated to the highest degree as they swayed, reeled and rocked their bodies with the rhythm of parade bands.

At the grand ball which started at 9:30, J. Finley Wilson, grand exalted ruler, presented a trophy to Imperial lodge, New York, for having the best band in the parade. Mary Exalted Temple of Akron was announced the best dressed drill team; Hiawatha Temple, Los Angeles, the marching unit coming from the longest distance, and the Morning Star Temple, Washington, the largest marching unit.

Miss Virginia Moss of Washington was judged winner of the Elks of the World national oratorical contest. Each of the other four speakers was winner of a four year college scholarship. Miss Moss was awarded an additional \$150, while the others received \$100 each.

\$20,000 Blaze Razes Building

DAMAGES SEVEN STORY ODD FELLOWS TEMPLE IN ATLANTA

Atlanta, Sept. 2—(ANP)—Fire of unknown origin, beginning in the seventh story roof garden, resulted in damage estimated at \$20,000 to the Odd Fellows building Monday night as 10,000 persons of both races viewed the greatest conflagration yet to take place on Auburn avenue, site of the main Negro business section.

The Odd Fellows edifice, considered one of the finest Negro buildings in the nation, was erected in 1912 by Ben Davis, Sr., former republican national committeeman from Georgia and prominent in fraternal orders, at an estimated \$200,000. It was later lost to the ill-fated National Benefit Life Insurance Co., and is at present owned by Henry Pitts, white, who held a mortgage and is said to have bought it for only \$4,500.

W. A. Scott, founder of the Atlanta Daily World, had completed negotiations for its purchase and had made a down payment of \$1,000 a few hours before he was shot mysteriously and fatally injured in February, 1934.

HAILE SELASSIE WANTS TO SELL ETHIOPIAN RAILROAD STOCK

Paris, France, Sept. 2—(ANP)—Hearing on Emperor Haile Selassie's petition for permission to sell Ethiopian shares in the Jibuti-Addis Ababa railway came up last Tuesday as a result of which the case was set for trial in the Paris courts on October 12. Paul Weil, a French lawyer, represented the former ruler.

BOMBER EARNS MORE THAN \$104,000

DETROIT—Co-Manager John Roxborough and Julian Black say that a trip to Europe is in store for World's Champion Joe Louis. "No more fights this year" they say.

(By Al Monroe of Chicago)

New York, Sept. 2—They paid off on Joe Louis again Monday night and 38,903 screaming fans almost wrecked historic Yankee stadium as the world's champion successfully defended his title against Tommy Farr of Great Britain in fifteen hard fought rounds. Louis fought from the third with a painfully injured right hand. He hurt his left badly in the seventh.

No Masterpiece—And yet the victory was not entirely a Joe Louis masterpiece. Instead of the mild, man-eating panther of old, the champion was a steady, plodding fighting machine who measured his blows and delivered them in picturesque fashion. He was a boxer with a purpose and not a killer seeking blood.

Boosted by \$60,000 for movie and radio rights, the gross receipts amounted to \$325,752.11. Net receipts were \$222,463.80. The federal tax amounted to \$28,409.29 and the state tax, \$14,880.02. Louis' share was \$104,086.96, and Farr received \$50,000. Paid attendance was 38,903, while complimentary tickets totaled 5,434.

Selassie Spurns Mussolini's Offer

WONT SERVE AS PUPPET UNDER ITALY

London, Sept. 3—A sensational statement that Mussolini has instructed Count Grandi, Italian ambassador in London, to appeal to Haile Selassie to return to Abyssinia as a sort of puppet emperor under Italian control, has been denied by an official of the Royal Ethiopian legation today.

The rumor apparently arose from the undoubted fact that Italy is finding it impossible to subdue the warlike Abyssinian chieftains, and Mussolini hopes that if the emperor would return as a kind of puppet ruler he would be able to escape from a situation which is steadily growing more and more dangerous.

N. A. A. C. P. EXHIBIT ATTRACTS CROWD

The seventh annual exhibit of the Des Moines branch N. A. A. C. P. at the Iowa State Fair attracted large crowds daily. Mrs. A. A. Alexander, chairman, reported.

The most striking were the perspective photos of the newly completed East Fourteenth street viaduct, government project, construction by her husband, A. A. Alexander, nationally known contractor and engineer.

Charlotte, N. C., Sept. 2—(ANP)—Bowling to the U. S. supreme court's last Scottsboro decision, Mecklenburg county will compile a complete new jury list without designation of either race or color. Slips of paper in the jury box now have the names of whites in black ink and the names of Negroes in red. There are approximately 10,000 whites and 625 colored.

In January, T. K. Harrison, a well-to-do, highly respected farmer, served on a jury which convicted a white man. Harrison was the first Negro to serve since reconstruction days.

Lesson for September 5

GOD REQUIRES SOCIAL JUSTICE. LESSON TEXT—Leviticus 19:11, 12-37. GOLDEN TEXT—Ye shall do to your neighbor as ye would that men should do to you, do ye also to them likewise. Luke 6:31.

LABOR DAY—in this year of our Lord 1937—looks upon a world deeply divided in opinions of what is right and what is wrong in the relationship between capital and labor. Political and economic leaders are talking much of social justice, of a planned economy in which all shall have a full share of the products of labor.

I. Proving for the Poor and Needy (vv. 9, 10, 14, 15). When Jesus said, "Ye have the poor always with you" (Matt. 26:11), he referred to one of the responsibilities which thoughtful and considerate men have always gladly borne, but which has been a constant problem to both individuals and nations.

II. Guarding Another's Reputation (vv. 16-18). Gossip is a destructive means of breaking down the good standing of another. It is a sin all too common in our day, even within the circle of God's own people.

III. Honoring the Aged (v. 32). Old-age pensions are undoubtedly held their place in our complicated social life, but it is evident that they would be entirely unnecessary if men and women had in the fear of God honored "the hoary head" and "the face of the old man," even as God gave command to Israel.

IV. Loving the Stranger (vv. 33-34). The man who knows what it is to have been a stranger, and to meet with love and protecting care, should never forget to go and do likewise.

V. Being Honest in Business (vv. 11-13, 35, 36). No stealing, no false weighing, no defrauding, no withholding of wages, for all these things dishonor or "profane the name of thy God."

Pay Your Subscription Debt comes under the eighth commandment. It hangs a millstone round the neck of the man of whom the scriptures say, "He is a wretch."

TENNIS

Our city tennis meet got off to a flying start; last Sunday twenty-three men entered the singles, sixteen boys got into the boys' event, and eight women aspired to the women's singles title. It was about nine-thirty a. m. when Donna Graham and Lucille Benning clouted the first ball over the net to open the meet. It was forty-five p. m. when Charles Danforth knocked the last ball out of bounds to end his match with Kenneth Hill.

The men's singles is a march for Chet Williamson. The only player who had a chance to beat him was Bill Ashby. Bill went out Sunday when Earl Newcomb pulled a tennis miscalculation and beat Bill for the first time in Newcomb's tennis career. That just about settled things for Chet winning his eighth title. At this writing Everett Newcomb, Earl, Chet and your humble servant are left in the men's singles. Williamson plays Everett so that takes care of him. Yours truly plays Earl and no matter who wins, we won't be much more than a warm-up for Chet.

The junior boys and girls are playing some bang up tennis. Wilda Mullins and Lucille Benning battled for an hour and a half to a deadlock in their match last Monday. The winner plays Octavia Roane in the final and we wouldn't want to guess the winner.

Picking the winner of the boys' singles is like guessing the number of beans in a jar. One guess is as good as another. The Howard boys, French Miller and Henry Hight, look like the best. One of them will probably be champion. The men's doubles is another headache. Earl Newcomb and Paul Woods are always dangerous, and Bill Ashby and Freddie Hawkins make a tough pair. Chet Williamson and your writer are also in the running and would like to carry off honors.

All three courts at Good park have been busy all week and no matter who wins, we will feel that we have really accomplished something with this meet. It has been a lot of fun and a source of pride for us and Mr. Mease because it's going over.

CROCKER "Y" NEWS

Last Sunday was the opening day of the city tennis tournament on the Goodé Park courts. Forty-eight racket wielders were entered in the four divisions of play—men's singles; Men's doubles; Women's singles; and junior singles.

Allen Ashby is directing the meet, which will close on Sunday, September 5th. Trophies are to be awarded the champions of each division at the conclusion of the finals.

FIGHT TOURNAMENT

Thirty nine boxers are entered in the second annual Crocker "Y" Championships fight tournament which got under way Wednesday night in the "Y" outdoor ring, and will close with the final bouts two weeks hence, September 15th.

Ten bouts were scheduled on the opening card. Competition has been grouped in eight divisions from 80 to 175 pounds. Activity is expected to be keenest in the 95, 112, 118, 135 and 147 pound sections where a number of top notch performers are slated to punch it out for first place honors.

Individual trophies are to be presented to the champions of each

weight division in addition to a special award to be made by Henry F. Hasbrouck. James Allen, chairman of the "Y" physical department, is in charge of the tourney.

CAMP COMMITTEE EXTENDS THANKS

The camp committee of the "Y" wishes to publicly thank the following organizations and persons for their unselfish aid in contributing to the assistance of the worthy boys' camp fees: the Roosevelt, Monarch, La Parisienne, and Ambassador Clubs, Lincoln Post 126 of the American Legion, Miss Bessie Regels, Henry, F. Hasbrouck and Spencer Elliston.

Mobile, Ala., Aug. 26—(ANP)—Transcending in interest all other work to be undertaken by the regional conference of southern branches of the N. A. A. C. P. is the proposed fight to equalize teachers' salaries in the deep south, the first of such cases being planned for Mobile county, Ala., where colored teachers are poorly underpaid, and with many receiving less than fifty per cent of the minimum pay for white teachers.

A recent investigation conducted by the Mobile branch of the N. A. A. C. P. revealed that several high school and elementary teachers who are college graduates receive as low as \$28 per month salary. Both Thurgood Marshall, of New York, assistant special counsel, and the Mobile branch announce that the N. A. A. C. P. will be ready to go to court as soon as a teacher can be found to bring the test case.

N. A. A. C. P. EXPRESSES HOPE SEN. BLACK WILL BE FAIR

New York, Aug. 26—Following the speedy confirmation on August 17th of Senator Hugo L. Black to be associate justice of the United States supreme court, the N. A. A. C. P. wired the new justice expressing the hope that he would "take the broadest interpretation of the due process and equal justice clauses of the constitution." The telegram was signed by Walter White, secretary.

The N. A. A. C. P. telegram, signed by Dr. Louis T. Wright, chairman of the board, asked for closer investigation of Senator Black's record "as it affects the rights of twelve million Negro American citizens." The telegram also expressed concern with the support received by Senator Black from the Ku Klux Klan.

The association already was in possession of information on Senator Black's record on the anti-lynching bill, which included a speech in 1935 devoted principally to objections to the bill on the grounds that it might

be used in labor disputes. It is interesting to note that in 1930, during the N. A. A. C. P. fight against the confirmation of Judge John J. Parker, Senator Black voted against Parker's confirmation.

Heart Beats and Fear

Many people believe that when they get scared their hearts beat faster and faster. The truth is that the action of the glands, particularly the adrenals, during fright is such as to cause a slight initial speeding up of the heart when first scared, and this is followed almost immediately by a slowing of the heartbeats and then the beating becomes stronger—but not faster, declares a writer in Pearson's London Weekly. People mistake the pounding of their hearts for speed. These strong beats raise the blood pressure, pump sugar to the muscles, cause fatigue to be banished and prepare the body for defending itself. The heartbeats are stronger but not much faster.

All Urged to Make Arrests

Citizens of Chicago in 1931 were told they could constitute themselves a one-man vigilante in apprehending speed-law violators, as revealed in the ordinances of the city. "No person," read the anti-speed ordinance, "shall inappropriately ride or drive any horse in any avenue, street, alley or lane within the limits of this city under penalty of not less than \$2 nor more than \$10. And it is hereby made the duty of every officer, and it shall be lawful for any citizen, to stop any person who may be inappropriately riding or driving as aforesaid."

Tonic Talk

If at any time you think yourself a failure (and most of us have that feeling at times) go out-into-doors, no matter what the weather is, advises a writer in Pearson's London Weekly, and keep on walking until you come across a man doing a job of work and doing it well. Now say to yourself: "If that man can do his job, why can't I? What others can do, I can do, too." Jonah, although badly down in the mouth, came out all right, and so can you. The kettle, even when up to the neck in hot water, can always sing.

Artesian Wells

Artesian wells are the ones in which the water rises above the point at which it is encountered. If the rise is enough to cause the water to flow over the top of the pipe a flowing well is the result. All flowing wells are artesian but not all artesian wells are flowing wells. Artesian water is usually good water although it is apt to be rather hard. Water from deep wells, unless they happen to be in limestone, is as pure as any ground water can be. Pure water is a relative term for all ground water naturally contains some foreign material which it has picked up in its passage through the soil and earth formations.

Many Famous Personages Born in Summer Months

Are you a genius? For all you know you may be, and if you were born in April, May, June, or July your chances of fame are much higher than if you were born in dark December.

These conclusions are the result of large-scale investigations by American biologists who have examined the careers of 10,000 famous English men and women. By far the greatest number of them were born between April and July, while the worst birth month for possible English geniuses is December, says Pearson's London Weekly.

According to investigators, weather and climate play an important part in shaping the mental development of the unborn child. The rhythm of climatic change affects our glands, and the human body responds so as to adjust itself to the weather. This mysterious change affects the child as much as the mother, and in some way, as yet unknown, the child's brain is increased or retarded by the action of the glands.

But don't despair simply because you are a winter child. Possibilities of genius may seem attractive, but they are accompanied by an equal risk of lunacy. The summer baby may be a genius, but he also may be a nit-wit, while the children of winter months stand a far greater chance of growing up into normal, easy-going citizens.

It has also been found that the birthplace is an important factor. In America, for example, where the seasons are the same as in England, the largest numbers of famous people have birthdays in October, November, and December—quite different from the English months of genius.

Mont St. Michel Tides Among World's Wonders

One of the fastest and strongest tides in the world ebbs and flows off Mont St. Michel in Brittany. With a deep meaning sound heard for miles, the tide flows, rushing back over the eight miles it has receded at ebb-tide and within a few minutes transforms about 100 square miles of ocean bed from a stretch of sand into turbulent sea.

The highest tides of the year occur before the spring and autumn equinoxes, when the Mont is entirely surrounded by water. At other times throughout the year at the new and full moon the tide also runs high, though not reaching the equinoctial records.

The granite islet of Mont St. Michel rises 250 feet. The quaint houses of the one-street village and the Gothic abbey and castle are surrounded by a medieval wall and towers.

In addition to the scenic lure of the Mont, there is the attraction of

The Telescope

The invention of the telescope—usually attributed to Galileo, who first exhibited it, in its completed form, in 1609—aroused new interest in communication by visible signals. By the end of the seventeenth century, these instruments were fairly common throughout Europe, and several signal systems, based on their use, had been suggested. About 1699, Amontons, a member of the French academy, devised a system, the simplest form of which consisted merely of hoisting flags or placards bearing large letters, to be read by telescope and relayed from station to station. He demonstrated his system before the Dauphin in the Luxembourg gardens, Paris. Shortly before this, Hooke, an English physicist, had invented a system made up of a line of high towers, each holding a frame on which twenty-six figures representing the letters of the alphabet were to be hung and the message spelled out.

Grease Paints Oldest

Grease paint may fairly claim to be the oldest kind of paint. It is only reasonable to suppose—and this is borne out by the present practice of savage tribes—that the earliest paints may have been pigments mixed with grease or fat. Such a paint adheres to the human skin with considerable persistence, yet it may be removed by thorough washing. Of this nature are the grease-paints used by actors.

Vandyke Brown Pigment

Vandyke brown is an earth pigment of a rich, deep brown. It takes its name from the old Dutch master, Vandyke, who used the color with remarkable effect. It is of bog origin and contains iron and bitumen. It is excellent for glazing old bronze effects and for staining to imitate old English, antique and bog oaks. When used to color a white base, the tints have a lavender tinge.

Snow Drinks Forerunner of Ice Cream Industry

Who first invented ice cream? No one really knows. Alexander the Great is recorded as having a great weakness for snow-cooled fruit drinks. The Roman patricians also drank vast quantities of fruit drinks mixed with exorbitantly priced snow. And an old Roman cook, Quintus Maximus Gurgus, is said to have been the first to serve ice cream soda, says a writer in London Answers Magazine.

All that historians are really certain about is that by the Middle Ages ice cream had definitely "arrived" in court circles. Four centuries ago, Catherine de Medici was being served with ice cream of a different flavor every day. As usual, the English were all behind in this branch of civilization.

Charles I remedied matters a little by bringing over a French chef who surprised the king with the

Springer Spaniel From Water Spaniel Variety

The history of the Springer Spaniel discloses the fact that they were known years ago as Norfolk Spaniels. However, the latter name could hardly be linked with the duke of Norfolk, because that nobleman was quoted by historians to have denied his family ever owned a spaniel of that type, notes a writer in the Philadelphia Inquirer.

It is quite evident the Springer originated from a Water Spaniel, now known as English Water Spaniel, which have a special water-resisting coat, much on the order of Chesapeake bay dogs. According to the records, the first Springer ever to become a field trial champion in England was one called Denne Duke.

Besides being a beautiful pouter in the show ring, the Springer is at home in the field, where it rushes forward and flushes the birds into the air for its master to shoot down. They do not stand rigid on a "frozen point," as do the English Setters and Pointers in hunting quail, pheasant and other birds.

Springers are well put together, scaling from 40 to 50 pounds, but are fitted for tireless hunting and possess unusual speed.

Whistles That Speak

Of all sound signals, one of the most commonly used is the whistle, produced either with the lips alone or with the addition of fingers to add to the volume of the sound. Akin to the whistle are all forms of wind produced by resonating an air cavity. Some of these, like the ram's horn of the ancient Hebrews and the trumpet of the Greeks and Romans, have been used for communication, particularly for military purposes. The mountaineers of Gomers, one of the Canary islands, have a whistling language by which they are able to carry on extended and complicated conversations. One authoritatively declares that these natives whistle and pronounce the syllables of their spoken language at the same time, thus actually conveying words to their listeners. An expert Gomeran whistler can make himself heard a distance of three or four miles.

Ceramic Factories Once Aided by Royal Patrons

In the early part of last century the arts were very much under the patronage of the rulers of the different countries in Europe. The ceramic factories in particular owed their success to the assistance given them by their royal patrons. This patronage sometimes meant real ownership, and distribution of the productions often went to favorites of the court at a severe loss to the factory. If in the end the cost was largely assumed by the taxpayers, they at least had a part in giving to posterity many of the lovely things which collectors possess today, according to a writer in the Los Angeles Times.

The art of making true porcelain such as was made in the Orient until the beginning of the Eighteenth century. Many chemists had made experiments trying to solve this elusive substance but were not suc-

"Hanging Stones" May Be Work of the Phoenicians

There are "hanging stones" or Stonehenges in Southern America and Southern Africa, all believed to be the work of the Phoenicians, whose city, Atlantis, lies, so we suppose, beneath the waters of the Atlantic. So it is possible that Stonehenge and other similar temples were erected by people of the Phoenician Empire, who were sun-worshippers and members of a great civilization, states a correspondent in Pearson's London Weekly.

After the destruction of Atlantis, it is thought that the Venetians descended from the Phoenicians, for the names are remarkably similar. Stranger still is the fact that the people of Biddulph Moor, in Staffordshire, are "different." Their red-gold hair and straight features seem to prove that they do not come from the native stock.

It is said that, centuries ago, a Lord of Biddulph engaged Venetian stone-masons to build a church, and they settled down in the district and formed a colony, so it is possible that those living on Biddulph Moor are descendants of those Venetian-masons. It has been said that the Phoenicians were a race of people with red-gold hair and fair, straight features, so that if all this is true, there is the startling possibility that descendants of the inhabitants of the Lost City of Atlantis are living in England.

BUILDING TESTS WALLS FOR FAIR

NEW YORK (Special).—Although the opening date of the New York World's Fair is still almost two years away, the Fair site already has one building that mystifies all persons who pass that way and one that is of great interest to the contractors and builders of the whole country. The big sign says it is the "best building."

The building can be made to do a lot of things just short of a late dance step. It can be made to twist, leave, buckle, sag or otherwise contort, all at the will of the Fair's engineers. It has a sawed-off lower arrangement on one end. Some sections of its walls are dazling under the sun and are, obviously, encrusted with bits of broken glass. Its four walls, in fact, comprise 43 different sets of material, supports and surface coatings. When its day is done it will be made to collapse by the turn of a screw.

LIBROWITZ AND REV. HARTEN OPPOSED TO CHEAP PUBLICITY

New York, Aug. 26—(ANP)—The four Scottsboro boys are soon to appear in a show at a Harlem theatre. They will play parts in a re-enactment of the court scene in the hour of their release. Samuel Liebowitz, their counsellor, is opposed to such publicity and Rev. Harten has expressed fear that should the boys lack proper supervision they will again get into trouble.

Mopie Hawley of Chicago, fair-skinned actor, will act as the lawyer in the scene, and it was announced at the theatre that a white man will act the role of the presiding judge. Olin Montgomery interviewed mumbled that he felt that since he was free he would be his "own man" in seeking a career. The other boys are said to think likewise.

17th, the day Williams body was found in Little river weighted down with an iron bar. Ekum confessed his part in the murder and implicated Sasser. They robbed the aged man at his home and, after taking \$4, shot him to death.

Walda Goes Round & Round

BY WALDA

The writers of this column will be found in the last line as usual—Evidently the Morgans started something—Mrs. Vandebilt and the estranged Mrs. C. DeMille were seen enjoying "Armored Car" after using the side "exit" door for entrance—Ah! what these socialites won't do for amusement in their leisure hours!

Greetings and salutations, my worthy friends. We, the great three, are taking over the important duty of writing the column for this week. First we want to pay our compliments to the ice-house gang who so worthily "oiled" us in their column a few weeks back. But as the "good book" says, "do unto others as you would have them do unto you."

Flash! Seemingly the forsaken "Morris Maiden" has outdone her name by sharing her good time on Friday with that popular "becher" around town, "J. H." It's a terrible thing, "Squire." "Say! L. Q. wasn't the Kelso-ker working last week or did you like Mr. J. L.'s jokes better? Chops, you really didn't mind Miss Quincy refusing you a date did you? After all Avant is refused sometime."

What new youngster around town whose nickname is "hair" seems to think that every boy she meets is crazy about her? We hope that Miss B. A. P. gets this notice that she isn't as tough as she thinks she is. Flash! "JAMMIN' AT DANNY'S" caused a lot of question among the gals of Des Moines... perhaps they needn't have worried it might have been for Minn. that the boys did their stuff.

It cannot always be said that the "little ones" always keep their parents from having a good time for it was noticed at the dance the other night that one of our most recent Mothers was swinging as completely as the rest of us at the Hi School College Dance. At last Benita W. has finally made that big decision as to who is the best W. P. F. K. or the winner E. (Decon) F. Good luck B. W. Just don't let DB make that come back all though we know that she has her eye now set on that new tennis singles champion of Y Camp. (D. B. you should know by now that the Mrs. has a pretty good pull with him and it will take quite a bit to get him so...)

What is Scailley going to do when Mr. Avant brings that sweet little Miss from Ames down to the Holiday Dances. Well you know "Scailley" "you got to be a rug cutter!" (continued next week.)

TOO MANY SWITCHES; BURLAR RINGS WRONG BOX

Birmingham, Ala., Sept. 2—(ANP)—A slight error early last Monday morning spelled the difference between freedom and jail to Marshall Bradford. While burglarizing an appliance store Bradford reached for a light switch, by mistake turned on a telegraph call box.

When the messenger arrived he found the store dark, called police and the latter seized the surprised Bradford and a truck he had loaded with \$1,500 equipment. Unwittingly Bradford had negotiated his own arrest.

JOE LOUIS O K

When a fellow comes up to expectations, everybody is willing to do and say fine things for him. On the other hand when he does not many of those same people who showered praise heap indignation. People are fickle. This is life.

That is Joe Louis' situation today. But say what will or may, the Bystander still thinks that Joe is a great fighter notwithstanding his failure to knock Farr out Monday night. On the other hand, Farr is much more of a fighter than most people presumed and Louis, like those who were supposed to know, underestimated him.

Sec. Taylor, sports editor of the Register, and many others for that matter, questioned the decision of the judges. Of course he was not a judge and his doubt did not count. Neither Farr nor his managers questioned it. The judges decided for Joe unanimously.

Farr was the under dog in the fight. The desire to give the under dog a break plus the hope of many that Joe would lose the championship made considerable sentiment for Farr. And all the thirty-three thousand people who saw the fight did not boo the decision as Sec Taylor said.

Joe has nothing to worry about. He needs to meet good fighters and if his managers do not try to fight him too much and he keeps at his job the situation will work out to his liking.

THE GIRLS' HOME AT IOWA CITY

The Bystander understands that the girls' home at Iowa City is to be leased for a frat house. In other words it will no longer be a home at Iowa City for girls. Terrible. Fundamentally the Bystander was not in favor of the principle of the home, but recognizing that facts must be dealt with as they are rather than as we should like to have them, it has gone along with the idea knowing full well that in dealing with the race problem actualities make one oppose his argument one day and favor them another.

From the standpoint of early financing of the establishment of the home those in charge have done a splendid job but evidently the converse is true when it came to its operation.

For the past two years, the management has not been able to get the girls to stay at the home, the reason assigned being the inability to secure the cooperation of the university officials and failure of the girls to appreciate the home.

University cooperation ought to be adjusted and nobody is in a better position to do this than the Negro alumni of the university. They have the advantage of having gone through the experience and are better qualified to advise and counsel with the university officials than anybody else.

After all this is a tax supported institution and the official operate under the authority of higher ups. This problem can be met.

The refusal of the girls to stay at the home seems to be the crux of the whole problem; in fact it begins there.

Dealing with young people today is entirely different to what it was twenty-five years ago, and unless those in charge have kept abreast of the times they are liable to fall down miserably. Undoubtedly the matrons did the best they could but that does not solve the problem. They must be up with the times.

No frat or sorority houses, white

or black, escapes criticism entirely of letting some things get by that should not. Neither has this girls' home, but we are NOT inclined to believe that a FULL SOCIAL program such as will reasonably satisfy college women today has been carried on.

It is no answer that some girls do not come from first class homes and they ought to be proud of what they have. It is true of the whites also. But many do come from first class homes. Many of those who don't feel that when they go to college there ought to be some improvement. Some of the private homes at Iowa City are very nice and since the home had competition it was up to them to meet it.

Rooming facilities at Iowa City are acute. And of course a great part of it comes from lack of finances. However, the problem ought to be met and it cannot be done with negative action. On the other hand many people—white and black—are interested and that is a good starting point.

Discussing the matter with an attorney who finished at Iowa since the war, he stated that fraternity standards had fallen considerably at Iowa City during the past few years and that social life was far from what it could be. He ought to know because he is a frequent visitor at the university.

The Bystander suggests that some of the members of the alumni, heads of chapters of the fraternities and sororities, and the board of the home get together and work out some solution to this problem both as to boys and girls at the state university. It is a serious problem and ought to be met.

The Bystander would like to know the reactions of interested people on this question and will be pleased to print articles of reasonable length on the question—say not over 400 words.

American Teachers Holds 21st Session

NEGRO SCHOOLS SEND DOZEN DELEGATES—SOME REPRESENTED MIXED SCHOOLS

Madison, Wis., Sept. 2—(ANP)—The American Federation of Teachers, holding its meeting at Loraine hotel here, August 23 to 27, and with a dozen colored delegates in attendance, received with riotous applause the brilliant address delivered by Prof. Jerome Davis of Yale university, president of the organization, who urged the Federation of Teachers to either affiliate with the C. HAY FEVER

Sometimes called, rose fever and pollinosis because it is caused by the inhalation of pollens from plants and weeds, though it may be caused by foods. When due to pollens, there is usually a definite seasonal occurrence. In the spring of the year it is frequently associated with the pollen of trees such as alder, hickory, oak, ash, elm, and poplar; while in the summer it is not frequently due to the pollen of flowers, grasses and weeds.

These pollens cause a sense of burning in the eyes, seizures of sneezing with a profuse running of the eyes and nose. Of the various pollens causing hay fever, vaccines are made for immunization of the patient against that particular pollen. These vaccinations should begin at least six or eight weeks before the hay fever season begins building up the patient's immunity then bimonthly treatment thereafter to maintain the immunity.

S. H. P.—The man that I am so crazy about—tell me if he means the things he tells me?

Ans.—Without a doubt. He surely wouldn't continue to ask you to MARRY HIM if he didn't want you. An immediate ceremony wouldn't be any too soon for him.

T. A. K.—I am leaving on my vacation this month and am undecided whether I should return or not. Could you help me?

Ans.—Take the vacation and while away make an effort to find a good job. If you are successful, as I feel sure you will be, then remain. The job that you are leaving behind is a good one but you can't do your best work when you aren't satisfied.

E. L. S.—Will I ever get the kind of bicycle I want before school opens this fall?

Ans.—It will take you at least TWO MORE MONTHS before you are able to save enough money to make this purchase. You will appreciate it just as much even though it is a few months late, and continue to save your change.

E. M.—Is my husband tired of me and wants to see me go away or is it someone else that's persuading him to do this?

Ans.—He is fed up with everything in general and no one else has influenced him. Take a vacation for a few weeks and this will bring about a change in him.

S. E. W.—I am a constant reader of your column and I enjoy it very much. Is there a chance of my friend in New York and me living as one in the near future?

Ans.—Give up the idea for he isn't the least bit interested. He has made friends in the city where he is located who mean even more to him than you do, and you can just mark him off your list.

G. H.—Tell me if I will get to go in the business that I have in mind at this time. Could I get a private reply?

Ans.—The prospective business career you have mapped out would no doubt prove a success—but it will take more capital than you now have to launch this enterprise. Take in a partner if you can find some honest party. Yes—if you will send a quarter for my New Astrology Reading I will be glad to give you free opinions on three questions in a private letter.

W. C.—I want to know, does the

man that I am in love with by the initials of J. E. H. loves me?

Ans.—Absolutely not. You won't even see him except occasionally due to his lack of interest in you. Stick by your old friend C. E. B.—he does care for you.

J. J. G.—Please tell me if my mother left any money and if so will I get it? Should I remain here or not?

Ans.—She did not leave any money or any valuables. Go to one of the cities north of you and get a job—you will enjoy living there very much more than you do your present location.

R. L. P.—Will I be able to go to the school I desire to attend this year?

Ans.—I'm afraid not—you must return to the same school you attended last year.
