IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago.

Lesson for October 24 CHRISTIAN RENEWAL

LESSON TEXT—Titus 3:1-11. GOLDEN TEXT—For the grace of God that bringeth salvation hath appeared to all men—Titus 2:11

PRIMARY TOPIC—The Good Shepherd. JUNIOR TOPIC—In His Likeness.

INTERMEDIATE AND SENIOR TOPIC—A New Life in Christ. YOUNG PEOPLE AND ADULT TOPIC—Renewed Life Through Christ.

The pastoral epistles, of which Titus is one, were written by Paul to his young brethren in the faith who had been called to the ministry of the gospel to instruct them concerning three important matters—(1) Church order and organization, (2) sound doctrine and (3) holy living.

The third chapter of Titus, our lesson for today, deals with the life of believers in Christ in their relation to unbelievers.

It is not a pleasant picture that is painted in the graphic words of this verse, but remember, it is God's picture of the unbeliever.

How sweet are these three words in the sinner's ear! Saved by grace, not works, and made heirs of eternal life.

"Not by works" (v. 5). Someone has said that man is determined by one means or another to claim salvation by his good works.

"By his grace" (v. 7). God shows his unsearchable kindness and love toward man—saving him by grace, through Jesus Christ.

"Made heirs" (v. 7). Saved now? Yes, thank God! Satisfied? Yes, praise his name!

Now—we are ready to approach in the right spirit the admonition to live out our salvation as a daily testimony to others.

The young preacher Titus is told to "put them in mind" to be "subject to rulers" (v. 1).

Subject to rulers? True patriotism (and we did not spell it "patriotism") stands very close to godly living.

2. Meek and kind to all men (v. 2). Meekness is not weakness. Gentleness is the attribute of strong men and women.

3. Maintaining good, avoiding evil (vv. 8-11). It is the tendency of man to divorce morals from religion, to profess a faith which does not touch his daily life.

Knowledge and Ignorance. The best part of our knowledge is that which teaches us where knowledge leaves off and ignorance begins.

Justice. Justice is the idea of God, the debt of man, the rule of conduct in the nature of mankind.

THE TRUTH. The truth makes free, brings joy, hope, encouragement.

NEGRO SCHOOLS

Morgan college seems to be the Minnesota of the Negro schools, as the Morgans rolled over Lincoln college 19-6 for their forty-fourth win. It has been six years since these boys took a licking. Bishop came to life and tied Xavier 0-0 and Langston had both hands and arms full stopping a battling Southern team 7 to 6. Morris Brown taught football to the Montgomery Teachers 27 to 7, while Tougaloo was dumping Dillard U 19 to 12.

HIGH SCHOOLS

North High tried out every one against Lincoln, and Ike Miller, Mel Madison, Joe Danforth, Ray Stewart, Charles Howard, Jr., and Tommy Avant all saw service. Miller played a major part in helping pile up the lead. We can't understand some of the recognition not given Negroes in some of the writeups in the daily papers. No one expects a lot of undeserved bouquets, but some of those reporting football games just can't see a Negro.

Eddie Maupin and Harry Saunders played their heads off, but East bit the dust, or rather the mud as Dowling licked them, 9 to 6. Were we hauled over the coals last week? Our face is still smarting. It seems that Jimmy Thompson has been getting in a lot of games at end at Roosevelt. He stands a chance to be the first Negro to win a football letter at the West Side school. Terrible sorry, Jimmy.

COLLEGES

In the Big Ten, Captain Homer Harris played at tackle and did all right as Iowa lost a heartbreaker to Wisconsin. Minnesota, with Reed and Bell, really woke up in the latter part of the Michigan game and swamped the Wolverines.

Bernard Jefferson scored one marker and did plenty of kicking, passing and ball packing as Northwestern took Purdue into camp. See Taylor describes Jefferson as a non-blocker, which sounds a bit odd when for two years the boy's chief asset to the team was his blocking and defensive play. In news reel shots of the Minnesota game last year he is seen doing plenty of high class blocking. Maybe Waldorf doesn't want him to block this year.

DRAKE'S HOMECOMING WITH IOWA STATE TO BE TOUGH BATTLE

Intent on avenging last year's 21-7 defeat, Drake university's Bulldogs will battle it out at Drake stadium Saturday October 23rd, with the Cyclones from Iowa State. The contest will be the fifty-first homecoming affair for the Bulldogs.

Emerging uninjured from their 9-0 victory over Creighton's Bluejays Friday night, Drake will present its most formidable team since 1930. The last win Drake registered over Iowa State was in 1931, when they squeezed a 7-6 victory. However, twice since then the two teams played 7-7 ties.

General admission for the game is \$1.10 and reserved seats \$1.65. Seats in the special boxes are \$1.95. Other home games for the Bulldogs include the Grinnell and Coe games.

Rivers Flowing North
The United States Geological Survey Bureau says that the Red river of the North, which forms the boundary between Minnesota and North Dakota, flows north for part of its course; the Monongahela flows north from West Virginia to Pennsylvania, where it joins with the Allegheny to form the Ohio river; the Niagara river, connecting Lake Erie and Lake Ontario; the Tennessee river, where it crosses the west end of the state of Tennessee; the Snake river, where it forms the boundary between Oregon and Idaho; John Day, Deschutes, and Willamette rivers, tributaries of the Columbia river in Oregon; the Missouri river in the vicinity of Helena, Mont., and a part of the course of the Salmon river in Idaho, all flow north. Others having courses between north and northwest include the San Joaquin and Bel rivers in California, Kootenai river in Idaho, Mouse river in North Dakota, Kentucky and Licking rivers in Kentucky and the New-Kanawha river in Virginia and West Virginia.

SCHOOL BOARD KILLS "BIRTH OF A NATION" SHOWING

New York, Oct. 21—Mayor F. H. LaGuardia and the board of education of the city of New York killed the plan to show the Ku Klux-Klan film, "Birth of a Nation," in DeWitt Clinton high school here October 13. A protest had been filed against the showing of the film by the N. A. A. C. P.

Elephants' Legs Strong; Are Set Perpendicularly

As to the elephant's agility, it is pertinent to read the interesting statement of Zoologist Ernest Petheroe, F. Z. S., concerning the elephant's legs:

"In order to support the enormous weight which rests upon them the legs are very stout and are set perpendicularly, without that bend in the hither leg which is found in most animals. This pillarlike structure is of infinite use when the animal climbs or descends steep acclivities, which it can perform with marvelous ease. Considering its bulk, the elephant is remarkably active; it can lie down and regain its feet as easily as a dog; it can stand upon its hind feet alone, or erect itself upon its forefeet; and it can even stand upon its head. It cannot trot or gallop, but nevertheless can move along at eight miles an hour if needed. A ditch seven feet wide would prove a complete bar, as the animal's maximum stride is only six and a half feet, and it cannot jump an inch."

The statement about the elephant's pace is probably an understatement, for hunters would have no need to fear an animal whose speed was limited to eight miles an hour. Zoologist G. M. Vevers, superintendent of the London zoo, says: "Both species of elephants are fast movers over a short distance, and a speed of fifteen miles an hour is not uncommonly kept up for a quarter of a mile or so, but whereas the African can keep up a speed of ten miles an hour for several hours on end, the Indian, being shorter in the leg and more cumbersome, cannot maintain a speed of more than six or seven miles an hour."

Looking Over the Hawkeyes

By J. Braddie Morris

By James B. Morris, Jr.
Greetings and salutations, readers! Here we are to bring you the things of interest in this town for the past week. To begin with, open houses have been held at the Ware house, Alpha house and the Kappa Alpha Psi house. All three were lovely affairs and were attended by most of the Negro student body.

The first meeting of the Negro open forum was held Sunday evening at the Kappa Alpha Psi house. This is an organization for the betterment of the Negro race. Modern problems which relate to the Negro and society as a whole are discussed. Speakers are entertained at each meeting, who speak on topics of interest today. The organization was founded in 1925 and has continued to the present. It is affiliated with the religious activities office and is a member of the Inter-Church Council. A brief history of the organization and its purpose were given by the acting chairman, Miss Lillian Martin, of Dubuque. Miss Juanita Kidd of Wewoka, Okla., rendered an instrumental solo. Tea was served following the meeting, with Mrs. Betty Tate pouring.

Now for some more names of the Negro students. Miss Eleanor Arnett of Clarinda is a student in the fine arts department, majoring in music. Myron Bush of Cincinnati is a student in the law school and his brother, Gow, is a candidate for Ph. D. in zoology. Miss Lestina Grant of St. Louis is a student in the school of liberal arts, majoring in zoology. Sher-

man Wilson of Austin, Texas, is a candidate for M. A. in zoology. Carlton L. Duckett of Columbia, S. C., is a candidate for M. A. in psychology. More names and happenings next week.

Your campus correspondent,
J. B. M., Jr.

P. S.—Wisconsin's Badgers whipped the Hawkeyes 13-6 Saturday at Madison. Michigan's Wolverines invade Iowa City on Saturday for the Dad's Day game.

Hyde Park, N. Y., Oct. 14—The federal anti-lynching bill, which in the closing days of the last congress in August was put on the senate calendar as the second item of business for the next session, will come up in the special session of congress, which may be called about the middle of November, it was learned here this week.

In his conference with the press at Hyde Park on October 6th, immediately upon his return from his western trip, President Roosevelt indicated that a special session probably would be called November 9th or November 15th. Among the items which the reporters gathered from the interview would surely be taken up are crop control, wages and hours, anti-lynching, judiciary reform, and the reorganization of bureaus of the federal government.

On the senate calendar, the anti-lynching bill is definitely set down for the second item of business, the first being an agriculture bill. Observers in Washington agree that the anti-lynching bill may bring up a filibuster in the senate by southern democrats, but practically every one including leading southern senators like Pat Harrison of Mississippi, concedes that the anti-lynching bill is practically certain to pass, filibuster or no filibuster.

GREEN SAYS A. F. OF L. SEEKS TO WIPE OUT JIM CROW

Denver, Colo., Oct. 14—In response to a telegram from the N. A. A. C. P., calling upon the American Federation of Labor in its 57th annual convention at Denver, Colo., to wipe out the color line in the A. F. of L. and to fight the proposed revision of the wages and hours bill to make it more acceptable to the south, William Green, president of the A. F. of L., has wired the N. A. A. C. P. that the federation seeks to bring about "the elimination of discrimination against any class of workers because of race, creed or color."

The N. A. A. C. P. had urged the A. F. of L. to suspend affiliated unions which refuse to abolish the color line, but on this point Mr. Green's telegram was silent. However, A. Phillip Randolph, president of the Brotherhood of Sleeping Car Porters, raised the question of discrimination by unions at the session of October 7th. The reply was that the federation had no control over the constitutions of affiliated unions and could only request "them not to bar Negroes."

Weekly Impression—Speaking of "em good ole days" as the sport scribe would say, you'd be surprised how good these days can be. For instance, Who Won't Remember (Present day of course) Saturday evenings spent at the Central Y with Ad Bowman and Myrt Eaves cutting fancy steps on roller skates—and the majority of others trying to lose excess poundage (excluding Wilda Mullins) and those nights at basketball at West last winter when all the crowd yelled itself hoarse when the Y Stars, Fellowship Raiders, Corinthian and Top Hatters took the floor... and that almost feminine crowd of cheerleaders and noise makers (including Sue Edmunds) at Goo's park activities and dances this summer... and the vicious arguments that are staged here, there and anywhere during political years when one never knows

who his best friends are... And the Y. M. activities each year including boxing and camp with George Robinson, Jr., as boys worker and Runt Hyde, Fred Morrow, Harold Carr, Tom Ayant and a few others always around... And I know you'll remember those most exclusive jam sessions held at the most convenient places... and those daily free feasts from caviar and soup to two gallons of Meadow Gold that Ed Eaves, Bob Craddock, Chet Simms, Ike Miller and occasionally a few others had every day... Grocers were always quite well pleased to donate anything to the boys... And how watermelon, pop, ice cream and anything else attainable trucks didn't dare come near 16th and Walker when Albert Thomas, Willie Miller, Melvin May, John Griffin and Do Wade were on the corner... Royal Senators and Top Hatters are gradually taking the place of some of the older clubs... the younger crowd marrying off early, like the older bunch... and how the bunch and heart affairs including Ann Payne-Jack Howard; sounds non-existent—but well, time will tell; Maxine Payne-Albert Thomas; Laura Hayes-William Miller; George Edmunds-Kenny Hill; Al Brown-Bob Parker and Maurice Evans-Did Cooley... the time we went slumming and ran into a bunch of friends—Remember "Fumadoo" Lewis... How all the boys were supposed to be homes because they carried "Gerties"—How Kathleen Hubbard almost ran down on to East Sixth and Locust off Capitol Hill last year—Ah yes those were the good old days but these are O. K. too... If ever I was baffled... I'm completely so now... I've been told to "Watch Seon" and "Watch the Y Stars" but that's all I have been told... any way, this cloud of mystery will be rolled back and the secret divulged shortly... See you all at the fortune teller dance tonight—well until more ramblings I'll be seeing you, ramblings I'll be seeing you.

For Chest Colds Distressing cold in chest or throat, never safe to neglect, generally eases up when soothing, warming Listerine is applied. Better than a mustard plaster, Musterole gets action because it's NOT just a slave. It's a "counter-irritant"—stimulating, penetrating, and helpful in drawing out local congestion and pain. Used by millions for 30 years. Recommended by many doctors and nurses. All druggists. In three strengths: Regular, Strength, Children's (mild), and Extra Strong. Approved by Food Inspection Dept.

OLD PEOPLE find way to keep breath wholesome Halitosis (bad breath) quickly yields to Listerine, safe antiseptic and deodorant. Either because of stomach disturbance, food fermentation, or the wearing of false teeth, old people frequently have halitosis (bad breath). No wonder others consider them a nuisance. But now Science has found that the regular use of Listerine will often prevent the regular mouth odors due to the fermentation of tiny bits of food on mouth, teeth, or dental plate surfaces. This safe antiseptic and quick deodorant works quickly. It cleanses mouth, teeth, and gum surfaces. Halts fermentation and putrefaction, a major cause of odors, and then counteracts the odors themselves. Try using Listerine every two or three days. You'll find how much more wholesome it leaves your mouth. Head in waiting room, your breath, Lambert Pharmaceutical Co., St. Louis, Mo. Don't offend others - Check halitosis with LISTERINE

The fact that Justice Black's official staff is composed of a Negro, Jew and Catholic would lead one to believe it difficult for his old cronies to get to him; but owing to the system whereby their heads are covered with pillow cases and they operate after dark, he is not liable to be lonely because of lack of old companions.

THE PRICE OF SPEED

As every one knows, speed is the great highway killer. The motorist who drives at an excessive rate endangers not only his own life, but those of everyone else on the public streets and roads. He can offer but one "excuse" for his conduct—that super-fast driving gets him to his destination sooner.

The truth is, the minutes we save by excessive speed are pitifully few in the light of the risk involved. A short time ago a test was made in Chicago. A radio announcer was told to drive his car on an eight-mile trip through heavy traffic, observing not only every traffic regulation, but very rule of courtesy. At the same time, a police officer followed the same route under instructions to take every risk and reach the destination in the shortest possible time. Twenty-three minutes later the reckless driver pulled in at the stopping point. The safe, supposedly slow driver, who had taken no risks at all, got there exactly two minutes later.

We have all met the motorist who makes a trip in a length of time that required him to risk a hundred lives, and then spends twice the amount he saved over a normal, safe passage, boasting about it. None of us are so busy, none of us have so great a need for saving a few minutes or a few hours, that we can afford the "price of speed."

"Save ten minutes—take a life." That should be the motto of the driver who "opens her up" on every possible occasion. Speed and speed alone is the dominating factor in the great bulk of the nation's serious traffic accidents. Look at it from your own point of view and from a purely selfish standpoint—is it worth it?

NEITHER SIDE SEEMS TO CLICK

Recently, one of the best jobs held by Negroes at the state house has been taken away from the group. This place had been held by a Negro for many years. Our Democratic friends do seem to be able to explain it.

"Save ten minutes—take a life." That should be the motto of the driver who "opens her up" on every possible occasion. Speed and speed alone is the dominating factor in the great bulk of the nation's serious traffic accidents. Look at it from your own point of view and from a purely selfish standpoint—is it worth it?

We have had some changes in the court house during the past few months and with those changes have come opportunities to give back to the Negro group some of the jobs they held in past years; on the other hand there are offices in the court house where Negroes get absolutely no consideration.

In spite of the great campaign waged by Negroes in the city election last year they have made absolutely no more progress in securing a fair distribution of patronage than existed prior to these elections. And while one office made a left-handed gesture in the direction of improvement, it has not been at all commensurate with the support given that office during the campaign.

dividual candidates.

We have entirely too many Republicans in office who are absolutely worthless and a very definite effort should be made to get rid of them; we have too many Democrats who think they satisfy a Negro's political aspirations with a WPA job; we have too many people in the city hall who use the civil service as a smoke screen or fell that the Negro should be satisfied with the crumbs from the table however small.

The Bystander wants this situation changed. It must be changed and the only way for this to be done is to point out these political tricksters to the group and go out to beat them. There is nothing to lose but much to gain. And of course we are not going to get unanimous support for this program, but we do feel that it is the right one and will solicit the support of the masses to accomplish it.

While this editorial deals in general terms, we propose to name the offices in time where our representation is inadequate and suggest methods of changing the situation. And in doing this The Bystander will not write editorials for candidates but against those who fail to do their duty toward the group.

What Others Say

"ONE THING NEEDFUL"

There is one thing among us that is needful, and each of us well know what that one thing is. The reason that we do not prosper along any definite line is because, knowing this thing, we will not do it. As long as we will not do it, so long will we fall short of our goal as a people. "How pleasant it is for brethren to dwell together in UNITY." Unity in the spirit of doing things for the good of the whole group.

What are the bars that prevent us. Is it selfishness, is it greed, is it ambition, is it not a willingness to be led, is it that every one wants to be the LEADER? In order for us to be ONE people, we must necessarily unite on one leader, and then, we must be good followers.

What we need in this city is a type of Negro leadership that is broad enough to secure the confidence of the masses. We may have groups, which we do have, but unless the leaders of these groups can get their HEADS together, we are and will forever be absolute failures. The time is now ripe for us as Negroes to use just a little common sense. United we stand, divided we fall. You know this then why, all this falling. What do you say? Is it possible to CALL all these leaders together, and form an organization of real leadership. Let's try it. As for me I am a good follower, so long as you are traveling in the right direction, upward always. It is possible for us to name one Negro leader that has succeeded in leading the masses. No, just his little group, has he been able to do anything for—Remember there is always strength in mass formation. We have tried the other way and failed, now let us try this way and see how we will come out. We must learn to speak through some designated leader. Who will he be. Let's have a vote and select him. "TIME MARCHES ON."

"IT WILL SIT THERE FOREVER UNLESS NEGROES RUN IT," SAYS DUNJEE

Oklahoma City, Oct. 14—(ANP)—No white men will operate the new sixteen page Goss press recently installed by the Oklahoma Black Dispatch and scheduled to make its maiden run this Thursday, said Roscoe Dunjee, editor, last week. His statement, which included the assertion that "the new press will sit there forever unless Negroes run it," was made after L. T. Johnson, white, secretary of Pressmen's union, No. 149, from which Negroes are barred, told Mr. Dunjee that his union decided three white men and a helper would be necessary to start the press. The editor immediately vetoed this idea.

"I intend to run the Black Dispatch plant with Negro employees and I see this incident as an attempt to thwart my intentions," said Editor Dunjee. That press will sit there forever if Negro employees do not run it. I think that every fair and

WHOOPIING COUGH

This disease is characterized by a series of violent spasmodic coughs which end in a long inspiration or "whoop". Whooping cough was at one time looked upon as a relatively harmless affection and is still so by most of the laity. I cannot too strongly emphasize that it is a most dangerous disease in young children. Its danger lies in the complications that usually follow.

The seizures last from a few seconds to a few minutes and is likely to be more frequent at night. These attacks cause vomiting which may occur so often that the child loses weight rapidly. Extreme care and comfort should be given a child when suffering with whooping cough. Avoid carrying a child where there is an open case of this disease. Treatment of the disease is not very satisfactory but children may be immunized against the disease with unusual benefit secured.

liberal minded white person will feel that in this matter I am right. Negroes are not allowed membership in white printers locals in the south and I have a right to develop my own force from among members of my own race, without interference of this "character."

Leaf Skeletons for Scrap Book

To make leaf skeletons place the leaves in a little rain water to which a trace of yeast has been added. Allow the fermentation to proceed until the membranous portion becomes soft and easily washed away in a stream of water. Bleach by dipping for a few minutes in a strong aqueous solution of sulphurous acid gas, or exposing them, while moist, in a box filled with the vapor of burning sulphur.

Elephants Live on Vegetable Matter

Elephants are herbivorous, living on vegetable matter exclusively. The African elephant takes to such coarse stuff as bark, saplings, and tree branches; the Asiatic prefers succulent bamboos, plantains, and figs. They drink by sucking up water in the trunk, then blowing it out into the mouth. Grain is eaten this way also. In the case of baby elephants taking milk, however, they suckle directly into the mouth. The babies are born about three feet tall and weighing several hundred pounds. They are covered with woolly hair like the coat of the prehistoric woolly mammoth. Elephants almost never have twins.

Ticker Symbols

Because of the speed with which transactions on the nation's grain exchanges must be reported a system of abbreviations is employed. To the casual reader of the grain tape they are meaningless although the system actually is simple. W stands for wheat, C for corn, O for oats, B for rye; B for barley, CTN for cotton and S for soy beans. Delivery months are designated as follows: January F, February G, March H, April J, May K, June M, July N, August Q, September U, October V, November X and December Z.

TALLADEGA ABOLISHES ADMISSIONS TO ATHLETIC CONTESTS

Talladega, Ala., Oct. 14 (ANP)—In order to renounce "commercialism in athletics," Talladega college is inaugurating a policy of no admission charges to this year's football games and other sporting contests, it was announced Monday by President Gallagher.

It is understood that the only other institution in the country following a similar policy is John Hopkins university, white, of Maryland.

N. Z. W.—The man I have been in love with is mighty funny. A woman came to town and now he tells me that it is his wife. Should I believe him?

Ans.: Yes, you must. Have nothing more to do with him for he legally belongs to another.

B. H. C.—Please tell me about what year you think my brother will get out of prison?

Ans.: Sometime during the year of 1938 provided he continues to behave well. At his age this can soon be forgotten for he isn't going to take any more chances in the future of going to prison. It really has reformed him.

E. A. R.—I am very lonesome when will I find a true boy friend that I can depend on?

Ans.: He is right around the corner but it is certainly up to you to get and show your appearance for you won't ever get a boy friend staying in the house grieving because you have no friends. Forget your age and act sixteen for a while.

B. M.—Am I going to change towns and also be successful in this change?

Ans.: Absolutely. The month of November will be an ideal time for you to carry out your present ideas. The move that you are about to make is a mighty good step to take.

J. B.—Is it possible that I will ever regain my health or must I continue on in this same state?

Ans.: It is highly possible that you could be entirely relieved of the con-

dition you are suffering with but it will be necessary for you to consult with a doctor. To do nothing about your bad health is a sure way to never be relieved.

W. F. R.—I was corresponding with a fellow and he has promised he would come and marry me? Should I depend on him or will he fail in his promise to me?

Ans.: Wait on him for another year and he will fulfill his promise but right at this time he isn't at all well off financially to support a wife. This fellow loves you just as devotedly as he claims.

B. E. J.—Will I be successful in getting a job soon and will it be in this city?

Ans.: You will and it will be right there in your present city. The job will be caring for a small child, and you will really enjoy the work.

F. B.—Was it anything that my wife did that caused her death or what did cause it? Was she true to me?

Ans.: She did nothing whatever to bring on her death. It is just one of those cases when your time comes... why doubt her sincerity now. You know perfectly well that she was true to you.

A. M. G.—Am very much in love with a girl who has just finished college. Will she marry me?

Ans.: I am afraid she won't. Her failure to answer your letters is just a nice way of saying she isn't interested.

Old-Fashioned Remedies

Favored by the Japanese
The Japanese boast of the most fantastic medicines, and the country folk go in for "cures" which, to a European, would seem a good deal worse than the disease, notes a writer in Pearson's London Weekly.

A widely-used cure for fever consists of placing a poultice of earth-worms on the patient's stomach, because Japanese believe that this will draw the fever out.

Anyone suffering from dizziness or other eye trouble is advised to lie down and sprinkle salt on the stomach. Burned clay, raked out of old cooking stoves, is another cure-all. Eaten slowly, it is supposed to banish any kind of sickness.

The effects of eating too many oysters are supposed to be removed by eating powdered oyster shell, and this cure is also widely used for indigestion and similar ailments. Heartburn—not the indigestion kind, but that which comes from blighted affections—can be soothed by eating a few toads.

But the most widely-used treatment consists of sticking pins into one's anatomy. According to the Japanese way of thinking, there are more than 300 different parts of the body into which a pin can be stuck, each part being the location of a different disease.

Babies, however, are not considered strong enough to withstand these cures, so the Japanese mother deceives the germs of disease by hanging a notice outside the house informing all germs that the baby is not at home.

The Knout, a Heavy Whip
The knout was the official instrument of punishment formerly used in Russia, consisting of a heavy whip of leather thongs artificially hardened, twisted with wire and sometimes hooked at the ends. One hundred strokes were considered equivalent to a sentence of death as the victim seldom survived. On account of the severity of the punishment Nicholas I issued an order substituting punishment with a lighter whip of three thongs known as plet.

Cocobola, Central American Wood
Cocobola is a Central American wood that has been used in the cutlery trade for more than 50 years. Its appearance is that of the most striking of woods, with peculiar shades of red and orange shot through with bands of jet black. It is extremely hard and heavy, and being more oily than most of the rosewood group, to which it is related, is so difficult to glue that it is not used to any extent for furniture except novelty pieces.

Muskmelon and Cantaloupe

Many persons are puzzled by the names muskmelon and cantaloupe. Horticulture states that the term muskmelon is the proper one to apply. The cantaloupe is really a small melon used for forcing in European greenhouses. This name, however, has come to be used in the trade for certain kinds of melons. It is purely a trade name and is given to what is actually a muskmelon.
