### Tell of Needs of Bahama Isle Baptists

REV. G. W. ROBINSON RETURNS FROM BAHAMAS ISLES SUNDAY MAY 25TH

The Rev. George W. Robinson, pastor of Corinthian Baptist church, returned from a visit to the Bahama Islands, Sunday, May 28th, where he attended the conference of all Baptist ministers held in Nassau of the Bahama Islands. He reports that "more than two hundred brethren and workers throughout the islands" and members of the women's auxiliaries attended the conferences.

#### Makes Progress

"It is a revelation to us to see the wonderful progress that these people are making in education and religion in spite of the most severe handicaps that I have ever seen. We heard the stories of the various pastors who form the St. John Baptist association and also learned their problems. Some of them told encouraging stories while others were very much depressed. We also heard the reports from the ministers of the Union Baptist church association. Their needs were not as great on Church Buildings as the other group but all have problems that can only be solved by the God-given help and co-operation of the people of the United States.

"Nassau stands as the lighthouse for the Outer Islands. The people in the city on the whole are living excellent, there are some living in homes that will equal any in the States with a few exceptions, yet there are quarters in Nassau just as there are in Chicago and Des Moines and other large cities that are deplorable.

#### Majority of People Baptists

We find that the majority of the professional men and women belong to the Episcopal or Catholic Churches, but the majority of the people of the island belong to the Baptist denomination. That's where we are doing our best work.

I might say in conclusion that these people need some money, not any pennies, dimes, nickles or quarters, but real money. Some of the churches in the Island have no literature for the Sunday Schools and B. Y. P. U.'s and are begging us for them. All the churches need roofing and the young people need books, periodicals and money. We are going to appeal to you as never before to help the Bahamas to get on their feet that they might be an asset to the denomination and not a liability that is their whole desire; to be on equal footing in all phases of denominational work as the brethren are in the States. I shall from time to time give other facts I have gained from the visit.

Supervisor John Anson Ford will present Miss Allen with a bronze plaque for her outstanding achievement. Mrs. Rosalie Randolph is chairman of the

#### NEW YORK CITY TO HAVE FIRST ALL-NEGRO ART SALON

New York City, June 1 (ANP)—The first art gallery in America devoted to the exhibition and sale of the works of Negro artists will be opened at 143 West 125th street on June 8, the Augusta Savage Studios, Inc., announced this week.

The new gallery—Salon of Contemporary Negro Art—is owned and operated by Negroes and will feature the works of outstanding Negro artists of today.

A special preview of the exhibition will be held on Wednesday evening, June 7, and is expected to be an important social event in the life of the community. More than 600 civic and social leaders have been invited to the preview, and Dr. Channing H. Tobias, national secretary, YMCA, will preside.

#### SCIENTISTS RECOMMEND CLOROX FOR HEALTH PROTECTION

Greater health control measures are being rapidly extended into millions of homes through protective household cleansing methods. The modern trend toward higher standards in American housekeeping is coincident with the remarkable improvement in U. S. health records during the past several years. According to statistics 1938 was a banner health year with an all-time low in death rates.

Protective cleanliness has long been urged by eminent scientific authorities who say the neglected "danger zones" of the typical home often menace family health unless hygienically cleansed. They point out that these "danger zones" usually include soiled table, bed and personal linens; refrigerators, glassware, dishes, dishcloths, drainboards, sinks, garbage receptacles; washbasins, bathtubs, toilet bowls; tile, enamel, linoleum wood surfaces and of course, sickroom utensils.

It is simple to establish added health protection in the home through the regular use of a pure, safe and dependable household disinfectant in laundering and in routine kitchen and bathroom cleansing. Outstanding among those disinfectants which scientists recommend as safest, best suited and most economical for household use is Clorox, a product familiar to millions of housewives throughout the nation. Sanitary precautions are especially important in homes where there are babies and children as they are more often susceptible to infection than groupings. Thus there is a large proportion of young mothers among the millions of housewives who are adopting this safer and more modern type of household cleanliness, protective cleanliness.

Church on Sunday evening May 28th. Numbers participating were selections by Burns Men's Chorus, welcome address, Rev. J. C. Bain; solos by Mesdames Onetta Stone and Mildred Page; readings Mrs. Josephine Williams and Luther Henry Smith. Morris DeSleet, commander of the post, gave a few remarks. Mrs. Bessie Green was mistress of ceremonies.

#### RICHMOND TO SEE FIRST NEGRO-LIVING NEWSPAPER DRAMA

Richmond, Va. May 26.—For the first time in the South a drama depicting the life of Negroes, done in the technique of the living newspaper will be shown, when "Place America," is presented at the 30th annual conference of the National Association for the Advancement of Colored People to be held here June 27 to July 2.

Written by Thomas Richardson, well-known playwright and actor, the play will tell a dramatic story of the thirty-year development of the association. Actors in the drama will be members of the Richmond Community Theatre, which is directed by Mr. Richardson.

#### CONFERENCE DECIDES WASHINGTON NEEDS MORE HEALTH FACILITIES

Washington, June 1 (ANP)—The health problems of Washington's 140,000 Negro inhabitants came in for discussion Saturday at a conference held at the Vermont Avenue Baptist church when Dr. George G. Ruhland, health officer, presented statistical data showing the health of the entire community is dependent upon systematic improvement of health conditions among these same colored inhabitants.

Better hospital and clinical facilities were emphasized as a special need for the colored population by The play will be staged at Armstrong high school the night of July 1.

#### WATERLOO ELK'S HONORED GUESTS

The Elk's Lodge and Temple of Waterloo were honored guests of Hawkeye Lodge No. 160 and Rose Temple No. 33 on May 29th and 30th. On Monday evening a dance was given at the Neighborhood house E. 13th Street, and on Tuesday a barbecue and picnic at Horse-shoe Lake. Harry Wilson is Grand Exalted Ruler of Hawkeye Lodge.

#### Cockroach Old-Timer

The lowly cockroach has existed in its present form a long time. There are four different types of cockroach—the Croton bug, first found in New York; the proper cockroach of the East; the American cockroach, which probably came from tropical America, and the Australian cockroach, which is much like the large, reddish-brown American cockroach except that it is a trifle smaller. There are said to be 225 different species of the pest.

#### Ingredients in Iron-Making

Three of the main ingredients in the iron-making process are iron ore, limestone, and coke. The fourth is frequently forgotten. It is air. Yet to make a ton of iron it is necessary to use about 3,700 pounds of ore, 700 pounds of stone, 1,600 pounds of coke, and 7,000 pounds of air. The products of the reaction are roughly 2,000 pounds of iron, 900 pounds of slag, 250 pounds of dust, and 9,850 pounds of blast furnace gas.

## Roadside Wins Crocker Y Annual Track Meet

By Allen Ashby  
Bobby Vandever brought his Roadside A. C. gang to the Annual Crocker "Y" meet in a truck. He watched after them like a mother hen over her chicks. He coaxed and cussed them into entering every event whether they wanted to or not, and when the meet was over the boys from the Settlement house had so many points that all the other clubs put together wouldn't have come close to them. Bob managed to take time off from his squad chasing to prove that he is still the best all-around track athlete in the city.

He ran away from Lloyd Redmond of Ft. Madison, now a Drake freshman, in two races, the hundred and two twenty. He almost slept through the broad jump, but woke up just in time to shed his sweat clothes and take one jump, nearly setting a record and settling the issue there. Then he grabbed the shot and uncorked a forty-two foot heave for top honors.

Lloyd Redmond won second individual honors by three seconds and a first. His first came in the quarter when he cut down young Charley Howard to gallop home in front. Howard then turned the tables on Redmond in the half-mile and romped home with the bacon. Bob Vandever got in the half mile, but to prove his versatility as a runner, but that is still unproved because Bob left the race when some one

Deland, Fla. May 28.—A circuit court jury Saturday acquitted Earl and Everett Blackwelder of first degree murder charges growing out of the slaying of Lee Snell, Negro driver of a taxicab that struck and killed their brother, Benny Blackwelder, 12.

The jury deliberated an hour and six minutes. Snell was being brought from Daytona Beach to the county jail here by Constable James Durden Apr. 29 when two men intercepted his automobile, took Snell and shot him to death by the roadside.

Durden, one of seven state witnesses who testified, said he "thought" the Blackwelders were the men that seized Snell. At a recent coroner's inquest he identified the pair as the men.

Defense counsel did not place any witnesses on the stand.

G. Wendell Freeman, president of the Medic-Chirurgical society, Dr. C. Rhurston Eerebee, president of the Robert T. Freeman dental society, spoke of various means of publicizing a "dental program to arouse interest in the vital care of teeth to meet the needs of persons unable to pay the price for such service.

#### BROTHERHOOD AND SISTERHOOD PARADED SUNDAY MAY 28TH

With a grand display of their colors, yellow and blue, the Brotherhood and Sisterhood, Incorporated, paraded from the East Side Community Center to the Maple Street Baptist Church where they sat in a body at the Sunday morning services, May 28th. The parade was led by the Drum and Bugle Corp of this organization under the direction of Messrs. Jack Manuel, Morton Graves and James Scott. Almost one hundred and fifty members turned out to this annual fete. After the services they proceeded to the basement of the church where the fete was completed with a basket dinner. Noble F. Gray is Noble Chieftan of the Brotherhood and Mrs. Sophonia Bouyers is Sister Chieftan of the Sisterhood.

## One Night in Paris

By Clara Fant

Gayety, soft lights, music and dining comprised the "One Night in Paris" sponsored by the Kyles A. M. E. Zion church at the Roadside Settlement, on Friday evening May 26th. Ten tables were colorfully decorated with flowers, and were presided over by hostesses dressed in Spring and summer formals. The one hundred or more guests dined to the old and sentimental strains of "That's How I Need You," "You Made Me What I Am Today," and "Oh Sorry Dear," played by Clara Fant. This was followed with the presentation of Sarah Steele, who opened the program with a community sing. Selections used were "Let Me Call You Sweetheart," "The More We Get Together" and "We're from Iowa."

#### Program

Ralston Patten, a student of voice at Drake University, swayed the audience with his interpretation of "The Glory Road" accompanied by his teacher Mrs. Gréene of Drake. Calvin Dacus, also a student at Drake, did equally as well with his presentation of "Dedication" accompanied by Roberta L. Maupin. Other numbers on the program were Georgine Mason, who gave an instrumental cello solo, accompanied by Miss Maupin, and the little Kelly children, singing several spiritual numbers.

#### Appeal Was Made

At the close of the program, the audience was held in awe as Mrs. Georgine Morris in her appeal for memberships to the N. A. A. C. P. told some of the gruesome details of the lynchings in the South, and of the fight the N. A. A. C. P. is making for the passage of the Anti-Lynching bill. Mrs. Morris is vice-chairman on the branch and a constant in the membership campaign. Rev. P. M. Marshall gave a few remarks and Mrs. Margaret Patten presided. This affair was directed by Mrs. Belle Williams.

#### FAIR TO OFFER PRIZES FOR HOUSEWIVES

Des Moines, Iowa, June 1, Special: Iowa housewives will be awarded state championships in nearly five hundred different classes of cooking, canning, pickling, sewing and other home-making arts at this year's Iowa State Fair, August 23-September 1. According to the final list of women's prizes at the coming Fair announced today by exposition officials.

The cooking, canning and baking contests which were eliminated at last year's state fair to make way for the Territorial Centennial, have been reinstated for the 1939 exposition, with 218 different classes of competition open to the state's culinarians.

#### MISSOURI COURT HEARS RE-ARGUMENT IN GAINES LAW SCHOOL CASE

Jefferson City, Mo. May 26.—A hearing in the famous Lloyd Gaines case to determine what action the State of Missouri will take to carry out the recent mandate of the U. S. supreme court, which ordered the University of Missouri to open its doors to Negroes, was argued here May 22, before the state supreme court.

Counsel for the university contended in a new brief filed with the court, that the Taylor bill, recently signed by Governor Stark, which authorizes the expenditure of \$200,000 to establish graduate schools at Lincoln university, is the answer to the high court's mandate, and that Gaines should now bring action against Lincoln university.

Pointing out that it is physically impossible for the state to comply with the Supreme Court decision before September, when the new school term opens, Charles H. Houston and Sidney Redmond, asked the court to issue a writ of mandamus against the trustees of Missouri, ordering the university to open he school for Gaines.

#### LAST MINUTE COMPROMISE MAKES COMMENCEMENT EXERCISES POSSIBLE AT HAMPTON

Hampton Institute, Va. June 1 — Only last minute compromise between striking students and President Arthur Howe made possible the carrying out of commencement exercises at Hampton Institute Monday. The strike grew after the dismissal of James Ivey, professor in the English department by President Howe, May 13th. After being informed of the dismissal a student committee was denied an explanation of the young professor's dismissal.

#### Second Strike

The strike was the second at the institution within ten years, the first in 1929, forcing a temporary shutdown on the school. According to terms of the compromise, Ivey was denied reinstatement, but was given a year's salary. The strike was based on charges ignored by the institution for years, that is the presence of too many whites on the faculty, inefficiency of President Howe, the practice of the school in employing whites whose education is not equal to that of its graduates, and the failure of administration to regard the students as rational beings.

## Bird Sense

Many sportsmen and naturalists credit birds with reasoning power because they learn from experience they point out that an experienced pheasant, for instance, is very difficult to flush. The bird learns that any noise coming toward him may be a signal of danger and instead of flushing, he will creep along the ground, or run refusing, until forced, to run into the air where he might become a target for a sportsman's gun or a bird of prey for this reason, spaniels are the best dogs for hunting pheasants. They will crowd the bird until it flushes instead of pointing him.

## Why Prefer Particular Colors

Each of us has a preference for some particular color, but not all of us know why. A slight knowledge of the meaning of color will help us analyze our likes and dislikes. It is wise to consider the characteristic properties of individual colors before we proceed to change the color combinations in our homes. Red, for instance, symbolizes vitality, energy, power. It is highly stimulating. Blue signifies tranquility. Psychologically, its influence is quieting. Yellow symbolizes light, cheerfulness. Green soothes, yet exhilarates.

## Confidential TO MEN ONLY

GEORGE: What the heck happened to your Uncle John? He's tall! For years it was gray; he looked old. Now it is jet black and he looks 15 years younger. I can't understand it!  
HENRY: It's supposed to be a secret, George, but I'll tell you. He colored his hair with Godfrey's Lariouse. Yep! ... and "Judged" a little on his age - got himself a good job. Better watch out, George. Uncle John might steal your girl friend.  
If your hair is peppered with gray? Is your out of a job because "you're too old"? Are you losing out on the "tomorrow" - good times - because you look too old to join in the fun of the younger set? Then do what thousands of men have done - use Lariouse, the hair coloring that makes hair safe, always uniformly colorful and takes years off your looks. ## Entrenous

From our Foreign Correspondent— "With dances, dinners and picnics galore; We celebrate this holiday once more."

This day brought back so many memories... not only of the dead "An old flame never dies" Didn't take you long to find that out M. H. and C. D. eh! "Uncle Bill" what's between School and Keosauqua that keeps your car parked there... The passing of "Ace" Oliver took a grand fellow and a swell piano player... Why can't some of our nice people be as consistent in their niceness as some bad people are in their badness???? Compliments to Morton (Knotty) Graves, Jimmie Scott and Jack Manuel for the grand showing of the Drum and Bugle Corp in the Memorial Day Parade... It was a grand sight to behold... Who is "Frigie" and "The 11th Street Terror"???? Three guesses and no more... Ask Bill A. about his new invention "Light for a better view"... Quite interesting... Why did all the North High boys duck the "Y" track meet??? Were they afraid of being embarrassed by Bob Vandever??? What popular bachelor uses the phrases "Are you apologizing, bragging or confessing"... What will happen to a lot of fine romances when the college boys and girls get back??? A picturesque sight N. Robinson and M. Mann in shorts... How's that new son Louis T??? Bob White who were you talking to so earnestly Saturday night? Art Edmunds seen at the track meet teasing everyone in sight and pulling his childish pranks... Bill Ware wants to go to Lincoln U. next fall... Good luck Bill... Odessa G insist she has only one boy friend... but can't decide which one it is... The great prophet says "It is better to have loved and lost than never to have loved at all" Now that A. C. is back I wonder what the other fellows will do... Noticed Tommy A. and a friend wishing they were back at the age of fourteen... too bad boys that time doesn't go backwards instead of forwards... Fred M. smoked seven cigarettes in fifteen minutes... Do all long distance calls effect you that way keep... Closing this week's gossip with this bit of philosophy... Beware of your so-called friends—they can do you more harm than your best enemy... The Sophia Tattler

Hamilton, L. T. Johnson, and Theodore Duncan.

G. A. L.—Would it be advisable for me to go north with my husband for the season. Would he be kind to me away from my mother?

Ans: Indeed he would be kind to you. He's your husband and your place is with him regardless of where his work carries him. Being a good chef as your husband is, will make it possible for you two to tour the country each year. His services will be in demand continuously.

R. C. B.—I feel that I must make a change just as soon as possible. I am cramped and dissatisfied and do not know which way to turn and would appreciate any advice?

Ans: Pack your baggage and return to Chicago. You did make a miserable mistake to leave and come here and the only way to right this wrong is to go back. Conditions were quite differently than what you believed them to be... this you will find out immediately upon your arrival in Chicago.

SPONSORED BY LARIEUSE BEAUTY FOUNDATION

The Larieuse Beauty Foundation was established by the Godfrey Manufacturing Company to study methods of preserving women's natural beauty, and to make the results of this research available to the public.

I have just come back from a flying trip to Chicago and I simply must tell you about it. The word "flying" is used literally because I flew up on a Chicago and Southern Airlines plane by an enthusiastic group of friends, among them Mrs. Marjorie Stewart Joyner, president of the National Beauty Culturists League, Inc., who presented me with a beautiful bouquet of flowers. The purpose of the trip, of course, was to attend the convention of the National Beauty Culturists League the week of September 2. Besides the excitement of the plane ride (I must confess it was my first time in the air and I was a bit nervous at first), there was a parade and a series of dances and other social gatherings along with the serious work of the convention.

The convention, itself, was a tremendous success. The National Beauty Culturists League has been a powerful influence in the upbuilding of the industry. Its purposes, you know, are to encourage continued improvement of methods of treating the hair, scalp and skin; to gather and distribute scientific information regarding the care of the hair, and to establish Race relations between individual hairdressers and various systems of hairdressing throughout the country.

Ans: Yes, indeed you will. But the very first thing you should do before starting the trip is to see a minister. Marriage is very important for two people who love each other and want to live together... don't make a foolish mistake of going along without doing so.

J. C. F.—My very heart is broken because I have been misunderstood. Tell me, pray where did my husband

Ans: Nothing whatever... your worries are absolutely groundless. His night out wasn't with women, but he did have a little fun with the boys down on the Avenue. This is just his way of getting even so refrain from misunderstandings in the future.

Ans: stay so late last night and is there anything between him and anyone else?

Ans: Yes, indeed you will. But the very first thing you should do before starting the trip is to see a minister. Marriage is very important for two people who love each other and want to live together... don't make a foolish mistake of going along without doing so.

More than three hundred licensed beauticians, owners, proprietors and managers attended the convention. There were fifty booths representing the local and larger beauty shops. There were demonstrations and lectures for the thousands of spectators on the progress and newest innovations in Race beauty culture.

I am terribly enthusiastic about all this because I think our own system of beauty culture is of utmost importance. To be truly successful in the field of cosmetology we must have our own methods, our own make-up and cosmetics, made especially for our types of skin and colorings, and manufactured expressly to suit our varying needs. Such marvelous strides have been taken in this direction that I am delighted. The plane ride was just the beginning of my excitement. I am still thrilled to death.

THE N. A. A. C. P. DRIVE

The annual membership drive of the Des Moines Branch, N. A. A. C. P., began on May 15th and closes June 15th. The quota assigned by the national office for the local branch is \$200.00 which necessitates the securing of more than three hundred memberships ranging from one dollar or more. Last year more than three hundred memberships were secured and for two years the quota assigned the branch has been met.

Everybody ought to know something about the N. A. A. C. P. but the fact remains that they don't; not even all colored people don't know about it.

However, when one checks the record and learns that 12 out of 13 civil rights cases which have been appealed to the United States Supreme Court have been won by the Association, among which are those denying Negroes the right to vote, to buy property in decent location, the right to secure a complete education within the borders of their own states, one must admit that this is a splendid average and demonstrates that not only is the cause just, but the litigation has been handled in a very intelligent manner.

William Pickens, field secretary of the Association, stated in Des Moines that the National Association was not only for the advancement of colored people, but for the white also. This can best be shown by the fact that several hundred white people join the Association yearly and have done much to foster it's work.

Everybody interested in securing for minorities a fair administration of all laws in the country whether he be black or white ought to be willing to spend at least one dollar a year in this cause. The Bystander hopes that the drive will be highly successful and again Des Moines may be listed among the branches that have met their quotas.

MOB RULE UPHELD

The two white men in Florida who shot to death a Negro taxicab driver, who accidentally ran down and killed their brother, have been acquitted in the circuit court of Deland in spite of the fact that the prisoner was in the custody of the constable at the time he was shot. It appears that their acquittal came about because of the lack of identification. Of course, anybody acquainted with mob ruled communities know that this was not the case. They just simply did not want to go on record of convicting a white man for slaying a Negro under these circumstances.

No doubt the matter will be dropped. The men cannot be tried again but it does prove

Health Hints

By Dr. C. R. Bradford

HOW TO PREVENT THE SPREAD OF THE GERM OF TUBERCULOSIS

Tuberculosis is caused by a germ, which may grow in a great many parts of the body although it is more likely to be found in the lungs there by causing tuberculosis of the lungs. The course of the disease is very slow, and it may take months or years to develop. When the germ is first gaining headway against the natural defense of the body, the person becomes to feel tired and weak, to lose weight and appetite, to feel feverish toward evening, and in the case of tuberculosis, have a cough that does not yield to treatment, if proper steps are not taken to prevent the disease, it continues to grow worse.

People between the ages of 18 and 45 suffer particularly from tuberculosis. This germ in the spray and sputum coughed out by tuberculosis patients, and in most cases of the disease, infection results from getting these human discharges into the mouth.

To prevent the spread of tuberculosis, it is necessary, first of all, to prevent the spread of the germ discharge from the mouth of the tubercular patients; and second, to pasteurize the milk of all cows not known to be free from the disease.

The careless tubercular patient is a great danger to his family and associates but one who is always careful to destroy the sputum and to avoid coughing out mouth sprays into the air, need not be a menace to the health and life of others. Tubercular patients should always cough into a cloth handkerchief or a paper napkin which can be burned, and all sputum should be received in paper cups and burned each day. If handkerchiefs are used, they should not be put into a laundry bag or basket with other soiled linen, but should be boiled for twenty minutes in a strong soap and solution, or soaked in a weak lysol solution for forty-five minutes.

All rooms or apartments that have been occupied by persons suffering from tuberculosis should, upon the removal of the patient be thoroughly cleaned and renovated by airing and exposing to sun light, if possible, by washing woodwork and plain furniture, and by scrubbing the floor with soap and water. Renovation or repapering and painting is also desirable.

Now that the celebration of Memorial Day is over, we can turn our minds to the many thousands of boys and girls who on June 8th will make their first step in life, when they receive their certificate of learning from the different high schools all over the country. Many are too young to be called men and women and yet too old to be called children.

Proud mothers and fathers will through the school auditoriums on this evening to see their son or daughter graduate, probably it's the first, then it might be second, third or fourth child, but no matter how many have gone before the pride and joy of graduation have not lessened in their hearts.

There are approximately forty-five Negro students who will graduate from the Des Moines high schools in the June class. Some will be employed in the city while others will go to smaller or larger cities for employment or to continue in the great field of education.

We think that this is the happiest moment of any boy or girl's life, although many, through no fault of their own, never gain this point, so this column takes this opportunity to offer congratulations to all graduates and wish them the best that life can offer.

that the people of the state are unwilling to put down mob rule and the federal government does not have the courage to take a hand.

However, this case is accumulative evidence that some states will not put down mob rule, and that a federal anti-lynching bill is necessary before any assurance can be given that people who insist on taking the laws into their own hands will be punished.

MAN TO MAN Did you ever think what life really meant, that its not here that stay is only lent, Its just one of those things that is what ain't and if you live right you may end up a saint, There's hardships and worries to struggle through, There's the strifis of life, everyday you must do, Its just one big worry from day to day, All one can think is whom do I owe Whom shall I pay, Did you ever think that we all are the same, Poor man, Rich man, Oh yes! some gain fame, Some easily grow big in their walks of life, Others gain theirs by hard work and striff, Woe to the man that goes through life, without seeing one hardship or For he's the man not worthy of life, God bless the man who toils with mop and pail, for he's the mkn who by the sweat of his brow makes his bail, God bless the man who toils weak in and week out, not six days but seven, for he's the man worthy of the kingdom of HEAVEN

Reindeer is Held Unique Among the Deer Family The reindeer is unique among deer in that the female, like the male, carries antlers, although they are smaller. It also differs from most deer in having young without spots, writes Ernst Schwarz in Nature magazine. The reindeer is the only deer that has become attached to man and has been domesticated. The range of the reindeer (the name being here used in its broadest sense) includes the Arctic portions of both the Old and the New Worlds. In America it is called the caribou. It is found in Scandinavia, Spitzbergen, northern Russia, Siberia, as well as in Alaska, most of Canada, Greenland and other Arctic islands. During the great Ice Age reindeer were forced much further south. In France and Germany their meat provided a staple food for paleolithic man, and their antlers and bones the material for his tools and weapons. Some of the rock engravings left in the caves of western Europe by prehistoric man include beautiful representations of this animal.
