VETERANS WHIRL

By JAMES L. HICKS
 NNPA Staff Writer

The National Association for the Advancement of Colored People has done more to advance the cause of the colored race than any other organization existing today. It is a great organization.

It is great because it is composed of little people who helped to make it great by giving it their time, since the war, in a gradual process of "letting down" one of the largest groups in that group of little people their money and their efforts.

But the NAACP is, an has been and a group which at times has been one of its greatest financial contributors—colored veterans.

During the war when discrimination against colored soldiers was being practiced all over the world, the NAACP seized upon the opportunity to raise funds among the men in uniform. It was a justified, well-timed, and profitable move.

No one will ever be able to say how much money the men in the fox holes donated to the NAACP, but the national headquarters said that in the peak year of 1945 their contributions totaled \$65,000. It is logical to assume that in the other war years the contributions were not much less.

Only those persons who have served in uniform and been discriminated against on far-flung battlefronts can understand the willingness of servicemen to give until it really hurts to an organization such as the NAACP.

A soldier is on an island in the combat zone. Somebody goes snoring around the tent of a white nurse, and shoots at a guard when he is detected. A prejudiced white officer suspects a colored soldier. He issues orders that all colored soldiers are to be disarmed. The dejected, disarmed colored soldier reads a well-worn colored paper from the states telling how the NAACP is fighting for the rights of colored men in uniform. He gets into a crap game, gets lucky, wins \$500, and sends it all to the NAACP.

Nor have servicemen stopped giving to the NAACP now that the

a tough time of it. He is the boy who needs counseling, who needs job service advice, who needs a house to live in. What is the NAACP doing for him?

The NAACP has a paid veterans secretary in Washington. His salary is in excess of \$3,000 a year. It's his job to concentrate on the problems of veterans.

From personal observation of the gentleman for a period of two years he not only has no clearly defined program for aiding veterans, he is not interested in their problems enough to remain in his office and attend to routine problems which veterans bring there. His activity appears to be limited to telegrams of "protest."

It's time for the NAACP to do a little paying off. Don't stop giving, Joe, but start asking a little for your money.

Swiss Government Modeled After U. S. Constitution

Switzerland, the mountain republic, observes throughout 1948, the centennial of her constitution. Consolidation of the 22 Swiss cantons (states) as a unified nation was achieved through the Constitution of 1848, which was modeled to a considerable degree after the Constitution of the United States. Principal difference between the Swiss and U. S. governments is in the organization of executive power. The Swiss president, elected from the seven-man federal council, serves only one year.

The right of presidential veto is replaced in Switzerland by the legislative referendum or popular vote. Swiss people vote directly for or against many important laws.

Switzerland's success in maintaining strict neutrality for more than a half century and remaining solidly secure through two world wars is due largely to her citizen army. On a per capita basis the Swiss under universal military training have the largest army in the world. A force of 250,000 could be mobilized overnight; 500,000 in 48 hours.

Historians look upon Switzerland today as a political miracle. Half the size of Maine, and with a population less than half of New York City, Switzerland has a people of

four different languages and diverse religious beliefs.

Although landlocked, Switzerland has built up an amazing mechanism of banking and international trade. The Swiss franc is the only currency in the world comparable to the U. S. dollar in stability.

Simple Methods Recommended To Remove Starch From Iron

Starched clothes are indirectly to blame for scars on many a hand iron household equipment specialists say. When starch sticks and bunches on the hot iron, there's a temptation to scratch it off with a knife or any other sharp utensil handy. The result is likely to be permanent scratches on the plate of the iron. Once scratched the iron may catch on fabrics and pull threads.

There are several simple ways to remove starch without damage to the iron. If the iron is hot, do it this way: Shake salt on a piece of paper and rub the iron back and forth over the salt until the starch rubs off. From a cool iron starch may be removed by scouring with very fine steel wool or with a moist cloth dipped in fine scouring powder. Sometimes just rubbing with a moist cloth will do the job.

As a prevention against sticking starch, rub a little beeswax or paraffin frequently over the hot surface of the iron. Well-cooked starch is less likely to stick than starch which is not thoroughly cooked so it pays to prepare it carefully. A wax preparation to add when making up starch is on the market which helps prevent sticking and makes ironing easier.

Some experienced housewives believe that adding salt to the starch mixture helps keep it from sticking, perhaps because the salt raises the temperature of the mixture and thus aids through cooking.

Card of Upholstered Furniture

The care and cleaning of upholstered furniture is a routine task, if it is kept clean and free of moths. It should be brushed thoroughly at least twice a month. Use a vacuum cleaner on upholstered goods except where the cushions are down-filled; this will keep the material free from dust and help to eliminate the danger of moths. Thoroughly brushing the upholstered furniture will break up the eggs. When brushing, pay particular attention to seams, pockets, creases and the back of the furniture. Remove the loose cushions and brush as deeply as possible in the spaces between the seat, the back and the arms. This should remove the breeding places of moths.

Causes of Farm Accidents

Many accidents occur in farm homes. Among the causes for these accidents are faulty steps, failure to keep steps clear of mops, brooms and tools, failure to observe safety precautions in the installation and use of electrical equipment, failure to have stair carpeting properly anchored, failure to keep sharp knives separate from other knives, failure to use a stepladder instead of a chair and failure to have a safe storage place for bicycles, wagons, scooters, skates and other playthings.

Safest Playground Colors

Beauty can take the best out of potentially dangerous play equipment for children. Safety experts point to a recent study made by a paint manufacturing concern which shows that beautifying playground equipment also can serve to make it safer. Slides should be painted green, which counteracts excessive sunlight. Slips leading to the top of the slide should be yellow to draw the child's attention and make him more careful when climbing up. Youngsters are less likely to be struck by seats or rings of swings if seats and rings are painted yellow, giving greater visibility. Green is best for ladders and overhead bars.

D.C.N.—While I was on my vacation this summer I met a man and before I knew it, my heart started playing tricks on me. I could tell that his heart was missing a few beats too everytime we were together. I fined I can't forget him. Advise me please?

Ans: It's all over now—put this summer flirtation out of your mind. You're nursing a guilty conscience instead of a broken heart which is the natural consequence of a married person who puts herself in this position. If you can't resist temptation better take your husband along with you next year.

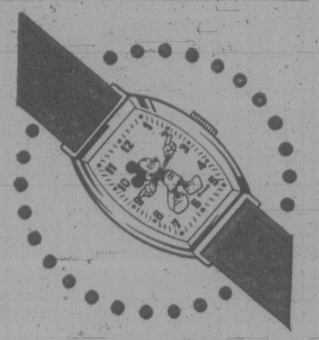

F.C.M.—I have worked hard the past eight years and managed to save a nice sum. I want to open a beauty shop of my own. I am a licensed operator. I now find business is dropping off in this line and I am wondering if it wouldn't be best for me to wait a while longer before I give up my job and start out on my own?

Ans: A wise plan, I think. You have an exceptionally good paying job and have managed to live comfortably and saved a good sum of money so don't give it up as long as you feel dubious about venturing into business for yourself. Make your plans and when you feel sure of yourself, branch out on your own.

X.B.A.—As an old friend, I am again turning to you for advice. I am madly serious about a girl who is a sophomore here in college. I like her more than any girl I have ever known. I wrote and told her how I felt and she answered say-

ing that she was sorry, but she did not feel the same, but liked me only as a friend. I haven't said anything to her since we returned this fall. I don't want to make a fool of myself. She meets my requirements in every way. Please advise me?

Ans: Your declaration of love surprised her. Had you been dating her from time to time and led up to the subject gradually, she may have responded differently. Coming suddenly as it did—it was a shock—and she didn't feel that you were serious. Why not ask to date her on some special occasion (there at school)? Date her regularly if you can and avoid getting serious until she has had the opportunity to know you better. She may change her mind.

GOV. DEWEY

The Republican campaign is well under way with the headquarters set up and moving in high gear.

Most voters heard Gov. Dewey in Des Moines September 20; President Truman on September 18. Many saw them, which offered an opportunity to size up the two men. It is quite apparent that Gov. Dewey appears, as well as demonstrates, by the excellent job he has done as governor of New York, as one who can be trusted to lead this nation.

The Republican National Committee has prepared an excellent pamphlet which recites Gov. Dewey's record on Civil Rights in New York state. It is startling to those people who don't know the facts how Gov. Dewey has given high class recognition in big jobs and with a fair employment practice measure, which is working satisfactorily with a minimum of friction, is taking care that the little fellow gets a decent chance to work and live according to American standards.

It is true that President Truman and Henry Wallace have said much about Civil Rights. Some people have been "carried off their feet" about what they would do but Gov. Dewey's record tells what he has done.

So when those people who have become weak kneed on account of the glittering promises they are making, this splendid pamphlet will be a complete answer.

SENATOR WILSON

There is a lot of misconception concerning Senator George Wilson's voting record when the FEP was before the senate. Some have charged that he was absent and did not support the measure.

The Congressional Record of the 79th session states on page 10512, 1945:

"Mr. Willis: On this vote, the senator from Iowa (Mr. Wilson) and I have a joint pair with the junior senator from S. D. (Mr. Bushfield). If the junior senator from S. D. were present he would vote 'nay'. If I were permitted to vote, I would vote 'yea', and if the senior senator from Iowa were present, he would vote 'yea'. I therefore withhold my vote." Senate file 101 (FEPC), Wilson voted 'yea'.

This means that even though Senator Wilson was absent, the record shows that he was paired in favor of the measure which killed the vote of a senator opposed to it. The NAACP Bulletin for that date also states this fact.

As a matter of fact, although in a quiet manner, Senator Wilson has supported measures of best interest to the Negro and often calls upon his Negro friends in Iowa for advice as to the best course to take.

Here, again, a Republican candidate—Senator Wilson in this instance—has a record of what he has done and now that he is a candidate for reelection, he should have the support of those people he has helped—they must not vote him out of office.

STATE RECOGNITION

More Negroes are employed at the State House in Des Moines than ever before; more were employed in the last session of the legislature. They hold better jobs than ever before, and with credit to themselves and the race.

There was a time when Negroes scrambled over a few janitor and maid jobs in the legislature. It was and is no disgrace to hold these jobs, for they are important. But it has been encouraging that legislators coming to recent sessions have asked for a "white collar" job, for a constituent. A representative made one request to the patronage committee and that was that a Negro constituent from his county be given a job, and it worked.

Iowa Republicans, like enlightened people all over America, have come to realize that Negroes are entitled to and expect to get representation in everything that goes on that Negroes no longer care to line up with those people who need their services on election day only. In proportion that Negroes do their part and the party is controlled by the type of Republican leader which has run the organization for the past few years, they will continue to be recognized in everything the GOP does.

WE CAN'T UNDERSTAND RUSSIA

It is difficult to understand Russia's attitude toward co-operation with the western allies. Maybe there are some hidden reasons about which we have no knowledge.

The Russians have done everything imaginable to aggravate the

Berlin situation during the western powers to do something about it. If ever there was such a thing as a nation carrying a chip on its shoulder, this is one.

ARLINGTON PUPILS REFUSED AT WHITE HIGH SCHOOL

George school board had "maliciously demoted" the principal of the King George Training School, the vocational science teacher and the commercial science teacher and made them assistants to their white counterparts at King George High School.

The Petition for the "show cause" rule against Gloucester School officials listed improvements made in the colored schools of that county, but asserted that those officials "have made no serious effort" to comply with Judge Hutchison's order for equalization of school facilities.

Arlington, Va. (NNPA)—A group of colored children, September 13, were refused enrollment in the Washington-Lee High School for white pupils.

Nine parents of the children who sought to enroll said that facilities at the Hoffman-Boston school, Arlington County's only colored high school, were not equal to those at Washington-Lee, and for that reason they wanted their children enrolled in the white high school.

Claude M. Richardson, principal of the Washington-Lee High School, denied the children admission on the basis of Virginia's Jim Crow law.

Similar delimitation recently have received the same answer from school officials in Virginia's Gloucester and King George Counties.

Schools in both counties are under fire by the Federal District Court in Richmond to provide equal facilities for both races.

The situation in Arlington is different in this respect—county schools are under no court order to provide equal facilities.

However, Arlington is awaiting the outcome of a suit filed last September in the Federal District Court at Alexandria by 16-year-old Constantine Carter, of Arlington, who sought and was denied admission to Washington-Lee.

Miss Carter's attorney, Leon Ransom, said he personally hopes the court, after reviewing the Carter case, would follow the Richmond decision and order Arlington to provide equal school facilities.

The nine-member delegations visiting Washington-Lee quietly waited outside the main entrance while one of their leaders, James B. Cobb, an associate of Ransom, talked to Richmond.

Earlier, Cobb and Julius B. Lee, another associate of Ransom's, had inspected the Hoffman-Boston School to see if its facilities matched those at the white high school.

Not Begun to Equal

They reported "facilities have not begun to equal" those at Washington-Lee. Attorney Ransom declared their findings probably will be added to files on the Carter test case as supplementary evidence.

BIG TOWN

New York (NNPA)—Joe Louis, the champ, Ben Bailey, the Theresa doorman, and this writer were having a "sidewalk session" in front of the Theatre the other day when the talk turned to the recent discrimination against the Ethiopian minister at staid old Constitution Hall.

Roy Wilkins, the NAACP didn't like the news stories announcing Walter White's year's leave of absence with pay because the stories said Walter would stick around a month to "teach" Roy the job. Roy feels he has been Walter's lieutenant long enough to already know the job.

HEALTH FOR ALL

ASTHMA

Attacks of asthma, a disease affecting the bronchial tubes of the lungs, are usually frightening experiences. During attacks, the asthma victim has great difficulty in breathing and seems to be suffocating as he summons all his strength to force his breath in and out.

Most cases of asthma bring extreme discomfort, rather than immediate danger, to the sufferers. At the same time, repeated and severe attacks can stretch the lung tissue and even damage it permanently and place an extra burden on the heart which has to work more vigorously to force blood through the injured lungs.

So it is wrong to assume that all cases of asthma are harmless. The asthma sufferer who allows his illness to go untreated and fails to seek good medical advice is taking an unnecessary risk.

There are different causes of bronchial asthma but most cases are caused by an allergy on the part of the victim. The person may be allergic to any number of substances, including certain foods, animal hairs, fur, feathers, cosmetics, dust or pollen. Frequently, asthma may flare up when the sufferer is exposed to his victim is allergic to renewed attacks.

The person who suspects or knows he has asthma should consult his doctor for many reasons. First of all, there are several illnesses with symptoms resembling those associated with asthma, among them heart disease and other disease of the bronchial tubes. Only a good doctor can make an accurate diagnosis of what the illness is.

Second, a person with asthma should receive certain tests to find out what is causing the illness and the attacks that it brings. In addition to these tests, the sufferer must and the doctor in "detective" work by furnishing his doctor with

information on the history of allergy in his family, his occupation, where he lives and the time, place and length of his asthma attacks. A study of these facts, plus any laboratory tests, he might think necessary, often help the doctor find the underlying cause of the patient's asthma and so prescribe the correct treatment for it.

There is no need these days for a victim of asthma to go on suffering in resignation, because modern medical treatment by a good doctor will relieve the suffering and frequently cure the illness.

Asthma may occur at any age, but it most generally starts during childhood or early maturity. It is estimated that about one-third of all cases of asthma begin in childhood under ten years of age. A child who "whoops" or frequently seems to have difficulty in breathing, should be taken to the doctor at once. If the doctor finds that the child has asthma, he can relieve his discomfort immediately and prescribe the proper treatment before it causes greater suffering or results in more serious illness.

Big Nine Football

George Taiter of Indiana started off at a pace that if he can hold it will land him on somebody's all-star team. No one was more surprised than this illustrious scribbler to see the name of Jim Holland listed among the Northwestern array of backs.

Last year Jim was a big help to the purple. Don't know just why he didn't get on this time. Maybe he dropped out of school.

Illinois' Paul Patterson also got away to a flying start. Maybe, this year will see some Negro backs on all-Western or all-conference clubs. Surely out of the bunch which includes Ohio State's Jim Clarke and Michigan's Gene Derrickotte, at least we should find one.

Just to prove our oft repeated argument that there is nothing new in football, along comes Notre Dame with two quarter backs. Hasty research brings out the fact that there were a lot of teams using that stunt. A bunch of us kids clowned with it ourselves. Ronzo Hayes and yours truly used to both grab for the ball from Center Effie Perry way back when.

Looks like Yale's Levi Jackson has decided to "oust someone" for all-American honors.

Locals

We watched in dour silence as East High's Bob Trumbo did his best against St. Ambrose, of Davenport. There probably won't be many if any Negroes on the All-City high school team this year.

Negro Colleges—We use this section of gridiron results just as we speak of Big Nine or local football, so we hope nobody gets any ideas.

Wilberforce State had one of the top teams of the nation last year. The State boys started 1948 by taking North Carolina A & T-13 to 7, Florida W & I and Bang State A & M got rained out. Half used to play even in snafus. Howard kicked Bluefield State 21-0, while Kentucky State walloped Ft. Knox 61-7. Lincoln hit the sixty-point jackpot on Army Chemical Center 60-0. Miss State cut down Tennessee 34-0. While that's going on, many Arkansas State and Texas college teams. There are even two San Houston colleges in Texas. How can we tell which is which. Langston beat Bishop 13-0.

Miscellaneous

Did us good to see the glowing things in print about Cleveland's Larry Doby. He has been a big help to the Indians in their pennant drive. So has pitcher Paige. Too bad the Dodgers couldn't make it. Will someone please make an official announcement that the Hilltop club season is over? Last week it was Omaha. The club will meet Friday night at the Crocker Y.M.C.A.
