spot in Palestine that night, Bunche made a full record of the proceedings, interrupting now and again to ascertain an exact date or fact.

Probably no other man ever held such an important world post as that which has now fallen to Bunche. His word is an order for 300 white officers, including generals, from the armed forces of the United States, France and Belgium.

His staff runs it up this way: He will never let Bernadotte down.

Bunche neither soft-pedals nor aggressively asserts his racial identity. His brown complexion is lighter than that of many with whom he has negotiated in the Middle East.

Born in Detroit, Bunche moved with his family to Los Angeles, getting his college education by work—(See EDITORIAL Page)

N.Y. Governor Has Shown That GOPs Can and Will Grant Full Citizenship

President Truman knows as well as every other intelligent person, that he cannot stop southern Democrats from lynching colored citizens.

In a scathing denunciation made before members of the colored press, Mr. Washington declared, "The Democrat Party is controlled by the south. One hundred five of the 186 Democrat members of the House of Representatives hail from the rotten boroughs of the South.

These powerful Democrats, who control 22 of the important 33 important Committees of the Congress, have shackled and handcuffed the President. Even if he were sincere, President Truman is utterly powerless to put over any program of "Civil Rights".

Mr. Washington further added, "It is hard to understand why people with common sense would fall for the offensive bunk and milk sop that

the Trumanites are now spouting off to colored voters, especially so when President Truman, himself has never denied the story that appeared in the Washington Herald Tribune on September 14, 1948.

"President Truman comes before the colored electorate with poor grace," said Washington, when he ignores such quotations as the newspapers are charging him with. "But even if the President is innocent of making such statements, still he cannot put on any plan for 'Civil Rights'... own party, hailing from Mississippi, Georgia, Alabama, South Carolina, Louisiana and the other benighted southern States, would filibuster his program to death."

JOE LOUIS TO MEET MERRIT L. WYNN

Atlanta, Ga. (NNPA)—Joe Louis, world's heavyweight boxing champion, will meet Master Sergeant Merrit L. Wynn and one of his sparring mates three rounds each when he stages an exhibition at Herndon Stadium here October 28.

SOPHIE TUCKER PAYS TRIBUTE TO RACE ADVISER

Accept Students at Maryland U. On Basis of Ability

Baltimore (NNPA)—Race no longer is a factor in the admission of students to the graduate and professional schools of the University of Maryland, the university's board of regents said in a statement issued in their behalf last Friday.

"Students applying for admission to the graduate and professional courses and degrees of the University of Maryland are now being accepted on the basis of their educational qualifications, character and other factors that are common to the admission of all students, regardless of race, color, or creed," the statement said adding:

"This is the present policy of the university as indicated by the president's explicit instructions to the deans of the professional and graduate schools.

"However, the board feels it should point out that it is not a legislative body. It derives and administers its power as a result of the laws and appropriations made by the State Legislature.

"It has been the practice of the Maryland General Assembly to appropriate funds for colored schools and white schools in the public school system and to appropriate funds for either education for colored and white schools within the State."

"The board is very anxious to provide to the Negro race every facility for education above the public school system which is enjoyed by members of the white race."

Jewish Terrorists Warn UN Mediator, Dr. Bunche, That He Is Marked for Death

TEL AVIV (NNPA)—Although warned by Jewish terrorists that he is the next man marked for death, Dr. Ralph J. Bunche, former professor at Howard University, Washington, D. C., the son of a barber and grandson of an American slave, calmly kept the lid on the Palestine truce.

Dr. Bunche, 44-year old former assistant to Count Folke Bernadotte and now acting United Nations mediator since Bernadotte's assassination, proved hard to scare.

"It was the Count's policy not to request personal protection but to leave it to the responsibility of the Jews and Arabs to determine what protection was necessary," Dr. Bunche said here before leaving for the United Nations General Assembly in Paris, where he has urged the Bernadotte proposals as a rough basis for a settlement of the Palestine

question—a settlement to be worked out in details by the Arabs and Israel.

"As an afterthought, he added: "If any threats come tomorrow I'll throw them in the wastepaper basket."

Appointed principal secretary of the United Nations Palestine commission on December 3, 1947, Bunche was the Commission's trouble shooter in carrying out the partition decision of the General Assembly.

Refused to be scared

Bunche's refusal to be scared had been revealed some six months earlier when a secret meeting took place between the commander of Irgun Zvai Leumi, the underground group, and the chairman of the United Nations Special committee on Palestine.

At the meeting, Bunche, which was probably the most heavily protected

Association for Study of Negro Life and History to Convene in 33rd Session

Washington, D. C. (NNPA)—The thirty-third annual meeting of the Association for the Study of Negro Life and History will have a two-fold purpose, Carter G. Woodson, director of the association, said last Monday.

"While it will bring together the most distinguished historians of the country for conference and discussions of matters pertaining to their chosen fields," Dr. Woodson said, "it will mark at the same time the close of the first third of a century of service in collecting and publishing the records of the Negro, that the race may not become a negligible factor in the thought of the world."

Formed in Chicago

The association was organized in Chicago September 9, 1915, and was incorporated in the District of Columbia on October 2 that same year.

From Washington as headquarters this society has published two magazines—The Journal of Negro History, a scientific quarterly for those

The association also has published thirty monographs on Negro life and history, collected and deposited in the Library of Congress more than five thousand manuscripts and trained a score of young men and women for research in the social sciences.

Annual Meeting

The annual meeting will take place at the Shiloh Baptist Church and the Phyllis Weatley YWCA, and it is sponsored by a committee of outstanding citizens with Dr. R. W. Brooks as chairman and A. G. Lindsay as secretary.

At the opening session on Friday evening will be an address on the "Negro Soldier in Massachusetts" by Prof. Lorenzo Johnston Greene of Lincoln University (Missouri), and another on the "United States Policy With Respect to the Negro Sol-

 You are on trial, the world is watching to see what the greatest number of enfranchised American Negroes will do with the ballot.

VOTE FOR HARRY TRUMAN

By ignoring your responsibilities you will dam the stream of racial progress. Think, under 70 years of U. S. administrations and influence we made no progress economically or socially. Today we have Negroes in many high administrative positions, many are earning more per day and on equality with others, than our forebearers earned in a week. The new day for us began with the New Deal. We will unite with Union Labor and march solidly behind Truman the first president in the history of the nation who had the courage to defy American race prejudices and demand equal and civil rights for all Americans regardless of race, creed or color. Remember he did this without a lot of fan-fare, it was many months before the committee made its report public. The entrenched Northern capitalists and Southern race-haters must be defeated, they are behind Dewey. The President must have a sympathetic Congress so elect former SENATOR GILLETTE and V. L. HIS PROGRAM HAS BEEN ONE OF NOTABLE ACCOMPLISHMENTS WHICH HAS INCLUDED "YOU"

As Governor of New York his record has been one of efficient, honest service to ALL people of his state.

Through the enactment of laws to protect workers in their right to employment, regardless of religious creed, race or origin. (FEPC).

The extension of the minimum wage law in New York so that over a half million employees in private industry are now protected; including equal pay rate for women for equal work performed.

A public housing program which provided homes for more than

one hundred fifty thousand persons who otherwise would have been compelled to live in unsafe and unsanitary slum dwellings.

The establishment of a vigorous health program which included free hospitalization for persons afflicted with tuberculosis, so that New York is outstanding as a State in public health and welfare.

These and many other benefits for the public good have been a part of the progressive program of Mr. Dewey while Governor of New York.

Let's Extend This Record of Accomplishments to Include the United States

SOCIAL SECURITY

The broadening of the Social Security Act so as to extend its benefits to provide more adequate facilities and to advance maternal and child health care so as to maintain our American standard of living. To provide equal job opportunities and just enforcement of laws so that certain classes will not be "the last hired and the first fired."

ANTI-LYNCH

The prompt enactment and strict enforcement of legislation that will guarantee safety of the person to all citizens against mob violence.

ANTI-POLL TAX

Legislation abolishing a premium on the right of franchise so that the requisite to voting will no longer be denied by any citizen. An administration pledged against intolerance and bigotry in civilian life, in government, and in our armed forces.

MR. DEWEY'S speech at Des Moines, Iowa, September 20, 1948:

"Millions of Americans, too, face the intolerable fact that because of their race or their color or the way they choose to worship God, they are denied rights which are their birth-right and which, by American principle and law, are their just due."

"We must work against intolerance and bigotry, against racial and religious discrimination."

HOW THIS BENEFITS YOU

"The proof of the pudding is in the eating." Dewey's record in New York has been one of outstanding achievement. In the administration of his program for the State of New York Negroes have been included and benefited. Hundreds of Negroes have been employed in the State government in jobs on the basis of their ability. This has resulted in their integration into the entire governmental fabric from judge to janitor. The enactment of the Dewey sponsored FEPC law in New York has opened thousands of jobs in private industry otherwise denied to members of minority groups.

The housing program of the State of New York has saved thousands of Negro families from rent sharks and slum dwelling existence.

The minimum wage law of New York has equalized the pay of women workers and made possible the earning of a living wage by women in the state which has included a large number of Negroes.

YES...

"The proof of the pudding is in the eating." Such a program inaugurated to include the United States will benefit millions of our people.

You owe it to yourself and to your children to support such a program both for yourself and for future generations.

Today America is at the cross roads—and so are Negroes—and we must choose the right course. Mr. Dewey's record points the way. On next Tuesday make certain that your decision is the right one.

PERSONAL TOUCH

By Marie Ross

Many persons about town are interested in or participating in as hobbies, some of the dozens and dozens of contests that are being sponsored locally and nationally over radio stations and through newspapers and magazines.

Very seldom are any of your friends or neighbors named in the list of winners. But just recently, on October 15—Mrs. Helena Elliston, former resident of Des Moines, who is now living in Ankeny, Ia., was notified that she was one of the ten winners of the "eleventh prize," an art-carved diamond ring, valued at \$100 in the Tom Breneman name contest.

The nationwide \$25,000 contest was to select a permanent name for Tom Breneman's magazine, launched the early part of the year. Over 315,000 entries came in. The prize-winning name which won the grand prize of \$5,000 was "Best Years," sent in by a woman in Ft. Collins, Colo. A statement of 25 words had to accompany the contestant's name sent in.

Mrs. Elliston sent in as her title for the magazine, "Our Best Years." She sent three entries in this contest.

Now that her farm season is just about over, she will devote her time to her main hobby of the winter months—contests. Her address is Rt. 1, Ankeny, Ia.

Speaking of contests, scores of friends in town are searching for that "mystery tune" and hoping

Get your treats and eats ready for the parade of Halloweeners who will be on the go this week end with songs, tricks and stunts to do for their neighbors.

Mrs. L. Jones out in West Des Moines rushed into town for some candy, cookies, peanuts and apples. She commented that her windows "are too hard to keep clean without soap on them—and you know what they look like with soap."

Children come from "seemingly forty miles around me on Halloween night," Mrs. C. L. Bogan, 823 E. 24th street, remembered as she planned to get something ready for her beggars night guests. She generally bakes cookies but they are "too expensive now," she said.

Mrs. Bogan is expecting a visit from her son, Paul, and his family who are due here now from Germany.

Popcorn and peanuts will be waiting for the Halloweeners at the J. H. Spriggs' home, 1060 Fourteenth street, Mrs. Spriggs revealed. If her little visitors have stunts for her, she will look and listen, but if they don't, Mrs. Spriggs won't complain.

Miss Jacqueline Purdy of New York City is in town this week demonstrating beauty products at the F. & W. Grand store downtown. "It's a very pleasing sight to see a young woman of color behind some of the downtown store counters—even if she is only demonstrating articles. She is stopping at the home of Mrs. W. M. Wilkinson, 951 15th street, until Nov. 6."

DON'T LET UP UNTIL THE VOTES ARE COUNTED

The 1948 election is just a few days away. Many a candidate has been defeated during the last few days of a campaign simply because his supporters were so sure of the outcome that they slackened up on the work they were doing, and the other fellow put on a final dash to score a victory.

Republicans must not be caught napping between now and on November 2, only to find the GOP outvoted. The only ones who can prevent this situation are Republicans.

This has been a rather quiet campaign. It has been an unusual campaign in that great issues affecting the whole world are at stake. And while civil rights has been written and talked about favorably by the leading party candidates the question of paramount importance is the probability or possibility of making good on the promises which have been made.

No candidate ever delivered all the detailed promises he made in a campaign. But if he tackles the general principles he advocates and does something tangible about them, he will have done very well. And the best judge of what a fellow can do in the future is his record of past performances.

Check the record of Governor Dewey. It discloses that he has an excellent record for having done things for Negroes in New York. See the pamphlet "Double Talk About Civil Rights."

Check President Truman's record. It discloses that he has done nothing for Negroes but talks about what he plans to do.

Check Mr. Wallace's record. It discloses that he, like Truman, talks of what should be done.

A majority of the public doesn't believe Mr. Truman is big enough for his job. Help translate that belief into votes.

ELECT A REPUBLICAN CONGRESS

A Republican president will be woefully handicapped without a Congress controlled by Republicans. Thus, it is mighty important that Iowa elects a full Congressional delegation to help organize and control that body. Governor Dewey needs it; he deserves it.

Admittedly, Senator George A. Wilson needs the help of all who want this country to go forward with Dewey. Regardless of what other may say, Senator Wilson has a good record on the Negro question. This has been explained in the leaflet "A Republican Record Worth You Vote." He stands high in Republican circles, is slated for an important post in the Senate should he be returned, and is one who must aid in the organization of a Republican controlled Congress.

GET THE PEOPLE TO THE POLLS

Generally, people who do the most talking seldom vote; there are disinterested people who never vote; there are those who, because of physical handicap, cannot get to the polls. It is the duty of Republican leaders and their friends to see that provision is made so that those people, especially the handicapped, not only are reminded but given such assistance as is needed to get them to the polls.

Voting is a privilege we people in Iowa enjoy without fear or intimidation. Some people in other states and countries long for a chance to elect their public officials who make, interpret and enforce the laws; who tax them, and who are supposed to protect them.

Unfortunately, some of those who have been denied that privilege in years gone by or have looked upon it as just another chore to perform, have neglected to take full advantage of what the country has to offer and by so doing, have failed to exercise the duty of a good citizen. This should not be allowed to happen.

SO ON NOVEMBER 2, GO TO THE POLLS, VOTE A STRAIGHT REPUBLICAN TICKET and elect an administration which will take America out of chaos and confusion and follow a road of unity, happiness, peace and fair play for all the people.

G.O.P. Only Hope
Colored Americans are now offered a splendid opportunity to gain a new birth of Freedom with the Republican Party, stated Washington, by electing Thomas E. Dewey,

President of the United States and by also electing a Republican Congress, minorities in this country will make forward steps toward fuller freedom. Mr. Dewey has already demonstrated, while Governor of the great State of New York, that Republican Party can and will grant fuller citizenship to colored people. He and his party are the only hopes in our struggle to eradicate second-class citizenship.

in menial jobs and as an assistant in political science.

Taking a BA degree he went on to Harvard where he became Director of Philosophy, doing his graduate work in anthropology and colonial policy at the London School of Economics and the University of Cape-town.

But Africa was the scene of some of his early achievements.

Fellowships gained at Harvard enabled him to make extensive journeys through West, North and East Africa, to study native conditions at first hand for the writing of these.

His second journey through East Africa was made in a second-hand Ford, and for three months he lived among the Kikuyus, in Kenya, as an honorary tribal citizen.

Native drums would announce his arrival before each stop, so that everywhere he was greeted with ceremony and feasting.

During the war he joined the hush-hush Office of Strategic Services in Washington and helped plan the North African invasion.

record. In six different places the United Nations Charter reaffirms itself unmistakably with a determination to establish equal treatment to all men and women—such equal treatment is now denied to people of color throughout the world today.

The charter further places upon the General Assembly, the obligation to initiate studies and make recommendations for the protection of human rights and fundamental freedoms for all.

"Wherefore, because of segregation and discrimination against minorities throughout the world and especially 14 million brown American, your Honorable Body is petitioned to go on Record as disapproving of the unnecessary and inhuman treatment of minorities all over the world."

The general assembly was presided over by Lawrence C. Howard who was elected chairman of that body. These two positions are the first such honors to be bestowed upon Negro college students anywhere in America.

HEALTH FOR ALL

TONSILLITIS

A sore throat may be a symptom of any one of a number of diseases, such as scarlet fever and diphtheria. Or, a sore throat may mean the tonsils are infected.

Acute tonsillitis is frequently, though not always, due to streptococcus infection. It may cause great discomfort and can be quite serious. The danger lies not only in the fact the infection from the diseased tonsils may spread to other parts of the body, but also to the fact that the body, weakened by tonsillitis, may have its resistance to other diseases lowered.

Aching pains and chills and fever often accompany acute tonsillitis. The temperature may rise considerably, and may be accompanied by chills. At the same time, the throat will be sore and difficulty will be experienced in swallowing. The tonsils become inflamed and enlarged.

Since the discovery of the sulfa drugs and penicillin, it has become easier to bring tonsillitis under control quickly. However, only the doctor knows how these drugs should be used in an individual case.

After the acute stage of the disease is passed, it is usually advisable for the patient to continue to rest for several days. The doctor will tell him when it is safe for him to go about his normal duties again. Until he has regained his strength completely, his resistance is lowered and he may fall easy prey to other diseases.

The doctor may advise having the tonsils removed after an attack of tonsillitis. The operation is never performed until the patient recovers from an attack; but it may be advisable then in order to avoid future attacks. Tonsillectomy is a very common operation today and there should be no hesitation about having it performed if the doctor so advises.

If there is an infantile paralysis epidemic in the community, the doctor may suggest postponing removal of the tonsils, unless the tonsil condition is so serious it outweighs the remote possibility of danger from polio. The doctor is the best judge of the hazards involved.

East High Friction?

The headline news for this spot seems to concern a couple of lines we wrote about reports of friction between Negro boys and the coach at East High.

Seems that several people, some Negroes among them; took exception to our remarks, and the editor of the Bystander was censored by some of the East High faculty.

When we heard that, we got in touch with the same faculty and wound up on the wire with Vice Principal Duke Williams. Mr. Williams told us in no uncertain terms that there had never been any friction between the Negro lads and Mr. Webb, the coach.

We cited some instances that we had heard and used a couple of names. The Duke promptly vetoes that as just idle gossip, and baseless rumors.

To quote Mr. Williams: "We have probably more Negro boys on our squad than any other school in the city, and I always ask them how they are getting along. They always say just fine. So you can see that there is no thought of misunderstanding between the coach and the boys."

We hope this is the true picture. We would not for one instant doubt the veracity or sincerity of Mr. Williams. But then, we walked right out into the street and into a girl who had just graduated from East in June. We told her the story. She said, "That's nothing. Some of the boys did have trouble and we lost some good Negro athletes because of it."

"Do you know what you are saying? Could you give us names?"

Letters from Our Readers

A bit of prose . . . a line or two of poetry . . . a letter now and then to express thoughts in the minds of our many readers.
Send Yours Today

I LOVE YOU

If you hear me calling your name
And, you think, "Yes, the voice is the same,"
If you feel me stroking your hair
Or standing beside your favorite chair
If you feel my lips caress you
You will know I haven't left you.
Dorothy Senecal,
Los Angeles, Calif.

"Sure," was her reply and she did so.

That's that, dear readers. Looks like a draw. But we did promise to consult the East High heads if anything like those rumors got out again. We might add that we don't write this column if anything like an attempt to cover all the news. The principal interest is getting the facts concerning mostly local Negroes before the readers of the paper.

good than all the pats on the back or words of praise we can give. So we then administer the kick. The boys sometimes get mad but usually it helps them and we are glad.

Since this column seems to be devoted to the preps, we'd like to see where Bennett of Mason City finally goes to college. A fine baseball player, one of the best throwing catchers in the state, good basketball player and now making a bid for all-state honors in football, the lad will make some college coach mighty happy.
