'United States Is Great And Wonderful Country,' Says Josephine Baker

New York, N. Y.—Josephine Baker left the U. S. last Saturday a little thinner, a little tired, but very happy over her history-making six-months tour of theaters and clubs. The exotic star of the world-famed Paris Folies Bergere told reporters aboard the French liner "Ile de France" that she is more in love with America and the American people than ever before.

"I think we understand each other completely now," the St. Louis-born singer said smilingly, when questioned on her reactions to the United States this time. Miss Baker became a citizen of France years ago. She lives in a 12th Century chateau near Dordogne, France, where she is going for a brief rest before starting a concert tour of the French Riviera.

"The United States is a great and wonderful country," she said. "I love France, because I found success there and a chance to develop. But I love America this time with a larger love for it and a new appreciation of the genius of its people. I shall never

Sandy Saddler to Fight Sept. 26; Randy Turpin in Sept. 12 Bout

New York (CNS)—In a battle of percentages, Sandy Saddler, world's featherweight champ, has emerged victorious. He'll fight Willie Pep September 26 at the Polo Grounds—but for the larger end of the purse. Pep finally agreed to 22½%. The original deal was for a 30-30 split, but Saddler wanted 40 and Pep refused less than 25. Eventually, Pep's manager, Lou Viscusi, announced, "Why worry about money? Just get us the fight."

Middleweight champ Randy Turpin, a really shy guy, is in America for the September 12 bout with Ray Sugar Robinson. All along the way aboard the Queen Eliz, Randy ducked speech-making, photos and well wishers, searching for a little peace and quiet. In America, he'll train at Grossinger's, with Barney Ross, a former champ, doing host honors.

One of the Negro basketball stars who admitted to fixing games, Sherman White, and LIU All-American center, is today driving a truck. Once he had a \$25,000 a year offer for his pro contract. But he'll never play pro basketball.

Delegates from 58 Cities To St. Paul September 3 for Urban League Conference

New York.—Six hundred and fifty delegates from 58 cities in 30 states are expected to attend the 1951 Annual Conference of the National Urban League to be held in St. Paul, Minn., September 3-7, it was announced by Maurice Moss, the League's associate executive director who is serving also as conference chairman. The League is the nation's oldest and only voluntary interracial service agency. The conference theme is "Matching Manpower to National Needs."

On Naval Leave

HARRY FLIPPING

Harry Flipping, third class yeoman in the navy, is spending a month's vacation with his wife, Mrs. Goldie Flipping, and grandmother, Mrs. Maude Wyatt and family. He is stationed at the naval base at Greencove Springs, Fla.

ference theme is "Matching Manpower to National Needs."

Mr. Moss stated that the four-day parley will feature outstanding speakers in industry and labor, social work and education, government and civic affairs, who will discuss the economic and social problems faced by all Americans today as we move to build a stronger America for the attainment of peace and security both here and abroad.

Role of The Press

The conference will open with registration on Monday, September 3, at the conference headquarters, Hotel Lowry. The first day's activities will include a press luncheon with Rev. Francis J. Gilligan of St. Paul Seminary and president of the St. Paul Urban League and S. Vincent Owens, the League's executive secretary, as hosts.

The conference program will highlight a series of panel discussions by experts under the supervision of five commissions related to housing, health, community service, industrial relations and vocational guidance, and general race relations.

"The Role of the Press in Promoting Interracial Service Agency. The conference theme is "Matching Manpower to National Needs."

Angell Daughters Fly from Jamaica Before Hurricane

Happily reunited this week with Mr. and Mrs. Edgar Angell, 1608 School street, were their two daughters, Thelma 9, and Sheila 6, who left the Palisades airport, in Kingston, Jamaica, a few hours before the early Saturday's hurricane flattened the British West Indies airport.

The savage hurricane that pounded the West Indies caused 100 or more deaths, and over 56 million dollars in damages, with its 115-mile wind and 17-inch rain.

So heavy was the rain when the two girls left the airport Friday, they had to be carried to the plane, Thelma described to her mother.

Mrs. Angell was in Miami, Fla., Friday evening to meet her two children she had not seen for two and one-half years. She has been in this country with her husband who last year received his bachelor of arts degree from Drake university. Mr. Angell, who has been here for over three years, is a student at the Still Osteopathic college.

Mrs. Angell is employed in the nursery at Still hospital. She had not heard from their relatives in Jamaica since the storm hit.

The children will attend school here this fall.

Search for Escaped Prisoner; "Shoot To Kill" Order

Chicago (CNS)—Harry Williams, a 25-year-old 6 foot 2 inch prisoner, will be shot on sight when Chicago police spot him hiding on a tenement neighborhood section of the south side. Harry has no shoes. He lost them during his escape. But Harry is loaded with a gun, stolen from a guard, 45-year-old George Tirely, whom he beat to death with a section of pipe before his escape from Cook County jail.

This is Harry's second murder, according to records. He was convicted of the purse-snatching killing of a 45-year-old woman last Christmas. Sixteen squads of police, ready to shoot on sight of Harry are patrolling tenement area and the railroad yard where they heard Harry was hiding in a boxcar. There's a \$1,000 reward—"dead or alive", but they don't expect to take him alive.

City Council To Keep FEPC; Praises Work of Commission

The Des Moines city council passed a resolution commending the Fair Employment Practice Commission on its work and continued it indefinitely.

The commission submitted a budget request of \$10,000 to the council but the item was not included because the status of the commission had not been determined by the council at the time for filing the request.

At the meeting Monday, the council assured the commission that when the budget appropriation ordinance was made, funds would be allocated out of the contingent to carry on operations.

The committee desires to hire a director and maintain an office so as to provide daily service for those who need it.

Rites Friday for Cecil E. Jeffers World War I Vet.

Funeral services for Mr. Cecil Edward Jeffers, World War I veteran, who died Monday at Collins Memorial hospital at Knoxville, Ia., will be Friday at the Bybee-Davis funeral home of that city.

He was the brother of Mr. Thomas Jeffers, Mr. Fred Jeffers and Mrs. Bernice Wilkerson of this city. Also surviving Mr. Jeffers is another brother, Forest Jeffers of San Francisco, Cal.; two sisters, Mrs.

Californians Arriving for Vacation

MRS. GLORIA T. VAUGHN AND DAUGHTER

Mrs. Gloria T. Vaughn, formerly Mrs. Jack C. Howard, and daughter, Gloria T. Howard, Jr., of Los Angeles, Calif., are shown arriving last Saturday at Municipal Airport via United Airlines for a few weeks vacation as the house guests of Gloria Jr.'s father and grandparents, Mr. Jack C. Howard and Mr. and Mrs. T. L. Howard of 1015 15th street.

Mrs. Vaughn is widely known in social circles of her city and holds membership in the Eastern Stars, Daughter of Isis, Child Guidance and Welfare League and in the Iota Phi Lambda Business and Professional sorority. She attended the University of California at Los Angeles and was pledged to the Alpha Kappa Alpha sorority on the campus. She intends, upon her return, to be initiated into a golfing and bowling organization, finding a variety of sports much to her liking. She is now employed in a key position in the department of water and power for the city of Los Angeles.

Gloria, Jr., is also widely known in her sub-teen set, holding membership in a Social Tots 'n Teens club

Mary Holmes of Washington, D. C., Mrs. Beatrice La Mar, Great Falls, Montana.

Pleads Innocent To Assault Count

Elias Lara, 67, of 711 S. E. Twenty-eighth street, pleaded innocent in municipal court Tuesday to a charge of assault and battery on his stepson. The stepson, Arthur Hill, 44, was treated at Broadlawns General hos-

originating from her elementary school, Virginia Road. She too, finds sports entertaining, and attends the University of Southern California, taking advanced swimming and interpretative dancing. She is also a student of the ballet and tap studio of Hollywood, Calif. After school and on week-ends she can be found on the tennis courts of her Mother's Alma Mater, Suzan Miller Dorsey High school, volleying across the tennis net with her mother.

This is the Californians second visit to Des Moines; however, Gloria was in infancy on her first visit.

pital Monday night for knife wounds in his throat. Police said the wounds were suffered during an argument between Hill and his stepfather.

Detective Chief Jack Brophy said Hill declined to file charges against Lara, but that police filed an assault and battery charge and ordered Hill to appear as a witness.

Judge Harry B. Grund ordered Lara released from jail to appear Monday for hearing. Hill also lives at 711 S. E. Twenty-eighth street.

Say Dixiecrats Owe 'Vote Of Thanks' to Rep. Multer Who 'Confused Liberals'

Washington.—The Dixiecrats owe Representative Abraham Multer (D., N. Y.) a "vote of thanks" for his part in defeating an antidiscrimination amendment to the \$1,700,000,000 Defense Housing Bill passed this week, the National Association for the Advancement of Colored People charged this week.

Clarence Mitchell, director of the NAACP Washington Bureau, asserted that Rep. Multer, who usually is listed as a friend of civil rights, "confused liberals on the floor" when Rep. Jacob Javits (R., N.Y.) introduced the amendment, which was defeated by a vote of 79 to 57.

In the Senate, Senators Paul Douglas (D., Ill.) and Irving Ives (R., N. Y.) made an unsuccessful attempt to write NAACP-sponsored anti-segregation amendments into the bill while it was in committee. The committee agreed, however, if the two senators would not offer their amendments on the floor, the report on the bill would contain the following language:

"Your committee expects that in the provision of housing by the Federal Government under this title and in the provision, or operation and maintenance, of community facilities and services assisted by this title there shall be equality of treatment of persons of all races, religions and national origins who are to be served by them."

Hits Ouster of 118 Negro Families in Tampa, Fla., to Build White Housing Unit

Tampa, Fla.—The Negro citizens of this city, spearheaded by the local branch of the National Association for the Advancement of Colored People, have voiced vehement protest against the ousting by the Tampa Housing Authority of 118 Negro families living in the area to be used for the Robles Park Housing project.

A resolution adopted by a general mass meeting at the St. Paul A.M.E. church and transmitted to the Tampa Housing Authority, the Federal Housing Administration in Washington, and the FHA regional office in Atlanta, called the dispossession of the 118 families "an act of discrimination based solely upon prejudice due to race and color."

DAUGHTER ELKS TO MEET SEPT. 14

The Daughter Elks of Rose Temple No. 33 will not meet again until Sept. 14, after the grand lodge. Mrs. Willa Mae Rowe is daughter ruler.

The resolution asserts that 96 per cent of the evicted families own their own homes, and states: "Those persons were not notified six months in advance that they would have to seek new homes, nor were there any conferences held to determine if these residents were willing to sell their homes and select new home sites."

"The common practice of the Housing Authority Administration is not to interfere with families owning homes unless the homes in question are needed for the further development of the city. . . . In such a case the Housing Authority would have to locate suitable home sites for the owners."

'Amos 'N' Andy' Programs Create Bad Race Relations Say Comments from Press

New York.—The barrage of attacks against the "Amos 'n' Andy" television show continued to gain more momentum this week as more Negro columnists and editorialists joined those who had already spoken out against the program. The attacks are part of a campaign to remove the show from the air, initiated at the 42nd annual convention of the National Association for the Advancement of Colored People in Atlanta in June.

Typical of the press comments is one by Franklin H. Williams, NAA-CP West Coast regional director, in the Los Angeles Tribune and San Francisco Sun-Reporter, asserting that "there is a dangerous and tragic relationship between Cicero, Illinois" and "Amos 'n' Andy."

"The hoodlums of Cicero," Mr. Williams writes, "... were obviously in great fear of something which they considered a threat to their way of life. . . . And yet, young Clark was not to be feared as a neighbor—his sin was being a member of a racial group about whom Cicero citizens learn from the newspapers, radio and television. . . . We are of those who feel very strongly about the continuing tendency of the radio and television industries to portray the Negro consistently as a buffoon and a fool—and this feeling is in no degree lessened when Negro actors fill the parts."

Among other press comments were: Rey L. Gillespie, in the Cleveland Plain Dealer: "... The sharply etched Negro stereotypes which have been given wide currency by the 'Amos 'n' Andy' comedy have put in the minds of millions a wicked absurdity of Negro life."

Atlanta Daily World: "We share the opinion expressed by the Association. A race or group can be lynched by ideas and propaganda just as surely as by physical means. . . . Acts and programs of this kind create bad racial relations and injure the cause to which all true Americans are committed."

Buckeye Review, Youngstown, Ohio: "It (first 'Amos 'n' Andy' TV show) was a show which should have brought hasty expressions of indignation and . . . a demand that the caricature of Negro lawyers cease at once."

John D. Silvera, in the Pittsburgh Courier: "One readily concurs that . . . will be to perpetuate . . . the . . . show, 'Green Pastures' and all other such productions which seek to dramatize the ridiculous only."

NAACP Secretary Walter White asserted that those who would defend the program against the onslaught of criticism and protest are desperately trying to assemble real or imaginary support in the Negro community. He noted that the advertisement

Present Clark's Daughter With Sum For New Piano

New York.—Eight-year-old Michele Clark was assured this week that her piano, destroyed by hoodlums during the recent Cicero rioting, would soon be replaced.

Listeners to the program conducted by New York commentator and disc jockey, Barry Gray, contributed a total of \$703, after Walter White, executive secretary of the National Association for the Advancement of Colored People, appeared on the program and described the Cicero violence.

Mr. Gray presented the sum to Mr. and Mrs. Harvey E. Clark, Jr., for Michele, and announced that four piano companies—three in New York and one in Chicago—have offered to sell the Clarks an \$1100 piano at a discount.
Michele's musical education was further guaranteed when the Silvermine Guild of Artists of Norwalk, Connecticut, awarded her a year's scholarship in piano instruction during ceremonies at which the Clarks were guests of honor last week.

Scottsboro Warden Fired; He Beat Three Prisoners With Sticks

Montgomery, Ala. (CNS)—Sam Key, an Alabama state employee for 20 years and warden of the Scottsboro prison camp was fired last week for beating, unmercifully, three Negro prisoners. In a report by state investigator R. A. Troupe, Key was cited as beating convicts Ernest Taylor and Ezzie Lawson with a three foot hickory stick and also hitting another prisoner, O. C. Allen, with a walking stick. Corporal punishment in state penal institutions had been ruled out in December.

Key admitted striking Taylor but said it was self-defense. He accused Taylor of refusing to work and grabbing him. The investigator's report quoted Taylor as saying he was unable to work and that Key shouted: "You are going to work. . . I ought to kill you." Blood was found on the camp office floor after the beating. As Taylor ran from the room after being hit, Key followed him. Lawson got in the way and Key lashed out at him.

Though Key pleaded self-defense, three gashes were found on Taylor's head.

California Ranks Second In Nation's Foreign Students

The state of California has 3,592 foreign students studying at its institutions of higher learning, it was reported today by the Institute of International Education.

California ranks second to the state of New York which leads all others in foreign student enrollment with 5,452 students.

The Institute revealed that a total of 29,813 students, representing 121 countries and areas of the world, attended United States colleges and universities during the academic year 1950-51.

Canada led the nations with the most representatives in this country with 4,498 students followed by China (3,549 students), Germany (1,264), and India (1,138).
Among the 25 universities and colleges having the largest foreign student enrollments were Columbia University with 1,414 students, the University of California with 1,323, and New York University ranking third place with 1,211 students.

The Institute reported that the foreign students are enrolled in all types of curricula and majors. However, it added, from a statistical point of view the ten major fields of most importance are: engineering (5,938 students); liberal arts (4,560); social sciences (3,506); medical sciences (2,426); physical sciences (2,144); business administration (2,079); religion (1,580); education (1,347); agriculture (977); and fine arts (976).

Before School Starts Parent Can Make Teacher Love Her By Marking Tots Wraps In Indelible Ink

A little girl in kindergarten showed the teacher a red cord fastened inside her coat collar. "This," she said, "is to show you that this coat belongs to me." Of course, the little girl was the only child in the world to her mother. But how could the teacher remember which one of 30 children had a red cord in her coat? If you have never taught school, you have never been responsible for 30 pairs of rubbers, and as many coats, caps, and mittens all at one time. It is hard enough to keep up with the removable clothing of two or three children in the home. But when you have ten times this many things to get lost, you can only guess at the teacher's problem. Lost hankies stack up by the dozens. In the warm fall days coats may be left at school for weeks because the teacher cannot locate the owners. The teacher may say, "Whose mittens are these?" Not a child will claim them. All of this in spite of the best system the teacher can devise for the care of wraps.

Peanut Crunchies

Peanut Crunchies and peach halves in party dress make a top-notch dessert combination.

For utter simplicity and good eating it is hard to beat the cookie and fruit combination. It fits in well with either a sumptuous meal or a simple repast. Here it is in new dress. The cookies are crisp Peanut Crunchies made with thrifty sweet margarine and chopped salted peanuts. The peaches have an added touch of glamour in the shredded coconut topping.

PEANUT CRUNCHIES
2/3 cup fortified margarine
1/4 cup sugar
2 eggs
1 teaspoon vanilla extract
2 cups sifted enriched flour
1/2 teaspoon salt
1/2 teaspoon baking powder
1 cup finely chopped salted peanuts
1 egg, beaten
1/2 cup sugar (about)
Cream margarine and sugar together. Add eggs and vanilla extract. Sift together flour, salt and baking powder. Add flour mixture to creamed mixture. Mix only until flour disappears. Add chopped peanuts. Form dough into a ball and chill in the refrigerator for several hours. Scoop out dough

by tablespoonfuls. Roll into balls under hand as for cloverleaf rolls. Dip each ball into beaten egg, then into sugar. Place on margarine cookie sheets. Flatten out with tines of fork. Bake in a 375 degree oven for 15 to 20 minutes. Yield: 4 dozen 2 1/2-inch cookies.

Feel Uneasy
The discomfort one feels in a crowded room is not entirely due to lack of oxygen. Actually a person can live in an atmosphere containing as little as 17% (instead of the usual 21%) of oxygen, and this is not enough to enable a match to burn. The discomfort in a crowded and badly ventilated room is due to the fact that one's body is under a strain in trying to get rid of the excess heat in the normal manner, which is through the lungs and the sweat glands. This is made difficult by the high temperature and humidity. Although an excess of carbon dioxide is not the source of danger in a crowded room, it is used to measure the quality of ventilation. In a well ventilated room the carbon dioxide content does not rise above 0.1% which is about three times the normal value.

JORDAN TROMBONIST BELIEVES MUSIC HAS A MESSAGE

New York, N. Y.—Louis Jordan's orchestra, currently on a tour of one-nighters in Southern states contains one white musician who believes music has a powerful message of human understanding and interracial goodwill. He is Bob Burgess, a 21-year-old trombone player, who comes from Centralia, Ill., but who has barnstormed all over the United States with dance bands and small combinations.

Job Efficiency
Most people are nowhere near 100% efficient in their jobs—at least that's the finding of leading occupational psychologists. They put the typical average efficiency at 30%. That obviously leaves quite a lot of room for improvement in the average person. This lack of efficiency could be attributed to many things. The psychologists believe that better results might be obtained if a person's talents were more efficiently organized. In many companies, this is left up to the efficiency experts, for proper organization of jobs for top production is a job in itself. However, one doesn't need an efficiency expert to tell him that proper rest will enable him to do his job more thoroughly and better. It is only common knowledge that adequate rest and sleep every night will make one more alert the next day.

AME Youth Congress Ends at Ottumwa

The Northwest AME youth congress closed its week's session last Saturday noon with a communion and commitment service, at Camp Arrowhead, Ottumwa. Classes in Bible study and clinics for ministers, youth leaders and youth were held daily. Horseback riding, tennis and baseball were included in the supervised recreation. The congress, directed by Rev. B. N. Moore, pastor of the St. James AME church in St. Paul, and director of Christian education of the northwest conference, was well attended by ministers and youth leaders from Minnesota and Iowa. Talent night was held Thursday; and on Friday a banquet was given. Extemporaneous speeches were given by the youth on "How Adults Can Best Advise Youth." Prizes were awarded both nights. A weiner roast and campfire were held following the program Friday night. Dr. Moore was assisted by Rev. James Dixon and officers of the St. Paul and Des Moines district. Rev. E. C. Allen was pastor hist. The congress will be held next year at Camp Snail Lake, Minn.

Baby Girl Burned, Upset Hot Grease

A 13-month-old child suffered second degree chest burns Monday afternoon when she upset a cup of hot grease in the kitchen of her grandmother's home. Admitted to Broadlawn's General hospital was Brenda Lane, granddaughter of Mrs. Jimmy Lane, 922 Laurel street. The hospital said her condition was satisfactory.

Heavyweight Champ Jersey Joe Walcott Seen By 5,000 Fans Here

Heavyweight Champion Jersey Joe Walcott (left) and Al Todd, manager of the Des Moines Bruins, "square off" following Joe's exhibition here with Jack Burke before 5,027 at Pioneer Memorial Stadium last Saturday. Walcott, world heavyweight box-

ing champion, gave a four-round exhibition against light-heavyweight Jackie Burke in the first half of a "twin bill" at the stadium. Burke, a 25-year-old gamecock from Brownsville, Penn., whaled

away with his best but before the opening round was over his nose was well pinked with Walcott's left hooks. Walcott and Burke sparred the previous night before 3,000 at Marshalltown.

At both places Walcott passed out souvenir buttons and autograph pictures as a part of his own personal campaign among the youth of the nation, a pledge he made the night he won the title. (Photo Courtesy of Des Moines Register).

Young Hoodlums 'Firework' Barker Home Two Nights

Detroit, Mich.—Prompt police protection was given Milton Sheeley, 9342 Parker, and his family after a NAACP complaint was made of young hoodlums intimidating and destroying part of their property with fireworks on two successive nights last week.

Reportedly about four teenage boys hurled firecrackers at rear windows of the Sheeley residence last Monday night, then repeated the act of intimidation on Tuesday by placing a "blockbuster" inside a window which severed the bottom of the screen. Each act happened about 10 p.m.

Sheeley reported the incidents to the local NAACP which sent a telegram to Superintendent Edwin Morgan, requesting an immediate investigation and protection of the family because of "an indifferent attitude taken by officers of McClellan Station."

The Sheeley family beside the husband is his wife, Minnie, and an 11-year-old daughter, Venita. They moved into the neighborhood which has about three other race families about two years and half ago. The parents stated that the youthful thugs were not recognized by a roomer as residents of the community.

Police patrolled the area for about three days after the incidents, the couple revealed. No other cases of disturbance have occurred.

U.N. Takes the Road Signs On Journey Round the Globe

A humble, unsung sentinel beside the highways of the earth—the road sign—suddenly has become a world traveler.

In France, Chile, Turkey, India and Southern Rhodesia, the yellow-and-black curlicues, curves and angles of American highway markers have sprouted to guide foreign motorists through a series of United Nations safety tests.

At the same time, U.S. drivers are being taken over short sections of roads in Ohio, New York, Virginia and Minnesota marked temporarily by the bright-colored, cartoonlike signs of Europe's international highways.

A puffing locomotive in a red triangle is the European-style warning of railroad crossings unprotected by gates. Silhouettes of children signify a school or playground ahead. The outline of a careening automobile means "Slow Down—Slippery Road," while a sign that looks like a camel's back clearly says "Bump!"

In the few decades since high-speed travel by automobile began to make over the world, signs have become vital to the safety of millions. America, land of a single language, is sown with signs reading "Stop," "Dangerous Curve," or the famous "Stop, Look and Listen."

But in Europe, touring motorists have long been confused and confounded by signs which give obviously important information in an incomprehensible language. Other signs give warnings in several languages—and are so complicated they cannot be read without coming to a full stop.

In 1926, realizing the need for a universal sign language, an international meeting in Paris drew up a code of symbols and pictures which all countries could use. In 1949, these signs became the basis for a new standardization of signs by a United Nations commission.

Vision Institute Declares Sewing Is Not Lost Art

Is sewing a lost art among American women? Not by a long stitch, says the Better Vision Institute.

More than two-thirds of the nation's women are sewing their own clothes. Department store sales of yard goods have tripled in about the past ten years. And over 100,000,000 patterns are being sold annually.

All this means that American women are subjecting their vision to one more taxing job, in addition

Advice on Landscape

Many people setting out to beautify their home grounds with trees and shrubs are confused by the many thousands of species in the plant kingdom. Professional advice in this field is readily available.

Just as you may go to your doctor on advice for health, you may go to a trained landscape nurseryman, who will take over the entire responsibility for beautifying your home grounds. Many prominent nursery firms have landscape departments to whom the task of landscaping is entrusted.

This professional advice may cost a little more money at first than buying the plants yourself, but the assured results often more than offset this initial expense. In fact, over a period of years, enough mistakes may be avoided to actually make it cost less.

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

These are precautions recommended by the National Foundation for Infantile Paralysis when polio is around. Also, wash hands before eating and be on the alert for such symptoms as feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. If the disease does strike, call your doctor promptly, follow his advice. Your local National Foundation chapter will provide needed assistance.

Young Tennis Players Advised To Get Correct Instruction, Plenty Of Practice, Play All Competition

Hal Surface of Kansas City, recent winner of the Missouri Valley Singles championship that was held at Des Moines a few weeks ago, added another scalp to his belt as he tucked away the A. T. A. version of the Missouri Valley championship play by downing George Stewart of Orangeburg, S. C., in straight sets, 6-3, 6-3, 6-4, at Kansas City, last Sunday.

This was the first time in the history of Kansas City tennis that a white player of any caliber had competed. Surface was never behind in the match after the first game which was won by Stewart. Surface kept complete command with a remarkable line spitting fore-court game that Stewart was unable to cope with.

Steward is ranked second in national Negro tennis while Surface at one time was in the first ten of the nation but now is in the thirties.

Great Difference Why this great difference in Negro and white tennis? As I see it Negro players do not spend enough time getting correct fundamentals. It is impossible really to improve thru the years in any sport if you are not basically sound. Then needed are physical condition and competition, other than within our own group to acquire the experience and poise.

About the best example would be Dr. Weir of New York. Twenty-two years ago Weir was national junior champ. He held that title as long as

book, which is published by the University of Oklahoma Press, the vitamins and the respective quantities of them needed as a daily specific diet against alcoholic addiction. The results achieved in experiments with both animals and men may, with further clinical study, prove the basic cause of alcoholism. He says of his results that they have been "successful in many cases and complete cures in some instances." The method is simple but should be administered only by a physician, since each individual case requires separate diagnosis.

his age would allow. He moved up into the men's division, won that championship several times and now, 22 years later, still ranks high in tennis circles, both Negro and white. His success was due to correct instruction in fundamentals, plenty of practice and playing the best competition he could find, regardless of color.

One other example would be Jimmy McDaniels of California who, a few years back, played Don Budge, who was No. 1 in tennis in the nation, on even terms at New York. McDaniels, like Weir, had correct fundamentals and played in every tournament he could, colored or white.

So my advice to all youngsters who expect some day, really to be able to play tennis, find some way to get correct instructions and then practice and play in all the competition you can find because that is the only way really to have a worthwhile game.

Canadian Steel Canada, eighth largest steel producing country in 1950 with an output of 3.3 million tons, is rapidly enlarging its iron and steelmaking capacity and developing its vast raw material reserves, according to Dominion government reports. In recent years, Canada has augmented its own annual steel production about one-third by imports of steel products from the United States. Canadian steel companies now are spending \$100,000,000 in expansion and improvement programs which will bring steel capacity to about 4.5 million tons, blast furnace capacity to nearly 3.5 million tons and will add new rolling mill facilities, according to a Canadian government source.

Automobile Economy The 1950 edition of "Automobile Facts and Figures," the auto industry's statistical bible, has just rolled off the press offering still further evidence that a substantial share of the national economy revolves about the motor car. The handbook reports that one out of every six retail, wholesale and service firms in the country deals in automobile goods or services. In Wyoming, our most automobile-minded state, almost 30 per cent of all retail sales involve automobile business.

Future of Negro Workers Runs Parallel With Union Membership

Discontinuance of Scab Labor Vital to Good Race Relations in Des Moines

- The strike at Still Hospital continues with Scab Labor. When Negro miners were brought to Iowa as Scab labor in the late nineties to work in the coal mines in Mahaska and Monroe County, they recognized very quickly, that their best interest lay in union membership. They joined the union becoming some of the most staunch members. During succeeding years many became national and state organizers and officers of locals and districts. If these men were willing to see the light fifty years ago, modern labor made up of more enlightened citizens, should not hesitate at this time. In Detroit and other cities where strikes have occurred, the NAACP has urged Negroes to remain loyal to the Unions because the broad experience of that National organization has taught them that in the long pull Union membership is for the best interests of the Negro. The Laundry and Dry Cleaners Union in Des Moines, which admits members to their ranks without regard to race, creed or color, urges all Des Moines citizens and organizations interested in good race and Union relations, to prevail upon the strike breakers at Still Hospital to quit crossing the picket line.

Margaret E. Maxwell Is Bride Of LeRoi Beavers, Dayton, Ohio

Marshalltown, Ia.—Wedding vows were exchanged Saturday night, August 4, at Cumberland Presbyterian church by Margaret Ethel Maxwell, daughter of Mr. and Mrs. Artice Maxwell, 507 E. Boone street, and LeRoi Beavers, Jr., son of Mr. and Mrs. LeRoi Beavers, Sr., of Dayton, Ohio. The Rev. Harold S. Parks officiated at the double ring ceremony. Roger Roseborough was pianist and Mrs. Sam Morrow was soloist.

The bride, given in marriage by her father, wore a gown of candlelight satin and a fingertip veil. She carried a white bible topped with an orchid. Harriet and Shirley Maxwell, sisters of the bride, served as attendants. Their gowns were of white lace and green organdy, respectively. They carried bouquets of asters.

Leroy Kidd of Springfield, Ohio, served as best man. Roger Maxwell and Claire Rudison, who were ushers, also lighted the candles.

A reception for 100 guests was held at the Maxwell home. Mrs. Wilmer Johnson cut the three tiered cake and Mrs. Russell Gilliam presided at the punch bowl. Dining room hostesses were Mrs. Frank Johnson and Ada and Mildred Spencer. Geraldine Johnson and Mary Bannon had charge of the gifts and guest book.

Mr. and Mrs. Beavers will reside in Dayton. Guests were present from Springfield, Ohio; Aurora and Chicago, Ill.; Minneapolis, Detroit, Liscomb, Garwin, Mason City and Des Moines.

right fast, because they did not know what the white lady would do.

"She could have shot at us. She might have had us arrested. She could have told the authorities any old thing and we knew that and we didn't want anything to interfere with our getting on with our trip out to California and Mexico—so we left hurriedly, and upon leaving John Williams, who was on the trip with us, took a picture of that sign upon that tree. Had we seen it first, we certainly would not have stopped at Green River, Wyoming!"

A blond cocker spaniel pup might have enjoyed a new home with a colored family in Des Moines, if his very prejudiced owner had permitted. And the pup might have been very happy with some brown children as playmates. But, the owner, who thought she had a healthy feeling of generosity when she called a local radio station last week and asked help in giving away one of her pups, suddenly developed a case of high blood pressure and nearly hit the ceiling of her home when she discovered, by probing, that the first telephone caller was a Negro.

"How dare you think that I would give my blond pup to a colored person!" was something like what she remonstrated even though the telephone caller could not remember her exact words because he was so "flabbergasted."

"Had I even thought I was going to run into any prejudice after listening to the radio announcement, I could have arranged and gotten the pup without her knowing that I was a Negro," James N. Bethel of 1119 Twelfth street talked.

"But that is the best I have heard of yet. It takes the prize of prejudices. You know," as he paused to shake his head, "I was sitting at home, my children playing around, and I heard the radio announcer say something about a woman wanting to give away a blond cocker spaniel pup because she had two. I began to think how nice it would be to have a cocker spaniel and when the an-

NEGRO WORKERS MUST NOT BE FOOLED

For the past few weeks, a strike has been going on in the laundry at Still Hospital. The controversy revolves around union membership and increase in pay.

The Hospital has been picketed by the Union and efforts made to induce employees not to cross the picket line.

Prior to the strike no Negroes were employed in the laundry. However, a few days ago, a crew of Negro workers was hired and is on the job now.

This strike places a most unfortunate burden on the Negro workers for they are occupying the position of strike breakers—a situation which is offensive to the average laboring man today.

The time has come when union labor is the rule all over America and thus anyone who expects the protection of organized labor should, in all decency, join the ranks and carry his share of the responsibility.

The Bystander dislikes this situation. And while some temporary advantage comes to these Negro workers, in the long run they stand to lose for they will forever be branded as strike breakers.

WALCOTT GETS A BIG WELCOME

That the public likes a winner was beautifully demonstrated at Pioneer Ball Park Saturday night as the crowd gave Jersey Joe Walcott a rousing cheer as he entered and left the ring where he boxed four exhibition rounds.

During the course of the bout Walcott demonstrated his clever fighting and the crowd enjoyed it immensely.

FEPC MUST HAVE FUNDS TO CARRY ON

Last week the Des Moines City Council passed a resolution commending the FEPC on its work and extending it indefinitely. Previously the commission had submitted a budget request for the operation of the commission during 1952.

This is not the best arrangement by any means because it places the commission in position whereby ample funds will be difficult to secure.

True, the commission has done some things but it has not scratched the surface. And one of the reasons for this is the lack of money to do a job.

Members of the committee are busy people. And no project can succeed when everybody must make it a side issue.

ing a Strong Race Relations in a Free Society," is the topic for discussion at a luncheon to be held on Tuesday, September 4.

The Minneapolis Urban League, of which John G. Simmons is president, will be host at all conference activities on Wednesday, September 5, at the Hotel Nicollet, Minneapolis.

Labor Leaders To Report

On Wednesday, James J. Wadsworth, Deputy Federal Civil Defense

Administrator, will speak on the role of the Urban League in civil defense.

Wednesday's luncheon will feature top labor executives who will speak on the role that the Urban League and labor must play in promoting equal economic opportunity in industry and commerce.

Lester B. Granger, the League's executive director, will deliver his annual address, "State of the Urban League," at the dinner meeting on Wednesday evening.

The Thursday and Friday sessions of the conference will be resumed at Hotel Lowry in St. Paul. Thursday afternoon an industry luncheon will be held.

Secretary Of The Year

The conference's main social event—a dance—to be held on Thursday evening will feature the Administration and Clerical Council's crowning of the "Urban League Secretary of the Year."

CAMPY SEES STARS WHEN HIT BY WHITEY

Brooklyn, N. Y. (CNS)—"It's the first time I can ever remember seeing stars" were Roy Campanella's words after being by Whitey Lockman when the latter, representing the tying run, crashed into him while trying to score from first of Willie Mays' double in the ninth at Ebbets Field Thursday.

Sun's Face Clearing; Good News for Soldiers at War

Spots on the sun's face, like those large enough to be visible through plain dark glasses recently, should be relatively few in the months just ahead.

What have sunspots to do with UN success against Asia's communists? Scientists have found sunspot to be closely related to "magnetic storms," which can and often do disrupt radio, telephone, and telegraph transmission for hours on end.

Through decades of observation, science has also learned that sunspots wax and wane in frequency of occurrence through a cycle of slightly more than 11 years.

Dr. Carl W. Gartlein, physicist directing a National Geographic Society-Cornell University study of aurora or "northern lights" since 1938, describes magnetic storms caused by sunspots in this way:

Picture gigantic streams of electrified particles spouting forth from the sun and speeding millions of miles into space like jets of water issuing from a rotating lawn sprinkler.

Sunspots are gigantic whirlpools or cyclones in the molten or gaseous surface of the sun, and are accompanied by flame-like flareups of hot gases from the sun's surface.

Light Metals

There are many metals lighter than aluminum. The lightest is lithium, about five times lighter than aluminum. However, like sodium, potassium and calcium, which are also lighter than aluminum, it is so active chemically that it cannot be left exposed to the air.

HEALTH FOR ALL

Checkup For School

His wardrobe may be in order, the new schoolbag complete with copy-book, ruler, and pencil-case, yet your child may be far from properly prepared for school.

For any reasons, the parent-teacher associations, official health agencies, and such organizations as the voluntary tuberculosis associations affiliated with the National Tuberculosis Association are stressing complete physical examinations of children before they enter school.

First, through the pre-school examination, certain correctable defects and conditions which respond best to early treatment can be detected at an early stage, a factor often important in treatment.

Secondly, a child has his best chance of getting the most out of school when he is in good physical condition. High grades and good report cards generally are impossible if the child is out of school frequently with sore throats and toothaches or if he cannot see the blackboard or hear the teacher.

SPORTS

By ALLEN ASHBY

The annual Hilltop closed tennis meet got going last week and there were the usual number of surprises and upsets.

The dope was spilled in the women's division when a hard playing girl named Esther Enites dusted Colleen Martin who was conceding a good chance to win the thing.

Thyra Johnson bumped Pat White in what was probably the latter's worse defeat in this meet. Thyra was hitting them hard off both hands at set down Pat 6-2, 6-1.

In the men's division, a guy named Cato, we think and Miles played for better than three hours before Cato came home in front 7-5, 6-8, 14-12.

Then Cato stopped Sonny Dixon to go into the semi-finals. He will meet Chet Williamson who didn't waste too much time fanning Art Propes.

Another interesting match was the one between Harold Carr and Morton Graves, bosom pals. They battled we think for cocktail shaker that wasn't empty as well as the right to advance in the meet.

Then the two rivals thought they had better quit while they could both walk off the court and we guess they divided the contents of the shaker. The next match? That was it.

The boys are so scrambled up that we don't know who beat who yet but you can bet there will be a champ when the last bell rings. Yet it is a

rection of some physical deformity or illness might have made him a scholastic star.

Finally, a pre-school examination is one of the most important a child will ever undergo because it comes at a crucial time in his life, a time when he is entering a whole new world. Things are difficult enough for him—suddenly changing from all-day play and sheltered home life—without an extra handicap of physical imperfection that might easily be corrected.
