3 Injured When Tire Blows Out, Car Overturns

Forest City, Ia. — Three Polk county residents were injured last Saturday in an automobile upset attributed to a tire blowout.

Paul Randle, 1155 Fourteenth st., Des Moines; Betty and Samuel Smith, Ankeny brother and sister, and Randle's brother Gilbert, Minneapolis, Minn., were brought to the hospital here but the girl, suffering only cuts and bruises, was not admitted.

Paul Randle and the Smith brother and sister had gone to Minneapolis to get Gilbert Randle, who was driving the car back to Des Moines.

Witnesses said when a tire blew out the car hit a driveway that led into a field, sailed 83 feet through the air into a 15-foot ditch and bopped over on its top.

Gilbert Randle suffered a pelvic fracture and face and body cuts; his brother a fractured pelvis, scalp lacerations and an elbow cut that almost severed an arm, Smith had possible internal injuries, face lacerations, cuts and bruises.

SAID THE GENERAL TO THE WATER

Washington, D. C. — (CNS) — As it came time for retiring General Hoyt Vandenberg, controversial head of the Air Force, to take his final leave, a Negro waiter rushed to him and said: "Well, General. This is goodbye." The now Mr. Vandenberg, who had given little inkling of his thoughts the whole day, now replied: "Not good-bye Robert. Just au revoir. For a time."

Disciples-Of Christ Face Racial Dispute

Portland, Oregon. — Segregation, a topic that may become one of the most controversial of the convention, rose prematurely Monday at the international gathering of Disciples of Christ.

While the committee on recommendations still debated introduction of a resolution that could result in withdrawing the 1954 international convention from Miami, Fla., because of a racial issue, the convention ran squarely into the question of why Negroes are barred from church homes for the aged.

"Churches First"

Walter L. Myers, San Gabriel, Cal., area representative of the National Benevolent association, told the delegates in reply to a query from the floor that churches first would have to practice non-segregation worship before they could expect older members of their congregations to accept non-segregation in retirement.

Postal Clerk's Body Found At Pentagon Causes Raids On D. C. 'Numbers Racket'

Washington, D. C. — (CNS) — The strange appearance of the body of a Negro postal clerk stuffed into the trunk of his car and placed on a Pentagon parking lot right on Capitol Hill has caused quite a commotion here as police sought to link the murder to the "numbers racket."

So far more than a dozen men and women have been picked up in five raids on what Police Capt. Umbaugh is calling Washington's "biggest" Negro numbers ring. And since the murder involved the Pentagon, known the country over as a city within a city and composed of people working for the Federal government, the FBI has been called in.

The dead man was identified as 32 year old John S. Johnson, a World War II veteran with a wife, Sylvia and two small children. He had been struck 18 times on the forehead and temple with a "blunt, heavy instrument." He died probably three or four days before his body was found

in the trunk of his '51 Chrysler. Though relatives of the dead man denied vehemently that Johnson was mixed up in the racket, police immediately set their investigation along this line as the grape vine buzzed that Johnson took numbers bets and then failed to pay off when some of his customers got a hit.

St. Louis Daily Protests Dulles' Removal of Book By W. White from Libraries

St. Louis. — Commenting caustically on Secretary of State John Foster Dulles' telegram to Walter White assuring the NAACP leader that no order had been issued to remove his books from the shelves of State Department libraries overseas, the St. Louis Post-Dispatch said in an editorial, on June 29:

John Foster Dulles owes more than a telegram to Walter White, who happened to be in a position to make Mr. Dulles apologize abjectly. Secretary Dulles owes more than apologies to Alan Barth, Bert Andrews, Gen. Stilwell, Langston Hughes, the Lynds and many other authors. He owes a full and prompt accounting to the American people. Never before has there been any such trampling of

freedom of thought under the authority of the United States Government. This "burning of the books" is the most grievous of the blunders since Jan. 20 and it is not going to blow over.

Mr. Dulles' telegram was in response to an inquiry by Mr. White when he learned that his book, "A Rising Wind," had been removed from United States Information Service libraries in India.

The Miami convention resolution, submitted by trustees of the National Christian Missionary convention, stemmed from reports that Negro Disciple delegates would not be permitted to stay at headquarters hotels in that city.

The convention unanimously ratified a plan to liberalize its pension plan for clergymen to include family protection.

Association Asks Pres. Eisenhower to 'Restrict' Loyalty, Security Program

New York. — Board and staff members of the National Association for the Advancement of Colored People were this week preparing plans for implementing the comprehensive resolutions adopted by the delegates of the Association's 44th annual convention in St. Louis last week.

In addition to approving the 10-year plan to complete emancipation and the setting up of the "Fighting Fund for Freedom," the convention passed resolutions establishing a national youth committee, setting up procedures for legal action, calling for expansion of public relations facilities and approving the calling of a special meeting to promote clergy-NAACP relations.

Historic Fight

Other resolutions reaffirmed the Association's historic fight against segregation, decried "the tactics of Senator Joseph McCarthy and others who attempt to deprive any person of his rights, liberty and freedom of thought," rejected Communism "as an anti-democratic way of life," and called upon President Eisenhower "to restrict the loyalty and security program to security-sensitive departments of government, such as the State Department, Defense Department, the Atomic Energy Commission, and the Federal Bureau of Investigation."

Further, the resolutions endorsed the race relations service in federal housing, called for intensification of the registration and voting campaign,

will also be given the unusual opportunity to hear "Spec" Redd at the Hammond organ. Mr. Redd, widely known for his intricate harmony arrangements will provide music at intervals throughout the meet.

Another added feature will be a demonstration of precision drilling by the Rose Temple Drill Team under the direction of Miss Frieda M. Garland.

Advance sale tickets for the finals scheduled for 6 p.m. are now on sale at Good Pool, Willkie House, New Utica and the Metropolitan Drug Store.

Widow of Hero Policeman, Facing Eviction from N. Y. Home, Asks City to Wait

New York. — (CNS) — Mrs. Olive R. Holt, the widow of a hero patrolman killed in the line of duty, is living numbered days in her four room city limit as permitted by the housing owned apartment. She and her 19 year old twin sons must move by

urged the organization of another civil rights mobilization, called for revision of Senate Censure Rule 22, reiterated the demand for enactment of civil rights legislation, and opposed "the current investigations into education being carried on by the Velde Un-American Activities Committee."

New Leadership

On the labor front, a resolution "hopefully calls upon the new leadership of the American Federation of Labor to take affirmative action to end the various forms of racial discrimination practiced by certain affiliated international unions," and condemned "the continuation of these vicious practices by the Railway Brotherhoods." Moreover the resolution warned the local and state units of the NAACP against cooperation with Communist controlled unions including the National Negro Labor Council.

The delegates re-affirmed their belief in the support of old age assistance, unemployment insurance, vocational rehabilitation programs, public recreational facilities, adequate hospital and medical facilities, slum clearance, and urban redevelopment for all citizens on a non-segregated basis.

Mrs. Adah Johnson To Leave July 15 For Springfield

Mrs. Adah Johnson, 815 Thirteenth street, is leaving the city July 15 to assume her duties as director of a community center at Springfield, Mo. The new center, Youth and Legion center, is housed in a modern building which was dedicated this spring.

Mrs. Johnson, who is a member of Willie House board of directors, was formerly on the staff of the Des Moines YWCA.

July 31st because the total income of the family temporarily exceeds the regulations.

Her oldest son is in the Air Force on Okinawa but her twin boys, who went to work immediately upon graduation may soon be drafted since they have both been classified 1A. But meanwhile, since the total-family income is \$7,844 what with the combined earnings of Mrs. Holt's yearly as a dress examiner and the boys' income at nearly \$5,000 together plus the family pension of \$1,000 yearly, thus their total great exceeds the \$3,500 permitted for a family in a four room apartment.

The boys have only been working a year so as to help out the small earnings of Mrs. Holt. Their father was killed in 1940 when he was in pursuit of a burglar on his day off. When other policemen joined the chase, it was an errand shot from a fellow officer's gun that killed Patrolman Holt.

Taking it all rather philosophically, Mrs. Holt still managed to smile through all her difficulties. "I'm really up in the air," she said. "No apartment, pretty soon I'll lose two boys, and then I get one back. All this wouldn't be so hard if the city would only wait until the boys all get settled."

85 Youth Group Active At NAACP Convention; Ohio Council Wins Smalls Honor

St. Louis.—Attending the 44th annual convention of the National Association for the Advancement of Colored People here last week were more than 250 youth and college delegates from every principal city and major college in the country. These young people, Herbert Wright, NAACP youth secretary reports, discussed ways and means of increasing their contributions to the fight against racial discrimination and segregation.

There are 85 college chapters on campuses throughout the country, the Association's national youth committee reported to the convention. "The program of the NAACP, as implemented on American college campuses," the committee report said, "has had immeasurable effect on hundreds of thousands of college graduates who, but for contact or exposure to NAACP college chapters, would have received degrees ignorant

of the facts or implications of our civil rights program."

To Every Community

The report calls for carrying the Association's program to Negro and white youth in every community; the building of a youth staff to aid in recruiting others into the youth and college program. The 250 delegates in attendance at the convention constituted the largest youth representation ever to attend a national convention of the Association.

Among the outstanding youth and college leaders in attendance at the convention were Cedric Clark, New York; Walter Carrington, Harvard University; Jewell Taylor, Radcliffe College; Helena Adkins, Chicago, Ill.; Marcia Morrow, University of Chicago; Albert Henderson, Piqua, Ohio; Robert Hairston, Orange, N. J.; Thelma Eastmond, Brooklyn, New York; Rebecca Currence, Canton,

Williams Quizzed

Washington, D. C.—(CNS)—Professor Ooxey A. Wilkerson, well-known Negro left winger, refused to open up before Senator Joseph McCarthy's investigating committee on the grounds of possible self-incrimination. Wilkerson, a former writer and newspaper editor, only remarked: "I have never been interested in combating Communism."

McCarthy, in turn, seemed bent on using Wilkerson as an example of why he said the FBI has been unable to root communists out of the Government. He dug into Wilkerson's early affiliations with the government as far back as 1935 when he was a teacher at Howard university, which is administered mostly by the Federal Security Agency. McCarthy claimed that the FBI in 1942 got up a 57 page dossier on Wilkerson and gave it to the FSA but that it refused to fire him.

Wilkerson, himself, testified that Ohio; Donley Phillips, San Antonio, Texas.

Wins Smalls Award

The Canton, Ohio, youth council won the Ike Smalls Award for the most distinguished work by a youth council of the Association in fighting

he was employed by the President's Advisory Commission on Education in '38 and '39 and with the CPA in '42-'43. His book on Negro education was designed to expose the "horrible discrimination against Negroes in public schools in this country," so that it was all right with him if the State Department "burns" it.

Selma's Charm and Reducing School To Open Monday

Mrs. Selma Williams, 1719 Walker street, is announcing this week the opening of a charm and reducing school, which begins officially Monday, July 13.

Mrs. Williams, who has been making plans for the school for several years feels that "we are living in a progressive age."

"Young and old are venturing into new and broader fields. Therefore, we must at all times be in readiness and at our best; with clean minds, clean bodies, charming personalities, culture, well groomed appearance, revealing self confidence, and intelligence."

"In whatever we undertake, we know to see and have faith in Divine guidance."

Lessons

"In these beautiful and inspirational lessons, you will learn what spiritual, mental and physical qualities are needed for this gracious charm we so desire, the refinements and cultivation of each; the building up of one's personality; how to value one's self; self-forgetfulness, self-discipline; self-faith and Divine faith. "You will learn how to make most of every redeeming quality you possess, and acquire those that you lack you can—know: spiritually, mentally and physically!"

"Receiving the spiritual food woven into these lessons, our hearts, minds and soul will revel in the beauty. Minds will emerge from mental confusion, with inner-self yielding, and with head up, chest out, we find outer self yielding, bodies acquiring beautiful physical charm, poise and grace. This is something that we cannot afford to pass up."

"Due to the fact that my home is rather small, the same lesson will be held twice a week, Monday and Thursday evenings, at 8 o'clock, at 1719 Walker street."

Visiting around Iowa

by Joe Marsh

Thomas Jefferson Helps Iowa Farmers

Edna, the missus, is quite an admirer of Thomas Jefferson. And last night at supper, she came up with another interesting fact about that great, early American.

"He did a lot for our pioneer agriculture, industry, and democracy," Edna said. "But I'll bet most folks don't know that he was one of the founders of America's brewing industry, too."

"Yes . . . Jefferson brought experts over here from Bohemia to teach America the art of brewing . . . and advocated beer as the beverage of moderation."

Again, in this, Jefferson made a great contribution to our nation. He helped found an industry that has given jobs to millions of Americans, contributed billions to our tax revenues . . . and furnished a vast market for much of the grain we produce right here in Iowa.

I guess you just can't beat the far sightedness and sound thinking of those founders of our country.

The highways are busy places these days with Des Moines citizens going places to spend their annual vacations.

Heading for the West Coast to get a breath of air from the peaceful Pacific ocean is the Alfred Shepherd family, of 1025 Thirteenth street.

Mrs. Shepherd and daughters, Barbara Lou, Crystal, Shari, and son Floyd, accompanied by Mr. George Starks, left July 1, driving to Los Angeles, Cal. and Mexico. They will tour the West and visit friends before returning home.

"When the family comes back, with my car," said son, William J. Shepherd, "I'm planning to motor to Chicago to spend two weeks on my vacation."

"Our vacation at Solar Aircraft starts on July 10 when the whole plant shuts down to let everyone off at the same time," informed Shepherd.

Back into their office this week, feeling refreshed after their vacation trip to Detroit, Mich., are Dr. and Mrs. W. J. Ritchey who spent ten days getting cooled off by the lake breezes while visiting her brother, Mr. William Lumpkins and relatives in Detroit.

"We stopped in Flint, Mich., and saw the Arthur John Edmunds family and their fine baby. While there we ran into the former YWCA staff member Helen Boulware Harris—and they're really doing fine in Flint where Dr. Harris is practicing," Mrs. Ritchey talked.

"We stopped at Idlewild, Mich., then again in Chicago, where on our way to Michigan, we stopped with Judge and Mrs. (Duke Slater).

"It was one of our nicest vacation trips. We were in no hurry—just fooled around here and spent a night there," the dentist's wife said.

"The surprising thing about the whole vacation was when we got

Members of the Roosevelt club, Inc., and a few guests attended on Monday night, June 27, a preview showing of "The Sun Shines Bright," at the 20th Century Fox Movie Studios.

Shaking hands with Atty James B. Morris, following the film is Kenneth Walden, manager of the studios, which plans to bring the movie to Des Moines soon.

Directing the new drama for Republic Studios is John Ford, four-time academy winner. "Sun Shines Bright," based on Irvin S. Cobb's short stories, is essentially the story of Judge Priest, portrayed by Charles Winninger, a compassionate old, dyed-in-the-wool Confederate soldier who has pre-election troubles.

back to Des Moines—it was the coolest place we'd been," Mrs. Ritchey noted.

The Misses Marlene Wellington and Lenna Reeves are spending a vacation in Denver, Colorado.

News reached me that the Cecil H. Brewtons of 1309 Laurel returned from a vacation trip to California.

On a vacation here this week were Dayse Murphy Johnson with her two children, Antoinette and J. T. Jr., five and four-year-olds, from Jackson, Tenn. They visited friends and renewed acquaintances Mrs. Johnson made during her days here as Blue Triangle Branch YWCA secretary, and wife of the Rev. Mr. Johnson, pastor of the First CME church.

Escorting her about the city to make pop calls last Tuesday evening was Mrs. Sarah Brown. Friends who did not see Mrs. Johnson phoned her at the home of Mrs. Willa Jones, at 722 S. E. 27th street, where she stopped.

"So many friends phoned me Tuesday, I began to think mental telepathy was working. I wondered how they knew I was here," Mrs. Johnson remarked when I asked her if she got many telephone calls that day.

The former Miss Dayse Murphy was so popular in the affairs of the young people when she was in YWCA work here, that I knew many of her friends would like to know that she was in town. So, when they phoned in their news of their church, club and social items, I asked them if they remembered Dayse—and they were happy to know where to find her. And phone telepathy worked.

Mrs. Johnson and her children left Wednesday evening to spend a visit in Kansas City with her relatives.

Mrs. Adam Johnson, Jr., 1160 Fourteenth street flew out of Des Moines on one of the airlines last week bound for a vacation in Cleveland, Ohio, with her sister, Mrs. Margaret Black and family.

Mrs. Katie Chatman, 927 Twelfth street, was talking about her whirlwind Fourth of July week end trip spent in Milwaukee, Wisc., where the weather was so cold she had to wear a coat—night and day. What a cooling thought during this hot weather.

Mrs. Chatman motored there with Mr. and Mrs. Ronzo Hayes who visited relatives.

Mrs. Chatman visited her brother and sister-in-law, Mr. and Mrs. Ollie Johnson. On the holiday she was guest at a turkey dinner of Mr. and Mrs. Lee Stanton, former Des Moines residents.

Roosevelt Club Members Preview 'The Sun Shines Bright'

The judge's troubles increase when he endeavors to play cupid in romantically uniting John Russell, a sort of black sheep who has just returned to town, with Arleen Whelan, the adopted daughter of the town's doctor, Russell Simpson, who has a scandal in her background involving her mother, a fallen woman, and the respected General, portrayed by James Kirkwood.

This romance leads to all sorts of tribulations including a violent buggy whip duel between Russell and Grant Withers, member of the notorious Tornado gang. As if this were not enough to divert the gang's votes, since Judge Priest intervenes and incurs the wrath of Withers, the Kindly Judge also defends an innocent Negro's life at the hands of a lynching mob from the Tornado gang, placing his own life at stake.

Between the heated election, mob violence, the sudden return of Miss Whelan's mother to die under circumstances which would deny her a decent funeral, and the timely inter-

vention of the judge and his faithful cronies, Director Ford brings the production to a tense emotional climax of thrills and heart tugs. Stephen Fitchit returns to the screen in a rib-tickling role of faithful servant.

Miss Lavara Dixon Returns From Visit In New York State

Miss Lavara Genella Dixon, daughter of Mr. and Mrs. Robert Dixon, returned to the city this week after a seventeen-day vacation in New York State. While there Miss Dixon attended the one-week session of the National Baptist Sunday School and BTU Congress which was held in Brooklyn. She was elected vice president of the youth workshop department of the congress, also secretary of her class on "Administering the B.T.U."

On Youth Night of the congress, Miss Dixon was one of the narrators in the pageant, "When He Comes To Himself." She was also one of the featured soloists in the 500 voice chorus, singing one of the songs written especially for the pageant.

While in Brooklyn Miss Dixon resided with Mrs. W. L. Hamilton, 79 North Oxford Walk. Mrs. Hamilton took the Iowan on an excursion of New York City which included Rockefeller Plaza, Empire State building, Statue of Liberty, United Nations Building, Fifth Avenue and many other places of interest, including the Bronx, Long Island, Coney Island and Queen's New York.

Miss Dixon spent five days vacationing in Newburg, N. Y., her former home. A trip up New York state by boat on the Hudson river was another feature of interest.

SAME OLD SOAP

Recently, the city of Des Moines conducted a series of examinations for promotion to the position of sergeant in the police department. Included among the top men were two Negro officers who scored above the average in the written examination. Both are men with considerable education and ability.

When these two officers were called in for their oral test they were told "Color of the applicant will not penalize anybody here." Rather strange remark to be sure. They were not promoted, neither were the two white officers who led in the written examination.

The Bystander has interviewed several of those who took this examination. It is very well acquainted with many police officers, particularly in the higher grades and has considerable knowledge of their general qualifications. It has been able to determine by observing some who have moved up that almost unlimited latitude is left with appointing officers and thus much that is not to be desired enters into the actions of appointing authority.

Civil Service test were originated in order to do away with favoritism by appointing authorities. Generally speaking it is a good idea. But experience over the years has shown and this one is no exception—that the Des Moines system gives too much latitude to the appointing officers who often use their authority to pass those they want, white and Negro, and flunk those they don't want.

As a matter of fact, over the years, the Des Moines system has successfully kept Negroes out of the fire department and never passed one out of the position above ordinary patrolman. This just does not make sense and prima facie evidence that some how "thou shall not pass" continues to be their slogan and it has worked.

The Bystander makes these observations advisably. It realizes that it is a rather strong indictment against the system of appointing applicants and promoting men in the police and fire departments. But as the late Chief Justice Hughes of the United States Supreme Court said in one of his famous opinions that the very fact that no Negro had been included for jury service over a long period of years, when some were available, is prima facie evidence of racial discrimination. So does the record of the appointment and promotion of Negroes in our fire and police departments.

WE NEED YOUR FULL SUPPORT

Weekly newspapers don't operate on a bed of roses. In fact the mortality rate among them is exceedingly high.

The Bystander has followed that pattern even though it has been able to secure a reasonable amount of advertising.

However, many of our subscribers are not doing their bit by giving the support to which it is entitled. Thus we ask our subscribers:

Is your subscription paid up to date?

Are you paying your subscription when it is due rather than when you "can"?

Do you disregard the written notices and phone calls seeking your renewal?

If you fall in either of these classes, move out by mailing or bringing your subscription or your renewal money, to the Bystander office at once.

THE NEGRO GROUP HAS PRIMARY RESPONSIBILITY

Recently Thurgood Marshall, special NAACP counsel spoke before the National Negro Publishers Association. He reviewed the fight which the organization has made on segregation through the courts emphasizing the success and just what lies ahead.

Three things he asked the editors to do:

1. Tell the people the facts about the fight on segregation through their columns.

2. Write strong editorials backing up the program.

3. Help raise funds to pay for the costly appeals.

Most people forget that or don't know about this type of expense because few are ever involved in litigation which finds its way to the U. S. Supreme Court.

The first two requests are fairly simple. They are being carried out by practically all of the newspapers and have been for years. But the third one—raising funds—presents a more difficult problem.

For various reasons, the NAACP has never been able to secure large contributions to its work. There is a disinclination upon the part of most fortunes and foundations to make large contributions because the NAACP has been bold and it hurts. The income tax laws is another

which helps to present a serious problem.

Mr. Marshall is, in fact, making an appeal to the Negroes themselves through the editors asking that they carry a larger share of the financial program of the NAACP. And they should. They are making more money than ever before and buying everything they need and much they don't need. Many successful men are paying the same amount for the support of the NAACP which they gave when they were struggling to get up in the world. In fact, many forget that the NAACP helped them in their struggle and will continue to help them hold their gains.

After all Negroes have the primary responsibility to support the NAACP. The organization is too valuable to withhold from it the necessary weapons to carry on.

Thompson Plays Five Positions For Giants

Chicago, Ill.—(CNS)—Proving just how valuable he really is, Hank Thompson—the hard hitting but temperamental outfielder for the New York Giants—has been playing five positions this year and all of them admirably. Henry's operating in all outfield positions plus third and second hasn't hurt the Giants at any time. Many are crediting him as an important reason for the Giant's

Many Children Do Not Want To Grow Up; Too Much Expected Of Them

Afton Smith, Assistant Professor
State University of Iowa Child Welfare Research Station

It is generally supposed that all children want to grow up. It is very flattering to imagine that Junior longs to be big like his dad; or that Sister wants to be a grown up lady like mother.

However in a study made several years ago, 47 per cent or nearly one-half of the children said they did not want to grow up. Some were afraid

THE DES MOINES BRANCH

NAACP Says:

The branch has 810 members, just 190 short of its goal of 1,000. Workers have pledged to continue the solicitations until the goal has been met. Little doubt was expressed that he job will not be done.

During the course of the drive, solicitors reported many reasons were given why former or prospective members refused to renew their membership this year. Practically all of these excuses grow out of ignorance of what is actually going on under their noses. They could find the answers by attending the meetings.

Still another group says the NAACP has no program. Like all reasonable bodies, the branch welcomes

constructive criticism. However, its program is made by the members at meetings to which all are invited to attend where their suggestions will be given full consideration and if they have merit undoubtedly they will be merited.

Remember the branch can do little without the co-operation of its constituency.

Delegates who attended the National Conference in St. Louis will report at a mass meeting the date of which will be announced next week. Here, first hand information will be given, with the personal angle added, about just what went on. Come out and hear for yourself.

SPORTS

BY ALLEN ASHBY

It won't be long now until the two biggest events of the year for swimmers and tennis players roll around. One week from Sunday, the Good Park swimming meet will be on. This was originally started as a park

water carnival and blossomed out into one of the biggest meets in this part of the country.

On July 30 the Hilltop Tennis club puts on its Des Moines Open Tennis meet. This was a small club affair that got too big in fact that most of the tennis players around Des Moines look forward to it.

Both meets have something in common. They were started to promote the clubs staging them and to help interracial relations in the sports. At one time local Negroes were prominent in both meets, but instead of developing Negro swimmers and tennis players. The plan backfired. Very few of our locals were willing to take the time and make sacrifices necessary to get very far in either swimming or tennis.

So now the Olympian club and the Hilltop Tennis club find themselves putting on two practically all-white meets. Whether that is good or bad, we don't know. We heard some arguments the other day about discontinuing the tennis meet. The fellows said that we had proved that we could run a big tennis meet that Negroes were no longer prominent and that we were putting on an all white meet.

But, so is the Olympian club with its swim meet just about. But you

RED FEATHER PEN

The Cooperative Thrift Shop, previously located at 307 Second Avenue has been in its new location, 222 Locust street, since January.

The primary purpose of the Cooperative Thrift Shop is to provide clothing to children of school age from families of limited income. It helps people by providing clothing at prices they can afford to pay.

Clothing for the shop is secured by the two bundle drives, conducted annually by the public schools and by individual contributions of used clothing at any time. All clothing is cleaned and mended or remade in the Cooperative Thrift Shop's Sewing Room before it is placed for sale.

Mrs. Kathryn Rathbun, director, of this Red Feather agency estimates that in an average day the Cooperative Thrift Shop has approximately 30 customers. The heaviest loads, by far, are on the first of the month and when ADC checks are received by many of the customers who purchase merchandise at the Cooperative Thrift Shop.

Divided Saw Horses

A PAIR of saw horses like the ones illustrated will end saving woes in the home workshop. Designed by a man from South Dakota and described in *Family Handyman*, the horses lend ample support even to large panels.

Each has an open center, through which either a hand or power saw may go. The stock is laid along the top

and cuts are made through at points where the saw can fit into the slots. For ripping, the open center gives ample, full-length support for both halves of the material.

When panels are unsupported during the cutting, as in using ordinary saw horses, oftentimes they will leave jagged ends caused by the material's breaking under its own weight.

HEALTH FOR ALL

Sun Worship

The elderly lady watching the scantily clad sun worshippers on the beach sighed and said, "Well, at least they won't get TB."

see now the things have become institutions and we are dedicated to putting them on. It would be tragic to quit, drop the result of five years of hard work. So no Negroes are around who can make it! Things like that don't happen because one wants them to. The road is open now and all we have to do is find some travelers for that road. As I recall it we were ten years finding Williamson, five years bringing along Bill Ashby and another ten years getting Paul Williams. So you see how long the road is.

A lot of guys will start up that road, some with everything in their favor, but they won't make it. Then along will come some guy we won't even give a chance and he will be it. Then we can sit back and say look what we brought out. But with that comes a whole lot of disappointments.

These arguments could and do apply both to the swimming meet and tennis meet.

Boxing

Burton Bailey, former KRNT Gloves Champ, Lee Colbert and Teddy Shade, present title holders, and Harold Lee, a runner-up, clubbed their opponents in the fight card held at the ball park last Monday. Maybe this summer program is what amateur boxing needs around here to develop some men who can go all the way at Chicago.

It would be nice, if true, if tuberculosis could be prevented by giving everyone a suntan. Unfortunately, it's not true.

Not so long ago the sun had reached the point where many people believed that almost all the ills known to man could be prevented or cured by a good dose of sun. The ancient sun worshippers lay on their faces to pay homage to their god; modern devotees lie on their backs with every possible inch of epidermis exposed to the beneficent rays.

There is no doubt that fresh air and a reasonable amount of Vitamin D made by the body under the influence of the sun's rays are valuable in maintaining general good health. But there is plenty of doubt that a burned skin can prevent or cure any infectious disease.

Tuberculosis is caused by an invasion of germs, tubercle bacilli, which enter the body through the

nose or mouth. The germs come from someone who has the disease in active form. If the germs enter in sufficient quantity and body resistance is low, the disease will develop.

A summer vacation of regular exercise, good food, and fresh air will help build up the body's resistance to TB. But if you live an indoor, sedentary life for 50 weeks of the year, you may find that two weeks of concentrated play and sunshine leave you with nothing but exhaustion and a peeling skin.

To get the most benefit from a summer vacation, it should be approached with caution. Both sun and exercises must be taken in small doses and increased gradually. And when it's time to go back to work, keep that "vacation glow." A regular regime of healthy living and an annual physical check-up with a chest X-ray are the best means of protecting yourself against tuberculosis.
