Clocked By Radar, Patrolman Wright Fined For Speeding

Police Patrolman Robert A. Wright, 29, paid a \$10 fine April 28 after he pleaded guilty before Municipal Judge Harry B. Grund to a charge of speeding 36 miles an hour in a 20-mile speed zone.
Wright was driving his personal car the night of April 26 when clocked by the police radar speed detector at the over-the-limit speed at S. E. Eighteenth and Maury streets.
Asst. Police Chief Floyd Hartzler said he ordered the police radar crew to check on Wright's driving in that area after he had received "numerous complaints."
At his arraignment, Wright told Grund, "I was on my way to work, I was late and the road was clear. I am perfectly satisfied that I was exceeding the speed limit."
("Wright was scheduled to report for duty at police headquarters at 10:50 p. m. Tuesday. He was clocked by the radar detector at 10:47 p. m.")
Wright was appointed to the police force Jan. 16, 1952, and was admitted to the bar here in June of 1954 after studying law at Drake University during off-duty time.

Capital Close-Up From Washington

BY CONSTANCE DANIEL
Integration was dramatized here, last week, when Cardozo High School's crack regiment marched to victory, at the National Guard Armory, in the first mixed competitive drill in the history of the Capital's Cadet Corps.
A seventeen-year-old senior, Lieut. Col. Douglas Mathis, led Cardozo's cadets. The Phelps Vocational School, from old Division Two, which took second place in the regimental drill, was led by Lieut. Col. Frederick Saunders. Two thousand cadets took part in the drill. The acting brigade commander was chosen by lot from the integrated schools. All the former white high schools, with one exception, marched with integrated ranks. The former Division Two (Negro) high schools, on an integrated time-table, are not yet integrated and drilled with all-Negro regiments. The Armstrong High School band took third place in the band competition at the regimental drill. It was led by John Davis. Armstrong will compete in the June drill for high schools with battalions.

May Crisis Article Comments on 'Fears' of the West

New York — The Asian-African conference in Bandung "is a notice to the West that Asia and Africa have shed their leading strings," declares an editorial in the May issue of *The Crisis* magazine, monthly journal of the NAACP.
"No longer will it be possible for Europe to decide Africa and Asia's fate around western tables without the presence of a single African or Asian," prophesies the editorial.
Asserting that the West "fears Bandung because the conference is frankly anti-colonial and anti-imperialistic," the editorial maintains that western "experts" have been assiduously pointing out the political and religious differences of the Bandung participants rather than what "these twenty-nine African and Asian nations have in common."
"Yet the West cannot laugh off the fact that all these peoples, despite their diversity, have common memories of western colonialism and the scars of white man's arrogance and humiliation. Regardless of what comes out of Bandung in formal resolutions and policies, it marks a historic step in the emancipation of Africa and Asia from white tutelage and exploitation."
Articles in the May issue of *The Crisis* deal with the life of the late Walter White, NAACP executive secretary; the elevation of Roy Wilkins to the post of NAACP executive secretary.

Dr. Anderson said both men had apparently been drinking heavily.
Wilder had been employed by a junk yard near the shack.

Heath revealed recently that an older brother, Wayland, already is a minister.
One of 12 children, Heath whose father was a preacher, was reared in a church. Freedom Day to Be Celebrated in Nation on May 15

New York — NAACP branches throughout the nation are planning public celebrations of Freedom Day, the first anniversary of the Supreme Court decision banning segregated schools, it was reported here by Gloster B. Current, NAACP director of branches.
The Supreme Court decision was issued on May 17, 1954. Mr. Current said the majority of NAACP branches will hold mass meetings on Sunday, May 15, while branches in Virginia and South Carolina plan to celebrate on Tuesday, May 17. The Association has some 1,300 branches.
Mr. Current stressed that his department has received an "unprecedented number" of requests for materials and speakers to aid in celebrating Freedom Day.
Just returned from a trip through Kentucky, Louisiana, Mississippi and Alabama, Mr. Current noted "terrific interest" in these states in the forthcoming Freedom Day.
In each of the four states, he said, "the NAACP's prestige in the white community has greatly increased" and NAACP personnel are receiving requests from church groups, labor unions, social and other organizations among the white population for "detailed information about desegregation and the NAACP's program."

Says Congressman Powell Performed Great Service In Pointing Out Progress

Washington — The constant struggle to win the affection and support of people throughout the world for our democratic government went through another acid test at the Afro-Asian Conference at Bandung, Indonesia, last week. The striving by spokesmen for competing government ideologists was aimed at winning the hearts and minds of almost one and a half billion people populating the 29 nations which participated in the conference.
Sen. Clifford R. Case (R-N. J.) made these comments on the Senate floor April 26.
As might have been expected, one of the challenges hurled at the Government of the United States was its record in erasing discrimination throughout the 48 states. Congressman Adam Clayton Powell performed a great service in pointing out the real progress that has been made in this most difficult problem, the New Jersey senator said.
"I think it is significant, therefore, that here in the Nation's Capital, the largest private employer has successfully ended an employment policy which discriminated against Negroes. I am referring to the successful efforts of the Capital Transit Company in integrating its work force.

Five Working
"Five members of the Negro race are working side by side with white employees as operators of buses and streetcars."
"This may seem like a small accomplishment to many, but to those who know of the long and troublesome victory of this case, it is a matter of great effort by this government to win the respect of the nations of Asia and Africa."
"You may remember that early in 1942, despite an acute shortage in Washington of qualified personnel to man the transportation system, the Capital Transit Company refused to employ qualified Negroes as operators. The company stated at that time that it could not employ Negroes as platform operators because its white operators would strike."
Maintained Position
"The company maintained this position even after the Federal FEPC in 1945, following protracted negotiations with the company, issued a directive to it to employ qualified persons to operate the buses and streetcars. The company maintained its position even though there was a continued critical manpower shortage, on the grounds that its responsibility was to maintain its position even after the Federal FEPC in 1945, following protracted negotiations with the company, issued a directive to it to employ qualified persons to operate the buses and streetcars. W. Caesar Smith Gets Preacher's License

WARDELL CAESAR SMITH

Wardell Caesar Smith who recently expressed his conviction to become a Christian minister, was granted a local preacher's license by the quarterly conference of St. Paul AME Church on Monday evening, May 2. This is the first step toward becoming an ordained minister in the African Methodist Episcopal Church, the Rev. J. E. Hunter, St. Paul pastor, said.

The unanimous vote of the conference came in support of a recommendation by the local church before whom the applicant had previously made known his experience of the revelation of God's purpose for his life.

In making his application, Mr. Smith showed evidence of sincere faith in the preaching of a trial sermon on Sunday, April 24, speaking from the subject, "The Race of Life." The text of his message was chosen from the book of Hebrews, "Let us run with patience the race that is set before us, looking unto Jesus, the author and finisher of our faith."

Caesar is well known throughout the Des Moines area for his brilliant achievements as a former track star at North High School from which he was recently graduated. He also served as governor of "Boys State" 1954.

At present he is enrolled as a Freshman at the State University of Iowa where he is pursuing a liberal arts course as a background for his theological education which he plans to receive after graduation at a seminary yet to be selected.

During his college days he plans to continue participation in the athletic program of college life as a part of his extra-curricular education. He is 18 years of age and lives at 1052 13th Street in Des Moines.

Boro Prexy Jack Feuding With Housing Official

New York — (CNS) — Manhattan Borough President Hulan E. Jack—who is holding down the highest elective post in this city a Negro has a attorney—has run into the fury of a woman official.

Deputy Housing Commissioner Bernice Rogers recently decided that four West Side tenements were in danger of collapse and so ordered the occupants to be moved. Two other agencies had moved in to relocate the families when Jack stepped in and virtually countermanded the orders.

Mrs. Rogers won out but because of Jack's "meddling" as it was put, it took five days to get the families out of the dangerous tenements.

the Camera Guild

A wallet designed to hold favorite snapshots is an excellent Mother's Day gift. Let the whole family join in helping her pick out just the right pictures for it.

Focusing on Mother

Mother's Day is one dear to the hearts of all families, and one which just naturally makes everybody think about pictures—pictures to take and pictures to give.

Each family's own special way of honoring Mother is worthy of record. Your own version of the whole "Queen-for-a-day" story—from Dad's serving her breakfast in bed to the children's goodnight kisses—will make a series of wonderful pictures that Mother can enjoy over and over all through the year.

Among the gifts that Mother will treasure are pictures of various members of her family in an album especially compiled for her. So, this week is a good time to collect the family snapshots from their hiding places in odd drawers and boxes and make up an album as a surprise for Mother. Other gifts will be doubly welcome if

they carry an extra dividend of pictures, too. A leather wallet for Mother will look twice as handsome to her if its transparent identification pockets hold snapshots of the family. And so will a locket or one of the new watch bands with places for tiny pictures of those she holds dear.

An enlargement of an especially good picture of Dad and the children—framed appropriately for her desk or dresser—is another gift that says "I Remember Mama" in a way that's sure to please any mother. Or perhaps you might want to take a series of small snapshots—one of each member of the family—and arrange them in a long narrow frame to grace her dressing table.

As you can see, the day set aside to honor Mother is one on which pictures really have their day, too! —John Van Guilder

How to Even Up Chair Legs
WHEN a chair is out of level, one method of evening the legs is to trim the legs which are too long. A simple method of performing this tricky operation is described in Family Handyman.

Form a tube of paper, fastening it together with paste. Now slip it over one leg, cutting off the tube at the exact tip of the leg as the other end rests on the rung.

To assure getting each leg the identical length, slip the tube over each other one in turn, marking them to the same length. Now adjust the length of the tube to the shortest leg and mark all others for cutting.

HOME modernizing

Wood Floors Eventually Need Work; Here Are Tips on Reconditioning

Occasionally—depending on the finish, amount of maintenance and traffic—wood floors need reconditioning. The photographs below give pointers from Home Modernizing magazine on how to proceed.

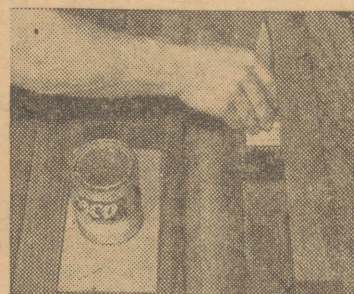

Sink protruding nail heads with hammer and nail set, then fill holes; eliminate squeaks by nailing to joist nearest the squeaks.

Next, sand the floor with a drum-type sander; make first strokes at an angle to the boards, the second strokes at right angles to first.

A disk-type sander like this one is used for small areas that the drum-type sander can't reach, such as around walls, stairways.

Finish by rubbing with steel wool, sweeping and then applying two coats of the finish—floor seal, varnish or shellac.

Clarke, were also reelected.

Barbados Premier—on Business
Immigration quotas under the McCarran Act brought Grantley Adams, Prime Minister of the Barbados, to the Capital, last week. Many more Barbadians want to come over than can do so under McCarran Act limitations, which restrict to 100 per

year, emigrants from each British dependency. "In the old days," the British quota including all dependencies and was usually not filled. Prime Minister Adams, said the British Embassy, discussed the problem "in general terms" with Immigration Commissioner Swing.

Guest of Embassy

While here the Prime Minister, a barrister, journalist and labor leader—Oxford educated — was the house guest of Sir Robert Scott, British Minister of Embassy. Assistant Secretary of State C. E. Elbrick was host for the United States at a luncheon at Blair-Lee House, attended by Sir Robert Scott, Counselor of Embassy Mr. Adam Watson, Third Secretary Mr. Rich Tarsons and Labor Counselor Mr. W. H. Braine. Deputy Commissioner of Immigration Allen C. Devaney and State De-

partment officials were also present. He later attended a Caribbean Association tea at Howard University, a coffee hour at the National Council of Negro Women, and was honored guest at a dinner given by his host, Sir Robert Scott.

He was escorted through the White House in the absence of President Eisenhower, who was out of town, and called on Senator Lehman of New York. Prime Minister Adams was accompanied to the Capital by Dudley E. Barrow, chairman of the New York welcoming committee, the Rev. David Licorish, associate minister of Abyssinian Baptist Church, Judge Hammond Stout of the New York Municipal Court and Clarence King, of New York—all Americans of Barbadian origin. Dr. H. G. Cummings, Deputy of Health and Welfare for the Barbados, and the Prime

Minister's nephew, Blair Bishop, were also in his party.

One-Man Jury Challenged

Attorney William L. Colden of Detroit challenged the validity of the one-man jury, last week, in arguments before the Supreme Court, involving hotel-owner John White, of Detroit's Gotham Hotel, and Policeman Leroy Murchison. The charge against Murchison was giving false testimony; that against the hotelman was refusal to answer questions without advice of counsel. Both cases were heard, in Detroit, by a judge sitting as a one-man grand jury—a practice peculiar to the Michigan courts. An attentive High Court followed Colden's argument which won praise from the bar.

Personal Touch

By MARIE ROSS

A number of May Day breakfast gatherings were held around town last Sunday, which offered ideal weather, providing the events ended before midday when a downpour of rain fell.

At Willkie House, many friends gathered at the Garden Club's May morning meal, sponsored by the club to raise money to have iron railings put up at the front steps of the Willkie House.

Down town at Hotel Savery, Sunday morning, over 300 women gathered for the annual Ladies of the Press Breakfast, sponsored by the Des Moines Chapter of Theta Sigma Phi, national honorary fraternity for women in journalism. Priscilla Wayne Des Moines Tribune columnist, was toastmistress.

Had the opportunity of meeting Laura Lou Brookman, managing editor of the Ladies Home Journal, who was guest speaker.

To the Iowa women representatives of newspapers, magazines, public relations, free-lance writing and homemakers, Miss Brookman gave information regarding the "largest women's magazine in the world." She revealed that last year, a total of 68,202 manuscripts were read by the Journal staff. Of the book-length stories published in 12 issues, 1,542 book manuscripts from writers throughout the nation and world, were read and 17 were published.

To select the 728 articles that appeared in the Journal last year, the magazine staff read 4,708 articles submitted by writers.

A question and answer period followed Miss Brookman's talk. She asked the questions and went through the audience recruiting women to go to the platform to make their answers.

The managing editor of the Journal was interested in such questions as:

"What subject studied in school

Some Of Crescent School's Graduates, Staff and Guests

Some of the members of the graduating class of Crescent School of Beauty Culture, members of the school's staff and guests at a banquet held Sunday, April 24, are as follows (left to right, first row): Mrs. Faye S. Waterford, instructor; Mrs. Doris Davis, former student; Mrs. Lovetta Carter of Fort Madison, Miss Esther

Bradley of Des Moines, Miss Dorothy Williams of Sioux City, Miss Equilla Green of Waterloo, and Mrs. Bernice Edwards of Des Moines, all graduates. Back row—(left to right): Mrs. Joyce Moore, Hannibal, Mo.; Miss Freda Blakey of Cedar Rapids; Miss Gertrude Johnson of Des Moines; Mrs. Willie Winfrey of Sioux City;

Mrs. Mary Hale, and Mrs. W. Lawrence Oliver, guest speaker, both of Des Moines.

Graduates not in photo were: Rainey Austin of Waterloo, Dana Rumley of Pershing, Mary Williams of Fayette, Mo.; Gloria Bailey Forrester, Des Moines, Equilla Green, Waterloo, and Esther Bradley, Des Moines.

With Mrs. Barbara James presiding the following program was

has been the greatest help in your present job?"

To this question women listed Latin, typewriting, psychology, applied art and reading.

To the question—"the subject you wish you had studied," other women answered: cooking, home economics, history, human relations, shorthand and foreign languages.

The mention of foreign languages recalled the annual Iowa Press conference at Iowa State College last week, when two native French women, making a tour of the country, were guests at the banquet.

They were: Madam Yvonne Padrietz of Paris, writer for the magazine Deux Mondes, and Madam Claude Salvy, feature writer assigned to the press office of the president of the Republic of France.

The two visitors knew very little English; and, few of the press women knew very little French. We tried to talk—but, all I could remember, then, from my K. U. French courses was—"Je ne sais pas" (I do not know)."

I did manage to get an autograph from Madam Padrietz with her address, so that when and if, I go to Paris, I may be able to find her. But, how I wished I could have remembered my French.

The Journal's managing editor kept the questions coming as she roamed the audience, tapping women on the shoulder and asking them to give their opinion on the question.

Under the subject of employee-employer relationship, Miss Brookman wanted press women's opinions on the "most important qualities of an employee."

Women advocated loyalty or service, understanding and facility in human relations, versatility and adaptability.

The "ideal qualities of an employer," brought answers of tolerance and consideration of employees' problems and availability and impartiality.

Miss Brookman had reached my table when she was seeking opinions on "whether women preferred working for a man or a woman." She tapped me on the shoulder and asked if I would reply to the question. At the mike, I pointed out that "only a woman would go through the audience asking other women to do the talking for her," and then I stated my preference. Later Miss Brookman commented that "I liked your reply."

She told the women that the duty of a managing editor was to get

Young Mother 'Had Peck Of Trouble' With Little Boy Because She Did Not Know What To Expect

Written By Afton Smith, SUI Assistant Professor

The other day a young mother had a peck of trouble with her little boy just because she didn't know what to expect of him. She appeared to be still in her teens, and he was about 14 months old. They were on the bus.

The mother wanted the child to sit still beside her, but of course he couldn't sit still. No child of that age has a nervous system mature enough for such discipline. Besides, his curiosity literally pulled him up to the window to look at things. Here are two facts about a child of this age that cannot be ignored.

Every time the child stood up his mother set him down hard with a good scolding. He cried a little but in a few minutes stood up again. Occasionally she "smacked" him. Then he cried hard and clasped his arms about her neck, like a child drowning in a sea of confusion. He clung to her in desperation, for he obviously did not understand why he was punished. Mother loosened his grasp and planted him firmly on the seat again.

Poor mother and poor child—her fatigue and his bewildered expression were tragic. If she had only known other people" to do the work for you."

The closing question was "outstanding gripes."

To add to the interest of the breakfast, I was lucky enough to sit across from Mrs. Ava Johnson, a member of the sorority's hospitality committee, who did not eat scrambled eggs. When she learned that I did not eat sausages, we had an even exchange and everybody was happy. Hot biscuits and pitchers of milk were plentiful. Attached to my bag of samples and souvenirs, was a gold ribbon, which entitled me to claim the hat box and corsage, the centerpiece at the table where I sat. A guest at each of the many tables received a similar prize.

The second Sunday in May will be a busy occasion for the mothers. Families will get together for the annual Mother's Day events. In the hospitals and nursing homes are many aged mothers. If you would make them happy, drop them a card or visit them.

Mariners Doing Well Despite Godfrey Firing

New York.—(CNS)—The Mariners—outstanding interracial group of singers who got tinkled from of Arthur Godfrey team last week—are doing even better than expected.

For eight years the Mariners were with Godfrey and thereby were almost a fixture of the redhead's set-up. When notified that their services were no longer needed, the Mariners were heartbroken and remarked: "It was like stopping a river in flow."

But like others of the ousted-by-Godfrey club, the Mariners soared in bookings. Their new agency—the William Morris—reports that their fee has been upped from Godfrey's salary and they have plenty of telegraphed offers. They will be on the Ed Sullivan show several times plus go right through May with class clubs and theaters.

HOUSING IN DES MOINES STILL A PROBLEM

In spite of the fine progress Negroes have made in Des Moines, housing has been the most difficult problem to improve. And the failure of each successive legislature to pass an enabling act necessary to construct low cost federal housing has placed the situation at a more disadvantageous position.

Many angles have added to the difficulty, some consistent and some inconsistent.

Prior to World War II, except in a very few isolated cases, Negroes were housed in the old sections of the city confined principally to a few blocks in each area. The housing improved only as one family penetrated the perimeter enlarging the ghetto.

It has been the policy of realtors not to sell to Negroes in the better neighborhoods either a house or a lot which just about kept construction of homes they could buy at a minimum event though they were able financially.

Most lending agencies, although making loans insured by the federal government, have used their position to prevent Negroes from financing homes in so-called white neighborhoods and also white people who live in the so-called Negro neighborhoods from doing likewise.

More recently, the federal housing administration has announced that loans would not be made on these insured mortgages where racial discrimination prevails. But this is being done in projects here where Negroes are denied the right to buy.

On some occasions there has been talk of building an all-Negro housing project. But Negroes have opposed it on the ground that such an arrangement simply perpetuates segregation.

None of the panaceas enumerated will ever work satisfactorily. And this because of selfishness and an unwillingness to deal with each individual on his own merits.

Frankly, an individual should be free to buy a home that he can afford whether on Country Club Knolls or in some of the poor sections. And if the smoke screen is blown away financial standing and education will place Country Club Knoll people in the Country Club Knoll Addition and the less fortunate in a more moderate section whether he be black or white.

There are many white people who rebel against certain white people; there are Negroes who do likewise. And also many white people would rather live next door to a decent Negro than a white tramp and the same is true among Negroes.

Of course, there are those who use the housing smoke screen to keep minorities down; who chide others for displaying racial prejudice but do so themselves when they are involved.

But this issue must be met. It can be met if intelligent Negroes and whites decide and act to do so. And it cannot be done by pot shots at each other but by working together for an honest adjustment.

RELAYS AN EDUCATION TO PARTICIPANTS AND PUBLIC

Last Saturday, seventeen thousand spectators sat in the Drake University stadium where they witnessed the Annual Drake Relays. Contrary to just about the usual, the day was clear and bright which served as an impetus for the participants to do their best to break records. And 12 they did break.

As one event after another was reeled off with precision, fairness and the spirit to win—and be declared the winner, they must have been reminded of some of the criticism directed at athletics in our schools and have concluded that "if this was what they are complaining about, their complaints are not well founded."

Here were boys from East, West, North and South; some white, some colored—and colored is used advisedly for all colored participants were not Negroes. And the officials represented about the same mixture of racial strains thus producing a pretty good cross-section of the nation.

And there was southern and northern white and Negro boys slapping each other on the back congratulating each on his success; and there was a Negro sub-attendant from East High School in Des Moines, to the queen, who hailed from Houston College in Texas.

All this constitutes the broad educational aspect of athletics in the schools which many people miss. It is a distinct advantage Drake University brings to Des Moines which endears it to the people of this state.

ability to the community demanded that it ensure continuous and uninterrupted service. The company alleged this could not be maintained if Negroes were hired as operators.

"With this background, it is indeed heartwarming to know that after a 13-year interval, which was a festering sore in the local community and which contributed much ill feeling between various groups of citizens here, the situation has been remedied and it has taken place without any of the anticipated difficulties or trouble.

"For, these five operators have been at work in this community for more than two months performing useful services according to their ability. The operators, who were chosen on the basis of their qualifications and experience, have performed their duties well, and I am assured by the company that henceforth such positions will be filled on the same basis without regard to race or color.

Determined Activities

"This change did not take place easily, but through determined activities by many persons. Under the leadership of President Eisenhower, it took place peacefully. This is the way such progress is made—through conciliation by men of goodwill taking small steps, one at a time. There were no spectacular attempts at legislation or retreating to name-calling, but the end result was progress.

"The President's avowed policy of ending all vestiges of segregation and discrimination in the Nation's Capital created the moral and ethical environment for this accomplishment."

26,000,000 Pike Eggs In Hatcheries

A bumper crop of northern pike eggs is now hatching at three northern Iowa fish hatcheries.

The Lansing, Clear Lake and Spirit Lake state hatcheries are holding 430 quarts of northern pike eggs, totalling nearly 26,000,000 eggs. The Spirit Lake hatchery alone had 150 quarts of eggs this year, as compared to only 6 quarts last year.

The boom in egg production is due to the large year class of northern pike that is now in spawning condition.

Josephine Baker Is Back Performing In California

San Francisco, Calif.—(CNS)—Josephine Baker is making a very quiet though sudden return to working in this country. She was to start April 25 at the Geary and it will mark her first appearance here since she's been in the Winchell-Argentina hassle.

Coming in from engagements in Canada, La Baker first held a news conference declaring that she never said there's more freedom in Argentina than in the United States. She also told how excited she was over the Supreme Court's decision on segregation in schools.

The booking of Baker was a quick thing. It's called "An Evening with Josephine Baker" and will feature French and American songs. Miss Baker's last date here was in 1951 at the Golden Gate Theater.

HEALTH FOR ALL

KEEP WALKING

The Power failed. In the great city the millions of tiny hand cars that carried the people even the shortest distance from bed to breakfast table stopped moving. For a long time the people clung to the cars on which they depended, but hunger and finally panic set in. On hands and knees, they began to crawl in search of food and safety. Helpless, hopeless, they died by the thousands as their beautiful civilization ground to a halt.

Science fiction? Of course. A writer's dream of the future when man's feet have become as useless as his appendix.

Could it happen? Look out the window at a beautiful May day. You would not want to lose the power of walking down a country road or even a city street on such a day. But how often do you do it? Do you really walk, or just get around? If you started out right now, how soon would you tire?

Muscles have to be used, or they lose tone and weaken. Our feet are a remarkably delicate assembly of small bones and muscles. To do their job, they must be kept at peak efficiency.

But you say, I'm a housewife and I'm on my feet just about every minute the live-long day. You may be on them, but do you really use them? Do they carry you comfortably, or just shuffle along complaining at every step?

It is lucky that our feet do not suffer and grow weak without complaining. If they are in trouble, we get pain signals not only from the feet themselves but also from the back and the head. We feel tired all over.

We can prevent foot trouble by practicing correct walking methods. Take a good walk now and then, and when you do, use your whole body, and swing your legs from the hips. Always walk with your feet parallel, and put them down with the whole sole touching the ground. Shoes must be correctly fitted. If you only have to sit and look pretty, spike heels will do, but if your feet must work, low solid heels are the thing.

You may be the first to order one of those little machines to speed you through your household tasks, but let's keep the power of walking for pleasure with pleasure.

things, for they had a good club.

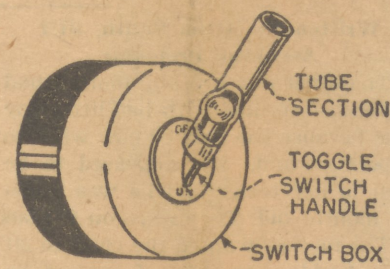

The most thrilling of all the races were in the high school section. Tom Jennings of Marshalltown ran away with the Century. Ted Harvey of East never did get started and so was never in the race. But Harvey did come up with the high jump honors.

High School Races

It remained for Gerry Spencer of North to stage two of the greatest high school races we ever saw to bring the Polar Bears home in the mile relay. Spencer ran first and held his own with the crack Roosevelt runner and then North got ahead and went on to win. Then on Saturday came the race that everybody is still talking about. Roosevelt's anchor man grabbed the baton about a yard in front. Jeffy, his
