### Atty. McKnight's Request to Be Excused in Narcotics Case Is Granted by Court

For the first time in his 20 years of practicing law in Iowa Attorney Henry T. McKnight asked the court to excuse him from representing a defendant—and the request was granted.

McKnight's request to be excused

ATTY. MCKNIGHT

from representing one of the nine indicted on narcotics charges on the grounds that he is "bitterly opposed" to such activities, was granted Monday by Judge Edwin Hecklin, who is serving his first circuit term in Des Moines.

Served When Asked

A Des Moines Attorney since 1946, McKnight said he "had always served" when asked, but pointed out "there were never any dope cases until now."

He was appointed Wednesday, Nov. 27 by Judge Hecklin to represent Richard Lee Elliot, 21, the defendant whose name was held secret in the grand jury indictment. Elliot, indicted on charges of violation of narcotics laws and conspiracy to violate narcotics laws, was to have been arraigned in federal court Monday morning but the arraignment was delayed after McKnight made his request.

Grounds

In his request to the court, McKnight said he objected to his ap-

pointment as counsel for Elliot, on the following grounds:

That he has been for a number of years the superintendent of the Corinthian Baptist Church Sunday School and "has been fighting undercover against the activities of these defendants and others in the dope-peddling ring."

Approached

That when the defendants were first arrested "the said objector (McKnight) was approached to be hired as counsel for some of them (the nine under indictment) and refused to be retained on the grounds he (McKnight) was "bitterly opposed to their activities and with good conscience he could not represent them."

Fair Play

That he feels "to be called on to defend the defendant (Elliot) in this case, who is also charged with conspiracy with some of the same defendants who sought to employ the objector (McKnight) and were refused, would be against the best interests of the defendant (Elliot) and it will be contrary to justice and fair play."

McKnight practiced law in Sioux City for nine years before coming to Des Moines in 1946.

### Elliot Pleads Innocent To Narcotic Charges

Richard Lee Elliot, 21, the person whose name remained secret in the grand jury indictment pleaded innocent in federal district court Monday afternoon to charges of illegal sale of narcotics and conspiracy to violate narcotics laws.

Edwin R. Hecklin had appointed Robert Ray as his lawyer, to succeed Henry T. McKnight. Elliot is one of nine defendants facing trial as the result of a mass raid here Sept. 27.

### Polk County Bar Asks Court To Turn Down C.P. Howard's Second Reinstatement Plea

A second request for reinstatement filed in August 1957 by Charles P. Howard, 62, former Des Moines attorney, met with opposition here early this week when the Polk County

HOWARD

Bar Association asked the supreme court to keep Howard from practicing law in Iowa. A supreme court hearing on Howard's petition is scheduled for Dec. 16.

Disbarred in 1951

Howard, who surrendered his li-

cense to practice law in Iowa Feb. 16, 1951 three days before a scheduled hearing on disbarment charges, had his first request for reinstatement of his license, refused in 1952 by the state supreme court. According to sources close to Howard, he went to Chicago to practice but faced disbarment there when knowledge of his Iowa disbarment was learned. Since then he has been working with the Moral Rearmament group, an organization working to eliminate wars, and has traveled all over the world in the interest of the society.

Grounds

Disbarment proceedings culminated against Howard in 1951 on the grounds that he failed to account to some of his clients for money due them as a result of law cases. Howard, who had made a trip to Russia the previous year, denied the charges claiming that the disbarment action was the result of "hostile atmosphere."

Included in the former attorney's second application in August, was a recommendation for reinstatement signed by five Des Moines attorneys—W. Lawrence Oliver, Oscar E. Jones, Robert Wright, James B. Morris, Jr., and Booker T. Richmond.

New York.—Addressing 1300 guests at an NAACP Freedom Fund dinner here, Governor Averell Harriman joined Frank Ricey, Sr., Duke Ellington and Jackie Robinson in calling for increased support of the National Association for the Advancement of Colored People in its efforts to eliminate racial discrimination and segregation.

The dinner, held in the grand ballroom of the Hotel Roosevelt on the night of Nov. 22, took in nearly \$70,000 for the Association and added 400 persons to the list of NAACP life membership subscribers. Honored at the dinner were Mr. Ellington and Mr. Ricey, each of whom received a scroll.

Cross-Section

In attendance at the brilliant affair was a representative cross section of the leaders of the civil rights struggle throughout the nation from New York to California. Included were national, state and local NAACP leaders, prominent political figures, churchmen, labor leaders, major league baseball players, outstanding personalities from the theatre, representatives of women's organizations, business and professional men and women, and many others.

### Library May Help To Find Lost Address For Xmas Mailing List

Forget an address on your Christmas card mailing list? Well the information department of the Des Moines public library may be able to help you.

Again this year the library will operate an "address directory" service through use of its collection of telephone directories. Library officials request that if a person needs more than four addresses he come to the library.

If fewer than four are needed, telephone requests will be taken, they said. Last year about 12,000 addresses were found by library workers from hundreds of current telephone books from all cities of more than 35,000 population.

### Urges Mayor to Act on Biased N.Y. Housing Bill

New York.—Mayor Robert F. Wagner was urged today by Roy Wilkins, NAACP executive secretary, to give "wholehearted, actual support" to a municipal measure forbidding bias in housing, known as the Sharkey-Brown-Isaacs bill.

"We cannot emphasize too strongly the need for action on your part," Mr. Wilkins declared in a telegram to the mayor. "New York City must assume the leadership in assuring its citizens a free market in housing. You have repeatedly endorsed this measure in principle and we are looking to you to give it your wholehearted, actual support."

The message specifically urged the mayor to recommend that the committee on general welfare report out the bill, including coverage of cooperative apartments and giving the Commission on Intergroup Relations administrative jurisdiction. It also urged Wagner to issue a "letter of necessity" to the City Council for their action on the bill on Dec. 3.

The Sharkey-Brown-Isaacs bill forbids refusal to rent or sell dwelling space in apartments, residential hotel suites and tenements because of race, color, religion, national origin or ancestry.

Dr. King was convicted of violating Alabama's anti-boycotting law.

All remaining criminal charges involving 91 cases growing out of the Montgomery bus boycott and the subsequent bombing of Negro churches and homes of boycott leaders were dismissed by the state Nov. 26.

### Army: Police Protection On Base Does not Extend Off-Post to Mixed Couples

Washington, D. C.—According to a spokesman from the Defense Department, the Army is following its policy not to violate state laws, when it bowed to the wishes of Texas officials to prohibit Negro soldiers with white wives from remaining with their outfit when it was moved from Germany to Fort Hood.

31 Couples

All military personnel will get full protection as long as they are on the post, but this same protection cannot be guaranteed off post, declared the spokesman. He pointed out that there were only 31 such couples in this division, and they

had a perfect right to remain in the outfit if they wished to stay right on the base.

Not First Incident

Of course, if you want to get real technical, continued the spokesman, these soldiers could have insisted on remaining with the division. But the army had discouraged it because it did not wish to subject its men to the humiliation and harassment which they might have met in the community.

This was not the first such incident the spokesman added. In accordance with its policy the army had always taken mixed couples out of outfits sent to the Southern area.

## Roy Wilkins Lectures At Dartmouth College

Hanover, N. H., "Developments in Little Rock have brought into focus the basic constitutional character of the race problem in this country," Roy Wilkins, NAACP executive secretary, told 600 Dartmouth College seniors.

Mr. Wilkins addressed the students on Nov. 25. His topic, "The Race Problem," was one of a series of Great Issues lectures which Dartmouth seniors are required to attend. The series brings to the college such distinguished scholars and leaders as Dr. Gordon W. Allport, M. F. Ashley Montagu, Aneurin Bevan, British M.P.; President Harold Taylor of Sarah Lawrence College, and many others.

## Very Little Racial Discrimination in Navy

New York, N. Y. Practically no discrimination against Negroes is found on U. S. Navy ships and bases but "there is room for even more improvement," was the report made public Sunday by Mrs. Ruth Danenhower Wilson, who did the survey for American Civil Liberties Union.

Negroes have difficulty being accepted for the naval reserve officer training corps in colleges, the survey found.

NAACP, Iowa Branch, the National Conference of Christians and Jews in Iowa; and the American Association of University Women, Iowa Branch.

John Schmidt, of Sioux City, is chairman of the state contest. The posters were judged by Mr. Harris and Dwight Kirsch, director of the Des Moines Art Center. The prize winning posters will be displayed Friday.

## Magic Fruit Cakes For Holidays

FRUIT CAKE IS SOMETHING OF A TRADITION at the holidays. In "the old days" this delicacy took hours in preparation, with chopping of fruit and meat and suet, grinding of spices, shelling and chopping of nuts, and slicing of fruit peel. Nowadays you can make a perfect fruit cake in just a few minutes, by using packaged condensed mince meat and sweetened condensed milk, and buying nut meats and candied fruits ready to use. To add to the beauty of your taste-tempting cake, top with snowy frosting, decorate with green wreaths and cinnamon drops for candy holly.

This fruit cake would make a welcome gift as well as good eating at holiday celebrations.

### MAGIC-FRUIT CAKE

1 9-ounce package mince meat  
1/2 cup water  
1 egg, beaten  
1 cup (8-ounces) mixed candied fruit, coarsely chopped  
1/2 cup sifted flour  
1 can (1 1/2 cups) sweetened condensed milk  
1 cup walnut meats, coarsely chopped  
1/2 cup sifted flour  
1/2 teaspoon baking soda

Break mince meat into small pieces and put in a two-quart saucepan. Add water. Place over heat and stir until lumps are thoroughly broken. Boil briskly one minute, stirring constantly. Remove from heat and cool. Add egg, candied fruit, sweetened condensed milk and nuts. Blend well. Stir in flour and baking soda until just blended. Pour mixture into 9 by 4 by 3 inch loaf pan which has been greased, lined with waxed paper and greased again. Bake in moderate oven (350° F.) 1 hour and 30 minutes or until center springs back when lightly touched with finger.

### BRUSHES

To keep bath brushes sanitary, wash after each use in hot soap or detergent suds and rinse under running hot water. When traveling, keep damp brushes in plastic bags.

### Naval Academy

According to Mrs. Danenhower, Negro applications for the naval academy are very low because specialized coaching schools "will not accept them" (Negroes) and "no Negro officers are on duty in the Navy department at the Pentagon or on admirals' staffs at navy bases."

## Outlook in Montgomery, Ala.

### Attempt to Nullify Negro Voting Power Thru Arrests, Political Gerrymandering

Montgomery, Ala.—The Montgomery Improvement Association under the leadership of its president, The Rev. Dr. Martin L. King, will observe its second anniversary Dec. 5-9 with an Educational workshop including special seminars on non-violence and social change organized and developed around the theme: "Freedom Through Civic Responsibility."

At the opening night mass meeting Dr. King will be the principal speaker. The sessions also include youth meetings and oratorical contests, and will climax Sunday afternoon, Dec. 8, at another mass meeting with Dr. Archibald Carey, pastor of the Quinn Chapel AME Church of Chicago.

#### General Outlook

In its general outlook reports the MIA finds (1) that practically all the 27,000 Negroes who lived within the city limits of near-by Tuskegee have been gerrymandered out of the city by legislative action designed to shrink the city to an all-white population, with all but 10 Negroes being disfranchised by the action.

#### Abolish County

To add to this injury, the people of Alabama will go to the polls on Dec. 17 to vote on whether the whole county (Macon) in which Tuskegee is located, will be abolished, so that the possibility of Negroes ever gaining control of the ballot will be eliminated. If this move is successful, 12 other counties with dense Negro population stand ready for similar action.

(2) City architects are building a \$900,000 Museum-Library for whites and at the same time are making plans for a "branch" library for the 46% Negro population costing only \$100,000.

#### Arrests

(3) The park situation is just as unsatisfactory with several Negroes being arrested in the past months for "recreating."

(4) Attorney Fred Gray was arrested for "sitting" in the white section of the Montgomery airport.

(5) Vandals sabotaged a cable and caused a blackout of the interview of Dr. Martin L. King by NBC television several weeks ago.

(6) The NAACP is still inactive in Alabama as a result of the \$100,000 contempt fine by a circuit court judge, for failure of the organization to produce records of memberships and the case is now pending in the U. S. Supreme Court.

(7) Negroes have redoubled their efforts to become registered voters despite stiff resistance by the Board of Registrars.

(8) Many of the supermarkets have fired, or dismissed most or all of the Negro help. Even some of the truck drivers for leading stores have been replaced by white drivers.

### Fraternities Vote to Keep Racial Bars

Colorado Springs, Colo.—Sixty-one national and international fraternities, through their delegates to the annual National Inter-Fraternity Council, instructed the executive committee to carry out recommendations of the report defending restrictive membership practices of fraternities.

In answer to charges of discrimination on basis of race or religion, the report said "Each college fraternity is a social organization, voluntary in membership, and is entitled to exercise its fundamental American right to choose members in accordance with its own standards."

There is agitation in more than 50 colleges against the clauses, the report said. Among the colleges and universities mentioned was Iowa State College.

### Belafonte Leaves Sick Bed to Sing at Waldorf Astoria; Nat Cole Drops TV for Stage Shows

#### WITH DELORES CALVIN

New York City—BELAFONTE, LEAVES SICK BED TO SING... Claiming nothing could stop him from his fabulous Empire Room opening short of a total collapse, weakened Harry Belafonte, who had the flu coupled with his re-

HARRY BELAFONTE

cent eye trouble got out of his sick bed and made his opening performance—even without a rehearsal... Such a feat is befitting only a great performer... The audience, naturally, went wild that he made it, as word had circled around that he would cancel out.

#### Celebrities

To add something new to the mood, Belafonte appeared in a black and white striped shirt which seemed to accent his huskiness and tone down his paleness due to the flu. The Waldorf Astoria is a performer's dream to perform in—and recently it has been inhabited quite a bit by Negroes... namely Lena Horne, Pearl Bailey, Lionel Hampton, Basie, Sarah Vaughan and others... But to Belafonte, the carpet was spread and he made it very intimate and friendly—as if the entire Empire Room was under his spell... which indeed it was.

#### Nat King Cole

Just as we were sure Nat King Cole was all set with his TV show and going into greater glory—what with his catchy gimmick like the one with Ella Fitzgerald singing "Dancing On The Ceiling"—suddenly it's all over and Nat and NBG part ways... No one exactly knows the reason Nat didn't want the 7:30 p.m. Saturday spot—and many think he should have taken it just to keep the show going—but Nat feels he'll do some big money dates for the next 3 months and then—back to the TV cameras... However, when he returns, things could be better—or worse... Nat was just beginning to mellow before the cameras—even his commercials were more natural and appealing... He was just getting to feel at home and right with the audience... Some performers do a whole season and never get the knack of working with an unseen audience... We say, as a pianist Nat knows he cannot miss practicing even for a single day—and the same goes in TV... To be good, you MUST stay before the public—and a 3 month layoff won't help.

#### W. C. Handy Week

W. C. Handy had a birthday this year he won't soon forget and seems like nobody will let him. Being Handy Week—just about everybody hummed or sung strains of his most famous melody, "St. Louis Blues"—and the Roxy Theatre joined with their sultry version which served as an introduction to a big production of "The Man Who Got Away"... Done with ice skating dancers, the effect was terrific... Althea Gibson, who critics acclaimed for her singing at the

## IUE Charges Management With Using Race Hatred as New Union Busting Weapon

Detroit, Mich.—"Race-hatred is the new union-busting weapon of management and the year 1957 possibly may go down as 'the year of infamy,'" James B. Carey, President International Union of Electrical, Radio and Machine Workers AWL-CIO, today advised the 250 delegates attending the IUE National Civil Rights Conference in Detroit.

#### New Weapon

Hartnett pointed out that if management's discriminatory practices are permitted the very loss of civil liberties will be the inevitable next step.

He emphasized the need for combating censorship, assailing discriminatory practices, defending the workers' fundamental right to free speech, right to organize, and the unobstructed access to his union.

Guest labor leader Emil Mazey, Secretary-Treasurer United Auto Workers, described white-supremacy advocates as "acting like arrogant masters of ceremonies at their own conception," and pledged UAW unity in all efforts to strive for "a better world for all working men and women—regardless of race, religion, or sex."

Without mincing words, both Carey and Al Hartnett, IUE Secretary-Treasurer and Chairman of the IUE Civil Rights Conference noted that profit-obsessed big business was attempting to pit race against race in its fight to destroy unions.

Carey accused Southern employers and the multi-million dollar Northern industrial giants of unleashing "a new and uncivilized kind of warfare" against organized labor by "employing this latest unscrupulous technique against labor."

Carey called upon the Eisenhower-appointed Federal Civil Rights Commission to perform its obligated

### Hampton Charts Drive for 10 Yr. Development Plan

Hampton, Va.—New emphasis on scientific education, a new building and increased faculty salaries are among the goals of a \$5,000,000 Centennial fund-raising drive approved by the Hampton Institute Board of Trustees in their Fall meeting.

#### 10 Year Program

Hampton's President, Dr. Alonzo G. Moron, met last week with the executive committee of the college's Board of Trustees to blueprint actual implementation of the fund-raising program voted by the Board at a meeting last month in New York. Money raised will serve as the economic foundation for a ten-year development program designed to bring the Hampton curriculum in line with current and future educational needs. According to Dr. Moron, about 40 percent of the \$5,000,000 fund will be added to the Institute's endowment, assuring increased yield for future improvements. Nearly \$3,000,000 is earmarked for new teaching and research in the sciences and for a large classroom building now in the design stage.

The program calls for doubling of science facilities, including expansion of chemistry and physics laboratories. Present facilities were donated by the Dupont family in 1928 and have not been enlarged since then.

## Imaginative Plans, Creative Activities Help In Establishing Happy Home in Modern Life

WRITTEN BY MAY P. YOUTZ, ASSOCIATE PROFESSOR

Many persons have memories of a happy childhood and happy family life. All want this, too, for their children.

Today thoughtful persons may sometimes feel that the modern family is faced with problems that cut down chances for a happy family life—not room enough for each person; too many outside activities even for children, to say nothing of the demands on parents; crowded conditions in schools that react on homes, and relatives living so far away that children miss the loving relationships our forefathers knew in an earlier day.

### Happy Homes

Happy homes don't just happen; they are based on the way people feel toward each other in the home; love, respect for each other's rights, and the security which these feelings develop.

It takes more imaginative planning in modern life to establish and carry on a home where all participate. Children are our greatest help here; they love activity for its own sake, for passive acceptance is not a role which they enjoy.

### Create Activities

Many creative activities can be carried on at home: Cooking, weaving, working with wood, studying birds, simple home dramatics, family picnics—make your own list; and let the children make a list. Here, let the children make a list.

IMPORTANCE OF  
HUMAN RIGHTS  
OBSERVANCE

Governor Loveless has designated Tuesday, December 10 as Human Rights day. Several organizations have combined to hold a human rights banquet Friday. This observance is designated to emphasize the rights of men whether in Iowa or any place in the world.

As we criticize other nations about the treatment of various groups within their own borders, it is easy for us to take a more holy than thou attitude quoting the phrase "all men are created equal."

And frankly, many Americans believe and abide by this phrase. On the other hand, there are those who would rather be destroyed by foreign forces than accord that principle to some of their neighbors.

Unfortunately, those who deny others their rights are more vociferous and at times seem to speak for all the people. But as time goes on those who think right gain more courage, are willing to be counted and rise to the occasion when the rabble goes to far.

Too many people take the principle as a matter of course. They think everybody thinks right. But that hidden troublemaker does a lot of damage not only by his own acts but also by winning over the undecided, the unsuspecting, the fellow who does not have courage to stand up and be counted but follows blindly those who make the most noise.

Thus, human rights observances should not be mere profane affairs but a rededication to the job of making the slogan "all men are created equal" a guide for dealing with our fellowman whether it be at work, at play or at church worship. Americans need to work harder to live by what it professes.

VOTING PROCEDURE  
PRESENTS PROBLEM

Following the passage of the civil right bill by Congress which provisions are directed more at voting than any other denial of rights, immediate steps have been taken by Negro leaders in the south in collaboration with the NAACP to step up registration and voting.

Most states in the deep south have some form of restriction on voting aimed at the Negro. And it is generally known that if those same laws were administered fairly, there would be little complaint for about as many Negroes, proportionately as whites, would vote.

One familiar test is the educational qualification. And those who have seen the list of questions asked a prospective voter, which appeared in the daily press recently, must conclude that it requires a pretty good student to answer them. All Negroes cannot answer them; neither can all the whites.

The real difficulty there arises with the election judge who decides whether the answers are correct. Of course, he has those answers to check the voter but in the past most answers by Negroes have been wrong; most answers by white have been right.

In addition to those barriers, intimidation and physical violence have been used to discourage voting. So by a combination of the two, Negroes have been pretty well kept from the polls.

The Civil Rights Commission has full authority to look into these matters and report to Congress its findings. In the meantime, it is hoped that the full force of the state and federal governments will be employed to see that every prospective voter gets a fair opportunity to cast his ballot.

And this is all anyone desires.

WHAT SOME PEOPLE  
DON'T KNOW

Admonishing the defendants who were found guilty of intoxication and bound over to the grand jury for resisting arrest in Davenport Monday, the judge said the conduct of these men have gone far to widen good relations between whites and Negroes in that river town.

It would be interesting to know if the judge knows what these relations in his town are. The Bystander is reliably informed that there are only two places in Davenport where a Negro can get that no Negro in Davenport has a decent job in Davenport.

In fact, it is generally recognized that Davenport is one of the towns in Iowa where racial relations is at its worst.

Of course, the Bystander does not here argue for lawlessness, but it does argue against some of the things which bring on lawlessness. And when a Negro does stand up and fight, misinformed people are prone to designate such action as creating bad relations. It is a fault-

far phrase in use in many places where backbone is displayed by minorities.

Fisk Bulldogs Open  
Basketball Season

Nashville, Tenn.—Two freshmen and a sophomore are battling to plug up the only opening in the starting cage combination Fisk Bulldog Coach H. B. "Bus" Thompson is whipping into shape.

With four spots already sewed up, Coach Thompson said this week he has "high hopes we'll floor an even better basketball team this year." Fisk racked up a respectable 11-4 record in last season's conference play and Thompson has three of his former starters to build around this year.

The Bulldogs open against Alabama A. and M. in enemy territory on Thursday Dec. 5.

A&T College Aggies  
Halt N.C. Eagles 21-0

Greensboro, N. C.—The A&T College Aggies whipped arch rivals, the North Carolina College Eagles, 21-0, in their annual set-to, the Carolina Classic football game, played here at Memorial Stadium on Thanksgiving Day. The victory gave the Aggies a 13-11 record, with three ties, in their 27-annual meetings.

## SPORTS

BY ALLEN ASHBY

The All-American football team that appeared on a television show last Sunday started more arguments than a political conversation. People we talked to wanted to know where were Iowa's Karras and Gibbons? What happened to Pace of Michigan, Kaiser of Michigan State and Clarke of Ohio? Well, our answer was that this particular team was picked in October and partly we suspect on the last year showing of the players.

## Basketball

The three major schools of Iowa have their share of Negroes. Iowa has at least three on the squad. Drake and Iowa State one each. Both standouts starters. Wilt Chamberlain and Kansas are back at it again. Although we don't think the Jayhawks will be as tough as they were last year.

If you have a long memory you will recall that an All-American basketball player said that Bill Russell would never make the professional team. He didn't have a shot and his defense methods were inside. Well we wouldn't mind having a team in the pro league made up of Bill Russell. They would win the title by Christmas and then go sliding until playoff time.

## High Schools

Can't remember when the all city football team didn't include at least one Negro. And Negro cagers on various teams are getting scarce so they aren't stars. Looks as if we need another program of basketball education such as we had in the thirties, if we can get one off.

Drake-Louisville Are  
Sun Bowl Opponents

Drake University versus the University of Louisville. In the Sun Bowl at El Paso, Tex. New Year's Day will feature direct opposite offenses that should make for a lively and interesting game.

The University of Louisville using a running offense features one of the nation's speediest backs—200-pound Negro halfback who runs the 100-yard dash in 9.5 seconds. His name is Leonard Lyles. Lyles led the nation in scoring with 22 touchdowns for 13 points. He was a high school football star at Louisville Central and has become an all-time standout at the University. He has scored 300 points in three years.

Both teams have good season records with Drake (7-1) and Louisville (8-1).

## HEALTH FOR ALL

The Des Moines-Polk County Department of Health, in cooperation with the physicians of the county have been conducting a survey and study of the epidemic, Asian Flu. Said Dr. Speers, health director, "We now have data concerning the first six weeks of the epidemic. The purpose of our study was to learn what we could that would be helpful in the event of a re-occurrence of this disease."

## October Peak

During the first six weeks, starting September 28, over 27,000 were affected to the point where they sought medical care. The epidemic reached its peak on October 22. The most severely affected were the persons in the age group 5 to 14 and next the 0 to 5 group. The group least affected were the older age group. This follows the usual pattern of other types of influenza.

## 8 Deaths

While the incidence of the disease has been less in the older age group, they were the most severely affected.

Willie Mays Worth Million to St. Louis Cards  
But a Lot More to San Francisco Giants

St. Louis, Mo.—Willie Mays, the "say hey" centerfielder for the re-planted San Francisco Giants is worth a million dollars. It was revealed last week that St. Louis Cardinals owner, August A. Busch, Jr., had made an offer totaling \$1,000,000 for the star player in an effort to solve the Cardinals' centerfield problem.

## Cash Offer

The \$1,000,000 transaction was reported to have been a \$750,000 cash offer and to have included Card outfielder Wally Moon.

Horace Stoneham, owner of the San Francisco Giants, confirmed the offer in San Francisco. Stoneham said the Giants wanted to keep Willie "Because he's the best of all. The value of a ball player is ascertained by the way he performs on the field. Everybody knows Willie is the greatest."

"We have no intentions of selling Mays now. Maybe we will sell him about 15 years from now if somebody has a few ball players nearly as good to offer."

## In Farm System

Up until March 1953 when Busch acquired the Cardinals from Fred Saigh the Cards were among the few holdouts on Negro ball players.

Aaron is Fifth Negro  
To Win M.V.P. Award

Milwaukee, Wis.—When Milwaukee Brave, Hank Aaron, won the National League's Most Valuable Player Award recently it marked the seventh time in eleven seasons that a Negro player has won the prize. Of course that's counting Dodger Roy Campanella's three wins. Actually Aaron is the fifth. Jackie Robinson was the first Negro player to win the Award. He won it in his third season with the Dodgers. Two years later it went to Campanella. Campy won it again in 1953 and 1955. The Giant's Willie Mays won it in 1954 and last year the honor went to pitcher Don Newcombe of the Dodgers when he

by deaths. Eight deaths occurred during this period and only two of these under 59 years of age. One person was past ninety years of age.

Dr. Speers stated that the department will continue research to determine the total number affected in Polk County. This will include those that did not seek medical care. It will be done by a sampling process conducted by the Public Health Nurses as they visit the homes of the city and county.

## Flu Shots

We urge for our people, that they follow the recommendation recently announced by our State Department of Health. They are as follows: anti-flu vaccinations now for those who have not received them and in January for those who have had but one flu shot.

"We are thankful" concluded Dr. Speers, "that the epidemic has decreased to a point of near normalcy."

Campy Takes Pay Cut  
Is He No. 1 Catcher?

Los Angeles, Calif.—Catcher Roy Campanella of the newly formed Los Angeles Dodgers, seems to have reached the point of diminishing returns in his baseball career. At least, Buzzy Bavasi, assistant general manager of the Dodgers thinks so. Campy received a cut in salary and will get around \$36,000 for the 1958-59 baseball season. Bavasi said Campanella had a "miserable" year last season.

## New Catcher

And at the same time in a signed story by Al White of the Associated Negro Press claims that the Dodgers are "looking for a catcher to take over the No. 1 spot." White said that "for two years Roy has had bad seasons when he hit .214 and .249. Roy has been plagued with poor hands ever since he came up with an injured hand four years ago. A costly operation (\$10,000) got him back in the groove and he went on to win the most valuable player award for the third time. Then the chips in his hand began bothering him again and he couldn't bat up to form." White concluded that "time has begun to take its toll" on Campy.

## Necombe to L.A.?

In a signed story, Al White of the Associated Negro Press also sported a burning 7-7 won-lost record.

## MY PATHWAY

Prayer is my pathway  
To send my earnest plea,  
And blend my soul with nature  
That my heart and mind know  
Thee.

And all of virtues blessedness:  
Thy Spirit find in me.

A splendor-wakened soul conceives,  
Each wondrous vision mind can see,  
I know the heart and will achieve:  
For Thou hast planned that it  
should be.  
Grant Thou the understanding

Set Ray Mitchell's  
Golf Tournament for  
Miami, Feb. 24-27

New York, N. Y.—The beautiful Miami Springs Country Club will again be the site of Ray Mitchell's north-south winter golf tournament 24-27.

According to Mitchell, Florida which has been set for Miami, Feb. 24-27, born pro who now resides in New York City, golfers all over the country are looking forward to the winter tournament. In recent years, golfers from all sections of the nation have gone to Miami for this outstanding golf competition.

Last year Joe Roach and Eoline Thornton, both of Los Angeles, won commented on what he said are rumors that Don Newcombe, Dodger pitcher, is refusing to go West with the team.

"This is so much junk," said White, "and more junk is the report that Big Don won't play for any other team if the Dodgers trade him." "The behind-the-scenes talk is that the Dodgers made Don quite a loan to set up his liquor store and the Dodgers are businessfolk, not a charitable institution. So Don will do whatever the Dodgers say, with no foolishness."

Of Thy Great Reality,  
With awareness all my trammelled  
life: of Thy Entity.

And that prayer is my pathway  
To Thy All In One—in me . . .

## LIFE IS LIKE A FLOWER

Life is like a flower . . . from the  
soil it grows,  
To be nourished from the good  
green earth—  
Fed from the Winter snows . . .

The atoms of the elements, that  
make up every man,  
Determine his true qualities,  
And his place in the Masters' plan.  
The great designer made the seed,  
endowing it with power, the power  
of life, of form, of growth—

The wondrous beauty of a flower . .  
The flowering beauty of a soul, that  
reaches out to fields afar, across  
His mighty universe, . . .  
To bless a new-born star . . .

Boxing Commission  
Says No Bouts  
For Jackson

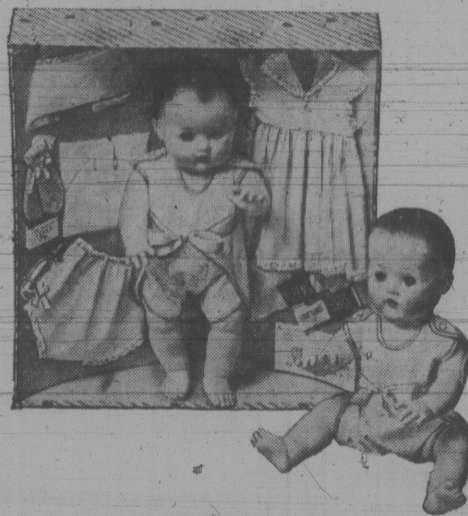

Racine, Wis.—in the wake of the California Boxing Commission's permanent suspension of Tommy (Hurricane) Jackson the National Boxing Association Friday asked all member states to advise promoters not to book Jackson for future bouts. It said Jackson is in danger of serious physical injury if he should continue.

The Commission's actions came after Eddie Machen knocked Jackson out in San Francisco a few weeks ago. N.B.A. president, Gilbert Jackson, said his organization "would prefer that the boxer retire on his own accord rather than face the stigma of enforced retirement."

## Hunting

Treat people with respect. This is sensible advice for good conduct. It is also good conduct to treat every gun the same way. With the hunting season in full swing your health department suggests that you obey all safety rules in handling guns, to protect your own life and the lives of others. Treat every gun with a respect that is due a loaded gun.
