Tributes to A. A. Alexander

May the GOOD ... that he did live ... long after him

BY MRS. FRANCES HAWTHORNE

A man of distinction ... loyalty ... congeniality ... fairness ... kindness ... was he, Archie Alexander, internationally-known engineer-contractor, statesman, civic-minded citizen, and Negro leader. Friends and acquaintances in all walks of life saw in him these qualities ... a man who rose to heights of greatness in many fields of achievements ... who realized the fruits of his dreams ... but did not make dreams his master.

The Virgin-Islands newspaper, "The Daily News", upon learning of his death wrote an editorial which ended with the following paragraphs:

"Governor Archie Alexander's contribution in the confused times was better recognized and respected after he left the island than during the time he occupied the Executive Mansion here. The very people who clamored loudly for his resignation and who led the march on Government House to force him to quit were the ones who, a few short months afterwards, wished he had been still in office. But it was too late.

Pedestal for Future

The man who had made a complete success of his life in the broad land of America could not bring peace and abundance as he envisaged it to a disorganized handful of people in the Virgin Islands. However, there is solace in the fact that he laid the foundation for the future, which, despite discord and misunderstanding, is an enduring pedestal for a happy future."

The flag over Government house remained at half mast until after the funeral.

At Tuskegee Institute in Alabama, where Mr. Alexander was a trustee for 16 years, school officials had a resolution drawn up conveying their condolences to the family: "Tuskegee Institute was close to Archie Alexander's heart. He had a fine understanding of the institution's needs as well as a great vision and fine imagination of its possibilities.

\$10,000 Gift

One of his most useful philanthropic gestures was his gift of \$10,000 for an engineering library. One could visit him on a job or tramp about a project without realizing that here was a man who had soared above limitations of race or color. His visions were international ... for it seemed as though he was seeking to have more young men recognize the possibilities in his chosen profession and to have them emulate his own career."

His partner of 30 years, M. A. Repass, proclaimed, "The life of Archie Alexander is an outstanding example of what one man can do who has the will and determination to succeed. He came from a poor home but was blessed with parents who taught him to be industrious and gave him the high ideals of honesty and integrity he carried through life. He early learned to face and overcome difficulties that get many lesser men down and in later years needed only to be told something was impossible to arouse his determination to prove it was not.

"The foundations of his efforts in race relations, education and government came from his success as an engineer and constructor where he won the respect of his associates and the people with whom he had contracts.

"Truly the nation has lost a great citizen, his family a devoted husband and brother and I have lost a business partner of thirty years and my best friend."

A neighbor for 15 years, Loren Cox, of Cox Boiler & Heating Service, stated "We have regarded them as highly as any neighbor we've had. I admired him very much because, despite hardships resulting from racial barriers, Archie got up in the world and became a big man."

Official Implies Extortion, Weapons Carrying by Negro Pupils Results of Integration

Kansas City, Mo. — A lunch money extortion racket and the carrying of lethal weapons allegedly perpetrated by Negro teenage students at integrated Central Junior High school in Kansas City, Mo., was being looked into by authorities early this week.

Supt. James A. Hazlett told a faculty meeting Monday that he wants all school principals to submit lists of students known to have been carrying knives or other weapons, or to have been extorting money from youngsters on school property.

Warning

Hazlett said he then would send registered letters to the parents of such students warning that if such offenses are committed again, the parents will be "forced to answer why their child should stay in school."

Earlier this month, after a student at Central Junior High struck an instructor, Hazlett promised teaching in a show at the Sands Hotel.

Davis, told reporters that he and his wife had known each other for about a year. Mrs. Davis has been wed previously and an annulment

ers they would be given legal aid in prosecuting such attackers and that the students involved would be expelled.

Integration

Hazlett told the faculty meeting he recognized that integration, now in its fourth year, had caused certain problems, but he is not sure, that integration is the cause of the extortion racket which is being done mostly by Negro students. He added, the racket is on the decline.

Central Junior High, formerly all-white school, has about 60 per cent Negro enrollment.

Larger Boys

Teachers told Hazlett the extortion racket is being worked by larger boys threatening and forcing smaller boys to turn over from 5 to 10 cents a day of their lunch money. Earlier this term, a student at Manual High school was slashed in the abdomen after he refused to pay a nickel to such a gang.

Leukemia means "white blood" and was applied by physicians of long ago to the appearance of the blood of itukemic patients suffering from varying degrees of anemia.

Voluntary Integration Plan For Nashville Public Schools To Get Court Hearing Jan. 28

Nashville (ANP) — The voluntary segregation-integration plan for the schools in the city, as drawn up by the board of education, will get a court hearing on Jan. 28, it was disclosed here last week.

Federal Judge William E. Miller, notified proponents and opponents of the plan to be ready on that date to present their respective arguments.

The plaintiffs in the suit have asked for a permanent injunction to end segregation in all schools in the city by next September. The board of education's "voluntary" plan would permit three school systems — white, Negro and integrated — with each parent selecting the one at he desired for his child through an annual school census.

In notifying all parties of the date, Judge Miller made certain stipulations:

1. The hearing will be held on the school board's report and objections to it on Jan. 28.
2. The attorney general and attorney for the Parents Preference com-

mittee will be permitted to participate in the proceedings as friends of the court by filing briefs and making oral arguments in support of the plan.

3. All parties concerned must file preliminary briefs with the court no later than Jan. 20.

Social Security to Be Discussed at Crocker Y

Dixon, executive secretary, announced that the Crocker Branch YMCA will present the first of a series of Public Affairs programs Tuesday, January 21, 1958, 8 p. m., 1333 Keosauqua Way, at which James I. Bostic, claims representative for the Social Security Administration, will discuss the topic, "How Social Security Affects You."

Mr. Bostic will cover such questions as: "Is your social security record up to date? What social security benefits will you receive upon retirement? Did you know

fore allowing them to integrate.

Georgia's atty. Gen. Eugene Cook, charged here last week that the NAACP had launched a test program. He claimed the plan provided that "any identification with the NAACP at the present time" be avoided but that the group "will enter the picture in the event admission is denied" and litigation results.

Cook also claimed his charges were "based on unimpeachable information furnished him over a period of three months."

SUI Sets New 'Fee' Installment Plan

Iowa City. — State University of Iowa students may pay their fees on the "installment plan" beginning next fall, under terms of a new plan approved last week by the State Board of Regents.

After making initial fee deposits, students or their parents will be billed for the unpaid balance on the installment basis in November, December and January for first-semester fees and in March, April and May for second-semester fees.

Under the new system of fee payments, a first-semester deposit of \$50 must be paid by Sept. 10 by graduate, law and resident nursing students (except nursing students, who must pay their deposits within two weeks after admission to the college of nursing.) A deposit of \$100 will be required for medical, dental and non-resident undergraduate students, of which \$50 must be paid within two weeks following their admission to the colleges concerned.

Jumbo Cereal Flake Hamburgers Hearty Fare for After-Game Buffet

Entertaining at a buffet supper after a football game is easy when the main course features Jumbo Cereal Flake Hamburgers. All ages enjoy juicy hamburgers served hot from a table grill in a toasted bun with favorite garnishes.

Cereal flakes are so quick to use in making hamburgers. They are easy to crush, thus eliminating the tedious job of crumbing bread. Juiciness and flavor are improved by the addition of cereal flakes. Main dishes are but one of the many ingredient uses of breakfast cereals. Cookies, confections, muffins, breads, and pies take on new flavors and textures by the addition of breakfast cereals. Cereals make important nutritional contributions of high-quality protein, essential B vitamins and minerals, in addition to food energy.

Hostesses who enjoy entertaining try to do as much advanced preparation as possible. Jumbo Cereal Flake Hamburgers can be prepared and shaped early in the day. A mold helps to make uniform-size hamburgers. For easy handling, place squares of waxed paper between each patty and refrigerate until time to grill. This recipe adapts itself to freezing. Simply prepare the individual patties, wrap in a moistureproof freezer paper and freeze.

The buffet table can be set before the game. Relishes can be prepared early in the day. After the game, heat the grill, cook the hamburgers, place potato chips and relishes in serving dishes, prepare a tray with mugs of instant cocoa and chilled milk and presto, supper is ready!

For a quick and easy dessert roll balls of ice cream in pre-sweetened rice cereal and serve with fruit or chocolate sauce.

Jumbo Cereal Flake Hamburgers

1 1/2 pounds ground beef
1/4 cup chopped onion

Parents Should Set Safety Example for Child! Teach Him Thoughtless Action Can Be Harmful

Written by Lloyd Lovell, SUI Assistant Professor

SET SAFETY EXAMPLE

One day when I was in high school, I received permission to rehearse some "fire-eating" tricks in an empty chemistry lab. I mixed a solution of chemicals, lit the combination, and poured the flaming mixture from hand to hand. As I was reveling in the spectacular stunt, a chemistry teacher entered. "Do you know what you're doing?" he asked.

"Of course I do, I'm . . ." and I launched into what I thought was a brilliant technical explanation of the process.

The teacher said quietly, "You're also generating phosgene, a deadly gas, and if you keep on you'll murder the class in the next room."

Point out Dangers

as to the likelihood of an accident.

We parents often are careful to children. We warn them about pouring flammable liquids on a fire to hasten its burning, and we teach our children to be cautious in crossing the street. Yet our own behavior often teaches them a possibly hurtful kind of attitude about taking safety precautions. We remove or ignore the guards on feed choppers, or we operate them in ways we know are dangerous, and we cross busy intersections against the light.

Knowledge of the risks we run is essential to adequately safe behavior, but just as important, it would seem, is the attitude that such knowledge should always be used. We cannot afford to gamble on the odds governing the likelihood of serious accident.

only a loss to the community but to the state, nation and entire world. . . . One of the finest persons I have ever known . . .

A personal friend who had known him since 1919, A. P. Trotter, president of the Iowa branch of the NAACP, reported, "Mr. Archie Alexander was a charter member of the Crocker Y, NAACP, and the Roosevelt club, and . . . he contributed financially and in service to civic organizations . . .

A retired businessman, David S. Krudener, 1340 Creston, "admired him a lot" and since the "early 20's" found him to be "a high grade gentleman."

G. W. Scott, 981 24th street, knew the eminent engineer for "35 or 40 years" and discovered him to be "a wonderful businessman, very dependable and congenial with everyone. His death is a terrible loss to the community . . . especially to young people."

A Des Moines woman formerly active in civic affairs and community service, Mrs. Harold Morrow 2912 N. Union, stated, "He was a fine gentleman . . . and his passing is a great loss . . . to our race."

The Rev. N. R. Olphin, Corinthian Baptist Church, during one of his hospital visits to see Mr. Alexander after he had undergone surgery, relates, "As I approached his bedside, he said, 'Reverend, recite with me the 23rd Psalm. I have always admired that Psalm.' . . . he took my hand and we recited . . . In the composure that comes after focusing one's mind upon things eternal, he released my hand, and I retraced my steps . . .

"I have never had a more impressive entrance nor a more edifying departure from a sick visit."

"In loving memory and high esteem for a true and loyal friend," S. Donald Butters, of Butters & Co., eulogized in a poem the loss of A. A. Alexander:

Goodbye old friend; the day is done
The boatman beckons from the pier
Take passage as the shadows fall
Set sail and have no fear

has lost one of its most influential citizens; his position will be very difficult to fill. Des Moines has been a much better community, Iowa a much better state, and the U. S. a much better country because of his dedicated service."

The widow of a prominent dentist who passed away in 1956, Mrs. Mary Ritchey, 1154 14th street, said, ". . . the city, state, and nation have lost a valuable person; he will be greatly missed."

An attorney, W. Lawrence Oliver, who had known him for 30 years stated, "I had been closely associated with Archie Alexander in business, social and political affairs. His passing is a great loss to him family, community, nation and his friends."

For 22 years Dr. Clyde R. Bradford, surgeon and physician, had been a "close personal friend" of Mr. Alexander. "He was always doing a lot for his race, and for people in the community."

A former classmate who played football with Mr. Alexander at SUI, Walter Stewart, Central National Bank and Trust, avowed, ". . . not

Stop Bus Service In Rock Hill, S. C.

Rock Hill, S. C., (ANP)—Bus riders in this city were stranded last week when the system ceased operation because of a six-month boycott by Negroes in protest over segregated seating of the buses.

Paul Knight, owner of the Star Transit Company, ordered the two-bus lines to stop operations. There was no public announcement at the time, and city officials said they were surprised at the action.

Negroes constitute a majority of the bus lines' customers. They started the boycott last summer in opposition to segregated seating.

A similar bus boycott by Negroes in Montgomery, Ala., against segregation dealt a mortal blow to the company. A bus boycott of Negroes in Tallahassee, Fla., also proved costly to the transportation system in that city.

Also honored during Lincoln's 92nd anniversary observance were members of the class of 1907 who were presented Board of Curator awards for outstanding service. The citations, which were presented by Dr. Earl E. Your citizenship and deeds have been worthy of recognition and a place on the honor roll of educated men and women. The reflection of your training and competence in the arts and skills of human industry, and the manifestation of your sense of values which give ethical soundness and moral stamina to the stature of Lincoln people, cause the Curators to cite you this day."

Annual Alien Address Report Gets Underway

Omaha, Neb.,—District Director Robert C. Wilson of the Immigration and Naturalization Service, Omaha, Nebraska, advised today that the annual Alien Address Report Program is again under way.

According to Mr. Wilson, 21,000 aliens reported their addresses last year in the States of Iowa and Nebraska. The number this year is expected to be slightly larger. Mr. Wilson attributes this anticipated increase to greater publicity of the program last year, as well as this year.

Required by Law

The Immigration official pointed out that the address reports are required by law and fulfill a need to comply with these requirements may lead to serious consequences.

Forms with which to make the reports are available at all Post Offices and Immigration Offices. It is an easy matter to fill out one of the cards and return it to the same office.

Trained Personnel

Mr. Wilson added that trained personnel will be on hand in all Immigration Offices to answer any questions the reporting aliens may have regarding immigration and nat-

the Camera Guild

This delightful picture had to be timed to the split-second. In a movie you'd catch the whole story.

Every Family Needs Its Own Cinematographer

Yes, every family not only needs its own cinematographer, but every member of the family ought to be one. It is an impressive title, but really just means one who takes pictures with a movie camera.

There's no better way to keep a record of family life than in full color home movies that reproduce all of the brilliance and motion of the activity or scene that caused you to want to take pictures.

We're especially excited about home movie-making for all members of the family since we heard about a new camera that came on the market just a few weeks ago. It's the movie version of the familiar fixed focus or box still camera (except that it has a better lens) and it is priced at under \$30. Not much under, just a little. Made by a well-known manufacturer, it's practically foolproof, it's so easy to use.

With this camera you make one simple setting of the lens, wind the motor, and shoot. And, there's a guide on the front to tell you which setting to use, according to the way the weather is. Birthdays, weddings, graduations, holidays, and all the little every day things that are the material from which happy memories are made—will be kept fresh, colorful, and full of action in your movie films.

—John Van Guilder

Principal speaker at the Conference will be Lee H. Bristol, president, Bristol-Myers Company, who was national UNCF campaign chairman in 1956 and 1957. He will address the banquet session Saturday, Feb. 8. Dr. Willa B. Player, president of Bennett College, will be the keynote speaker at the opening session.

The Chicago Inter-Alumni Council, under the direction of its president, George W. Moore, will be host to the Conference. Mr. Moore is an attorney and an alumnus of Tougaloo Southern Christian College.

National Baptist Convention Directors Join Ministers in Fight to Oust President J. H. Jackson From Office

Atlanta, Ga. — Several hundred ministers, many of them members of the Board of Directors of the National Baptist Convention, an organization of more than 4,000,000 Negro members of the Baptist Church, went on record opposing the right of Rev. J. H. Jackson of Chicago to hold the office of Convention president.

The action came when the ministers submitted individual notarized affidavits protesting Rev. Jackson's incumbency to Rev. E. C. Smith of Washington, D. C. Rev. Smith is secretary of the Committee for a Constitutional Convention, a group of 10 ministers who, in December,

filed a "Quo Warranto" petition in the U. S. District Court of Washington, demanding that Rev. Jackson show cause why he should not relinquish the presidency of the Convention.

12,000 Churches

The Committee claims that Rev. Jackson, who is serving his fifth consecutive term as president, holds office in violation of the organization's constitution which limits the tenure of presidents to four consecutive terms.

The affidavits submitted today came from ministers representing 12,000 churches with approximately 2,000,000 members. According to the affidavits, each of the ministers was present at the 1952 meeting of the Convention when the Constitution was revised, limiting the tenure of the president, and again at Louisville last September when Rev. Jackson assumed a fifth term.

Press Curbs

Cleveland, O., Daily Times: "... Wladyslaw Gomułka, Polish leader who in 1956 was a strong reed of resistance to Moscow, this year decided he had to suppress a critical student newspaper and impose other press curbs. The reaction was quick and violent. That the Poles dared to act thus was a measure of their defiant strength. It suggests, too, that the rebellious spirit there and in the other satellites is never far beneath the surface."

Mirror pictures are easy to make, nice to have, and fun to show and impress your friends.

It's Almost Like Seeing Double

Yes, when you picture your subject reflected in a mirror, it's almost like seeing double but it also can give you a very striking and effective snapshot.

Mirror pictures are for the most amateur photographers—using the simplest of equipment, as well as for the professionals who are well aware of the effectiveness of this technique.

A simple camera with flash attachment enables you to take two pictures. There are only two things which you have to keep in mind that don't apply to other pictures.

First of all be sure that neither your camera nor the flash is reflected in the mirror. Secondly,

when you figure the distance, you add that between camera and mirror to that between subject and mirror.

This means that if you have a camera that won't let you shoot a picture closer than six feet—and your subject looks best posed a foot from the mirror, you will keep the camera five feet from the mirror. That's all there is to it.

"Find a pretty mirror, a good subject, and take camera in hand to make some snapshots that are different" and make a terrific impression on people who aren't "in the know."

SURVIVAL IS NOT ENOUGH

Edna Marie, 2 years old, was stricken by polio June 6, 1957. She did not have three shots of Salk polio vaccine. In 1958 several thousand little girls and boys, and adults, will be crippled by polio unless they are protected with Salk shots. DINNER SOCIETY

Mrs. Victoria Hendricks Extended Courtesies by Relatives, Friends in Columbus, Miss.; Brings Back Reminders of Her 2-Week Visit

Mrs. Victoria Hendricks, 1700 Crocker street, traveled to Columbus, Miss., and visited her late husband's relatives and friends during the past holidays, and while there stayed in the home of Mrs. Datha Leigh.

Extending her courtesies during her two-week visit were Mesdames Datha Leigh, Emma Hendricks, Lula White Berry, Minnie Simms, Mattie Floyd, Louise Wood, Elza Leigh, Ida Frances Taylor, America Young, Rosie Owens, Miss Lucy Taylor, and Messrs. George Hendricks, George Cook, and Grady Hendricks.

Gifts, Reminders

Mrs. Hendricks brought back many gifts and token reminders of her visit, including several house plants, a cactus, a lily, and an unusual specimen which resembled the exact shape and color of several entangled praying mantis. Also a rose-like plant, with smooth luxuriant leaves, minus spines or barbs, with a "rose petal" bud. She reports that all were cut fresh from out door gardens despite near freezing weather there.

"Lamb" Cakes

Another gift were two cakes in exact replicas of reclining lambs,

covered with snow-white seven-minute frosting, sprinkled generously with shredded coconut, with raisins for eyes and nose. The "lambs" had been the centerpiece for a dinner given in her honor by Mrs. Berry. Other gift reminders included pecans plucked from trees in back yards and home grown peanuts.

Mrs. Hendricks was impressed by the Negro colleges and grounds, but her most memorable recollection was an area about 100 miles from Columbus, Miss., where rooster fights had been once held. Today a 100 foot-deep cone shaped crater is on the very spot where the fights used to be. Residents related to her that the bottom had fallen out of the ring one day when the fights had been cancelled.

Enroute to Mississippi on Dec. 23, Mrs. Hendricks visited briefly with a niece in Madison, Ill. She arrived back in Des Moines on Jan. 4, returning via Kansas City, Mo.

Chan Streets in Des Moines, who had to give up their homes for the East High School Stadium—and weigh like mountains, today, on the minds of the many families in Des Moines who will have to do the same when the city's expressway goes through.

This week, Mrs. Rosa Page Welch of Chicago, Ill., well known to many groups as a singer, world traveler and lecturer, is breaking some "racial ice" at one of the churches in Kansas. She generally comes to Des Moines during February.

Dress Up For Leftovers

Like to use up those last slices from last Sunday's roast, without giving the family a case of leftover blues? Simple. Just serve them with an accompaniment that's a little out of the ordinary, and enjoy the praise that follows for the tasty way you beat the budget.

Such an accompaniment is Hot Potato Salad—a new way with spuds that makes a snappy appearance at your table, and is a natural companion for sliced cold meat. And a p.s. for flavor: treat both the meat and the potato mixture to a sprinkling of Ac-cent—your assurance of smacking good taste from this economical dressed-up dinner.

Hot Potato Salad

1 cup finely chopped onions
6 cups thinly sliced cooked potatoes
2 tablespoons minced parsley
1/2 cup cider vinegar
1/2 cup hot water

1 teaspoon sugar
1 egg, slightly beaten
1/2 cup salad oil
1/2 teaspoon salt
Few grains pepper
1 1/2 teaspoons Ac-cent*

Combine onions, potatoes, and parsley. Combine vinegar and water; heat to boiling; add sugar; stir until dissolved. Add hot mixture slowly to egg. Add salad oil, salt, pepper and Ac-cent. Beat vigorously with rotary egg beater until well blended. Pour over potato mixture; stir with fork until thoroughly mixed. Heat gently or let stand in warm place 10 to 15 minutes. Makes 6 to 8 servings.

*—pure monosodium glutamate.

AMERICAN DEMOCRACY
A PITIFABLE FLIGHT

Now that the rights of the Negroes have been pretty well clarified by numerous judicial decisions, those forces who insist on ignoring the law are passing legislative acts or city ordinances in an effort to nullify these decisions.

In fact, some of the proposals are so ridiculous that it is difficult to see how citizens of a democracy would undertake such things. Certainly, they have lost the respect of those who believe the law means what it says and Americans should abide by them.

The conduct of the opponents of civil rights have placed America in a most awkward position abroad for on one hand we are telling the world what a democracy should be when its own citizens are doing everything imaginable to negative that position.

Some of the tactics make many white people ashamed of their conduct. It is down right ridiculous leading one to believe that they are willing to go any length to accomplish their purpose either within, which is justifiable, or without the law—mob action.

The fight for equal rights has cost the Negro and his friends many a hard-earned dollar, an expense the government should have borne. On the other hand, the attempted killers of liberty have been financed by tax dollars many of which are syphoned from the pockets of the Negro.

These tactics have divided the American people on a program which they pretend to live by. And it hurts.

The fight for complete equality is a long way from victory. Thus, liberty loving people must not relent to be lulled to sleep by platitudes which mean nothing. These enemies of freedom have shown their hand. They are on the run. They must be kept on the run.

COOPERATION NEEDED
TO MAKE PROGRESS

The economic and political progress made by Negroes in Des Moines during the last decade did not come by accident. Some type of moving force was behind that progress every step of the way.

One small cohesive group after another made the contacts, performed their assignments, contributed funds and insisted on sharing that which came to the movement they supported.

Today, there is no such group but the job, such as it is, is left to individuals working separately without the benefit of advice and the strength which naturally comes by cooperation.

Unfortunately, too many youngsters, and particularly those who have profited by that combination, have been content to feather their own nest taking little interest in making further progress for the future.

This situation must not be allowed to drift along without a positive effort to pull the strings together and move ahead. And this being a political year, this admonition is doubly important.

COACH JIM MYERS
LOSING FRIENDS

The on and off again position of Coach Jim Myers at Ames in his threats to go elsewhere does football no good and gives the opponents of the game ammunition to criticize it.

His one year record raised the hopes of Ames football fans but unless he does an unusual job with the team this season, confidence will be lacking.

Dr. Moron Named to
U. S. Social Group

Hampton, Va.—Dr. Alonzo G. Moron, president of Hampton Institute, was recently elected a member of the United States Committee of the International Conference of Social Work.

The committee is primarily concerned with creating a better informed American public on international social welfare problems and programs, increasing membership in the ICSW which in turn will create interest and knowledge of ICSW. Dr. Moron's appointment is for three years, through December 31, 1960.

Background

Dr. Moron's background of social service will enable him to contribute much to the committee. He served as Commissioner of Public Welfare of Virgin Islands, and was housing manager of University Homes and John Hope Homes for the Atlanta, Georgia Housing Authority before coming to Hampton Institute.

SPORTS

BY ALLEN ASHBY

Looks as if Iowa U has a group of ball players who will be heard from in the future. About next year they should be ready. The Hawks have never had so many Negroes on one squad before. Seems as if just about every school but Minnesota and maybe Wisconsin has at least one on the squad.

Gonna be hard to keep a lot of people off the all-American squad this year. What would you do with Robertson, Chamberlain, Green of Michigan State? The boy at Oregon and the fellow at Temple? Then there is Rodgers, called the best player in the East. The catch is that if they don't all make it this year they will all be back next year with some more good help in a couple of guys from Bradley and one from Notre Dame.

Coach Harper of Kansas says shot stacking has come into its own because of fellows like Bill Russell and Chamberlain. Well we look for some coach or group of coaches to lead a campaign against it, so it will become illegal or they have fought every other defensive skill that chokes the high scores.

Hope you saw the pro-Bowl last Sunday. There was a lot of good football on both sides.

High School

So someone finally beat Tech's wrestling team. The heavyweight Bill Taylor needs a few lessons in use of his hands. We hope to get a chance to work on him soon.

Golden Gloves

It will soon be time for Golden Gloves battles again. We sort of lost interest in amateur boxing when the real vets who traveled were ruled out. But we shall be on hand to see if any of the present crop of kids is ready. They tell us that Red Barber is to take the team into Chicago. It will be a fine trip for kids and the boys might win for him.

Local

The pool meet is down to five men. Delmar Baldrige, Mo Eubanks, Clarence Hurd, Bill Jones and Carl Taylor.

5 Negro Sports Stars
On Male Athlete Roll

The 1957 Associated Press Male Athlete of the Year Awards named five Negro sport stars representing basketball, football, baseball and boxing. None were among the first place listings but Kansas basketball ace, Wilt Chamberlain placed sixth with 52 points; Jim Brown, power running rookie for the professional Cleveland Browns football team, was eighth with 40 points; ninth was heavyweight boxing champion Floyd Patterson with 34 points, Bill Russell, pro basketball star of the Boston Celtics, was eleventh with 27 points and Milwaukee's Hank Aaron was thirteenth with 14 points.

The winners were chosen by 214 sports writers and sportscasters using the point system. Three points were given for a first-place designation, two for second and one for third. Boston Red Sox Ted Williams won first place.

Previous Negro winners of the award were Joe Louis in 1935, track man Jesse Owens in 1936, and Willie Mays in 1954.

Bill Russell on East
Pro All Star Team

New York, (ANP)—Rebound artist Bill Russell of the Boston Celtics last week was the unanimous choice of sports writers and sportscasters for the East team which will play the West in the National Basketball Association's annual All-Star game at St. Louis, Jan. 21.

Top defensive player in the league, the fabulous Russell even topped the high-scoring Bob Pettit of the St. Louis Hawks in the balloting. Pettit received all but one vote for selection to the West squad.

Joining Russell on the East squad were teammates Bob Cousy and Bill Sharman.

Other ten players on the All-Star teams are Willie Naulls of the New York Knickerbockers, for the East, and Maurice Stokes of the Cincinnati Royals, for the West.

Rival coaches for the eighth annual game will be Arnold (Red) Auerbach of the Celtics, for the East, and Alex Hannum of the Hawks, for the West.

HEALTH FOR ALL

"While dental health teaching is observed in the Polk County schools throughout the year, it is especially emphasized during the month of January," said Ralph Norris, Polk County Superintendent of Schools.

Teachers in Polk County schools, in cooperation with the public health and school nurses, are stressing proper dental health practices. Out of this background of dental health teaching, many students in the schools are preparing posters for the third Annual Poster Project.

Health Posters

Judging of these posters in the schools will be under the supervision of health chairmen from the various schools. This judging within the schools will take place prior to January 30th. Winning posters will be brought to the Health Department not later than January 31st.

Dr. James F. Speers, Director of the combined health department, stated judging of the posters was the subject for discussion and instruction at a recent meeting of the health chairmen at the Health Department.

Louis to Pay \$20,000 a
Year on Back Taxes

Chicago, Ill.—Joe Louis, former heavyweight boxing champion has derived at least a tentative and feasible solution to his arrears income tax problem. Louis says he has signed an agreement with federal government to make payments on his back income taxes of \$1,250,000 at the rate of \$20,000 a year.

No Agreement

Louis' accountant, Arthur J. Wilson, said that the government has not made an agreement to accept less than the amount owed but rather that they hope that if Louis follows the plan agreed upon the government in a few years may call things, even.

At the rate of \$20,000 a year,

State Safety Department

A number of Iowans will die again this winter because they let their cars or garages become lethal gas chambers filled with one of the most insidious killers of the Automobile Age—carbon monoxide.

Frank Ullish, state safety education director, issued his warning today and advised Iowans to consider the exhaust fumes of their cars "a deadly poison."

He said winter always brings a number of carbon monoxide deaths because cold weather often leads drivers to let cars run in closed garages, or to sit in closed cars with the engine running.

Exposure

"If odorless, tasteless carbon monoxide seeps into the car, a driver may become unconscious literally without warning," Ullish said. Enough exposure in an atmosphere of carbon monoxide is fatal, he warned.

Ullish advised drivers never to let cars run in closed garages, to leave a window partially open if sitting in a car with the engine running, and to have manifold and exhaust system checked for leaks.

Warning

Ullish warned drivers who may become stuck in deep snow to be sure the snow is cleared away from the exhaust pipe before allowing the engine to run.

"A pile of snow may force exhaust fumes back under the car where it can seep up through the floorboards and kill an unsuspecting driver," he said.

Incomes

Under the agreement Louis said he would turn over to the collector the \$20,000 he receives in salary each year from the International Boxing Club of which he is a director. He also receives \$4,800 a year from the Joe Louis Milk Co. for public relations work and \$8,200 from a recording firm. Louis said that he would live on the income from the milk and the recording firms.

However, the current taxes on \$33,000 a year would amount to approximately \$12,000 leaving Louis only \$1,000 after the \$20,000 payment—unless allowable deductions reduce his taxable income and place him in a lower bracket. Wilson indicated this would be the case.

Prairie View Bowl Tilt
Ends in 6-6 Deadlock

Houston, Tex., (ANP)—A fired up Texas Southern University eleven last Wednesday battled favored Prairie View College to a 6-6 tie in the 30th annual Prairie View Bowl game here.

A crowd of 3,500 saw the two teams' battle in the contest, the second oldest bowl game in the nation.

HEAVENLY PLACES

Heavenly places are not all on high
Paradise lives, and is always close
by.
With the strength of our thought
There are miracles wrought.
Empowered by Heaven, in you and I
All of the graces are not in the sky
They can grow here, in the light of
the eye.

There is beauty for all
That is waiting the call.
All answers to prayers will come
if we try!
May we work for the good of all

creeds and races.
And look for His glory in everyone's
faces.
From His Heavenly tower
Great blessings will shower.
For Heaven is living where ever His
grace is.

So the seeker of truth rechecks and
retraces
Tries out the strength of the creed
he embraces.
His spiritual power
Will gain every hour.
When his thoughts are directed to
the Heavenly places.

hot anymore anyhow". Asked whether he'll do more "Amos N' Andy" films for television, Moore gave a frank answer: he hopes not as "I'm tired of them anyway". He says they look like fun but it's all work. Pear and his crew never did so much laughing till Moore took the mike and began his blow-by-blow description of the roast beef and the family upset. Moore feels it's time now to branch out into more varied comedian roles, not typed as Kingfish any longer.

prise marriage of the year, hasn't yet gotten over it himself, and the poor gals he left behind: well, they are just weeping in their champagne. Latest to be romantically linked was Kim Novak, just before the wedding. Sammy says, he's "just 32 and scared". He always intimated he might make it with Eartha Kitt, whom he dated seriously at one time, but that their temperaments just didn't jell. His sudden marriage seemed to be a thing he wanted to do, was afraid of, just decided to just plunge ahead and get it over with. His bride is deliriously happy.
