Burglars Take \$70, Narcotics, Cigarettes From Bell & Holbert

After forcing entry through a "round-about" way, burglars stole cash, cigarettes and some narcotics from Bell & Holbert Pharmacy, 1200 Center Street, early Friday morning.

According to police records, \$70 in change, 60 cartons of cigarettes, three used wrist watches, and some narcotics including 1,000 sleeping capsules and headache compound were taken.

Patrolmen George Kachelhoffer and James Biddle said the burglars got in by going through a manhole in the sidewalk at 788 12th Street, then sliding down a coal chute into the basement of the Billikin club. The burglars then forced open a door between the drugstore and the club and cut away the heavy mesh wire screen to get into the drugstore.

Lack Leaders

The Committee has found, in its work for the elimination of racial and religious discrimination in employment, on work performed under Government contract, that the lack of qualified members of minority groups is one of the factors which retard the extension of Equal Job Opportunity.

2nd Meeting

The Minority Community Resources Conference was the second of two important national gatherings the Committee has called within a year to attack this problem.

The first conference convened to deal with this aspect of the elimination of discriminatory employment practices was the Youth Training-Incentives Conference, held here Feb. 4, 1957.

At Integrated Central High School; Police Say Aim Is Creating Hysteria

Little Rock, Ark.—Following discovery of an uncapped, unfused stick of dynamite in a locker at integration-troubled Central High School, national (federalized) guardsmen methodically conducted a new search Tuesday—but found nothing after the third "bomb scare" call was phoned into a switchboard operator of the Arkansas Gazette. The operator reported the caller sounded like a white youth with his voice fuddled.

Maxton, N. C.—More than 1,000 Indians armed with guns fired thousands of rounds of ammunition mostly in the air, to break up a Ku Klux Klan rally here Saturday night. Sheriff official said that indictments will be asked against Klan members on charges of inciting a riot.

Charleston, S. C.—A 28-year-old white woman of the Windsor Drive in told police here last week that an early morning Negro prowler who knocked at her door, beat her up when she answered his knock.

Flashlight Search
Her words, "They are from out of town; they are going to blow up the school," sent police and guardsmen on a flashlight-room-by-room search of the school, but no explosives were found.

The second telephone call was received by a local radio-announcer Monday morning and the subsequent search was conducted while students were eating undisturbed in the cafeteria. C. C. King, a custodian, found the dynamite in a locker near the cafeteria on the basement floor after a 90-minute search.

PET-FIZZ IS NEW PARTY PET

Here's a brand new drink idea that combines the popular flavors of soda pop with the healthfulness of nonfat dry milk to create a Pet-Fizz.

This novel blending of milk and carbonated beverage is finding favor with both youngsters and parents. Its delicious flavor and foamy milkshake smoothness are enhanced by fanciful pet animal names which appeal to children.

This sparkle and vitality beverage has special interest for mothers because it contains nonfat dry milk with less than 1 percent fat content, over 36 per cent energy-giving protein, and all the B vitamins, calcium, and phosphorus of whole milk. It's an ideal way to add a nourishing milk product to soft drinks, and so simple to make that the children themselves can mix it easily.

PARTY PET-FIZZ
Put two heaping teaspoons of New Pet Instant Nonfat Dry Milk (just as it comes from the package) in a tall glass.

No Track for Pace-Will Concentrate on Studies

Ann Arbor, Mich. . . There will be no track for Jim Pace this year. Michigan's all-America halfback and cinders star said last Friday he'd rather concentrate on his studies.

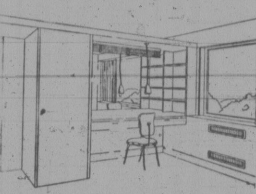

The flashy, broken-field runner was the Big Ten's indoor 60-yard dash champion last year.

A Room for Two Children

WHEN two youngsters occupy the same room, ordinarily they have little privacy. However, by using a bit of imagination and ingenuity, the fix-it-them-selves family can create a room that has two of everything, plus built-in privacy.

First, the room is divided by means of an extra-wide divider desk and closets. This way, there'll be a separate study and clothes-

storage area for each child. The separation of the space is completed by a sliding door.

Other features may include a radiator enclosure, fluorescent lighting, spacious drawers in the desks and an attractive soffit. Use of Masonite hardboards for the closet walls, desks, soffits and as underlayment for the flexible floor covering makes such a room improvement both economical and easy. A large variety of hardboards for these purposes are available at lumber yards.

Hardboards made by Masofite Corporation, the pioneer producer, are made by exploding clean wood chips in huge guns and then compressing the fibers into thin, strong panels under extreme heat and pressure. Being all wood, these panels may be worked and finished like wood.

For a free plan detailing how to create a youth room for two, write the Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill., requesting plan No. AE-265.

Happily for the modern homemaker, party cakes are speedily made with modern cake mixes. Speaking for itself is this special birthday cake accompanied by party cupcakes—all made with two packages of cake mix: one yellow and one devil's food. Top each frosted cupcake with a colorful candle to light the way to many, many more Happy Birthdays.

Marble Cake with Candle Cupcakes
1 package Swans Down Yellow Cake Mix
1 package Swans Down Devil's Food Mix
Chocolate Frosting
Butter Almond Frosting

Prepare cake mixes as directed on packages. Spoon half of the yellow batter into paper baking cups set in muffin pans. Use half of the devil's food batter in the same way.

Put large spoonfuls of the remaining yellow and chocolate batters alternately into two round 9-inch layer pans, which have been lined on bottoms with paper. With a knife, cut through batter in a wide zigzag course to marble. Bake in moderate oven (350° F.) 20 to 25 minutes for cupcakes and 25 to 30 minutes for layers. Cool cakes.

Spread Chocolate Frosting between layers, over top and sides of cake, and over tops of yellow cupcakes. Prepare Butter Almond Frosting. Put a little of this in a paper cornucopia to write "Happy Birthday" across top of cake. (If frosting is too soft to use in tube, add a little confectioners' sugar.) Spread rest of Butter Almond Frosting on chocolate cupcakes. Insert a candle in each cupcake. Chocolate Frosting. Measure 6 cups sifted confectioners' sugar.

Cream 6 tablespoons butter; add part of sugar gradually, blending well. Mix in 1/2 teaspoon salt and 4 squares unsweetened chocolate, melted. Add rest of sugar, alternately with about 1/2 cup milk, until of right consistency to spread, beating until smooth.

Butter Almond Frosting. Measure 2 cups sifted confectioners' sugar. Cream 1/4 cup butter; add part of sugar gradually, blending well. Add dash of salt. Add rest of sugar, alternately with about 3 tablespoons milk, until of right consistency to spread, beating until smooth. Add 1/2 teaspoon almond extract and blend.

MIX TRICKS: You can bake the cake and cupcakes a month in advance, frost, and freeze. Just remember to put the frosted cakes in the freezer to set before wrapping in freezing paper; and to remove this paper as soon as the cakes come out of the freezer, before they begin to thaw.

The "bomb scare" incidents climaxed a series of small "bad feeling" inspired actions that have plagued the forcibly integrated school since the last Army troops were dismissed in November.

Name Calling

The latest occurred Thursday shortly before the first "bomb scare" call. In what school officials called a food-throwing incident, a white boy dumped a bowl of soup on Minnehan Brown because she had called him "white trash" the day before.

Miss Brown has been reinstated to the 2,000 student-school just four days. She had been suspended late in December for dumping a bowl of chili on two white boys.

Others Suspended

Several white students have received suspensions also, for "pushing incidents." Tuesday, several white boys reportedly pushed a Negro boy down but the report was not confirmed by school officials.

Recently the school has been guarded at night by civilian troops who are stationed at the school only during class hours. Even though classes were not held Friday at the court-integrated school, the regular quota of guardsmen—about 25—were on duty. Teachers were checking mid-term papers.

Stands Pat

"Most of the people don't expect to see the Negroes stay in school if the troops are removed," he added.

He reiterated his stand that under present conditions the only solution to the Little Rock situation is the withdrawal of the nine Negro students from Central High School.

permitted to do so. For refusal to submit its membership lists in compliance with an order by Judge Jones, the NAACP was held in contempt and fined \$100,000. The Alabama State Supreme Court refused either to dissolve the injunction or lift the fine.

Power to Exclude

For Alabama, Assistant Attorney General Edmon L. Rhinehart argued that the State of Alabama has an "inherent power to exclude" corporations as it sees fit and, accordingly, was within its rights to refuse to register the NAACP. Mr. Rhinehart further argued that the NAACP, in its appeal to the Alabama Supreme Court, had followed the wrong procedure in that the Association had filed a petition for a writ of certiorari whereas, he told the court, the remedy in Alabama is through a writ of mandamus.

Negro Federal "DA" Featured in Ebony

Chicago.—U. S. Deputy Attorney for Maryland John Hargrove, who has collected some \$500,000 in Treasury-owed fines and has won 78 out of 80 jury cases is the subject of a feature story and pictures in the February issue of EBONY Magazine.

Federal attorney Hargrove is the first Negro ever to hold the federal post in Maryland. He travels throughout Maryland and into Virginia and North Carolina where the Maryland Circuit Court sometimes sits.

According to EBONY Hargrove worked his way through Howard and Maryland universities and has developed a forthright and fearless court room manner that has won him the admiration of the bench.

In 1956 Hargrove became one of the first two Negroes admitted to the previously all-white Baltimore Bar Association.

The EBONY feature shows pictures of U. S. Deputy Attorney Hargrove at work, and at home with his wife, Shirley and two sons, John Jr., and Steven.

Faubus Smiles at Blasting Speech

Little Rock, Ark.—While all around him were gasping with embarrassment, and many high officials were walking out of the Arkansas Press Association's annual dinner here, Governor Orval Faubus listened intently to every word of an outspoken speech by Palmer Hoyt, publisher from Denver and even applauded at the finish.

Most of Faubus' friends, interviewed in the ante room, nervously stated they thought Hoyt's words most insulting and "in the worst taste I've ever seen." Faubus himself said: "I considered the speech the judgement of another self-styled expert from afar about a situation with which he cannot be familiar."

Text

Text of Mr. Hoyt's speech read: "Little Rock, whether you like it or not, has become an outpost in America's cold war struggle against alien forces who would enfold behind the Iron Curtain the billions of offwhite people who populate the earth. Behavior that suggests contempt for law and intransigent opposition to redistribution of equal right among persons of all colors hands over weapons of murderous potential to our enemies."

Carter G. Woodson, Historian, Elected to Ebony Hall of Fame

Chicago.—Carter G. Woodson (1875-1950), has become the third distinguished American named by readers to The EBONY Hall of Fame. Woodson is credited with having put the Negro back into the history books.

The late Virginian, had a consuming interest; the resurrection of the lost history of his people. He wrote 16 books about the Negro, initiated the annual February celebration of Negro History Week, and founded (1915) the Association for the Study of Negro Life and History.

Woodson, who never married, is the author of the 800-page book, THE NEGRO IN OUR HISTORY.

Nixon

Vice President Nixon told the conference that the youth of minority groups need inspiration for higher training and that such inspiration "has to come in the home; it has to come in the local communities; it has to come through your various fraternal and other organizations, and through your schools."

Aid Youth

"And today we are asking you to do your job . . . by going back and inspiring your young people to prepare themselves to move into those various positions as they certainly can and will.

"If you do nothing more, if you could pick out one or two young people in your own communities, and help them along the way to progress . . . this would have made this conference worth while. I don't suggest that you should stop there. But at least that much can be done."

Jealousy in Child Life Can Hamper, Harm Personality Development if Parents, Adults Do Not Plan to Help Him Overcome It

Written by May P. Youtz, SUI Associate Professor

JEALOUSY IN CHILD

"Oh, Aunt Mary, you always remember everybody!" Betty Brown exclaimed to her aunt, who had come to see the new baby girl. Aunt Mary had brought a toy to Billy, aged five.

Helping an older child accept a new baby happily is not always an easy thing to do. Many young parents today are aware of the jealousy which comes naturally to an older child when a new baby arrives and can put themselves imaginatively in the place of the older child. They recognize that it is important to help a child handle his feeling of being left out, of being supplanted by the newcomer.

Love Relationships

Actually, every form of jealousy has its origin in the love relationship. Many parents do not quite realize the intensity of the little child's desire to be the one and only person to be loved by his father and mother. For five years Billy has been the "one and only" child in the family.

Second, the new baby has to take much of his mother's time. Third, most persons who come in are not as thoughtful as Aunt Mary; they exclaim over the baby and never even notice Billy—and so on and on.

What to Do?

What can parents do? It is well to realize how deep jealousy goes.

used in many colleges throughout the nation.

Many Articles

He authored numerous articles founded and edited both the Journal of Negro History and The Negro History Bulletin.

According to the February EBONY, his books are used at every level of education and it is impossible for anyone to do a serious study of the Negro without studying his material.

The scholarly Mr. Woodson's picture has been added to The Ebony Hall of Fame, housed in the Johnson Publishing Company home office at 1820 S. Michigan in Chicago.

Tea With Meals For Family Good Will

When planning a family meal, most women think in terms of likes and dislikes of the members of their family. They strive for good nutrition first, which is essential in rearing a healthy family. But meals serve a purpose other than gustatory revelation... it's also a time of day to encourage esprit de corps among family members. One of the elements so basic in encouraging family oneness is relaxation. In this connection we'd like to recommend a hot beverage—tea—as the ambassador of good will in the family unit.

Tea not only aids digestion but relaxes the body, relieves nervous tension and provides a pick-up which most folks need—especially parents after a busy day.

To make a good, full-bodied pot of tea for the family meal, it's important to follow the Four Golden Rules—just as it's important to follow a cake recipe precisely. The rules are simple: (1) always use a teapot (2) use 1 teaspoonful of tea or 1 tea bag per cup (3) bring fresh water to a full-rolling boil and (4) brew 3-5 minutes.

A surprise main dish, sure to please the family is Duck Hawaiian.

DUCK HAWAIIAN

(Makes 4 to 6 servings.)

Cut 1 5-6 lb. Long Island-duckling, dressed weight, into serving pieces. Remove skin; place duck pieces in mixing bowl. Combine 2 tablespoons kitchen bouquet, 1/2 cup lemon juice, 1 clove garlic finely minced; pour over duck. Marinate 45 minutes turning occasionally. Melt 2 tablespoons duck fat in heavy frying pan. Brown pieces of duck on all sides. Add 1 cup unsweetened pineapple juice and any left-over marinade. Cover tightly; simmer until duck is tender—about 45 minutes. Add 2 green peppers cut into 1/2 inch cubes. Cover and cook 15 minutes longer. Blend together 2 tablespoons corn starch, liquid from 1-3 ounce can of mushroom crowns and 1/2 cup sugar. Add to duck stirring constantly until thickened. Add 4 slices unsweetened pineapple cut in quarters, 4 medium sized carrots quartered and cooked and fresh water to a full-rolling boil and (4) brew 3-5 minutes.

Radars

Chester, S. C., Reporter: "An article in the current Aviation Week magazine blows the wraps of secrecy off an important long-range radar installation set up in Turkey by the United States to keep watch on Russia's missile program. In an accompanying editorial the magazine's editor justifies this seeming breach of national security by remarking that the radar observation program was a secret from no one—but the vast majority of the American people."

There's nothing like a good photograph to back up your story that the fishing was really "topnotch."

Back Up Your Fish Story

According to the latest statistics we could track down, about thirty million people—and that's roughly one-fifth of the total population—go out to try their luck with rod and reel every year.

We'd like to make this suggestion if your weekend or vacation plans include a fishing trip: Be sure your camera goes along with your tackle when you set out for the "big catch."

You know we frequently mention how much help your camera can give you in the pursuit and enjoyment of your other hobbies. We feel that this is especially true in the case of fishing—for what better way is there to keep a record of the big one that got away! than in pictures you take with your own camera?

In many of the album collections we've seen, some of the most successful picture stories have been those that carried the title, "My Fishing Trip," along with details on when and where it took place.

The real beginning of such a story usually goes back to the day in early spring when Dad first fer-

rets his old fishing hat out of its winter hiding place and sets about putting rod and reel in peak condition for the workout to come. This "dry run" provides the first chapter of any angler's story—and some fine picture material, too, whether you choose to shoot in color or black-and-white.

When the "great day" finally arrives, there's nothing like the equipment in the car, getting final instructions and good wishes from the family, picking up the friends who've been planning this trip together all year. Your camera should catch these pictures, too, as well as scenic views of the site the anglers choose when they reach their destination.

Of course, the actual "catch" deserves feature billing—and don't forget to get a shot of supper sizzling in the skillet over a roaring campfire—whether it's fish or bacon and eggs will depend on who's doing the casting!

We personally feel that a camera is a real "must" for anybody setting out on a fishing trip.

Reading one of the daily papers, my eyes caught the words "Old Man Crow."

"Crows are smart." I began to read, wondering if the statement had anything to do with Jim Crow, with whom I am well acquainted.

I read on: "A crow likes devilment. He's built that way. His brain is so sharp and his eye so keen, he loves to skirt the very edge of danger and then flap away chuckling to himself at his bravado."

I said to myself, "this sounds very much like the actions of Jim Crow." Then, I discovered that the article was a review of Charles S. Adams' book "Hunting Crows, Year Round."

It wouldn't be a bad idea to go out scouting for Jim Crow. Might make communities better places for all citizens to live.

AN EXCELLENT EXAMPLE

Readers of the Des Moines Sunday Register were greeted with a grand surprise January 19, when an article appeared that Don Graves, a local boy, had been hired as a teacher and coach at the Randall, Iowa High School.

They were doubly surprised and pleased with the attitude of the school board and towns people who, almost unanimously, chose a Negro to teach in a town, a high school where there are no Negroes, that Graves was hired on his individual merit.

The Bystander was proud that this incident was well heralded to the people of Iowa so that they might see what a community can do; that youngsters, and particularly Negroes, might see what Negroes can do if given an opportunity after preparing themselves for life's work.

There was a time when Negro graduates, after completing their education in Iowa schools, were forced to leave the state for employment. Thus, Iowa was paying to educate these youngsters to work elsewhere. This situation is changing and every good citizen must be grateful for it.

There can be no better example for others to follow than this one for it further demonstrates that youngsters must prepare themselves for the opportunities that are open to them, and there are many.

KLAN GETS DOSE OF THEIR MEDICINE

One of the reasons why racial antagonism has spread so much in America is due to the fact that too many people have felt that it is not important. They allowed a willful minority to get away with serious depredations and crimes against Negroes with little done about them.

As rotten an organization as the Ku Klux Klan is, it has flourished almost unmolested parading under the guise of free assembly, free speech and freedom of action within the confines of law and order. But they have been everything but that. They have carried on a campaign of cross burnings, bombings, whippings and other forms of intimidation almost at will. Very little has been done to curb them. Public officials in high places have been loath to speak out against them.

Negroes have resented this. At times, they have felt like dropping a bomb in their midst. But they have restrained themselves knowing that lawlessness against lawlessness seldom gets a fellow anywhere.

So, when the news came that irate Lumbee Indians in North Carolina had used firearms to break up a Klan meeting in North Carolina, even though their action was illegal, most decent folks said amen.

These tribesmen had suffered cross burnings in their neighborhoods and other acts of intimidation simply because they opposed the mixing—legal—of whites and Indians.

From all reports, the Klansmen got the worst of the deal. It was they rather than the Indians who were arrested and charged with inciting a riot.

Maybe the low culprits will not be convicted. But at least they have learned that everybody is not going to sit idly by and take these insults.

Of course, this is why they are mad with the NAACP for this worthy organization is using legal means to push them further from the pinnacle of white supremacy.

POOR JUDGMENT OF POLK SUPERVISORS

When a few Negroes fall down on the job, all too often the whole group is penalized as well illustrated in the action of the Polk County board of supervisors in firing the whole night crew for an act of negligence which might have befallen anybody.

And instead of hiring another Negro crew, the job has been contracted out to a firm which pays its employees less than was paid the men who were fired.

All people don't make good records. When Des Moines first installed parking meters the collectors stole so much of the money that a special machine was devised to keep their hands off the money. The guilty was fired but replaced by other men. All kinds of institutions here, and Polk County has been victims too, and elsewhere have lost millions to unfaithful employees but other people were hired to take their places.

The Bystander thinks the Polk County Board of Supervisors has done a stinking job for if private firms are hired to do the work in all departments for some frivolous reason then there will be little use for deputies and county clerks in these offices. If there action is good business in this department, why not carry it to a logical conclusion and

hire private firms to do all the work in the court house.

Whoever posed this idea was nuts and he succeeded in getting the nutty program adopted.

HEALTH FOR ALL

Polio Interracial Head Urges Vaccine Shots

Washington, D. C., — "Polio will continue to strike those persons who have failed to get their polio shots," Charles H. Bynum, director of interracial activities for the National Foundation for Infantile Paralysis, stated in remarks to the Mid-Winter Workshop of the National Newspaper Publishers Association. Mr. Bynum said: "pre-school children, teenagers and young adults have been slowest in securing the protection afforded by the Salk polio vaccine."

Bynum pointed out that "the American public, through March of Dimes contributions to the N.F.P., developed a safe and effective vaccine. But the American public has not taken full advantage of the protection made possible by support of the polio fund drive."

"Until the tens of thousands of polio victims who can benefit from modern methods of rehabilitation have been restored to maximum recovery levels, the fight against polio

must continue. There is no victory until those crippled by polio have received the full benefits of new methods of rehabilitation developed with March of Dimes support," Bynum concluded.

new middleweight champion Carmen Basilio scheduled for Mar. 25, Tuesday night at Chicago stadium.

The bout will be closed to home television but will be shown on theater television via Teleprompter, Inc., which paid \$270,000 for the rights.

In signing for the return bout Robinson must have gotten some satisfaction about the \$400,000 owed him from his original fight with Basilio at Yankee Stadium last Sept. 23. Robinson had said he would not fight again until he received his money or worked out a solution with the Internal Revenue department.

The receipts from this bout will be split down the middle on a 30-30 basis. In their last match Robinson received 45 per cent and Basilio 20.

SPORTS

BY ALLEN ASHBY

There seems to be a rash of lone basketball receivers in the Big Seven conference. Zone defense plus a full court press on man for man defense accounts for this. So it would seem that the extra tall guy who causes coaches to want the rules changed can be stopped by coaches willing to take time to figure out a few things.

High School

We're pleased at the number of Negroes who were in the city high school wrestling meet. Just about all of them won. East and Tech and North won at least one match and La Verne Greenfield of North won a title. We used to try really hard to get kids to wrestle. The coaches would simply say the others boys wouldn't wrestle with them. Don't know how the barrier was finally broken down but we better say Neal of North was the first Negro to make the grade. Then it became easy.

College Wrestlers

Iowa State has a Negro wrestler and Iowa U has had one a couple of seasons now. Another first is the guy who broke into Big Ten ice hockey. The fellow was just picked because he is good and not because he is anything else. Let us always bear those things in mind when we hear of Negro first in various athletic line.

The All Star basketball game in the pro-league earn King Bill Russell a chance to really show his wares, and Bill was good too.

ference tilts. Bishop now has a 1 won, 2 lost record in conference play. The Tigers lost another close one to Mississippi Industrial on Thursday, Jan. 9. That Fray ended 65 to 61. The Tigers made a clean sweep in the losing column during the tour by falling before Stillman College cagers 93 to 88 on Saturday, Jan. 11.

IN FIFTY-EIGHT

With hopeful hearts—now touched by fear—
We pray for peace to grace this year.
And look to God, to plead that fate:
Shall gain no ground, in fifty-eight
Instead of hate, despair and strife:
That men will seek a better life.
True brotherhood, humanity
With kindness, love, and charity.
God... give all men their liberty.
May heaven grant: good will, good cheer
And peace on earth... through-out this year.

THE HEARTS DESIRES

The hearts desires are buried deep—
Some dream about them as they sleep.
There are some hearts that thrive on lust—
Are stagnant with a mental rust...
They look at life with bleary eye;
And do not look up at the sky...
Nor let the mind reach for the peak.
That every active mind should seek...
Believe, and every waking thought—
Will be on wonders He hath wrought, kind...

And seek the answers for man—
That leave the evil things behind...
The path is marked with on straight line—
And on that path is every sign...
That teaches how to reach success,
And failure tells the dolts that guess...
Take time to analyze His word—
Compare it with the things you've heard,
And recognize the forceful fires...
Ignited by the hearts desires...

Building a Greater Iowa

America's No.1 Livestock State

Iowa feels justly proud of her great livestock industry... first in the nation! We rank first in value of beef marketed, first in hog production, first in livestock and poultry value on farms... all making more wealth and prosperity for our state.

Another real factor in Iowa's growing prosperity is our brewing industry... now employing over 23,000 Iowans, and with more than \$62,500,000 invested in this state. In this, and in scores of other ways, beer—the light, bright beverage of moderation—adds to the wealth and advancement of Iowa. Yes, in so many ways...
