## Blasts President's 'Go Slow' Policy

### Court Delays Integration Action Until Sept. 11

#### Central High Opening Postponed to Sept. 15

Washington, D. C.—Following an extraordinary session of the U. S. Supreme court a week ago to review the integration crisis in Little Rock, the nine justices delayed action until Sept. 11 after being assured, by the Little Rock School Board it would postpone opening of Central High school until Sept. 15. It is believed by observers that before classes are resumed at the strife torn school the high court will have rendered its decision . . . on the merit of the case . . . Whether integration should not be thwarted by violence or the threat of violence or should the 2½ year suspension granted by a federal district judge is advisable.

#### Gov. Faubus

To add confusion to the issues Gov. Orval Faubus, who had presented a series of anti-desegregation bills to the Arkansas legislature which passed them, has not signed bills which would permit him to close schools in an emergency should integration be ordered by the Supreme court.

#### Delay Classes

One statute which would have delayed Central High's opening to Sept. 15 was not signed and thus the school's opening would have reverted to Sept. 8, date of the Little Rock court decision.

#### School Integration Around the Nation

Norfolk, Va.—Following announcement that the school board here intended to assign 17 Negro pupils to white schools for the term scheduled to begin Sept. 8, police were alerted to guard against racial trouble stirred up by outside agitators. However, the school board asked for a one-year delay.

Clinton, Tenn.—Quietly and without incident Clinton High School began its third year of integrated classes. Clinton was the first state-supported school in Tennessee to integrate.

Arlington County, Va.—School officials who are under federal court order to admit 30 Negro students to white schools, are playing a delaying action to await the decision of the Supreme court decisions on Little Rock.

New York, N. Y.—The board of education's commission on integration Monday recommended rezoning, strategic building in fringe area and re-assignment of school personnel as keys to desegregation in the city schools.

Ardmore, Okla.—Previously all white Springer Community school enrolled 19 Negroes Friday without incident. Two deputies were at the school when the classes began at 8 a.m. "Just in case."

#### DES MOINES A CITY OF BEAUTY

Featured in Monday's Des Moines Tribune, No. 184 in a series, a reporter wrote:

A student nurse who will be graduated Sept. 5 from Iowa Methodist Hospital's school of nursing is Ruth Martin, 24, daughter of Mr. and Mrs. Paul Martin of Ames.

Her warm smile will remain at Iowa Methodist, however. She plans to continue nursing there.

Miss Martin is a graduate of Ames High School. Her interest in nursing was awakened when she worked in the dietary department of Mary Greeley Hospital in Ames for two years. She enjoys hi-fi and is an enthusiastic football, basketball and baseball fan.—Photo Courtesy of Des Moines Tribune.

### Publisher Charged In Auto Accident

Atty. J. B. Morris, Sr., editor and publisher of the Iowa Bystander was charged Tuesday with failing to have his vehicle under control. The charge grew out of an accident in which Atty. Morris was identified as driver of a car which struck and fatally injured Leroy Anderson, 80, of Fort Dodge Monday and was filed in police court in that city by Highway Patrolman L. W. Dickerson.

#### Stepped Onto Road

According to officers said Anderson was standing on the shoulder of Highway 169 about 8 miles north of Fort Dodge, and watched two cars pass. Then he stepped onto the road and was struck by the Morris car, they said. Anderson died one hour later in a hospital.

#### Will Contest

Upon learning of the charge Atty. Morris said Tuesday he would plead innocent to the charge and "most certainly will contest it."

Atty. Morris had been returning from a weekend fishing trip near Mason City when the accident occurred.

Anderson was the eighth of nine traffic victims during the Labor Day weekend which fell one short of a prediction of 10.

#### Mrs. G. B. Tucker Undergoes Surgery

Mrs. G. B. Tucker of 1101 School Street entered Mercy hospital Tuesday, Aug. 19, where she underwent surgery. Following the operation her condition was listed as satisfactory. Her room number is 220.

### Urges Revision of Opinion On Pace of Desegregation; Call for Steady Progress

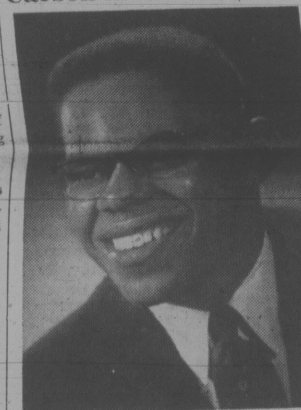

Chicago.—Addressing the annual convention of the National Bar Association here, Roy Wilkins, NAACP executive secretary, called upon President Eisenhower to examine the "snail-like pace of integration to date" with a view to revising his opinion "not to urge overnight action but to urge reasonable and steady progress in accord with law."

In his address Wilkins cited the President's press conference admission that he "might have said" privately that the school desegregation program should be slowed down. Mr. Eisenhower made his statement in answer to a reporter's question on August 27.

#### Incredible Position

#### Leaves for Camp Carson in Colorado

POWELL, JR.

J. Murphy Powell, Jr., of 1189 West 10th Street left Tuesday, Aug. 26, for Camp Carson where he began basic training in the U. S. Army.

Powell, Jr., received his degree in pharmacy last June from Xavier University, in New Orleans, La., and received his state board license in that state which reciprocates in Iowa.

He is the son of Dr. and Mrs. J. M. Powell, Sr.

### RECEIVES LIFE SAVINGS AWARD

Early Mosley, 32, of Fort Dodge, Ia., is pictured receiving a life saving award from Gov. Herschell Loveless, for saving two small boys from Drowning in the Des Moines river at Fort Dodge.

The presentation was made at the Iowa State Fair here Wednesday, Aug. 27.

said, is "incredible" information on the slow progress of integration, he asserted, "must have been kept from him by his advisers. The record is there for ready inspection and judgment."

Noting that "next door to the White House in the State of Virginia not a single school has been integrated in the four and a half years" since the Supreme Court decision, Wilkins asked: "Does Mr. Eisenhower think that Virginia should move more slowly than this?" He cited six other states in which "not a single school has been integrated" and three in which "only token integration" has taken place.

#### In Little Rock

"In Little Rock only nine Negro children were involved out of the entire city—nine among 2,000 white children at Central High School. Is this pace too fast in the President's opinion?" he asked. At the present rate of integration in Arkansas, 100 years would be required for completion, Wilkins pointed out. "But the President thinks the present pace of integration should be slowed down. Would he give Arkansas 200 years, or only 150?" To slow down, he asserted, "would be standing still."

#### Revise Opinion

Wilkins suggested that the President will "want to revise his opinion" once he has reviewed the official reports on integration. "He owes this to 2,000,000 Negro children still in segregated schools who are being denied their constitutional rights and being crippled each passing day as they seek to prepare themselves for life."

After two years he returned again to his native state but this time he stopped in Fort Worth.

At the same time Des Moines Tech High School was offering special night classes in welding, and Mr. Propes entered to learn about the art and techniques, amassing some 400 hours. He became so interested that he supplemented his learning with reading technical magazines, picking up a lot of pointers.

How to Even Up Chair Legs  
WHEN a chair is out of level, one method of evening the legs is to trim the legs which are too long. A simple method of performing this tricky operation is described in *Family Handyman*.

Form a tube of paper, fastening it together with paste. Now slip it over one leg, cutting off the tube at the exact tip of the leg as the other end rests on the rug.  
To assure getting each leg the identical length, slip the tube over each other one in turn, marking them to the same length. Now adjust the length of the tube to the shortest leg and mark all others for cutting.

## Homemaker's Budget Helper

Flavorful ham chowder made with instant nonfat dry milk is a real stick-to-the-ribs mealtime suggestion and one that is so good it positively calls for seconds. And once homemakers try instant nonfat dry milk, they call for it again and again for it provides high nutrition at low cost. Instant nonfat dry milk is rich in protein, calcium and riboflavin, the important nutrients of regular top-quality pasteurized milk, needed for good health. Only the fat and water are removed. Yet instant nonfat dry milk is so inexpensive. A family-size package makes 12 quarts (three gallons) of nonfat milk for as little as seven cents a quart. It comes in two other sizes also—a one-pound package which makes five quarts and a pre-measured package with three individual envelopes, each making one quart of nonfat milk. Instant nonfat dry milk mixes immediately, even in ice water. Just takes a jiffy to have nonfat milk for drinking, baking or for cooking as in our Ham Chowder recipe:

## Ham Chowder

(Makes 8 servings)

4 tablespoons butter  
2 medium size onions, chopped  
2 cups cubed, cooked ham  
4 cups diced potatoes  
1 cup water  
1/2 cup flour  
1/2 teaspoon pepper  
Salt to taste  
1 quart liquefied instant Starlac nonfat dry milk  
Melt butter in 4-quart saucepan. Add onions and ham; sauté until onions are tender and lightly browned. Add potatoes and water. Cover; cook over medium heat, stirring occasionally, until potatoes are tender, about 10 minutes. Sprinkle flour, pepper and salt over liquefied instant Starlac nonfat dry milk. Beat with rotary beater until just blended. Add to ham mixture; cook over very low heat, stirring constantly, until thickened.

## PRE-FREEZE FOR ANGEL PIE

When the freezer is put to use the best of the season's crops can be preserved for later enjoyment. One of the most eagerly awaited is the strawberry. Home frozen strawberries retain the fresh, juicy taste of newly picked ones for months when packed in approved freezing containers like Vapocans, square, waxed-board containers with rigid plastic lids.

Strawberries to use later in dessert recipes should be prepared in a tray, sweetened pack before freezing. This is all you have to do. After they are washed, drained, and hulled, tumble berries in sugar, 1/2 cup per quart. Pack in square, waxed-board containers and freeze immediately.

## STRAWBERRY ANGEL PIE

Here is a way to put a container of home frozen strawberries to mouth-watering use. Add 1/4 teaspoon salt and 1/4 teaspoon cream of tartar to 4 egg whites. Beat until stiff. Beat in 1 cup granulated sugar. Beat in 1/2 teaspoon vanilla. Spread in well-buttered, 9-inch pie plate, having mixture higher around the edge to make a rim. Bake 1 hour at 275°, then cool. Spread with 1/2 cup whipped cream. Let stand several hours. Spread a layer of 1 1/2 pints thawed strawberries over cream. Cover with second layer of whipped cream.

## Friendships Among College Newcomers May Be Geared to Basis of Common Activities

Written by Lloyd Lovell, SUI Assistant Professor

Now, as every fall, hundreds of young Iowa men and women are in the midst of feverish activity getting ready for their first year of college. Many of them will be preparing for their first extended experiences of living away from home and family. They are being offered all sorts of conflicting advice and opinions, and many of them doubtless have mixed feelings about the adventures that will soon begin.

### New Circles

One of the changes they may not foresee in connection with their new way of life is that some of them will feel increasingly out of touch with their friends from high school days. For a while, some of them will be a bit lost, away from the old familiar circles and not yet completely assured in the new circles that their college life offers.

### Common Interests

Most friendships depend in part on a communal basis of interests and activities. Many high school friends know a very great deal about each other's daily routines and rarer adventures, their worries and dreams. Often they cannot imagine that this close sharing of so much of their

lives could ever change. Separation means, however, that they know less and less about each other's daily occupations, changing plans and unusual experiences.

### College Newcomer

On visits, it may seem that they have less in common than they used to. This does not mean that one person's activities have been "better" or "more exciting" or "more worthwhile" than the others—they have just been different. While this is happening to his hometown associations, the college newcomer will be sharing increasing numbers of experiences with his new acquaintances, of course.

### Inevitable Change

What continuing friendship requires, then, may be a continual discovery of new areas of common interest and shared involvement. For friends separated by distance, these areas are often in the realm of ideas and community service and in the playing of similar roles as adults. Change is inevitable. But long-time friends often seem to change in the same ways at the same rates of speed.

## New Trend Appearing in Dixie As Churchwomen, Ministers Line Up on Side of Integration

New York.—Under the leadership of churchwomen, church leaders, and southern newspapermen, the South may within the next fifty years move further than the North toward integrating the Negro into society, the current issue of McCall's magazine (out August 28) stated today.

"With the backlog of guilt for its past treatment of the Negro, the South... may build up a momentum which carries it far past the North," the magazine said, adding that you can rarely find a more aggressive believer in any cause than a recent convert.

### In the South

In a comprehensive report on the desegregation issue, McCall's stated that throughout the South, southern—and particularly white newspapermen, churchwomen and their ministers—are lining up on the side of integration.

### Losing Battle

Few Americans realize that pro-segregationist organizations like the White Citizens Councils are surprisingly small groups that lack even the passive support of the majority of southerners, and that they "know they are fighting a losing battle." They have been effective so far because they know how to make the headlines of the nation's press through the use of mobs.

### Negro Leadership

Working as individuals through their churches and other organizations, great numbers of white southerners are aligning themselves with the young southern Negro leadership that is rapidly remaking the South, the magazine noted.

### Despite Headlines

McCall's survey is entitled "The Story Nobody Tells You" and was written by reporter William Peters who traveled 9,000 miles through the South to obtain background and data for his story.

"Despite the headlines and mobs, he reported, segregationist groups are slowly losing ground because of the effective resistance of thousands of white southern women, organized in local churches or in national religious groups."

### Church Groups

Organizations such as the United Church Women "are having a profound, if quiet, influence on the South in general and on ministers and churches in particular," said Peters.

These are the same women, he noted, who in a concerted campaign against lynchings in the thirties, drastically reduced the amount of

mob violence against Negroes.

### Clergymen

McCall's also noted that the recent activity of southern clergy-men is "impressive." Men like Bishop Randolph Claiborne, Jr. of the Protestant Episcopal Diocese of Atlanta and Reverend Joseph F. Rummel, Archbishop of New Orleans, have assumed strong and effective leadership in the struggle to defend Negro rights, stated Peters.

### Financial Cost

"Obviously, the southern attitude toward race relations is changing," the magazine said. "But even if this were not true, even without the brave voices of the church, the press, the educators and the younger generation, there is one hard, practical fact which cannot be ignored—the financial cost of maintaining segregation."

## OKLAHOMA CITY YOUTHS BREAK RACE BAN

Oklahoma City.—A "sit-down" protest campaign by 435 members of the Oklahoma City NAACP youth council has resulted in the opening of lunchroom and soda fountain facilities in four of the city's largest drug and department stores to Negro customers, Barbara Posey, secretary of the youth council, reported today.

The stores—Katz Drug Company, Kress Department Store, Veezy Drug Company and the H. L. Green Company—yielded to the youthful demonstrators after several days of protest.

### Gratified

Miss Posey said that the young people were gratified with their initial successes, but, "we are determined to continue the campaign until every facility is open to all." At a youth rally here on August 27, Mrs. Clara Luper, advisor to the youths, expressed thanks to the various organizations and individuals for the hundreds of letters and telegrams of encouragement and support which the youth have received from every part of the nation.

In New York City, Herbert L. Wright, NAACP youth secretary, hailed the Oklahoma City youth council for its outstanding accomplishments and called on youth groups throughout the nation to take similar action.

## ROBESON TELLS RUSS TO FIGHT FOR FREEDOM

Moscow.—Paul Robeson last week called on the Soviet people to fight for freedom.

Addressing a concert audience, Robeson also said:

"When I read in America about the Sputnik my thought went out to my friends; the peoples of the Soviet Union whose minds and hands have created this miracle, opening up to mankind the boundless expanse of the cosmos.

Robeson is idolized in the Soviet Union for his voice as well as his left-wing views. He was introduced to a packed house of 12,000 cheering fans at Moscow's sports palace as the Union's "great and dear friend" and a "fighter for peace and friendship throughout the world."

## National Home Week Begins Here Sunday

The ninth annual National Home Week in Des Moines will start next Sunday, Sept. 7, and run for eight days, with 46 model homes open for public inspection.

Almost a million dollars worth of homes, many specially built for the Home Week observance, have been prepared by 43 members of the Home Builders Association of Des Moines, sponsor of National Home Week.

### Sweepstakes

Visitors to the homes will have an opportunity to win up to \$2,300 in cash by entering the Twindow Sweepstakes, with the amount of cash to be awarded to be determined by the number of model homes the winners inspect.

### Model Homes

Model homes will be open for inspection from 1 to 8:30 p.m. on opening day, Sept. 7; from 5:30 to 8:30 a.m. during the following week; and from 1 to 8:30 on Sept. 14, the closing day. The model homes range in price from \$11,900 to \$33,000, but most are in the \$15,000 to \$22,000 price range.

## 10 Fined for Illegal Gambling; 1 Suspended

Ten men arrested in a vice squad raid Aug. 20 at 808 West 12th Street, and a woman received a suspended sentence Wednesday, Aug. 27 when they were found guilty by Municipal Judge Harry B. Grund on disorderly charges.

Calvin Garland, 33, who gave his address as 902 Twenty-fourth st., was fined \$25 on a charge of operating a disorderly house where gambling is allowed.

Nine men were fined \$15 each on charges of frequenting a disorderly house.

Thelma M. Glenn, 32, who gave her address as 1218 School St., was sentenced to 40 days in jail when she pleaded guilty of resorting to a disorderly house and intoxication.

Judge Grund suspended the sentence on her agreement to leave town.

## Wilkins Urges

Court resolution passed by the Conference of Chief Justices at a recent meeting in California, Wilkins said that these state justices, in "hinting strongly" that the United States Supreme Court ruled contrary to the Constitution in the segregation cases, expressed "precisely the contention of the segregationists, including Orval Faubus, the Ku Klux Klan, the White Citizens Councils, the lily-white state legislatures, the killer-sheriffs, and the lyncher-lawyers."

The passage of this resolution, Wilkins maintained, indicates that they "want no interference by federal authorities with local self-government, regardless of how savage it may be, or how widely at variance with even ordinary concepts of justice."

### Cites Wilson's Case

As instances of the kind of justice Negroes are receiving in the South today, Wilkins cited the case of Jimmy Wilson who was sentenced to death in Alabama on conviction of robbing a woman of \$1.95; the acquittal of a Mississippi sheriff of the charge of beating a Negro prisoner to death, despite the testimony of two white witnesses; and the refusal of a federal grand jury in Dawson, Ga., to return an indictment against a police officer charged with killing two Negroes.

### Disfranchisement

This kind of justice, the NAACP leader asserted, stems from the disfranchisement of the Negro. The denial of the right to vote also makes it "easy to understand why 198 special laws could have been enacted in southern state legislatures designed specifically to circumvent or nullify the 1954 decision

of the Supreme Court. Some of these laws also aim at the destruction of the NAACP. Among them are provisions which would hamper, if not prevent completely, the practice of civil rights law by Negro or white attorneys."

He lives at 810 Boyd, and is a graduate of North High.

## Lodge Says He's Not Seeking Wilkins' Job

Washington.—George Lodge, director of public information at the Department of Labor, denied that he had any plans for taking over the job now occupied by J. Ernest Wilkins as assistant secretary of labor.

Reports that the White House had asked Wilkins to resign so that his position could be filled by Lodge drew the comment from the information chief that he is only trying to do the best job he can at his present post.

He said he didn't know how such rumors got started but he thought it very unfortunate. He expressed great admiration for Wilkins saying that he had been closely associated with him for several years. He has attended the ILO conventions with the Assistant Secretary since 1954. "Maybe that is why the rumor got started," he concluded.

## Gilbert Randle Is Assistant to Polk Rep. Chairman

Gilbert Randle, 51, of 1032 5th St., was appointed Saturday as an assistant to the Polk County Republican

In making the announcement, Leo Oxberger, Polk County Republican Chairman stated that the appointment was being made as a result of a resolution passed by the Polk County Republican Central Committee at its meeting Wednesday evening, August 27. ## SEE IN STARS

New York City, (CNS)—In its last three weeks, Larry Steele's "Smart Affairs of 1919" at Club Harlem in Atlantic City was spiced with Mauri Leighton's suggestive songs.

... she came in from Miami for the occasion... meanwhile, Arthur Lee Simpkins—a Latin Quarter (NY fixture)—is showing off his voice—and if you ever thought spirituals and semi-classical music would not go over with a bang among a bunch of noisy, drinking folk—then you'd have to hear the magic of Arthur Lee Simpkins and how his powerful voice stops the customers with their drinks halfway to their mouths—and leaves their hand suspended until his song is ended... Doing such as "I Believe", "Just A Wearying For You", "Granada" and others—he captivates his audiences such as Paul Robeson... and surely you've never heard "Ave Marie" in a nightclub at 2 a.m. ... well—

Simpkins does, and the audience won't let him get off the stage...

### Della Reese

Della Reese searching for another hit record... meanwhile, is booked at Mister Kelley's in Chicago for a stint this winter... Not matter how they make over "Imitation of Life", many movie fans feel the plot is too out-dated and the Negro has progressed too far to bring it back... "Jamaica", new in its 36th week—has come right back to the top, taking in more than \$40,000 after taking 6 weeks vacation...

### Paul Robeson

They're still talking about Mr. Robeson and how great a guy he is—over in London—and of course the singer is thrilled to be back in the limelight again—where he so rightfully belongs... He's been singing with more heart than ever—and is

## Racial Violence Flares in Industrial Centers of England

London, England.—Africans, West Indians and Pakistanis, who had been welcomed to England during the past five years, are now in fear of their life as racial violence perpetrated by mostly white teenagers plagued industrial cities of England for the third straight night, centering mostly in the Notting Hill district and the borough of Paddington.

Two thousand whites, mostly teenagers, rampaged through debris-littered streets of Notting Hill, breaking windows in Negro homes; West Indians at two barricaded houses hurled homemade fire-bombs at the mob.

### Cafe Wrecked

In Paddington, gangs of white youths wrecked a cafe frequented by Negroes.

Police moved in with trained dogs and squad cars to separate the combatants. By early morning they had cleared the streets and arrested 34 men. One white man was stabbed in the shoulder. Scores of other persons had minor injuries.

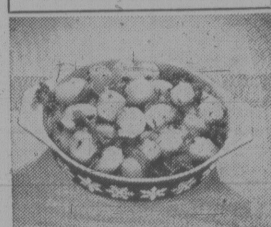

### In Nottingham

Meanwhile, in Nottingham, an in-

enjoying the greatest comeback of his career—The London critics said of him: "It is some years since we last saw Mr. Robeson and we find with relief that he is one of those whose age shows no signs of withering. Perhaps his face is cragier than it was and his voice, in song, a little less miraculously smooth, than we remember it... But he still talks to us quietly and good naturedly, and breaks into a smile that is the quintessence of friendliness: he still sings with a huge delight in his songs. These were facts ascertainable after five minutes of his half hour television appearance."

## PIMIENTOS-POTATOES A TASTY DISH

By BETTY BARCLAY

Let's face it. Potatoes can be delightful or they can be something to be left on the plate. But with pimientos to pretty them up and add a special delicate flavor, faded appetites perk up and second helpings are called for. This dish smells good, looks good and tastes good—and can be done with the greatest of ease. What's more, it's gentle on the budget.

### Pimiento Potatoes

2 lbs. small potatoes  
1 to 2 cloves garlic  
1 medium onion  
1 bunch parsley, small  
2 Tbs. oil or shortening

1 4-oz. can or jar pimientos.

Wash and peel potatoes. Boil in salted water until almost tender. Drain. Chop garlic, onion and parsley and add to potatoes. Saute all together in the hot oil and margarine until potatoes are lightly browned. Cut pimiento into large pieces or strips. Add to the potatoes and heat thoroughly. 4 to 6 servings.

#### Screen for Nursery

A FOLDING screen is mighty handy to have in the nursery, where it can be used to keep drafts off the crib and as a shield against light, noise and activity.

Like the one in the illustration, the screen may be made in the home workshop and neatly decorated by means of decalcomanias or stencils. Panels without the nursery characters may be finished with blackboard slating material, so the pre-school child will have a place to draw.

Materials for this simple device may be obtained in any lumber yard—1 by 2-inch lumber for the framing and crossbars, Masonite

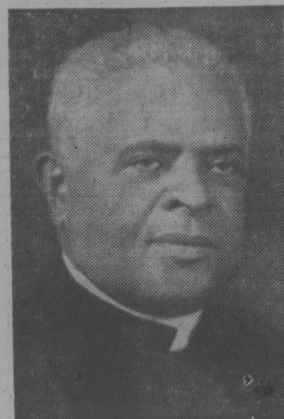

Tempered Duolux, a durable hardboard that's smooth on both sides, and the hardware. The panels, after being cut to size, are inserted in grooves which have been cut in the framing with a power saw.

The stick-on pictures are available at paint and hardware stores, which are sources also for stencils used in hand-painted work. Major paint companies make slate surfacing material, which simply is brushed on the Masonite Duolux with a brush after the panel has been prepared with two coats of clear sealer.

"Grandparents are those people you take the baby to for an over-mauling!"

### Jule Kaga

A fruit and nut-laden loaf of Jule Kaga served with frothy fruit juice evokes a gay holiday mood for an early morning breakfast.

Warm buttery slices of Jule Kaga will surely delight Christmas callers. This Norwegian Christmas bread has an unusually good flavor created by ground cardamom, candied citron, raisins and chopped almonds.

Few things can compare with the fragrance of freshly baked bread. Especially at Christmas time, baking becomes a part of the gay holiday festivities.

The ingredients for this oven-fresh bread make their own contribution in nutritional value. Milk, sugar and eggs skillfully supplement the food value of the enriched flour. Many of us don't realize that enriched flour offers three B-vitamins, food iron, plant protein and food energy.

Serve Jule Kaga just fresh and warm from the oven with mugs of hot chocolate. Perhaps you will want to feature it at a holiday brunch. Or, slice it thin and spread with cream cheese making dainty sandwiches to serve with hot spiced tea to holiday callers. The family will eat generously when slices of this bread are toasted for an early morning breakfast.

The baker helps make your task of feeding the family a nourishing breakfast an easy one. When there is no time for baking, select a coffee cake from the bake shop. The baker has fashioned both traditional and new coffee cakes with tempting fillings and toppings. Wrap aluminum foil around the coffee cake and warm in the oven. This will give it a "fresh-from-the-oven" goodness.

### NAACP mourns Passing of Leader in S. C. Struggle

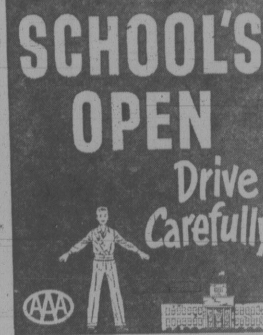

New Cork.—The death of Rev. Alfred Isaacs, pastor of the Union Baptist Church here, deprives the NAACP of "one of our most outstanding co-workers in the fight for freedom." Roy Wilkins, NAACP executive secretary, said in a telegram of condolence addressed to the church's associate pastor, Rev. Oliver Brooks.

#### Former Leader

Mr. Isaacs, a former leader of the NAACP in Orangeburg, S. C., died here on August 22 of a heart ailment. He was, Wilkins pointed out, "one of the Association's leaders in South Carolina who resisted successfully the economic boycott and reprisals of the White Citizens Councils against Negroes active in the fight for school integration." His leadership at a time when the Negro in the South struggled against great adversity will long be remembered and appreciated by all those with whom he was associated.

#### At Funeral

At his funeral on August 26, the NAACP was represented by O. B. Current, director of branches, who extolled the late clergyman as "a great preacher in the prophetic tradition of Isaiah, Jeremiah and Amos."

WEAK LEADERSHIP  
INJURES INTEGRATION

Immediately after the Supreme Court handed down the school segregation decision in 1954, President Eisenhower urged the school board in Washington, D. C. to get the job done promptly so as to be an example for other cities and school districts to follow.

Last week he told a reporter at his news conference that he felt that desegregation was being pushed too fast. He refused to state his views on the merits of the decision and yet earlier he had said that there were sufficient laws on the statute books to protect the rights of the Negro.

It is agreed that no law, without the moral backing of the people, can succeed. The failure of the 18th Amendment is often cited as an example. But these same people forget that crooks and gangsters took control of the liquor traffic, went unpunished however grave their crimes and turned it into a grand racket.

The same thing may be happening to desegregation. Gov. Faubus, the White Citizens' Councils and the hoodlums and their followers are doing the gangster work, to the extent that the good people fear any activity for school integration.

Much of the bold action by anti-segregationists has developed because no champion of sufficient stature has come forth as a definite leader in the creation of a climate which would enable the decision to be accepted by most people even in the North. President Eisenhower, with his tremendous popularity, could and should have done it. And by pulling the rug from under law abiding citizens last week, he has encouraged the rabble to push harder against the very thing he is pledged to uphold—law and order.

PROGRESS IN MOVIE  
OPPORTUNITIES

For many years Negro actors have been trying to break through the movie taboo of using them in minor and generally menial roles mostly as cooks, waiters and maids. This has been true of all the studios.

Several groups, including the NAACP have been working with owners and directors to change that policy. In recent months there has come evidence of a change for the better. United Artists has been releasing some outstanding pictures including Kings Go Forth and Run Silent Run Deep. All have been shown at the RKO Orpheum Theater. A new one "The Defiant Ones" will be shown in Des Moines shortly.

These producers are buying space in Negro newspapers to advertise these pictures in addition to the regular daily newspaper ads placed by local houses. They want to know whether Negroes like the pictures which, of course, can be shown by just how well they turn out to see them.

Movie people are profit-making organizations. Naturally, their sole interest is not the Negro but to give him a wider opportunity to enjoy the glory and money which other big actors receive.

The Bystander is one of those papers in which these ads appear. It is suggested that youngsters looking for opportunities in this field see these features and bring their friends.

Rock's school board initial announcement of postponing of classes. However, the school board in a 5-1 decision, held to the Sept. 15 date. Virgil Blossom, superintendent of schools, announced the decision was made in deference to the Supreme court.

## What Then?

When asked whether the school would open integrated if the Supreme court orders it, Blossom answered, "The board will cross that bridge when we come to it."

## NAACP Petition

The proceedings in the supreme court Thursday involved a petition of the National Association for the Advancement of Colored People to set aside a 30-day delay ordered by the eighth circuit court in carrying out its decision overruling a district court decision.

## Stay Order

District Judge Harry Lemley had granted a 2½-year delay in Little Rock integration. The circuit court reversed him, but later granted the Little Rock school board a stay of its order so that an appeal could be taken to the supreme court.

Now the situation is that the court on Sept. 11 will hear argu-

## Second Tan Umpire

Sacramento, Calif.—The Pacific Coast League introduced its second Negro umpire, August 7, when Les Lollis made his debut here as a partner of Al Mutart and Earl Lennon on a substitute basis.

Lollis, 36, has been one of northern California's outstanding sandlot arbiters. A graduate of Stillwater (Okla.) High School, he came to Sacramento in 1942 and began umpiring in the Sacramento Winter League in 1947.

Randy Turpin  
Matched Against  
Trinidad's Pompey

London, England.—Randy Turpin, British light-heavyweight champion on Sept. 9, will fight Yolande Pompey of Trinidad at Perry Barr in Birmingham.

Turpin's title will not be at stake since the bout is only a ten rounder. It will be the first time that Pompey and Turpin have been matched and Pompey has stated publicly that he intends to knock Turpin out.

Unbeaten since 1956, Turpin should give a good account of himself, in fact, a better account than in his second bout with Sugar Ray Robinson when he lost the world's middleweight title he had won sixty four days earlier back in 1951.

## SPORTS

## BY ALLEN ASHBY

Another football season is competing with baseball and the other summer sports; at Iowa they really don't know what to expect but are sure hoping for the best. About the safest thing we can say about the Hawkeyes is that they won't get run over too much.

## Iowa State

The presence of three Negroes at Iowa State makes it seem that maybe the new coach has changed his thinking or Brian Dennis was a bit hasty in leaving the squad.

If Drake steps in its class there will be many good games at the Drake stadium. But when does a team know when it is in its class? The Bulldogs had some good games last year and ought to be as good as they were then.

## High Schools

Here in the high schools it ought to be quite a city series. All of the teams will be tough with Roosevelt the best, maybe and East, one jump behind. The annual forecast are right but we just can't go along with the idea of picking an All-America team for this year on what they did last year. Those things are taken too seriously. Maybe the predictions ought to emphasize that his is strictly a guess and only for a few games.

But no. This thing claims to be real.

## World Series

Now we know it could be Milwaukee and the Yankees in the World Series. What will be the Yankees' excuse if they lose this time? But, so far they have yet to lose to the same ball club, two series in a row.

## CROCKER 'Y' BOYS

## CLUBS PLAN MEETING

James F. Dixon, executive secretary of the Crocker Branch YMCA, announced that the Preps and Cadets, organizations for younger boys, will meet at 10 a.m. Saturday, Sept. 6, at the branch building to plan their program activities for the Fall season.

The Preps is a club for boys 8½-10 years old. Program activities will include crafts, movies, small games, calisthenics, special interest projects, etc.

The Cadets, boys 11-13 years of age, will meet each Saturday at 11:30 a.m. Their activities will include crafts, movies, field trips, drill team, game room tournaments, physical fitness instruction, etc.

ments on the merits of the case, rather than just a stay in legal proceedings.

## Government View

Full backing of the federal government went behind N.A.A.C.P.'s plea for no more delay or suspension of integration. Solicitor General J. Lee Rankin presented the government's view in an address to the court.

## HEALTH FOR ALL

Miracles are the commonplace of modern life. We've come to expect them. It will be more of surprise to us if we don't reach the moon in the next 10 months than if we do. "Leave it to the scientists. They can do anything." But sometimes they need our help. Take medical science, for example. With the knowledge and equipment he has today, your doctor can do what grandmother would call miracles. But we have to give him a chance.

## Salk Vaccine

When the Salk Vaccine for poliomyelitis was announced, we were all tremendously excited and anxious to take advantage of it. As soon as there was enough to go around, we relaxed and said, "That's taken care of. We don't have to worry about polio." And thousands of people who should be protected against polio aren't protected.

Diphtheria toxoid is an old story to us. "Nobody has diphtheria any-

more." Yet there have been startling outbreaks of the disease in recent years because every family hasn't taken advantage of the protection available.

## TB Cases

It's more than 10 years since we cheered the discovery of the first effective anti-tuberculosis drug. As new ones were announced, our optimism grew. "We've got this killer licked." Yet last year there were 14,000 deaths from TB. Over three fourths of the 90,000 new cases reported were in an advanced stage. When a case of TB is discovered in its early stages, it can usually be cured. Why weren't these cases discovered early?

Give your doctor a chance to make the miracles of medicine work for you. See him at least once a year for a physical check-up.

Althea Tells How She Picked Evening  
Gown Before Winning First Wimbledon  
Title in London in 1957

New York, N. Y.—Althea Gibson was so hopeful that she would win at Wimbledon in 1957 that the first week she was in London she picked out a beautiful evening gown to wear to the ball and had worked out a speech in case she won.

She confesses this in the final installment of "I Wanted to be Somebody," in the current "September 6" issue of The Saturday Evening Post. Miss Gibson comments that the subsequent opportunity to wear the dress and deliver the speech were part of a wonderful day in her life, a long way from 143rd Street in Harlem.

## Queen Elizabeth

The congratulatory handshake from Queen Elizabeth, she finds, was also a long way from being forced to sit in the colored section of the bus going into downtown Wilmington, North Carolina. And dancing with the Duke of Kent at the Wimbledon Ball, she says, was a long way from not being allowed to bowl in Jefferson City, Mo., because the white customers complained about it.

## No Lofty Ambition

"I have no lofty, overpowering ambition," Miss Gibson concludes. "All I want is to be able to play tennis, sing, sleep peacefully, have three square meals a day, a regular income and no worries . . .

"I think I've already got the main thing I've always wanted, which is to be somebody, to have identity. I'm Althea Gibson, the tennis champion. I hope it makes me happy."

Bishop Tigers Start Drills for '58 Season  
Coach Fisher Welcomes 30 Freshmen

Marshall, Texas.—Bishop College renews its program of re-building its athletic program with the resumption of football practice September 1 under the direction of Dwight H. Fisher, Athletic Director and Head Football Coach. Approximately 50 hopefuls signed up for the initial practice session scheduled for Monday, September 1 at the Tigers begin preparations for their second year in the Gulf Coast Athletic Conference.

## New Assistants

This year, Coach Fisher will be assisted by two new additions to the staff. They are Mac Charles Byrom, formerly with Southern University, and Willie Lewis who is fresh from Indiana University following a tour of duty with the armed forces following his graduation from Jackson State College in 1954.

## Initial Game

The Tiger coaching staff has its work cut out for the next three weeks as the Bishop team will meet the powerful crosstown rivals, the Wiley Wildcats in what may prove to be one of the season's thrillers on Saturday, Sept. 27 in Ownby Stadium, (S.M.U.) in Dallas. This will be the second game of the season for the Tigers who will meet

## THERE BEYOND?

Has the Prince of darkness triumphed?  
Is this globe now almost done?  
Will the unleashed cosmic power  
Make of earth a burning sun.  
Will the source of all creation  
Be the instrument of death?  
Can this squirming mass of evil  
Be erased in just one breath?  
Are we on the eve of judgement  
Or the age that conquers space?  
Will atomic world advancement  
Life man to a higher place?  
Will this time of great discoveries  
Be the age that leads to doom?

If we only knew the answers  
Would we live in joy? Or gloom?  
Out there, somewhere, on creations  
Ever-changing . . . stellar sea:  
Are the answers to all riddles  
Veiled in heavens' mystery.  
All the whys and all the wherefores  
There beyond . . . what will they be?

First American Serial Rights, Only

Protect us Lord, we pray.  
Security has flown from life  
All patterns set by liberty  
Are now a hollow mockery:  
The robes of peace are torn by strife.  
Or what import—land of the brave  
A pyre where lies a nation: dead.  
The aftermath of signal red.  
If it becomes a massive grave?  
They'll set the time, we may not know:  
While terror rides all winds that blow.
